**PUBLIC HEARING NO. 2; ON NECESSITY FOR SIDEWALK ASSESSMENT #1987-2;**

The following two (2) letters were read and made a part of the Minutes:

Council Members:

"I wish to protest the building of sidewalks across my property at 14356 Sibley, Riverview. On May 28, 1987, I received a Notice of Public Hearing stating that a portion of my property was going to be taken for a public sidewalk. In the Notice of Public Hearing I was informed that I could review plans and estimates for the sidewalks at the City Clerk's office. On Friday, May 29, 1987, I went to the City Clerk's office where I was informed that the City Engineer had the plans - I went to the City Engineer's office and was informed by the City Engineer that no plans existed. The City Council should not approve the sidewalk without proper engineering plans. And without giving the public a chance to review and comment on those plans.

I further protest the taking of my property for a sidewalk that is unnecessary. I have lived on this property forty-six (46) years and have never needed a sidewalk and do not have any use for one now.

Moreover, the placement of a sidewalk on my property will diminish the value of my property. The construction of a sidewalk will require the removal of trees from my historic property causing a loss of privacy, as well as a loss of aesthetic beauty.

The sidewalk will also diminish the security I now experience by allowing the public access to my property.

As a widow, with limited income, I will be unable to pay the estimated \$5,025.00 assessment that will be levied against my land. On other occasions Council has considered placing a sidewalk across my property. On each occasion Council has decided against building an unnecessary sidewalk. There are other routes available for the residents of 'The Glens' subdivision to reach Patriots and the Library. I hope Council will again decide against building the sidewalks."

Respectfully,  
Catherine Vreeland

City of Riverview

"This letter is intended to introduce formal objection to the proposed sidewalk construction through the property currently owned by Ferndale Cemetery Association. This project would result in the loss of eighty-five (85) graves and their associated interment fees valued at \$70,125. It would also result in a loss to our maintenance endowment of \$5,418.75 minus the required allocation to the fund of \$5,000 per acre for land conveyed from the cemetery to another owner. This amount would be \$568.83 creating a net loss of \$4,849.92.

We also feel that the 530' currently not platted for grave use but being used as a 17' wide belt of trees to insulate the cemetery from Sibley Road is of monetary value. It is our contention that this is necessary to present an aesthetically pleasing frontage.

Our cemetery is currently over 95% full and provides a livelihood for four (4) full time employees. Loss of 85 graves would significantly shorten the length of time we will be able to be a productive business."

Yours,  
Ralph E. Odell, President  
Ferndale Cemetery Association

Resolved by Councilman Brown, supported by Councilman Trombley, that the City Engineer be directed to prepare plans and specifications for the proposed sidewalks on Sibley Road on Special Assessment District No. 1987-2 and have such plans available for the meeting of June 15th, 1987.

Ayes: Councilmen Brown, Capezza, Kesterson, Trombley, Councilwoman Thiede

Nays: Mayor Rotteveel

Mayor Rotteveel and City Council Members:

A brief note concerning the basement flooding conditions in Riverview, Sunday, June 21, 1987.

We were fortunate to finally receive acknowledgement for help from Riverview's D.P.W. Shop Foreman, Mrs. Judith Corns.

Working within the structure of her job classification Mrs. Corn's ability, professional manner, honesty and understanding attitude is by far outstanding.

We ask that you relay our comments to Mrs. Corns publicly - also that you keep our note on file for due consideration to Mrs. Corns at the appropriate time. and a letter from Lynn Blanchette, 14746 Shenandoah, dated June 15, 1987:

To the Editor:

This letter is in regard to the recent flooding the people of Riverview experienced.

On Tuesday, June 2, the flooding was so bad on Shendandoah and Valleyview that parts of the streets had to be blocked off to traffic.

A group of residents from Shenandoah were expressing their concern to the Board of Directors about the flooding of their basements and the street.

DPW head Jerry Perry was on site on Valleyview. He took the time out of a very busy schedule to come to the meeting and explain to the people on Shenandoah what could be done if anything to help ease this problem in the future. Jerry gave us some sound advice and two workable plans to act on.

Jerry then offered to let us use road closed signs and the wooden horses to put them on.

I personally went back to the Valleyview site with Jerry while he made arrangements for the above.

The Valleyview flooding was getting worse and there didn't seem to be an end in sight. The DPW then blocked off the street at Sibley with truckloads of sand to prevent the water they were pumping off Valleyview from coming back onto the street.

On site I saw Judy Corns an administrator for DPW. She was talking with the residents on Valleyview and explaining the situation and what was being done to reduce the water.

Not only were Jerry and Judy helpful to the people of Riverview but, they did an excellent job in directing the employees of our DPW.

Not only had these men been on the job for at least 32 hours but, their attitude was one of concern for what was happening. They not only went and got the road closed signs for Shenandoah but, they also put them up and then verified that with the residents.

I understand that these capable workers are paid for their time. What pleases me was their almost cheerful attitudes toward their jobs.

I am only sorry that I did not get everyone's name who helped us on that very rainy night.

Resolved by Councilman Capezza, supported by Councilman Kesterson, that a copy of a Resolution adopted by the City of Trenton regarding the Plant Rehabilitation and Industrial Development District Act be received, placed on file and Council adopt the following Resolution:

WHEREAS, the City Council for the City of Riverview has recently experienced the effect of the "Plant Rehabilitation and Industrial Development District Act" of the State of Michigan, being Act. No. 198 of the Public Acts of 1974, as amended, and

WHEREAS, in 1979 the City Council for the City of Riverview communicated by Resolution to its elected officers in the State Legislature those problem areas created by the "Plant Rehabilitation and Industrial Development District Act", and

WHEREAS, the City Council wishes to communicate, again, those concerns, and

WHEREAS, the concerns and objections to the "Plant Rehabilitation and Industrial Development District Act", as experienced by the City Council for the City of Riverview are as follows:

1. The risk of granting tax incentives under the Act falls solely on local units of government and there is no reimbursement system or sharing system by the State of Michigan while the state benefits from increased taxes paid to it and the State becomes affected only if industry leaves the State.

