#### PERSONS IN THE AUDIENCE:

Mayor Rotteveel asked if anyone wished to address Mayor and Council.

#### RESOLUTIONS:

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that Council adopt the following resolution **Opposing State Legislation Eliminating Local Government Authority to Conduct Routine Rental Inspections of Rental Dwellings** as endorsed by the City Manager.

WHEREAS, a bill has been introduced in the State Legislature which would eliminate the City's ability to conduct routine inspection of rental dwellings, and

WHEREAS, these routine inspections are necessary to make sure that the property owners are keeping the properties habitable, safe and meet the minimum housing standards for existing structures, and

WHEREAS, the authority for reasonable inspections is provided for by the existing City Building Codes and BOCA Codes, and

WHEREAS, the passage of this bill will be and is another infringement upon the City's authority under the home Rule Act,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan that the City of Riverview is opposed to the proposed legislation eliminating the City's right to conduct routine rental inspections, and

BE IT FURTHER RESOLVED that the City of Riverview is opposed to the further encroachment this legislation would have on the Home Rule Act.

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to all downriver communities.

Carried unanimously.

Resolved by Councilman Trombley, supported by Councilwoman Blanchette, that Council **Table** the original Resolution to support the Downriver Community Conference Study of the meeting of March 20, 1995 and adopt the substitute Resolution titled "Resolution Authorizing Participation By the City of Riverview In The Downriver Community Conference Fire Service Consolidation Study and Promoting Certain Policies In the Conduct Of This Study" as amended relative to Fire Department Consolidation:

WHEREAS, the Downriver Mutual Aid has formed a special task force to study the potential of creating a downriver fire district with the consolidation of fire services, and

WHEREAS, the special task force presented a preliminary report to the Downriver Community Conference Board of Directors, and Fire Chiefs on November 3, 1994, and

WHEREAS, the special task force recommends that further

exploration, consultation, study, planning, and review of fire department consolidation included all municipalities interested in obtaining information only concerning the formation of a fire district and consolidation of emergency services, and

WHEREAS, the Fire Chief and City Manager have recommended that certain policy consideration be prioritized in the conduct of this study.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, that the City of Riverview will actively participate in cooperation with other Downriver communities in the DCC fire services consolidation study.

BE IT FURTHER RESOLVED that the City of Riverview requests that priority consideration be given in the conduct of this study to the following:

1. Oppose any diminishment of mutual aid services to Downriver communities due to consolidation, and
2. Support the concept of cooperative purchasing for fire services, and
3. Promote a strong public safety organizational structure without shifting of cost to entities with current part-time or volunteer staffing, and
4. Support the enhancement of modern emergency medical service delivery through public sector staffing and operation, and
5. Evaluate organizational structure to minimize local loss of autonomy and budgeting control for fire services, and
6. Promote creativity in concepts for central dispatch, fire prevention, fire education, and emergency medical services.

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to the DCC and all downriver communities.

Carried unanimously.

Resolved by Councilman Trombley, supported by Councilman Weak's, that the following Resolution authorizing the Submission of Grant Application to the Byrne Memorial Grant Fund for funding to support the D.A.R.E. Program be adopted.

WHEREAS, the Police Department has been advised that it may apply for funds available under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program authorized by Title I of the Omnibus Crime Control and Safe Streets Act of 1968; and

WHEREAS, such funding, if granted to the Riverview Police Department, would be utilized for enhancing and financing the D.A.R.E. program;

NOW, THEREFORE, BE IT RESOLVED that the application for funding under the Edward Byrne Memorial State and Local Law Enforcement Assistance Formula Grant Program is approved.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Lane, that the following Resolution declaring Concern and Opposition to the Lack of Cost Control demonstrated by Wayne County involving modification on the Wastewater Treatment Plant on bid Package F for State Revolving Funding be adopted.

WHEREAS, the City of Riverview is joined as a co-defendant in

the lawsuit known as United States and State of Michigan v Wayne County, et al in the federal district court; and

WHEREAS, a consent decree has been entered in said suit requiring certain improvements to be made in the downriver sewer system and at the Wyandotte Wastewater Treatment Plant; and

WHEREAS, such improvements are under the control and direction of Wayne County; and

WHEREAS, there have been substantial cost overruns and reports that the County has engaged consultants without proper cost controls; and

WHEREAS, the City of Riverview and the other municipal members of the downriver sewer system will be expected by Wayne County to pay for such costs;

NOW, THEREFORE, BE IT RESOLVED that the City of Riverview calls upon Wayne County, through its Executive and Commission, to investigate the aforementioned cost overruns and reports of lack of cost controls as to the consultants it has engaged, and to take all appropriate measures to contain and minimize such costs; and

BE IT FURTHER RESOLVED that the City of Riverview calls upon Wayne County to adopt procedures and ordinances requiring notification, accounting, and the prior approval of a majority of the constituent municipal members of the downriver sewer system as a condition precedent to any demands that the said municipalities pay for such expenditures with the further provision that failure to comply with these requirements shall result in the County paying for such expenditures out of its general fund; and

BE IT FURTHER RESOLVED that certified copies of this resolution shall be transmitted to the County Executive, the City's County Commissioner, and the Clerks of the other municipal members of the downriver sewer system.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Koch, that the following resolution be adopted establishing New Commercial Rates for the Land Preserve. Further, the City Manager be authorized to extend said rates to existing and potential Commercial Customers excepting contracts supported by settlement agreements as modified as follows:

WHEREAS, the City Council has adopted a Council Policy requiring periodic review of Landfill rates; and

WHEREAS, a study of market conditions and customer needs have been concluded by the staff and consultants; and

WHEREAS, the City Council has determined that the rates set forth herein are appropriate;

NOW, THEREFORE, BE IT RESOLVED, that the following rates shall be charged until further notice.

1. Commercial Contract Rate

<u>VOLUMES PER MONTH</u> <u>IN TONS</u>	<u>PRICE PER UNIT</u>

If such determination is affirmative, the rate charged shall be not less than \$2.00 per cubic yard but not more than prepay rate, subject to approval by the City Manager, which shall be reported to the City Council on a monthly statement identifying the quantity and price thereof.
  5. Perpetual Care Fund and County Surcharge: The surcharges provided for in Act 9 of 1990 and the County Surcharge are included in the above rate schedule.
  6. Unload Charges: No fees shall be assessed customers who request assistance in unloading frozen waste from their vehicles.
  7. Special Conditions: All special conditions require prior Council approval.
- Carried unanimously

Resolved by Councilman Lane, supported by Councilman Trombley, that Council adopt the following Resolution offering Contract Extensions and Revised Rates to Municipal Landfill Customers and authorize the pricing to certain municipal customers. Further, direct the City Manager to develop an implementation plan by April 7, 1995.

WHEREAS, the City of Riverview is under contract with several municipalities to provide landfill disposal services; and

WHEREAS, a study of municipal customer needs has been concluded; and

WHEREAS, the City Council has determined that an extension of the October 15, 1990 contract containing revised rates should be offered to municipal landfill customers;

NOW, THEREFORE, BE IT RESOLVED that the City of Riverview offers to extend the Solid Waste Disposal Agreement dated October 15, 1990, as previously amended in 1992 by addendum, by an additional three (3) year period, coupled with a revision of the rates as follows:

\$7.60 per cubic yard, commencing with the next calendar month following the date of execution of the attached addendum by the customer, until June 30, 1996;

On July 1 of each of the subsequent four (4) years, (1996, 1997, 1998, and 1999), the foregoing rate will be adjusted by the Consumer Price Index.

From July 1, 2000 until the end of the revised contract period, the rate would be a 10% discount off the Landfill Gate Rate.

RESOLUTIONS:

Resolved by Councilman Trombley, supported by Councilwoman Blanchette, that the following resolution regarding the issuance of 30 Boat Ramp Permits to the BASF Corporation be adopted for a one year term.

WHEREAS, the BASF Corporation and the City of Riverview entered into a lease agreement in 1985 for the development and operation of a municipal boat ramp facility, and

WHEREAS, the BASF Corporation, through this lease agreement, extended a significant financial contribution for the original development of the boat ramp facility and parking lot, and

WHEREAS, in consideration of the cooperation and financial contribution extended by the BASF Corporation involving this project, the City of Riverview extended a total of eighteen (18) boat ramp permits to the BASF Corporation for use by BASF employees, and

WHEREAS, the BASF Corporation requested that the total number of boat ramp permits for BASF employees be extended from eighteen (18) to thirty (30), and

WHEREAS, on September 20, 1993, the City Council authorized the increase in the total number of boat ramp permits for use by BASF employees from eighteen (18) to thirty (30) on a one-year trial basis, and

WHEREAS, on March 29, 1995, BASF Corporation has requested that this request for thirty (30) permits be extended.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

1. The BASF Corporation is hereby granted an increase in the total number of boat ramp permits for use by BASF employees from eighteen (18) to thirty (30) on a one year basis.
2. The application and issuance of these boat ramp permits shall be in accordance with all requirements of the Riverview City Code and upon payment of the appropriate fees specified for this purpose.

Resolved by Councilman Weeks, supported by Councilwoman Blanchette, that the following Resolution addressing the Guidelines for Implementation of the Yard Waste Ban Program be adopted effective June 1, 1995. Further, Option 2 be adopted with the deletion of the second employee from the expenses.

WHEREAS, the State of Michigan prohibits landfills from accepting yard waste;

WHEREAS, this prohibition requires that all yard waste, as defined in this resolution, be separated from other waste created by Riverview residents, and

WHEREAS, the City Administration has investigated the options available to the City for implementing a program which would allow its citizens to dispose of their yard waste and that the recommendations regarding such programs have been presented to the City Council; and

WHEREAS, the City Council desires to adopt a program which complies with the state law, is in the best interests of the citizens of Riverview and remains within the financial capability of the City;

NOW, THEREFORE, BE IT RESOLVED that the following yard waste disposal system shall be implemented, effective June 1, 1995;

1. Yard waste shall be defined as grass clippings, leaves, garden debris, shrubbery, brush, and tree trimmings.
2. A yard waste drop-off center shall be established at the City of Riverview Landfill. The entrance to this yard waste drop-off center shall be the landfill entrance located at Grange and King Roads. The center shall be in operation from April 1 through November 30 of each year, Monday through Saturday, 9:00 a.m. to 5:00 p.m.
3. Each citizen shall bring his/her yard waste to the center during the appropriate times. No yard waste may be placed with regular household rubbish for pick up.
4. To utilize the yard waste drop-off center, each resident shall be issued a windshield sticker. The stickers can be obtained at the yard waste drop-off center office. Each household within the City shall received two reusable mesh bags at no charge. Additional bags may be obtained for a fee at the yard waste drop-off center office. These bags have been specially designed for use with yard waste. Citizens may use other containers to deposit yard waste, however, all containers including plastic bags, must be retrieved by the residents and taken from the yard waste drop-off center.
5. The City Administration shall establish other rules and regulations which are necessary to implement this yard waste disposal system.
6. Each household within the City of Riverview shall receive a brochure describing the yard waste disposal system and identifying the City Department which will be responsible for the system.

RESOLUTIONS:

Resolved by Councilman Durand, supported by Councilman Weaks, that Council recess into Executive Session to discuss Pending Litigation on the Wayne County Downriver Collection System Project Plan involving the Wastewater Treatment Plant.  
Carried unanimously.

Council recessed at 9:23 P.M.

Council reconvened at 9:53 P.M.

Presiding: Mayor Rotteveel

Present: Councilman Durand, Koch, Lane, Weaks, Councilwoman Blanchette

Absent: Councilman Trombley

Resolved by Councilman Weaks, supported by Councilman Lane, that Council adopt the following Resolution, Version C, endorsing the Downriver Collection System Project Plan Supplement #2 with particular reference to the creation of additional Sewer Capacity at the Wyandotte Wastewater Treatment Plant as recommended by the City Manager, Special Counsel, and the City Engineer.

WHEREAS, The City of Riverview ("Riverview") is a member-community of the Wayne County Downriver Sewage Disposal System ("the System"), and as such is a party to a certain enforcement action entitled United States of America, et al. vs. Wayne County Michigan, et al. Civil Action number 87-70992, the Honorable Judge John Felkens, United States District Court, Eastern District of Michigan, Southern Division, which was instituted by the United States Environmental Protection Agency ("USEPA") and the Michigan Department of Natural Resources ("MDNR"), (collectively "the Agencies"), for the purpose of requiring the County of Wayne and the communities tributary to the Downriver Sewage Disposal

the United States Environmental Protection Agency ("USEPA") and the Michigan Department of Natural Resources ("MDNR"), (collectively "the Agencies"), for the purpose of requiring the County of Wayne and the communities tributary to the Downriver Sewage Disposal System, to make the necessary improvements to the System that would enable the County and the Communities to meet the requirements of the Federal Clean Water Act and the Michigan Water Resources Commission Act ("the Acts") and the applicable NPDES permits issued pursuant to said Acts and maintain eligibility for State Revolving Fund (SRF) assistance; and

WHEREAS, in order to meet the requirement of the Acts, the County and the communities tributary to the System prepared a certain Project Plan dated May 1, 1993 and Riverview prepared its own rehabilitation plan (collectively "the Project Plan") in cooperation with the Federal District Court Monitor, and the Agencies, and which Plan was approved by the Agencies, and became incorporated into a certain Consent Order entered May 12, 1994, in the above entitled cause; and

WHEREAS, the County and Riverview have determined that the Project Plan as adopted should be amended in order that the County and communities may more effectively and efficiently comply with the requirements of the Acts, meet the goals and purposes of the Project Plan, and comply with the aforesaid Consent Order, which proposed amendments to the Project Plan are incorporated by reference and made a part of this resolution and which are generally described in Exhibit A attached hereto; and

WHEREAS, it is necessary that all parties to the enforcement action including Riverview endorse the proposed amendments to the Project Plan in order to obtain the necessary approvals of the Agencies; and

WHEREAS, Riverview has been advised that as a result of the improvements being proposed, namely the addition of an aeration tank, that the capacity of the plant is proposed to increase from 146.5 MGD to 150 MGD, which will result in a corresponding reduction in the storage volume to be provided in the tunnel; and

WHEREAS, any such increased treatment capacity should be allocated in a fair and equitable manner in accordance with Exhibit B, attached hereto; and

WHEREAS, Riverview agrees that the aeration tank should be constructed in addition to the other improvements described in Exhibit A; and

NOW, THEREFORE, BE IT RESOLVED, that Riverview hereby approves the amending of the Project Plan as more particularly set forth in Project Plan Supplement Number Two and generally described in the attached Exhibit A.

BE IT FURTHER RESOLVED, that this resolution shall act as any necessary resolution required by the Agencies to effectuate the changes set forth in Exhibit A.

BE IT FURTHER RESOLVED, that approval of this resolution and construction of the improvements are specifically conditioned upon the following:

- a. Written confirmation by Wayne County that a member-community in the System is permitted, and will

Michigan Department of Natural Resources that purchase of capacity a member-community in the known and existing 146.5 MGD at the Plant will be added to the purchaser's capacity for all purposes, including the determination of whether the purchaser needs to participate in the storage tunnel, in the same manner as local remedial measures.

BE IT FURTHER RESOLVED that the Mayor is authorized to execute any needed amendments to the Consent Order consistent with this resolution, subject to approval by the City Manager and Special Counsel.

## EXHIBIT A

## SUMMARY OF PROJECT PLAN

## SUPPLEMENT NO. 2

1. Supplemental data on the proposed wastewater treatment plant expansions as required by MDNR for loan approval;
2. Two proposed alternatives to a new outfall (in order of preference) which, if acceptable to MDNR and U.S. EPA under the terms of Section 6.A (viii) of the Consent Decree would allow for shared utilization of the Southgate-Wyandotte District No. 5 facility for peak flow events (in lieu of a new outfall) at substantial cost savings to the System;
3. An accelerated schedule for design and construction to improve the opportunity for additional SRF loan funding of portions of the storage transport component which are non-flow dependent;
4. Construction of a new 25 MGD aeration tank to eliminate the stress test requirement in Section 6.A (vi) of the Consent Decree, expand the plant capacity to 150 MGD and allow for a corresponding reduction in the storage volume to be provided in the tunnel.

RESOLUTIONS:

Resolved by Councilman Weeks, supported by Councilman Lane, that Council adopt the following Resolution establishing the 1995/96 Recreation Program Fee Schedule effective JULY 1, 1995.

WHEREAS, the City code requires formal adoption of all fees; and  
WHEREAS, the City Council annually reviews and approves a fee schedule for the Recreation department; and  
WHEREAS, a study of regional recreation fee structures has been concluded by the Recreation Director and reviewed by the Recreation Commission; and  
WHEREAS, the City Council has determined that the fees set forth herein are appropriate;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview that:

1. It is the general policy that the Recreation Department will recover one hundred percent (100%) of wage/supply costs for adult programming, and fifty percent (50%) of wage/supply costs for youth and senior citizen programming.
2. The following fee schedule is, hereby, adopted:

**Section B: NON-RESIDENT FEES**

Youth Non-Residents: Programs and leagues will be opened for non-resident enrollment when space is available and an additional cost of \$3.00 per program.

Adult Non-Residents; Programs will be opened for non-resident enrollment at an additional cost of \$5.00 per program. Recreation leagues allow non-resident enrollment at an additional cost of \$20.00.

**Section C: CONTRACTED SERVICES**

The Recreation Department contracts out special programs and events (i.e. Holiday Hoopla, Country Line Dance, Summer Basketball Camp). The department will require 10% of the program cost as standard fee for any contracted recreation program or special event.

**Section D: ASSOCIATIONS**

The Associations set their own registration fees. The Recreation Department does collect late registration fees, when requested, as a service to participants.

Section E: RATE REVIEWS

The Riverview Recreation Commission shall review annually all program and league fees proposed by the Recreation Director. Those fees will then be forwarded to the City Council for formal adoption, annually, in May.

3. The Recreation Director, with the approval of the City Manager, has the authority to set fees within the range and to pro-rate fees for late program entry.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Trombley, that the following Resolution Amending the 1994-1998 Capital Improvement Program be adopted.

WHEREAS, the City Council adopted the 1994-1998 Capital improvement Program on June 6, 1994; and,

WHEREAS, a local match of \$52,250.00 was reserved within the 1994/95 Capital Improvement Budget in order to effectively submit a grant application to the Michigan Department of Natural Resources for the extension of the pathway system at Young Patriots', Memorial, McShane, Vreeland, and Glens Parks; and

WHEREAS, the Michigan Department of Natural Resources notified the City of Riverview on January 12, 1995, of their decision to deny funding for the aforementioned project; and,

WHEREAS, the Michigan Department of Natural Resources' negative funding decision rendered the locally appropriated matching funds as non-committed for a fully funded project; and,

WHEREAS, the Recreation Commission, "Play Selection Committee" and administrative staff developed and evaluated alternative strategies to retain the original recreational focus and benefits of the \$52,250.00 of the 1994/95 funding; and

WHEREAS, the strategy to utilize the \$52,250.00 of recreational funding to finance the American With Disabilities Act (ADA) pathway component of the city-wide playground program was determined to be the most appropriate and effective use of these local funds; and

WHEREAS, this strategy also capitalizes and extends the benefits of a city-wide recreational program which heretofore was limited to the amount of annual federal funding received by the City of Riverview through the Community Development Block Grant (CDBG) program; and

WHEREAS, on April 24, 1995, the Project Manager, Project Engineer, affected administrative staff, and the "Play Selection Committee" endorsed the strategy to apply the \$52,250.00 to the city-wide playground program; and

WHEREAS, on April 25, 1995, the Recreation Commission recommended that the City Council consider the same financing strategy for the \$52,250.00

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

1. The City Council hereby amends the 1994-1998 Capital Improvements Plan to reflect the reallocation of the \$52,250.00 of the 1994/95 local grant-matching

recreation funds to be used in the 1994/95 city-wide playground project.

2. The City Council directs the City Manager to make the appropriate adjustments in the 1994-1998 Capital Improvements Program.

Carried unanimously.

#### PROPOSED ORDINANCE #434

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW, BY REPEALING SECTIONS 6-36, AND 6-36.1, OF DIVISION 1. GENERALLY, ARTICLE III ELECTRICAL CODE OF CHAPTER 6, BUILDING AND BUILDING REGULATIONS, AND TO ADD NEW SECTIONS 6-36, 6-36.1, 6-36.2 6-36.3, AND 6-36.4, NATIONAL ELECTRICAL CODE (1993) ADOPTED BY

REFERENCE, TECHNICAL AMENDMENTS TO THE 1993 EDITION OF THE NATIONAL ELECTRICAL CODE, GENERAL RULES AS RECOMMENDED BY THE RECIPROCAL ELECTRICAL COUNCIL, INC. WITH THE EXCEPTION OF ARTICLE 8: 800 CITATION SYSTEM AND 850 MINOR VIOLATIONS AND FINES, AND ADDING MINIMUM STANDARDS FOR EXISTING DWELLING UNITS AND PENALTY FOR VIOLATIONS.

THE CITY OF RIVERVIEW ORDAINS:

Section 6-36. National Electrical Code (1993) adopted by reference.

The National Electrical Code, 1993 Edition as adopted by the National Fire Protection Association is hereby enacted and adopted by reference pursuant to authorization of statute being Act 230 of P.A. 1972, MSA 5.2949(8); CL of 1948, Section 117.3K, MSA 5.2073 (k). The enforcement of said Code shall be administered by the Riverview Municipal Building Department as provided further under this Article. Copies of such National Electrical Code shall be kept on file in the office of the city clerk and shall be available for inspection by the public.

Section 6-36.1 Technical amendments to the 1993 Edition of the National Electrical Code.

The National Electrical Code 1993 Edition and certain rules supplementary hereto, being identified as the technical Amendments to the 1993 Edition of the National Electrical Code, as heretofore promulgated by the Nation Fire Protection Association, are hereby adopted by reference thereto, with the same force and effect as if fully set forth herein and all electrical work and construction within the City of Riverview shall conform to such provisions and regulations; provided further that the provisions and regulation of such revised code and the rules supplementary thereto are not in conflict with any of the provisions of the State Construction code. The enforcement of said amendments shall be administered by the Riverview Municipal Building Department as provided further under this article. Copies of such Technical Amendments shall be kept on file in the Office of the City Clerk and shall be available for inspection by the public.

Section 6-36.2. General Rules as Recommended by the Reciprocal Electrical Council, Inc.

The General Rules as recommended by the Reciprocal Electrical Council, Inc., with the exception of Article 8: 800 Citation System and 850 Minor Violations and Fines, are hereby adopted by reference thereto, with the same force and effect as if fully set forth herein and all electrical work and construction within the City of Riverview shall conform to such provisions and regulations. The enforcement of said Rules shall be administered by the Riverview Municipal Building Department as provided further under this article. Copies of such Rules shall be kept on file in the Office of the City Clerk and shall be available for inspection by the public.

Section 6-36.3. Minimum Standards for Existing Dwelling Units.

If visual inspection by the authority having jurisdiction reveals that the wiring system of an existing dwelling unit is inadequate, or if code certification for any reason is required or requested, the following minimum standards shall be complied with:

- (a) Entrances and Exits. Where two (2) or more entrances and or exits exist, at least two (2) shall be illuminated by exterior lights. Exterior lights shall be controlled by interior wall switches, located for convenient and readily accessible use.
- (b) Living Room. The living room shall be provided with a conveniently located wall-switch-controlled light or receptacle.

The switched receptacle may be one of the required receptacles in the room. Duplex receptacles shall be equally spaced around the walls of the room, one duplex receptacle on each wall; unless the spacing requirements of Section 210-52(a) of the N.E.C. (N.E.P.A. 70) are met.

- (c) Kitchen. The kitchen shall be provided with illumination. The required illumination shall be controlled by a wall switch.

A separate kitchen appliance circuit shall be provided, supplying a minimum of three (3) grounding-type duplex receptacle outlets. The grounding contacts of these receptacles shall be grounded. Two (2) of these receptacles shall be readily accessible and spaced for convenient use of portable appliances. New appliance circuits shall be 20 ampere capacity.

(F.P.N.): G.F.C. I protection shall not be used as a substitute for grounding with kitchen receptacles.

- (d) Bathroom. Bathrooms shall be provided with illumination, controlled by a conveniently located wall switch. A receptacle separate for a light fixture shall be provided. All bathrooms receptacles shall have F.F.C.I protection.

- (e) All Other Habitable Rooms. Habitable rooms shall be provided with a conveniently located wall-switch-controlled light of receptacle. A minimum of two (23) additional duplex receptacles are required, equally spaced around the room.

- (f) Basement. The basement shall have a minimum of one lighting outlet for general illumination. All enclosed areas that may be walked into (except coal bins) shall be provided with a lighting outlet.

- (g) Laundry Area. Laundry areas shall be provided with illumination. A grounding-type duplex receptacle shall be provided adjacent to the laundry equipment, on a separate circuit. New laundry circuits shall be 20 ampere capacity.

- (h) Space Heating System. Heating equipment that requires electricity for operation of any facet shall be provided with an individual circuit. A disconnect switch shall be provided on or adjacent to the equipment (Exception: Thermo-pile controlled furnaces.)

- (i) Stairwells. Stairwells shall be adequately illuminated. Lighting outlets shall be controlled by wall switches. Switches shall not be located where it is necessary to use darkened stair sections for their operation. Stairwells connecting finished portions of dwellings shall be provided multiple-switch control; one at the head and the other at the foot of the stairwell.

- (j) Service and/or feeder. The service or feeder to an existing dwelling unit shall be a minimum of three-wire, one hundred ampere capacity. Service equipment shall be dead front, having no live parts exposed whereby accidental contact could be made. All plug type fuses shall be Type S.

Exception: An existing properly installed fifty-five ampere capacity, three-wire service and feeders of thirty ampere, two wire are acceptable if adequate for the load being served.

- (k) Existing Wiring and Equipment. Existing wiring and equipment shall be in good repair. Circuit extensions made with flexible cord wiring in lieu of permanent wiring shall be eliminated.

- (l) New-Wiring. All new work shall conform to the National Electric Code as amended.

- (m) Evidence of Inadequacy. Any of the following shall be considered evidence of inadequacy.
- Use of cords in lieu of permanent wiring.
  - Oversizing of overcurrent protection for circuits, feeders or service.

- c. Unapproved extensions to the wiring system in order to provide light, heat, or power.
- d. Electrical overload.
- e. Misuse of electrical equipment.
- f. Lack of lighting fixtures in bathrooms, laundry rooms, furnace room, stairway or basement

#### Section 6-36.4 Penalty.

Violations of this Electrical Ordinance or of the Rules shall require the filing in district court of a misdemeanor violation by the Electrical Inspector.

This ordinance shall be effective upon publication as provided by law.

**RESOLUTIONS:**

Resolved by Councilman Durand, supported by Councilman Weak, that Council adopt the following Resolution approving the 1995/96 Compensation and Classification Plan effective July 1, 1995 for employees of the City excluding any employee who received an increase by Council action on April 17, 1995 pending further report from the City Manager.

WHEREAS, Section 17.1(d) of the Riverview City Charter provides for the city manager to develop a pay and classification plan; and

WHEREAS, Section 5.10(a) of the Riverview City Charter provides for the compensation of all officers and employees of the city within the limits of budget appropriations and in accordance with any pay plan adopted by the City Council; and

WHEREAS, the city manager has presented a pay and classification plan for the 1995/1996 fiscal year; and

WHEREAS, the proposed pay plan is within the limits of the 1995/1996 budget adopted by the city council; and

WHEREAS, the proposed pay plan represents the compensation of city employees as of July 1, 1995.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview that the pay and classification plan attached hereto is hereby approved for the 1995/1996 fiscal year; and

BE IT FURTHER RESOLVED, that the city manager is authorized to reclassify positions and amend the pay and classification plan with approved budget appropriations and in accordance with approved collective bargaining and employment agreements and arbitration awards.

