Depending upon the combination of acquisition costs and relocation benefits (3 - 8) properties may be acquired during FY84.

Housing Rehabilitation. . . . . .During FY84, the eight (8) year-old local guidelines would be amended to allow for the allocation of housing rehabilitation funds to be spent for repairs of owner-occupied homes for correction of code violations within the Jefferson Street area. This policy change would dedicate up to twenty-five (25%) per cent of the total annual rehabilitation funding into this area, while still allowing the basic program to fund the "waiting list" commitments within the balance of the area east of Fort Street. The anticipated total funding is \$63,000.00, with \$15,750.00 being used exclusively in the Jefferson Street neighborhood.

Program Management. . . . . .This continues the historical pattern of taking ten (10%) per cent of total funding to off-set the cost of administration of these and other community planning and development activities (\$8,800.00 from the "Annual" and \$7,000.00 from the Housing Rehabilitation allocations).

WHEREAS, it has come to the attention of the Mayor and Council of the City of Riverview that a substantial economic problem exists relative to the compliance by public officers under command of the respective Chiefs of Police, in that such police officers are required by law to obey the command of civil subpoena to appear in court and testify on behalf of civil litigants, and

WHEREAS, the unique nature of the duties and responsibilities of a police officer make such officer more susceptible to civil subpoenas than is common in other occupations, and

WHEREAS, the frequency with which such subpoenas are served on police officers in the respective cities creates both an economic and manpower problem for the respective municipalities, which requires the immediate attention of the respective municipal officials, the courts, and the state legislature, and

WHEREAS, the problems created by the issuance of such subpoenas involves payment of substantial overtime payments, the necessity to utilize substitute employees at great expense to the respective municipalities and further requires the lengthy absence of the city from trained officers who are required to await the opportunity to testify as commanded by the subpoenae in the court house for several hours, and

WHEREAS, these problems can only be resolved by requiring civil litigants to assume the actual and necessary costs to the municipality incurred by virtue of a police officer's obedience to the command of a civil subpoena, to testify on behalf of civil litigants which does not directly involve the participation of the respective municipality for which the officer is employed.

NOW, THEREFORE, the Mayor and Council of the City of Riverview respectfully request that the legislative bodies of their respective communities, the Chief Judge of the Circuit Court for the County of Wayne, and the Legislature for the State of Michigan are hereby respectfully requested and urged to take any and all steps necessary to initiate and adopt legislation requiring that civil litigants pay the actual and necessary costs

of a police officer compelled to appear in court to offer testimony for civil litigants to which the police officer's respective municipal employer is not a party litigant.

FURTHER, that all such actual and necessary expenses be paid to the general fund of the respective municipality for which the police officer is employed and that such actual and necessary costs be a lien upon any judgment acquired by the litigant or otherwise secured prior to the police officer being compelled to appear before the courts of this state.

BE IT FURTHER RESOLVED, that a copy of this Resolution be forwarded to the legislative bodies of all downriver municipalities, the Chairman of the Wayne County Chiefs of Police Association, the State Sheriff's Association, Michigan Association of Chiefs of Police, all the members of the State Legislature, as soon as possible hereafter.

Dear Mayor & Council:

In my absence I would like to submit this letter to let my colleagues on council and the People of Riverview know how I feel about the proposed 1984/85 budget.

Although there are areas I feel need to be addressed in the up coming year I feel the council is fully capable of coming up with a working solution. I would not like to cloud the budget with these issues.

Reductions were made and the millage was not increased, and that was the main issue of the budget.

It is my intent to support the amended version of the 1984-85 budget.

With best regards.

Very truly yours,  
Jack C. Kesterson

WHEREAS, the City has created The Economic Development Corporation of the City of Riverview (the "EDC") pursuant to Act 338, Public Acts of Michigan, 1974, as amended ("Act 338"), to promote the economic development of the City by assisting industrial and commercial enterprises to locate or remain in the City, thereby creating and retaining employment in the City, increasing and retaining the City's tax base, and providing needed services in the City; and

WHEREAS, the City and the EDC have sought to accomplish these purposes through the issuance of tax-exempt bonds pursuant to Section 103(b) of the Internal Revenue Code of 1954, as amended (the "Code"); and

WHEREAS, the City has suffered a significant loss of employment and tax revenues in recent years; and

WHEREAS, the City has available only a limited amount of vacant land for additional development but has available from time to time a significant number of existing buildings that may be suitable for new or expanding industrial and commercial enterprises; and

WHEREAS, proposed legislative changes in the provisions of Section 103(b) of the Code will restrict the ability of the City and the EDC to issue such bonds and therefore limit the ability of the City and the EDC to promote economic development in the City, thereby causing a further loss in employment, tax base and services in and to the City and its residents; and

WHEREAS, the City will be particularly limited in its economic development activities if the City and the EDC are prevented from financing the acquisition of existing facilities;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. It is the sense of the EDC that the proposed legislative changes in Section 103(b) of the Code will have a serious negative impact on the ability of the City to promote economic development in order to create and retain employment, expand and preserve its tax base and provide needed services for the residents of the City.

2. It is the sense of the EDC that the proposed restrictions on financing the acquisition of existing facilities will be particularly detrimental to the City and will encourage the transference of employment to rural areas and to the so-called "Sun Belt" areas of the United States.

3. The EDC Chairman is directed to contact legislators to inform them of the impact of the proposed changes in Section 103(b) of the Code on the economic development program of the City.

(1) A school bus that transports pupils shall be painted and shall contain signs on the back and front of the school bus, as approved by the department of transportation and the superintendent of public instruction.

(2) The driver of a vehicle that overtakes or meets a school bus which has stopped and which is displaying two (2) alternately flashing red lights located at the same level shall bring the vehicle to a full stop not less than ten (10) feet from the school bus and shall not proceed until the school bus resumes motion or the visual signals are no longer actuated. The driver of the school bus, before resuming motion, shall deactivate flashing lights, shall permit stopped traffic to proceed, and shall, when resuming motion, proceed in a manner that will allow congested traffic to disperse by keeping the bus as near to the right side of the road as can be done with safety.

(3) Passengers who cross a road upon being discharged from a school bus shall cross in front of the stopped school bus.

(4) At an intersection where traffic is controlled by an officer or a traffic stop-and-go signal, a vehicle need not be brought to a full stop before passing a stopped school bus, but may proceed past the school bus at a speed not greater than is reasonable and proper, but not more than ten (10) miles an hour, and shall proceed with due caution for the safety of passengers being received or discharged from the school bus.

(5) Signs giving notice of the provisions of this Ordinance shall be posted on or at the entrance to the City of Riverview and shall be sufficiently legible as to be seen by an ordinarily observant person.

(6) A school bus driver shall not stop the bus for the purpose of receiving or discharging passengers unless the bus is clearly visible in its stopped position to approaching or overtaking drivers of vehicles for a distance of not less than five hundred (500) feet.

(7) The driver of a vehicle on a highway that has been divided into two roadways by leaving an intervening space, by a physical barrier, or by clearly indicated dividing sections constructed so as to impede vehicular traffic need not stop upon meeting a school bus which has stopped across the dividing space, barrier, or section.

(8) A school bus that transports pupils outside of incorporated cities or villages and inside incorporated cities or villages where stopping of school buses is controlled by local ordinance, in addition to any other equipment and distinctive marking required by law, shall be equipped with signal lamps mounted as high and as widely spaced laterally as practicable. The lamps shall be capable of displaying to the front two (2) alternately flashing red lights located at the same level and to the rear two (2) alternately flashing red lights located at the same level. The lights shall have sufficient intensity to be visible from a distance of not less than five hundred (500) feet in normal sunlight and shall be actuated by the driver of the school bus when, but only when, the vehicle is stopped and for a distance of not less than two hundred (200) feet in advance of a stop for the purpose of receiving or discharging school children. The lights shall not be actuated inside of incorporated cities or villages unless stopping of school buses is controlled by local ordinance.

(9) A school bus shall be equipped with a mirror, convex in shape, which is not less than 7½ inches in diameter and which is firmly mounted at hood or fender top height in front of the bus. The mirror shall be located on either the left or right side of the bus in a manner so that the seated driver may observe the road from the front bumper forward to the point where direct observation is possible.

(10) In a proceeding for a violation of subsection (2) of this section, proof that the particular vehicle described in the citation, complaint or warrant was in violation of subsection (2) of this section, together with proof that the defendant named in the citation, complaint, or warrant was, at the time of the violation, the registered owner of the vehicle, shall constitute in evidence a presumption that the registered owner of the vehicle was the driver of the vehicle at the time of the violation.

(11) Except as otherwise provided in subsection (2) of this section, a person who violates this section is responsible for a civil infraction. A violation of subsection (2) of this section is a misdemeanor.

This amendatory ordinance shall take effect upon publication by the City Clerk as required by law and the City Clerk shall at the same time publish a supplementary notice setting forth the purpose of said Uniform Traffic Code and of the fact that a complete copy of the Code, as hereby amended, is available at the office of the City Clerk for inspection by the public at all times.

