CHAPTER 11 - "SERVICE CHARGES IN LIEU OF TAXES"

2-1101. Section 1. Annual Service Charge, authorization.

It is hereby determined that the City shall collect, with respect to the Riverview Co-Operative Apartments, from and after the commencement of construction of the housing project within the City, an annual service charge in lieu of all real property taxes, to be paid by the owner, Co-Operative Services, Inc., its successors or assigns. ORDINANCES:

Resolved by Councilman Iverson, supported by Councilman Acs that the third and final reading of Proposed Ordinance #208 be read in full.
Carried unanimously

The clerk read the following Proposed Ordinance #208:

ORDINANCE #208

AN ORDINANCE TO AMEND THE ORDINANCE CODE OF THE CITY OF RIVERVIEW TO PROVIDE FOR THE FILING OF A CASH BOND, NOT TO EXCEED $5,000.00, TO BE CONDITIONED UPON THE PROMPT COMPLETION BY THE BUILDER OR APPLICANT, OF ANY UNCOMPLETED ITEMS REQUIRED BY CODE, AT TIME OF ISSUANCE OF TEMPORARY CERTIFICATE OF OCCUPANCY, BY THE ADDITION OF NEW SUB-SECTIONS (a), (b), (c), (d), (e), and (f) TO SECTION 6-102 OF CHAPTER I, TITLE 6 OF THE ORDINANCE CODE.

THE CITY OF RIVERVIEW ORDAINS:

There is hereby added to Chapter I, Building Code of Title 6, Building Regulations, of the Ordinance Code of the City of Riverview, new sub-sections (a) through (f) included under Section 6-102, Certificate of Occupancy, etc., which sub-sections shall read as follows:

Section 6-102 (unchanged)

6-102(a) Temporary Certificate of Occupancy, Cash Bond to be required. It shall be required that as to all building permits issued on or after January 1, 1974, the same shall have attached thereto a notice stated:

"That in the event that the projected structure, be it commercial, industrial or residential, (or any dwelling unit therof, if a multiple structure) should qualify under applicable procedures for

the issuance of a Temporary Certificate of Occupancy, a cash bond (refundable upon proper completion of those items or correction of those conditions requiring remedial work) of not to exceed $5,000.00/per each such (dwelling) unit, shall be required."

6-102(b) Delinquency List, Conditions to be noted and endorsed. Whenever, because of hardship, or extenuating circumstances, it is requested by the owner, architect, building contractor, or developer that a Temporary Certificate of Occupancy be issued, permitting use and occupancy of any such structure, at a time prior to the full and complete compliance with the building code by said builder, or prior to completion of, or correction of conditions involving exterior work which is dependent upon climatic conditions, etc., the Building Inspector shall prepare a DELINQUENCY LIST of uncompleted items, or conditions requiring remedial work which are required by the City Building Code, to be installed, completed or condition remedied prior to issuance of an unconditional or permanent Certificate of Occupancy as to such unit. Such list shall be endorsed by Applicant and attached to the application for a temporary certificate of occupancy for such unit.

6-102(c) Bond to be posted with City Treasurer. The Building Inspector shall submit a duplicate copy of the DELINQUENCY LIST of uncompleted items to the City Engineer for computation of the estimated cost plus an inflation factor of 10% of effectuating such corrections, or installation or completion of the items so required and indicated on this Delinquency List. If such estimated cost plus an inflation factor of 10% be computed by the City Engineer to be less than $5,000.00, the bond required by this section may and shall be reduced to such lesser estimated amount, so computed by the City Engineer, for that particular structure, but otherwise the amount of the cash bond shall be $5,000.00 (Five Thousand Dollars) for each structure or dwelling unit, which shall be deposited with the City Treasurer who shall give a receipt for same and endorse the fact of the deposit, the amount thereof and the date on the face of the Application for Temporary Certificate of Occupancy. Such funds shall be held In Trust by the Treasurer, as Trust funds t guarantee specifically the completion of the installation or correction of the delinquent items, noted pursuant to Sec. 6-102(b) hereof, and such funds shall not earn, accumulate or require interest during such deposit.

In the event that the structure for which a Temporary Certificate of Occupancy is sought, has items on the delinquency list (prepared by the City Engineer in compliance with sub-paragraph (b) hereof) the cost of which cannot reasonably be expected to be furnished, completed, installed or corrected for the maximum amount to be guaranteed by the cash bond authorized by this section, then such larger amount being involved, and in that case, a Surety Bond, in an amount equal to the estimated cost, plus Ten (10%) Per Cent (as computed by the City Engineer) of installing or correcting such "delinquent" items, may be filed with the Treasurer instead. Such bond shall be in the nature of a performance bond, and shall be underwritten by a casualty insurance underwritter recognized or approved by the State Insurance Commission, and otherwise authorized to do buisness within this state. Such performance bond shall name the City of Riverview as well as the owner of the land as the party to be indemnified if the Applicant should default in the performance of the uncompleted work shown on the Temporary Certificate of Occupancy Application.

6-102(d) Posting of Bond, as a pre-condition. No temporary certificate of occupancy as to such unit shall be hereafter issued, unless and until the cash bond or the Surety Performance Bond provided herein has been established and posted as herein provided and this provision shall supercede, and take precedence over any other conflicting provisions establishing a "building bond" in lesser amount than herein provided.

6-102(e) Refund of Bond upon satisfaction of conditions listed. Upon the final completion of all items on the delinquency list, the building inspector shall so certify at the time of the issuance of the Certificate of Occupancy, and the cash bond shall then be refunded

by the Treasurer, or if a surety bond, shall be surrendered for cancellation.

