Solicitors Need to Have a City Permit

Did you know solicitors need to have a permit with the City of Mounds View and are required to carry a City-Issued ID badge with them?

If you want to speak with a solicitor, ask first to see their ID badge. Each permitted solicitor is issued a name badge with the City of Mounds View logo, the name of the company, the name of the solicitor, and the expiration date of the permit. A "company" name badge does not qualify as a permit from the City. Solicitors need to pass a background check and are required to follow the City's ordinances, which include hours of operation 9:00 a.m. to 8:00 p.m. on any day.

If a solicitor cannot show their ID badge issued by the City, or will not leave your premises when requested, you can contact the Mounds View Police Department at 763-717-4070 (after hours 651-484-9155) and ask to have an officer visit your neighborhood. Please remember that time is of the essence as the officer needs to be able to locate the solicitor to question or stop them.

Non-profit organizations do not require a City permit.

Nominate a Citizen of the Year Now: Due 1st Wednesday in March!

If you would like to nominate someone for Citizen of the Year, please use the QR Code and complete the nomination form found at **moundsviewmn.rja.revize.com/forms/5683**

Nomination forms must be received at City Hall by 5:00 p.m. on the first Wednesday of March in order to be considered (if received after, they will be considered for the following year).

Senior Safety and Wellness Fair

May 1, 2025

The Mary Ann Young Center, in collaboration with the Minnesota Valley Police Department (MVPD) and other community partners, is hosting the Senior Safety and Wellness Fair on Thursday, May 1st. The event will take place at SBM Fire Station 3 in Blaine. This exciting event is open to seniors and will feature a variety of activities, including health screenings, a vendor fair, snacks, lunch, and valuable door prizes. Pre-registration is required to attend. For more details about the event and instructions on how to sign up, please visit the city website in the coming weeks. If you have any questions, feel free to contact Officer Le Voir at 763-294-0666.

Mayor's Message

As I write this quarters Mayor's message, it is January 28th and it's 46 degrees outside. It would seem that spring is in the air. We are fresh off the November election, we welcomed Kathryn Smith as a new councilmember and Gary Meehlhause retained his seat as well. I'd like to thank everyone who ran in this year's election: it takes a lot of courage to put yourself out there.

Mounds View, I cannot thank you enough for your support. You showed up, cast your votes, and gave me the opportunity to serve this community for another two years. I truly enjoy serving this city and will continue to do my very best to represent the residents of this community.

We also had several other elections and I held several weekly candidate sessions inviting local candidates, Judges, Commissioners, State House, US House, and US Senate. I did my very best to get the incumbents to visit and am still trying to get them to come to Mounds View for a community session. Time will tell if that materializes. I'd like to thank the candidates and the people that attended these candidate sessions and made them special for our city. I'd also like to thank President Biden for his four years of service and wish President Trump the best in his tenure.

As we roll into spring, what is on the immediate horizon is the street project which will consist of Edgewood Drive and Bronson Drive. City Hall Park will be getting an off street parking lot on Edgewood and Bronson may be getting a sidewalk. This should alleviate some of the parking tension on Edgewood in front of the splash pad.

We are also exploring opening a municipal cannabis shop in partnership with Minnesota Roots. This presents a great revenue opportunity for the city and it has the potential to yield some much needed extra revenue. I think it is important to continually look for ways to generate revenue that does not involve more taxes; if this goes through, it would be that kind of thing. There will be more to come on this as the picture becomes clearer.

I know many of you that read this are not online. I wanted to share on January 22nd I celebrated seven years of sobriety. I think about the life that I get to live today and it is just so humbling. I will say that if you or anyone out there is struggling with addiction or alcoholism and want to talk, please feel free to call me. My number is 612-296-3597. I know what it's like to feel stuck, trapped, helpless and all I can say is the world is a better place with you in it and there are great things for you to do.

Wrapping up, I want you all to know how grateful I am for all of you and the dialog we have out in the community, whether it is online or at the coffee shop. As a reminder, I do an open coffee time Sunday mornings at Caribou on County Road I from 8:30-9:30 a.m. This is open to anyone—you are welcome, should you want to come chat. I hope everyone gets outside and enjoys some of this warm weather and has a great start to the spring!

Mayor Zach Lindstrom

Changes on the Horizon!

Some may recognize the often-quoted General Eric K. Shinseki, the Army's 34th Chief of Staff who, in June of 1999 when he assumed command of the Army said; – "If you don't like change, you're going to like irrelevance a lot less." In fact, the number of quotes regarding change – according to Google – are countless! That's a pretty big number!