WHEREAS, the cost of gas has more than doubled in the last six years, and will double again by 1990 unless corrective legislative action is taken, and

WHEREAS, many consumers, particularly those on fixed and low incomes, are unable to afford these increased costs, and

WHEREAS, such price increases are often the result of contracting practices between gas producers and pipelines which do not reflect conditions in the marketplace, and

WHEREAS, the Federal Energy Regulatory Commission should be given a clear direction from Congress to reform pipeline rate design to allow price signals from the marketplace to reach back to pipelines and producers, and

WHEREAS, a bill, called the Natural Gas Consumer Relief Act, has been introduced in Congress, which would curb unwarranted increases in the cost of gas, and

WHEREAS, that bill would roll ceiling prices on natural gas back to January, 1982 levels - or some 15 to 20 percent - and maintain controls on "old" inexpensive gas, and

WHEREAS, that bill would ban all automatic price escalators and limit take-or-pay contracts between producers and pipelines to 50 percent of obligation, and

WHEREAS, that bill would force gas producers and pipeline companies to re-negotiate all high-priced contracts immediately and penalize gas pipeline companies which failed to buy the cheapest natural gas available, and

WHEREAS, MichCon, our local natural gas distributor, fully supports the Natural Gas Consumer Relief Act as being in the best interests of both the industry and its customers, now, therefore

BE IT RESOLVED, that the City of Riverview supports the Natural Gas Consumer

WHEREAS, the Congress reversed this position with the passage of the Maybank Amendment of 1954 to the Defense Appropriation Act which provided that no funds shall be used for payment of a price differential for the purpose of relieving economic dislocations, and

WHEREAS, the Congress granted minor relief from the Maybank Amendment in 1981 by allowing a three billion dollar set-aside for defense procurement in labor surplus areas, and

WHEREAS, the northeastern and midwestern areas of the U.S., particularly southeastern Michigan, possess an enormous reservoir of industrial capacity and experienced labor force, and

WHEREAS, the economic depression and unemployment in these areas, especially southeastern Michigan, have reached devastating proportions and if permitted to continue, will result in the destruction of a valuable national resource, and

WHEREAS, the availability of defense contracts to these areas will help alleviate the distress of unemployment and save industrial capacity,

MOTION FAILED.

Resolved by Councilman Wadlin, supported by Councilwoman Shoemaker, that the following Resolution regarding "Creative Financing" be adopted:

WHEREAS, this Council has for some time recognized that the current economic condition has caused "creative financing" to be used in the purchase of real estate; and

WHEREAS, this Council recognizes that creative financing, i.e., land contracts, assumptions, blends and buydowns can greatly affect the sales price of a property as compared to a sale of a property subject to a cash transaction; and

WHEREAS, this use of "creative financing" has meant that when developing state equalized values by use of sales/assessment analysis, the values of property have been unduly inflated; and

WHEREAS, this Council has been made aware that the Washtenaw County Board of Commissioners, on May 27, 1981, passed a resolution which recognized this problem and requested that the Michigan State Legislature direct the State Tax Commission to comply with MCLA 211.27 which provides for specific statutory authorization for local assessors, the County Equalization Department, and the State Tax Commission to take this into account when performing their statutory obligations or in the alternative to pass clarifying legislation; and

WHEREAS, this Council has been made aware that the Washtenaw County Board of Commissioners, on January 8, 1982, passed a resolution directing its Equalization Director to consider the effect of "creative financing", which artificially inflates sales prices of the real estate market and subsequent assessment ratio studies used in both the County and State equalization process.

WHEREAS, this Council believes that by using a procedure which takes into account "creative financing", it will provide for fair and equitable assessments and fulfill its statutory obligations,

NOW, THEREFORE, BE IT RESOLVED that the City Assessor of the City of Riverview is directed to prepare the annual starting figures and subsequent equalization report in accordance with Section 211.27(3) of the General Property Tax Law which provides that taxing officials exclude from sales data the following items to the extent they are identified in the real estate sales data or certified to the assessor:

- (a) Amounts paid for obtaining financing of the purchase price of the property or the last conveyance of the property.
- (b) Amounts attributable to personal property which were included in the purchase price of the property in the tax conveyance of the property.
- (c) Amounts paid for surveying the property pursuant to the last conveyance of the property.

BE IT FURTHER RESOLVED, that this Council directs that the City Assessor consider the effect of "creative financing", which artificially inflates sales prices of the real estate market, and subsequent assessment ratio studies used in both the County and State equalization process.

BE IT FURTHER RESOLVED, that this Council requests that the City Assessor meet with representatives of the Wayne County Association of Assessing Officers and representatives of the other interested local units to develop such a procedure.

BE IT FURTHER RESOLVED, that the Council requests the legislators representing the people of the City of Riverview, to direct the State Tax Commission to comply with Section 211.27

BE IT FURTHER RESOLVED, that this Council directs that a copy of this Resolution be sent to the State Tax Commission and encourages the Tax Commission to accept the methodology set forth in this Resolution.

WHEREAS, the United States Senate is deliberating legislation for the nationwide (de) regulation of the cablecasting industry, called S.2172; and,

WHEREAS, S.2172 does not assure the preservation of municipal powers in franchising and regulating cable television within its own community; and,

WHEREAS, this erosion of municipal control may include rendering previously valid franchise agreements void, elimination of locally determined franchise fees and rates, reduction of community access programming, and automatic renewal of local franchises without re-bidding or negotiation; and,

WHEREAS, S.2172 is a drastic overhaul of the cable regulatory field, that scuttles carefully negotiated local franchises designed to fit local needs and circumstances, and is blatantly inconsistent with any meaningful form of "federalism" or federal "deregulation",

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Council of the City of Riverview are opposed to this federal usurption of its existing authority over locally controlling cable television within the Community as described in S.2172.

WHEREAS, the people of Wayne County adopted a charter which calls for election of a chief executive officer and that charter was developed pursuant to the County Charter Act, P.A. 293 of 1966 as amended, and

WHEREAS, that act restricted the authority of the charter commission with relation to the Wayne County Road Commission. The result of those restrictions was a kind of autonomy for the Road Commission which seriously undermines the accountability of the new county government and the authority of the elected county executive, and

WHEREAS, two bills, HB 5874 and HB 5875, have been introduced in the state legislature by Representative Jeffrey D. Padden which would eliminate those restrictions and allow road functions to be reorganized by the county executive in a fashion identical to that which would apply to all other county functions, and

WHEREAS, it is important for the County Executive to possess such authority in order for duplication of administrative functions to be eliminated and a truly accountable county government to be created.

NOW, THEREFORE, BE IT RESOLVED that the City of Riverview supports passage of HB 5874 and HB 5875 in a form which allows meaningful reorganization of Wayne County Government, including road functions, to take place and

FURTHER, BE IT RESOLVED that a copy of this Resolution be forwarded to Representative Jeffrey D. Padden and to Senator James DeSana.

And the Code Sections as so herein amended shall henceforth be read as follows:

CHAPTER 27  
WATER, SEWAGE DISPOSAL SYSTEM  
ARTICLE IV. RATES AND CHARGES

Sec. 27-91. Water Rates.

The rates and charges to be collected from consumers of water shall be such as are specified in the following schedule:

- (1) Water rate per thousand gallons delivered to the consumer shall be eighty-one cents (\$0.81) per one thousand (1,000) gallons for each metering period.
- (1-a) Provided further that during the period from September 1, 1982 through November 30, 1982, but only for such limited period and to "phase-in" the new rate schedule into the billing sequence, there is hereby established an interim water rate of \$0.77 per 1000 gallons of water delivered. (a-1) Provided further that during the period from September 1, 1982 through November 30, 1982, but only for such limited period, and to "phase-in" the new rate schedule into the billing sequence, there is hereby established an interim sewage rate of \$.99 per 1000 gallons of water delivered. This sub-section shall have no further application after December 1, 1982.

- (b) Remains unchanged, not herein amended.
- (c) Remains unchanged, not herein amended.

Sec. 27-99. Lien on property; placement on tax roll, additional enforcement remedies.

(a) Charges for water and sewer services shall constitute a lien on the property served by such connections. All such charges for water or sewer services, which are due and payable as of March 30 of each year (including any delinquent or past-due amounts) which have not been paid by April 15th of such year, shall be placed on the next general tax roll for collection.

(b) In addition to the foregoing remedies, the Treasurer may, in situations where a water or sewer arrearage has remained delinquent and over-due for a period longer than 100 days, assert an additional remedy by mailing a "notice of intent to suspend services," (delivery of water, or reception of sewage) to the property address of the particular connection, and also to the last known address of the owner of the property served as listed on the tax rolls of the City, together with a demand for payment of the amount of the stated arrearage within 10 calendar days following the date of mailing of such notice. (c) Upon notification by the Treasurer that the procedure authorized under the preceding sub-section has been followed but has not resulted in payment of the accumulated charges, and the occupant or user is not a person entitled to the special terms provided in Sections 27-96(b) and 27-98(b), the Director of the D.P.W. shall pursuant to this section, cut-off the services to such address, pending payment in full of such charges.

(d) Whenever, and so often as the water and sewer services are required to be suspended to enforce payment under this subsection, there shall be charged a reinstatement fee in the sum of \$10.00 to cover the reasonable costs to the City in restoring services at such connection.

WHEREAS, SEMTA is contemplating a massive reduction in its service to the City of Riverview and surrounding communities, and

WHEREAS, this contemplated curtailment is the direct result of a substantial loss of funding in three areas - one being monies held in litigation in Lansing, the second being an anticipated eight to twelve million dollar cut in Federal appropriations for Public Transportation, and the third being the loss of state revenues that in turn fund public transportation, and

WHEREAS, this curtailment of services will result in severe hardship to the citizens of the Downriver communities, and

WHEREAS, continued service reductions will force commuters and senior and handicapped citizens to give up jobs, restrict travel and become more dependent upon the state and federal governments, and

WHEREAS, the State legislature is currently considering a series of bills collectively known as the State Transportation Package which would stabilize financial support from the state government to public transportation agencies throughout Michigan,

NOW, THEREFORE, BE IT RESOLVED that the City of Riverview does oppose the reduction of the current SEMTA services to the Downriver communities, particularly those services affecting Fort Street and West Jefferson, and

BE IT FURTHER RESOLVED that the City of Riverview urges its representatives in the state and federal legislatures, the Governor of the State of Michigan, and the surrounding communities to support all legislation on the state and federal levels which will maintain or increase operation grants for Public Transportation Systems, including the passage of the State Transportation Package.