2. The Act was passed to stimulate the economic development of the State of Michigan and shifts this burden of stimulating the state's economy solely to local units of government which ignores the real problem of excessive unemployment taxes and unduly burdensome worker's compensation laws.

3. The granting of tax incentives, if given, passes on or shifts part of the tax burden from the industrial segment to the non-industrial segment of the property tax paying community.

**unless that local unit of government**

4. The rehabilitation provision of the Act produces no added value to a local unit of government has an income tax and even then, such a tax incentive would shift the tax burden from the industrial user to the individual.

5. A study conducted for the Michigan Senate has shown that abatements have done more to relocate companies within the state than to lure development from outside Michigan's borders.

6. The Act permits companies to apply for numerous communities at the same time, resulting in unhealthy bidding wars among neighboring communities.

NOW, THEREFORE, BE IT RESOLVED that the City Council for the City of Riverview directs that this resolution be sent to its elected representatives in Lansing with the concept of reviewing the "Plant Rehabilitation and Industrial Development District Act" as well as the introduction of amendatory legislation which would make the State a partner in lost revenues as well as attacking the problem of worker's compensation and unemployment taxes which is the real impediment to Michigan's economic picture along with the other objections previously set forth in this resolution.

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to Senator Christopher Dingell, Representative Joe Porreca, Governor James Blanchard and other elected officials.

WHEREAS, the Bill would authorize the drain commissioner to assess the drainage district up to \$1,500.00 per mile of drain at any time that the maintenance fund, which the drain commissioner or drainage board may establish, contains less than \$3,000.00 per mile of drain or fraction of a mile, and

WHEREAS, the present requirement of notice to property owners subject to assessment for drain repairs and maintenance, would be deleted,

0.1 Hz high-pass system.....	134 dB
2Hz High-pass system.....	133 dB
5 or 6 Hz high-pass system.....	129 dB
C-weighting slow-response system (events not exceeding two (2) seconds duration).....	105 dB(C)

(b) Vibration Regulations. Vibration intensity shall not exceed a particle velocity of 0.5 inch per second for vibrations of semi-continuous nature produced by but not limited to such activities as pile driving, pavement breaking, and soil compaction, when measurements are made on the ground next to the foundation or on the basement floor of any dwelling, church, school, or any other residential, commercial, or institutional structure.

(c) Vibration Regulations - Blasting. The intensity of ground motion produced by blasting operations either in construction or in operation of a business at a fixed location, when measured on the ground next to the foundation and not on a direct line between the structure and the point of the blast and at the same distance that the structure is from the point of the blast shall not exceed the following limits on particle velocity.

Vibration Frequencies Less than 15 Hz....0.75 in./sec.

Vibration Frequencies of 15 Hz to 40 Hz,  
peak particle velocity (PPV) limit  
shall be related to frequency (f) by:

$$PPV = 0.05f$$

(Examples: PPV Limit @ 20HZ - 1.0 in./sec;  
@ Hz - 1.50 in./sec., etc.)

Vibration Frequencies 40 Hz and higher.....2.00 in./sec.

All particle velocity limits apply to the maximum of any one of the three components of motion, longitudinal (or radial), transverse, or verticle, and shall be interpreted as described in U.S. Bureau of Mines Report R.I. 8507 of Appendix B.

(d) General Blasting Regulations. Every permit holder shall be required to observe the following regulations in addition to any special condition or conditions imposed by the City Council by any applicable provision of law.

(e) Class A Permit Regulations. The following regulations govern the issuance and use of Class A blasting permit.

(1) Blasting Insurance Required. Any person, firm, corporation or association holding a Class A blasting permit must obtain public liability insurance, insuring himself and the City of Riverview in the amounts of FIVE HUNDRED THOUSAND DOLLARS (\$500,000.00) for property damage and ONE MILLION TO THREE MILLION DOLLARS (\$1,000,000.00) for personal injury.

(2) Blasting Schedule; Inspection. The person, firm, corporation or association holding a Class A blasting permit will provide the City with an estimated schedule of all blasting operations, and will also give the City notice as to the time and occurrences of each blast prior thereto by at least two hours. The City Council shall have the right to have a staff representative on site at the time of each blasting upon notification to the person, firm, corporation or association as to that effect. The person, firm, corporation, or association shall compensate the City at the rate of \$25.00 per hour, or fraction thereof, for the services of the representative and this cost shall be borne by the permit holder, in addition to the cost of the permit fees.

(3) Use and Handling of Explosives. The use of explosives will only be undertaken by qualified personnel. No blasting operations shall be permitted within one hundred (100') feet of the property line of any dwelling, building, school, church, theater, or other structure which the Building Inspector may deem hazardous.

(4) Seismograph Readings. Seismograph readings will be interpreted by a firm approved by the City. Seismograph readings shall not exceed those as prescribed in Section 16-103(a) through (c) of this Ordinance. The Seismograph will be set up at locations to be predetermined by the City and the person, firm, corporation or association. In addition, the City shall have the option to select other sites as they feel is necessary to take an adequate reading as to any possible damage to adjacent structures. All costs incurred for the above requirements shall be borne by the person, firm, corporation or association. If, after a sufficient period of observation, instrument readings are consistent within the prescribed limits, then at the election of the City Council the seismograph reading requirement may be suspended. This, however, does not prevent the City from conducting periodic seismographic measurements. Seismograph recordings will be made with an instrument yielding direct 3-component measurement of particle velocity together with measurement of airblast on magnetic tape or film; it shall contain complete internal seismic calibration (i.e. recorder and seismometers) capability.