6-102(f) Performance period; extension, default & application of proceeds. If within seven (7) months thereafter the delinquent items are not corrected, the Building Inspector, with the approval of the City Engineer, may:

1.) grant such extension of time as may be reasonably required, but not to extend beyond the end of that calendar year's building season.

or 2.) declare the bond in default and if it be a cash bond, authorize the owner of said premises to hire the work done, at the estimated costs plus 10% maximum for increased costs, if any, and submit the invoices therefore, properly approved by the owner, and endorsed by the City Engineer, to the City Treasurer for payment out of the aforesaid cash bond for such unit to the extent thereof. Any balance of said cash bond remaining unexpended shall be held for the call of the depositor, or original applicant. After the elapse of 1 year from the date of the issuance of the permanent Certificate of Occupancy as to such premises, such unexpended balance shall be transferred to the General Fund of the City.

or 3.) In the event a surety bond is declared to be in default, the Surety named shall be advised in writing by the City Building Inspector of the non-compliance, together with a demand that said Surety complete the performance of the uncompleted work.

All other unamended portions of Section 6-102 shall remain in full force and effect.

Section 3005.0. WHEREAS, the parking lots adjoining our public schools require tighter supervision and control to prevent vandalism, burglary, and other crimes, and

WHEREAS, the School District has initiated an identification sticker program in an attempt to control activities occurring in the school parking lots, but such program lacks legal effect,

NOW, THEREFORE, BE IT RESOLVED that the following Ordinance be adopted:

ORDINANCE NO. 203

"AN ORDINANCE TO RESTRICT THE USE OF SCHOOL PARKING LOT AND DRIVEWAY SURFACES, TO AUTHORIZED SCHOOL DISTRICT PERSONNEL POSSESSING CURRENT CREDENTIALS, AND TO REGULATE, CONTROL AND LOCATE ALL VISITOR PARKING BY AMENDING THE ORDINANCE CODE OF THE CITY OF RIVERVIEW BY ADDING A NEW CHAPTER TO BE DESIGNATED CHAPTER 14, "RESTRICTED USE OF SCHOOL DISTRICT PARKING FACILITIES" OF TITLE 5, "TRAFFIC REGULATIONS", OF SAID CODE."

THE CITY OF RIVERVIEW ORDAINS:

There is hereby added to Title 5, Traffic Regulations, of the Ordinance Code of the City of Riverview, a new chapter, to be designated "Chapter 14, Restricted Use of School District Parking Facilities."

Section 5-1400. Pursuant to statute (being C.L. '48, Sec. 257.961) and upon specific request of the Board of Education, it is hereby determined that the strict regulation of parking of motor vehicles upon school district parking lots and driveways within the City is required for the protection of the health, safety and morals of the children and students enrolled and in attendance in the schools maintained by the District, and that such regulation is reasonably required to prevent unauthorized persons from using said parking facilities for the purposes of conducting illicit sales of controlled substances, or engaging in illegal activities.

Section 5-501. Definitions.

(a) "motor vehicles" shall include for the purposes of this regulation, any motor driven or propelled conveyance including automobiles, and motorcycles.

872 (b) "authorized school district personnel" shall include elected school board members, and all employees of the School District, and citizens of the School District currently serving under appointment by the School Board to any advisory Committee.

(c) "identification sticker" shall refer to the serially numbered, gummed label adopted by the Riverview School Board and issued by the Superintendent of Schools of a design approved by the Chief of Police, for placement in the lower right windshield of motor vehicles operated by authorized school district personnell, or student licenses.

(d) "student permittees" shall be those high school students currently enrolled in the high school, who are granted such status under applicable standards of the Board of Education because of physical handicap, remoteness of residence, or irregularity of hours of attendance, and who must rely upon personal transportation.

(e) "visitor" shall refer to persons (including parents of children attending school in the district) who have business to discuss or transact with any of the administrative personnel of the school district.

(f) "current identification sticker" shall refer, depending upon the season of the year, to the motor vehicle identification sticker, issued by the Superintendent of Schools at the beginning of the school year in September or at the beginning of the school semester in February, whichever is the most recently issued I.D. sticker for that school year.

890 Section 5-1402. Visitor's Parking. There is hereby created, a specific parking area, to be designated "for visitors parking only" at each of the several school sites maintained by the Riverview Community School District. Such visitors parking area shall contain space for a minimum of ten automobiles, and shall be held available for visitors having business to transact with administrative personnel of the school district during hours that school is in session.

Section 5-1403. During the hours that the schools are open for classroom instruction of students, no operator of any motor vehicle, shall drive his vehicle onto, stand or park in any school parking lot, drive or on-site parking area other than that reserved for "visitor parking" unless said motor vehicle has displayed in its lower right windshield, a current Riverview School District identification sticker as issued by the Superintendent of Schools.

Section 5-1404. Any person parking a motor vehicle in the school parking lot while school is in session, without such current I.D. sticker so displayed, shall be deemed to be prima facie in violation of this Ordinance, and such motor vehicle may be impounded and removed upon written complaint of either the Superintendent of Schools, or any principal having administrative charge of said school site.

Section 5-1405. Exempt Vehicles. Service trucks, school busses, emergency vehicles, trucks making deliveries of merchandise or equipment to the school district, are specificalyy exempted from the provisions of this Ordinance.

911 Section 5-1406. Exempted Circumstances. Atendance at school activities. Parking of motor vehicles in school district parking lots, shall be permitted during evening hours, and when classroom instruction is not in progress, if for the purpose of attending a properly called and scheduled meeting in or on school premises, or for the purposes of attending sports events or an extra-curricular school activity shall be permitted, nothwithstanding the fact that such vehicle does not display a current school identification sticker, provided further, however, that such evening attendance parking or permitted parking to attend a school function shall be deemed to be terminated two (2) hours after the conclusion of the scheduled meeting, sports event or extra-curricular school activities on each date.

21 Section 5-1407. Any citizen exercising the privilage of permitted parking as described in the preceding section, shall remove his motor vehicle promptly and within two (2) hours of the actual conclusion of the event so attended, or shall be deemed to be in violation of this section, provided further that in the event of a disabled motor vehicle, the dirver thereof shall be under a duty to immediately report the location, license plate number, the nature of the mechanical failure, his or her identity, and that of the actual owner thereof to the Riverview Police Department. The fact that such report is promptly made shall be considered by the Municipal Court in assessing any fine or penalty imposed for the violation of this section.

