ALERT: Warning Notice - Misleading Water Safety Information

HAVE YOUR SEEN THIS POSTCARD?

If you have, we urge you to ignore it! It is a misleading marketing mailer that was sent out by a Missouri company attempting to sell its water purification products by making false claims about the quality of the drinking water in your communities.

GLWA wants to assure you that the water provided by the Authority is of unquestionable quality – and not only meets, but exceeds the rigorous standards set out by the Safe Drinking Water Act. Our professional, skilled team members in Water Operations and Water Quality work tirelessly to ensure that GLWA fulfills its commitment to protecting public health and safety. It is one of our most important responsibilities as a water service provider.