(5) Hours of Blasting. Class A blasting permit holders will only be allowed to detonate blasts between the hours of 8:00 A.M. to 4:00 P.M., Monday through Friday, excluding City holidays which fall during the Monday through Friday period. If a delay in blasting until after 4:00 P.M. is necessary due to unforeseen circumstances detrimental to safety, the Building Inspector may permit a blast to take place after 4:00 P.M.

(f) Class B Permit Regulations. The following regulations govern the issuance and use of a Class B Blasting permit.

(1) Blasting Insurance Required. Any person, firm, corporation or association holding a Class B blasting permit must obtain public liability insurance, insuring himself and the City in the amounts of ONE HUNDRED THOUSAND DOLLARS (\$100,000) for any individual and THREE HUNDRED THOUSAND DOLLARS (\$300,000) for any incident covering both bodily and property damage of any nature, as a result of blasting operations.

(2) Blasting Schedule; Inspection. The person, firm, corporation or association holding a Class B blasting permit will provide the City with the approximate time the blasting will occur. The Building Inspector or his duly authorized agent will be present at all times during blasting operations. The person, firm, corporation, or association shall compensate the City at the rate of \$25.00 per hour, or fraction thereof, for the services of the Building Inspector, or his duly authorized agent and this cost shall be borne by the permit holder in addition to the cost of the permit fees.

(3) Use and Handling of Explosives. The use of explosives will only be undertaken by qualified personnel. No blasting operations shall be permitted within five hundred (500') feet of the property line of any dwelling, building, school, church, theater or any structure which the Building Inspector shall deem hazardous. No blasting operations will be permitted near underground utility lines, gas, power, telephone, water or sewer lines.

(4) Hours of Blasting. Class B blasting permit holders will only be allowed to detonate blasts between the hours of 8:00 A.M. to 4:00 P.M., Monday through Friday, excluding City Holidays which fall during the Monday through Friday period. If a delay in blasting until after 4:00 P.M. is necessary due to unforeseen circumstances detrimental to safety, the Building Inspector may permit a blast to take place after 4:00 P.M.

Sec. 16-104. VARIANCE.

Application may be made to the City Council for a variance from the specific terms of this Ordinance in a particular case where the imposition of said Ordinance would impose an undue hardship and its strict adherence would not substantially promote the health, welfare and safety of the public. The City Council may, in lieu thereof, impose such other conditions as would be consistent with the exigencies of such case and with the purposes of this Ordinance.

The City Manager, as legal agent for the City, is hereby authorized to take such legal action in the courts, in the name of the City of Riverview, as he determines necessary to enforce the terms of this Ordinance.

Sec. 16-108. PENALTIES.

Upon retirement the member may elect an Optional Form of Payment as provided in Section 30-122.

Section 30-131. Conditions for Disability Retirants.

(a) Once each three (3) years following the retirement of a member with a disability pension the board shall require any disability retirant, who has not attained age 55 years, to undergo a medical examination to be made by or under the direction of a teaching medical facility having experts in the field of claimed disability. Notwithstanding the provisions herein, the board may accept an attending physician's certification of continued incapacitation where an on sight examination is not feasible. If the retirant refuses to submit to the medical examination (or furnish certification) in any such period the retirant's disability pension may be discontinued by the board until the retirant's withdrawal of such refusal. If the retirant's refusal continues for 1 year all the retirant's rights in and to a disability pension shall be revoked by the board. If upon such medical examination of a retirant, the medical facility finds that the retirant is physically able and capable of resuming employment in the job held at retirement, the retirant's pension shall terminate and the retirant shall be returned to city employment in a pay grade not lower than the pay grade held at the time of retirement. If the retirant refuses to return to city employment in said vacancy, the retirant shall be considered separated from city employment and the retirant's interest in the Retirement System shall be determined by the provisions of the Retirement System Ordinance at that time.

- (2) The member has not made an election pursuant to Section 30-122;
- (3) The member's date of death precedes the member's effective date of retirement.

Section 30-133. Duty Death Benefits.

(a) In the event:

- (1) A member dies as the result of an injury or disease arising solely out of and in the course of employment, or
- (2) A disability retirant dies within a 5 year period after the effective date of retirement and prior to satisfying the age and service conditions for voluntary retirement as provided in Section 30-118, as the result of the same injury or disease for which the retirant was retired, and
- (3) In either case (1) or (2), the death, or, injury or disease resulting in death, be found by the board, based on competent medical evidence, to have occurred as the natural and proximate result of causes arising out of and in the course of employment, a refund of accumulated contributions as provided in paragraph (b), (c), (d) and (e) shall be paid.

(b) The deceased person's accumulated contributions shall be refunded.

(c) A pension of 25% of the deceased person's final earnings shall be paid to the person's surviving spouse until the spouse's re-marriage. In addition to a surviving spouse, an unmarried child or children under age 18 years also survive the deceased person, each such child shall receive a pension of an equal share of 20% of the deceased person's final earnings. Upon the marriage, death, attainment of age 18 years, the child's pension shall terminate and there shall be a redistribution by the board to the said deceased person's remaining eligible children under age 18 years.

(d) If there is no surviving spouse, or if the surviving spouse dies or remarries before the youngest surviving unmarried child of the deceased person attains age

18 years, then each of the deceased person's unmarried children under age 18 years shall receive a pension equal to 20% of the deceased person's final earnings; provided, that if there are more than 2 such surviving children, then each child shall receive a pension of an equal share of 40% of said final earnings. Upon the marriage, death, attainment of age 18 years of any such child, the child's pension shall terminate and there shall be a redistribution by the board to the deceased person's remaining eligible children under age 18 years; provided, that in no case shall the pension payable to any child exceed 20% of said final earnings.