Section 5-1408. It shall be unlawful for any private motor vehicle to be parked in any school parking lot, drive, or parking area overnight, or over a week-end, unless such motor vehicle displays the current identification sticker issued by the School District. This section shall be strictly enforced to discourage vandalism, burglary or other illegal activity, in, on or about school district facilities.

Section 5-1409. Nothing in this Ordinance shall be deemed to preclude, prevent or interfere with the collection of any fee for use of school parking facilities, where such is required, or directed by official action taken by the Board of Education of said school district, nor shall the assignment of specific parking spaces to specific individuals, or other internal administrative decisions be interfered with or prevented.

41 Section 5-1410. a.) A duplicate Roster shall be delivered to the Chief of Police. Such Roster shall be revised by written communication, from the Superintendent, from time to time as needs or change in personnel shall require.

b.) The identification sticker may be re-issued at the beginning of each school semester, provided the background color of such I.D. sticker or label is appropriate changed as well as the month and/or year where appropriate.

c.) The basic design of such motor vehicle identification sticker shall be approved by the Chief of Police, but adopted as the School District motor vehicle identification sticker by resolution of the Board of Education, and a copy of the resolution shall be filed with the Chief of Police.

d.) The motor vehicle identification sticker, so adopted in accordance with sub-section (c) supra, shall be serially numbered, and shall be issued by the Superintendent of Schools, to those school district officials, employees or personnel authorized to use school district parking facilities, and also to those student permittees who qualify under the internal rules and regulations of the school district.

62 Section 5-1411. It shall constitute a misdemeanor, punishable by fine or imprisonment, as otherwise provided in the Ordinance Code for violations thereof, for any person to sell, transfer, or otherwise intentionally deliver possession of an otherwise valid Riverview School District motor vehicle identification sticker to a person or persons unathorized.

It shall be unlawful for any person, who having been issued a valid sticker for a particular motor vehicle, to thereafter transfer the same to a differently registered motor vehicle.

It shall be unlawful for any person, for purposes of deception to use any such identification sticker in connection with a motor vehicle other than that motor vehicle for which it was validly issued by the Superintendent as evidenced by the Roster on file with the Chief of Police,

and it shall constitute prima facie evidence of a violation of this Ordinance, if an identification sticker, indicated on the filed Roster as having been issued to stated, authorized, personnel, is found instead affixed to the windshield of a motor vehicle owned by a person who is a stranger to said Roster.

Resolved by Councilman Fisher, supported by Councilman Koch that the recommendation be received and placed on the ballot for the November, 1973 general election, further that this proposed Charter Amendment No. 3 be read as follows:

WHEREAS, Section 6.1 of Chapter VI of the City Charter presently requires mandatory regular weekly meetings of the Council, but

WHEREAS, the demands placed upon the time of qualified citizens willing to serve as elected councilmembers have greatly increased with the complexities of our industrial metropolitan society, and the frequent and increasing occurrence of study sessions and executive sessions by council members to adequately inform and apprise themselves of the complex matters presented to them for action greatly reduce the amount of time available in a given week to any council member, and

WHEREAS, in order to reduce or remove time scheduling conflicts between a council member's daily employment requirements and his attendance at council meetings, it is advisable and necessary to eliminate mandatory weekly meetings so as to permit some flexibility in scheduling, the need of which was not foreseen in 1959 at the time of the adoption of the City Charter, and

Letter from

BUREAU OF TAXATION
County of Wayne

January 5, 1971

City of Riverview
17700 Fort Street
Riverview, Michigan 48192

Attention: Mr. Robert Frost

Gentlemen:

This office has reviewed the sales-assessment ratios for your community and find the residential ratios are as follows:

Assessed valuations prior to Board of Review:

1968 Sales	57.72%
1969 Sales	51.61%
1970 Sales	47.29%
Three year average	52.21%

Assessed valuations after 1970 Board of Review:

1968 Sales	48.48%
1969 Sales	43.35%
1970 Sales	42.63%
Three year average	44.82%

It is apparent that the present assessment figures after the 1970 Board of Review actions are too low to be acceptable for an equalization at the 50% statutory level for assessments.

The maximum amount of reduction from the 1970 reassessment level for 1971 equalization is 5% instead of the 16% reduction applied by the 1970 Board of Review.

Very truly yours

Director

WHEREAS, The legislature in 1969, enacted Act 312, which said act required binding arbitration in disputes between a municipality and its fire and/or police department, and

WHEREAS, The legislature saw fit to enact the above law because they realized that certain individuals were creating chaos by refusing to deal fairly with organized labor, and

WHEREAS, It is a proven fact that decisions of professional arbitration panels have always been fair and equitable, and

WHEREAS, A repeal of Act 312 of 1969 would be a backward step in organized labors' fight for fair and decent working conditions and wages, and

WHEREAS, The legislature by enacting the above law in essence told local elected officials that basic city services with fair and decent wages should have top priority, and

WHEREAS, Individuals who are against arbitration are afraid of decisions based on truth and facts.

THEREFORE, BE IT RESOLVED, That the Mayor and Council of the City of Riverview go on record as supporting organized labor, the members of the State Legislature, which includes the Honorable Thomas A. Anderson and Act 312 of 1969.

BE IT FURTHER RESOLVED, That to ask the State Legislature to set up a fund to pay the wages of employees in municipalities when said municipality refuses to pay their own employees a fair and decent wage be deemed "ridiculous", because it would in effect, be asking the state to raise our residents taxes while also asking them to pay the wages of the employees of other cities.

WHEREAS, It is believed that the quality and desirability of this community is related to the quality and desirability of its public school system; and

(g) The Contractor will include the provisions of Paragraphs (a) through (g) of this Section in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965 as amended by Executive Order 11375 dated October 13, 1967, so that such provisions will be binding upon each subcontractor or vendor. The Contractor will take such action with respect to any construction contract, subcontract, or purchase order as the Agency or the Department of Housing and Urban Development may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such Direction by the Agency or the Department of Housing and Urban Development, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.