ANTI-TRUST EXEMPTION

WHEREAS, the United States Supreme Court, in Community Communications v. City of Boulder, 102 S. Ct. 835 (1982), held that the grant of extensive home rule powers to municipalities was insufficient to meet the state action exemption test of Parker v. Brown, 317 U.S. 341 (1943); and

WHEREAS, anti-trust law suits are being filed against municipalities in ever increasing numbers as a result of the Boulder decision; and

WHEREAS, these lawsuits threaten to destroy the traditional municipal regulation of such matters as zoning, cable television, ambulance services, taxicabs, airports and utility services; and

WHEREAS, claim for monetary relief seeking hundreds of millions of dollars for treble damages under the anti-trust laws threaten the fiscal integrity of municipalities;

WHEREAS, the costs to municipalities in defending against these claims are extremely high because of the need to hire costly outside counsel;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Riverview urges that legislation be immediately adopted by the Congress of the United States which will exempt municipalities from liability under the Federal anti-trust laws in the same manner that states are now exempted.

Sec. 24-18. Traffic Control Orders.

Sec. 24-18 (329).01 The following streets within the City of Riverview are designated

as "Snow Emergency Routes" and parking thereon will be prohibited under snow emergency conditions. These streets are:

Quarry Road, Colvin, Longsdorf, Hale, Williamsburg, Kennebec, Devonshire, Huntington, Valleyview, Krause, Stonewood, Coachwood, Foxboro and Grange.

The following snow emergency conditions are to be applied:

A. Whenever snow or ice has accumulated to a depth of two inches or more on any part of a Snow Emergency Route, a parking prohibition shall automatically go into effect on that part of the route one hour after such condition exists.

B. Once in effect, a prohibition under this section shall remain in effect until that street has been cleared of snow and ice, from curb to curb.

While the prohibition is in effect, no person shall park or allow to remain parked, any vehicle on any portion of the Snow Emergency Route to which it applies.

Sec. 24-18 (329).02 "Second Priority Streets" are all streets not designated as Snow Emergency Routes, and as to these, the following snow emergency conditions are to be applied:

A. Whenever snow or ice has accumulated to a depth of two or more inches on any "secondary priority street", parking shall be prohibited in the following manner:

1. On days having uneven dates, vehicles are prohibited from parking on the side of the street having even street numbers.

2. On days having even dates, vehicles are prohibited from parking on the side of the street having uneven street numbers.

The prohibition shall remain in effect until those streets are clear of snow and ice curb to curb.

Sec. 24-18 (329).03 Removal of parked or disabled vehicles on Snow Emergency Routes.

Whenever a vehicle becomes disabled or is parked on any part of a Snow Emergency Route on which there is a covering of snow or ice and the parking prohibition is in effect, the person operating such vehicle shall take immediate action to have the vehicle removed off the roadway of such route. No person shall abandon or leave a vehicle in the roadway of a Snow Emergency Route (regardless of whether indicated by a raised hood or otherwise, that vehicle is disabled), except for the purpose of securing assistance during the actual time necessary to go to a nearby telephone or to a nearby garage, gasoline station, or other place of assistance and return without delay.

Sec. 24-18 (329).06 Provided further, it is the intent of this Ordinance that its impact may be ameliorated for those persons who are physically disabled and unable to remove a parked motor vehicle promptly upon the onset of emergency conditions. Such persons may apply, in advance, for a physical disability hardship exemption PERMIT from the Chief of Police, and if such PERMIT be displayed on a motor vehicle, it shall be removed, if at all, only at City expense.

(1) In addition to those matters required elsewhere in this ordinance to be included in the Franchise Agreement; it must contain the following express representations by the franchisee that:

- (a) It accepts and agrees to all of the provisions of this ordinance, and any supplementary specifications, as to construction or operation of the System, which the City may include in the Franchise Agreement.
- (b) It has examined all of the provisions of this ordinance and waives any claims that any provisions hereof are unreasonable, arbitrary, invalid or void, as of the date of its enactment.
- (c) It recognized the right of the City to make reasonable amendments to the franchise ordinance during the term of the franchise upon sixty (60) days prior notice to the franchisee or without notice with respect to emergency amendments. It further recognizes and agrees that the City shall in no way be bound to renew the franchise at the end of any franchise term.
- (d) It recognizes and agrees that it shall not be considered a public utility for the purpose of this ordinance.

(2) Every franchise shall specifically set forth specific standards which the franchisee must maintain in respect of the following:

- (a) Signal Quality Requirements, including what programs must be transmitted in color.
- (b) Technical Standards of operation and maintenance of the System.
- (c) The extent, if any, to which off the air programs may be altered by the franchisee.

(3) The Franchise Agreement shall contain such further conditions or provisions as may be negotiated between the City and the franchisee, except that no such conditions or provisions shall be such as to conflict with any provisions of this ordinance or other law. In case of such conflict, or ambiguity between any terms or provisions of the Franchise Agreement and this ordinance, the words of this ordinance shall control.

(4) Number of Channels. The franchisee's distribution system shall initially be capable of carrying at least fifty-four (54) channels of 6 MHz band width, or dual cable construction. The System shall also provide simultaneous reverse direction signal operations for digital, audio and video signal transmission on all elements of the system. The extent to which the two way communication is available to subscriber use shall be specified in the Franchise Agreement.

(5) State of the Art. Each franchisee shall constantly upgrade its facilities, equipment and service so that its system is as advanced as the current state of technology will allow. Within a reasonable time,

to be determined by the franchisee and the City Council upon the written recommendation of the Riverview Cable Commission, hereinafter established, each cable system shall be upgraded so that it is no less advanced than any other system of comparable size, excepting only systems which are experimental, pilot or demonstration.

(6) The Riverview Cable Commission shall designate for use without charge at least one channel in each of the use categories defined at sections 3(o) (a), (b), and (c) hereof; (d) Public uses to be later designated. Where substantial studio production time or engineering services are required of the franchisee, it may ask the Commission to assess a charge to the user of a public access channel, which charge, if assessed, shall be consistent with the goal of affording the public a low cost means of television access.

(7) If, six (6) months after the first availability of any Public Channels, the Commission determines that there is no immediate public need therefor, such channels may be leased by the franchisee until such time as the Commission determines that such need does exist; whereupon the Commission shall, upon sixty (60) days written notice to the franchisee, have the power to require rededication of the channels.

(8) The franchisee must provide a studio in Riverview for Public Channel productions and a second studio when required by the standards set forth in the franchise agreement. Each studio shall be equipped to cable-case or video-tape programs simultaneously for use in producing programs for Public Channels, and shall include two (2) cameras, slide and film chain, two (2) portable cameras and recorders, and other appropriate equipment. Cost of timely maintenance of all studios and equipment shall be borne by the franchisee.

(9) A program and production consultant shall be made available to the City by the franchisee to promote public use of the Public Channels and to advise such users. The consultant must meet minimal qualifications established by the Commission. The franchisee shall employ such other technical personnel as may be necessary to meet the standards of utilization of public channels, as established by the ordinance, the franchise, or the Commission. Non-professional personnel may be utilized for operation of equipment under professional supervision.

(10) Advertising for any candidate for political office or for parties sponsoring such candidates, shall be granted only upon the basis that all such other candidates for the same office, or other parties sponsoring such candidate (where a party itself so advertises in the first instance) shall be provided with comparable advertising time and at a comparable rate. Specific disputes as to what constitutes comparable time or rates may be submitted by the franchisee or any interested party, for resolution by the Commission.

No monthly service charges shall be made for distribution of the franchisee's signals within such publicly owned buildings.

(13) Other Business Activities. In the conduct of the business franchised hereunder, neither the franchisee, nor its officers, employees, or agents shall sell, repair, or install; or recommend the sale, repair or installation of radio or of television receivers; provided, however, that nothing herein shall be deemed to prohibit franchisee, at customer's request and without payment, from examining and adjusting a customer's receiver set to determine whether reception difficulties originate in said set or in franchisee's System. The franchise granted pursuant hereto authorizes only the operation of a System as provided for herein, and does not take the place of any other franchise, license or permit which might be required by law of the franchisee.

(14) Interconnections. The franchisee shall interconnect its cable system with all other continuous Riverview cable systems, and may interconnect with any other system or service. The franchisee's system shall be designed and constructed so as to be capable of interconnection with any systems existing in municipalities contiguous to Riverview. However, nothing in this provision shall prohibit the charging to subscribers, on a time-used basis, of extra fees for cablecast channels received from non-contiguous systems.

(15) Use of Channels.

- (1) Advertising or Pay TV shall be allowed on non-Public Channels only.
- (2) Twenty per cent (20%) of the franchisee's channels, including increases in the number of channels, shall be designated "Public Channels" as defined elsewhere herein. - (3) The franchisee is prohibited from censoring any program which is cablecast over public channels.
- (4) Charges made by the franchisee to a user, except for Public Channels, shall be based upon the fair value of the service to the User and no other criteria. A franchisee is prohibited from discriminating on any other grounds among Users or in favor of himself.