(e) If there is no spouse or children, surviving the deceased person, eligible to receive pensions provided by the Retirement System, there shall be paid to each dependant parent of the deceased person, a pension of 20% of the deceased person's final earnings. Dependent parent as used in this section shall mean a surviving mother or father of the deceased person, which upon the deceased person's death was dependent upon the deceased person due to an absence of earning power arising from physical or mental disability of the parent.

(f) The word "spouse" as used in this section shall mean the person to whom the deceased member or retirant was married at the time of termination of employment.

Section 30-134. Refund of Accumulated Contributions.

(a) Except as otherwise provided in this ordinance, should any member cease to be a member for any reason other than death or retirement, the member's accumulated contributions shall be paid to the member upon filing a written request with the board on forms furnished by the board.

(b) Except as otherwise provided in this ordinance, upon the death of a member, the member's accumulated contributions shall be paid to the person or persons nominated by the member by written designation duly executed and filed with the board. If there is no designated person or persons surviving the member, the accumulated contributions shall be paid to the member's estate.

(c) If any member dies intestate, without a designated beneficiary surviving the member, the member's accumulated contributions may be used to pay the member's burial expenses, not to exceed a reasonable sum as determined by the board; provided, the member leaves no other estate sufficient for such purpose.

(d) Except as otherwise provided in this ordinance, upon the death of the last survivor of a retirant and the retirant's beneficiaries, if the total amount of pension payments made to the retirant and the retirant's beneficiaries and their estates is less than the retirant's accumulated contributions upon retirement, the difference between the accumulated contributions and the pension payments shall be paid to the last survivor's estate.

(e) Refunds of accumulated contributions shall be paid in full within 90 days of the event which causes the refund to be payable.

Section 30-135. Reserve For Employer Contributions.

(a) The reserve for employee contributions shall be the account in which shall be accumulated, at regular interest, the contributions deducted from the earnings of members or otherwise paid to the Retirement System and from which shall be made refunds and transfers of accumulated contributions as provided in this ordinance.

(b) A member shall contribute 5% of earnings to the Retirement System.

(c) The individual or individuals responsible for preparing the city payroll shall cause the contributions provided for in subsection (b) to be deducted from the earnings of each member on each and every payroll. The deducted contributions shall be paid to the Retirement System and shall be credited to the members' individual accounts in the reserve for employee contributions. Members' contributions shall be made notwithstanding that the minimum wage provided by law for any member shall be

changed thereby. Every member shall be deemed to consent and agree to the deductions made and provided herein. Payment of earnings, less the deduction, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered by the member during the period covered by such payment, except as to benefits provided by the Retirement System.

(d) In addition to the contributions deducted from the earnings of a member, provided in subsections (b) and (c), a member may deposit in the reserve for employee contributions the amount of any repayment pursuant to Section 30-116(c)(2). The deposit may be made in a single sum or installments as approved by the board.

(e) Upon retirement the accumulated contributions of a member shall be transferred from the reserve for employee contributions to the reserve for retired benefit payments. Four years from the date an individual ceases to be a member without entitlement to a deferred service retirement pension as provided in Section 30-121, any balance in the reserve for employee contributions unclaimed by the individual or the individual's estate, shall be transferred to the reserve for undistributed investment income.

Section 30-136. Reserve For Retired Benefit Payments. The reserve for retired benefit payments shall be the account from which shall be paid all pensions and residual accumulated contribution refunds as provided in this ordinance. Should a disability retirement pension be terminated and the retirant be returned to employment, the pension reserve at the date of termination shall be transferred from the reserve for retired benefit payments to the reserve for employee contributions and the reserve for employer contributions in the proportion transfers were taken from such accounts because of the retirement.

Whenever the balance in the reserve for retired benefit payments exceeds the reported value of pensions being paid and likely to be paid retirants and beneficiaries, including specifically established reserves (as reported in the annual actuarial valuation), the excess shall be transferred to the reserve for employer contributions.

Section 30-137. Reserve For Employer Contributions.

(a) The reserve for employer contributions shall be the account to which shall be credited contributions made by the city to the Retirement System and from which shall be made transfers as provided in this section.

(b) Each year following receipt of the report of the annual actuarial valuation, the excess, if any, of the reported value of pensions being paid and likely to be paid retirants and beneficiaries over the balance in the reserve for retired benefit payments shall be transferred from the reserve for employer contributions to the reserve for retired benefit payments.

(c) The financial objective of this ordinance is to require city contributions to the Retirement System each fiscal year which together with the contributions made by members during the fiscal year shall be sufficient to (i) fully fund the cost of benefits likely to be paid on account of service rendered by members during the year, and (ii) finance unfunded costs of benefits likely to be paid on account of service rendered by members prior to the current year over a period of not more than 40 years. Such contributions shall be computed by the actuary as level percents of member payroll on the basis of such actuarial assumptions and actuarial cost methods as the board shall from time to time adopt. The actuary shall annually certify to the council the city contributions determined according to this section, and the council shall appropriate and pay to the Retirement System the contributions so certified.