Mayor Jones read the following letter:

February 24, 1970

Honorable Council, City Manager, Department Heads and Friends:

By now, most of you are aware that this is my last meeting as your Mayor. However, I couldn't bow out, without explaining my reasons and taking the time to thank the many people who have made my last fifteen years so fruitful. Serving as your Mayor is an honor I shall never forget.

To tell you that I was leaving for personal reasons would be an easy way out, but I would like you to know the reasons why. First, since assuming additional responsibilities at Detroit Edison, time just isn't as available as it was. Between this, working on our special city projects, and the week to week city operations, there just hasn't been enough time to do justice to all of them.

Second, with all the talk about ecology, which we in Riverview call civic pride and progress, I would like to concentrate my spare time on completing plans to preserve open space. Third, there are some people interested in promoting my name for an elective state office, and while I have neither accepted their offer, I haven't rejected it. Why haven't I accepted? Because if Council approves, I have a personal desire to help complete the present plans for housing and recreation. Why haven't I rejected it? You might call it vanity.

Many residents may believe that Riverview has been a one man show during my tenure, as someone once said, "The King James Version". This is nonsense, without the togetherness of the present and former Councils, progress would never have come to Riverview. Paved streets, adequate water supply, new sewers, library facilities, golf course, ski hill, teen center, senior citizen center, parks, new industry, etc., would never have been realized without the joint efforts of all of us, which includes my opposition.

560 Much of our success however, is due to the hard work of our consultants, commissioners and staff who, along with the Council, I would like to extend my sincere thanks for their fine effort and co-operation. To all of the residents who elected me Mayor, I hope that Riverview's progress is your thanks for electing me. To Mayor Pro-Tem Brown, Members of Council, George Tear and the Staff, I have attached a copy of Edgar A. Guest's poem which has been my inspiration all of these years. It is my hope, that you will take heart from it also.

In closing, may I be so forward as to recommend for the Council replacement, our distinguished JC winner of 1970, William Hempel. As all of you know, Bills service to the city has been outstanding for many years, and I am sure he would do an excellent job on Council. This, then is finis for me, as my retirement is effective at the close of this meeting.

With every good wish for the future, continued harmony and progress, I remain,

Very truly yours,

(s) James L. Jones

REGULAR MEETING OF THE COUNCIL OF THE
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN
HELD ON MONDAY, MARCH 2, A. D., 1970, IN THE
COUNCIL ROOMS OF THE MUNICIPAL BUILDING

Strike per objection
Mayor 3/9/70

000 ~~Judge G. H. Zitzelsberger administered the oath of office to William B. Hempel.~~

Mayor Brown called the Council meeting to order at 8 o'clock p.m.

Present: Councilmen Hempel, Homeister, LaFayette, Mayoros and Rotteveel

Absent and excused: Councilman Widenhofer (ill)

Others present: City Manager Tear, Attorney Francis, DPW Superintendent Eoff, Treasurer Frost, Police Chief Hale, Fire Chief Highfield, Land Preserve Director Perry and Co-ordinator Shoup

024 Paster Herbert Groettum of the Immanuel Lutheran Church of Riverview gave the invocation.

Councilman Mayoros asked for and received permission to read the following statement.

Re: Illegality of appointment and seating of Mr. Hempel.

Honorable Mayor and Members of the Council
of the City of Riverview:

I rise to a point of order and wish to place on the record, and as part of the minutes of this meeting, my objections to the seating of Mr. Hempel as a councilman at this time for the reason that the same would be in violation of the Charter of the City of Riverview.

I base my objections on the following irregularities and deviations from the City Charter and wish to point out to the Council certain errors which have been caused by the unseemly haste to appoint Mr. Hempel to a vacanty which did not, in fact, exist and does not now validly exist under the Charter of this City.

We are all aware that Mr. Jay Brown was elected Mayor Pro Tem in April of 1969, at the first organizational meeting of the newly constituted council of the City of Riverview. That election remains in effect until April of 1970, at the time of the first organizational meeting of the Council, then to be constituted. Upon the resignation of former Mayor Jones on Tuesday, February 24, 1970, a vacancy in the office of Mayor occurred, but, and this is the important part, <u>that vacancy did not occur until the resignation was actually effective</u>. A close reading of the resignation submitted by former Mayor Jones shows that the resignation did not become effective until the conclusion of the regular council meeting of Tuesday, February 24, 1970. There has been no validly called or scheduled meeting of the Council subsequent to the occurrence of that vacancy until this evening's regularly scheduled meeting of the Council.

(Statement of Councilman Mayoros, cont'd)

The City Charter, Section 4.4(e) provides that the Mayor ProTem shall exercise the duties of the Mayor "in the absence or disability of the Mayor".

Section 5.2 of the City Charter also provides that the vacancy in an elective office must be filled within 30 days, this to be for the unexpired term. A careful reading of the Charter makes it clear that the assumption by Mr. Brown of his duties as Mayor Pro Tem did not have the effect of vacating his office as a Councilman or Commissioner of the City of Riverview.

If, this evening, the Council is of a mind to change or correct the record by properly electing the Mayor Pro Tem as the Mayor to fill the unexpired term, then, and only then, will there occur a vacancy in the office of the Council.

As a practical matter, of course, we all know the Charter prohibits the filling of that vacancy at the present time, and it cannot be filled under Section 5.2 of the Charter until after the regular city election has been held in April of 1970, and the organizational meeting of the newly constituted council takes place.

It should be pointed out that the vote of Mayor Jones on a motion to fill a vacancy for the office of Mayor was void and of no effect. At the time Mayor Jones cast his vote there was no vacancy in the office of Mayor and when the vacancy in the office of the Mayor occurred at the conclusion of the meeting, Mayor Jones was no longer a voting member of the Council.

Because of these irregularities and violations of the City Charter, I call upon Mr. Hempel to stand aside and not to purport to take a seat as a member of this Council until the irregularities have been cured, and I further give notice that Mr. Hemple's seating at this time will expose him to removal by a Court, and will cast a cloud of doubt over the regularity of any action undertaken by this Council during the period that such irregularity continues.

