b. Revenue/Expense Report

- i. Motion to approve the revenue/expense report was made by Mr. Switalski, supported by Mr. Frontera. Mr. Walters commented the revenue/expense report is the budget amendment due to items still needing to be put in for end of the fiscal year. Mr. Switalski questioned the building addition & improvements line being adjusted; Mr. Walters explained that there was a difference from the Fitness Court that got rolled over from last fiscal year. Mr. Switalski also questioned the Communications amendment and Printing & Publications amendment; Mr. Lipinski responded that the printing & publications amendment was due to the change in the newsletter and the communications amendment was partly for getting updated phones for SMART. We are waiting on disbursement from SMART. All approved, none opposed. Motion passed.

D. Hearing of the Public – agenda items only

- a. No public spoke.

E. Communications

- a. Mr. Lipinski shared that the Recreation Authority did cancel the youth baseball/softball program due to the recent spike in covid-19 and behavior we have noticed. Adam did call all participants from the program to explain why we were cancelling the programs.

F. Old Business

G. New Business

a. Discussion and request approval of the Employment for Senior Van Transportation Coordinator.

- i. Mr. Merucci stated that he had some questions posed to him and has not been able to read over the documents he requested and would like to see action not taken until next month's meeting. Mr. Switalski responded that if the program is running great, if the program is not that we wouldn't agree to the employment. Mr. Lipinski commented that the program did go out of its traditional boundaries and take some of the remaining seniors that needed tax appointments done to the County for assistance; accommodations like this will be made with the expansion of the program. Motion to approve the Employment for Senior Van Transportation Coordinator was made by Mr. Switalski, supported Mr. Frontera. Three approved, one opposed. Motion passed.

b. Discuss Field Rental Policy

- i. Mr. Lipinski placed the rental policy in the packets to be able to possibly adjust them for the 2021 season. The Recreation Authority has been approached for having tournaments out at Huron Park, with those rentals there is often an additional charge to have the fields lined and dragged over the weekend. The lining and dragging of the field is done by the Department of Public Services through the given city that the tournament would be held in. Mr. Lipinski is requesting to be able to send those additional funds to the appropriate city even though it is part of our land agreement with the City of Eastpointe and the City of

Roseville. Mr. Walters recommends that the corresponding city should send an invoice to the Recreation Authority so that everything is documented properly. Motion to approve having the Recreation Authority pay and the city sending an invoice the Recreation Authority for the additional funds received for field maintenance during a tournament was made by Mr. Switalski, supported by Mr. Walters. All approved, none opposed. Motion passed.

H. Hearing of the Public

- a. No public spoke.

I. Discussion by Director

- a. Mr. Lipinski stated that the youth baseball/softball program was canceled. The Summer Day Camp program did start this past Monday, July 6th; there are a number of protocols in place for the safety of the kids and staff. Majority of the Summer Day Camp program is held outside. The census deadline has been extended to October 31st; Mary & Kim attended the class to provide assistance to the seniors. The Seniors are beginning to have some drive-through programs; they are hosting a Takeaway Tuesdays and a Socially Distant Ice Cream Social. In these programs the seniors would just drive by and receive the items. Adult Softball is running beginning next week. The gymnastics program will be completing their Spring session at the Veteran's Memorial Park in Roseville. We will also be hosting the Little Scientists class, Creative Kids and Pound Class out at the park. Sara is waiting on some of our other instructors to see if any more are interested in having an outdoor class at one of the parks. Room and Gym rentals are currently not being done until we get orders from the governor. Nicole Urban from Macomb Community Action contacted in regards to hosting Meals on Wheels beginning September 8th. There was a gentleman that contacted the Recreation Authority in regards to hosting a fitness class out at the Huron Park Fitness Court. Details are still being worked out for class information. Congratulations to Sara for her one-year anniversary and being elected Vice President of NERPA.

ATTACHMENT 1 **Scope of Work**

The document will meet the requirements of the Michigan Department of Natural Resources (MDNR Guidelines for the Development of Community Park, Recreation, Open Space, and Greenway Plans, 12/20/2016), as well as the standards set by the Commission for Accreditation of Park and Recreation Agencies (CAPRA).