Resolved by Councilman Durand, supported by Councilman Trombley, that Council endorse a Resolution concerning the request from Stray Cat, Inc., 18571 Fort, for a new entertainment permit to be held in conjunction with the 1994 Class C license business with dance permit to allow for Fashion Shows at said establishment as endorsed by staff.  
 Ayes: Mayor Rotteveel, Councilmen Durand, Lane, Trombley, Weeks, Councilwoman Blanchette  
 Nays: Councilman Koch  
 Motion carried.

Resolved by Councilman Weeks, supported by Councilman Lane, that Council adopt the following Resolution Supplement #3 Judgement relative to the Wayne County Sewer Remediation Program increasing the City's share by \$32,066.00 correcting the amounts in Supplements #1 and 2.

WHEREAS, the City Council of the Downriver Community passed a resolution (the "Resolution"), approving, ratifying and confirming the Financing Plan and Final Judgment (the "Judgment") and authorizing and directing the Mayor and Clerk to execute and deliver the same to Wayne for and on behalf of this Downriver Community. Capitalized terms not otherwise defined herein shall have the meanings given them in the Resolution and the Judgment; and

WHEREAS, the City Council of the Downriver Community passed resolutions approving, ratifying and confirming the Supplement #1 Judgment and the Supplement #2 Judgment; and

WHEREAS, Wayne, in accordance with law, including but not limited to Act 185 and Act 320, will notice for entry Supplement #3 to the Judgment (the "Supplement #3 Judgment") in the Federal Court Action; and

WHEREAS, the purpose of the Supplement #3 Judgment (including Exhibit C3 attached thereto) is to revise and supersede Exhibit C1 (attached to and made a part of the Supplement #1 Judgment) and Exhibit C2 (attached to and made a part of the Supplement #2 Judgment). Exhibit C3 to the Supplement #3 Judgment revises and updates

project costs and allocations of costs for the Improvements described in Exhibit C3 (the "Supplement #3 Improvements").

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Approval of the Supplement #3 Judgment. The Mayor and the Clerk are hereby authorized and directed to execute and deliver the Supplement #3 Judgment in substantially the form attached hereto, with such modifications thereto as determined necessary by the Mayor and the Clerk, for and on behalf of the Downriver Community.
2. Declaration of Intent to be Reimbursed and Allocation Under Section 265(b)(3)(C)(iii) of the Code. The Downriver Community affirms and declares its official intent to finance its Local Share of the cost of the Supplement #3 Improvements with bonds that have been issued or will be issued by Wayne in a maximum principal amount not to exceed the "Project Total" column set forth on the row(s) for such Downriver Community on Exhibit C3 to the Supplement #3 Judgment, which amount(s) shall be allocated to the Downriver Community for purposes of Section 265(b)(3)(C)(iii) of the Internal Revenue Code of 1986, as amended. The Downriver Community further affirms and declares that it reasonably expects to be reimbursed by Wayne, without interest, for advances made by it towards the cost of the Supplement #3 Improvements. The Downriver Community, at the present time, has determined that there are no funds from sources other than the bonds anticipated herein that are reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside by it, or by any member of a controlled group (as defined in Treasury Regulation Subsection 1.150-1(e)) in which it is a member, if any, pursuant to its budget or financial policies with respect to the expenditures for the Supplement #3 Improvements expected to be reimbursed from the proceeds of the bonds.
3. Authorization To Take Other Actions. The Mayor, the Clerk and all other officials of the Downriver Community shall take all other actions and execute such other documents as they may consider necessary or appropriate in accordance with this resolution.
4. Payment of Judgment Payments. The Downriver Community acknowledges that, unless otherwise paid in cash by September 15, 1995, the Assessing Officer of the Downriver Community is required by the Judgment to assess taxes on the taxable property of the Downriver Community on the Levy Date of December 1, 1995, in an amount sufficient to pay the Judgment Payments set forth in the attached schedule of Proposed 1996 Judgment Payment Millage Levy Rates (or such other schedule of 1996 Judgment Payment Millage Levy Rates as may be determined by Wayne). The treasurer or collecting officer of the Downriver Community shall pay such Judgment Payments to Wayne as such amounts are collected.
5. Other Resolutions Rescinded. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Carried unanimously.

#### PERSONS IN THE AUDIENCE:

Mayor Rotteveel asked if anyone wished to address Mayor and Council.

#### RESOLUTIONS:

Resolved by Councilman Lane, supported by Councilwoman Blanchette, that Council adopt the following Resolution supporting House Bill 4952 - to Combine Wayne County Circuit Court and Detroit Recorder's Court.

- WHEREAS, under existing court rules, all residents of the County of Wayne are within, and subject to, the jurisdiction of the Judges of the Detroit Recorder's Court; and
- WHEREAS, only voters of the City of Detroit may elect the twenty-nine Judges that sit on the Detroit Recorder's Court bench; and
- WHEREAS, all voters in the County of Wayne, including voters in the City of Detroit, may elect the thirty-five Judges that sit on the Wayne County Circuit Court bench; and
- WHEREAS, under existing court rules, all Detroit Recorder's Court Judges as considered "Circuit Level" Judges, their powers being equal to Wayne County Circuit Court Judges; and
- WHEREAS, it is a violation of the principle of "one person, one vote" for voters in the City of Detroit to elect all sixty-four "circuit level" Judges where other communities in the County of Wayne may only elect thirty-five of those Judges, and
- WHEREAS, the Wayne County Circuit Court is a Court constituted by Article VI, Section 11 of the Constitution of the State of Michigan of 1963, and
- WHEREAS, the Detroit Recorder's Court is a Court established by simple statute and has exceeded its jurisdiction as prescribed in its enabling legislation; and
- WHEREAS, the abolition of the Detroit Recorder's Court with the simultaneous transfer of its Judges to the Wayne County

Circuit Court would allow all voters in the County of Wayne to vote for all sixty-four "Circuit Level" Judges; and

WHEREAS, a unified Circuit Court in the County of Wayne would conform with Article VI, Section 11 of the constitution of the State of Michigan of 1963, and would bring to the County of Wayne the same judicial configuration as the rest of the State of Michigan.

NOW, THEREFORE, BE IT RESOLVED that the city of Riverview, Michigan, does hereby offer its support to House Bill 4952, currently in the Michigan House of Representatives Judiciary Committee, which would abolish Detroit Recorder's Court and transfer its Judges to the Wayne County Circuit Court bench; and

BE IT FURTHER RESOLVED, that the City Clerk shall transmit copies of this resolution to State Representative Joseph Palamara and State Senator Christopher Dingell, to Michigan Governor John Engler, and to State Representative Michael Nye and to State Senator William Van Regenmorter, to show the City of Riverview's support for House Bill 4952.

Carried unanimously.

**RESOLUTIONS:**

Resolved by Councilman Weaks, supported by Councilman Durand, that the following Resolution granting a Permanent Utility Easement for Detroit Edison on Lot #15 Chapman Penn Road Farms Subdivision located near Grange and Homeister Court be adopted.

WHEREAS, the development of Lots #16-19, Chapman Penn Road Farms Subdivision for individual single family homes has prompted a property owner's request for the underground installation of electrical power to be provided by Detroit Edison; and,

WHEREAS, Detroit Edison is willing to consider the conversion of its overhead electrical service to underground service, pursuant to the requirements of Chapter 22, Article I, Division 3, Section 22-49, City of Riverview Code of Ordinances; and

WHEREAS, the Village of Riverview granted an easement for the installation of overhead electrical power service to Detroit Edison in 1951; and,

WHEREAS, the proposed permanent easement to Detroit Edison has the same dimensions as the 1951 easement and will accommodate the need for Detroit Edison to convert the existing overhead utility service to that of an underground utility service; and,

WHEREAS, the City of Riverview owns Lot #15, Chapman Penn Road Farms Subdivision; and

WHEREAS, the granting of a permanent ten (10) foot underground utility easement in accordance with the provisions of the proposed easement document No. R-9407528-01R for Lot #15, Chapman Penn Road Farms Subdivision is necessary to accomplish the installation for underground utility service for lots #15 - 19, Chapman Penn Road Farms Subdivision; and,

WHEREAS, the granting of the utility easement, as described in R-9407528-01R, does not appear to present a disadvantage to the City of Riverview or the owners of Lots #16-19, Chapman Penn Road Farms Subdivision;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, that the permanent underground utility easement, as described by R-9407528-01R, be approved and that the City Council authorize the Mayor and City Clerk to sign and execute the aforementioned easement on behalf of the City of Riverview.

Carried unanimously.

**ADMINISTRATION:**

Resolved by Councilman Durand, supported by Councilman Trombley, that the following Resolution authorizing the City Manager to establish a Tubing Complex as a Recreational Activity for 1995/96 be adopted. Further, the 1995/96 Budget be amended with a report regarding the state of physical and operating conditions to be submitted to Council within the next two weeks.

WHEREAS, in the adoption of the 1995-96 annual budget for the City of Riverview, the Riverview City Council established a \$387,000 reserve in the Ski Area fund to suspend full ski operations for the 1995-1996 fiscal year until submission of a ski area financial assessment by the auditing firm of Plante and Moran, and

WHEREAS, Plante and Moran submitted the document entitled "City of Riverview Financial Analysis of Alternatives for the Ski Hill, August, 1995" for examination and further study, and

WHEREAS, based upon the findings in this report, the City Manager advanced recommendations to the City Council to terminate ski operations for the 1995-96 winter season and to substitute the creation of a new Riverview Highlands Tubing Complex, and

WHEREAS, the establishment of the Riverview Highlands Tubing Complex as a new recreational activity is deemed to be an appropriate enhancement to the Riverview Highlands Recreational Complex, and

WHEREAS, the Riverview City Council supports the creation of this alternative winter recreational use on a one-year experimental basis to facilitate further study on the long term planning for the Ski Area Department,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

1. The City Manager is hereby authorized and directed to establish the Riverview Highlands Tubing Complex as a recreational activity of the Ski Area Department for the 1995/96 winter season.
2. The City Manager is further directed to conduct a full analysis of the viability and performance of the winter recreational activity for report to the City Council by April 1, 1996, for the purpose of budget deliberations on the 1996/97 annual budget.
3. It is fully affirmed and supported that the creation of this new recreational activity be widely announced and promoted in the Downriver area, the Detroit Metropolitan area, and surrounding environs as a major new recreational enhancement for the State of Michigan.
4. The corresponding budget amendment to support this new recreational activity, attached hereto as Exhibit 1, and dated October 11, 1995 is hereby approved.

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW BY AMENDING SECTION 2-46 ENTITLED "FIRE DEPARTMENT" OF CHAPTER 2 ENTITLED "ADMINISTRATION" TO AUTHORIZE THE FIRE CHIEF AND FIRE MARSHAL TO ISSUE AND SERVE APPEARANCE TICKETS

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE I. Adoption. That Section 2-46 of Chapter 2 be amended to read as follows:

Section 2-46. Fire Department.

(a) The fire department shall be under the supervision of the Fire chief, who shall be charged with the prevention and extinguishment of fires, the protection of life and property against fire, and the removal of fire hazards. The fire chief shall be responsible for the maintenance and care of all property used by the fire department.

(b) The fire chief and fire marshal are authorized to issue and serve appearance tickets with respect to misdemeanor violations of the city's ordinances related to fire protection and prevention. As used in this section, the term "appearance ticket" means a complaint or written notice issued and subscribed by a public official directing a designated person to appear in district court. The form and content of the appearance ticket shall comply with the requirements of state law.

ARTICLE II. Penalty: A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

ARTICLE III. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE IV. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

ARTICLE V. Reading and Publication: This Ordinance shall be given a first reading on September 18, 1995, shall be given a second reading on October 2, 1995, third reading on October 16, 1995, and shall be adopted on October 16, 1995 and shall be published and become effective as provided by law. RESOLUTIONS:

Resolved by Councilman Weak, supported by Councilman Lane, that the Resolution establishing the Strategic Plan Implementation Committee, and authorizing the Dissemination of Public Information for the Implementation of the Strategic Plan be adopted as follows:

WHEREAS, in providing for a comprehensive update to the City of Riverview Master Plan, and upon the recommendation of the Planning Commission, the City Council retained the planning consulting firms of Vilican, Leman and Associates and Creating The Future, Inc. for this purpose. These firms were charged in part with the responsibility to conduct a strategic planning and community visioning process for the Riverview community; and,

WHEREAS, in October, 1994, a series of citizen task forces were created to focus community attention and awareness to the preferred future of the Riverview community; and,

WHEREAS, a total of 63 citizens were actively engaged in the development of mission statements, vision statements, and goals and implementation strategies for each of the following strategic plan task forces:

- Master Plan
- Quality of Life
- Economic Vitality
- City Services
- Life Cycle Literacies
- City Enterprises
- Intergovernmental Cooperation

and,

WHEREAS, the final report of the strategic planning task forces was presented and highlighted at a celebration event for the strategic planning and visioning process held at the Riverview Municipal Building on October 22, 1995; and,

WHEREAS, the Strategic Plan Steering Committee has recommended the creation of the Strategic Plan Implementation Committee to advise and assist the City Council in the future dialogue and integration of the document, "Riverview 2020: Community Visioning and Strategic Plan" into the annual City of Riverview Strategic Plan.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

- (1) There is hereby established the Strategic Plan Implementation Committee. The Committee shall consist of:
  - (a) eight citizen representatives serving the interests of the original eight task forces respectively,
  - (b) three citizen representatives at-large

- (c) one member from the Economic Development Corporation,
  - (d) one member from the City of Riverview employees
  - (e) two members from the Riverview City Council
  - (f) one member from the Riverview School Board, and
  - (g) a junior level and senior level student from a Riverview high school.
- (2) All appointments and filling of vacancies on this Committee shall be approved by the City Council. The prescribed term of office on this Committee shall be for three years, excepting the City Councilmembers which shall be for two years, the Riverview School Board representative which shall be for two years, and the junior level and senior level students which shall be for one year. Each Committee member shall serve until his successor is duly selected and qualified. If a vacancy shall occur on this Committee, the position shall be declared vacant and a replacement to serve for the balance of the term shall be appointed in the same manner as the original appointments. The Chairman of the Committee shall be chosen by the Committee every three years.
- (3) The Committee shall meet at the call of the Chairman, but no less than quarterly.
- (4) The duties and responsibilities of the Committee shall be as follows:
- a) It shall consider and recommend to the City Council the annual prioritization of goals and implementation strategies for accomplishment of the City of Riverview Strategic Plan. This annual prioritization, as well as all other formal communications to the City Council, shall be forwarded through the City Manager. The annual prioritization report shall be delivered in February in advance of the City of Riverview budget process and the annual readoption of the City of Riverview Strategic Plan by the City Council. The first prioritization report is requested by February, 1996.
  - b) It shall document and recommend from time to time the establishment of new goals and implementation strategies associated with the City of Riverview Strategic Plan for information to the City Council.
  - c) It shall, in accordance with budgetary support for this purpose, recommend all public information documents highlighting the status of the Strategic Plan implementation process to the City Manager.
- (5) The majority of the members of the Committee shall constitute a quorum for the transaction of business.
- (6) The City Council and City Manager may initiate recommendations for proposed goals and implementation strategies for review and consideration by the Committee.
- (7) The City Manager or his designee shall be directed with the responsibility of providing administrative support for the successful accomplishment of the work of the Committee. All expenditures of the Committee shall be consistent with budgetary appropriations and shall be accomplished under the purchasing regulations of the City of Riverview.
- (8) The term of the Committee shall be for six years through October 31, 2001. No later than the end of the fifth year of this term, the City Council shall consider commissioning a successor community-based strategic planning and visioning process to continue the strategic planning implementation program.
- (9) All meetings of the Strategic Plan Implementation Committee shall be open to the public. The public shall be given opportunity to address the Committee under guidelines to be established by the Committee.

- (10) The Riverview City Council fully affirms and supports the establishment of the Strategic Plan Implementation Committee and encourages the continuing dialogue and deliberation on strategic planning and community visioning for the health and vitality of the Riverview community.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that the Resolution Certifying approval of Project Area Designation, Establishing Project District Area Boundaries and Appointing Additional Directors (FFE/Michigan Properties, Inc. Project) be adopted as follows:

WHEREAS, there exists in the City of Riverview, County of Wayne, Michigan (the "City") the need for certain programs to alleviate and prevent conditions of unemployment, to assist and retain local industrial and commercial enterprises in order to strengthen and revitalize the City's economy and to encourage the location and expansion of industrial and commercial enterprises to provide needed services and facilities to the City and its residents; and

WHEREAS, a program to alleviate the aforesaid conditions and accomplish said purposes through financing of the acquisition and renovation of an existing nursing home facility by FFE/Michigan Properties, Inc. (the "Project") has been initiated by The Economic Development Corporation of the City of Riverview (the "EDC"); and

WHEREAS, the EDC in conformity with Act No. 338, Public Acts of Michigan, 1974, as amended ("Act No. 338"), has designated the hereinafter described project area for such a program to this City Council for its approval thereof; and

WHEREAS, it is also necessary for this City Council to establish project district area boundaries; and

WHEREAS, it is also necessary for this City Council to approve the appointment of two additional directors to the Board of Directors of the EDC pursuant to the provisions of Section 4(2) of Act No. 338; and

WHEREAS, the EDC has indicated that it will consider approval of a Project Plan in the near future which Project Plan would authorize the EDC to issue bonds (the "Bonds") to defray the costs of the Project; and

WHEREAS, pursuant to Act No. 338 and the Internal Revenue Code of 1986, as amended, it is necessary to hold a public hearing concerning the Project, the Project Plan and the Bonds proposed therein to be issued by the EDC, prior to taking legislative action relating to the Project and the Bonds;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. This City Council does hereby certify its approval of the EDC's designation of the project area described in Exhibit A hereto attached.
2. This City Council does hereby establish as a project district area the property described in Exhibit B hereto attached.
3. This City Council does hereby certify its approval of the individuals listed on Exhibit C as additional Directors of the EDC to serve in conformity with the provisions of Section 4(2) of Act No. 338.
4. It is hereby determined that the requirements of

- Section 20 of Act No. 338 have been met and that the formation of a project citizens district council is not required.
5. This City Council shall meet on December 18, 1995 at 7:30 o'clock p.m., at which time it shall conduct a public hearing on the Project Plan and the issuance by the EDC of the Bonds.
  6. The City Clerk be and is hereby directed to give notice of such public hearing by (1) publishing a notice thereof in the News Herald, a newspaper of general circulation in the City; (2) posting in at least ten (10) conspicuous and public places in the project district area; and (3) mailing to the last known owner of each parcel of real property in the project district area at the last known address of the owner as shown by the tax assessment records, which notices shall be published and given at least fourteen (14) full days prior to the date set for said hearing.
  7. Said notice shall be in substantially the following form:

OFFICIAL NOTICE TO THE CITIZENS OF THE CITY OF RIVERVIEW OF PUBLIC HEARING TO CONSIDER APPROVAL OF A PROJECT PLAN AND THE ISSUANCE OF THE BONDS PROPOSED THEREIN AS SUBMITTED TO THE CITY COUNCIL BY THE ECONOMIC DEVELOPMENT CORPORATION OF THE CITY OF RIVERVIEW FOR THE BENEFIT OF FFE/MICHIGAN PROPERTIES, INC.

PLEASE TAKE NOTICE that pursuant to Act 338 of the Public Acts of Michigan of 1974, as amended, The Economic Development Corporation of the City of Riverview (the "EDC") has submitted a project plan to the City Council for its approval.

Said project plan deals with the acquisition and renovation of a skilled nursing facility located on a project area or site in the City of Riverview, Wayne County, Michigan, described as follows:

The Riverview Highlands Director is approved, at his discretion, to compliment on a professional basis use of the facility at no cost individuals from the tubing and Ski industry with reporting to the Manager and City Council.

The Riverview Highlands Director is empowered to decide on the opening and closing of the facility based on weather conditions, snow conditions and other factors which may enter into the decision, with reporting to the City Manager and Council.

The Riverview Highlands Director is approved to increase or decrease the length of time the facility is open each day and is allowed to increase or decrease the number of days open depending on the number of customers, snow conditions, and other factors which may enter into the decision. The change of hours of operation must be approved by the City Manager before being put in place.

The Mayor and Council will be provided 10 passes each to be distributed at their discretion for the purpose of promoting the Tubing complex to potential customers.

Employees working for Tubing Complex may use the facility free of charge when not on duty. Paying customers shall have priority.

The Riverview Highlands Director, with the approval of the City Manager is allowed to offer special promotion rates during periods of minimal use by customers but never less than half the approved rate per individual. This includes two for the price of one specials normally offered at the end of the season and promotional passes distributed by the Riverview Highlands Director.

Riverview Highlands will honor 2 for the price of 1 ski coupons for snow tubing during the 1995/96 winter season as a measure of good will towards customers who have bought coupon books listing Riverview Highlands Ski Areas as an active ski facility.  
Carried unanimously.

Resolved by Councilman Lane, supported by Councilwoman Thiede, that the Resolution Rescinding the Proposal Award to Motorola, Inc. for the Communication Tower Management Services, be adopted as follows:

- WHEREAS, the City of Riverview is the owner of a three hundred and twenty foot (320') telecommunications tower located on municipally-owned property within the Riverview Highlands complex; and
- WHEREAS, the City of Riverview is desirous of maximizing the revenue potential of this municipal asset through the rental of space on the tower and within the dedicated equipment storage facility; and,
- WHEREAS, a Request for Proposal for Tower Management Services was initiated on 2/6/95; and
- WHEREAS, City Council awarded on 5/15/95 the assignment of Telecommunications Tower Management to Motorola, Inc., subject to direct negotiations of a performance based contract; and
- WHEREAS, due to scheduling conflicts, the initial direct negotiations with Motorola, Inc. were commenced at a meeting in the City of Riverview on 6/13/95; and,
- WHEREAS, a proposed "Business Plan" and a standard corporate contract was submitted at the meeting on 7/11/95 by Motorola, Inc. for municipal review; and,
- WHEREAS, anticipated performance issues and concerns of interest to the City of Riverview were consistently under-represented in the proposed "Business Plan" and within standard corporate contract provided by Motorola, Inc., the City of Riverview was required to develop a contract predicated upon relevant performance standards prevalent within regional marketplace; and,
- WHEREAS, the performance based contract developed by the City of Riverview was submitted to Motorola, Inc. for review and comment on 11/3/95; and
- WHEREAS, the review comments and the requested amendments advanced by Motorola, Inc. significantly reduce or eliminate the performance standards proposed by the City of Riverview; and,
- WHEREAS, the best interests of the City of Riverview would continue to be served by maintaining the integrity of a performance based contract for telecommunications tower management as directed by City Council's 5/15/95 resolution of award; and,

WHEREAS, the status of direct negotiations and contract document development with Motorola, Inc. for telecommunications tower management has not generated an acceptable performance based agreement.

NOW, THEREFORE, BE IT RESOLVED by the City of Council of the City of Riverview, Riverview, Michigan that;

- 1) the City Council resolution made on 5/15/95 regarding the award of the management services for the municipally owned telecommunications tower to Motorola, Inc. be rescinded; and,
- 2) a fee schedule for tenancy on the municipally-owned telecommunications tower be established as outlined on attached EXHIBIT A; and,
- 3) the City Manager be authorized to administer the Business Development Program for the telecommunications tower, which responsibilities will include, but may not be limited to those anticipated to have been developed by Motorola:
  - (a) conduct technical studies of the optimal design capacity and tenant/user mix for the telecommunications tower,
  - (b) establish operational, installation, and security standards for tenants and facilities,
  - (c) implement marketing activities,
  - (d) develop a standard tenant license agreement,
  - (e) conduct required technical analysis to determine compatibility of each potential tenant with all existing tenants on the tower,
  - (f) develop and integrate a billing and collection system,
  - (g) develop a periodic reporting system predicated upon performance achievements in the areas of revenue/tenant generation, marketing effort, technical and regulatory compliance, innovation/opportunity enhancements, and complaint resolutions.

PROPOSED ORDINANCE #446

AN ORDINANCE TO AMEND THE CODE OF ORDINANCE OF THE CITY OF RIVERVIEW, SECTIONS 2-171, 2-173, AND 2-174 OF ARTICLE V, PURCHASING MANUAL, UNDER CHAPTER 2, ADMINISTRATION, TO INCREASE THE DOLLAR AMOUNTS FROM \$5,000.00 TO \$7,500.00 TO WHICH CERTAIN FORMAL PROCUREMENT PROCEDURES APPLY

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE I. Amendment: That Sections 2-171, 2-173, and 2-174 are hereby amended to read as follows:

Section 2-171. Formal contract and open market procedure. All contractual services pertaining to public improvements or the maintenance of public property of the City when estimated costs thereof shall exceed seven thousand five hundred dollars (\$7,500.00) shall be purchased by formal written contract from the lowest responsible bidder, after due notice inviting proposals. All other expenditures for supplies, materials, equipment, or contractual services, when the estimated cost thereof shall exceed seven thousand five hundred dollars (\$7,500.00) shall be purchased by formal written contract or purchase order from the lowest responsible bidder after due notice inviting proposals, except that in cases where the prices bid are higher than prices available under contracts let by the State of Michigan, the City shall exercise the option of awarding its own contract or buying under terms of the state contract.

(1) Open market procedure. All purchases of supplies, materials, equipment, or contractual services of less than the estimated cost of seven thousand five hundred dollars (\$7,500.00) may be made in the open market without newspaper advertisement, without observing the procedure prescribed by this Section for the award of formal contracts and without prior consent by the City Council.

a. Minimum number of bids. All open market purchases shall, whenever possible, be based upon at least three (3) quotations from suppliers or contractors and shall be awarded to the lowest responsible supplier or contractor in accordance with the standards set forth in this Section.

b. Recording. The agent shall keep a record of all open market orders and the bids submitted in competition thereon, and such records shall also be opened to public inspection at all reasonable times.

c. Waiver of competitive bidding. The City Council may waive the requirement for competitive contractual bidding for the purchase of supplies, materials, equipment or contractual services when some materials feature or characteristic of the item or service sought to be purchased is unique and the purchasing agent has certified that said item or service sought to be purchased is unique and the purchasing agent has certified that said item or service is available from only one source. (Ord. No. 384, 12-16-91)

Section 2-173. Emergency purchases. The City Manager is authorized to make emergency procurements of twenty-five thousand dollars (\$25,000.00) or less without regard to the provision of competitive bid procedures whenever there exists a threat to public health, welfare and safety or a significant disruption of the operations of a department. Emergency procurement in excess of seven thousand five hundred dollars (\$7,500.00) shall be submitted to Council for ratification. (Ord. No. 384, 12-16-91)

Section 2-174. When sealed bids required: opening and award of bids. All purchases of, and all contracts in excess of seven thousand five hundred dollars (\$7,500.00), shall be based on competitive bids as set

forth in the purchasing manual. Solicitation of competitive bids shall be by publication in trade journals and/or local newspapers and the opening of such bids shall be specified as to place and time in the notice of invitation to bid. (Ord. No. 384, 12-16-91)

ARTICLE II. Penalty: A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

ARTICLE III. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE IV. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

ARTICLE V. Reading and Publication: this Ordinance shall be given a first reading on October 2, shall be given a second October 16, shall be given a third reading November 20, and shall be adopted on November 20, 1995 and shall be published and become effective upon publication. The Clerk shall publish a summary of this Ordinance and include in the publication notice that a true copy of the Ordinance can be inspected or obtained at the Clerk's office.

Resolved by Councilman Weaks, supported by Councilman Lane, that the following resolution be read into the record and approved.