In connection with the vote on filling the vacancy in the Mayor's office: The Charter has strong language protecting the process for appointing of the Mayor Pro Tem. This is an office considerably less in stature than the Mayor's office itself. Nevertheless, the Charter requires that the Council shall at its first meeting following each regular City election, after the newly elected members have taken office, elect one of its members to serve as Mayor Pro Tem for a term expiring at the first council meeting following the next regular City election:

> City Charter 4.3 "SUCH ELECTION SHALL BE BY WRITTEN BALLOT AND BY MAJORITY VOTE OF THE MEMBERS OF THE COUNCIL IN OFFICE AT THE TIME".

A proper construction of the intent of the Charter would require that the office of Mayor be filled in the event that a vacancy occurs in a manner at least as strict and at least as protective as that provided for the election of Mayor Pro Tem. The written ballot election of the person filling the vacancy in the office of Mayor requires a majority vote of the members of the Council at the time. This will require four affirmative votes of the City Council to be effective.

(Statement cont'd)

Respectfully submitted,

(s) Ernest J. Mayoros, Councilman

Councilman Mayoros asked that the statement be made a matter of record and included in the minutes of this meeting.

Resolved by Councilman Mayoros, supported by Councilman Rotteveel that the minutes of the Council meeting held February 24, 1970, be accepted as presented and placed on file.

That the City Manager be directed to send the minutes beginning with page 4 through and including page 8 by certified mail to the Attorney General of the State of Michigan along with Chapter IV, Section 4.1 through and including 4.4 of Chapter IV and Chapter V, Section 5.1 through and including Section 5.5 of Chapter V of the City Charter of the City of Riverview, so that the actions of Council on that date may be investigated and clarified by the Attorney General as they pertain to those sections of the Charter that are applicable.

Further, That we request that the Attorney General determine the legality of said actions as contained in the Council minutes in regards to the motion by Mayor Jones formulating a non-profit corporation with himself as a member,(questioning too, whether such corporation is legal since it usurps powers and duties of this council) and the legality of the actions appointing Jay C. Brown to the position of Mayor and William Hempel to Council when such offices were not vacant at the time.

Further, That the City Manager cause the above certified correspondence to be mailed to the Attorney General of the State of Michigan tomorrow, March 3, 1970, including the statement I have just read and that each member of council receive a copy of the correspondence in its entirety.

Re: Opinion - Sec. 6.5 Charter and
Sec. 5.3 - Charter

Honorable Sirs:

At a meeting of the City Council, City of Riverview, February 24, 1970, the writer was requested to give his oral opinion in relation to some questions that arose concerning the above sections of the Charter. This represents a written opinion following the statements made at the said Council meeting by myself.

(1) A resignation was presented conditioned on its effectiveness taking place at the conclusion of the meeting. The resignation then speaks for itself and becomes effective at the time stated therein.

(Letter from Attorney Francis cont'd)

Can the person whose resignation is effective at the end of the meeting vote during the said meeting? This question is answered in the affirmative for the following reasons:

a. The Charter states in Sec. 6.5 (b) "a vote upon all Ordinances and resolutions shall be taken by "yes" and "no" vote..."

In Sec. 6.5 (c) the following is stated: "No member of the council shall vote on any question in which he has a financial interest, other than the common public interest, or on any question concerning his own conduct, but on all other questions each member who is present shall vote when his name is called."

It is the opinion of the writer that the resignation not being effective until the end of the meeting, the party resigning was not only entitled but required to vote, there being no financial interest or question of conduct.

(2) An interpretation was asked of Sec. 5.3 covering the filling of vacancies.

Sec. 5.3 reads as follows:
"If a vacancy occurs in an elective office, the Council shall, within thirty days thereafter, fill the vacancy for the balance of the unexpired term thereof: Provided, that, if the vacancy occurs on the council within forty days prior to a regular city election, it shall not be filled until after the next organization of the Council."

The Clerk was questioned as to the date of the next regular City election and we were advised that April 6, 1970 was the date. Does a vacancy effective February 24, 1970 fall within "40 days prior" to April 6, 1970? The answer is answered in the negative. Even applying the Court principal of adding one day and dropping another day, the key word is "within".

Following a determination that the "within 40 days" does not apply, the Charter provides for the existing council to fill the vacancy within thirty days. This provision is mandatory. We feel that our opinion stated on the record is not different than is herein written.

Very truly yours,

BERRY, HOPSON, FRANCIS & MACK

.149 COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:

An Opinion from Attorney General Frank Kelley was read in full as follows:

April 7, 1970

Honorable Thomas J. Anderson
State Representative
The Capitol
Lansing, Michigan

Dear Representative Anderson:

1160 (Opinion from Attorney General Kelley, cont'd)

This answers your letter of March 17, 1970, and the Riverview City Manager's letter of March 3, 1970, regarding the legality of certain actions taken by the council of the City of Riverview at its meeting of February 24, 1970.

1. Mayor James L. Jones presented his resignation as Mayor at the beginning of the meeting of February 24, 1970, to be effective at the close of the meeting. Copy of excerpt of minutes forwarded with your letter show that the resignation was accepted as effective at the close of the meeting (p.668). This is in accordance with the provisions of Section 5.4 of the charter governing the resignation of officers. I advise you that the resignation became effective at the close of the meeting. The vacancy occurred at the time of the resignation, pursuant to Section 5.2 of the charter, which incorporates by reference MCLA §201.3; MSA 1956 Rev Vol §6.693.

2. During the meeting of February 24, the Council appointed the mayor protem to fill the vacancy created by the mayor's resignation, pursuant to Section 5.3 of the charter, requiring the council to fill any vacancy in an elective office for the balance of the unexpired term except where the vacancy occurs within forty days prior to a city election, as was not here the case.

This appointment is challenged, you advise me, on the basis that the vacancy in the office of mayor did not occur until the close of the meeting, and therefore could not be the subject of action at the February 24 meeting. I find this challenge without merit, and advise you that the council, being on notice of the vacancy at the beginning of the February 24 meeting, was both able and required to act at that meeting to fill the immediately ensuing vacancy. It follows that the appointment of another to fill the council vacancy which the council was creating by elevating the mayor pro tem to the office of mayor was likewise valid and proper. In like manner, the appointment of another individual to fill the vacancy on the council occurring by reason of the elevation of the mayor pro tem (a member of the council) was valid pursuant to Section 5.3 of the charter.