Section 30-138. Reserve For Undistributed Investment Income; Expenses. The reserve for undistributed investment income shall be the account to which shall be credited all interest, dividends, and other income from the investment of Retirement System assets, all gifts and bequests received by the Retirement System, all unclaimed

accumulated contributions and pensions, all appropriations for administrative expenses, and all other monies received by the Retirement System the disposition of which is not specifically provided. There shall be transferred from the reserve for undistributed investment income all amounts required to credit regular interest to the reserve for employee contributions, reserve for employer contributions, and the reserve for retired benefit payments, and to pay retirant's insurance premiums and administrative expenses of the Retirement System. Whenever the board determines the balance in the reserve for undistributed investment income is more than sufficient to cover current charges to the account, the excess or any part thereof may be used to provide contingency reserves or to meet special requirements of the other reserve accounts of the Retirement System. Whenever the balance in the reserve for undistributed investment income is insufficient to meet the current charges to the account, the amount of the insufficiency shall be transferred from the reserve for employer contributions.

Section 30-139. Assets Not Segregated. The description of the various reserves of the Retirement System shall be interpreted to refer to the accounting records of the Retirement System and not to the segregation of monies or assets in the reserve accounts of the Retirement System.

Section 30-140. Management of Funds. The board shall be the trustees of the monies and assets of the Retirement System. The board shall have full power and authority to invest and reinvest such monies and assets subject to all terms, conditions, limitations and restrictions imposed by the State of Michigan on the investments of public employee retirement systems. The board may employ outside investment counsel to advise the board in the making and disposition of investments. All monies and assets of the Retirement System shall be held for the sole purpose of meeting disbursements authorized in accordance with the provisions of this Retirement System and shall be used for no other purposes. In exercising its discretionary authority with respect to the management of the assets of the Retirement system, the board shall exercise the care, skill, prudence, and diligence under the circumstances then prevailing, that a person of prudence, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of like character and with like aims.

Section 30-141. Allowance of Regular Interest. The board shall at the end of each fiscal year credit regular interest on the individual balances in the reserve for employee contributions at the beginning of the year, and on the mean balances in the reserve for employer contributions and the reserve for retired benefit payments. The amounts so credited shall be charged to the reserve for undistributed investment income.

Section 30-142. Method of Making Payments. All payments from monies of the Retirement System shall be made according to charter and ordinance provisions governing the disbursement of city monies. No payment shall be made unless it shall have been previously authorized by a specific or continuing resolution of the board. No authorization of the council shall be required for the making of such payments.

Section 30-143. Assignments Prohibited. The right of a person to a pension, to the return of accumulated contributions, the pension itself, any optional benefit, any other right accrued or accruing to any person under the provisions of the Retirement System, and any monies belonging to the Retirement System shall not be subject to execution, garnishment, attachment, the operation of bankruptcy or insolvency law, or any other process, and shall be unassignable, except as is otherwise specifically provided herein.

Section 30-144. Errors. Should any change in the records result in any person

being paid more or less than the person would have been entitled to be paid had the records been correct, the board shall correct such error, and as far as practicable shall adjust the payment in such manner that the actuarial equivalent of the benefit to which the person was correctly entitled shall be paid.

Section 30-145. Protection Against Fraud. Whoever with intent to deceive shall make any statement or report required under this Retirement System which is untrue, or shall falsify or permit to be falsified any record or records of this Retirement System, or who shall otherwise violate, with intent to deceive, any of the terms or provisions of this Retirement System, upon conviction thereof shall be fined not to exceed \$500.00, or 90 days imprisonment, or both, in the discretion of the court.

Upon retirement the member may elect an Optional Form of Payment as provided in Section 30-122.

Section 30-131. Conditions for Disability Retirants.

(a) Once each three (3) years following the retirement of a member with a disability pension the board shall require any disability retirant, who has not attained age 55 years, to undergo a medical examination to be made by or under the direction of a teaching medical facility having experts in the field of claimed disability. Notwithstanding the provisions herein, the board may accept an attending physician's certification of continued incapacitation where an on sight examination is not feasible. If the retirant refuses to submit to the medical examination (or furnish certification) in any such period the retirant's disability pension may be discontinued by the board until the retirant's withdrawal of such refusal. If the retirant's refusal continues for 1 year all the retirant's rights in and to a disability pension shall be revoked by the board. If upon such medical examination of a retirant, the medical facility finds that the retirant is physically able and capable of resuming employment in the job held at retirement, the retirant's pension shall terminate and the retirant shall be returned to city employment in a pay grade not lower than the pay grade held at the time of retirement. If the retirant refuses to return to city employment in said vacancy, the retirant shall be considered separated from city employment and the retirant's interest in the Retirement System shall be determined by the provisions of the Retirement System Ordinance at that time.

Section 30-133. Duty Death Benefits.

(a) In the event:

- (1) A member dies as the result of an injury or disease arising solely out of and in the course of employment, or
- (2) A disability retirant dies within a 5 year period after the effective date of retirement and prior to satisfying the age and service conditions for voluntary retirement as provided in Section 30-118, as the result of the same injury or disease for which the retirant was retired, and
- (3) In either case (1) or (2), the death, or, injury or disease resulting in death, be found by the board, based on competent medical evidence, to have occurred as the natural and proximate result of causes arising out of and in the course of employment, a refund of accumulated contributions as provided in paragraph (b), (c), (d) and (e) shall be paid.

(b) The deceased person's accumulated contributions shall be refunded.

(c) A pension of 25% of the deceased person's final earnings shall be paid to the person's surviving spouse until the spouse's re-marriage. Upon the marriage, death, attainment of age 18 years, the child's pension shall terminate and there shall be a redistribution by the board to the said deceased person's remaining eligible children under age 18 years.