- WHEREAS, Riverview's electorate has a great history of electing competent, hardworking and honest people, and
- WHEREAS, Riverview's charter has been approved by the voting residents of Riverview and has determined that filling a vacancy on Council is the prerogative of the succeeding Council, and
- WHEREAS, Riverview's Council now has the authority to appoint the unexpired term of office created by the council position held previously by Mayor Durand, and
- WHEREAS, Riverview's Council has agreed to and has completed a process to fill the unexpired term of office by interviewing four outstanding members of the community, and
- WHEREAS, Riverview's Council does not want to expend taxpayers funds to hold a special election when outstanding candidates exist within those interviewed, and
- WHEREAS, Mr. Jack Miles was the fourth top vote getter in the recent Council election, and
- WHEREAS, Mr. Jack Miles is an active member of the community and is presently serving on the Cable Commission, and
- THEREFORE, in order to fulfill the requirements of the City Charter, that the Council appoint Mr. Jack Miles to complete the unexpired term of office created by the council position held previously by Mayor Durand,

FURTHER, the Council of the City of Riverview direct the city attorney to draft charter language to automatically appoint the next highest vote getter in a regular election when a council position becomes vacant as a result of eligibility of Section 5.1(e) of the city charter. Such language shall be put before the voters of Riverview in the next regularly scheduled election.

#### ORDINANCES:

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that the Third Reading of Proposed Ordinance #447 (Emergency Service

Cost Recovery) be authorized by title only.  
Carried unanimously.

The City Clerk gave the third reading by title only.

ORDINANCE #447

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW TO ADD A NEW ARTICLE IV ENTITLED "COST RECOVERY FOR EMERGENCY SERVICES" UNDER CHAPTER 11, FIRE PREVENTION AND PROTECTION, TO ENABLE THE CITY OF RIVERVIEW TO REQUIRE REIMBURSEMENT FROM THOSE RESPONSIBLE FOR THE LEAKING, SPILLING OR OTHERWISE ALLOWING CERTAIN DANGEROUS OR HAZARDOUS SUBSTANCE OR MATERIALS TO ESCAPE CONTAINMENT, THEREBY REQUIRING CLEANUP AND DISPOSAL BY THE CITY OR ITS AGENTS. THIS ORDINANCE SHALL ADDRESS TRANSPORTERS TRAVELING THROUGH RIVERVIEW.

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE I. That a new ordinance be adopted to read as follows:

Article IV. COST RECOVERY FOR EMERGENCY SERVICES

Section 11-28. Definitions. For the purpose of this article, the following words and phrases shall be construed as follows:

(1) "Emergency Response" means providing, sending and/or utilizing public service, police, fire fighting and rescue services by the City to an accident involving a motor vehicle or other transportation where there was a release of a hazardous substance.

(2) "Expense of emergency response" means the costs associated with the occurrence of an emergency response as set forth in paragraph (1) hereof. The expenses of making an emergency response, as set forth in paragraph (1) hereof, shall include the costs connected with the administration, abatement and mitigation provision and analysis of chemical tests and the videotaping of the driver, if applicable. These costs shall be set by Council resolution.

(3) A "dangerous or hazardous substance or material" is defined as any material or substance that has been identified by city, state or federal laws or regulations to be limited to such substances as chemicals and gases, explosives, radio active materials, petroleum products or gases, poisons, etiologic (biologic) agents, flammable and corrosives, or obnoxious by reason of odor, spilled, leaked or otherwise released from their container.

Specifically "hazardous substance" includes hazardous chemicals as defined by the Michigan Department of Public Health and the Michigan Department of Labor; hazardous materials as defined by the U.S. Department of Transportation; critical materials and polluting materials as defined by the Michigan Department of Natural Resources; hazardous waste as defined by the Michigan Department of Natural Resources and hazardous materials as defined in the Comprehensive Environmental Response, "Superfund", as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA), 42 USC 9601. A dangerous or hazardous substance or material includes noxious odors or released substances determined by the Fire Chief, or his authorized representative, to be dangerous or harmful to human or animal life, health or safety and welfare of the public or environment.

Section 11-29. Liability; Presumption.

(1) Any person or vehicle owner or the lessee who, owned or operated a motor vehicle or other transporter, which operation results in an emergency response, shall be responsible and liable for the

expenses of the emergency response.

Section 11-30. Liability Hazardous or Toxic Substance or Materials.

(1) It shall be the duty of any person and any other entity which causes or controls leakage, spillage or any other dissemination of dangerous or hazardous substance or materials to immediately remove such and cleanup the area of such spillage in such manner that the area involved is fully restored to its condition before such occurrence. The Fire Department will inspect said site to make sure the cleanup is in compliance with local, state and federal guidelines.

(2) Any such person or entity which fails to comply with this chapter by failing to cleanup without delay a hazardous substance release, shall be liable to and shall pay the City for its costs and expenses, including the costs incurred by the City of any party which it engages, for the complete abatement, mitigation, cleanup and restoration of the affected area.

Section 11-31. Cost Recovery for Hazardous/Toxic Material Incidents and Hazardous Conditions of Extended Duration.

(1) The Fire Department shall be entitled to recover all costs and damages incurred in conjunction with emergency incidents involving hazardous/toxic materials or hazardous conditions of extended duration. Such costs and damages shall include, but not be limited to, those associated with incident abatement, cleanup and mitigation, including any related third party costs, which were necessary to ensure the safety of the City and its residents. Such costs and damages shall also include any and all costs incurred to evacuate, shelter and feed both the public and emergency personnel and volunteers in the case of an evacuation associated with the incident.

(2) Such costs and damages shall be the joint and several responsibility of the owner(s) and/or operator(s) of the property, equipment, vehicle or container causing or contributing in any emergency incident or hazardous condition of extended duration.

Section 11-32. Cost Recovery for Incendiary Type Fires.

(1) The City shall be entitled to recover all costs and damages incurred in conjunction with any incendiary type fire. Such costs shall include, but are not limited to, those associated with the fire extinguishment and investigation.

(2) Such costs and damages shall be the joint and several responsibility of the person(s) found responsible for setting the fire by a court of competent jurisdiction. All such costs and damages shall be paid within thirty (30) days of demand by the Fire Department.

(3) The City shall have a lien for all unpaid costs and damages incurred by the Fire Department as above described and may enforce such lien in the manner prescribed by the general laws of the state providing for the enforcement of tax liens.

Section 11-33. Civil Liability.

(1) This ordinance shall be construed to be a responsibility and liability of a civil nature on the part of the driver and shall not be construed to conflict, contravene or enlarge or reduce any criminal liability or responsibility, including fines imposed by a judge on a driver for operating a motor vehicle while under the influence of an alcoholic beverage and/or controlled substance. Nor shall this ordinance be construed to impose criminal sanctions based solely on this ordinance, as to the responsible party in a hazardous or toxic waste violation.

(2) The City Controller, shall within a reasonable time of receiving itemized costs incurred for emergency response, submit a bill for same by first class mail or personal service to a person or entity

liable for these expenses as enumerated under this ordinance. Said bill shall require full payment in thirty (30) days from date of billing.

(3) If any person or entity fails to reimburse the City as provided and such person or entity is the owner of the affected property, the City shall have the right and power to add any and all costs of cleanup and restoration to the tax roll as to such property, and to levy and collect such costs in the same manner as provided for the levy and collection of real property taxes against said property. This remedy is in addition to any other remedy available to the City allowed by law.

ARTICLE II. Penalty: A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

ARTICLE III. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE IV. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

by 4-15-96 pg. 2*

needed services and facilities to the City and its residents; and

WHEREAS, a program to alleviate the aforesaid conditions has been initiated by The Economic Development Corporation of the City of Riverview (the "Corporation"); and

WHEREAS, the Corporation in conformity with Act No. 338, Public Acts of Michigan, 1974, as amended ("Act No. 338"), has prepared and submitted a project plan (the "Project Plan"), providing all information and requirements necessary for a commercial project involving the acquisition of a 41,000 square foot nursing facility to be owned by FFE/Michigan Properties, Inc., located at 18591 Quarry Road (the "Project"); and

WHEREAS, the Corporation has approved the Project Plan; and

WHEREAS, in conformity with Act No. 338 and the Internal Revenue Code of 1986, as amended (the "Code"), this legislative body has conducted a public hearing on the Project, the Project Plan, and the bonds in the maximum aggregate principal amount of not to exceed \$5,000,000 proposed therein to be issued by the Corporation to finance all or part of the costs of the Project (the "Bonds");

NOW, THEREFORE, BE IT RESOLVED:

1. The Project Plan, as submitted and approved by the Corporation meets the requirements set forth in Section 8 of Act 338, and is hereby approved.
2. The persons who will be active in the management of the Project for not less than one year after approval of the Project Plan have sufficient ability and experience to manage the plan properly.
3. The proposed methods of financing the Project as outlined in the Project Plan are feasible and this Corporation has the ability to arrange, or cause to be arranged, the financing.
4. The Project as submitted is reasonable and necessary to carry out the purposes of Act No. 338, and is hereby approved.
5. Issuance by the Corporation of the Bonds in an amount not to exceed \$5,000,000, in accordance with the terms set forth in the Project Plan, to finance all or part of the costs of the Project as described herein and in the Project Plan, is hereby approved.
6. Based upon the information submitted and obtained, the Project Plan as submitted and the Project to which it relates serves to alleviate and prevent conditions of unemployment and strengthen and revitalize the City's economy and, therefore, constitutes a vital and necessary public purpose.
7. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

I hereby certify that the foregoing is a true and complete copy of a resolution adopted by the City Council of the City of Riverview, Michigan at a regular meeting held on December 18, 1995, and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act No. 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

(7) "Electrical Journeyman" means a person other than an Electrical Contractor who, as his or her principal occupation, is engaged in the practical installation or alteration of electrical wiring. An Electrical Contractor or Master Electrician may also be an Electrical Journeyman.

(8) "Electric Sign" means fixed, stationary, or portable self-contained, electrically illuminated equipment that has words or symbols designed to convey information or attract attention. The

term includes outline lighting. Electric sign does not include those signs that are indoor or outdoor portable applications or recognized holiday residential signs listed with a recognized electrical testing laboratory and that use a cord cap-110 volt plug as the electrical energizing attachment method.

(9) "Electrical Wiring" means all wiring, generating equipment, fixtures, appliances, and appurtenances in connection with the generation, distribution, communication, and utilization of electrical energy, within or on a building, residence, structure, or properties, and including service entrance wiring as defined by the code.

(10) "Fire Alarm Contractor" means a person, firm, or corporation engaged in the business of erecting, installing, altering, repairing, servicing, or maintaining wiring, devices, appliances or equipment of a fire alarm system.

(11) "Fire Alarm Specialty Apprentice Technician" means an individual other than a Fire Alarm Contractor or a Fire Alarm Specialty Technician who is engaged in learning about and assisting in the installation or alteration of fire alarm system wiring and equipment under the direct personal supervision of a Fire Alarm Specialty Technician.

(12) "Fire Alarm Specialty Licensure" means licensure as a Fire Alarm Contractor or a Fire Alarm Specialty or Apprentice Technician.

(13) "Fire Alarm Specialty Technician" means a person other than a Fire Alarm Contractor who, as his or her principal occupation, is engaged in the practical installation or alteration of fire alarm system wiring.

(14) "Fire Alarm System" means a system designed to detect and annunciate the presence of fire, or by-products of fire, installed within a building or structure. Fire Alarm System does not include a single station smoke detector.

(15) "Jobsite" means the immediate work area within the property lines of a single construction project, alteration project or maintenance project where electrical construction or alteration of electrical wiring is in progress.

(16) "Master Electrician" means a person having the necessary qualifications, training, experience and technical knowledge to supervise the installation of electrical wiring and equipment in accordance with the standard rules and regulations governing that work.

(17) "Minor repair work" means electrical work such as repairing or replacing flush and snap switches, fuses, lamp sockets or receptacles; replacement of fixtures; repairing or taping bare connections; replacing lamps or the connection of portable electrical equipment to suitable permanently installed receptacles; provided the total value does not exceed \$100.00.

(18) "Municipality" means a city, village or township.

(19) "Outline lighting" means an arrangement of incandescent lamps or electric discharge tubing which is an integral part of an electrical sign that outlines certain features, such as the shape of a building or the decoration of a window.

(20) "Owner" means any natural person, firm, partnership, association or corporation and their legal successors. In all proceedings, actions or prosecution hereunder, in which a corporation is the owner of any building, structure or part thereof, or of premises, any of its officers, directors or persons in control or management thereof, as well as the corporation, shall be subject to the provisions of this article.

(21) "Sign Specialist" means a person who, as his or her principal occupation, is engaged in the installation, alteration or repair of electric signs.

(22) "Sign Specialty Contractor" means a person, firm or corporation on engaged in the business of manufacturing, installing, maintaining, connecting, or repairing electric sign wiring or devices, including wiring that is directly related to electric signs and is electrically dedicated as a sign circuit beginning at the load side of the sign circuit disconnect.

(23) "Sign Specialty Licensure" means licensure as a Sign Specialist or Sign Specialty Contractor.

(24) Related sign wiring:

(A) Except as otherwise provided in subdivisions (b), (c), and (d), that portion of the electric sign wiring that originates at the load-side terminals of a disconnecting means located in the vicinity of the electric sign involved but does not include the installation of the disconnecting means, complete with line-side connections.

(B) In the case of electric sign installations having sign transformers installed physically apart from the electric sign, that portion of the electric sign wiring that originates at the load-side terminals of a disconnecting means located in the vicinity of the electric sign involved but does not include the installation of the disconnecting means, complete with line-side connections.

(C) In the case of the free standing electric sign installations supplied through underground circuit conductors, that portion of the electric sign wiring that originates at a wiring termination point adjacent to, within or immediately above the permanent base for the electric sign but does not include, if the base of the sign structure is suitable for use as a raceway, the installation of bushing, complete with free-length circuit conductors extending through to accommodate the connection of the related wiring within the sign structure raceway.

(D) In the case of electric signs specifically designed to be connected directly to the building wiring raceway or cable supply, that portion of the electric sign wiring that originates at the point where the free-length circuit conductors extend through the building wiring raceway or cable at the specifically designed supply location for the electric sign involved but does not include the installation of the building wiring raceway or cable system to the specifically designated point of supply for the electric sign involved, complete with free-length circuit conductors extending through the building wiring raceway or cable to accommodate the connection of the related wiring.

#### Section 6-40.2. Electrical Inspection.

A. The Electrical Examining and Appeals Board, also referred to in this Ordinance as the Board, shall have and hereby is given jurisdiction, subject to review as hereinafter provided, over the inspection of all electrical installations, including changes, repairs and additions thereto within the City of Riverview.

B. The Board is hereby empowered and it shall be their duty to promulgate and recommend such rules and regulations concerning electrical work in the City of Riverview as may be required to properly provide for the situations therein. The rules and regulations so made by the Board shall be effective upon approval by the City of Riverview and the Michigan Construction Code Commission and shall take precedence over plans, specifications and national electrical code rules.

C. The Mayor and Council shall appoint (an) Electrical Inspector(s) shall be licensed as an Electrical Journeyman or Master Electrician, who shall inspect all electrical installations

and report to the inspection authority. This jurisdiction shall apply to the installation of electrical wiring, electrical devices, apparatus and equipment for connection to electrical supply systems except as provided in Section 6, (a), (b), (c), (d), (e), (f), (h).

Section 6-40.3. Fees for Inspection.

A. When an application is made for a permit, license, registration or examination required under the terms of this Ordinance, a fee shall be paid in an amount as prescribed by the Common Council of the City of Riverview.

Section 6-40.4. Right of Access to Buildings.

Subject to the Constitution and the laws of the State of Michigan the Electrical Inspector(s) and/or his or her deputy shall have the right during reasonable hours to enter any building in the discharge of his or her official duties for the purpose of making any inspection or test of the installation of electrical wiring, electrical devices and/or electrical materials contained therein and shall have the authority to cause the turning off of all electrical supply and to disconnect, in cases of emergency, any wire where such electrical currents are dangerous to life or property or may interfere with the work of the Fire Department.

Section 6-40.5. Permits.

It shall be unlawful for any person, firm or corporation to install, alter, maintain, service or repair electrical equipment in or on any building, structure or part thereof, or on premises, or cause or permit therein or thereon the installation, altering, maintaining, servicing or repairing, of any electrical equipment without a permit having been obtained therefore as provided herein. Nothing in this section shall be considered as applying to any person engaged in repairing and maintaining electrical appliances.

Permits shall be issued only to 1 through 4 below:

1. Licensed Electrical Contractors.
2. Licensed Fire Alarm Contractors.
3. Licensed Sign Specialty Contractors.
4. A bona fide owner of a single-family residence which is, or will be on completion, his or her own place of residence, and no part of which is used for rental or commercial purposes nor is now contemplated for such purpose, provided that the owner applies for and secures a permit, pays the fee, does the work (him/her)self in accordance with the provisions hereof, applies for inspections and receives approval thereof. Failure to comply with these requirements will subject the owner's permit to cancellation.

Section 6-40.6. Contractors Requirements; Exceptions.

No person, firm, or corporation shall engage in the business of electrical, contracting, fire alarm contracting, or sign contracting unless such person, firm, or corporation shall have received from the state or the appropriate municipality the appropriate contractors license; Nor shall any person other than a Master Electrician, except a person duly licensed and employed by and working under the direction of a holder of an Electrical Contractor's license, Fire Alarm Contractor's license, or Sign Contractor's license, in any manner undertake to execute any electrical wiring; except, no license shall be required by the Board to perform the work indicated in subsection (g), (i), (j), (k), (l), (m), and (n); nor shall a license or permit be required to execute the work covered by subsections (a), (b), (c), (d), (e), (f) and (h):

(a) Minor repair work, as defined.

(b) The installation, alteration, repairing, rebuilding or

remodeling of elevators, dumbwaiters, escalators, or man lifts performed under a permit issued by an elevator inspection agency of the State of Michigan or political subdivision of the State of Michigan.

- (c) The installation, alteration or repair of electrical equipment and its associated wiring, installed on the premises of consumers or subscribers by or for electrical energy supply or communication agencies for use by such agencies in the generation, transmission, distribution or metering of electrical energy, or for the operation of signals or transmission of intelligence, not including fire alarm systems.
- (d) The installation, alteration or repair of electric wiring for the generation and primary distribution of electric current, or the secondary distribution system, up to and including the meters, where such work is an integral part of the system owned and operated by an electric light and power utility in rendering its duly authorized service.
- (e) Any work involved in the manufacture of electric equipment, including the testing and repairing of such manufactured equipment.
- (f) The installation, alteration or repair of equipment and its associated wiring for the generation or distribution of electric energy for the operation of signals or transmission of intelligence where such work is in connection with a communication system owned or operated by a telephone or telegraph company in rendering its duly authorized service as a telephone or telegraph company.
- (g) Any installation, alteration or repair of electrical equipment by a homeowner in a single family home and accompanying outbuildings owned and occupied or to be occupied by the person performing the installation, alteration or repair of electrical equipment.
- (h) Any work involved in the use, maintenance, operation, dismantling or reassembling of motion picture and theatrical equipment used in any building with approved facilities for entertainment or educational use and which has the necessary permanent wiring, floor and wall receptacle outlets designed for the proper and safe use of such theatrical equipment, but not including any permanent wiring.
- (i) Work performed by mechanical contractors licensed in classifications listed in Section 6(3)(a), (b), (d), (e), and (f) of the Forbes Mechanical Contractor Act, Act No. 192 of the Public Acts of 1984, being Section 338.976 of the Michigan Compiled Laws, plumbing contractors licensed under Act No. 266 of the Public Acts of 1929, being Sections 338.901 to 338.917 of the Michigan Compiled Laws, and employees of persons licensed under Act No. 192 of the Public Acts of 1984 and Act No. 266 of the Public Acts of 1929 while performing maintenance, service, repair, replacement, alteration, modification, reconstruction or upgrading of control wiring circuits and electrical component parts within existing mechanical systems defined in the mechanical and plumbing codes provided for in the State Construction Code Act of 1972, including, but not limited to, energy management systems, relays and controls on boilers, water heaters, furnaces, air conditioning compressors and condensers, fan controls, thermostats and sensors, and all manufacturer prewired system wiring associated with the mechanical systems in buildings which are on the load side of the unit disconnect, which is located on or immediately adjacent

to the equipment, except for life safety systems wiring.

- (j) Electrical wiring associated with the installation, removal, alteration, or repair of a water well pump on a single family dwelling to the first point of attachment in the house from the well, by a registered pump installer under part 127 of the Public Health Code, Act No. 368 of the Public Acts of 1978, being Sections 333.12701 to 333.12771 of the Michigan Compiled Laws.
- (k) The installation, maintenance or servicing of burglar alarm systems within a building or structure.
- (l) The installation, maintenance or servicing of residential sprinkling equipment.
- (m) The installation, alteration, maintenance or repair of electric signs and related wiring by an unlicensed individual under the direct supervision of a licensed Sign Specialist except that the ratio of unlicensed individuals engaged in this activity shall not exceed two unlicensed individuals to one licensed Sign Specialist. An enforcing agency shall enforce this ratio on a jobsite basis.
- (n) The construction, installation, maintenance, repair and renovation of telecommunications equipment and related systems by a person, firm or corporation primarily engaged in the telecommunications and related information systems industry. This exemption does not include the construction, installation, maintenance, repair and renovation of a fire alarm system.

#### Section 6-40.7. Inspection.

- (a) Upon the completion of the wiring of any building, it shall be the duty of the person, firm or corporation installing the same to notify the City of Riverview Building Division, who shall notify the Electrical Inspector(s) to inspect the installation as soon as possible, and if it is found to be fully in compliance with this ordinance and does not constitute a hazard to life and property, he/she shall issue upon request to such person, firm or corporation for delivery to the owner a certificate of inspection.
- (b) All wires which are to be hidden from view shall be inspected before concealment and any person, firm or corporation installing such wires shall notify the City of Riverview Building Division, giving sufficient time in which to make the required inspection before such wires are concealed.

#### Section 6-40.8. Re-inspection.

The Electrical Inspector(s) may, when specifically authorized by State Law or separate Municipal Ordinance, make periodically a thorough re-inspection of the installation in buildings of all electrical wiring, electrical devices and electrical material now installed or that may hereafter be installed, within the City of Riverview. When the installation of any such wiring, devices, and/or material is found to be in a dangerous or unsafe condition, the person, firm, or corporation owning, using or operating the same shall be notified and shall make the necessary repairs or changes required to place such wiring, devices and material in a safe condition and have such work completed within fifteen days, or any longer period specified by the Electrical Inspector in said notice. The Electrical Inspector(s) is/are hereby empowered to disconnect or order in writing the discontinuance of electrical service to such wiring, devices and/or material found to be defectively installed until the installation of such wiring, devices and material has been made safe as directed by the Electrical Inspector(s).

Section 6-40.9. Construction Requirements.

No Certificate of Inspection shall be issued unless the electrical installation is in strict conformity with the provisions of this ordinance, the statutes of the State of Michigan, the rules and regulations issued by the Michigan Public Service Commission under the authority of the state statutes and unless they are in conformity with approved methods of construction for safety to persons and property. The regulations as laid down in the National Electrical Code (N.F.P.A.-70), Building Officials & Code Administrators (BOCA) International, Inc. code(s), Riverview Code of Ordinances and N.F.P.A.'S: 71, 72, 73, & 74 for fire alarm systems as approved by the American National Standards Institute (ANSI) and in the amendments, rules and regulations established as hereinafter provided shall be prima facie evidence of such approved methods.

Section 6-40.10. Approved Materials.

- A. It shall be unlawful to install or use any electrical device, apparatus, or equipment designed for attachment to, or installation on any electrical circuit or system for heat, light, power, or fire alarm system that is not of good design and construction and safe and adequate for its intended use. The Electrical Inspector(s) shall have power to disapprove the use or installation of devices not fulfilling these requirements.
- B. Devices, apparatus and equipment listed by such generally recognized authorities as United States Bureau of Standards, or by qualified electrical testing laboratories such as: Electrical Testing Laboratories (ETL), Underwriters Laboratories (UL) or Factory Mutual (FM) may be given the approval by the Electrical Inspector(s) unless explicitly disapproved by said authority for reasons of faulty design or poor construction involving danger to persons and/or property.

Section 6-40.11. Record and Review.

- A. The City of Riverview Building Division shall keep complete records of all permits issued and inspections made and other official work performed under the provision of this Ordinance.
- B. When the Electrical Inspector condemns all or part of any electrical installation, the owner or his or her agent may within five (5) days after receiving written notice from the electrical inspector, file a petition in writing for review of said action of the Electrical Inspector with the Electrical Examining and Appeals Board. Upon receipt of the petition, the board shall at once proceed to determine whether said electrical installation complies with this Ordinance, and within three days shall make a decision in accordance with its findings.

Section 6-40.12. License and Registration for Electrical Work.

- A. The Electrical Examining and Appeals Board is hereby constituted consisting of the Electrical Inspector of the City of Riverview; a representative of the electrical utility company; a licensed Electrical Contractor who is also a licensed Master Electrician; a licensed Master Electrician; and an Electrical Engineer.

The members of said Board shall be appointed by the Reciprocal Electrical Council, Inc. (RECI) for such terms as shall be designated at the time of appointment. This Board shall examine all applicants for Electrical, Fire, and Sign Contractor's License; Journeyman and Master Electrician License; Fire Alarm Specialty Technician License and Sign Specialist License; and the registration of Apprentice Electricians and Fire Alarm Specialty Apprentice Technicians.

- B. Applicants for Journeyman and Master Electrician License; Fire Alarm Specialty Technician License and Sign Specialist License shall designate their residence as the location of their legal address. All applicants for contractor licenses shall designate their principal place of business as their legal address.
- C. All Electrical Contractors, Fire Alarm Contractors, Sign Specialty Contractors, Master Electricians, Journeyman Electricians, Fire Alarm Specialty Technicians, Sign Specialists, Apprentice Electricians and Fire Alarm Specialty Apprentice Technicians having their legal address within the corporate limits of the City of Riverview shall secure their license or registration from the said City of Riverview.
- D. The Board shall prepare the application forms, prescribe the examination and meet on call of the Downriver Electrical Examining Board Secretary [OR] the City of Riverview to hold examinations. Due notice shall be given applicants of the date of examination. All applications for examination shall be in writing. The examination shall consist of a written examination as the Board shall determine, and other practical tests at the discretion of the Board.
- E. The examination for Journeyman and Master Electricians, Fire Alarm Specialty Technician License, and Sign Specialist License shall include, but not be limited to, questions designed to test an individual's knowledge of this Ordinance, the State Construction Code Act of 1972, and any code adopted by the City of Riverview, as well as the theory relative to those codes.
- F. The examination for Electrical Contractor's License, Fire Alarm Contractor's License and Sign Specialty Contractors License shall include, but not be limited to, questions designed to test an individual's knowledge of this Ordinance and any rules promulgated under this Ordinance, the State Construction Code Act of 1972 and the administration and enforcement procedures of any code adopted by this municipality.
- G. All application forms and examinations shall be in English and all applicants shall be able to read and write in the English language.
- H. A person holding a valid Electrical Contractor's License, Master Electrician's License, Electrical Journeyman's License or Apprentice Electrician's registration shall not be required to hold any specialty license in order to perform specialty installations.