3. Question has been raised concerning the validity of the vote of the mayor during the meeting of February 24, based on the fact that his resignation had been presented, I conclude that his vote was valid. At the time he voted, his resignation had not become effective. He was, therefore, an occupant of office during the meeting, and able to exercise the functions of mayor, including the function of voting. The vote on his successor was not invalid, since it was properly before the council of which he was still a voting member. Nor was his vote on the establishment of a nonprofit corporation to acquire and develop recreation land for the city invalid by reason of the fact that he himself was one of the corporate officers appointed for the nonprofit corporation, at least in the absence of a showing of financial interest on his part. We are advised of no such showing.

(Opinion from Attorney General Kelley, cont'd)

1229 4. During the meeting of February 24, the Council voted to form a nonprofit corporation under Act 327, PA 1931, as amended, to provide public facilities for recreation, for "ultimate vesting of the ownership thereof in the city." The corporation is to acquire certain real property in the city, improve it by constructing and equipping related facilities for use by city residents. The resolution provides that the acquisition of the land and the improvements will be financed by bonds, land contracts and other necessary instruments of indebtedness. It is contemplated that the ownership of the land and improvements will vest in the city, free of any liens and debts, after the bonds or other instruments of indebtedness are paid.

I advise you that the action of the council in authorizing the formulation of a nonprofit corporation under Act 327, PA 1931, as amended, to carry out a public governmental purpose, is void and of no effect, as an illegal delegation of a public function to a corporation, as a violation or circumvention of constitutional and statutory provisions governing public financing, and as an ultra vires activity. The attention of the council is directed to State v. Doyle and Associates, 374 Michigan 222 (1965), for a recent discussion of the doctrine that the incurring of debt for a governmental function remains subject to legal public debt controls, though filtered through a corporate device.

The purpose sought to be achieved by the subject resolution may be achieved only as permitted by state law--as by revenue bond financing through the city building authority. We find no authority for a city to carry out a public governmental function or to incur debt through a private nonprofit corporation. Governmental entities may incur debt only as provided by law. See, for example, Salzer v. City of East Lansing (1933), 263 Mich 626,

I therefore advise you that the resolution authorizing the establishment of a nonprofit corporation to exercise a governmental function and to incur debt is invalid for reasons above set forth.

Yours sincerely,

(s) Frank J. Kelley,
Attorney General

1288 In accordance with a prior request, Mayor Brown allowed persons in the audience to discuss the opinion with the Council.

1. Lack of personnel at the local level.
2. Lack of time, transportation and office space.
3. This would impose an additional workload on our legal staffs.
4. Lack of experience would create an unwarranted burden upon the community.

We now, therefore, recommend the following as a possible solution:

1. Support legislation which would increase interest on delinquent taxes.
2. Support legislation which would increase collection fees on delinquent taxes.
3. That the present collection procedures remain with the Wayne County Treasurer and that the Board of Wayne County Commissioners authorize sufficient additional personnel to enable the County Treasurer to accomplish the work required.
4. Explore the possibility of contractual arrangements between the cities and the County of Wayne for charges for collection of each delinquent account.

July 24, 1970
Memo 151-RMF

To: Jack R. Shoup, Acting City Manager
From: Robert M. Frost, City Treasurer
Subject: Newspaper Report on Land Preserve

I am writing in regard to the Wyandotte News Herald report concerning alleged statements I made in reference to the Land Preserve Operation which was printed on July 22, 1970.

Mr. Harry Taylor from the News Herald called me in regard to the June, 1970 Land Preserve report which indicated a difference between the 1969-70 FY Revenues and Expenditures of $104,122.28. I explained and emphasized to Mr. Taylor that this was not a clear profit as equipment depreciation and land costs had not been computed as yet and these costs must come out of the $104,122.28.

I did not say "I think that right now the operation is running at capacity." I told Mr. Taylor that the Council was in the process of determining the depth and cost of a study of the Land Preserve operation, which study would, in part, tell the Council the cost of handling X-number of yards or tons of rubbish and at what volume of yards or tons the handling costs become prohibitive.

I called Mr. Taylor and advised him of the discrepancies in his news report and requested that he print a correction on this report on the front page of next Wednesday's edition.

When a taxpayer or resident of Riverview, or any newspaper reporter asks for information from the Treasurer's Office, I give them all the facts I am aware of, and those facts I am not aware of are referred to the respective Department Heads or the City Manager.

I have not, and will not, make statements that are misleading or show disrespect for the Mayor, Councilmen, City Manager, Department Heads, employees, taxpayers or residents. I do not always agree with everyone, but I keep my personal opinions and feelings to myself.

I regret the fact that the newspaper report did not include all my statements. I had informed Mr. Taylor, when he first started reporting our City's activities, that if he were writing a report concerning information derived from the Treasurer's Office to review his final draft of any report with me, so there would be no misunderstanding. Mr. Taylor did not review his final draft on the Land Preserve Report with me before having it printed on July 22, 1970.

Request this memo be made a matter of record.

Resolved by Councilman Bielak, supported by Councilman Hempel that Memorandum 170 from Fire Chief Highfield be received, placed on file and the memorandum printed in the minutes in its entirety.

The Memorandum, Number 170, was then read in full as follows:

July 21, 1970
Memo #170-DJH

To: Jack R. Shoup, Acting City Manager
From: D.J. Highfield, Fire Chief
Subject: Directive #582 JRS

The following are my reasons for recommending the City purchase the fire truck that was approved and ordered last year.

During the past few years our city has grown considerably, we have a large shopping complex at King and Fort Street, we have a new General Electric Plant, over 400 units of multiple housing and more to come, we have a highly volatile chemical plant and many new and old two story homes, one convalescent home and another being built.