(d) If there is no surviving spouse, or if the surviving spouse dies or remarries before the youngest surviving unmarried child of the deceased person attains age

18 years, then each of the deceased person's unmarried children under age 18 years shall receive a pension equal to 20% of the deceased person's final earnings; provided, that if there are more than 2 such surviving children, then each child shall receive a pension of an equal share of 40% of said final earnings. (e) If there is no spouse or children, surviving the deceased person, eligible to receive pensions provided by the Retirement System, there shall be paid to each dependant parent of the deceased person, a pension of 20% of the deceased person's final earnings. Dependent parent as used in this section shall mean a surviving mother or father of the deceased person, which upon the deceased person's death was dependent upon the deceased person due to an absence of earning power arising from physical or mental disability of the parent.

(f) The word "spouse" as used in this section shall mean the person to whom the deceased member or retirant was married at the time of termination of employment.

Section 30-134. Refund of Accumulated Contributions.

(b) Except as otherwise provided in this ordinance, upon the death of a member, the member's accumulated contributions shall be paid to the person or persons nominated by the member by written designation duly executed and filed with the board. If there is no designated person or persons surviving the member, the accumulated contributions shall be paid to the member's estate.

(c) If any member dies intestate, without a designated beneficiary surviving the member, the member's accumulated contributions may be used to pay the member's burial expenses, not to exceed a reasonable sum as determined by the board; provided, the member leaves no other estate sufficient for such purpose.

(d) Except as otherwise provided in this ordinance, upon the death of the last survivor of a retirant and the retirant's beneficiaries, if the total amount of pension payments made to the retirant and the retirant's beneficiaries and their estates is less than the retirant's accumulated contributions upon retirement, the difference between the accumulated contributions and the pension payments shall be paid to the last survivor's estate.

(e) Refunds of accumulated contributions shall be paid in full within 90 days of the event which causes the refund to be payable.

Section 30-135. Reserve For Employer Contributions.

(a) The reserve for employee contributions shall be the account in which shall be accumulated, at regular interest, the contributions deducted from the earnings of members or otherwise paid to the Retirement System and from which shall be made refunds and transfers of accumulated contributions as provided in this ordinance.

(b) A member shall contribute 5% of earnings to the Retirement System.

(c) The individual or individuals responsible for preparing the city payroll shall cause the contributions provided for in subsection (b) to be deducted from the earnings of each member on each and every payroll. The deducted contributions shall be paid to the Retirement System and shall be credited to the members' individual accounts in the reserve for employee contributions. Members' contributions shall be made notwithstanding that the minimum wage provided by law for any member shall be

changed thereby. Every member shall be deemed to consent and agree to the deductions made and provided herein. Payment of earnings, less the deduction, shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered by the member during the period covered by such payment, except as to benefits provided by the Retirement System.

(d) In addition to the contributions deducted from the earnings of a member, provided in subsections (b) and (c), a member may deposit in the reserve for employee contributions the amount of any repayment pursuant to Section 30-116(c)(2). The deposit may be made in a single sum or installments as approved by the board.

(e) Upon retirement the accumulated contributions of a member shall be transferred from the reserve for employee contributions to the reserve for retired benefit payments. Four years from the date an individual ceases to be a member without entitlement to a deferred service retirement pension as provided in Section 30-121, any balance in the reserve for employee contributions unclaimed by the individual or the individual's estate, shall be transferred to the reserve for undistributed investment income.

Section 30-136. Reserve For Retired Benefit Payments. The reserve for retired benefit payments shall be the account from which shall be paid all pensions and residual accumulated contribution refunds as provided in this ordinance. Should a disability retirement pension be terminated and the retirant be returned to employment, the pension reserve at the date of termination shall be transferred from the reserve for retired benefit payments to the reserve for employee contributions and the reserve for employer contributions in the proportion transfers were taken from such accounts because of the retirement.

Whenever the balance in the reserve for retired benefit payments exceeds the reported value of pensions being paid and likely to be paid retirants and beneficiaries, including specifically established reserves (as reported in the annual actuarial valuation), the excess shall be transferred to the reserve for employer contributions.

Section 30-137. Reserve For Employer Contributions.

(a) The reserve for employer contributions shall be the account to which shall be credited contributions made by the city to the Retirement System and from which shall be made transfers as provided in this section.

(b) Each year following receipt of the report of the annual actuarial valuation, the excess, if any, of the reported value of pensions being paid and likely to be paid retirants and beneficiaries over the balance in the reserve for retired benefit payments shall be transferred from the reserve for employer contributions to the reserve for retired benefit payments.

(c) The financial objective of this ordinance is to require city contributions to the Retirement System each fiscal year which together with the contributions made by members during the fiscal year shall be sufficient to (i) fully fund the cost of benefits likely to be paid on account of service rendered by members during the year, and (ii) finance unfunded costs of benefits likely to be paid on account of service rendered by members prior to the current year over a period of not more than 40 years. Such contributions shall be computed by the actuary as level percents of member payroll on the basis of such actuarial assumptions and actuarial cost methods as the board shall from time to time adopt. The actuary shall annually certify to the council the city contributions determined according to this section, and the council shall appropriate and pay to the Retirement System the contributions so certified.

Section 30-138. Reserve For Undistributed Investment Income; Expenses. The reserve for undistributed investment income shall be the account to which shall be credited all interest, dividends, and other income from the investment of Retirement System assets, all gifts and bequests received by the Retirement System, all unclaimed

accumulated contributions and pensions, all appropriations for administrative expenses, and all other monies received by the Retirement System the disposition of which is not specifically provided. There shall be transferred from the reserve for undistributed investment income all amounts required to credit regular interest to the reserve for employee contributions, reserve for employer contributions, and the reserve for retired benefit payments, and to pay retirant's insurance premiums and administrative expenses of the Retirement System. Whenever the board determines the balance in the reserve for undistributed investment income is more than sufficient to cover current charges to the account, the excess or any part thereof may be used to provide contingency reserves or to meet special requirements of the other reserve accounts of the Retirement System. Whenever the balance in the reserve for undistributed investment income is insufficient to meet the current charges to the account, the amount of the insufficiency shall be transferred from the reserve for employer contributions.