I. CONTRACTORS

    - (d) Files a written statement from present or former employers to the effect that the applicant has not less than 8,000 hours of experience obtained over a period of not less than four years related to electrical construction or maintenance of buildings or electrical wiring or equipment under the direct supervision of a Master or Journeyman Electrician that is licensed under this Ordinance.
  - (2) Upon failure to pass the Electrical Journeyman examination two times within a period of two years, an applicant shall be ineligible to sit for another examination until a period of not less than one year from the date of failure of the second examination, at which time he or she shall present to the Board proof of the successful completion of a course on code, electrical fundamentals, or electrical theory, approved by the board, in order to become eligible again to sit for an examination.
  - (3) As a condition of renewal of an Electrical Journeyman's License, the Electrical Journeyman shall demonstrate the successful completion of a course, approved by the Board, concerning any update or change in the code, prior to or within twelve months after the adoption of the update or change in that code. This requirement applies only during or after those years that the code is updated or changed by adoption into ordinance.
- (c) Apprentice Electrician; Registration; Forms; Certificate of Registration; Apprenticeship Training Program; Apprentice Electrician Ratio:

- (1) An individual employed as an Apprentice Electrician shall register on a form provided by the Board within thirty (30) days after employment.
- (2) THE DEPARTMENT SHALL ISSUE A CERTIFICATE OF REGISTRATION TO A PERSON SEEKING REGISTRATION UPON SATISFACTORY PROOF OF THE PERSON'S PARTICIPATION IN A BONA FIDE APPRENTICESHIP TRAINING PROGRAM APPROVED BY THE BOARD. THIS PROGRAM SHALL BE EQUIVALENT TO THE REQUIREMENTS OF THOSE IMPOSED BY THE UNITED STATES DEPARTMENT OF LABOR BUREAU OF APPRENTICESHIP AND TRAINING, SUBJECT TO SUBSECTION (3).
- (3) EXCEPT AS OTHERWISE PROVIDED IN SUBSECTION (4), THE RATIO OF ELECTRICAL JOURNEYMEN OR MASTER ELECTRICIANS TO REGISTERED APPRENTICE ELECTRICIANS SHALL BE ON THE BASIS OF ONE ELECTRICAL JOURNEYMAN OR MASTER ELECTRICIAN TO ONE REGISTERED APPRENTICE ELECTRICIAN. THE DEPARTMENT SHALL ENFORCE THE RATIO ON A JOBSITE BASIS.
- (4) NOTWITHSTANDING SUBSECTION (3), IN THE CASE OF A RESIDENTIAL SINGLE FAMILY DWELLING OR A MULTIFAMILY DWELLING NOT EXCEEDING EIGHT UNITS PER BUILDING, THE DEPARTMENT SHALL ENFORCE THE APPRENTICE ELECTRICIAN RATIO ON THE BASIS OF ONE ELECTRICAL JOURNEYMAN OR MASTER ELECTRICIAN TO TWO REGISTERED APPRENTICE ELECTRICIANS ON A JOBSITE BASIS.

#### III. FIRE ALARM SPECIALTY TECHNICIAN'S LICENSE:

The department shall issue a Fire Alarm Specialty Technician's License to a person not less than 20 years of age who does all of the following:

- (1) Files a completed application form provided by the Department.
  - (b) Pays the examination fee and passes an examination provided for by the Board and the Department.
  - (c) Pays the license fee.
  - (d) Has certification by the National Institute for Certification in Engineering Technology as an Associate Engineering Technician, level II, or the equivalent as determined by the Board, in the field of fire alarm systems technology.
- (2) As a condition of renewal of a Fire Alarm Specialty Technician's License, the Fire Alarm Specialty Technician shall demonstrate the successful completion of a course, approved by the Board, concerning any update or change in the code relating to fire alarm systems prior to or within 12 months after the adoption of the update or change in that code. This requirement applies only during or after those years that the code is updated or changed by adoption into ordinance.
  - (3) The holder of a Fire Alarm Specialty Technician's License shall not qualify for more than one Fire Alarm Contractor's License.

#### IV. FIRE ALARM APPRENTICE:

An individual employed as a Fire Alarm Specialty Apprentice Technician shall register with the Board on a form provided by the board within 30 days after employment.

- (1) The Department shall issue a Certificate of Registration to a person seeking registration upon satisfactory proof

of the person's participation in a bona fide apprenticeship training program approved by the Board. The program shall be equivalent to the requirements of those imposed by the United States Department of Labor Bureau of Apprenticeship and Training, subject to Subsection (c).

- (2) The ratio of Fire Alarm Specialty Technicians to registered Fire Alarm Specialty Apprentice Technicians shall be on the basis of one Fire Alarm Specialty Technician to two registered Fire Alarm Specialty Apprentice Technicians. The Department shall enforce the ratio on a jobsite basis.

V. SIGN SPECIALTY TECHNICIAN LICENSE:

- (1) The Department shall issue a Sign Specialists License to a person not less than 18 years of age who does all of the following:
- (a) Files a completed application form provided by the Department.
  - (b) Pays the examination fee and passes the examination provided for by the Department.
  - (c) Pays the license fee.
  - (d) A statement from present or past employers to the effect that the applicant has not less than 4,000 hours of experience, obtained over a period of not less than two years, related to the manufacture, installation, maintenance, connection, or repair of electric signs and related wiring; equivalent education may be substituted for work experience as determined by the Board.
  - (e) Demonstrates the successful completion of a course concerning the installation, maintenance, connection, or repair of electric signs and related wiring as contained in the Sign Electrician's Workbook published by the American Technical Publishers, Inc., or any other course designed to address the sign industry, as approved by the Board.
- (2) Upon failure to pass the Sign Specialist examination two times within a period of two years, an applicant shall be ineligible to sit for another examination until he or she presents to the Board proof of the successful completion of a course on code and electrical fundamentals approved by the Board, in order to become eligible again to sit for an examination.
- (3) As a condition of renewal of a Sign Specialist's License, the Sign Specialist shall demonstrate the successful completion of a course, approved by the Board, concerning any update or change in applicable sections of the code prior to or within 12 months after the adoption of the update or change in that code. The requirement applies only during or after those years that the code is updated or changed by adoption into ordinance.

Note:

*Beginning the effective date of this ordinance that added this subsection and for a period of 360 days from that date, the department shall issue a license to a person applying for licensure as a Sign Specialist who is qualified under Section 12, i, v.; except for the examination requirement. Under these circumstances, the*

*applicant shall furnish a notarized statement from current and past employers documenting past work experience.*

*Work experience of not less than 4,000 hours obtained over a period of not less than two years shall qualify the person for Sign Specialty Licensure under this subsection.*

Section 6-40.13. License and Registration Fees and Annual Renewals

1. The fees for an examination and/or license for an Electrical Contractor, Fire Alarm Contractor, Sign Specialty Contractor, Master Electrician, Journeyman Electrician, Fire Alarm Specialty Technician, and Sign Specialist shall be prescribed by the City of Riverview.
2. Licenses shall expire on December 31 of each year, and shall be renewed upon application by the licensee, together with payment of the required fee. After March 1st, Contractor, Master, Journeyman, Technician and Specialist Licenses not renewed shall be considered cancelled and may not be renewed except upon approval of the Board. A license not renewed within three years shall not be reissued without examination except upon special approval by the Board.

- (6) Recommendation by the Michigan Electrical Administrative Board or any other municipal board to suspend or revoke a license or registration issued by this Board.
- (7) Cheating on an examination.

(B) THE BOARD SHALL IMPOSE ONE OR MORE OF THE FOLLOWING SANCTIONS FOR A VIOLATION IN (A) ABOVE:

- (1) Suspension of the license or registration issued under this Ordinance.
- (2) Denial of the license or registration required under this Ordinance.
- (3) Revocation of the license or registration issued under this Ordinance.
- (4) Restricted from taking an exam for a minimum of two years.
- (5) Restitution.
- (6) Fine as listed in Section 6-40.15 and/or the General Rules.

(C) Two violations of this ordinance within a period of two years, the Board may double the fine imposed under Ordinance.

(D) Three violations of this Ordinance within a period of three years, the Board shall revoke the person's license or registration and permanently deny the person's reapplication for a license or registration of the class revoked.

(E) If restitution is required to be made by a licensee or registrant under this Section, the Board may suspend the license or registration of the person required to make the restitution until restitution is made.

Section 6-40.14. Exemptions.

- A. The provisions of this Ordinance shall not apply to apparatus and equipment installed by or for any utility operating under

jurisdiction of the Michigan Public Service Commission in the exercise of its function as a utility and when such apparatus or equipment is used primarily for the purpose of communication or metering; or for the generation, control, transformation, transmission and distribution of electrical energy.

Section 6-40.15. Violations; Penalties, Minor Violations and Fines

- A. Any person, firm or corporation who shall fail to comply with any of the provisions hereof, shall upon conviction thereof, be subject to a fine of not more than \$500.00 or imprisonment not to exceed ninety (90) days, or both such fine and imprisonment at the discretion of the Court unless otherwise provided in the Ordinance.
- B. Except as provided for in Subsection (A), a person licensed or registered under this Ordinance who commits a violation of this Ordinance that is not a Minor Violation as described in the General Rules or a person not licensed or registered under this Ordinance who is performing any activity regulated by this Ordinance is guilty of a civil violation, punishable by a fine of not less than \$1,000 per day for each day the violation occurs except that a fine shall not exceed \$5,000 in total per violation. A second or subsequent violation is punishable by a fine of not less than \$2,000 per day for each day the violation occurs except that a fine shall not exceed \$10,000 in total per violation.

Section 6-40.16. Liability.

- A. This Ordinance shall not be construed to relieve from or lessen the responsibility or liability of any party owning, operating, controlling or installing any electrical wiring, electrical devices and/or electrical material for damages to person or property caused by any defect therein nor shall the City of Riverview or the Electrical Inspector(s) be held as assuming any such liability by reason of the inspection authorized herein, or certificate of inspection issued as herein provided.
- B. This Ordinance shall take effect immediately upon passage and publication thereof.

ARTICLE II. Penalty: A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

ARTICLE III. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE IV. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

ARTICLE V. Reading and Publication: This Ordinance shall be given a first reading on November 20, 1995, shall be given a second reading on December 4, 1995, shall be adopted on December 18, 1995 and shall be published and become effective as provided by law. A VERBATIM TRANSCRIPT OF THE PUBLIC HEARING ON BLASTING

Tape 1 - 470

PUBLIC HEARINGS:

A Public Hearing was called at the November 29, 1994 study session to receive comments on Michigan Foundation Company Blasting Activities at the Sibley Quarry.

Mayor Rotteveel: Under Item 6 we have a public hearing. We have a public hearing on the Michigan Foundation Company blasting activities at the Sibley quarry. And the public meeting is called to get find some...get some information and input on the blasting activities. Is there anyone....we have representatives from Detroit Edison, also from Michigan Foundation here, but at this time, I would like to entertain questions from the audience. If there are any questions pertaining to the blasting.... yes... and there is a five minute limit

Councilman Trombley: Your Honor, I would like to waive that

Mayor Rotteveel: Waive what?

Councilman Trombley: The five minutes.

Councilman Weeks: Your Honor, I think it's a bad policy if we waive the five minutes. Quite honestly, we cannot selectively choose when in fact, we are going to enforce that rule. Because, really, that sends a signal that there are people if you impose the five minutes on them, then that is unfair.

Councilman Trombley: I don't want to get into a big debate, but I can to beg to differ. I don't see anybody ever got up there and they kicked them off after five minutes.

Mayor Rotteveel: The public hearing is to..to..to find out..

Councilman Trombley: I understand that.

Mayor Rotteveel: O.K. So...

Councilman Trombley: If it goes over five minutes, I don't see no problem.

Mayor Rotteveel: We have the people from the quarry are here to answer the questions but I feel first we want to establish how many of the complaints we have, how many...you know. We would like to hear what the complaints are.

Councilman Trombley: Right.

Mayor Rotteveel: O.K. Yes.

City Clerk Steklac: There has to be a motion.

Mr. Mayor, I am here also for the blasting..

Mayor Rotteveel: Excuse me.

Mr. Shoup: ...\_\_?\_\_ resident of Riverview. My name is Jack Shoup. I live at 17713 Smith Street.

City Clerk Steklac: Your Honor, you'll excuse me. There has to be a motion to open the public hearing.

Councilman Weak: So moved your Honor.

Councilman Lane: Support.

City Clerk Steklac took roll call. Carried unanimously.

Opened the Public Hearing at 7:43 P.M.

Mayor Rotteveel: Yes, Mr. Shoup.  
575

Jack Shoup, 17713 Smith: I don't have any necessarily bitter complaints, but I do have some concern about the blasting. My name is Jack Shoup, 17713 Smith Street, just to repeat that. I didn't know the meeting wasn't open...so. I have a, the complaint that I have is daily, I think that five days a week, pretty much five days a week, somewhere between 3 and 4 o'clock I get a rumbling of the home, dishes somewhat shake on the walls and it's just, you know, it isn't like it doesn't roll you out of bed, but it does shake the property.

Mayor Rotteveel: That is the blasting, the blasting always occurs on a Tuesday afternoon and Thursday afternoon.

Mr. Shoup: Well, I don't; know if it is just Tuesday I think it is more than that. I think it is at least two or three times a week at least, it seems as though; it may or may not be. I didn't try to keep track of the days. I just noticed yesterday in the paper that there was a meeting this evening. As I said before, I don't have any terribly bitter complaints. I realize they're in business over there and we have had the blasting going on ever since I was born, as far as I can remember; even so far as at one time it used to shake the plaster off the Sibley School ceilings. But I just thought since there is a meeting I would register I do have some concern about the blasting. I have a cracked basement; it has been cracked for a number of years so I know you say prove it and we will take care of the damages. But you can't prove something like that because in Michigan, you have all kinds of climatic conditions, hot and cold and so on. I think it is probably caused from that although I cannot verify the fact that it was. Also, my son, is not able to be here. He lives at 18512 Koester; his name is Jeff Shoup. His complaint is similar; he believes it has cracked the brick on his home, on the outside; there are cracks all over it and shakes also on the inside of the home, the dishes and so on. Really, I don't know any more about it than that. But I'm not saying that is the end of the world, but I think there is something to do with the shaking coming from the blasting, or at least it appears that way. Thank you.

Mayor Rotteveel: O.K.

Councilman Weak: Thank you.

Mayor Rotteveel: Yes sir.

Ed Polonczyk: 14670 Shenandoah, Riverview, Michigan. I come here and would like to ask one question. If you get five minutes, are we going under Robert's Rules?

Mayor Rotteveel: We're going with five minutes.

Mr. Polonczyk: Well, I am asking, are you under Robert's Rules?

Mayor Rotteveel: Yes sir.

Mr. Polonczyk: All right. Can I ask somebody for their five minutes?

Mayor: No.

Mr. Polonczyk: No, why?

Mayor Rotteveel: No, it's per person. O.K. You know...

Mr. Polonczyk: Oh, no, I am asking you a question.

Mayor Rotteveel: No.

Mr. Polonczyk: Robert's Rules.

Mayor Rotteveel: No.

Mr. Polonczyk: Well then you can't put this five minutes on me either.

Mayor Rotteveel: O.K.

Mr. Polonczyk: O.K?

Councilman Weak: It is the chair's prerogative, Mr. Polonczyk. We have rules of procedure and the chair has that authority to enforce the five minute rule. I mean whether you call it Robert's Rules of Order or Pete's rules of order, what we are trying to do is get to the facts of this meeting and quite honestly we ask people to get to their point as quickly as possible so that other people can present their \_\_\_\_\_.

Mr. Polonczyk: Well, that is what I am trying to tell you. But I am telling you this, when you hold a meeting like this, you either go under Robert's Rules you either go or you don't \_\_\_\_\_. But, I'll go along with you and I am going to get five minutes.

Mayor Rotteveel: O.K., Well, we....

Mr. Polonczyk: I live .. I was one of the citizens that was in charge of this damn blasting and I know what happened all the time. They were blasting and they didn't know what they were doing. I was in there, one time I brought the thing in my backyard. When they looked, they forgot to put the machine on. They couldn't get what happened. But to get to the nitty-gritty, this thing has been going on for twenty years, twenty-five years that I know of. The citizens are all shaken up this was in the Wyandotte News Herald and it told of all the trouble the people had and what happened. They didn't do a damn thing for the people. They are still blasting and you go to hell with them. But what I am trying get is how much are they shooting?

Mayor Rotteveel: We'll find out. We'll find out...they got...

Mr. Polonczyk: Well, what are they shooting? 50? 25? 10?

Mayor Rotteveel: Well, they.... my understanding they have quite control in shooting. And they do check it quite regularly, you know, there might be a blast that goes for an unknown reason that goes extra loud but, you know, they do have very tight control over the blasting.

Mr. Polonczyk: Well at one time, they were down to about three. Now I understand the last time they stopped them, they were on five.

Mayor Rotteveel: Five what?

Mr. Polonczyk: Five...they were doing it at 5, you know, 50 foot. You know, that they would blast at one time. Then they went down to 3 feet which was not too much noise.

Mr. Polonczyk: Do you know what they are doing now?

Mayor Rotteveel: No.

Mr. Polonczyk: You can ask them.

Mayor Rotteveel: O.K.

Mr. Polonczyk: O.K. because I don't have the time to get a hold of them, talk to them. Thank you.

Mayor Rotteveel: Yes, sir.

Walter Chrusciel - 20237 Maplewood Drive - Good evening. I have about

\$1,800.00 worth of damage I feel is because of the blasting. I take very good care of my house and I have noticed the cracks have been coming back. I had them put that sensor on my front lawn. It was just some young kid that really didn't know how to hook it up, missed the blasts, and so on. I also went to the bar with some of the fellows and talked to them. I guess they had a new blastmaster and he had problems last year I guess it was. And he wasn't quite sure of the charge and stuff to put in. So, all last year, I had problems and that is when I put in a claim, you know. Nobody's doing nothing about it. You know, and now it is up to me to prove it. I've had my house there I guess it has been 17 years. I can just imagine after 17 years of all this blasting, something's got to give. I guess that's all I'd like to say. Thank you very much.

Councilman Durand: Your Honor. Can I ask you.... have you heard anything on your claim?

Mr. Chrusciel: Who's....

Mayor Rotteveel: Excuse me.

Mr. Chrusciel: Yes.

Councilman Durand: Have you hear anything on your claim?

Mr. Chrusciel: I talked to somebody over here and I talked to some Bill guy. Yeah, he told me, some guy named Bill said, come out and I will give you a tour of the place. And I don't want to tour their pit. I want something done. He never showed up. You know, they gave me a tape; they gave me a printout and said here, look. That's like Chinese to me, you know.

Councilman Durand: So you have not actually filed a claim for damages from them.

Mr. Chrusciel: No, no against them. I had an insurance man come over and he has told me, you know, he has looked at it and he said yes, that will be about \$1,800.00, you know, to get everything fixed.

Councilman Durand: Have they determined the... you know, they just said there is damage. Have they determined...has your insurance company told you what caused the damage?

Mr. Chrusciel: Well, I gave them the printout that I was, you know, given because I told them it was due to the blasting. Because when I moved in 4 or 5 years ago I had my whole house taken care of; I am just that type of person, you know. And I've noticed on Tuesdays and Thursdays, you know, we get these blasts between 3 and 4 'o'clock. Since my complaint last year, I noticed... I used to get home right at 3:30 exactly and I would feel the blast. They would come about 3:35 and 3:45. These guys are pretty cleaver. They bump the blasting up to about 3:15 and 3:30 so I just miss them, so I can't..you know....I have not been able to feel them unless I've been home...got home early. So we are not dealing with some stupid people here, these guys are on the ball.

Councilman Durand: I just...I am trying to get some facts here. I don't want to get into a debate over it.

Mr. Chrusciel: Oh, O.K. alright, I'm sorry.

Councilman Durand: You filed a claim with your insurance company?

Mr. Chrusciel: Yes.

Councilman Durand: And did they pay it?

Mr. Chrusciel: Yes.

Mr. Chrusciel: Based on...

Mr. Chrusciel: The damage that they saw. They took pictures...they had...they sent somebody from some kind of an architectural place..

Councilman Durand: And they paid your claim?

Mr. Chrusciel: Yes.

Councilman Durand: Well, you know, I would say everybody here has got to be most interested in this. So I would...

Mr. Chrusciel: Yes, they did.

Councilman Durand: I would appreciate it if you could get that information over to our assistant city manager this evening. Because this is the first time we've....

Mr. Chrusciel: I came real prepared. I wasn't' prepared before; it was my fault.

Councilman Durand: To put it mildly, I am shocked that you received.. got a claim paid based on blasting and stuff. So, we are most interested, if you did, if you could get that information to us.

Mr. Chrusciel: O.K.

Councilman Durand: Really, quite seriously.

Mayor Rotteveel: Yes.

Councilman Weaks: (very quietly) Who's your carrier?

Council laughs.

Councilman Durand: We are not laughing at you..we are shocked that you a....

Councilman Weaks: We would like to know who your carrier is.

Cannot decipher response.

Tom Brewer - 18266 N. Wendy Court - I had new windows put in my house, big windows in the front and little windows all around the side. From this blasting, I had to replace my big windows because the guy that put them, he came out and adjusted them six times. And then he told me he can't adjust them anymore because he couldn't afford it. I got another big bay window put in and I've had the people come out twice for this one. Now this window has only been in for about a year and a half and anybody that says the blasting doesn't bother the people, don't know what they are talking about. I have called these people, and like the gentlemen that was just here, I told them I would like to file a claim and send somebody over to my house. I can show them the damage. I paid people \$1,000.00 to come in and paint the house and get rid of what they call nail pops. I painted my house myself and got rid of the nailpops, I thought, and within six months they're back again. Like I said I paid \$1,000.00; these people, I figured they knew what they were doing; six months, the damn nails are back again. The front sidewalk is about 3" from the house now and every year it gets a little further from the house. I had a new driveway put in and this is split right up the middle. Had a neighbor had one put in, he put his own in after that one split, 24" and that one is broke. And I know Michigan has hot and cold weather like it does up north, but you don't have the splits in your concrete where it is worse up north than it is down here. As far as my insurance company, they told me to settle with the quarry and I called this guy, Bill, and he said, well, our general manager said sue us because we never had to pay a claim yet. That is the attitude you get from these people. Thank you.

Mayor Rotteveel: Yes, sir.

Ron Wendell - 18011 Valade - I called the quarry out and they brought a seismograph out and took blasts and stuff. You know, I tried to work with them and do everything they asked. The problem I have is I put a new driveway in; it is cracked. I fixed the walls in my house, I was on the telephone the house shook. I looked at my wall, I have a crack from one corner of the window to the floor and from another corner of the window to the ceiling. The quarry called, I call them. They sent a representative out from the state of Pennsylvania to check the damages, this and that. They came back and told me it was my house settling. My house is 55 years old. When does it stop settling? When they decide to stop blasting? Or, you know, if it is settling, how come my garage, the floor from the garage and stuff that I just laid, didn't rise; all's it did was crack. It cracked the footings even, you know, these are made to hold buildings and not crack and there was

nothing on the cement to cause it to crack and it turned around and

cracked. I don't think the quarry is dealing honestly with us. I

think either we need to invest in our own seismograph and take our own readings to make sure these people are telling us the truth. That's my opinion.

Mayor Rotteveel: O.K., thank you. Yes ma'am.

Patricia Boyd - 19407 Wedgewood - We, like everybody else, know what is going on over there. We have like there 15 years and every Tuesday and Thursday, the walls shake. Finally, I got fed up and I called Michigan Foundation and had them come out with a seismograph. My husband was home that day. And they sent some young kid and they set it up in the backyard and he was on a little telephone with the guy that was doing the blasting and needless to say when the blasting went off, there was no shaking, there was no anything, there was no movement. You couldn't hear it. The house did not shake like normal. Needless to say my husband threw the guy off the property. Asked him if he was trying to make a fool out of him. You could not hear it; it was not normal blasting. And this has evidently been going on with anybody who calls them out with anybody that calls them out when they do finally come out. We have a crack from the kitchen window which is next to our family room, the family room is...the kitchen ends where the basement ends and then the family room extends from there. From our kitchen window, it goes down on the outside not on the inside to where the basement ends. My husband has fixed it twice, it is coming apart again. And he did it properly. Everybody that I've talked to on our street has problems like that. There are nail pops and you can go on and on and on. I just wanted to go on record as saying that I have dealt with Michigan Foundation, and I don't think they deal with us on the up and up. 1509

Mayor Rotteveel: Thank you. Yes, sir.

Roy Bennett - 13755 Hamilton - My complaint is really not at the blasting as I have been here before; it is with the noise. I have complained, actually I've complained since my son was a baby; he's going to be 8 years old this fall. And I have been told numerous things, they're going to put some piles up, they were going to do this, and it still, it is so bad some times, and not all the time, I do not want to exaggerate. But it is so bad sometimes you cannot watch tv with the windows open, you have to close the windows. But it might be where my house sits, not all the houses are that bad, but right where my house sits on a bad day, when the wind is blowing from that way, it's terrible. It sounds like a train running down all day long. I just wanted to come back and tell my story again. Thanks.

Councilman Durand: Mr. Bennett, is your...is the noise due to the blasting or the due to the rock crushing?

Mr. Bennett: Crushing.

Councilman Durand: O.K., so you're...

Mr. Bennett: Well, I assume it is the crushing; whatever the machinery it is, I really couldn't say.

Councilman Durand: I know where you live, and you would probably be about as close to anybody to that rock crusher in this city.

Mr. Bennett: I'm not....right, I'm not home during the day so as far as the blasts go...

Councilman Durand: You're in direct line, I mean, you're probably one of the closest to, other than the apartments, one of the closest to the rock crusher.

Mr. Bennett: Right across from the yard there.

Councilman Weaks: Mr. Bennett, just a quick question. In terms of their hours of operation, do they start at seven in the morning till.... what are their typical hours and how does that impact you?

Mr. Bennett: Lately, they \_\_\_\_\_ 1616 seem like a whole lot lately. In the summer time, it depends. I mean, over the years, it has really fluctuated, I've had sometimes a few year ago, they started at 5:45 in the morning and ran till 10 o'clock at night and other days, they run 7 to 3.

Mayor Rotteveel: O.K., thank you.

Councilman Trombley: Jim, I would like to relate....

Councilwoman Blanchette: Mr. Bennett, excuse me. One other question please. Do you have any other cracks or...in your foundation?

Mr. Bennett: No, I don't; not that I know of truthfully no.

Councilwoman Blanchette: No shifting of anything?

Mr. Bennett: Not that I know of.

Councilwoman Blanchette: O.K., thank you.

Mayor Rotteveel: Elmer.

Councilman Trombley: I would like to relate with his problem. I am very familiar with his problem. Myself, the former blaster Steve Dorenda and John Williams, we went over to his house but before we went there, we stood in the apartments off of Fort Street. We could hear, could not hear the crushers working. When we went over and stood in his front yard, we could hear the crushers working very well. They were supposed to...the idea to eliminate that was to build the piles up so they would be above the crushers, but they couldn't figure out is why they didn't hear it at the apartments but we could hear it in his front yard. I don't know what the air does whether it was going right over the apartments and the trees and dropping down on his street, but we could hear it very loudly in his yard, but couldn't hear it in the apartments right across from the crusher. That's on the crusher part.

Mayor Rotteveel: Anyone else? Yes sir.