The process used to generate the Plan will consist of three phases: background studies, evaluation and plan development.

Background Studies. This phase involves gathering and updating data from the most recent census and other demographic surveys, existing documents, plans, and from field observations. The data is organized into three main categories: community description, recreation inventory, and resource inventory.

Evaluation. The second phase in the planning process considers R.A.R.E.'s parks and recreation services deficiencies and needs. Public meetings and other information gathering efforts take place to collect ideas and concerns from City officials, community stakeholders, staff and residents for the community park and recreation system. Critical to this portion of the process is the identification of issues and the establishment of priorities.

Plan Development. The last phase in the process involves plan development and adoption. Based on the input and needs identified, goals and objectives are formulated, and a realistic action plan developed. Strategies to implement the plan will also be discussed.

The following work plan outlines the tasks described above. Note that tasks are frequently implemented concurrently and often overlap.

TASK 1.0 Project Initiation

Prepare for and facilitate kick-off meeting with R.A.R.E. and cities of Eastpointe and Roseville staff to review work plan and schedule. Discuss public input format and development and distribution of survey materials. Establish a steering committee comprised of Eastpointe, Roseville, and R.A.R.E. representatives. Discuss MDNR community communication requirements and documentation procedures. Collect and review existing documents such as other Park plans, community needs surveys, neighboring community recreation plans and any other pertinent documents.

TASK 2.0 Community Description

- Update the role of parks and recreation in the communities.
- Update community descriptions, demographics, and physical and land use characteristics of the Roseville and Eastpointe using 2010 US Census, 2018 SEMCOG, ESRI, American Community Survey, and other available data resources.
- Review and summarize relevant information from supportive documents including Eastpointe and Roseville recreation and comprehensive master plans, R.A.R.E. budgets and plans, and other relevant materials.

- Update the description of the current administrative structure of R.A.R.E. and its relationship with Eastpointe and Roseville. It will also include a description of volunteer groups and any partnerships with other organizations.

TASK 3.0 Recreation/Resource Inventory

- Update the description of the parks, trails, open spaces, and recreation facilities. This will include individual city facilities, as well as the local and regional parks. An updated map of Eastpointe and Roseville's parks, trails and facilities will be prepared.
- Evaluate opportunities and needs for the community's recreation system.
- Evaluate progress of implementing ADA compliance efforts.
- Update information on previous grant-assisted projects.
- Identify park maintenance and equipment needs with assistance from the Steering Committee and Parks and Recreation Department staff.

TASK 4.0 Public Participation

- Identify national, state, and local park and recreation trends.
- Initiate the community engagement efforts, which will be determined during the initial stages of the project. [Note: The MDNR now requires two forms of public input for all recreation plans]
- Work with Steering Committee to plan and conduct two community engagement efforts (on-line survey, public meeting, workshop, focus groups) to receive input on desired park and recreation facilities and program improvements from residents and community interest groups such as sports organizations, seniors, and other community stakeholders.
- Compile and analyze the input received. Submit and present results to the Steering Committee to discuss modifications and to provide focus ideas for Master Plan development.