Section 30-139. Assets Not Segregated. The description of the various reserves of the Retirement System shall be interpreted to refer to the accounting records of the Retirement System and not to the segregation of monies or assets in the reserve accounts of the Retirement System.

Section 30-140. Management of Funds. The board shall be the trustees of the monies and assets of the Retirement System. The board shall have full power and authority to invest and reinvest such monies and assets subject to all terms, conditions, limitations and restrictions imposed by the State of Michigan on the investments of public employee retirement systems. The board may employ outside investment counsel to advise the board in the making and disposition of investments. All monies and assets of the Retirement System shall be held for the sole purpose of meeting disbursements authorized in accordance with the provisions of this Retirement System and shall be used for no other purposes. In exercising its discretionary authority with respect to the management of the assets of the Retirement system, the board shall exercise the care, skill, prudence, and diligence under the circumstances then prevailing, that a person of prudence, acting in a like capacity and familiar with such matters, would use in the conduct of an enterprise of like character and with like aims.

Section 30-141. Allowance of Regular Interest. The board shall at the end of each fiscal year credit regular interest on the individual balances in the reserve for employee contributions at the beginning of the year, and on the mean balances in the reserve for employer contributions and the reserve for retired benefit payments. The amounts so credited shall be charged to the reserve for undistributed investment income.

Section 30-142. Method of Making Payments. All payments from monies of the Retirement System shall be made according to charter and ordinance provisions governing the disbursement of city monies. No payment shall be made unless it shall have been previously authorized by a specific or continuing resolution of the board. No authorization of the council shall be required for the making of such payments.

Section 30-143. Assignments Prohibited. The right of a person to a pension, to the return of accumulated contributions, the pension itself, any optional benefit, any other right accrued or accruing to any person under the provisions of the Retirement System, and any monies belonging to the Retirement System shall not be subject to execution, garnishment, attachment, the operation of bankruptcy or insolvency law, or any other process, and shall be unassignable, except as is otherwise specifically provided herein.

Section 30-144. Errors. Should any change in the records result in any person

being paid more or less than the person would have been entitled to be paid had the records been correct, the board shall correct such error, and as far as practicable shall adjust the payment in such manner that the actuarial equivalent of the benefit to which the person was correctly entitled shall be paid.

Section 30-145. Protection against Fraud. Whoever with intent to deceive shall make any statement or report required under this Retirement System which is untrue, or shall falsify or permit to be falsified any record or records of this Retirement System, or who shall otherwise violate, with intent to deceive, any of the terms or provisions of this Retirement System, upon conviction thereof shall be fined not to exceed \$500.00, or 90 days imprisonment, or both, in the discretion of the court.

1. In the development and execution of this ordinance, it is recognized that there are some uses which, because of their very nature, are recognized as having serious objectional operational characteristics. Special regulation of these uses is necessary to insure that these adverse effects will not contribute to the blighting or downgrading of the surrounding neighborhood. These special regulations are itemized in this section. The primary control or regulation is for preventing such uses from intruding into residential districts or areas, or areas occupied by churches, parks or schools.

2. No adult motion picture or adult mini motion picture theater, as defined in section 4-79 of the Code of Ordinances of the City of Riverview shall be permitted within 1,000 feet of any residential zone, single-or multiple family dwelling, church, park or school.

3. The Board of zoning Appeals may, in its sole discretion, waive the 1,000 foot restriction upon a finding:

(a) That the proposed use will not be contrary to the public interest or injurious to nearby properties, and that the spirit and intent of this ordinance will be observed.

(b) That the proposed use will not enlarge or encourage the development of a blighted area.

(c) That the establishment of the proposed use in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any program of urban renewal.

WHEREAS, the local governments would have to contact all taxpayers who receive tax bills to obtain their Social Security number or numbers if the property is held jointly; and

WHEREAS, Mazda Motor Corporation has committed to building a new  
auto assembly plant in Flat Rock and thus create 3500 direct new jobs in our area and  
many more indirect jobs, and

WHEREAS, this commitment was dependent upon the solution of short  
term sewage handling problems from the new plant, and

WHEREAS, the City of Rockwood agreed to accept the Mazda plant  
effluent into its own system on a short term basis until mini sewer came on line -  
even though this used up the available capacity of the Rockwood treatment plant, and

COMMUNICATIONS:

Resolved by Councilman Brown, supported by Councilman Kesterson, that a copy of a Resolution adopted by the City of Romulus in support of Senate Bills 250, 251 and 252 be received, placed on file and Council adopt the following Resolution:

WHEREAS, Act 287 of 1972 as amended, provides resident care services for six (6) or fewer persons requiring twenty four hour supervision; and

WHEREAS, The Act provides that persons in need of community residential care shall not be excluded by zoning from benefits of normal residential surroundings and shall not be subject to a special use or conditional use permit or procedures different from those required for other single family dwellings; and

WHEREAS, at least 45 days prior to licensing a residential facility, the State licensing agency must notify the local unit of government of its intent to license a proposed facility; and

WHEREAS, it is the statutory responsibility of the local unit of government whose property lines are within 1500 feet of proposed facility. There usually follows a public hearing involving the residents, local elected officials and state department representatives; and

WHEREAS, historically the public hearings are a farce. Often times a developing agency has not been assigned. The State department representative does not know what type of developmentally disabled persons will be placed in the home. Usually the state has not inspected the home to determine if it meets state specifications, much less whether it meets the basic building code. Very little, if any, information is disseminated. The citizens leave the meeting angry and frustrated, not realizing local elected officials have no input whatsoever in the decision to license a facility, other than to check mark a box on the License Application Notice that the proposed facility is or is not located within 1500 feet of an existing similar facility; and

WHEREAS, Senate Bills 250, 251 and 252 recently introduced by Senator DeSana is a piece of legislation designed to remove the expense and hardship of notifying the residents and holding public hearings from the local unit of government and places the responsibility on the Department of Social Services. As it should have been from the Act's inception.