Donald Capezza - 18208 Hamann - I am probably a block and a half from the quarry and like most of us here, I experienced, you know, the blasting for, well, 20 years or whatever. I probably attended most of the meetings that the gentlemen with the quarry had suggested with the council and some residents. And, you know, I am convinced that, not to put them down, I am convinced they are trying to do the best they can. But, you know, I too, have cracks on the side of my house. I have taken a survey myself, gone down the block and looked to see the path of the cracks. Most of the homes are cracked probably in the same position as mine; just about, there's probably a stress point in the house, but, on both sides of the house, I can go down 3 or 4 houses and most of them are cracked in the same location. So, you know, and again, I don't know that it's the quarry has done it or settlement, you know, but it's like the other gentlemen said he has been there 50 years and I think mine has probably been there about the same. But, I just thought I should come up and be on the record, you know, of the complaints. Some of the blasts have shaken me out of my chair almost and most times, at least in the recent past, they have been pretty good. I almost listen for them while I am sitting there while I'm in the house at a certain time, I think it's 3 o'clock or thereabouts, I'm almost, I think, like most of us, getting used to it. You get that rumble. But if there is some recourse, the gentleman over there said with insurance companies I'm certainly going to, you know, go after that and once you get the information from whatever insurance company they have, or that gentleman has, I'd sure would like to know who they are. But, I'd like to know for sure if they've paid a claim, because some of the homes, you know, I've had people from Hamann Street call me up. They know I am involved with city government and most of the time, it is on the days they are really bad. But again, it is unfortunate the city has to put up with something that is really not ours. We get no benefit from the quarry. The quarry is in Trenton. It is unfortunate they can't do anything about it or so they claim. And I don't know that that's still a lost cause with Trenton about them renewing their blasting permits and things like that. I just thought I would say, again, I really think they are trying to do the right thing, but as long as the quarry is going to be there, it's probably going to be a fact of life. The only way we can probably avoid it is to shut it down and I really don't think that will ever happen. Just hope that they continue to try to take care of the problem and if they do find that the problem is theirs, they should make some restitution to the people, homes they have damaged.

Mayor Rotteveel: Yes, sir.

Larry Hunter - 18761 Hamann - Done some extensive repair at my house

new drywall, some of the rooms old drywall getting alot of cracks. We've made some complaints to Michigan Foundation. Come over and set up the seismograph at the house. All we got back was everything was normal. Well, I think if that is normal, we've got a...we've got a big problem there. 2008

Mayor Rotteveel: Yes, sir.

Bob Smiley - 20232 Foxboro - my complaint is the blasting which rocks my basement; I'm in the center kind of directly in and also the noise, I have complained and it goes on deaf ears. I have alot a damage and I've been in that house about 20 years. Thank you.

Mayor Rotteveel: Anyone else? Yes, ma'am.

Jeanette Holmes - 17569 Quarry - I am close to Pennsylvania, though, so I am not right on top of the quarry but we've had to replace our porch, our driveway, our windows and our windows that have been replaced now are hard to shut. And I definitely believe that is because of the quarry. There are cracks on the walls and even on the tile in the bathroom, there is a crack across it. And I have seen one of the cracks come because of the blasting so, there is no doubt in my mind it is from the blasting. I watched it go across the wall and a couple of them we've, you know, plastered over and painted over and they come right back within days. I know it's on Tuesdays and Thursdays, and when I hear it I think, oh, I better get home. If I'm anywhere in Riverview, I've been at the stores, the Big Boy and the dollar store and those stores there in Riverview and I can feel the ground shaking and I say the kids are coming home from school; I've got to get home. And I, you know, this thing with the insurance company, I wouldn't even try my insurance company. That isn't fair to them, they didn't cause the damage and that's not a work of god. I believe it should be Michigan Foundation that pays for any damages to us.

Mayor Rotteveel: Is your address on Pennsylvania Road?

Ms. Holmes: I live right on Quarry, 17569, but it is close to Pennsylvania, it is not by Sibley.

Mayor Rotteveel: Anyone else?

Councilman Trombley: Your Honor.

Mayor Rotteveel: Oh, excuse me.

Norma Brickey - 17629 Matthews - One thing I have noticed lately in my neighborhood and surrounding neighborhoods is that more and more people are replacing their porches. More and more people are using wood porches because they are durable. California has earthquakes all the time and it causes damage. I don't know what the Richter scale registers when these blasts go off, but someone asked me one time if I felt that earthquake? I said I feel it every week at 3:10. I said I wouldn't know if it was an earthquake or blasting at the quarry, but every time they blast it feels like an earthquake, everything shakes. I have an overhang on my house, and every time I patch the ceiling over the overhang, within 3 days, it is cracked again. You can not keep ahead of it. Eventually, if this is happening day in and day out, week after week after week, something has to give. Thank you.

Joe Kroll - 18302 Hamann - I guess I got the image like anybody else, but I would like to know have we, as a city, had independent tests done or are we relying on just their say-so and their machines?

Mayor Rotteveel: I think they, didn't they hire....

Councilman Durand: That NTH?

City Clerk Steklac: There has not been any independent since I've been here in October, 1988. There may have before I came.

Mr. Kroll: It sounds pretty...I mean it's kind of stupid to even say this but if they send out their machines, hey, let's lower the blasts everything will look good, and get people off our backs. My house is cracked, right up the side. I live down from Don. This is just...we are believing people's machines and we're not even going against their word.

Councilman Durand: Your honor. Joe, if I am not mistaken, we..this

has been going on for....

Mr. Kroll: I've lived in that house for 32 years. I know how long.

Councilman Durand: Since the ten years that I have been involved, you know, in the city, 10 or 12 years, if I am not mistaken, several years ago, we did get involved with some of our own independent testing. I think it was NTH, Neyer Tiseo, Hindo, did some stuff for us. It was inconclusive, you know, the results. The problem is, the onus is you have to sue the quarry if you feel you have damage. That is what we have been told by our legal staff. That is the stance the quarry has taken. If you have a problem, you sue us. We, can...Mr. Capezza summed it up perfectly. They are in Trenton. Trenton has either chosen not to or can't do anything. It affects a very small proportion of their population and the blasting...and from what I understand, from the earth's structure, it doesn't affect North Trenton the way it does your area and the Forest Subdivision. So, the complaints, I guess, aren't that loud from Trenton so that is really the situation we are in. But, I think we could probably go back to the records and see what testing we did several years ago. We didn't do any?

Mayor Rotteveel: That is the purpose of this hearing.  
2334

Mr. Kroll: I think we need to do some testing, but we need not to let anybody know when it is being done.

Mayor Rotteveel: O.K.

Councilman Trombley: I could say the only thing Neyer, Tiseo & Hindu ever done for us, is that they did testing at our Landfill. But, Neyer Tiseo & Hindu did do some work for Michigan Foundation this years ago when we had the meeting with the Trenton Council and the Riverview Council and Trenton and they tried to convince us what we were hearing we weren't really hearing or feeling and it didn't turn out to be a very good meeting. But, I've been on this blasting since I've been on the Council. I know since 1988 everything...we really got into it and it started to calm down. Now we're kind of getting back to business as usual and I want to Michigan Foundation I am not scared; I'm the one who called-my colleagues supported me with this public hearing and if you think people are not upset about the blasting, they are. Michigan Foundation has been at my house regularly at least 4 or 5 times. I was not there, my wife was there and she told them didn't you hear...can't you...didn't you hear our windows rattle? I don't know if you did or not, Bill, my wife I believe her and I know because I've got 3 kids One lives on Hamann and one on Valade and the only reason they're not here tonight is because I am sitting here and they don't want to think they're doing it because their father is a councilman. But, I'm telling you all the people in Riverview are getting all upset again with the blasting. It's not like it was five years ago, it calmed down; we had very few complaints, I think. We keep track of all the complaints, maybe a couple complaints and now the complaints are coming in. I don't know how many seen it in the newsletter, but I've seen enough people here that seen it in the newsletter from different parts of the city telling you that yes, you are rattling the city again and we want it stopped. The other thing is, like Tim said, we can't sue for you. I talked to the gentleman over there, in fact, I've been to several peoples houses. I told them the only thing to do is to pull together and you want to take them on, you can do that. Otherwise, I don't know what to tell you. But I really believe it is their fault.

Mayor Rotteveel: O.K. Thank you. Yes, ma'am.

Jan Hunter - 18761 Hamann - I live five houses off the corner of Sibley and Fort Street. I have a question, when they came out they said...put their little machine out, they did their test or whatever and said it falls within their level of the sound reduction and everything. Who sets that level?

Mayor Rotteveel: The government. The federal government.

Ms. Hunter: Who does, I'm sorry.

Mayor Rotteveel: The Bureau of Mines, the federal government.

Ms. Hunter: O.K. Something is wrong. I can feel it when it shakes.

It shakes the whole house. I can feel it. Even my dog who is huge gets all rattled. Something is wrong. That level needs to be reduced or we have to put some more restrictions on it because it is really doing some damage.

Mayor Rotteveel: That is why we have the public hearing. Thank you ma'am. Anyone else? Yes, ma'am.

Vicki Pawolitz - 17819 Reno - I would like to go on record. Thank god my house is 50 years old. I wouldn't want to live in a new one with all this blasting. I moved in here and I documented it; I have times and dates and it is so regular my china if you put them together and time it at the right time, I can get it to click I've showed people how it does it when the blasts go off. I can't see how a city this well off can't go class action and nail these people right to the wall. I mean, I hear you people that's been here much longer than I have, all these years you have put up with it. I lived in Melvindale when they had salt, Morton Salt, was under there. Very rarely did you ever hear them blast and they were under our homes, we knew that. Here, it is so regular, it's just...you pay all these taxes and we cannot do anything and I think these people should all get together and maybe hire Jeffrey Figer and we might do something.

Mayor Rotteveel: Anyone else? At this time, we have a representative...

Mr. Polonczyk: Can I talk again? I forgot something.

Mayor Rotteveel: Go ahead.

Councilman Weak: You are violating your own rule.

Mayor Rotteveel: No.

Councilman Weak: How much time does he have left?

Mayor Rotteveel: About one minute.

Mr. Polonczyk: I brought this along with me and here's some of this stuff that's going on around here that people don't know. But you have propylene that's underneath the river here about, I'd say, 1,300 feet down and it has been laying there for 30 years. If that ever blows up, look out, we are going with them. Ashtabula, they got the salt mines and everything that goes down that way Fighting Island has a hole that's about 200 feet down and they have been plugging it with stone and everything, I know, I used to do it and the thing is about 250 feet deep, it is still there. You got the salt mine; you are getting stuff from Midland, Michigan coming and dropping into that place there. But the biggest thing I can tell you is that Fighting Island, right here, and that, and you got them people throwing this...blowing up the place around here and one of these days, you're going to just blow the hell out of it and everybody's going to go down with it. That's it.

Mayor Rotteveel: O.K.

Mr. Polonczyk: I mean, I'm not lying. It's all there. You can go ask people, they don't want to tell you what is going on out here. But, that is what's going to happen; one of these days, one of them holes is going to go, and everyone is going to go with them.

Mayor Rotteveel: At this time, we have representatives from Michigan Foundation here. Maybe they would like to address Mayor and Council.  
2836

Mr. Bill Schiech - Michigan Foundation - I am quarry manager and blasting coordinator. I have held that position since probably 1988, mid-1988 and at that time, people said there were blasting problems and we made changes. I was instrumental in the changes being made then. It is still directly under my control all the blasting activities that are done now. People have said we have made..changing back to business as usual, or back the way things were before when, in fact, we have a large investment in that quarry and it directly pertains to...our investment pertains to making sure that we take care and listen to and be a good neighbor to the City of Riverview. And by the way, we pay our school taxes to the City of Riverview, so you are getting something out of the deal. As far as the blasting concerns, a couple years ago

we presented a blasting format to the City of Riverview. We perform self-audits on our blasting activities continually throughout our normal production year, our year to year basis and month to month basis. And I am here to say that our blasting format has not changed from what we addressed to the City of Riverview two years ago. The blasting sizes of our shots and our normal blasting procedures have not changed at all. People want to direct a lot of fingers, but I am under...every bit of the blasting done in that quarry, is under my direct control as far as buying, setting and performing all explosive activities. Our vibrations and impact on those seismographs and meters, which by the way, are not owned by the City or not owned by Michigan Foundation Company, they are owned by a third party seismic company by the name of Geosonics. And I would...our blasting times, there has been...we have heard that it is 5 o'clock, 4:30. Our blasting time, our blasting window with the City of Riverview is between 3 and 4 p.m. on Tuesday and Thursdays. Depending what our activity is and what safety factors we have to deal with it may be 3 o'clock, 3:15 or 3:30 our activities start. In conjunction with that we had some problems on a spike, if you will, people got a little more sensitive to our blasting back on August 9th. What that was due to, was not an increase in the blasting size of the shots, it was due to the number of the blasts in what we found out to be a sensitive area. Each and every person who has come to this podium tonight who has a viable claim against some of them, I have not heard of before, our company will be glad to address each and every one of those claims on an individual basis. We have again, people have said is there anybody out there to take our word. A third party company, they are the foremost probably the foremost in the county as far as seismic blasts in relation to homes, their president is here with us tonight and he will address the podium as to where we are in relationship with other areas, our we doing our job, are there areas we could improve? We also have with us tonight is our blasting, I'm sorry, our mining consultant who has set the mine plan from which the City of Riverview \_\_\_\_\_ 3200 Michigan Foundation and Detroit Edison all have complied. The mine plan we presented to you, he has established and he will be here to see...tell you how we have done on that. Reference was made to the size of the blasts. What are the limitations? The City of Riverview was directly involved when the .5 limitation was established as a contractual deal between Detroit Edison, Michigan Foundation, and I think, Elmer, you were part of that. Michigan Foundation has a self imposed limitation of .25. Again, the Bureau of Mines established 2.0 as something that would damage a home; that has been cut in half, cut in half; and cut in half again. To date, 94 as far as our impact on the neighborhood, in 94, our percentage...the complaints were a little higher due to a spike that we had on sensitivity on August 9, but our overall impact on the seismograph is 2 percentage points less than 93. Each year we will strive, when new technology presents itself, to decrease that in whatever way, shape, or form we can because the Michigan Foundation does care about the City of Riverview and its neighbors. We spent the last three months on a very in-depth study as Elmer eluded to going to and from. People say we don't care what you seismograph says, you have to feel what we feel....and we actually sat in residents' homes, different people throughout the neighborhood to feel the impact of what they feel. Those calls that happened in August were due to the number of shots and not the size. I think a lot of what happens, and we say it is perception, people's perception, you have to put your faith in something, if there is a piece of machinery there, they were saying well, the technicians or the people we sent out were just kids and what have you; I think the youngest kid we have in the quarry is 25 years old, but our technicians have been trained by Geosonics, Inc., by their representatives and their equipment is state of the art and it is certified and there is no tampering that can be done with that equipment. I am not going to go into a lot of that because there is a lot of technical jargon, but we do respond, and I think the Mayor can attest to this, to the feelings and the impact of the neighborhood. If there are some people here tonight that have not been responded to in a correct fashion, and I assume there are some, again, we will listen and attend to each blasting complaint that has been before you.

Mayor Rotteveel: We do have the names and addresses for the record here.

Mr. Schiech: I'm sorry, I can't hear you, Mayor.

Mayor Rotteveel: We do have the names and addresses for the record.

Mr. Scheich: Very good, we will get a copy of that and we will contact each and every one of these homeowners directly. Again, I am a homeowner, too, and if I thought there was something happening with my home, I would be very concerned but having gone and sat personally in people's homes and having had the city council out to experience our blasting here a couple weeks ago, everyone was invited, a few of you attended, and I am glad that you did, it was seen as not the catastrophic blastings or explosions that a lot of people think. It is very controlled and very planned. Now, if I may, I would like to introduce Jay Kasomroski, he is the mining consultant....

Councilman Weak: I have one question for Mr...

Mayor Rotteveel: Yes....excuse me.

Councilman Trombley: I would just like to make a statement, Bill. I got back into this in about 1988. There were enough signatures in the City of Riverview that we were coming after the quarry to shut you down. After that thing started to change around, along with my colleague, Kathy Thiede, we really worked hard on that. They cleaned out the quarry, they got new people in there and things started to happen and it got pretty good for about five years. I think it was about from about 88 to 93. I have the plan that Michigan Foundation gave me. I still have it; I showed some of my colleagues the plan and the black lines and what they were doing and what they were going to have done. Things were going pretty good until 1993 or so on. But, here the last year, here we are coming back and we're getting....we're going back to 1988 again, you know. What I am saying is you've been in my house, you've heard my wife tell you, I mean if you can't feel that rattle and you can't hear the windows and she thinks something's the matter with either her or you, but you hear the other people talk that they popped their nails and the china shakes, and I've had people say stuff come right off their shelf, fell off the shelf and broke. So we're getting...that's why they are here. We are not picking on Michigan Foundation, but now they're getting back to I said business as usual, you know, I kind of meant that because I'm home a lot now too and I feel it. You have called me several times and I've told you, yes, I felt it. I felt the first one, I felt the third one, I felt the fourth one, and, you know, if there were shots in between there, you know, the second or third one, I might not have felt, but we absolutely felt the ones we felt and like NTS told us way back in 1987 or 1988 you might not be feeling what you think you are feeling. I mean, we are not really stupid when you feel something you feel it and when you hear your windows shake, you feel them shake and see them shake.

Mr. Scheich: There is no denying that.

Audience Claps.

Councilman Trombley: All I am saying is, getting back to where we were before, and I think the people of Riverview, enough of them spoke and I suppose there could be another petition taken up. And my last question to you being I heard this insurance claim paid, how many claims has Michigan Foundation ever paid off?

A member of the audience shouts something. 3660

Mayor Rotteveel pounds the gavel.

Others begin talking.

Councilman Trombley: I don't think they have ever paid one off. I've been into homes, NTH has been there. They took pictures of people's ceramic tile in the Forest and they had contractor's in there and they said it was not from the workmanship, they brought everybody in there and said it was from the quarry and NTH came in and said it is not from the blasting. What else could.....

Mr. Scheich: (interrupting) Well, Elmer, I can not answer from before my tenure there. What the thing was when my tenure started in 1988/89, was that we were going to blast a certain way, we were going to do a lot of things and I am here to tell you that format has not changed one iota. There's a lot of geological and groundwater deals that we cannot again compensate for, but our blasting format has not changed at all...

Councilman Trombley interrupts. I guess my point is I picked on you before.....

Mr. Scheich: If I could....

Councilman Trombley: I pick on you before and you straightened things out; so if we have to pick on you again, I guess we are going to come after you again unless they straighten things out.

Mr. Scheich: Well, of all the studies I did for example, I know one thing, this three month in depth study established one thing. There has been a lot of speculation that all the vibration went down and went around and all that. The people closest to the quarry feel the bigger impact of the quarry. There is no question about that. And...for example, I saw...you know, we are talking about perceiving and perception. When blasting is so light, you don't know if you felt it or you heard it, it must be pretty light. In fact, I stood in your kitchen in felt your counter top and that house shook a heck of a lot more from a guy going by with a boom box in his van than the blasting ever did, right or wrong. I've called your house many times and a number of other people each time to find out how the blasting is going; have we changed? I felt yes there was a problem in August I felt that just by the seismic work you have to put your faith in something and sitting in the homes that as of mid-September, the blasting was corrected and it had improved. Do you agree with that sir?

Mayor: Yes, sir.

Mr. Schiech: O.K.

Several people are taking at once.

Mr. Scheich: Ok, if I may now, I have a lot of technical things that I want to address.

Mayor Rotteveel is interrupting saying "excuse me" four times.

Councilman Trombley: Well, I can tell you this....

Mayor Rotteveel: Just one second. Councilman Weeks wanted to ask one question. Councilman Trombley sort of asked my question, but I will ask it differently. He asked you if you have paid claims during your tenure and you were unaware of it?

Mr. Scheich: During my tenure again, there were a couple claims made of blasting. One of them was Mr. Wendell, that I do know about. Again, we sent out a third party arbitrator, the Geosonics Company, to make and observe this blasting claim to find out what they thought and a copy of it was sent to the City of Riverview as well as \_\_\_\_ ? \_\_\_\_

Someone in audience shouting. Cannot decipher.

Mr. Scheich: Again, there are a number of people here, if I don't know about their claim personally I plan on addressing each and every one of them as I said. Some of them are news to me.

Someone still shouting.

Councilman Durand: Pete, keep it control here.

Mayor Rotteveel hits the gavel.

Mr. Scheich: If I could, I would like to answer the claim that maybe the blasting or blasting format has changed. If I may, I would like to introduce Jay Kasmoroski, the mining consultant, who set forth the mine plan that we abide..go by and Detroit Edison and our company mutually hired to have that done. May I do that sir?

Councilman Durand: Your Honor, before you do that, could you please ask your question again?

Councilman Weeks: No, I'll save it.

Councilman Koch: I would like to ask Bill Schiech a question before he steps down.

Mayor Rotteveel: O.K

Councilman Koch: You know, Bill, I know you haven't been there 20

years, but I am going to tell you, you carry the philosophy that your previous people over there have carried for 20 years. I have set on this council, this is my five term...fifth term and I have heard over and over and over again from you folks that if this is a problem, you will take care of it. But, do you know what, I can't remember one occasion where Michigan Foundation felt they were the problem and they took care of it. So saying you are going to come out and these people hearing that, doesn't mean anything if you're gonna go out and you're going to write off what because some expert says the damage in their house. The damage is there. You acknowledged yourself, if you live in those subdivisions near the quarry, there can be times like August 9. There can be times you people are responsible. So all I want to know is when are you going to do what the philosophy has always been - take care of the homes? And I would say this to the people in the audience. All of us depend a little bit too much on Michigan Foundation; they are the leasor with the rights to mine that property, but the owner, and the person we want to go after, I think, if you want to get results, because they do care about being good neighbors, is Detroit Edison. So I would like to see everybody in this audience, including this Council, go after Detroit Edison. Then, we are going to get some response. But, Bill, the only thing I am saying, it's not your fault; I'm saying it has been a philosophy for years, the Foley's have said it for years, we want to listen, we want to work with you. But I want them to come in and show me where they have fixed some peoples houses. That's all.

Mr. Scheich: O.K. well, again, I was involved in blasting long before the quarry where I directly did blasting in front of peoples homes, trench work, what have you, within a few feet of peoples homes and the blasting numbers we did pre-blast surveys, post-blast surveys, before and after and the compliance numbers that we have..we abide by, that we have agreed to and the City has established for us to control are so far below damageable, known damageable levels, that it is not really, I could sit here all day, stand all day and tell you what I know and what I do. I think it is better that you again, as you mentioned, you need to hear from experts in the field.

Mayor Rotteveel: O.K.

Mr. Scheich: And so, if I may introduce Jay Kasmorski, and then after him, D.T. Froge, who is one of the foremost seismic and blasting people in the nation. So, if I may, Jay Kasmorski.

Mr. Kasmorski: Good evening. I am the vice president of Continental Placer. We do mine planning for the eastern half of the United States. Probably done 80 mine plans or more and I've been doing this since about 1974. And I started working for Michigan Foundation about 86-87 because of complaints at that time. The plan, Mr. Trombley, that you have, is a composite plan that was paid for by both Detroit Edison and Michigan Foundation. My directions, for that plan, specifically were, no matter what else happened, I was to minimize impact on the neighborhood as far as possible. I mean that was from both copies. It wasn't anybody doing anything in the background or lip service to it; that was the instruction. I came up with the best mine plan that I could up to an including that we mine various elevations, different parts of the quarry, different production rates, different bench heights, uh, a whole variety pariameter, with the idea of again, trying to minimize impact on the neighbor. Mining is not going to be one of those things that you don't notice totally forever. They blast rock so that you can put it into your houses, into your cement, into your roads. If you look around this room, almost everything in this room is either \_\_\_\_\_ refined or extracted \_\_\_\_\_ and that is not to excuse bad neighbors. The \_\_\_\_\_ last 7 years and particularly the last 5 years, what I have seen, \_\_\_\_\_. My job is to review how are they operating. Are they sticking to the mine plan? Can we do things better? All those items at one time. Consistently, their blasting levels have stayed the same or come down. I mean at this point, their blasting levels if you looked at operations that are typical in the United States, their blasting levels are generally in 50% or less than what is typically accepted \_\_\_\_\_ in the eastern half of the United States it is not the sort of thing they just said (makes sound) the heck with the neighborhood. They have spent an awful amount of money modifying the blasting and doing things that you would not typically do again in other parts of the United States trying to be good neighbors. I think the gentleman that came up and said Michigan Foundation is trying to be good neighbors was speaking the truth. That's what I have seen the last seven or eight years. Yet, at times, the implications is

perhaps of doing things differently on different days. Well, you can't really do that because when you load a shot, that shot is designed to break rocks, the spacing burden are set on that shot to achieve breaking rock down to a particular size. So, if for instance we have a seismograph in the wrong yard, and we better be careful on this loaded it half way say, left out 50% of the powder, probably what would happen is it wouldn't break. You'd get to go in there with a hammer and beat on it and that is horrendously expensive beyond what they?? normally what they do out there. They do a significant amount of that, a lot more that is done at other quarries again, because \_\_\_\_\_. I am now particularly looking at the next five year mine plan and part of that is review of what has happened over the last five years. And, at least from what I have seen over the last five years, from all the checks I made on it, stuck very close with the agreement and the plan that I am sure you have, it's got to be one I generated back then. Again, are we making improvements? Yes. Mining \_\_\_\_\_ in areas that we do not realize are sensitive \_\_\_\_\_ mining less \_\_\_\_\_ parts of the quarry. And trying to mine in \_\_\_\_\_. Again, the object of the exercise of Michigan Foundation is not to be a bad neighbor; it is to be good neighbors and it doesn't do them any good to have a lot of complaints \_\_\_\_\_. The business \_\_\_\_\_ people like \_\_\_\_\_ business and have people \_\_\_\_\_.

Councilwoman Blanchette: Your Honor.

Councilman Trombley: If you say....

Councilwoman Blanchette: Your Honor.

Councilman Trombley: If you say, if you say that you are busting up big rocks now, then you are not getting the production shots that you want. Because if you got to go in there and bust the rock to get it in the crusher. I know a little bit about that. I know what a production shot is and a screwed up shot it is, where they have to go down in the quarry and break the rock up and get it in the crusher so it will take the smaller rocks. You can't put a boulder in the crusher. So, if they are spending a lot of time, and I know it is more money if they got to send someone down there after the blast to break it up, I know that is costing a lot of money and that is not a good shot.

Mr. Scheich: It's a good shot if you are trying to maintain low seismic particle velocity and trying to be a good neighbor. That particularly occurs in some of the areas where they are way below any limit that could cause damage to houses, but they are still trying to be better neighbors.

Councilman Trombley: Well, that's....

Mr. Scheich: \_\_\_\_\_ cost to them.

Councilman Trombley: I think that's what this is all about now. The past five years hasn't been that bad. I mean it's... we got some shots that weren't that bad, I mean they were bad but they weren't consistent and lately, they were pretty consistent and that's what these people are upset about and they are not just the ones sitting here; it is the whole community.

Mr. Scheich: Sir, I came out to your study session, remember, in November I believe. \_\_\_\_\_ as part of getting ready for that meeting, went through the \_\_\_\_\_ they had. And that's where we came out in the meeting and I think one of the folks actually asked the question does taller benches result in fewer \_\_\_\_\_ and less shaking. And from the checks that I have done, \_\_\_\_\_ Michigan Foundation \_\_\_\_\_. There was nothing that went awry in August other than they were putting a sinking cut and as soon as they realized it was causing problems, \_\_\_\_\_ he was not realizing \_\_\_\_\_. So, once again, it can all turn out right. Certainly trust us

Councilwoman Blanchette: Your Honor, excuse me for just a moment. I didn't get a final answer from Bill. The Bureau of Mines - what is their bottom line for blasting in a residential area? You said it was decreased and cut in half and decreased, started at .5 and 2.5 what is the bottom line?

Mr. Schiech: Two inches per second. \_\_\_\_\_.  
Generally accepted is .5 \_\_\_\_\_.

Councilwoman Blanchette: O.K. Also, you are an expert in your field; you keep talking about across the United States, how many quarries do you have similar to the situation with Riverview that is so close to homesteads that are being damaged?

Mr. Schiech: \_\_\_\_\_

Councilwoman Blanchette: Go ahead, sure.