For the worried, this is not about anything going on at the state or federal level; ample other sources for those pining wisdom in that arena.

Rather, focus on what changes you can expect in the community you call home. Public Safety, Infrastructure, Cannabis, Solid Waste Collection, and Tribute Park.

Public Safety:

There is a chronic shortage of police officers, firefighters, and medics. Cities across the state are experiencing the changing societal attitudes towards these careers, there simply are fewer individuals willing to serve in these roles with medics experiencing the greatest challenge. This shortage has resulted in our Fire and Police departments responding and dealing with more medical related calls, the Fire Department experiencing a doubling of their annual call volume. This, combined with fewer volunteer firefighters, has resulted in the department migrating to full time with the need to hire a minimum of twelve additional firefighters; 3 of which started this January. The department has remodeled stations one and three to accommodate – sleeping quarters, this change. Another three will be added each year over the next 3 years to achieve the twelve. The department will continue to submit grants – but to date has not been successful.

With respect to the Police Department, we are hopeful that we will be back to a full complement of Police Officers by the end of 2025. With no retirements in the near future, we are optimistic. If successful, it will be the first time in five years we have been at full staffing.

The future for medics is concerning, with providers exploring various avenues and options. Their situation is challenging, which means local PD and FD will continue to carry a greater share of the response.

Infrastructure:

We are done with upgrading the municipal water system! There will be a small street project in 2025, Bronson Drive from County Road I to Quincy Street and Edgewood Drive in front of City Hall. Sanitary sewer lining continues to incrementally improve with slip lining.

The big changes this year are in storm water and parks. For the first time since they were constructed in the 1970's the Ardan and Silverview ponds (parks) will undergo major overhaul and restoration. The work at Ardan Park has already started and the changes are dramatic. The end results of both projects, which will take 3 to 5 years to fully complete; will rehabilitate each pond back to its original design function, remove invasive plant species, and restore vegetation and habitat with native plants. The major work on Ardan Park will be done this year. Silverview will experience work in the forebay (prepond) and some invasive species removal if all goes well.

With respect to the Parks, our contractor WSB will be finalizing the master park plan the first half of this year, allowing the council and residents time to digest their work, which included substantive public input, and to develop a plan for implementation of their recommendations.

Cannabis:

Is now legal in Minnesota. The City is pursuing a Municipal Cannabis retail operation via a partnership with an existing retailer. The partner would operate the store and the city would allow them to operate under our license. A revenue sharing agreement provides the city a substantive share of net earnings. Potential net income to the city ranges from $50,000 a year to multiples of that. Council would have broad discretion on utilization of this revenue from reducing the levy to funding infrastructure projects.

Solid Waste Collection:

Since the ballot initiative has failed, the City Council does not have the authority to institute organized collection. However, it is still the goal of the Council to increase pricing transparency for trash services in Mounds View. Therefore, Council updated our Trash Standards and adopted an ordinance. These new regulations require haulers to submit their maximum pricing as part of the general licensing requirements. So far, one hauler has submitted this information, two have not responded to the City's request for information, and Ace and Walters have hired an attorney who has sent a letter to the City challenging the City's process in adopting these regulations and the City's ability to require haulers to provide their maximum pricing, and arguing their prices are confidential and it would be unlawful for the City to share the prices.

On another note, you may see fees on your bills such as taxable fuel surcharge, non-taxable recycling fuel surcharge, and/or recycling commodities adjustments. These kinds of fees appear on a number of the haulers' bills but are not actually fees or taxes that the haulers have to pay to other entities. Rather, these are "JUNK FEES", or just price increases by another name. The only two taxes/fees that haulers are required to charge are the State Tax and Ramsey County environmental fee. According to our review of invoices submitted by Mounds View residents, in some cases, these additional fees doubled the price of residents' bills.

Tribute Park:

Information on page 7.

Seasonal Jobs Can Lead To Full-Time Careers

Each spring the City hires seasonal workers for its Public Works and Parks and Recreation Departments. These seasonal jobs can be a first step to full-time careers!

Many of the City's current full-time Public Works and Parks and Recreation staff started their careers as seasonal employees.

