Kentwood Community Clean-Up Day Set for Saturday, May 4

Kentwood, Michigan, April 23, 2019 – The City of Kentwood’s Community Clean-Up Day is scheduled for 8 a.m. to 2 p.m. on Saturday, May 4.

Residents wanting to “spring clean” their homes and yards may bring general debris, gently used items for donation, household hazardous materials and electronic devices to the Kentwood Recycling Center, located at 5068 Breton Ave. SE.

“With warmer weather and no more snow to shovel, residents now have the time to think about cleaning and decluttering homes and property,” said Kentwood Mayor Stephen Kepley.

“Kentwood’s Community Clean-Up Day offers residents a timely opportunity to dispose or recycle items that are no longer wanted or used.”

The [Salvation Army](#) will be on hand to accept gently used items for donations and the [Kent County Department of Public Works](#) will accept household hazardous waste items. [Comprenew](#) will also be present to recycle electronic waste, such as mobile telephones, computers and fax machines.

The City of Kentwood will accept yard waste, including brush, leaves and grass clippings, on Community Clean-Up Day, after which the drop-off services will remain closed until the fall.

Latex paint, mattresses and tires will not be accepted at Community Clean-Up Day. CRT screens will also not be accepted but can be dropped off directly at any Comprenew location.

Community Clean-Up Day is free and open to Kentwood residents with photo ID for proof of residency. Residents are asked to enter the drive off Breton Avenue where volunteers will check for residence and approved items for disposal.