Mr. Schiech: At least six or seven \_\_\_\_\_ blasting \_\_\_\_\_ structures \_\_\_\_\_.

Councilwoman Blanchette: Do you have similar complaints from residents?

Mr. \_\_\_\_\_: We have fewer complaints and the studies that have been done \_\_\_\_\_ .5 inches \_\_\_\_\_ is 20 or 30 years \_\_\_\_\_. It is really a sad truth \_\_\_\_\_.  
4940

Councilwoman Blanchette: I understand, I think people are very much aware of the fact that weather is going to damage your house somehow; their point is the blasting. I have one last question that's really bothering me from the lady on Wedgewood, Pat. Can you please shed some light on the fact that they felt blasting, they felt shockwaves, they felt something, but when the seismograph was set up, they felt nothing. Can you please explain?

Mr. Scheich: Yes, would it be possible....the fellow that is coming up next....

Councilwoman Blanchette: O.K. I will hold my question for him then.

Mr. Scheich: Cannot decipher.

Councilwoman Blanchette: O.K. Thank you.

Councilman Weak: Your Honor, I just have one question for this gentleman. Who pays your fees? Is it Detroit Edison, is it Michigan Foundation?

Mr. Scheich: \_\_\_\_\_. The auditing is done by Michigan Foundation.

Councilman Weak: O.K. Thank you.

Mayor Rotteveel: O.K.

D.T. Froge. I am president of Geosonics, formerly with Philip Barburger & Associates. I am a professional engineer and physicist and I've been in the vibration business since the early 70's, formerly an enforcer of regulations for the State of Kentucky. We have been coming to this site since I've been with the company in 1980 periodically reviewing what they are doing and giving them the benefit of our best advice. They lease some seismographs from us. We have just completed a review of what they are doing and from a review of the records, I think at this point they have a better record in the last.. this last period of time last year or two than any time that I have been reviewing what they've been doing. The vibrations levels are less, the air over pressure are less, and the general complaints are less than anytime that I can recall. At this point, I am not in a position to give them a whole lot of advise as to what they can do to improve their vibration. I would recommend that their cubic yards be increased and the number of shots go down. I think one of the problems that is generating concern is the number of shots, but at this point, I don't have a lot to advise them as far as controlling their blasting.

Councilwoman Blanchette: Your Honor. May I ask to address the same question, too, please. Pat had indicated that they felt a lot of vibration from the blasting or shockwaves and when someone came up to set up the seismograph, and they....

Mr. Froge: They shoot at several locations in the quarry some of which are perceptible, some of which are not. And should the person be setting up the seismograph when they are shooting at one of the places it is not perceptible, then they would not feel it and perhaps would

not even record it.

Councilwoman Blanchette: So they could have had a blast in a particular area that would directly affect their home, but when someone came up the seismograph..(laughing)

Mr. Froge: That's exactly...thats exactly...

Audience claps.

Councilwoman Blanchette: I am sorry, that is not funny.

Mr. Froge: That is exactly what happened. Whether or not something like that is deliberate or inadvertent, it is hard for me to say. They do have two seismographs permanent set up continuously, they have a roving seismograph that they use at various locations. So even though they may not be able to record on that particular shot, they are recording all the shots.

Councilwoman Blanchette: So, it might not be affecting her home at the time; it might be affecting someone else's home say on Thornwood...

Mr. Froge: That's correct...

Councilwoman Blanchette: ....or Hamilton.

Mr. Froge: Right. They have two seismographs that are permanently stationed at the same location, in general, on every on every shelf.

Councilwoman Blanchette: At the quarry?

Mr. Froge: Yes. They are located on the north side and in Trenton. Yes, it is.

Councilman Trombley: I would like to ask you, even though it is immaterial, how do you know about how many complaints they get?

Mr. Froge: Well, they get a report. I see the report of the complaints. Now these are complaints that come into the quarry and I don't know that is every complaint, but, I have been at meetings that were...where there were far more number of complaints than there are now.

Councilman Trombley: How long have you been with them?

Mr. Froge: I have been coming to this quarry since about 19 and 80. Sometimes during the 80's, there were....

Councilman Trombley: And you say now is their lowest complaint time?

Mr. Froge: Pardon.

Councilman Trombley: You say right now is the lowest complaints you have ever..

Mr. Froge: It is lower than what I can remember.

Someone shouts something from the audience (cannot decipher)

Councilman Trombley: She must not be talking about Riverview, right.

Mr. Froge: Well, the number...the vibration levels are actually lower and the air over pressures are lower than...

Councilman Trombley: ...I just wondered where you could come up with that statement you knew about the complaints.

Councilman Lane: Your Honor.

Mayor Rotteveel: Excuse me, also, the people can call in to the City Mangers office for the blasting, you know, and they are all recorded. Now, \_\_\_\_\_ about one or two complaints a month?

Mr. Steklac: On an average, a couple more than that maybe, but probably not more than ten.

Someone from audience: I guest we just call here Tuesday and Thursday

Mayor Rotteveel: That's the reason we got the public hearing is to... we want the people to register the complaints for us to get a good feeling, you know...

Mr. Froge: That's correct.

Mayor Rotteveel: ...and if we don't get the complaints, the City of Riverview cannot do much. And I know the telephone number...everybody knows the telephone number from the City Manager's office; you know, and all they have to do, matter of fact, probably most of the complaints what came in to the city was probably called in from me because I live close to the quarry. And the reason I did call to complain was just to register, you know, to let the people in the quarry know, yes, there is a little more noise going on than before. So they....

Mr. Froge: When I sav number of complaints, I was just in Broward County last week and they started blasting the 1st of December and they had 150 damage claims and 350 complaints; and those are large numbers.

Councilman Weak: Let me just comment on that. I mean, if you lived in this region for 40 years, you know, you become accustom to blasting...

Mr. Froge: That's true.

Councilman Durand: ..and all of a sudden, you don't make the complaints even though you have the same issues, it becomes kind of \_\_\_\_\_ 1849. I heard somebody make a new comment there is a new generation of people coming through town and this is unacceptable. Our parents may have accepted it.

Mr. Schiech?: (inturrupting) I think....

Weak: Let me finish, let me finish.

Mr. Schiech/Kasmorsky?: I think what you are saying is exactly right....

Councilman Weak: No, you are not letting me finish.

Mayor Rotteveel: Excuse me. He hits the gavel.

Councilman Weak: All I am saying is that now, you know, it is a wonderful sell job to say you care and you will do everything you'll come out and put seismograph up but people are saying that is not enough because a) we know you are doing seismographs because you are protecting yourself. You are going to protect yourself from litigation and you're going to come in and no matter how much money either the city spends or the resident spends, you have the data to back up your claims. I mean, so quite honestly, you will deny everyone. Unless, of course, a house sinks in for some ungodly reason, something catastrophic happens and your are going to find \_\_\_\_\_ communities like this. I look at it, I'm glad you are here; I'm glad you are talking. My concern is you are going to \_\_\_\_\_ back everything that happened from today and beyond. I want to know what is going to happen in the next year. Are we to expect is going to get better, it's going to get worse; are your plans going to be such that it will affect Riverview more or are you going to change this mining plan to reduce it? I want to know what you are really going to do to solve the problems. Because, believe me, you are not going to pay our claims. That, I feel very comfortable in making that statement. So I don't now that you are the right person to answer that question in terms of what is going to happen tomorrow.

Mayor Rotteveel: O.K.

Mr. Schiech/Kasmarski?: (Very hard to decipher.) \_\_\_\_\_ if I could interject.

Mayor Rotteveel: O.K.

Mr. Schiech/Kasmarski: We had a meeting with the city council at a study session on blasting. We found that, as I said, we have gotten levels down as far as we can get them as we're technically able to do at this time. We found the numbers of blasts we had done was what directly caused a problem in mid-August/September; the speed on it - we have slowed, we had shots going off slow. We did a couple things to modify the blasting, but basically what we did is, as I told you at the last meeting, was directly cut our blasting events in half in the sense of \_\_\_\_\_ impacting the City of Riverview and got our stone elsewhere. We tried to as we said two years ago was to take blasts \_\_\_\_\_ move on and doing four blasts in that area was too much \_\_\_\_\_ we would \_\_\_\_\_.

Councilman Weaks: So it will be no worse than today is what you are telling us?

Mr. Kasmarsky/Schiech?: Today?

Councilman Weaks: I mean today being the last two/three months of production blasting.

Mr. Kasmorski/Schiech?: Blasting \_\_\_\_\_. Again, \_\_\_\_\_ we will maintain the same force of blasting \_\_\_\_\_. We have to adjust the number of blasts \_\_\_\_\_. Again, there are people \_\_\_\_\_ say they have not had their claim answered \_\_\_\_\_ and that will be done on an individual basis.

Councilman Weaks: And I am sorry for interrupting cause you are really not the right person to really make...

Mr. Scheich/Kasmorski: \_\_\_\_\_. Where does it go? (??)

Councilman Weaks: I won't ask that question; I'll save that for you or someone else. Are you really now saying because in terms of evaluating the operation that site, the number of complaints is an integral part of performance? And if it is, should people not only be notifying the City of Riverview, notifying your site? Because, really, you know, the seniors in this town, they have accepted it and their and not going to call. Now there is a new generation of people. If they now need to know, they need to call your operation to say this is unacceptable; I'd like to give them your number.

Mr. Froge: What you are saying about the new people coming in is exactly what happens. In 1980, the limits were closer to 2 inches per second. At this time, they are on the order of an average of a tenth of that. But the people who were there in the 1980's, they don't complain because it is improved by that much but the new people coming in...

Someone in audience comments.

Councilman Trombley: No.

Mr. Froge: ...it is considerably lower vibration than there was then

Councilman Weaks: See, Councilman Durand, he lives about a half mile from me I am in Dearborn everyday, but he has made several comments that there have been in the last six months significant increases. It is more than the August 9th event so I'm not certain. I'm sorry I put words in Tim's mouth, but I....

Mr. Froge: The numbers are relatively small compared to any other time in this quarry's history that I have been around it. The vibration levels and the air over pressures. Now, that is not to say you won't feel the vibrations because...

Councilman Weaks: We will.

Mr. Froge: ...that is just nonsense. You are going to feel them; your house is going to shake, there is going to be vibrations, the windows are going to rattle and the china is going to rattle. I don't want to take that away. And that is not likely to stop as a result of the vibration.

Councilman Weaks: You see the frustration is, is that in fact you hear

the blast, you feel the blast, your window breaks and someone says hey, it's not the fault of this blasting; and that is really the frustration of the people. You can back it up with all the scientific data you have, and you can bring in PhD's, you can bring in everybody but the fact is you have the sound, you have the blasts and you have the damage; and nobody is paying the claim.

Several start talking at once.

Councilman Trombley: I would like to say, your Honor.

Mayor Rotteveel pounds the gavel.

Councilman Weeks: Well, I guess I would encourage everyone to call your office and file the necessary paperwork and then see where that takes us. Is that the 282-9100 number, is that the best number to call?

Mr. Kasmorski: We will have...you have a list of complaints here, we will call each and everyone of them \_\_\_\_\_ on an individual basis \_\_\_\_\_.

Councilman Lane: Your Honor. O.K. It's my turn. You can start with the complaints. A list is a start, but it is no good until it is followed through. And I believe every city official representing the taxpayers out there should know how far these claims go and what kind of decision you make on these claims. I want to know personally.

Mr. Schiech/Kasmorski: \_\_\_\_\_ claim that is done by me.

Councilman Lane: O.K. That is a start. Now, I've been sitting here quietly listening. I went through the Georgia Street fiasco, O.K. These people are going through the same type deal. And I'll tell you right now, it is hell. I went through a summer of it; these people are going through a life of it. You guys better get on the ball, because you guys are not going to have a job because they will shut you down. I am getting sick and tired of listening to poor people over there that have to listen to you guys every day. They have houses that are probably worth 80 to 100 thousand dollars; they got cracks in them, and what are you doing? Nothing. Can you come back to this Council, or these people with a plan? A plan that says we will work with you, we will lower our production blasting, or are you just going to keep on going? You are not selling Mr. Lane here and I don't think you are selling this Council. Thank you.

Audience claps.

Mayor Rotteveel: Any more?

Councilman Weeks: I am all set. Thank you very much. I appreciate your information.

Councilman Trombley: Your Honor. I would like to restate what Jim Weeks said that most of the people up here that did the complaining. They are not the new people that moved into town. Most of them are the old people that has been here most of their life.

Councilman Durand: Your Honor. I'll take my council hat off for just a second. I have lived with the quarry situation for several years. Up until about five years ago, was pretty unbearable. They cleaned up the situation considerably starting probably about last August, it became, I don't want to say unbearable, it became very tough to deal with again. I make a habit of registering my complaints with the city hall, but as I have heard everybody in here say after a while, it feels like you are talking to the wall. You feel like, why do it, it's been 25 years; nobody has received a nickel. They have come out, they talked to me, but I still see the same problems. Mr. Schiech calls me probably at least once a week; how was the blasting today? It was pretty bad. O.K. Thank you. (laughing) But getting back to the fact that nobody has been paid for a claim, you know, I don't know what to do. We are up against a . . . ., you know, probably up against a wall, a stone wall...

Mayor Rotteveel: Maybe you could blast the wall away.

Councilman Durand: Really, it is really unfortunate, but we will go

back to the situation that we've always been told it is up to Fenton to take action if they really feel it is a problem. Councilman Koch had probably a good idea. If the problem is becoming insurmountable, maybe we have to go to Detroit Edison because Detroit Edison has taken a sincere interest in what is going on here and the people shouldn't take it that Detroit Edison isn't going to listen, because they will. Maybe what we should do here is give the address of Detroit Edison or the phone number of Detroit Edison out if somebody wants to call city hall and we can give it out and let your complaints be known to them because as I say, I don't think we get too many complaints actually, that actually, people call in because you feel it is really a waste of time instead of going through the motions.

Mayor Rotteveel: But, unless the people call in, you know, we are never going to know and I think it is the duty of the people to let the city know. For the record, I probably live closer to the quarry than anybody else, I only live five houses away from the quarry. That the reason I thought the time Elmer was not doing anything because, it seemed like everything with the quarry was fine. So I did make some complaints of the blasting and all I can say is they have been fair, they have come out and they have done everything as far as I know possible to correct the situation. But it is not a simple issue.

Mr. \_\_\_\_: Did they pay for the repair?

Mayor Rotteveel: No, I haven't turned in any claims. O.K. Is there anyone else from the quarry that would like to say anything more?

Councilman Weaks: Your Honor. I really think this is probably an unpopular thing to say, but I appreciate that the quarry does come out and talk to the City Council on a regular basis, they do attend these public hearings. This is not meant to be a public lynching, I think we are just trying to express ourselves that we are very concerned and we are going to continue to monitor the situation, but I appreciate the fact you have come out into somewhat of a hostile environment and at least, you know, confronted some of the issues, but we really look for performance is really what we look and hope you will continue in the future. Thank you, your Honor.

Councilwoman Blanchette: Your Honor, can I get a timeframe from you Bill, you said you were going to address each and every complaint. Give me a timeframe when we'll hear back from you as to how each complaint was addressed. Can you do that for me?

Mr. Schiech: \_\_\_\_?

Councilwoman Blanchette: You said you were going to address each and every complaint here this evening. Can you give me a timeframe as to when you will get back to Council as to what the decisions were on each complaint?

Mr. Schiech: The way this works is we will contact the people. \_\_\_\_ procedure a lot of times \_\_\_\_ into the area \_\_\_\_ concerned about their home. The way it works is if we took all the people and addressed the complaint \_\_\_\_ come to an agreement and actually were to \_\_\_\_ would come out \_\_\_\_ and take pictures, do whatever it takes and they make the final conclusion on that claim. They send us a copy and send your office a copy.

Councilwoman Blanchette: Timeframe?

Tape 2 - 268

Mr. Schiech: \_\_\_\_ a third party I don't know. Usually they time everything that's be claimed and adjusts when the adjustor, or the third party, comes through the property probably in about 3 to 4 weeks I would say. \_\_\_\_.

Councilwoman Blanchette: Is that per claim or for all the claims if it has to go to a third party?

Mr. Schiech: That is per claim, but I \_\_\_\_ the number of claims at the same time when they come \_\_\_\_.

Councilwoman Blanchette: O.K., will you do Council courtesy then as the complaints that you are taking will you...name and address and keep us updated as to what you are doing with them and where they are?

Mr. Schiech: Absolutely.

Councilwoman Blanchette: I mean, we get the monthly blasting report or quarterly blasting so we would like something like this, too.

Mayor Rotteveel: We have had the public hearing here. We have heard from the people from the quarry. We have heard from the people in the audience about the complaints. We are about ready to wrap the public hearing over, so if you would like to...have any additional information you would like to give to us, please do so.

Mr. Schiech: The last thing that we \_\_\_\_\_ was that about July?

Mr. \_\_\_\_? The end of July, beginning of August.

Mr. Schiech: Beginning of August he filed a claim and I went out and visited his property\_\_\_\_\_. Geosonics came out and did the inspections and their results are\_\_\_\_\_.

Councilwoman Blanchette: And you will take that procedure with each and every person here? And Council will be kept abreast of it? O.K., I'm sorry.

Unidentified man: I have a couple questions. One...

Councilman Weak: You need to come to the microphone, though, so we can get you on record. Please.

Mr. Ron Wendell: One, I want to know who pays Geosonics? Two, when you guys blast, O.K., you directed towards one certain area. Once it gets through that area, do you know where it ends up or do you just... it just goes out and dissipates?

Mr. Schiech: When a blast goes off.. one, we pay Geosonics for the lease of the seismograph. Two when a blast goes off, \_\_\_\_\_ studies show the impact \_\_\_\_\_ and it goes out in a straight line and dissipates as it goes away.

Mr. Wendell: You are for sure it doesn't...it couldn't go straight then hit another big rock and jack off and go in another direction? You are saying it just goes straight through.

Mr. Schiech: Our studies have shown that straight or not, the closer to the point of blast \_\_\_\_\_ consistently higher\_\_\_\_\_ than it does as \_\_\_\_\_.

Mr. Wendell: O.K., what if it hits a pocket of water and it travels through and lets say that stream or water everything runs under my house and it hits underneath my house and cracks my wall. I mean, how can you explain that we can't feel this and obviously, everybody here had their house shaken at one time or another. The seismograph people come out and take a seismograph. Like on mine, for instance, O.K., like my wall cracked over here and stuff and they took the seismograph stuck it out by the sidewalk and took the reading. It wasn't even close to my house. And all this other stuff, but I am just saying, you know, if you don't know where the blast goes after it hits the pinpoint where you are directing it, how do you know it can't cause damage to our houses?

Mr. Schiech: \_\_\_\_\_ a lot of times, we....

Mr. Wendell: \_\_\_\_\_ you've got to put some format to direct the blast into the wall, not just blast it and have it all come out at you.

Mr. Schiech: \_\_\_\_\_.

Mr. Wendell: Just rough detail. you know where it goes after

Mr. Schiech: \_\_\_\_\_ and to go into detail \_\_\_\_\_ measure \_\_\_\_\_ and to go into detail without \_\_\_\_\_ higher here and lower here \_\_\_\_\_ there are a lot of variabilities \_\_\_\_\_ measure \_\_\_\_\_ geology

Mr. Wendell: well, how come we are feeling it? I mean, you guys know. How can you say we're not feeling it?

Mr. Schiech: I can assure you you're going to feel it.

Mr. Wendell: Hold it. If we can feel it and we see things shake, and you're telling us you're not causing any damage, that's what you are telling us isn't it?

Mr. Schiech: You can feel...

Mr. Wendell: Hold it, if we can feel it..

Mr. Schiech: You can hear a whisper, you can stand a jet engine. The difference between a whisper and jet engine is in order of something like 10,000. You can feel the vibration hundreds of times below \_\_\_\_\_ cause and effect. The human body is not a good size frame.

Mr. Wendell: Hold it. This is not bodies, these are houses; these are permanent, solid structures on slabs that are probably cracked, I assume, mine is cracked because I've dusted all my ducts. My house is dusty all the time.

Mr. Scheich: A council meeting is not a good forum for...

Mr. Wendell: But this is the only chance I am going to get at you.

Mr. Scheich: Pardon.

Mr. Wendell: This is the only chance I am going to get talk to you to get at you. That's why I want an answer, and I want it on record.

Mr. Scheich: This is something that we one can study, O.K.....

Mr. Wendell: Hold it. We've...how long has the quarry been there? How long have we been studying this? I mean you've got to have an answer for us. And you are saying, yea, we can feel it, we can do this, but my house still shakes.

Mr. Schiech: There is no answer to this question.

Mr. Wendell: Oh, there could be. We could shut you down and then there wouldn't be any; but we don't want to do that, we want to work with you people. I am talking as polite as I can be because I am upset about it. But, I am just saying you are telling us one thing and doing another. You know. You just said you have never settled a claim, but you sit here and tell us it is o.k. for our house to shake. I don't understand it.

Mr. Froge: \_\_\_\_\_ expert in vibrations \_\_\_\_\_ I can't explain it \_\_\_\_\_

Mr. Wendell: I am a human being.

Mr. Froge: \_\_\_\_\_ what they feel

Mr. Wendell: It's not feel..

Mr. Froge: \_\_\_\_\_ not a forum, this is not scientific forum, and we are not able to \_\_\_\_\_  
647

Councilman Weak: Very interesting.

Mr. Froge?: I can hear generalities, I can talk about, but I can't give you the equation and all the stuff that goes along with a scientific explanation, but it doesn't cut any ice, it is a waste of time. This is not the proper forum to be discussing \_\_\_\_\_.

Mr. Wendell: Hold it. When, O.K. I want the Council to set up the proper forum for us to understand this to set this up and everything else. That's what we pay you guys for. I don't understand it, I just want my house to get...

Mayor Rotteveel: Right....

Mr. Wendell: ....something done.

Mayor Rotteveel: Right, O.K.

Mr. Wendell: Thank you.

Councilman Durand: You pay us quite handsomely, too.

Council laughs.

Mayor Rotteveel: The questions are well taken and sometimes the questions are difficult on the spur of the moment to get the correct answers, but there must be an answer to it. But, you know, the question have been put before us and we're sure we will get some kind of an answer.

Mr. Polonczyk: I'll give you a good idea. A young couple buys a house make sure that they tell them that \_\_\_\_\_ so they don't get \_\_\_\_\_ by \_\_\_\_\_.

Several people taking.

Mayor Rotteveel: Excuse me. We have a couple more questions, because we have other business going on.

Unidentified woman #1: I will expand on what he just said. January 1, 1995, you now have to fill out a disclosure statement and only the homeseller can fill it out. And you have to put on there that you do have vibrations from the quarry and it may make our property values go down. Somebody better do something. That includes all of you.

Mayor Rotteveel: \_\_\_\_\_

Unidentified woman: It went into effect January 1, 1995 whether you are a private seller or not, you have to fill out a disclosure statement. I will drop you one off if you'd like so you can look at it, and only the homeowner can fill it out so I'll drop anybody one off. I'll bring some here if you want to see them I don't have a problem with it. But if our property values go down, then our assessment should go down.

Mayor Rotteveel: O.K. Yes, maam.

Unidentified woman #2: I just have a couple questions. By law, what is the maximum seismographic reading you can put out from the blast at the quarry?

Cannot decipher who is responding or what he is saying.

Unidentified Woman #2: O.K.

Cannot decipher who is responding or what he is saying.  
Michigan uses \_\_\_\_\_.

Unidentified woman #2: Which is?  
835

Mr. \_\_\_\_\_: \_\_\_\_\_ enforced by \_\_\_\_\_.

Cannot decipher who is responding or what he is saying.

Unidentified woman #2: O.K.

That means \_\_\_\_\_ change the limits \_\_\_\_\_ condition of the \_\_\_\_\_

Unidentified woman #2: Ok. On several occasions, we get a blast and within a minute to 90 seconds, there is a secondary blast. What is that caused from? Are they setting off two different charges at once?

Mr. Froge: They are shooting two shots. They have \_\_\_\_\_ approximately and the generally get \_\_\_\_\_ shots ready to go \_\_\_\_\_.

Unidentified woman #2: O.K. With the awareness of radon gas seeping into people's basement what effect does this blasting have on that?

Mr Froge: Not measureable that we know of outside \_\_\_\_\_.

Unidentified woman #2: O.K. And the last thing I have to say is a

comment. Everytime you call Michigan Foundation from now on to report any kind of a problem, automatically call Detroit Edison. That way, they have it on record, too.

Mayor Rotteveel: O.K.

Identified woman #2. Thank you.

Mayor Rotteveel: Yes. Bill..

Mr. Schiech: I just wanted to say one thing. In the spirit of the last meeting that Michigan Foundation will do everything they can to keep up better communication with the City of Riverview \_\_\_\_\_ whether it is a complaint or something going on that is impacting the neighborhood; and we will keep a better handle on \_\_\_\_\_.

Mayor Rotteveel: O.K. We appreciate that. We also have people here from Detroit Edison? Do they wish to have anything to say? They're here just to observe, right? O.K.

Mayor Rotteveel: Yes.

Mr. Shoup: Mayor, I would \_\_\_\_\_. The first time I ever came to a meeting, I was an employee for 35 years in the community. I think employees don't like to complain too much, they're smart. But, I am not an employee anymore, I am a retiree. And, as I started off this whole meeting, I have been in the community, I was born in the community, so I have been here 67 years. I have been here for a while, so I am not exactly new. This has been going on for years, ever since I can remember. And I think the members of Council's hit it right on the head when they say the people have been here so long they really don't hear it anymore, pretty much. You hear it, but you kind of think, oh, well, what's the point; you know, they're not going to do anything anyway. And particularly if you read the paper and I think we all do; it's just a continuation of everybody gets frustrated and nothing is done. I don't mean that as a negative to Michigan Foundation. I am sure in their minds they are probably trying to do what they believe is good and they bring all the experts in just to prove their point and I think Council has touched that and I think Council is obviously frustrated, too. But, you can look at the people in the community that are here this evening and I've never complained before, I'll be the first one to admit it; I have never complained not that I've not noticed it, I just haven't complained. You can multiply the people here, that are in here, probably 50 at least, you know, it is just a few people that will come out and say we have a problem. Most people are not trouble-makers and they are not out really to cause anybody a problem. We know they employ people and we like that, you know. But I do know that my son lives in Marshall, Michigan and he has never complained about Michigan Foundation blasting. You know, I heard some stories about well, there is stone here and this and that. Well, that's fine, you know. I am not concerned about what happens in the Irish Hills or Marshall. I am only concerned about what happens, particularly my street and my home. And that's really what I am concerned about. And I realize they have done all these things and so on, but there is one thing they haven't done as I listened to the whole discussion. They haven't stopped the problem we are all experiencing. Period. I think that is what we want. I am not looking for some kind of a payoff from some insurance company because I have a crack in my basement wall. It's not my concern. My concern is that I do not want anymore. I don't want any more damage period. And that's really why I am here; I am not mad at them; there's people, like I said before, that works there and like I say we all need jobs. They produce jobs and we all appreciate that. But we have this problem, I don't know what the answer to it is. But I don't think that bringing in a million experts to convince everybody else that we are not feeling something is not the way to go.

Mayor Rotteveel: Right.

Mr. Shoup: ...or that we are not feeling any vibrations or so on I don't know what the answer is, but I do know there should be an answer and there needs to be something, some favorable solution to the citizens. I think some of the Councilmembers probably hit it, you know, pretty close on the head what needs to be done. We need to maybe get petitions if that is necessary because people don't show up, but they

will sign a petition. I believe everybody in Riverview would sign a petition about blasting and if they wanted to close the quarry, they'd probably, you know, everybody'd sign it in a heartbeat, probably, you know. But I don't think everybody really wants that. I think they just want the problems that we are having and the shaking and so on to be stopped.