(16) Open Access. The entire System of the franchisee shall be operated in a manner consistent with the principle of fairness and equal accessibility of its facilities, equipment, channels, studios, and other services to all citizens, businesses, public agencies, or other entities having a legitimate use for the System; and no one shall be arbitrarily excluded from its use; allocation of use of said facilities shall be made according to the rules or decisions of regulatory agencies affecting the same, and where such rules or decisions are not effective to resolve a dispute between conflicting users or potential users, the matter shall be submitted for resolution by the Riverview Cable Communication Commission.

(17) Maintenance Personnel. The franchisee shall maintain a force of one or more local agents or employees at all times and shall have sufficient employees to provide safe, adequate and prompt service for its facilities.

(18) Emergency Use of Facilities. The franchisee shall, in the case of any emergency or disaster, make its entire system available without charge to the City or to any other governmental or civil defense agency that the City shall designate.

(19) Filings and Communications with Regulatory Agencies. Copies of all petitions, applications and communications submitted by the franchisee to the Federal Communications Commission, Securities and Exchange Commission,

or any other federal or state regulatory commission or agency having jurisdiction in respect to any matters affecting CATV operations authorized pursuant to this franchise, shall also be submitted simultaneously to the City of Riverview.

(20) Permits and Authorizations. The franchisee or applicant for franchise shall diligently apply for all necessary permits and authorizations required in the conduct of its business, and shall diligently pursue the acquisition thereof, including necessary pole attachment contracts, and necessary authorizations from the Federal Aviation Agency to construct such receiving antenna towers as may be required, and any necessary authorizations or waivers from the Federal Communications Commission, and when any such permit, authorization, contract or waiver is obtained, a copy thereof shall be promptly filed by the franchisee with the Commission.

- (2) Each franchisee shall file annually with the Commission and City Clerk an Ownership Report, indicating all persons who at any time during the preceding year did control or benefit from an interest in the franchise of one per-cent (1%) or more and all creditors, secured and unsecured, in excess of \$1,000.00.
- (3) Each franchisee shall also file annually with the Commission and City Clerk copies of all rules, regulations, terms and conditions which it has adopted for the conduct of its business.

(22) Emergency Alert. The System shall be engineered to provide an Audio Alert System to allow authorized officials to automatically override the "audio" signal on all channels and transmit and report emergency information.

(23) Safety, Nuisance, Requirements. The franchisee shall at all times employ ordinary care and shall install and maintain in use commonly accepted methods and devices preventing failures and accidents which are likely to cause damage, injury or nuisance to the public.

Sec. 2-510

Sec. 10. Transfer of Ownership or Control.

(a) The franchise shall not be assigned or transferred, either in whole or in part, or leased, sublet, or mortgaged in any manner, nor shall title thereof, either legal or equitable or any right, interest, or property therein, pass to or vest in any person without the prior written consent of the City and upon the payment of a transfer tax computed on the basis of five per-cent (5%) of the proposed selling price. The Company may, however, transfer or assign the franchise to a wholly-owned subsidiary of the Company and such subsidiary may transfer or assign the franchise back to the Company without such consent but notice of such transfer or assignment shall be given, in writing, to the City. The proposed assignee must show financial responsibility as determined by the City and must agree to comply with all provisions of the franchise. The City shall be deemed to have consented to a proposed transfer or assignment in the event its refusal to consent is not communicated in writing to the Company within sixty (60) days following receipt of written notice of the proposed transfer or assignment.

(b) The Company shall promptly notify the City of any actual or proposed change in, or transfer of, or acquisition by any other party of, control of the Company. The word "control" as used herein is not limited to major stockholders but includes actual working control in whatever manner exercised. Every change, transfer, or

acquisition of control of the Company shall make the franchise subject to cancellation or termination unless and until the City shall have consented thereto, which consent will not be unreasonably withheld. For the purpose of determining whether it shall consent to such change, transfer, or acquisition of control, the City may inquire into the qualifications of the prospective controlling party, and the Company shall assist the City in any such inquiry.

(c) The consent or approval of the City to any transfer of the Company shall not constitute a waiver or release of the rights of the City in and to the streets, and any transfer shall by its terms, be expressly subordinate to the terms and conditions of this franchise.

(d) In the absence of extraordinary circumstances, the City will not approve any transfer or assignment of the franchise prior to substantial completion of construction of the proposed system.

(e) In no event shall a transfer of ownership or control be approved without the successor in interest agreeing in writing to the terms of this ordinance and the Franchise Agreement and without paying all costs incurred by the City.

(f) The franchisee grants to the City a right of first refusal to purchase said Cable Communication System, its fixtures, property and improvements and agrees that if a bonafide offer to purchase from a third party is accepted by franchisee (subject to this right of refusal) then franchisee shall promptly give written notice of such offer and conditional acceptance to the City, and the City shall have three (3) months from receipt of such notice to notify franchisee in writing of the City's election either (i) to purchase said Cable Communications System, its property, fixtures and improvements, or (ii) to decline such purchase. The failure of the City to notify franchisee within said three (3) months shall be deemed an election by the City to decline said purchase.

Sec. 11. Right of City to Purchase CATV System; Other Transactions Affecting Ownership or Control of Facilities.

(1) Upon expiration of the term of the franchise or upon any other termination thereof, as provided for herein, or by law, or upon receipt of application for prior approval of acquisition or transfer as set forth in subsection (5) below; the City shall have the right to purchase and take over the system, provided, however, that for such purchase the City shall pay to the franchisee a fair and reasonable price such as would allow continued operation of the system, by the City, in keeping with the standards established under the Cable Ordinance and the franchise agreement. Such price may be established in the franchise agreement, either explicitly or by establishment of a method of arriving at said price; provided, further, however, that notwithstanding any terms of said franchise agreement, the price shall not include any consideration for the value of the right awarded by the City to the franchisee under the franchise agreement.

(2) Upon the exercise of this option by the City and its service of an official notice of such action upon the franchisee, and upon payment of the purchase price, the franchisee shall immediately transfer to the City possession and title to all facilities and property, real and personal, of the CATV business, free from any and all liens and encumbrances not agreed to be assumed by the City in lieu of some portion of the purchase price set forth above; and the franchisee shall execute such warranty deeds or other instruments of conveyance to the City as shall be necessary for this purpose. The franchisee shall make it a condition of each contract entered into by it with reference to its operations under this franchise that the contract shall be subject to the exercise of this option by the City and that the City shall have the right to succeed to all privileges and obligations thereof upon the exercise of such option.

(3) In order that the City may exercise its option to take over the facilities and property of the system as authorized herein upon expiration or forfeiture or revocation of the rights and privileges of the franchisee, the franchisee shall not make, execute, or enter into any deed, deed of trust, mortgage, contract, conditional sales contract, or any loan, lease, pledge, sale, gift, pole agreement, or any other agreement concerning any of the facilities or property, real or personal, of the system without prior approval of the City Council upon its determination that the transaction proposed by the franchisee will not be inimical to the rights of the City under this

franchise. Provided, however, that this section shall not apply to the disposition of worn out or obsolete facilities or personal property in the normal course of carrying on the CATV business, or to routine contractual relationships entered into in the ordinary course of the cable business.

(4) Prior approval of the City Council shall be required where ownership or control of more than twenty-five per-cent (25%) of the right of control of franchisee is acquired by a person or group of persons acting in concert, none of whom already own or control twenty-five per-cent (25%) or more of such right of control, singularly or collectively.

(5) No franchise granted hereunder may be transferred unless such transaction is first approved by the City Council, by resolution after public hearing, in accordance with the same procedures as are specified for grants of franchises. Such approval shall not be unreasonably withheld.

(6) By its acceptance of the franchise the franchisee specifically concedes and agrees that any acquisitions or transfers as set forth in subsections (4) or (5) above without prior approval of the City Council shall constitute a violation of the franchise and this ordinance by the franchisee.

Sec. 2-512      Sec. 12. Receivership, Foreclosure, etc.

The franchise herein granted shall at the option of the City Council cease and terminate one hundred twenty (120) days after the appointment of a receiver or receivers or trustee or trustees to take over and conduct the business of the franchisee whether in a receivership, reorganization, bankruptcy or other action or proceeding unless such receivership or trusteeship, shall have been vacated prior to the expiration of said one hundred twenty (120) days, or unless:

(1) Such receivers or trustees shall have, within one hundred twenty (120) days after their election or appointment, fully complied with all the terms and provisions of this ordinance and the franchise granted pursuant hereto, and the receivers or trustees within said one hundred twenty (120) days shall have remedied all defaults under the franchise; and

(2) Such receivers or trustees shall, within said one hundred twenty (120) days, execute an agreement duly approved by the Court having jurisdiction in the premises, whereby such receivers or trustees assume and agree to be bound by each and every term, provision and limitation of the franchise herein granted.

In the case of a foreclosure or other judicial sale of the plant, property and equipment of the franchisee, or any part thereof, including or excluding this franchise, the City Council may serve notice of termination upon the franchisee and the successful bidder at such sale, in which event the franchise herein granted and all such rights and privileges of the franchisee hereunder shall cease and terminate thirty (30) days after service of such notice unless:

(1) The City Council shall have approved the transfer of this franchise, as and in the manner in this ordinance provided; and

(2) Unless such successful bidder shall have covenanted and agreed with the City to assume and be bound by all the terms and conditions of this franchise.