The Squirt, as it is called, is actually a 1,250 gallon per minute pumper with a 54 foot articulating boom attached to it that is capable of discharging 1000 gallons per minute from its nozzle, the horizontal reach is 45 feet. The Squirt does not interfere with normal pumper operations. Hand lines can be used at the same time the Squirt is in operation and this piece of equipment will multiply our department's fire fighting capabilities in spite of our manpower shortage the first five minutes at the scene. The Squirt requires only one man to operate it. The nozzle can be put into a blaze and used without risking the life of a man. The Squirt's ability to bend in the middle, reach up, reach over, reach through or under, put water wherever needed is very unique.

We have had many mutual aid calls in the past few years on large fires that were out of control, I am sure that if a squirt were available that these fires would have been brought under control very quickly. I am sure on the apartment house fire that we had last year that we wouldn't have lost the second unit if we had the Squirt.

We have the potential of large scale fires and loss of lives in the multiple housing, two story homes, chemical plants and shopping centers. We don't have a piece of equipment that is needed to get above these types of fires or get close enough to combat them, with the large roof areas that these buildings have we need the Squirt to get over the fire. You can not fight a large scale fire from the ground and win.

Memo #170 (cont'd)

Another reason we need this pumper is our '58 Ford is 13 years old and is under constant repairs, it will need replacing in the near future.

One more reason is that we will never get a five year loan for the same interest rate plus the truck will cost considerably more. One community near us has just received bids on a Squirt, their price was $74,000.00, $10,000.00 more than ours, also we do not have to make a payment till 1971-72 budget.

The Fire Department is like any other department in the City, If we don't have the equipment to do our job, it can't be done very well. The only difference is that every call the Fire Department responds to we are dealing with lives and property. I believe the above justifies the Squirt.

'Riverview Financial Report to Its' Citizens
Prepared by Stratton Associates Incorporated as Requested by Mayor and Council.

The Mayor and Council are faced with the responsibility of operating the City of Riverview on a budget which reflects only those projects and services most essential to city operation and, at the same time, they must explore all plausible and feasible ways to meet the contractual obligation for planning, engineering, architectural, financial, and legal services rendered arising out of programs and projects initiated by the City Council over the past five years.

The Mayor and Council of the City, as mentioned above, initiated a series of projects and programs which due to their nature were interrelated and in many cases their ultimate success depended upon the undertaking of all, and each project succeeding as planned.

The Senior Citizens program was proposed and projected to be built on city owned property; and in turn the revenues received from the purchase of this property along with building permits, water connections, and sewer connections would be paid to the City. These excess revenues would be used to offset part of the cost of the repayment of the bonded debt for the other projects which I have mentioned above. In simple, mathematical terms, there were planned 2,000 units of housing with approximately 330 units to be constructed on every 40 acre site. Each acre of property costs the City approximately $4,200.00 and was proposed to be sold to the Senior Citizens project for between $15,000.00 and $20,000.00; the difference between $4,200.00 and $15,000.00 to $20,000.00 or approximately $10,000 to $15,000 per acre would be made available to the City to offset the cost of the repayment of the Civic Center project bonds and the Recreational Bond Issues.

(Report from Stratton Associates, cont'd)

432 (40 acres x $10,000 = $400,000.00 per section). The excess monies which would occur from the water and sewer connections were to be used to offset the cost of the secondary sewage treatment facility now planned for the City of Riverview. This would have saved the City approximately $1,600,000.00 which is the City estimated portion of the cost of secondary sewage treatment; the balance to be paid through State and Federal grants. The planning of the Senior Citizens Project was carried on over a seven year period.

A portion of the Recreational Bond Issue proceeds, as approved was used to purchase some 700 acres of property at a cost of approximately $2,600,000.00 and the balance of the project funds was used to start development of the Ski Hill project and to plan the golf course, lake and the balance of the recreational facilities and contractual fees. A portion of the 700 acres mentioned above was deemed surplus property and is the property that was to be sold to the Senior Citizens project. The original purchase price, or approximately $4,200 to $4,500 per acre would have been returned to the debt retirement fund of the above mentioned bond issue as the land was sold. Since the sale never occurred, the City of Riverview now owns some 700 acres of land which is without a doubt worth at least three times its original purchase price, depending upon location and zoning.

The Civic Center project, Series II, was originally undertaken by the City with the intention of assigning the project and all contractual fees to the Building Authority. The Building Authority would market $4,115,000.00 in bonds to pay the above-mentioned fees, one year capitalized interest, and build a project originally estimated at $3,200,000.00 in construction costs. The City began this project and retained architects to design it. During the architectural planning of the project, the architectural firm of Smith, Hinchman & Grylls belabored under the idea that additional monies would be avilable from the Senior Citizens Housing Project and designed a Civic Center project which, if offered for construction bids, was estimated to cost approximately $6,500,000.00 without any fees involved. The contract of Smith, Hinchman & Grylls was assigned to the Building Authority and the Authority was forced to terminate the contract with the fore-mentioned architectural firm and to absorb the architectural, planning, engineering, financial and legal fees into a second project which was to put more emphasis upon recreational facilities rather than Civic Center facilities. The Building Authority with the guidance of the City Council designed a project of which approximately 70% consisted of well-planned recreational facilities. When the plans and specifications for this project were completed to a point where this project could be put out for construction bids, and the above-mentioned $4,115,000.00 Bond Issue could be offered to the bond buyers, the national economy had changed to the point where municipal bonds could no longer be marketed at an interest rate not to exceed 6% which was set by law in the State of Michigan. Every other avenue of finance was explored by the Building Authority to market these bonds so as to remove the burden of the City paying the above-mentioned fees for the original Civic Center project and the newly authorized Civic Center project. The financial consultants were unsuccessful in marketing the bonds and it was not until mid-December, 1969, that the State Legislature raised the maximum interest rate on municipal bonds to 8%; thus making this bond issue

72 (Report from Stratton Associates, cont'd)

saleable; but during the lapse of time between the furnishing of the plans and specifications and January 1, 1970, or approximately six months, the cost of construction had risen at such a rate as to make this project unbuildable and financially unfasible as designed. The City of Riverview owns plans and specifications for Recreational Facilities as well as Civic Center Facilities and a Department of Public Work Facilities and can use these plans and specifications to build those facilities which are deemed most essential for City operation when funds are available for such projects.