Mayor Rotteveel: Well, that's why we have the Public Hearing and,...

Mr. Shoup: Public Hearings are fine, but if they don't produce any results, they are not worth a damn.

Mayor Rotteveel: Well, we..., you know, I mean, that is the bottom line. We can talk till hell freezes over but if nothing happens from the meetings we might as well not, that's what causes the frustrations. Elmer, I know, has served on this group for a long time, I've particularly know, has invited me to go down in the quarry any number of times for different activities that were going on. I never went, because I've been down there virtually... I've been down there many of times. But, the frustrations are is that it is still happening and as I agree it did slow down for a while and it's picking up, it seems as though at least, it is picking up a little more steam. So, I just think that maybe that puts something in perspective for everybody here, it's the frustration and all the talk doesn't mean anything if we don't accomplish anything.

Mayor Rotteveel: Thank you, Jack. A motion is in order to conclude the Public Hearing.

Resolved by Councilman Weaks, supported by Councilman Koch, that the Public Hearing be closed.

Councilman Weaks: Your Honor. I guess my only comment is that when we see people in the audience come down to deal with issues in our town, probably in the last year, through the Georgia Street and a lot of things, the people have been very professional in terms of how they have acted; they have brought out very good points and really, I think the audience has to be commended for behaving so well. We truly appreciate it. We do not want to deal with hostile crowds and we know the people are frustrated and have issues and I think Mr. Shoup sums it up, its not what we say and do here, but what we say and what we do after this meeting. So stay tuned, I think.

Mayor Rotteveel: Yes, and I do appreciate the people in the audience because it is their input gives us a better idea of what is going on; and hopefully we will, as in the past, we can work with Michigan Foundation and if they can make some additional corrections what might soften the blow, we would appreciate it. Any further discussion?

Councilman Trombley: I would just like to thank them all for coming.

Councilman Lane: Your Honor. And I would like to apologize. I got excited, but I know what they are going through. Thank you. Back to the drawing board.

Mayor Rotteveel: Roll call.

Councilwoman Blanchette: Your Honor.

Mayor Rotteveel: Oh.

Councilwoman Blanchette: Sorry, you missed me. A good question from the audience. When...do we anticipate another meeting on this subject and when?

Councilman Lane: That would be a good idea.

Mayor Rotteveel: Well....

Councilman Durand: I think..I would like to see us get a report back on what their findings are with these residents and then go from there if the rest of the Council...

Councilwoman Blanchette: Call for a meeting then?

Councilman Durand: Well, we will be following-up, so I don't....

Councilman Lane: Definitely, and there will be follow up.

Mr. Schiech: \_\_\_\_\_

Councilman Durand: Well, the people...

Mr. Schiech: \_\_\_\_\_ in the paper?

Councilman Durand: ....that will probably be in the city newsletter like it was before and on cable. We are trying to keep you informed and also, for those in the audience, starting in April, approximately April, the Council meetings will be on cable television; so if you have cable, you will be able to see the meetings on t.v.

Councilman Lane: Popcorn.

Mayor Rotteveel: Roll call.

City Clerk took roll call.

Carried unanimously.

Nays: Councilman Koch

Motion carried.

Opened the Public Hearing at 7:40 P.M.

At this time, Traffic Officer Hultz presented findings.

Mr. Andrew Swift - 18400 Ryanwood - spoke in favor of a signal.

Mr. John Colina - 18047 Country Club Circle - spoke in favor of a signal.

Ms. Kim Zeppa - 18010 Parkridge - spoke against a signal.

Ms. Kathy Thiede - 18221 Ryanwood - spoke in favor of a signal.

Mr. Neill Riddell - 15751 Kristin requested documentation on traffic study prior to making a decision.

Mr. Norman Campbell - 19291 Hampton - suggested our Police Department give their recommendation based on their findings.

A letter from Mr. John Martin - 14281 Hamilton - was read into the record.

City Clerk  
14100 Civic Park Drive  
Riverview, Mi. 48192-7689

To Whom It May Concern:

I would like to express my opinion regarding the upcoming debate re: the installation of a traffic signal at the intersection of Sibley and Grange roads.

It is my feeling that a light at that intersection is NOT necessary.

If it is the opinion that safety at that point is a major concern, let me offer several solutions:

- 1) Reduce the speed limit by 5 miles and hour AND
- 2) ENFORCE that speed limit to the maximum

If reducing the speed limit is not an option, then enforcing the current speed limit should be examined carefully.

I look forward to the discussions you will have regarding this matter.

Sincerely,

John G. Martin  
14281 Hamilton  
Riverview, Michigan 48192

Resolved by Councilman Durand, supported by Councilman Weak, that the Public Hearing on the Proposed Traffic Signal at Sibley and Grange Roads be extended to the next regular Council Meeting of February 7, 1994 with notification to residents.

Motion carried.

Resolved by Councilman Weaks, supported by Councilwoman Blanchette, that Council adopt the following Resolution authorizing the Execution of Wayne County Bond Documents as recommended and endorsed by Special Counsel Miller, Canfield, Paddock & Stone and Special Counsel Randall Penttiuk regarding the Downriver Sewage Disposal System 1994 Financing Plan and Final Judgement for the Court Ordered Improvements and the Consent Decree as endorsed by the City Manager.

WHEREAS, the County of Wayne, Michigan ("Wayne") pursuant to the authority of Act 185, Public Acts of Michigan, 1957, as amended ("Act 185") entered into a certain contract dated March 1, 1962, which contract has been amended from time to time (the "Downriver Agreement"), with the Downriver Community and other communities within Wayne County for the purposes of establishing a Wastewater Control System commonly known as the Downriver Sewage Disposal System (the "System") to address the immediate public health and welfare needs of all or a portion of the residents of those communities, namely, the cities of Allen Park, Belleville, Dearborn Heights, Ecorse, Lincoln Park, River Rouge, Riverview, Romulus (then a Township), Southgate, Taylor (then a Township) and Wyandotte and the Townships of Brownstown and Van Buren (referred to collectively as the "Downriver Communities"); and

WHEREAS, in order to operate the System in accordance with law, including sewerage systems of Downriver Communities tributary to the System, it is necessary to obtain a National Pollution Discharge Elimination System Permit (an "NPDES Permit") issued pursuant to the Michigan Water

Resources Commission Act, Act 245, Public Acts of Michigan, 1929, as amended, and the Federal Clean Water Act, 33 U.S.C. 1251, et seq.; and

WHEREAS, Wayne and the Downriver Communities are all defendants named in a certain action and complaint filed by both the United States acting through its Environmental Protection Agency ("USEPA") and the State of Michigan acting through its Department of Natural Resources (MDNR), as plaintiffs, entitled United States, et al, vs. Wayne County, et al., filed in United States District Court, Eastern District of Michigan, Southern Division; civil action, case no 87-CV-70992 DT, before the Honorable Judge Feikens (the Federal Court Action"), where it is alleged that the defendants are responsible for certain violations of applicable NPDES Permit provisions and requesting that the defendants be ordered to finance and construct such additional improvements to the System as are needed in order that the System may be brought into compliance with the requirements of the Federal Clean Water Act and the Michigan Water Resources Commission Act; and

WHEREAS, Wayne and the Downriver Communities are all defendants named in a certain action and complaint filed by both the United States acting through its Environmental Protection Agency ("USEPA") and the State of Michigan acting through its Department of Natural Resources ("MDNR"), as plaintiffs, entitled United States, et al., vs. Wayne County, et al., filed in United States District Court, Eastern District of Michigan, Southern Division, civil action, case no. 87-CV-70992 DT, before the Honorable Judge Feikens (the "Federal Court Action"), wherein it is alleged that the defendants are responsible for certain violations of applicable NPDES Permit provisions and requesting that the defendants be ordered to finance and construct such additional improvements to the System as are needed in order that the System may be brought into compliance with the requirements of the Federal Clean Water Act and the Michigan Water Resources Commission Act; and

WHEREAS, additional regulations and requirements have recently been enacted by the USEPA with respect to the disposition and disposal of sludge, a by-product of wastewater treatment, (the "503 Regulations") that will require additional improvements and emission control systems be planned, designed and installed at the System's sewage disposal treatment plant; and

WHEREAS, the Honorable Judge Feikens, in accordance with law, including, but not limited to, Act 185 and Act 320, Public Acts of Michigan 1927, as amended (Act 320") has noticed for entry a certain Consent Decree (the "Consent Decree") and a certain Downriver Sewage Disposal System 1994 Financing Plan and Final Judgment Re: 1994 Court-Ordered Improvements (the "1994 Financing Plan and Final Judgment") in the Federal Court Action, requiring that certain improvements to the System be planned, designed, acquired, constructed and financed all in accordance with a certain schedule attached as Exhibit A to the 1994 Financing Plan and Final Judgment and a certain Project Plan dated May 1, 1993, titled "Wayne County Downriver Collection System," which has been summarized in Exhibit B to the 1994 Financing Plan and Final Judgment a "Project Plan for Sanitary Sewer Improvements, City of Riverview" (collectively, the "Project Plan"). The Project Plan has been formulated by the defendants working with the assistance of the Court-Appointed Monitor, the Court-Appointed Expert Witness and Master and in consultation with the USEPA and MDNR. The Consent Decree and the 1994 Financing Plan and Final Judgment shall be referred to collectively as the "Orders"; and

- WHEREAS, Wayne and the Downriver Communities have agreed to a method for the allocation of costs related to the Project Plan, which method is set forth in Exhibit D to the 1994 Financing Plan And Court Order; and
- WHEREAS, it is immediately necessary and imperative for the public health and welfare of the present and future residents of Wayne and the Downriver Communities that the improvements for the System required by the Orders and the Project Plan (The "Improvements") be planned, designed, acquired, constructed and financed to service the Downriver Communities, as a part of the System; and
- WHEREAS, the consulting engineers for Wayne estimate a total cost of approximately Two Hundred Thirty Million Dollars (\$230,000,000) to plan, design acquire, construct and finance all of the Improvements, and Wayne and the Downriver Communities intend to file applications with the Michigan Water Pollution Control Revolving Loan Fund Program (the "Revolving Loan Fund"), and the Michigan Municipal Bond Authority (the "Authority") to finance approximately Two Hundred Million Dollars (\$200,000,000) of the improvements; and
- WHEREAS, the consulting engineers for Wayne estimate a total cost of approximately Thirty Million Dollars (\$30,000,000) to plan, design, acquire, construct and finance the 1994 Improvements as described in the 1994 Financing Plan and Final Judgment, which 1994 Improvements (i) consist almost exclusively of the preparation of engineering plans and (ii) are included within, and not in addition to, the Improvements of which it is anticipated that approximately Twenty Five Million Dollars (\$25,000,000) may become eligible for financing through the Revolving Loan Fund and the Authority; and
- WHEREAS, in order to meet the requirements of the Orders, the Downriver Communities and Wayne need to plan, design, acquire and construct the 1994 Improvements and the Downriver Communities desire to have Wayne as their agent to supply the planning, designing, acquisition and construction of the 1994 Improvements required for the System and to apply as their agent for loans from the Revolving Loan Fund and the Authority and where necessary receive the funds on behalf of the Downriver Communities; and
- WHEREAS, in order to meet the requirements of the Orders, certain of the Downriver Communities need to plan, design, acquire construct and finance improvements to local sewage systems which are under the jurisdiction and control of each such Downriver community (respectively, the "Local Jurisdiction Improvements") and, accordingly, may contract with Wayne as their agent to supply, the planning, designing, acquisition and construction of their respective Local Jurisdiction improvements and to apply as their agent for loans from the Revolving Loan Fund and the Authority; and
- WHEREAS, under the provisions of the Orders and/or anticipated amended and supplemental contracts, each Downriver Community will be ordered to pay its Judgment Payments (as defined in Section 8 of the 1994 Financing Plan and Final Judgment) in accordance with the allocation as set forth in Exhibit C to the 1994 Financing Plan and Final Judgment or such other allocations as may be required by court order, and, except as otherwise provided, each Downriver Community will be ordered to pay such Judgment Payments, if any, in cash; and
- WHEREAS, any Downriver Community which does not pay its Judgment Payments in cash will be ordered, pursuant to the 1994 Financing Plan and Final Judgment and/or applicable court

order or contracts, to pay to Wayne Judgment Payments in amounts sufficient to allow Wayne to pay the principal of and interest when due on Wayne's bonds, and each will further be ordered to assess taxes upon the taxable property of the Downriver Community to meet its Judgment Payments, if funds for such purpose are not available from other sources; and

WHEREAS, Wayne proposes to authorize the issuance of such bonds, pursuant to Act 320 in anticipation of and secured primarily by the Judgment Payments, to provide the necessary funds to pay the local-share costs of the Downriver Communities for planning, designing, acquiring and constructing the 1994 Improvements and other things necessary to the authorization and issuance of said bonds under Act 320 having been provided for, and Wayne being now empowered and desirous of authorizing the issuance of said bonds.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Approval of 1994 Financing Plan and Final Judgment. The 1994 Financing Plan and Final Judgment is hereby approved, ratified and confirmed, and the Mayor and Clerk are hereby authorized and directed to execute and deliver the same in substantially the form attached hereto to Wayne for and on behalf of this Downriver Community.
2. Payment of the Judgment Payments to Wayne. Upon the filing of a certified copy of the 1994 Financing Plan and Final Judgment with the assessing officer of the Downriver Community, pursuant to Section 6093 of Act 236, Public Acts of Michigan 1961, as amended ("Act 236"), the Judgment Payments shall be assessed by the assessing officer of the Downriver Community except as otherwise provided in the 1994 Financing Plan and Final Judgment, upon the taxable property of the Downriver Community in the annual amounts required to be paid thereunder. The treasurer or collecting officer of the Downriver Community is specifically authorized and directed to pay said Judgment Payments to Wayne, to apply on the Downriver Community's local share (the "Local Share") of the cost of the 1994 Improvements.
3. Bonds Purchased by the Revolving Loan Fund. It is anticipated that the improvements not paid in cash or financed by Wayne's bonds will be financed by additional bonds issued by Wayne, as agent for the Downriver Community, and purchased by the Revolving Loan Fund and the Authority. Wayne, as agent for the Downriver Community, is authorized to include the local share of the 1994 Improvements deemed eligible for the Revolving Loan Fund in that anticipated bond issue. Wayne, as agent for the Downriver Community, is further authorized to submit Parts I, II and III of the application for Assistance to the Revolving Loan Fund and the Authority with respect to the Local Share of the 1994 Improvements. Any proceeds received from that anticipated bond issue with respect to the Local Share of the 1994 Improvements shall (i) if permissible under the Revolving Loan Fund, be paid to the Downriver Community to reimburse it for Judgment Payments made by it to Wayne in accordance with Section 8(a)(i) of the 1994 Financing Plan and Final Judgment and directly related to the 1994 improvements or (ii) be deposited into the debt retirement fund established by Wayne in connection with Wayne's bonds and used solely to redeem the outstanding bonds directly related to the Local Share of the 1994 Improvements included in such anticipated bond issue.

4. Declaration of Intent to be Reimbursed: The Downriver Community declares its official intent to finance its Local Share of the cost of the Improvements with bonds issued by Wayne in a maximum principal amount not to exceed the "Project Total" set forth on Exhibit C to the 1994 Financing Plan and Final Judgment plus the Segment 1 "Loan Amount" set forth on Exhibit A attached hereto, and declares that it reasonable expects to be reimbursed, without interest, for advances made by it towards the cost of the improvements. The Downriver Community, at the present time, has determined that there are no funds from sources other than the bonds anticipated herein that are reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside by it, or by any member of a controlled group (as defined in Treasury Regulation Sub-Section 1.150-1(e)) in which it is a member, if any, pursuant to its budget or financial policies with respect to the expenditures for the Improvements expected to be reimbursed from the proceeds of the bonds.
5. Authorization to Take Other Actions. The Mayor, the Clerk and all other officials of the Downriver Community shall take all other actions necessary or appropriate and shall cooperate with Wayne, the Department of Treasury, Rating Agencies and other parties to issue Wayne's bonds timely and in accordance with all the terms and conditions of the 1994 Financing Plan and Final Judgment.
6. Delivery of Resolution to Wayne. A certified copy of this resolution shall be transmitted to Wayne, and Wayne is hereby requested to take early action hereon.
7. Authorization to Execute Consent Decree. The Mayor is hereby authorized and directed to execute the Consent Decree and deliver the same to the Court on behalf of the Downriver Community.
8. Other Resolutions Rescinded. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Resolved by Councilman Koch, supported by Councilman Trombley, that the following resolution approving Design Alternative "C" in Concept as the Preferred Design for the 38 acres of Municipally-Sponsored Single Family Subdivision along the South side of Sibley Road be adopted as endorsed by the Planning Commission and City Manager.

WHEREAS, the City Council has researched the development potential

of the municipally-owned vacant 38 acre property along Sibley Road at different times since 1982; and

WHEREAS, the highest and best use of the municipally-owned vacant 38 acre property along Sibley Road was determined to be for single family residential development by the Coopers & Lybrand report; and,

WHEREAS, the City of Riverview Planning Commission and City Council concurred in 1989 with the determination of Coopers & Lybrand's highest and best use recommendation; and

WHEREAS, the City Council has sought private development proposals, submitted all development proposals to comparative financial analysis by Hungerford D & M, P.C., and evaluated all proposals in terms of community planning and design considerations; and

WHEREAS, the City Council reactivated the deliberations for the development of the Sibley Road acreage on April 29, 1993; and

WHEREAS, the City Council met on June 14, 1993, to receive and discuss a report on the project status of the contemplated Sibley Road subdivision; and

WHEREAS, the Director of Community Development subsequently prepared a project plan for the initiation of the municipal development of a single family subdivision along Sibley Road for City Council review at the study session of July 26, 1993; and

WHEREAS, the City Council unanimously approved the proposed project plan to initiate the development, amended the FY 1993/1994 budget of the City of Riverview, and amended the 1993 - 1997 Capital Improvement Plan on August 2, 1993; and

WHEREAS, the City Engineer was unanimously authorized on August 15, 1993, by City Council to obtain a Wetland Determination and Permit for the State of Michigan's Department of Natural Resources; and

WHEREAS, a public hearing to be conducted before the Planning Commission concerning the four (4) design alternatives of the proposed Sibley Road Subdivision was unanimously authorized by City Council on September 7, 1993; and

WHEREAS, the Planning Commission conducted the public hearing at their regular meeting of October 7, 1993; and

WHEREAS, the Planning Commission, after due deliberations, selected Design Alternative "C" as the preferred design solution for the proposed single family subdivision on November 4, 1993; and

WHEREAS, the City Council acknowledged receipt of the Planning Commission's design selection at the regular Council meeting of November 15, 1993, and further suggested that the status of the Sibley Road Subdivision project be made a topic of an upcoming City Council study session; and

WHEREAS, the City Council received the status report of the Sibley Road subdivision at the study session of February 14, 1994;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

1. The City Council hereby approves the design Alternative "C" in concept to be the preferred design for the proposed Sibley Road Subdivision.
2. The City Engineer is directed and authorized to submit

the wetland permit application based on Design Alternative "C" to the Department of Natural Resources.

3. The City Engineer is directed and authorized to modify Design Alternative "C" to accommodate the eventual Wetland Permit into the platting of the subdivision.

#### PROPOSED ORDINANCE #419

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW BY ADOPTION OF A NEW ARTICLE XII, CABLE TELEVISION CUSTOMER SERVICE STANDARDS, UNDER CHAPTER 2, ADMINISTRATION, TO ESTABLISH STANDARDS FOR CABLE CUSTOMER SERVICE

The City of Riverview Ordains:

ARTICLE I. Adoption. The Code of Ordinances of the City of Riverview is hereby amended by the adoption of a new Article XII under Chapter 2, to read as follows:

#### Chapter 2. Administration

ARTICLE XII. Cable Television Customer Service Standards.

Section 2-651. Customer Service Standards. Effective ninety (90) days following the adoption of this Ordinance, a cable operator shall be subject to the following customer service standards:

1. Cable system office hours and telephone availability:
  - a. The cable operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.
    - (1) Trained company representative will be available to respond to customer telephone inquiries during normal business hours.
    - (2) After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.
  - b. Under normal operating conditions, telephone answer time

by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connect is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

- c. The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless a historical record of complaints indicates a clear failure to comply.
  - d. Under normal operating conditions, the customer will receive a busy signal less than three (3) percent of the time.
  - e. Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.
2. Installations, outages and service calls - Under normal operating conditions, each of the following four standards will be met no less than ninety-five (95) percent of the time measured on a quarterly basis:
- a. Standard installations will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.
  - b. Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruption" promptly and in no event later than twenty-four (24) hours after the interruption becomes known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.
  - c. The "appointment window" alternatives for installation, service calls, and other installation activities will be either a specific time, or at maximum, a four (4) hour time block during normal business hours. (The operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.)
  - d. An operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.
  - e. If a cable operative representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time which is convenient for the customer.
3. Communications between cable operators and cable subscribers
- a. Notifications to subscribers:
    - (1) The cable operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:
      - (a) Products and services offered;
      - (b) Prices and options for programming services and conditions of subscription to programming and other services;

- (c) Installation and service maintenance policies;
  - (d) Instructions on how to use the cable service;
  - (e) Channel positions of programming carried on the system; and
  - (f) Billing and complaint procedures, including the address and telephone number of the local franchise authority's cable office.
- (2) Customers will be notified of any changes in rates, programming services or channel positions as soon as possible through announcements on the cable system in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes in the change is within the control of the cable operator. In addition, the cable operator shall notify the subscribers thirty (30) days in advance of any significant changes in the other information required by the preceding paragraph.
- b. Billing:
- (1) Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits.
  - (2) In case of a billing dispute, the cable operator must respond to a written complaint from a subscriber within thirty (30) days.
- c. Refunds. Refund checks will be issued promptly, but not later than either:
- (1) The customer's next billing cycle following resolution of the request of thirty (30) days, whichever is earlier, or
  - (2) The return of the equipment supplied by the cable operator if service is terminated.
- d. Credits. Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

4. Definitions.

- a. Normal Business Hours. The term "normal business hours" means those hours during which most similar business in the community are open to service customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.
- b. Normal Operating Conditions. The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are within the control of the cable operator include, but are not limited to, special promotions pay-per-view events, rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.

- c. Service Interruption. The term "service interruption" means the loss of picture or sound on one or more cable channels.

ARTICLE II. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE III. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

Resolved by Councilwoman Blanchette, supported by Councilman Weakli, that proposed Ordinance #419 be adopted.

Ayes: Mayor Rotteveel, Councilmen Durand, Lane, Trombley, Weakli, Councilwoman Blanchette

RESOLUTIONS:

Resolved by Councilman Lane, supported by Councilman Weak, that the following Resolution by the Michigan Municipal League supporting the enactment of Federal Anti-crime Legislation be adopted as endorsed by the City Manager.

WHEREAS, America's communities and families are scarred by increasing numbers of violent crimes; and

WHEREAS, the level of violence associated with criminal acts is also increasing; and

WHEREAS, no community or family is untouched by incidents of crime or the fear of being victimized by crime, and

WHEREAS, reductions in the level of crime and fear of crime require enactment of meaningful national anti-crime legislation, as well as work by local communities and state governments to develop and implement long term solutions that deal with both the cause and effect of crimes; and

WHEREAS, the growing violence in our cities demands an end to national legislative gridlock; and

WHEREAS, achieving a productive partnership to cut crime will require immediate action by the Congress.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview, Michigan, urgently calls upon the Congress of the United States to enact anti-crime legislation immediately so that the resources and programs such legislation will provide can be utilized on a timely basis - the need is now.

BE IT FURTHER RESOLVED, that such anti-crime legislation include:

- \* A balanced approach between enforcement and prevention programs.
- \* Direct block grant anti-crime funds to communities, with maximum flexibility allowed in the use of those funds.
- \* Creation of a federal anti-crime trust fund financed by dedicated revenues from licensing fees levied on weapons, ammunition, and weapons dealers.
- \* Exploration of cooperative programs with the U.S. military to create education and training programs for at-risk young people in our cities and towns.

BE IT FURTHER RESOLVED, that the City of Riverview rededicates itself to crime prevention and suppression and calls upon its citizens to assist in these efforts.

BE IT FURTHER RESOLVED, that copies of this resolution shall be immediately sent to President Bill Clinton, Senator Donald Riegle, Senator Carl Levin, Congressman John Dingell, NLC President Sharpe James, and the News-Herald.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that the following Resolution regarding the Amended 911 Redistricting Plan for the Downriver Community Conference Emergency Telephone Service District be approved with the corrected date noted as endorsed by the City Manager.

WHEREAS, the City of Riverview is desirous of participating with its neighboring municipalities in a Downriver Community Conference Emergency Telephone Service

District, as enabled by Public Act 32 of 1986, as amended, in order to provide more efficient and effective emergency services; and

WHEREAS, the Wayne County Commission did on December 2, 1993, adopt a tentative amendment to the 911 Service Plan for the Downriver Community Conference and set a hearing date on that plan for March 8, 1994; and

WHEREAS, the City of Riverview is supportive of that amended plan, has knowledge of both the amended plan and actual notice of the established hearing date, has been made continuously aware of the formulation of the amended plan, and is fully supportive of the amended plan.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview on this 4th day of April, 1994, that it does support the amended 911 plan for the Downriver Community Conference Emergency Telephone Service District, as tentatively adopted by the Wayne County Commission on December 2, 1993.

BE IT FURTHER RESOLVED, that the City of Riverview does hereby waive its statutory right to have received a certified formal notice from the Clerk of the Wayne County Commission that the Wayne County Commission has adopted the tentative amended plan, as well as its right to a forty-five day period within which to decide to opt out of the proposed amended plan.

Carried unanimously.

Resolved by Councilman Lane, supported by Councilman Trombley, that the following Resolution authorizing Church Hill Drive to be included in the Riverview Street System allowing for Motor Vehicle Funding, under Act 51, P.A., 1951 as amended be adopted as follows:

WHEREAS, the City of Riverview did on March 14, 1994 acquire a title to a certain street; and

WHEREAS, it is necessary to furnish certain information to the State of Michigan to place this street within the City Local Street system for the purpose of obtaining funds under Act 51, P.A., 1951 as amended,

NOW, THEREFORE, BE IT RESOLVED, that CHURCH HILL DRIVE

1. That the center line of said Drive is described as:

Motion carried.

Resolved by Councilman Durand, supported by Councilman Weak, that the following Resolution instituting an Accounting Order for Cable Rates be adopted:

WHEREAS, the City of Riverview is certified to regulate basic cable service rates pursuant to the 1992 Cable Act ("the Act") and FCC Rules; and

WHEREAS, the City of Riverview adopted an Ordinance ("Ordinance") prescribing procedures for rate regulation consistent with the Act and FCC Rules, and is regulating basic cable rates; and

WHEREAS, within the past 120 days Tele Communications, Inc., submitted to the City of Riverview a FCC Form 393, entitled "Determination of Maximum Initial Permitted Rate for Regulated Cable Programming Service and Equipment", with a proposed schedule of rates for the basic service tier and associated equipment, hereafter "Form 393", and the City of Riverview ordered the tolling of the effective date of such rates as set forth in a previous resolution; and

WHEREAS, because the rates in the Form 393 generally become effective 120 days from their submission unless the City of Riverview has taken action on them and, it is now apparent that the City of Riverview may not take such action within such time period; therefore, to protect the interests of its residents, the City of Riverview wishes to direct Tele Communication, Inc., to keep an accurate account of all sums received by reason of such rates and on whose behalf such amounts were paid, such that if and to the extent the City of Riverview later issues a written decision disapproving any portion of such rates that appropriate funds may be ordered for subscribers in the City of Riverview, as well as prospective deductions; and

WHEREAS, the City of Riverview possesses the powers conferred by the Act and FCC Rules, and described in its Ordinance and may adopt additional rules applicable to basic cable service rate regulation proceedings consistent with the Act and FCC Rules and take any action not prohibited by the Act and FCC Rules to protect the public interest in connection with basic cable service rate regulation; and

NOW, THEREFORE, BE IT RESOLVED, that pursuant to the Act, the FCC Rules and the Ordinance, the City of Riverview hereby orders that the proposed schedule rates submitted by Tele Communications, Inc., with its Form 393 shall be allowed to become effective, 120 days from their submission to the City of Riverview, subject to refund and prospective reduction if and to the extent the City of Riverview later issues a written decision disapproving any portion of such rates; and

BE IT FURTHER RESOLVED, that pursuant to the Act, the FCC Rules and the Ordinance, the City of Riverview hereby directs and orders Tele Communications, Inc., to keep an accurate account of all amounts received by reason of the rates proposed with Form 393, and on whose behalf such amounts were paid; and

BE IT FURTHER RESOLVED, that the Clerk or other appropriate City employee or official is directed to mail a copy of this resolution by first class mail to Tele Communications, Inc.