Sec. 2-513      Sec. 13. City's Right of Intervention.

The franchisee shall not oppose intervention by the City in any suit or proceeding to which the franchisee is a party. Notice of such litigation shall be promptly reported to the City by franchisee.

Sec. 2-514      Sec. 14. Insurance; Bonds; and Indemnification.

(1) Liability and Indemnification of City. The franchisee shall indemnify and hold harmless the City of Riverview at all times during the term of the franchise granted hereby and specifically agrees that it will pay all damages and penalties which the City may be legally required to pay as a result of granting the franchise. Such damages and penalties shall include, but not be limited to, damages arising out of copyright infringements, and other damages arising out of the installation, operation or maintenance of the CATV System authorized herein, whether or not any act or omission complained of is authorized, allowed, or prohibited by the

franchise. If the case suit shall be filed against the City either independently or jointly with the franchisee to recover for any claim or damage, the franchisee, upon notice to it by the City shall defend the City against the action and, in the event of a final judgment being obtained against the City, either independently or jointly with the franchisee solely by reason of the acts of the franchisee, the franchisee will pay said judgment and all costs, and hold the City harmless therefrom.

(2) Faithful Performance Bond. The franchisee shall, concurrently with its acceptance of this franchise, file with the City Clerk and at all times thereafter maintain in full force and effect for the term of this franchise or any renewal thereof, at franchisee's sole expense, a corporate surety bond in a responsible company licensed to do business in Michigan in the amount of \$100,000.00 (ONE HUNDRED THOUSAND), renewable annually, and conditioned upon the faithful performance of franchisee, and upon the further condition that in the event franchisee shall fail to comply with any one or more of the provisions of the franchise, there shall be recoverable jointly and severally from the principal and surety of such bond any damages or loss suffered by the City as a result thereof, including the full amount of any compensation, indemnification, or cost of removal or abandonment of any property of the franchisee as prescribed hereby, plus a reasonable allowance for attorneys' fees and costs, up to the full amount of the bond, said condition to be continuing obligation for the duration of the franchise and any renewal thereof and thereafter until the franchisee has liquidated all of its obligations with the City that may have arisen from the acceptance of this franchise or renewal by the franchisee or from its exercise of any privilege or right herein granted. The bond shall provide that at least thirty (30) days prior written notice of intention not to renew, cancellation, or material change, be given to the City by filing the same with the City Clerk. Notwithstanding the above provisions of this subsection, the City Council may in its sole discretion waive said bond or reduce the required amount thereof after construction of the initial system.

(3) Insurance. Insurance in such forms and in such companies as shall be approved by the City, such approval not to be unreasonably withheld, to protect the City and the franchisee from and against any and all claims, injury or damage to persons or property, both real and personal, caused by the construction, erection, operation, or maintenance of any aspect of the System. The City shall be named as an additional party insured in said policies hereinafter delineated.

The amount of such insurance shall be not less than the following:

General Liability Insurance

1 person	\$ 500,000
1 accident	\$ 1,000,000
Property Damage	\$ 250,000

Automobile Insurance

1 person	\$ 500,000
1 accident	\$ 1,000,000
Property Damage	\$ 250,000

Workmen's Compensation Insurance shall also be provided as required by the laws of the State of Michigan, as amended.

All said insurance coverage shall provide a ten (10) day notice to the City Clerk in the event of material alteration or cancellation of any coverage afforded in said policies prior to the date said material alteration or cancellation shall become effective.

Copies of all policies required hereunder shall be furnished to and filed with the City Clerk, prior to the commencement of operations or the expiration of prior policies, as the case may be.

(4) Non-Waiver. Neither the provisions of this Section, nor any bonds accepted by the City pursuant hereto, nor any damage recovered by the City thereunder, shall be construed to excuse unfaithful performance by the franchisee or limit the liability of the franchisee under this ordinance or

the franchise for damages either to the full amount of the bond, or otherwise.

Sec. 2-515

Sec. 15. Rates and Charges.

(1) Limitations on Rates. The charges made for service of the franchisee hereunder shall be fair and reasonable and no higher than necessary to meet all costs of the service (assuming efficient and economical management), and provide a fair return to the franchisee. The franchisee shall receive no consideration whatsoever from its subscribers for or in connection with its service to its subscribers other than in accordance with this section, without approval of the City Council.

(2) Adjustments to Rates. The City Council shall have the power, authority and right to cause the franchisee's rates and charges to conform to the provisions of subsection (1) hereof, and for this purpose it may deny increases or other reductions in such rates and charges when it determines that in the absence of such action on its part, the franchisee's rates and charges or proposed increased rates and charges will not conform to said subsection.

Sec. 2-516

Sec. 16 Rate Schedule.

This provision shall not be deemed to prohibit promotional campaigns to stimulate subscriptions to the System or other legitimate uses thereof; nor shall it be deemed to prohibit the establishment of a graduated scale of charges and classified rate schedules to which any customer coming with such classification shall be entitled.

Sec. 2-517

Sec. 17. Franchise Fees and Costs.

(1) Annual Fee. During the term of any franchise granted pursuant to this ordinance, the franchisee shall pay to the City for the use of its streets, public places, and other facilities, as well as the maintenance, improvements and supervision thereof, an annual franchise fee in an amount equal to five (5%) percent of the annual Local Gross Revenues as defined in Section 3(i) and such other revenues as the FCC may at any time recognize as permissible as a basis for computation of franchise fees. This payment shall be in addition to any other tax or payment owed to the City by the franchisee. In the event that it is determined that the FCC lacks jurisdiction to impose a limitation on franchise fees, or that the limit is raised, then the franchise fee will be subject to renegotiation.

(2) Method of Computation. Sales tax or other taxes levied directly on a per subscription basis and collected by franchisee shall be deducted from the local gross revenues before computation of sums due the City is made. day from each said computation date at the office of the City Treasurer. The City shall be furnished a statement with each payment, certified as correct by the franchisee, and an annual statement for the entire year, prepared by a certified public accountant. All statements shall reflect the total amount of Local Gross Revenues, and the above charges, deductions and computations for the period covered by the statement. Statements accompanying payments of the franchise fee shall set forth a detailed computation of the payment.

(3) The City shall have the right to inspect the Company's income records and the right to audit and to recompute any amounts determined to be payable under this ordinance; Provided, However, that such audit shall take place within twelve (12) months following the close of each of the Company's fiscal years. Any additional amount due to the City as a result of the audit shall be paid within thirty (30) days following written notice to the Company by the City which notice shall include a copy of the audit report. If, as a result of such audit, it is determined that an additional amount is due to the City which amount constitutes ten (10%) percent or more of the amount originally paid by the Company to the City, then the Company shall pay all costs incurred by the City in conducting the audit.

(4) Right of Recomputation. No acceptance of any payment shall be construed as a release or as an accord and satisfaction of any claim the City may have for further or additional sums payable as a franchise fee under this ordinance or for the performance of any other obligation hereunder.

Sec. 2-518

(1) All of the franchisee's plant and equipment, including but not limited to the antenna site, head-end and distribution system, towers, house connections, structures, poles, wire, cable, coaxial cable, fixtures and appurtenances shall be installed, located, erected, constructed, reconstructed, replaced, removed, repaired, maintained and operated in accordance with good engineering practices, performed by experienced pole-line construction crews and so as not to endanger or interfere with the safety of any persons or property, or to interfere with improvements the municipality may deem proper to make or to interfere in any manner with the rights of any property owner, or to unnecessarily hinder or obstruct pedestrian or vehicular traffic on municipal properties. Further, all such plant and equipment and all construction shall meet all relevant specifications of the Federal Communications Commission.

(2) Any opening or obstructions in or disturbances of the streets, public ways, or other municipal properties made by the franchisee in the exercise of its rights under the Franchise Agreement shall be guarded and protected at all times by the placement of adequate barriers, fences

In case of any physical disturbance or damage to any streets, public ways, or other municipal properties occurring in the course of erection, installation, construction, reconstruction, replacement, removal, repair, maintenance or operation, the franchisee shall promptly repair such disturbance and damage at its own expense and in a manner approved by the City.

Sec. 2-187. Personnel policy; purpose.

(a) It is hereby the declared personnel policy of the city to secure the establishment of a program of a civil service system under the merit principle as an integral part of the administrative service, to the end that the administration of the city's personnel program will be done in a manner equitable to the employees, without handicapping or curtailing responsible administrative officers, and by increased efficiency and improved administration, to be in the best interest of, and most economical to, the citizens of the city.

(b) It is the purpose of this article to give effect to the intent and requirements of Charter chapter XVII pertaining to personnel management. This article shall govern the conditions of employment for all city employees except as modified by section 2-190, and except where such working conditions of employment are otherwise specifically provided for in contracts of employment existing between the city and any of its employees or group of employees.

(Code 1962, §2-401)

Sec. 2-188. Definitions.

(a) The appointing authority in this article shall be the city manager.

(b) Department head is defined in this article as the head of the department under which an affected employee is employed. (Code 1962, § 2-425)

Sec. 2-189. Interpretation of personnel policy.

Absent any personnel policy contained in this article, the appointing authority shall be empowered to make all decisions regarding the application of personnel rules.

Sec. 2-190. Employees affected.

All officers and positions of the city are divided into two (2) groups, exempt service and classified service. The exempt service shall include the following:

- (1) All elected officials;
- (2) Members of boards or commissions created by or pursuant to the Charter;
- (3) The city manager;

Public announcement of all vacancies in the classified service shall be made at such time and in such form as is considered reasonable by the city manager in order to permit interested and qualified persons to apply. (Code 1962, § 2-142)

Sec. 2-193. Application for employment.

