Fountain Garden

In addition to the harm done to the plants from the liquid chlorine, one section in particular appears to be getting a constant spray of water from the fountain resulting in wet soil and several plants that appear to be dead. While we are hopeful that the flowers and shrubs hurt by the liquid chlorine will come back next year the constant spray of water is an issue we need to look into. Kris Mullen offered to ask her husband who works in the field for advice on how we can manage the spray.

Parking ID Cards

As discussed last month, some members do not have ID Cards to exempt them from parking fees while they attend meetings. Lizette Hernandez came to our meeting with parking ID

permits for all members to display on their dashboards while attending meetings or working on official projects.