Experience is not the only thing seasonal jobs have to offer seasonal City employees:

Public Works and Parks and Recreation

- Develop life-long skills by working on a variety of tasks and projects (Public Works)
- Inspire, lead, and create lasting memories helping kids grow and have fun on field trips and staff led activities (Parks and Recreation)
- Have an opportunity for seasonal employment each summer between high school or college breaks
- Work outside
- Many positions are considered as internships for college credits
- Receive competitive pay!

Learn more about Mounds View City employment opportunities and apply online with a computer at **moundsviewmn.org** or at City Hall. We now have a computer in the lobby. You can also scan the QR code above.

Work at the City!

Mounds View, a great place to live, work, and play!

Cleaning Up after your Dog is the Neighborly Thing to Do!

Spring will soon be here, and with it, the annual spring melt. Please save our walkers the unsightly vision of dog waste on the sidewalks and walkways.

Here are some examples of why it is important to pick up dog feces, besides it being the right thing to do:

- Dog feces isn't good for grass or plants as a fertilizer like other animal waste, because it's too acidic and actually damages grass.
- Dog feces can contain dangerous bacteria and parasites like Salmonella, Coccidia, Roundworms, Tapeworms, Parvo, Giardia, and E. coli, which can make people and other dogs very sick.
- The EPA classifies dog feces as a pollutant in the same category as oil spills.
- Dog waste can take as long as a year to naturally break down, especially since we live in a climate with a colder winter season. The other downside is that the bacteria still lingers in the soil. So even if you leave the dog waste on the ground and it does eventually break down, all of the bacteria and parasites will be left to linger there for several more years.

In summary, it's important to do your part! Please be a responsible pet owner and a good neighbor and pick up after your dog.

Logan Tan

Sydney Dison

Whitney Tennison

MVPD's New Officers

Please join us in welcoming Officers Whitney Tennison and Logan Tan to the Mounds View Police Department! Both officers have successfully completed their field training and are eager to serve and engage with the Mounds View community. Additionally, please join us in congratulating Sydney Dison on her recent promotion to the role of Sergeant. With seven years of service to the department, Sergeant Dison is excited to continue her commitment to the community in her new leadership role.

Reminder: Stop for School Buses

As we find ourselves amid another school year Officers continually observe and receive reports of drivers failing to stop for school buses. Remember, state law requires all vehicles to stop when a school bus activates its flashing lights and fully extends its crossing arm. Drivers traveling behind a school bus, or approaching from the opposite direction on an undivided road must stop at least 20 feet away from the bus. Failure to follow this law can result in a $500 fine, along with potential criminal charges. Let's keep our children safe by following the rules and stopping for school buses every time.

Coffee with a Cop

Join MVPD Officers on Saturday March 29th from 9:00 a.m. to 11:00 a.m. at the Mounds View City Hall for coffee with a cop. No agendas or speeches, just an invitation to have some coffee and get to know your Mounds View Officers.

Mounds View to have Community Garden

Mounds View is looking to start a community garden in the spring of 2025. Learn more by scanning the QR code above.

Sign up at www.cultivatemv.com

Community Development Department Has New Technology Available

In February 2024, Mounds View began using BS&A Software to manage online permitting, inspections, and licensing. The cloud-based software makes it more efficient for the City to process applications and manage data. This also allows residents, title companies, realtors, contractors, vendors, businesses, etc. access to quickly find property information, report a concern, arrange payment, or communicate with key personnel.

Please visit the Mounds View website **MoundsViewMN.org** to learn more. BS&A Online can be accessed through the ALL PERMITS link on the homepage.

In the COMMUNITY DEVELOPMENT link on the City's website you will find the links to pages for: Building Inspections & Permits, Code Enforcement, Rental Licensing, Maps, Economic Development, and Planning & Zoning. Each of these pages has a lot of very helpful information and handouts.

If you don't have access to a computer, or need help/guidance, the City Hall & Police Dept. lobby now has a computer kiosk available. The use is limited to City-related functions, but is available for all residents during regular business hours [Monday-Thursday 7:00 am-5:00 pm, except holidays].

The Community Development Department can be reached at 763-717-4020, at **Permits@MoundsViewMN.org** or through the City's website **MoundsViewMN.org**

Smoke Alarms and Daylight Savings

When it is time to change the clocks, it is time to check your smoke alarms! In addition to your once monthly check, when you change the clocks, check the batteries too!

How old are your smoke alarms? All smoke alarms should be replaced when they are 10 years old. Not sure how old yours are? Most manufacturers have a date on the back of the alarms that will tell you when they were made. If your smoke alarms are older than March of 2015, then it is time to replace them!