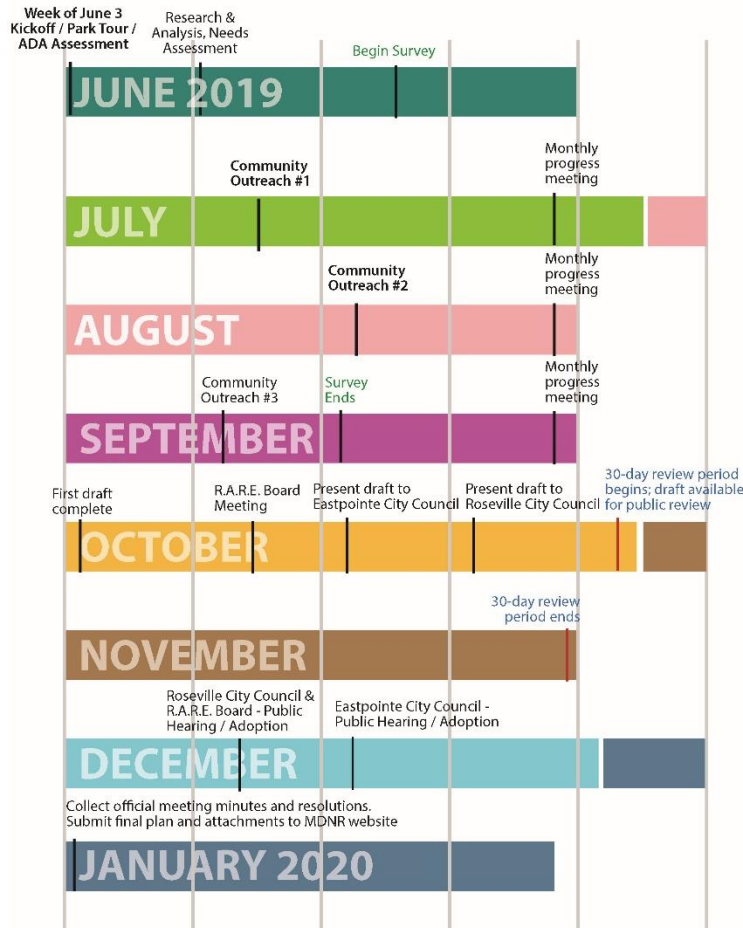

TASK 5.0 Master Plan

- Develop draft plan using MDNR and CAPRA guidelines.
- Submit and present draft plan to the Steering Committee for review. Revise as needed.
- Present preliminary draft to Eastpointe and Roseville's Park Commissions and revise plan to reflect comments received.
- Post revised draft on R.A.R.E., Eastpointe, and Roseville websites for the required 30-day public review. Hard copies of the draft will also be made available at the city halls, recreation center, and libraries.
- Receive comments, discuss revisions, and submit for approval to Steering Committee.
- Present Plan to Eastpointe and Roseville City Councils for public hearings and adoption.

ATTACHMENT 2

Project Schedule

The MDNR requires communities to submit recreation master plans prior to February 1 of each calendar year in order to be eligible for grant funding but allows for plans to be submitted to the MDNR website well in advance of that deadline. In a complicated scenario such as this where three separate entities need to support the plan, we have found that aiming for final adoption as early as possible is prudent. We fully intend to meet the required project schedule while remaining within our allotted budget. This schedule as shown below is flexible and can be adjusted to meet your needs.

Per the schedule, we are anticipating 10 total on-site meetings and monthly progress meetings as required. The progress meetings will be held via teleconference to help reduce costs. The City Council meetings and Public Hearings could potentially also be consolidated, which would further help to reduce overall costs. We will work with R.A.R.E. to help identify areas where we can reduce project costs while still adhering to plan requirements.

In our experience, the more time devoted to public outreach, the better the response rate. For this reason, we recommend seeking community input in the form of an online survey as soon as possible. A survey is not required, but it does give community members who might not be able to attend the outreach meetings an opportunity to provide input. An extended schedule would also allow for better photo documentation and would ensure that residents have the opportunity to experience your facilities while making informed decisions regarding community recreation needs.

Real Estate in Roseville is in a seller's market with increasing inventory. The outlook for April 2020 through September 2020 remains good with low interest rates and increased opportunity for buyers. The impact on Covid-19 is expected to be isolated to the second Quarter (Q2) of 2020. The slight drop in pending sales in the 6 months from October 2019 to March of 2020 is likely the result in the real estate industry shut down beginning in Mid-March.

Despite some negative numbers year over year from 2018 to 2019, all real estate metrics for Eastpointe remain in a seller's market. The outlook for April 2020 through September 2020 remains good with low interest rates and increased opportunity for buyers. The impact on Covid-19 is expected to be isolated to the second Quarter (Q2) of 2020. Despite the shutdown of the real estate market in Mid-March Eastpointe experienced no observable negative results

¹ Days on Market (DOM) below 60 is a strong market; above 90 days a weak market.
² The absorption Rate is the rate of home sales derived by dividing the number of sales by the inventory. Above 18.3% is considered a seller's market. Below 15.4% is considered a buyer's market.
³ In a seller's market inventory increases create buyer opportunity and have little if any negative impact on percent of asking price or Days on Market (DOM). Decreased inventory reduces inventory and constrains sales. The reverse is true in a buyer's market.
