## **NOTICE TO RESIDENTS**

### **Riverbank Avenue Reconstruction and Water Main Replacement (Ferris Avenue to Wilson Avenue) Pavement Removals**

Through a selective bidding process, the City of Lincoln Park has awarded Hard Rock Concrete of Westland, Michigan a contract to complete the water main replacement and road reconstruction of Riverbank Avenue from Ferris Avenue to Wilson Avenue. On Monday, September 25, 2017, Hard Rock Concrete anticipates starting the removal of pavement on the south half of the street including all driveway approaches on the south half of the street. Therefore, residents on the south side of the street will not have access to their driveways for approximately 2-3 weeks while the Contractor removes, preps and places the new concrete pavement for the south half of the street. Once concrete pavement is placed, 5-7 days is required to allow the concrete to cure prior to opening to traffic. Once opened to traffic, temporary maintenance aggregate will be placed in your driveway approach to allow access until the driveway approaches are poured back.