Does your smoke alarm need new batteries? Not all models are the same. If your model doesn't have a 10-year built-in battery it might be time to change it. Test all smoke alarms monthly and change their batteries at least once a year.

Where are your smoke alarms located? Smoke alarms should be installed in every bedroom, outside each sleeping area, and on every level of the home. It is best to use interconnected smoke alarms because when one smoke alarm sounds, they all sound.

Call Natalie Streich with SBM Fire for smoke alarm assistance at 763-231-1806.

Easy Tips for a Strong & Healthy Lawn!

Keeping your lawn strong and healthy is the best way to care for it without using a lot of pesticides. This will minimize weeds from taking root and insects from causing serious, permanent injury to the lawn. Here are several easy steps you can take to maintain a healthy lawn and reduce the need for herbicides and pesticides:

- Leave your grass clippings on the lawn. Grass clippings can provide the equivalent of about one application of fertilizer per year
- Use a sharp mower blade when cutting your lawn to make it less susceptible to disease
- Water infrequently, but thoroughly, during dry periods of more than a week or two.
- Water only about once a week and thoroughly (about 1 inch of water).
- Avoid watering during strong sun and heat to minimize losses to evaporation. The best time to water is early in the day, before 10 a.m.* note city restrictions

Also-

Test your soil and find out if you even need fertilizer. If you do, fertilize in the fall.

Use fertilizers with zero phosphorus, if you can. Phosphorus (the middle number on a fertilizer bag) should be zero. Careless use of phosphorus fertilizers creates runoff which can pollute nearby lakes, streams, and rivers. Phosphorus causes unhealthy levels of weed and algae growth.

Mow your grass to a height of 2 1/2 to 3 inches

This is the single most important thing you can do to improve the health of your lawn. Roots grow deeper and can reach more water during dry periods. *the city maximum height is 8”

Control weeds. September is the best time of year to treat weeds. Remember the best weed control is a healthy, dense lawn.

Seed. The best time to reseed bare spots is when removing significant thatch build-up.

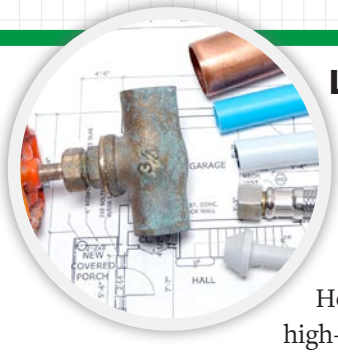

These lawn care tips will help you keep your lawn healthy and less susceptible to disease and weed invasion, meaning you will have less need for herbicides and maybe even less fertilizer.

The City is in Tier #2 Watering Restrictions! Odd/Even watering restrictions and no watering between 11:00 am and 6:00 pm

Mounds View Tree Sale in 2025

Starting on March 1st, you can order trees from Public Works. There will be a limited number of the trees available, and they must be purchased online. Trees must be planted on private property, and each household in Mounds View may only order two trees. Please see our website for more details.

Lead and Copper Testing – 50 Sites Needed

The City is looking for residential properties built between 1983 and 1985 to participate in Lead and Copper (L&C) testing.

Houses built between 1983 and 1985 are considered high-risk for lead contamination due to the potential presence of copper plumbing with lead solder. (Lead solder can leach lead into the water when corrosion occurs.)

Federal and State mandates have been implemented that require municipalities to test residential sites for L&C in October of 2025 and every 3 years after.

If you would like to participate L&C testing, the following criteria must be in place:

- House built between 1983-1985
- Cold water faucet in the kitchen must not be softened or filtered

Please contact Public Works at 763-717-4050 or email **publicworks@moundsviewmn.org** to be placed on the sampling list. In September of 2025, you will receive communication with the instructions and when the sampling bottle will be delivered to your property. (Test results will be mailed to you once received.)

Tribute Park: Time to Order Your Paver

Plans were approved at the January 13, 2025 Council meeting. Over $65,000 has been raised from the community to date. Donations and Tribute Paver sales are through the Fire Department. The Public Safety & Disaster Memorial portion of the park is scheduled for dedication on Saturday, September 13, 2025 at 1:00 pm. The Veterans Memorial component will be dedicated on or near Veterans Day.

Now is the time to get your Paver ordered, they are $250 each, and you can come to city hall, or go to Fire Station One, or find a form online at **moundsviewmn.org/news_detail_T6_R220.php** and mail it in.

It's Time to Declutter!