The city manager shall cause to have developed a standard form which must be filled fully and accurately by all applicants to fill vacancies. (Code 1962, § 2-413)

Sec. 2-194. Competitive examinations.

The relative fitness of applicants for appointment or promotion under this article shall be determined by examination, provided, that such examination may measure any or all of the following qualification factors: Education, training, experience, general adaptability, special aptitudes, physical fitness and such other qualifications as may be pertinent for determining the satisfactory performance of the duties of the position. An appointment list shall be prepared for each such examination, listing qualified candidates in descending order of their ranking. (Code 1962, § 2-414)

Sec. 2-195. Entrance to examination.

Entrance to the examination under section 2-194 shall be open only to those who are both citizens of the United States or who have made application for such citizenship and are making a diligent effort to obtain the same and residents of the city, provided that the city manager may waive the resident requirement, whenever it determines that such waiver is necessary in order to secure an adequate number of qualified applicants. (Code 1962, §2-415)

Sec. 2-196. Veteran's preference.

The city manager may provide for the granting of employment preference for entrance level positions to such honorably discharged war veterans of the United States armed forces as shall be consistent with statute but shall not be contrary to the best interest of the city service. War veterans who have an honorable discharge from any branch of the armed forces after serving in time of war shall have ten (10) points added to their earned ratings, and fifteen (15) points shall be added to the earned ratings of any honorably discharged veteran who has served in time of war and who has a service-connected disability; provided, however, that all other requirements of this article have been complied with by such war veteran; and provided further, that any such preference shall be allowed only to those applicants who have attained a passing score on the examination for the position; and provided further that no such preference shall be awarded in promotional examination. (Code 1962, §2-416)

Sec. 2-197. Appointment procedure.

The city manager shall specify the procedure which shall be followed in original and promotional appointments in the classified service provided that in all cases the city manager shall restrict for appointment the names of the three (3) persons standing highest on the proper list, or total number on such list, whichever number is less. Appointment shall be made to any position from the following list in this order:

- (1) The reemployment list;
- (2) Promotional list;
- (3) An appointment list resulting from a recruitment examination.

It is provided however that if the city manager holds a combined original appointment-promotional examination and a combined eligible list is prepared, the city manager may give first consideration to those persons on the list who are candidates for promotion. (Code 1962, §2-417)

Sec. 2-198. Penalties and terminations; reemployment list.

The city manager shall provide by rules and regulations for the procedure to be observed in the causes which justify the following, or other personnel actions: Demotions, suspensions, dismissal and layoffs, subject to the following:

- (1) The tenure of everyone holding an office, place, position or employment in the classified service shall be only during good behavior and efficient service; and any such person may be removed or discharged, suspended without pay, deprived of vacation privileges or other special privileges for incompetency, inefficiency, dishonesty, drunkenness, immoral conduct, insubordination, discourteous treatment to the public, neglect of duty, violation of the provisions of the Charter or of this article, or any other failure of good behavior, or any other acts of misfeasance, malfeasance or non-feasance in office.
- (2) When it is necessary to lay off employees because of material change in duties or organization or lack of work or funds, such layoffs shall be accomplished by suspending in numerical order commencing with the last person appointed until the necessary reduction has been accomplished. Employees so laid off shall have their names placed on a reemployment list, which list shall be the first source for filling appropriate vacancies as they occur. No name shall remain on a reemployment list for longer than one (1) year, except by specific action of the city manager. (Code, 1962, §2-421)

Sec. 2-199. Appeal procedure.

(a) Any employee in the classified service except one serving in his probationary period who is aggrieved because of any action affecting his status or condition of employment which has not been adjusted to his satisfaction after consultation with the appointing officer, or his department head, may seek redress by following the grievance procedures set forth in the labor contract which applies to his job, or in absence of a labor agreement, the City Manager's Office.

Sec. 2-200. Discrimination and political activity prohibited.

No employee either in the matter of preliminary employment, promotion, suspension, discharge, demotion or other disciplinary action shall be discriminated against on account of racial, political or religious backgrounds or opinions. And it is also the intent of this article to restrict active participation in the municipal politics of the city upon the part of any of its employees, it being the stated policy, however, not to deny to employees and officials governed by the civil service system the rights of such persons to engage in their normal rights and responsibilities as citizens.  
(Code, 1962, §2-423)

This Ordinance shall become effective upon publication as required by law.

Sec. 29-2801 Intent.

(1) It is the purpose of this Article to significantly reduce hazards to persons and damage to property as a result of flood conditions in the City of Riverview, and to comply with the provisions and requirements of the National Flood Insurance Program, as constituted in accord with the National Flood Insurance Act of 1968, and subsequent enactments and rules and regulations promulgated in furtherance of this program by the United States Department of Housing and Urban Development, Federal Insurance Administration, as published in the Federal Register, Vol. 41, No. 207, Tuesday, October 26, 1976.

(2) Further, the objectives of this Article include:

a. the protection of human life, health and property from the dangerous and damaging effects of flood conditions;

b. the minimization of public expenditures for flood control projects, rescue and relief efforts in the aftermath of flooding, repair of flood damaged public facilities and utilities, and the redevelopment of flood damaged homes neighborhoods, commercial and industrial areas;

c. the prevention of private and public economic loss and social disruption as a result of flood conditions;

d. the maintenance of stable development patterns not subject to the blighting influence of flood damage;

e. to insure that the public has access to information indicating the location of land areas subject to periodic flooding; and

f. to preserve the ability of floodplains to carry and discharge a base flood.

Sec. 29-2802. Delineation of the flood hazard overlay zone.

(1) The flood hazard area zone shall overlay existing zoning districts delineated on the official City of Riverview Zoning Map. The boundaries of the flood hazard area zone shall coincide with the boundaries of the areas indicated as within the limits of the 100-year flood in the report entitled "The Flood Insurance Study the City of Riverview" dated September 16, 1981, with accompanying Flood Insurance Maps (sometimes also cited and designated as "FIRM") and Flood Boundary and Floodway Maps. Within the flood hazard area zone a regulatory floodway shall be designated. The boundaries of the regulatory floodway shall coincide with the floodway boundaries indicated on the Flood Boundary and Floodway Map. The Study and accompanying maps designated and identified No. 260240 0005 and 260240 0005 C, are adopted by reference, appended, and declared to be a part of this ordinance. The term flood hazard area as used in this ordinance shall mean the flood hazard area zone and the term floodway shall mean the designated regulatory floodway.

(2) Where there are disputes as to the location of a flood hazard area zone boundary, the Zoning Board of Appeals shall resolve the dispute in accord with sections 29-2002.

(3) In addition to other requirements of this ordinance applicable to development in the underlying zoning district, compliance with the requirements of this Article shall be necessary for all development occurring within the flood hazard area zone. Conflicts between the requirements of this Article and other requirements of this ordinance or any other ordinance shall be resolved in favor of this Article, except where the conflicting requirement is more stringent and would further the objectives of this Article. In such cases the more stringent requirement shall be applied.

Sec. 29-2803. Development permit.

(1) Development, including the erection of structures and placement of mobile homes, within a flood hazard area shall not occur except upon issuance of a zoning com-

- a. the requirements of this Article shall be met;
- b. the requirements of the underlying zoning districts and applicable general provisions of this ordinance shall be met;

Where a development permit cannot be issued prior to the issuance of a zoning compliance permit, a letter from the issuing agency indicating intent to issue, contingent only upon proof of zoning compliance, shall be acceptable.

Sec. 29-2804. General standards for flood hazard reduction.

(1) All new construction and substantial improvements within a flood hazard area, including, if such be otherwise permitted by statute or ordinance, the placement of pre-fabricated buildings and mobile homes, shall:

- a. be designed and anchored to prevent flotation, collapse or lateral movement of the structure;
- b. be constructed with materials and utility equipment resistant to flood damage; and
- c. be constructed by methods and practices that minimize flood damage.

(2) All new and replacement water supply systems shall minimize or eliminate infiltration of flood waters into the system.

(3) All new and replacement sanitary sewage systems shall minimize or eliminate infiltration of flood waters into the systems and discharges from systems into flood waters. On-site waste disposal systems shall be located to avoid impairment to the system or contamination from the system during flooding.

(4) All public utilities and facilities shall be designed, constructed and located to minimize or eliminate flood damage.

(5) Adequate drainage shall be provided to reduce exposure to flood hazards.

(6) The City Engineer or his representative shall review development proposals to determine compliance with the standards in this section, and shall transmit his determination to the zoning administrator.

(7) Land shall not be divided in such a manner that it would create parcels or lots which cannot be used in conformance with the requirements of this Article.

(8) The flood-carrying capacity of any altered or relocated watercourse, not subject to state or federal regulations, designed to insure flood carrying capacity shall be maintained.

(9) Available flood hazard data from federal, state or other sources shall be reasonable utilized in meeting the standards of this section. Data furnished by the Federal Insurance Administration shall take precedence over data from other sources.

Sec. 29-2805. Specific base flood elevation standards.

(1) On the basis of the most recent available base flood elevation data the following standards shall apply in the flood hazard area zone:

- a. All new construction and any future substantial improvements of existing residential structures shall have the lowest floor, including basement, elevated to or above the "base-flood-level".

