

Application For SITE CONSTRUCTION PLAN REVIEW

This application is appropriate for projects that include site work (such as installing a parking lot or access drive, installing utilities, grading earth or installing landscaping), but do not include any new buildings or building additions, and also for projects which would like to receive site construction plan approval in advance of making a Building Permit Application. Single family and duplex homes of less than 3,500 square feet are exempt from this requirement. **Please print or type. Incomplete applications may be returned.**