Sewer Backup

The City suggests that any property owner experiencing a sewer backup, call the Public Works Department **before** contacting a sewer cleaning contractor, so that the sewer main can be checked for blockages. Public Works can be reached at 763-717-4050, Monday – Friday, 7:00 a.m. – 3:30 p.m. After-hours assistance can be obtained by contacting Ramsey County Dispatch at 651-484-9155.

2025 Budget Summary

The City Council adopted a 2025 property tax levy of $7,472,100. This sets the city's property tax levy increase for 2025 at 8.53 percent, which is less than the preliminary levy rate set in September 2024 of 9.87 percent.

In an effort to promote transparency and citywide awareness, the 2025 budget summary is being included in the newsletter. The purpose of this report is to provide summary 2025 budget information concerning the City of Mounds View to interested citizens. This budget summary is published in accordance with Minnesota Statutes Section 471.6965. This is not the complete budget; the complete city budget may be examined at Mounds View City Hall, 2401 Mounds View Blvd. or online at **www.moundsviewmn.org**. The City Council approved this budget on December 9, 2024.

BUDGETED GOVERNMENTAL FUNDS		
	2024 BUDGET	**2025 BUDGET**
REVENUES		
Taxes:		
Property taxes	$ 6,884,768	$ 7,472,100

OPENING APRIL 1, 2025

Environmental Service Center

Changes to Household Hazardous Waste Collection

To make managing waste more accessible and easier for residents, Ramsey County is building a new Environmental Service Center (ESC) in Roseville, opening **April 1, 2025.** The ESC will provide household hazardous waste collection and more.

The current year-round facility at Bay West in Saint Paul will permanently close **March 29, 2025.** There will be **no mobile** collections in 2025.

The ESC is part of **Enhancing Environmental Health Services,** a county initiative to redesign and add recycling and waste disposal services to better meet community needs.

Learn more at ramseycounty.us/**ESC.**

RAMSEY COUNTY

MOUNDS VIEW

H2OPP

WATER PRESERVATION PROGRAM

Point of Sale Program – H2OPP

Program Inflow and Infiltration Program

So many different names – what do they mean? Effective as of January 1, 2020, the City Council approved Ordinance 967 and implemented the Inflow and Infiltration Program (I/I) as a component of the Water Preservation Program aka H2OPP.

City sewer has been available to properties since as early as 1964. That means infrastructure such as private sewer services are now close to 60 years old! The H2OPP program is designed to prevent clear water such as rain or irrigation from entering the sanitary sewer system, thereby reducing the costs for treatment.

Before any property with a PIN number has a title transfer (Point of Sale), the following is required:

- Inflow and Infiltration Application (click on the "All Permits" button located on the home page of website)
- I/I Application Fee of $150.00 (this will be invoiced to you via email)
- Property Owner contacts a company to televise their sewer service and submits the video to publicworks@moundsviewmn.org

The video is reviewed by the City to verify there are no deficiencies such as but not limited to cracked pipes, root intrusions, or joint separations. Deficiencies warrant repairs and the City will issue a Correction Notice. Corrections must be completed before the title changes. A Certificate of Compliance is issued to signify the property is in compliance; it is valid for 20 years.

EARTHDAY.ORG

OUR POWER, OUR PLANET™

is the 55th anniversary of Earth Day.
Visit **earthday.org** for details.

Protect Pollinators This Spring

Pollinators are essential to the health of our plants that provide food and habitat for us and other animals. They move pollen from the male part of the plant to the female part of another plant, allowing these plants to make seeds and reproduce. But pesticides can be fatal to bees and other pollinators.

As you maintain your gardens and landscaping this year, think about protecting pollinators like bees, flies, wasps, moths, butterflies, birds and bats.

Neonicotinoids are a type of insecticide that is fatal to bees and other pollinators. If you have a problem with insects, try to remove them without using chemicals. Refer to the University of Minnesota Extension website for options or call the Master Gardener line at 612-301-7590 (English only) for free advice. You leave a message and a Master Gardener volunteer will return your call within four business days.

If you must use chemicals, use those without neonicotinoids that are safe for pollinators, including bees. Check the label for this information. Please follow all instructions on the label while using the product.

Interested in Becoming a Recycling Ambassador?

Registration for the next Ramsey County Recycling Ambassador Program training is now open!

Recycling Ambassadors volunteer to encourage our community to reduce, reuse, and recycle. Topics covered in the training include food scraps recycling, climate change, environmental justice, household hazardous waste, and general recycling.