- b. All new construction and any future substantial improvements of non-residential structures shall have either:

1. the lowest floor, including basement, elevated to or above the base flood level; or

2. be constructed in such manner that below base flood level, together with attendant utility and sanitary facilities, the structure is watertight with wall substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydra-

dynamic and effects of buoyancy. A registered professional engineer or architect shall certify that the standards of this sub-paragraph are satisfied, and that the floodproofing methods employed are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with a base flood in the location of the structure. Such certification shall be submitted as provided in section 29-2804(6), and shall indicate the elevation to which the structure is floodproofed.

(2) The most recent base flood elevation data received from the Federal Insurance Administration shall take precedence over data from other sources.

Sec. 29-2806. Mobile home standards.

(1) All mobile homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties in accord with the following specifications:

a. Over-the-top ties shall be provided at each of the four corners of the mobile home, with two additional ties per side at intermediate locations, except that on mobile homes less than fifty (50) feet in length one tie per side only shall be required.

b. Frame ties shall be provided at each corner of the home with five additional ties per side at intermediate points, except that on mobile homes less than fifty (50) feet in length four ties per side shall be required.

c. All components of the anchoring system shall be capable of carrying a force of 4,800 pounds.

d. All additions to a mobile home shall be similarly anchored.

(2) An evacuation plan indicating alternate vehicular access and escape routes shall be filed with the Chief of Police and Fire of Riverview for mobile home parks and mobile home subdivisions.

(3) Mobile homes within zones A 1-30 on the Flood Insurance Rate Map shall be located in accord with the following standards:

a. All mobile homes shall be placed on stands or lots which are elevated on compacted fill or on pilings so that the lowest floor of the mobile home will be at or above the base flood level.

b. Adequate surface drainage away from all structures and access for a mobile home hauler shall be provided.

c. In the instance of elevation on pilings, lots shall be large enough to permit steps, piling foundations shall be placed in stable soil no more than ten (10) feet apart; and reinforcement shall be provided for piers more than six (6) feet above ground level.

d. In mobile home parks and mobile home subdivisions which exist at the time this subsection is adopted, where repair, reconstruction or improvement of streets, utilities and pads equal or exceeds 50% of the value of the streets, utilities and pads before the repair, the standards in subparagraphs a, b, and c of this sub-section shall be complied with.

Sec. 29-2807. Floodway protection standards.

(1) New construction, substantial improvements and all other development, including fill, shall be prohibited within zones numbered A 1-30 on the FIRM (Flood Insurance Rate Map), except where it is demonstrated to the City Engineer that the cumulative effect of the proposed development when combined with all other existing and anticipated development will not harmfully increase the water surface elevation of a base flood. In determining whether a harmful increase will occur, compliance with Public Act 245 of 1929, as amended by Public Act 167 of 1968, shall be required, provided that the allowable increase shall not exceed one foot. The provisions of this section shall not apply within the regulatory floodway. The provisions of sub-section (2) shall be applied to land situated within the regulatory floodway.

(2) All development occurring within the regulatory floodway shall comply with the following standards:

a. Encroachments, including fill, new construction, substantial improvements and other development shall be prohibited. Exception to this prohibition shall only be made

upon certification by a registered professional engineer or the Department of Natural Resources that the development proposed will not result in any increase in flood levels during a base flood discharge, and compliance with Act 245, Public Acts of 1929, as amended by Act 167, Public Acts of 1968.

b. The placement of mobile homes shall be prohibited except in mobile home parks and subdivisions which exist at the time this Article is adopted.

c. Development which is permitted in the regulatory floodway shall meet the requirements of sections 3 to 6.

(3) The uses of land permitted in an underlying zoning district shall not be construed as being permitted within the regulatory floodway, except upon compliance with the provisions on this section.

Sec. 29-2808. Floodplain Management Administrative Duties.

(1) With regard to the National Flood Insurance Program, and the regulation of development within the flood hazard area zone as prescribed in Sec. 29-2801 the duties of the City Engineer shall include, but are not limited to:

a. Notification to adjacent communities and the Department of Natural Resources of the proposed alteration or relocation of any watercourse, and the submission of such notifications to the Federal Insurance Administration;

b. Verification and recording of the actual elevation in relation to mean sea level of the lowest floor, including basement, of all new or substantially improved structures constructed within the flood hazard area, and in the case of floodproofed structures, the elevation to which the structure was floodproofed; and

c. Recording of all certificates of floodproofing, and written notification to all applicants to whom variances are granted in a flood hazard area zone indicating the terms of the variance, the increased danger to life and property, and that the cost of flood insurance will increase commensurate with the increased flood risk, and may reach amounts in excess of \$25.00 for \$100.00 of insurance coverage per year. A record of all variance notifications and variance actions shall be maintained together with the justification for each variance.

(2) All records and maps pertaining to the National Flood Insurance Program shall be maintained in the office of the City Engineer and shall be open for public inspection.

(3) It shall be the responsibility of the City Engineer to obtain and utilize the best available flood hazard data for purposes of administering this ordinance in the absence of data from the Federal Insurance Administration.

Sec. 29-2809. Disclaimer of liability.

(1) The degree of flood protection required by this ordinance is considered reasonable for regulatory purposes and is based upon engineering and scientific methods of study. Larger floods may occur on rare occasions. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris. Approval of the use of land under this article shall not be considered a guarantee or warranty of safety from flood damage. This ordinance does not imply that areas outside the flood hazard area will be free from flood damage. This ordinance does not create liability on the part of the City of Riverview or of any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made thereunder.

RESOLUTION ADOPTED.

Resolved by Councilman Brown, supported by Councilwoman Shoemaker, that Memo #686 from Purchasing Agent Zula dated September 15, 1981, regarding bids for an Allen Testing Machine be received, placed on file and Council concur with the recommendation and award the bid for an ALLEN TESTING MACHINE to Allen District Sales, Inc. for the total bid price of \$7,760.00, a figure \$175.00 higher than the lowest bid. This award is based upon the following reasons: 1) there are less connections to be made initially in the hook-up; 2) a provision is made for precise measurement of cylinder balance and carburetor adjustment by an additional scale on the tachometer allowing for expansion of the meter reading, which is critical in today's leaner fuel mixtures; 3) it possess a better fuel injection testing capability and 4) there are nineteen (19) Allen machines in the area, which fact would accordingly render to the City a savings in labor costs and maintenance and adjustments of the machine should they be required from the vendor. It should be noted that City Manager Kollman, as a stockholder in the corporation (Allen District Sales, Inc.) abstained from endorsing this recommendation. Carried unanimously.

Presiding: Mayor Rotteveel

Present: City Council and Planning Commission Members

PUBLIC HEARING:

City Attorney Logan gave a brief presentation on the legal mechanics of "emminent domain" and condemnation procedures in relation to a federally assisted project in the State of Michigan.

Community Development Coordinator Feudner gave a summary of the information given at the December 17, 1979 Public Hearing, with final remarks and information that related to the major questions raised since December 17th.

A question and answer period was given to the people in the audience at this time.

Mr. Danko, an attorney representing some of the Jefferson and Riverview Street residents, addressed the following basic concerns of his client/households:

- The timing of submission to H.U.D.
- The dollar of application to H.U.D. -Detroit
- The amount of the H.U.D. application in relation to maximum relocation benefits per household
- The source and commitment of other funding
- The timing and sequence of events if all the necessary funding became available to the City and/or private developers

Other questions from the audience included, but were not limited to:

- How will the building and land be appraised?
- How long will relocation take?
- Can relocation benefits cover increased mortgage interest charges when moving to a different home?
- What considerations will be made to businesses located in project area?
- What will be the relocation choices?
- When will the proposed new rental and "cluster housing" be built?
- How will this project effect senior citizens on a fixed income?
- Will renters get relocation benefits?

Mr. Feudner concluded the discussions by relating that no homeowner or renter should NOT made a move because of jeopardizing their benefits under the law, if the City undertook this project in the near future, and distributed H.U.D. publications concerning relocation of homeowners, renters and businesses.

Meeting adjourned at 10:05 P.M.

RESOLUTION IN SUPPORT OF HOUSE BILL NO. 4392

WHEREAS, the above legislation has been passed in the House of Representatives for the State of Michigan and is an amendment to Section 608 of Act 116 of Public Acts of 1954 entitled "Michigan Election Law," as amended by Act. No. 325 of the Public Acts of 1975, being Section 168.608, of the Compiled Laws of 1970; said proposed Legislation would abolish the Presidential Preferential Primary in the State of Michigan; and

WHEREAS, the National Democratic Party rules require that the presidential primary be "closed" in order for the election results to be binding on the nomination process of selecting a presidential candidate, and, in any case, if the National Democratic Party does not recognize the results of Michigan's open Democratic primary, the 1980 Presidential Primary will be simply an expensive popularity contest for the Republican Party; and

WHEREAS, currently, Michigan holds two primary elections in presidential election years -- one presidential primary in May and a later state primary in August, many object to this procedure because both the costs and considerable effort involved in a primary election are duplicated, and contend that the presidential primary should be eliminated for this reason; and

WHEREAS, abolishing the presidential primary would eliminate the cost to the state government of reimbursing local governments for primary expenses, and, the House Fiscal Agency having indicated that an appropriation of \$2,385,282 was made for reimbursement of the 1976 primary, savings would obviously be even greater since costs have risen still further, and will continue to rise;

NOW, THEREFORE BE IT RESOLVED, that the City Council of the City of Riverview feels that the State Legislature should demonstrate their fiscal responsibility and thereby act immediately to repeal the Presidential Primary Election statute, further, it is requested that a copy of this resolution be forwarded to Governor William G. Milliken, Senators Faust and Irwin, Representative Sheridan, as well as the Michigan Municipal League.