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Riverview does hereby set forth its support of Senate Bills 250, 251 and 252, and that copies of

this Resolution be forwarded to State Representative Porreca, State Senator DeSana, Senator Faust, Representative Kosteva and our sister cities.

RESOLUTION ADOPTED.

Resolved by Councilman Kesterson, supported by Councilman Brown, that the following Resolution be adopted by Council:

WHEREAS, Congress has adopted the Cable Communications Policy Act of 1984 which sets forth areas of cable television regulation and delegates authority to local governments over them, thereby overruling certain prior Federal Communication Commission rules and decisions; and

WHEREAS, notwithstanding the clear and unambiguous language of the aforementioned Act and its legislative history, the Federal Communications Commission has chosen to continue to give effect those prior decisions and rules which have been legislatively overridden and thus, limiting the role of local government in regulating cable operator; and

WHEREAS, the aforesaid acts of the Federal Communication Commission exceed its jurisdiction;

NOW, THEREFORE, the City Council for the City of Riverview respectfully requests that its federal legislators take whatever steps they deem necessary and appropriate to aid and assist the Federal Communication Commission in properly interpreting its jurisdiction and the proper authority of local government in regulating cable operators in light of the Cable Communications Policy Act of 1984; and

BE IT FURTHER RESOLVED that the City Clerk transmit copies of this Resolution to said federal legislators and Riverview's neighboring communities.

Ayes: Mayor Rotteveel, Councilmen Brown, Kesterson, Torok, Councilwomen Thiede, Zick

RESOLUTION ADOPTED.

Resolved by Councilwoman Zick, supported by Councilwoman Thiede, that the Resolution concerning the Second Annual Performance Evaluation of Cable Operator by the Riverview Cable Communications Commission be received, placed on file and Council adopt said Resolution; further, copies be forwarded to the Cable Operator and those communities having United Cable Television in our area.

WHEREAS, the Riverview City Code authorizes the Riverview Cable Communications Commission to evaluate the performance of the cable operator on an annual basis; and

WHEREAS, a public hearing was convened on January 16, 1985, by this Commission after providing notice to the cable operator and to the public; and

WHEREAS, this Commission received comments from the public and the cable operator; and

WHEREAS, this Commission permitted the record to remain open for an additional fourteen (14) days following the public hearing to permit further comment from the public and cable operator; and

WHEREAS, this Commission has duly considered comments received from the cable operator and members of the public;

NOW, THEREFORE, this Commission finds:

(1) That the cable operator has submitted copies of documents filed with the F.C.C. purporting to evidence the operator's monitoring of the cable system;

(2) That the cable operator has submitted a service log which appears to be maintained; however, this Commission finds that the operator defines "complaints" as used in the ordinance and franchise more narrowly than intended, resulting in inadequate reporting of non-transmission/technical complaints and problems; moreover, this Commission finds that the operator has, on occasion, failed to handle consumer complaints in the first instance, necessitating the involvement and intervention of City administration;

(3) That the cable operator has submitted copies of F.C.C. and S.E.C. reports;

(4) That the cable operator has submitted an ownership report; however, this Commission finds that the operator has failed to notify the City of changes in ownership

and management in a timely fashion;

(5) That the cable operator has submitted proof of insurance which appears to satisfy the minimum requirement of the ordinance;

(6) That the cable operator has submitted quarterly gross revenue and sundry reports but has failed to provide this Commission with timely financial reports for the Riverview system and, moreover, has failed to advise this Commission of personnel changes in a timely fashion;

(7) That the cable operator has submitted proof of surety and has reiterated its request that the ordinance requirement be eliminated; this Commission finds that the bond serves a useful purpose and, therefore, recommends that it be continued;

(8) That the cable operator has failed to provide home security, fire security, and medical alert two-way communication, as required;

(9) That the cable operator has failed to submit financial data to this Commission on the Riverview system; further, that the operator unilaterally increased rates and services contrary to the ordinance and franchise, without right or justification; and further, that the subscribers of this City appear to be subsidizing the cable operator's losses in other systems;

(10) That the cable operator has failed to provide requested financial data in a timely fashion;

(11) That the cable operator has failed to provide a current five (5) year capital improvement plan; further, that expenditures last year were not utilized pursuant to the prior capital improvement plan, nor in the amount committed by the operator; further, that the operator has deferred regular and necessary maintenance of the equipment located at the Riverview studio; and further, that the equipment supplied by the operator to the Riverview studio is no longer state-of-the-art, as defined in and required by the franchise;

(12) That it appears, from the records and documents on file, that the cable operator entered into a commitment to exchange certain equipment at the request of the Library Commission, which commitment should be honored;

(13) That the cable operator has satisfied the public school facilities and equipment requirements;

(14) That the cable operator, although expressing a willingness to exchange equipment, has not aggressively worked towards resolving this requirement;

(15) That the cable operator has failed to provide the mobile van as required by the franchise;

(16) That the cable operator has failed to provide a full forty (40) hour weekly schedule for the Riverview studio;

(17) That the cable operator has unilaterally appropriated public access channels, having failed to request same; this Commission recommends that a lease agreement be negotiated between the City and operator for any such channels;

(18) That the cable operator has made no effort to promote new technical developments;

(19) That the cable operator has not aggressively developed the institutional network.