The 1969-70 City budget was held to an operating low of 7.51 mills by anticipating the receipt of some $750,000.00 from the sale of 40 acres of City-owned property to the Senior Citizens Project. Many people and firms labored to make this project go during the fiscal year of 1969-1970 and to come up with a plausible, workable program that would lead to the purchase of the above-mentioned property, thus making that sum of money available for city-operating in the latter part of the fiscal year. Here again with the tightening of the money market, as well as the rising cost of construction, this project was never comsummated furing the fiscal year; thus, causing the City to have to be operated on a most austere budget. The only possible fault that can be placed on the anticipation of the sale of land is that it had to be sold to the Senior Citizens project and was not offered to general developers early enough in the fiscal year to consummate a sale which would have returned to the City budget those anticipated revenues.

In the above-mentioned, we have tried to review those projects which have led to the debts which are now facing the City of Riverview; and we have tried as we think it is most important to also show that the City of Riverview, although facing obligations for contractural services, owns plans and specifications for civic structures and recreational facilities, and owns approximately 200 acres of surplus land which, if sold for only 50% of its value would return three times the amount of money for which the City is obligated.

CONCLUSIONS

The following conclusions explain the basic reasons why the City of Riverview is now faced with the debts and obligations which were accumulated due to the inability of the City to bring to a conclusion those projects which are mentioned in the attached report.

No. 1. The basic projects and programs which were planned and studied were too large in scope for the City of Riverview to undertake.

No. 2. The financing of part or all of these projects and programs were based on anticipated revenues.

No. 3. The projects and programs were interrelated and interlocked to the point where each depended upon the other for a successful conclusion.

500 (Report from Stratton Associates, cont'd)

No. 4 From the inception of the projects and programs, the lines of communications from the Chief Executive of the City to the Council, City Manager, Department Heads, Consultants and Special Programs Coordinator were poor and, in most cases, non-existent.

No. 5 The Council proceeded with these programs and projects based on the concept that each new project would bail the City out of its growing financial problems.

From the onset of the planning of these programs and projects they were for the most part feasible; but they would have had to be undertaken one at a time and on a smaller scale without being tied to each other.'

REGULAR MEETING OF THE COUNCIL OF THE
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN
HELD ON MONDAY, NOVEMBER 16, A. D., 1970, IN THE
COUNCIL ROOMS OF THE MUNICIPAL BUILDING

440 Meeting called to order at 8 o'clock p.m.,
Mayor Jay C. Brown presiding.

Present: Councilmen Bielak, Hempel, Homeister, Rotteveel and Widenhofer

Absent and excused: Councilman LaFayette (vacation)

Others present: City Manager Shoup, Attorney Francis Purchasing Agent Brooks, DPW Director Eoff, Treasurer Frost.

The invocation was given by Dr. John L. Francis.

Mayor Brown suspended the regular order of business so that persons in the audience might speak.

Floyd Fountain, 14739 Pennsylvania, representing employees of the city, asked that two letters addressed to the employees be read into the records.

The letters were read as follows:

November 12, 1970

TO ALL RIVERVIEW CITY EMPLOYEES:

I have called all of you together today to review with you some of the problems we are faced with in the remaining fiscal year's budget.

You are all aware I am sure that we have been operating on an austerity budget for the past two years. The reason for this was that the city revenues have not come in that was expected in the last fiscal year. We then found ourselves in a deficit position. In view of this we raised taxes 6 1/2 mills and implemented an even more stringent austerity budget deleting such things as schooling, needed equipment, cars, pay increases in some instances, travel and every conceivable item that could be removed was removed. In view of this, it was necessary to attept to sell tax notes for $350,000.00. If we are able to sell these notes, we will still be short in the general fund some $60,000.00. After reviewing the current budget a number of times there is no place left to cut other than personnel services, for the period of January 1, 1971 through June 30, 1971. It will be necessary to eliminate six (6) positions, and this will affect all departments.

It is necessary to point out that the employees who are laid off will not receive unemployment compensation benefits as we do not participate in the unemployment compensation program.

After considerable deliberation and soul searching it was concluded that I ought to call all the employees together and review with them the possibility of all city employees participating in a program of support for these six (6) positions. This reduction in personnel would amount to a $23,600.00 savings from January 1, 1971 through June 30, 1971. If each employee were to agree to a $10.00 per week reduction in their pay, then it would make it possible to retain these six (6) positions and remain in a status quo position.

I will restate again, "This is for a period of six (6) months, January 1, 1971 through June 30, 1971". At the end of this period of time, we believe we will be able to return to normal personnel strength on a sound financial basis.

I will request that you advise me by the form attached of your intentions no later than 4:00 p.m., Tuesday, November 17, 1971. Please submit form to Mr. Robert Frost, Treasurer.

(s) Jack R. Shoup, City Manager

(2)
MEMORANDUM
To: All Fire Department Personnel

I am appearing today to review with you a financial position of the City of Riverview.

It has been determined that we will have to reduce the Fire Department force by One (1) man per shift for a period of time (January 1, 1971 thru June 30, 1971).

As an alternative and if it is agreeable to you men, an arrangement can be worked out by which you can reduce your hourly rate to $1.94 per hour during this period and maintain the same personnel.

If this is agreeable by you for the above stated period of time, please indicate this to Mr. Robert Frost so that this adjustment can be made in the payroll department. I enclose for you a form for this convenience.

(s) Jack R. Shoup, City Manager

At this time Mayor Brown announced that, because of the large number of people in the Council Room, Council would recess for twenty minutes and reconvene at the High School auditorium.

Council was reconvened at 8:30 o'clock p.m.
Present: Mayor Brown, Councilmen Bielak, Hempel, Homeister, Rotteveel and Widenhofer.

Absent and excused: Councilman LaFayette (vacation).

Discussion followed on: Proposed pay cuts, Landfill operations, budget problems and the tax levies necessary to balance the budget.