SPECIAL MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN  
HELD ON TUESDAY, MARCH 4, 1980, A. D. IN THE  
DOWNING ELEMENTARY SCHOOL

Meeting called to order at 8:00 P.M.

Presiding: Mayor Rotteveel

Present: Councilman Capezza, Kesterson, Iverson, Councilwoman Shoemaker

Absent and excused: Councilman Brown (ill), Councilwoman Zick (In Hospital)

Also Present: City Manager Kollman, CD Coordinator Feudner and approximately 150 persons in the audience.

Announcement of next meeting is at Downing School, 8:00 P.M., March 17, 1980.

The Regular Order of Business was dispensed with so that the following Public Hearing may be held.

Public Hearing: "Soliciting comments from citizens, neighborhood groups, and/or private non-profit organizations concerning an amendment to the city's Housing Assistance Plan (H.A.P.) that would include the development of the proposed "Woodside Apartments". "

Mayor Rotteveel asked if there was anyone in the audience who wished to address the Council.

Mr. Duford stated that because of the \$2,400 per student cost in relation to potential school revenues from Woodside, it would be in the City's best economic interest to encourage a larger student population and privately-financed development.

Mr. Tolstyka, President of the Forest Homeowners' Association, stated that the City would be gambling with potentially bussing current students out of the Forest Elementary school district, and that no concensus is available for expected increase in K-6 school-age children. Later in the discussions Mr. Tolstyka stated that he had collected over 1900 signatures on a petition requesting that the Mayor and Council do not include the Woodside site in the Housing Assistance Plan (H.A.P.). These petitions would be made available to the City officials.

Other citizens who did not announce their names spoke on, but were not limited to, the following major issues:

- . Was the City subsidizing Woodside?
- . What were any positive benefits to be derived to the City from allowing the development of Woodside complex?
- . What will be the social repercussions in the Forest Elementary School?
- . What are the implications for the management of the complex and the entire city, if HUD subsidizes housing in Riverview?
- . Will there be any detrimental effect on property values or increases in homeowners' insurance due to the development of Woodside?
- . Why hasn't the City investigated alternative (i.e. Senior Citizen housing, rezone to commercial, single family subdivision) to the construction of the Woodside project?
- . Could the City prepare a "pro & Con" paper for the meeting of March 17th
- . Could the City purchase the property with a revenue from a Special Assessment or General Obligation bond?

Resolved by Councilwoman Shoemaker, supported by Councilman Kesterson that the foregoing public hearing be closed.

Carried unanimously.

Respectfully submitted

James P. Feudner  
C.D. Coordinator

ORDINANCE NO. 269

AN ORDINANCE TO SUPPLEMENT THE ORDINANCE CODE OF THE CITY OF RIVERVIEW, TO PROHIBIT CROSS-CONNECTIONS INTO THE MUNICIPAL WATER SYSTEM AND TO PROVIDE FOR THE ELIMINATION OF ALL CROSS-CONNECTIONS, AND TO PROVIDE FOR ENFORCEMENT OF MICHIGAN DEPARTMENT OF PUBLIC HEALTH RULES PERTAINING THERETO BY THE ADOPTION BY REFERENCE OF ADMINISTRATIVE RULES R-325.11401 to R-325.11407 AS PROMULGATED BY THE MICHIGAN DEPARTMENT OF PUBLIC HEALTH: BY THE ENACTMENT OF NEW SECTIONS 27-39 and 27-40 UNDER DIVISION 2 "CONNECTIONS" UNDER ARTICLE II "WATER", UNDER CHAPTER 27, "WATER AND SEWAGE DISPOSAL SYSTEM" OF THE CODE.

THE CITY OF RIVERVIEW ORDAINS:

That the Code of Ordinances of the City of Riverview is hereby supplemented by new sections 27-39 and 27-40 under Chapter 27 "Water and Sewage Disposal System" to read hereafter as follows:

27-39. Declared Policy, Prohibition of Cross-Connections

Pursuant to ~~mandate~~ mandate of the Michigan Department of Health, Bureau of Environmental and Occupational Health, pursuant to the authority of the "Safe Drinking Water Act", being Act 399, P.A. 1976, all cross-connections into the public water system of the City of Riverview (except as otherwise authorized by the Rule or regulation of the State Department of Public Health) are hereby expressly prohibited, and are required to be eliminated in the interest of public safety.

a.) Adoption by reference of Department of Public Health Rules, restricting and regulating Cross Connections into the Water System.

There is hereby adopted by reference thereto, the rules pertaining to Cross-Connections as set forth in Part 14, Cross Connections, R-325.11401 through R-325-1140 as promulgated December 27, 1977 (effective January 12, 1978) by the Michigan Department of Public Health, and the definitions, requirements and procedures therein set forth shall be applicable to the water system of the City of Riverview. It is further provided that three (3) official printed copies of the said Rules shall be kept on file by the City Clerk at all times for public inspection.

b.) Pursuant to mandated procedures, all parts and branches, of the Riverview Public Water System, both prior, existing and future or proposed connections shall be brought into conformity with this Ordinance, and it shall be the duty of all departments of the City to report the existence of any such secret or concealed cross-connection into the public water system as may come to the attention or disclosure of such department, so that appropriate anti-siphon, or anti-back flow devices may be prudently and properly installed for the protection of the public drinking water system. The existence of such cross-connection shall be reported to the City Engineering department, and also as required, as part of the implementation of the State Department of Public Health regulation.

c.) All users of the public water system who knowingly make a cross-connection into the public water system, or who knowingly continues a concealed cross-connection already existing shall be guilty of a misdemeanor as hereinafter provided, unless a plan for installation of an appropriate, approved anti-siphon or anti-back flow device to protect

the water system is promptly filed with the City Engineering Department within ninety (90) days of the enactment of this Ordinance, or within ten (10) working days after the discovery by such user of the public water system, of any earlier unknown cross-connection into the public water system which is by this Ordinance made illegal.

d.) Requirements. That this Ordinance requires the installation of a City approved back-flow prevention device on all commercial and industrial water service branches connected to the Riverview public water system, unless the user can establish without a doubt that his operation presents neither an actual nor a potential health hazard as outlined by the Michigan Department of Public Health.

The installation of a back-flow prevention device at the service does not relieve the user of the responsibility of providing a safe and adequate supply of potable water for the in-plant consumer.

e.) Inspection. That it shall be the duty of the Engineering Department to cause inspections to be made of all properties served by the public water supply where cross-connections with the public water supply is deemed possible, and wherever a report or disclosure of a latent, hidden, or concealed cross-connection is received.

f.) Fees. During a two-year implementation period, to commence immediately upon the enactment of this Ordinance, and to expire on the second anniversary of its adoption, inspection and re-inspection, <sup>fees</sup> as to any prior, existing cross-connection shall be waived. Thereafter the fees as established for plumbing connections shall apply.

It is further provided, however, that fees are not waived for such period for any new or proposed installation, which new installation shall be subject to plumbing inspection fees as established immediately.

g.) Right of Entry. That the representative of Riverview Engineering Department shall have the right to enter at any responsible time any property served by Riverview's water supply system for purpose of inspecting the premises for possible cross-connections. On request, the owners, lessees or occupants of said property shall furnish any pertinent information regarding the piping systems of the property. The refusal of such information or refusal of access shall be deemed prima facie evidence of the presence of an illegal cross-connection.

h.) Discontinuance of water supply. The City of Riverview Engineering Department is hereby authorized and directed to order the DPW to discontinue water service, after reasonable notice, to any property wherever precautionary measures are deemed necessary to protect the public drinking water supply system. Water service to such property shall not be restored until violations are corrected, by the installation of an approved device to protect the water system from contamination.

i.) Enforcement. When violations are found and corrections are needed, the time allowed for compliance shall be contingent upon the degree of hazard involved. Also, a plumbing permit and an inspection are required by the City of Riverview Engineering Department, except as such is waived during the initial implementation period by subsection (f) of this Section.

j.) In-Plant Water; Piping Identification. That the potable water supply made available on the properties served by the public water supply shall be protected from possible contamination as specified by this ordinance and also by the State and City Plumbing Code. Any water outlet which could be used for potable or domestic purposes and which is not supplied by the potable system must be labeled in a conspicuous manner as WATER UNSAFE FOR DRINKING.

k.) Violations. That any person or customer found guilty of violating any of the provisions of this ordinance, or any written order of the Engineering Department for the City of Riverview, in the enforcement of this Ordinance, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than \$100 nor more than \$500 for each violation. Each day upon which a violation of the provisions of this act shall occur shall be deemed a separate and additional violation for the purpose of this ordinance. The voluntary disclosure coupled with prompt remedial or corrective action shall be considered in mitigation when imposing such fine.

l.) Severability. Should any portion of this Ordinance be held invalid for any reason, such holding shall not be constructed as affecting the validity of any of the remaining unaffected portions of this Ordinance.

27-40. This Ordinance being necessary to protect and maintain safe drinking water of the public, shall be construed liberally so as to accomplish the earliest possible installation of required anti-siphon, or anti-back flow devices wherever an uncontrolled cross-connection as prohibited by the Michigan Department of Public Health and prohibited by this Ordinance is discovered, or otherwise located to the purpose and intent that all such illegal cross-connections into the public water system shall be eliminated, and that adequate safeguards against the recurrence or re-introduction of such cross-connection be given highest priority.