The training will take place virtually 6:30 - 8:30 p.m. Wednesdays: March 12, March 19, March 26, April 2, April 9, and April 16. Please make sure you have access to the internet and are available for all six workshops before registering.

To learn more and to sign up.visit: **https://bit.ly/3PVgYPo**

Water Main Flushing

Water main flushing moves water systematically through sections of a drinking water distribution system, creating a scouring action to clean the line. The increased flow rate scours the water pipe's inner walls and helps to remove build-up of naturally occurring debris and sediment.

Public Works will be flushing water mains April 21-25, 2025.

Water pressure may be reduced briefly and your normal water pressure will be restored once the crew is out of your area.

All Business Parks will be flushed on Tuesday, April 22, 2025, weather permitting.

Residential Utility Rate Changes - Effective January 1, 2025

Below is a table showing rate increases approved for 2025. *An average of 16,000 gallons per quarter is used to compute the estimated usage charges for Water and Sewer.

	Quarterly	Annually
Water base charge	$5.60	$22.40
Water service line charge	$4.00	$16.00
Water variable usage rates	No change	No change
Sewer base charge	$1.37	$5.48
Sewer usage rate	$0.11 per 1,000 gallons	$7.04 *
Street Light charge	$0.25	$1.00
Storm Water charge	$1.50	$6.00
Estimated annual increase		$57.92

Complete rates are included in the City's Fee Schedule and can be located on the City's website **moundsviewmn.org**.

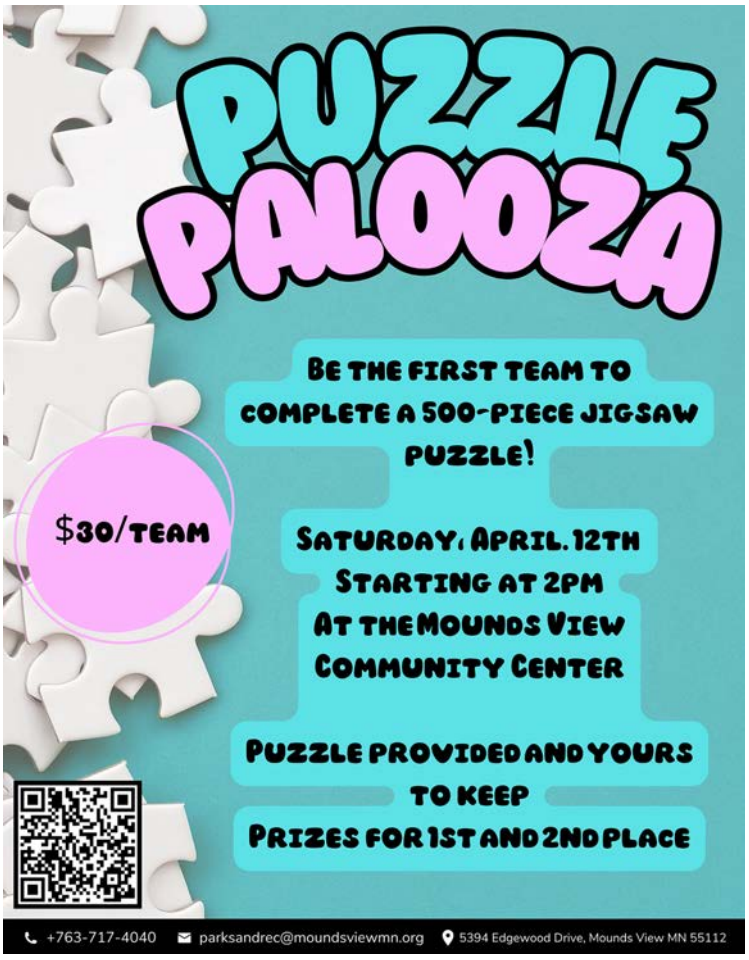

Sump Pump Discharge

Sump pumps should discharge water directly from the property onto the grounds or towards the street. Dwellings and other buildings and structures which require, because of the infiltration of water into basements, crawl spaces and the like, a sump pump system to discharge excess water, shall have a permanently installed discharge line which shall not at any time discharge water into the sanitary sewer system. A permanent installation shall be one which provides for year-round discharge capability to either the outside of the dwelling, building or structure, or is connected to the city storm sewer or discharges on the surface within the property or drainage easement.

For more information regarding the Storm Water City Code please visit **bit.ly/48sVl1w** or scan the QR code on the left.