REGULAR MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN  
HELD ON MONDAY, MAY 16, 1994 A.D., IN THE  
COUNCIL CHAMBERS OF THE MUNICIPAL BUILDING  
14100 CIVIC PARK DRIVE, RIVERVIEW MICHIGAN 48192-7689

The meeting was called to order at 7:30 P.M.

Presiding: Mayor Rotteveel

Present: Councilmen Durand, Lane, Trombley, Weeks, Councilwoman Blanchette

Absent: Councilman Koch (arrived at 7:31 P.M.)

Also

Present: City Manager Elliott, Assistant City Manager Steklac, City Clerk Girardin, Police Chief Bartus, Fire Chief Hale, Fire Marshall Bosman, City Treasurer Abercrombie, Community Development Coordinator Feudner, City Engineer Hennessey, Director of Public Works Perry, Recreation Director Hammerle, Golf Course Director Matthews, Purchasing Agent Zula, Attorney Logan, Attorney Okun

The Pledge of Allegiance was led by Councilman Trombley.

The Invocation was given by Councilman Weeks.

Councilman Koch arrived at 7:31 P.M.

AWARDS PROCLAMATIONS AND PRESENTATIONS:

A Certificate of Recognition was presented Mr. Kenneth Barnes for having served on the Economic Development Corporation from March 19, 1979 to May 2, 1994.

A Certificate from the National Association of Purchasing Management, Inc. was presented to Ms. Karen M. Zula, Purchasing Agent/Assessor, designating her as a "Certified Purchasing Manager".

MINUTES:

Resolved by Councilwoman Blanchette, supported by Councilman Weeks, that the Minutes of the Regular Meeting of May 2, along with the condensed version for publication be approved as corrected and the Special Meeting of May 5, 1994 be received and placed on file as presented.

Carried unanimously.

PUBLIC HEARINGS:

At this time, Mayor Rotteveel dispensed with the regular order to business to conduct a Public Hearing to receive comments and/or suggestions on the:

1994/95 Proposed Annual Budget

Resolved by Councilman Trombley, supported by Councilwoman Blanchette, that the Public Hearing be opened.

Opened the Public Hearing at 7:38 P.M.

The following persons spoke:

Mr. Donald Capezza - 18208 Hamann - Projected Revenues - too generous with reduction in trash volumes?; Recreation Study - close the ski

hill down?; evaluate golf driving range?; Fire dispatcher - eliminate the position?; Sewer project on the regional portion - City take in undesirable soil to offset resident cost?; dedicate space at landfill; Environmental escrow account - what is the balance now, what will balance be in 25-30 years?

Mr. Neill Riddell - 15751 Kristin Lane - Public Hearing on method of payment of Sanitary Sewer Improvement from Landfill operation?; what is time frame for paying for debt?; City needs to brainstorm on ways to raise money to pay for improvements. Budget was not user-friendly - perhaps have copy of budget available for home use. Pleased to see suggestion to formulate citizen committees in various subdivisions.

Mr. Jack Kesterson - 19008 Stonewood - requested figures on how much money has the Landfill subsidized the ski hill? If you are running a business losing money, especially 5 or 6 years in a row, you would close it down.

Mr. Patrick Brannon - 14529 Shenandoah - 1994/95 budget - retroactive wages for Dispatcher at the Fire Department. In the last two budgets, wage increases were not paid to Dispatcher.

Mr. Richard Jarosz - 14002 Heritage - discussed the financial burden imposed on local communities not only sanitary sewer but other major projects. Cities and states should draft legislation to protest and get federal government to fund said projects. Requested Council to consider a resolution.  
these mandatory projects.

Mr. Richard Springstead - 17412 Valade - Are funds available for the repaving of Valade Street from Longsdorf to Pennsylvania Road? Condition of road will never make it another winter; curbs have sunk; losing easement.

Mr. Joe Sullivan - 17405 Valade - 1-1/2' of easement missing in front of house. Trucks run over the dirt and curb is even with street. Street is drybrushed with sweeper; is all that dust against EPA?

Mr. Marty Mucha - 17583 Valade - Something needs to be done before children are hurt. Has pot holes; asphalt is flying from deterioration and huge trucks.

Mr. Donald Capezza - 18208 Hamann - Contract approval on sewer project called for designated routes and the City would sweep dirt and dust and be reimbursed from contractor.

Resolved by Councilman Lane, supported by Councilman Trombley, that the Public Hearing be closed.  
Carried unanimously.

Closed the Public Hearing at 9:00 P.M.

#### ORGANIZATIONAL BUSINESS:

Resolved by Councilman Durand, supported by Councilman Lane, that Mr. Anthony Weaks be appointed as Alternate Member to the Zoning Board of Appeals and Adjustments to fill an unexpired term through July 31, 1996.

SPECIAL MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE, COUNTY, MICHIGAN  
HELD ON MONDAY, MAY 23, 1994 IN THE  
COUNCIL CONFERENCE ROOM OF THE MUNICIPAL BUILDING  
14100 Civic Park Drive, Riverview, Michigan 48192-7689

PER SECTION 6.2 OF THE CITY CHARTER, A SPECIAL MEETING WAS CALLED BY MAYOR ROTTEVEEL TO DISCUSS THE FOLLOWING:

EARLY RETIREMENT PLAN FOR ADMINISTRATIVE AND  
TECHNICAL/PROFESSIONAL EMPLOYEES

The meeting was called to order at 7:03 P.M.

Presiding: Mayor Rotteveel

Present: Councilmen Durand, Lane, Trombley, Weeks, Councilwoman  
Blanchette

Absent: Councilman Koch

Also

Present: City Manager Elliott; Assistant City Manager Steklac;  
Acting City Clerk Bratcher; City Treasurer Abercrombie;  
Attorney Logan, Attorney Okun

Resolved by Councilman Durand, supported by Councilman Weeks, that the that following resolution directing administration to work with legal counsel to prepare and propose a voluntary early retirement plan for administrative and technical/professional employees along with the release of claim form be adopted as amended.

WHEREAS, the City of Riverview considers that substantial cost savings may be achieved without any disruption in the quality of service, by the adoption of an early retirement plan for administrative and technical/professional personnel employed by the City; and

WHEREAS, the plan would provide an equitable early retirement incentive plan for administrative and technical/professional employees of the City; and

WHEREAS, in order to facilitate fiscal planning and more accurately assess the level of employee interest in an early retirement program, policy guidelines need to be identified and enumerated;

NOW, THEREFORE, BE IT RESOLVED BY THE City Council of the City of Riverview that the City administrative be directed to work with the legal counsel to prepare and propose necessary amendments to the Riverview Code of Ordinance and any other necessary documents so that Council may consider the feasibility of adoption of a voluntary early retirement plan for eligible administrative and technical/professional employees of the City under the following criteria:

1. Twenty-five (25) or more years of service with the City;
2. Election to become a part of the plan between the dates of May 24, 1994 and June 7, 1994;
3. Submission by the employee of a written letter of retirement, effective July 8, 1994, unless another date is mutually agreed upon by the parties, but in no event will the date be later than July 31, 1994. The employee's intent to retire shall not be contingent on the employee's ability to collect a pension or the amount of any such pension;
4. Execution by the employee of an Acceptance of Early

Retirement Incentive and Release of Claims as drafted by the City;

5. This voluntary early retirement incentive plan is made on a one-time, non-precedent setting basis.

BE IT FURTHER RESOLVED that the guidelines and eligibilities for this plan shall be implemented by the City Treasurer to provide that all eligible administrative and technical/professional employees' straight life pension shall be the sum of 2% of final average earnings multiplied by the number of years and fraction of a year of total credited service.

BE IT FURTHER RESOLVED that the documents entitled "Acceptance of Early Retirement Incentive and Release of Claims" and "Appendix to Early Retirement Program for the City of Riverview" shall be distributed for review and study to all eligible employees.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Lane, that Proposed Ordinance #424 - Retirement - Add New Section for Early Retirement Incentive be given the first and second reading by title only.

Carried unanimously.

The Clerk gave the First Reading of said Ordinance.

SPECIAL MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN  
HELD ON TUESDAY, JUNE 14, 1994 A.D., IN THE  
COUNCIL CONFERENCE ROOM OF THE MUNICIPAL BUILDING

PER SECTION 6.2 OF THE CITY CHARTER, A SPECIAL MEETING WAS CALLED BY COUNCILMEN DURAND AND LANE AT THE REGULAR MEETING OF MAY 16, 1994 TO DISCUSS THE FOLLOWING:

METHOD OF DEBT PAYMENT FOR REGIONAL AND LOCAL  
SANITARY SEWER IMPROVEMENTS SUBJECT TO THE  
1994 FINANCING PLAN AND CONSENT DECREE  
ENTERED BY THE UNITED STATES DISTRICT COURT

The meeting was called to order at 7:04 P.M.

Presiding: Mayor Rotteveel

Present: Councilmen Durand, Lane, Trombley, Weeks, Councilwoman Blanchette

Absent: Councilman Koch - arrived 7:15 P.M.

Also

Present: City Manager Elliott; Assistant City Manager Steklac; City Clerk Girardin; City Treasurer Abercrombie; City Engineer Hennessey, Attorney Okun, Mr. Donald Keim

Mr. Robert Elliott gave an overview of project.

Ms. Charlotte Abercrombie gave a presentation on financing.

The following persons spoke.

Mr. Donald Capezza - 18208 Hamann - Could the project be financed in total by our enterprise funds? How much money do we have at the Landfill? On the environmental escrow account: is it self-imposed or mandated by the state? How much is in that fund? That should be reduced enough to help pay for the cost of the local remediation project. We do not need to have \$100 million in the bank twenty years from now. On the local remediation portion, the city should bear cost; residents deserve that from the landfill. On the regional project, the federal government and the county should be putting out the money for the mandates.

Mr. Neill Riddell - 15751 Kristin - sewer funding coming from landfill using enterprise funds - what are long term needs? Disappointed in not having facts and figures. What are the projected enterprise needs? What income is project? What will be the balance in the future, 2001, 2010? How much will be projected for Landfill Revenues and Expenses. Sewer rate method has a flaw in it. Is it possible to have a city-wide fixed rate? What is the mixed rate? Would the fixed rate be? Personal preference is to flat fee that are applicable to all citizens and the remainder be financed through a legal assessment.

Mr. Michael Kovach - 17812 Quarry - A general tax increase would be better than putting it on the water bill would be to high. New subdivisions should pay their share. Put it on a special assessment. Are the funds stable?

Mr. Gerald Filipiak - 19310 Brandywine - In the sewer bulletin and the presentation, all figures were based on itemizing taxes. Not all homeowners itemize and therefore would not be able to take the deduction.

Mr. Richard Jarosz - 14002 Heritage - There is no real answer to make sewer rates feasible for all residents. Sanitary improvements have been ordered by the U.S. Court; what law is that gives away our sovereignty as a state? Mandated Court improvements have been imposed against the city without the vote of the people. The federal government should assist in the multi-million dollar project. Bring

Federal money back to the state. Resolutions are going through state legislators to declare their sovereignty against federal mandate items. The money that we pay to the government should come back to us to help with federal mandated items. What next mandate will there be? What next increase will there be? What next mandate will we have at the Landfill and for what reason? This is not just a Riverview problem. The federal government put a financial burden on us, bring our money back to us.

Mr. Dennis Toth - 15690 Kristen - Concerned with what does business pay versus residential on an incremental usage of water? The best method for everyone - mills has no relationship whatsoever. Mills should not be a consideration. A fixed rate is good; variable rate on top of the fixed rate makes sense. Regarding pools and watering, there should be an incremental rate on the variable side.

Mr. Ronald Huber - 14305 Greentrees - Mills are unfair to those who represent the median assessed value. The examples should show both extremes. His math shows an increase of \$100 for sewer and \$400 for millage. If it is on the water bill, that is more of an incentive to use less water based on the consumption. The sewer method is more favorable.

Mr. Ted Orosz - 14253 Williamsburg - What is the fair way to pay for this? The fair way is if you use, you pay. Economically, when it costs, you will use less of it.

Mr. Donald Capezza - 18208 Hamman - Regional costs should be made by who mandated. Do we know what the operation and maintenance rates are going to be charged by Detroit or Wayne County for sewage? Is there still a chance to purchase capacity from Brownstown?

Mr. Jack Kesterson - 19008 Stonewood - Relative to the \$10.00/quarter - was any of that money used for this project?

Mr. Albert Topolewski - 18227 Country Club - Should be based on water rates. I don't see any connection with the millage on the property tax.

Mr. Dan Webb - 20027 Maplewood - In favor of sewer rate method, if you use it you pay for it.

Mr. Michael Kovach - 17812 Quarry - Can the cost be spread across whole city?

Resolved by Councilman Lane, supported by Councilman Weak, that the Public Hearing be closed.  
Carried unanimously.

Closed the Public Hearing at 8:58 P.M.

Resolved by Councilman Weaks, supported by Councilman Durand, that the meeting be adjourned.  
Carried unanimously.

RESOLUTIONS:

Resolved by Councilman Durand, supported by Councilman Lane, that the following resolution authorizing the sale of 1994 General Obligation Limited Tax Bonds as recommended by Bond Counsel in the amount of \$1.7 million to complete the local remediation Project covering costs that are not SRF Fundable including the Georgia Street Demonstration Project be adopted as endorsed by the City Manager.

WHEREAS, the City of Riverview, County of Wayne, Michigan (the "City") authorized issuance and sale of bonds to the Michigan Municipal Bond Authority (the "Authority") in connection with the State Revolving Loan Fund ("SRLF") pursuant to Act 320, Public Acts of Michigan, 1927, as amended, in the amount of Ten Million Eight Hundred Sixty Thousand Dollars (\$10,860,000), for the purpose of defraying part of the cost of improvements to address sewer inflow/ infiltration problems in the City (the "Project") in order to meet the requirements of Interim Order, dated July 2, 1993 (the "Interim Order"), entered by the United States District Court, Eastern District of Michigan, Southern Division (the "Federal Court"); and

WHEREAS, the City Council of the City of Riverview, County of Wayne, State of Michigan (the "City") , intends to authorize the issuance and sale of additional bonds pursuant to Act 320, Public Acts of Michigan, 1927, as amended, in an amount not to exceed one Million Seven Hundred Thousand Dollars (\$1,700,000), for the purpose of paying (i) the non-qualifying costs of the Project not funded by the Authority's SRLF program and (ii) the Georgia Street Demonstration project (together, the "Additional Project") all as required by the Interim Order and by the Downriver Sewage Disposal System 1994 Financing Plan and Final Judgment Re 1994 Court-Ordered Improvements (the "Final Order") entered by the Federal Court; and

WHEREAS, the Additional Project is necessary to preserve and protect the public health and to meet an urgent and imperative need for sanitary sewer facilities within the service area of the City; and

WHEREAS, the City is authorized by the Act to issue bonds in order to comply with the Interim Order and Final Order; and

WHEREAS, plans and specifications for the Additional Project have been prepared by Hennessey Engineers, Inc. , Trenton, Michigan, the consulting engineers for the City and approved by the Michigan Department of Natural Resources ("MDNR") , and all conditions precedent to the issuance of bonds authorized by the Act have been complied with and are present in this situation; and

WHEREAS, construction bids for the Additional Project have been let; and

WHEREAS, the plans for the Additional Project have been prepared and approved as required by Act 320; and

WHEREAS, in pursuance of the authority granted by Act 320 this

City Council desires to issue and sell the necessary bonds to pay the cost of the Additional Project; and

WHEREAS, it is the determination of the City Council that at this time limited tax general obligation bonds on the principal amount of One Million Seven Hundred Thousand Dollars (\$1,700,000) should be issued for the Additional Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Bonds of the City designated 1994 GENERAL OBLIGATION LIMITED TAX BONDS (the "Bonds") are authorized to be issued in the aggregate principal sum of One Million Seven Hundred Thousand Dollars (\$1,700,000) for the purpose of paying the cost of the Additional Project, including the cost incidental to the issuance, sale and delivery of the Bonds. The issue shall consist of bonds in fully-registered form of the denomination of \$5,000, or multiples thereof not exceeding for each maturity the maximum principal amount of that maturity, numbered in such order as determined by the Transfer Agent (hereinafter defined). The Bonds shall bear interest, mature, and be payable at the times and in the manner set forth in Sections 6 and 7 hereof.

The Bonds are subject to redemption prior to maturity in the manner and at the times and prices set forth in Sections 6 and 7 hereof.

Interest shall be payable to the registered owner of record as of the 15th day of the month prior to the payment date for each interest payment. The record date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future. Interest shall be payable by check or draft drawn on the Transfer Agent mailed to the registered owner at the registered address, as shown on the registration books of the City maintained by the Transfer Agent. The principal of the Bonds shall be payable upon presentation and surrender to the Transfer Agent.

Old Kent Bank and Trust Company, Grand Rapids, Michigan is appointed to serve as bond registrar, paying agent and transfer agent (the "Transfer Agent") for this issue. The City reserves the right to replace the Transfer Agent at any time upon written notice to the registered owners of record of the Bonds not less than sixty (60) days prior to an interest payment date.

2. The Bonds of this issue shall be executed in the name of the City with the facsimile signatures of the Mayor and Clerk of the City and shall have the seal of the City, or a facsimile thereof, printed or impressed on the Bonds. No Bond shall be valid until authenticated by an authorized officer or representative of the Transfer Agent. The Bonds shall be delivered to the Transfer Agent for authentication and be delivered by the Transfer Agent to the purchaser or other person in accordance with instructions from the City Treasurer of the City upon payment of the purchase price for the Bonds in accordance with the bid therefor when accepted.
3. The Transfer Agent shall keep the books of registration for this issue on behalf of the City. Any Bond may be transferred upon such registration books by the registered owner of record, in person or by the registered owner's duly authorized attorney, upon surrender of the Bond for cancellation, accompanied by delivery of a duly executed written instrument of transfer in a form approved by the Transfer Agent. Whenever any Bond or Bonds shall be surrendered for transfer, the City shall execute and the Transfer Agent shall authenticate and deliver a new Bond or Bonds, for like aggregate principal amount. The Transfer Agent shall require the payment by the bondholder requesting the transfer of any tax or other governmental charge required to be paid with respect to the transfer.

Unless waived by any registered owner of Bonds to be redeemed official notice of redemption shall be given by the Transfer Agent on behalf of the City. Such notice shall be dated and shall contain at a minimum the following information: original issue date; maturity dates; interest rates; CUSIP numbers, if any; certificate numbers (and in the case of partial redemption) the called amounts of each certificate; the place where the Bonds called for redemption are to be surrendered for payment; and that interest on the Bonds or portions thereof called for redemption shall cease to accrue from and after the redemption date.

In addition, further notice shall be given by the Transfer Agent in such manner as may be required or suggested by regulations or market practice at the applicable time, but no defect in such further notice nor any failure to give all or any portion of such further notice shall in any manner defeat the effectiveness of a call for redemption if notice thereof is given as prescribed herein.

4. The Treasurer is authorized and directed to open a separate depository account with a bank or trust company designated by the City Council, to be designated 1994 GENERAL OBLIGATION LIMITED TAX BOND DEBT RETIREMENT FUND (the "Debt Retirement Fund") the moneys to be deposited into the Debt Retirement Fund to be specifically earmarked and used solely for the purpose of paying principal of and interest on the Bonds as they mature. All proceeds from taxes levied for the Debt Retirement Fund shall be deposited into the Debt Retirement Fund as collected. Commencing with the year 1994, the City shall provide in its budget each year until the Bonds are paid, in the manner provided by the provisions of Act 320, an amount sufficient to promptly pay, when due, the principal of and interest on the Bonds becoming due prior to the next annual tax levy. The full faith, credit and resources of the City are hereby pledged for the prompt payment of the principal of and interest on the Bonds as they become due, which pledge shall include the City's obligation to pay from its general funds as a first budget obligation said principal and interest and, if necessary, to levy ad valorem taxes on all taxable property in the City, within applicable constitutional, statutory and charter tax rate limitations. All proceeds from taxes levied for the Debt Retirement Fund shall be deposited into the Debt Retirement Fund as collected. There shall be levied upon the tax rolls of the City for the purpose of the Debt Retirement Fund each year, in the manner required by the provisions of Act 202, Public Acts of Michigan, 1943, as amended, an amount sufficient so that the estimated collection there from will be sufficient to promptly pay, when due, the principal of and interest on the Bond becoming due prior to the next annual tax levy; provided, however, that if at the time of making any such annual tax levy there shall be surplus moneys on hand in the Debt Retirement Fund for the payment of principal of and interest on the Bond, or the City has budgeted sufficient revenues from the City's Sewage Disposal System for the ensuing year to pay the principal of and interest on the Bond becoming due prior to the next annual tax levy, then credit therefor may be taken against such annual levy for the Debt Retirement Fund.
5. The Treasurer is authorized and directed to open a separate depository account with a bank or trust company designated by the City Council, to be designated 1994 GENERAL OBLIGATION LIMITED TAX CONSTRUCTION FUND (the "Construction Fund") and deposit into the Construction Fund the proceeds of the Bonds less capitalized interest, accrued interest and premium, if any, which shall be deposited into the Debt Retirement Fund. The moneys in the Construction Fund shall be used solely to pay the costs of the Additional Project and the costs of issuance of the Bonds.
6. The Bonds shall be in substantially the following form:

Registered Owner:

Principal Amount:	Dollars
-------------------	---------

The City of Riverview, County of Wayne, State of Michigan (the "City"), for value received, hereby promises to pay to the Registered Owner specified above, or registered assigns, the Principal Amount specified above, in lawful money of the United States of America, on the Maturity Date specified above, unless prepaid prior thereto as hereinafter provided, with interest thereon from the Date of Original Issue specified above or such later date to which interest has been paid, until paid, at the Interest Rate per annum specified above, first payable on May 1, 1995 and semi-annually thereafter. Principal of this bond is payable at the corporate trust office of Old Kent Bank and Trust Company, Grand Rapids, Michigan, or such other transfer agent as the City may hereafter designate by notice mailed to the registered owner not less than sixty (60) days prior to an interest payment date (the "Transfer Agent"). Interest on this bond is payable to the registered owner of record as of the 15th day of the month preceding the interest payment date as shown on the registration books of the City kept by the Transfer Agent by check or draft mailed by the Transfer Agent to the registered owner of record at the registered address. For prompt payment of this bond, both principal and interest, the full faith, credit and resources of the City are hereby irrevocably pledged.

This bond is one of a series of bonds of even original issue date aggregating the principal sum of \$1,700,000, issued for the purpose of paying the cost of certain improvements to the sanitary sewer facilities of the City and paying costs incidental to the issuance of the bonds, in pursuance of the authority granted under Act 320, Public Acts of Michigan, 1927, as amended, in furtherance of orders of the United States District Court, Eastern District of Michigan, Southern Division, and a resolution duly adopted by the City Council of the City.

Bonds of this issue maturing in the years 1995 to 2003, inclusive, shall not be subject to redemption prior to maturity. Bonds or portions of bonds in multiples of \$5,000 of this issue maturing in the years 2004 to 2015, inclusive, shall be subject to redemption prior to maturity, at the option of the City, in any order of maturity and by lot within any maturity, on any interest payment date on or after November 1, 2003, at par and accrued interest to the date fixed for redemption, plus a premium expressed as a percentage of par, as follows:

1.5% of the par value of each bond or portion thereof called for redemption on or after November 1, 2003, but prior to November 1, 2005;

.5% of the par value of each bond or portion thereof called for redemption on or after November 1, 2005, but prior to November 1, 2007.

No premium shall be paid on bonds or portions thereof called for redemption on or after November 1, 2007.

In case less than the full amount of an outstanding bond is called for redemption, the Transfer Agent, upon presentation of the bond called for redemption, shall register, authenticate and deliver to the registered owner of record a new bond in the principal amount of the portion of the original bond not called for redemption.

Notice of redemption shall be given to the registered owner of any bond or portion thereof called for redemption by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered address of the registered owner of record. A bond or portion thereof so called for redemption shall not bear interest after the date fixed for redemption provided funds are on hand with the Transfer Agent to redeem said bond or portion thereof.

This bond, including the interest hereon, is payable as a first budget obligation from the general funds of the City and the City is required, if necessary, to levy ad valorem taxes on all taxable property in the City for the payment thereof, subject to applicable constitutional, statutory and charter tax rate limitations.

This bond is transferable only upon the registration books of the City kept by the Transfer Agent by the registered owner of record in person, or by the registered owner's attorney duly authorized in writing, upon the surrender of this bond together with a written instrument of transfer satisfactory to the Transfer Agent duly executed by the registered owner or the registered owner's attorney duly authorized in writing, and thereupon a new registered bond or bonds in the same aggregate principal amount and of the same maturity shall be issued to the transferee in exchange therefor as provided in the resolution authorizing this bond and upon the payment of the charges, if any, therein prescribed.

It is hereby certified and recited that all acts, conditions and things required by law to be done, precedent to and in the issuance of this bond and the series of bonds of which this is one, exist and have been done and performed in regular and due form and time as required by law, and that the total indebtedness of the City, including this bond and the series of bonds of which this is one, does not exceed any constitutional, statutory or charter debt limitation.

This bond is not valid or obligatory for any purpose until the Transfer Agent's Certificate of Authentication on this bond has been executed by the Transfer Agent.

IN WITNESS WHEREOF, the City of Riverview, County of Wayne, State of Michigan, by its City Council, has caused this bond to be signed in the name of the City by the facsimile signatures of its Mayor and Clerk and a facsimile of its corporate seal to be printed hereon, all as of the Date of Original Issue.

2004	75,000	2014	145,000

PRIOR REDEMPTION OF BONDS: Bonds of this issue maturing in the years 1995 to 2003, inclusive, shall not be subject to redemption prior to maturity. Bonds or portions of bonds in multiples of \$5,000 of this issue maturing in the years 2004 to 2015, inclusive, shall be subject to redemption prior to maturity, at the option of the City, in any order of maturity and by lot within any maturity, on any interest payment date on or after November 1, 2003, at par and accrued interest to the date fixed for redemption, plus a premium expressed as a percentage of par, as follows:

1.5% of the par value of each bond or portion thereof called for redemption on or after November 1, 2003, but prior

.5% of the par value of each bond or portion thereof called for redemption on or after November 1, 2005, but prior to November 1, 2007.

No premium shall be paid on bonds or portions thereof called for redemption on or after November 1, 2007.

In case less than the full amount of an outstanding bond is called for redemption, the transfer agent, upon presentation of the bond called for redemption, shall register, authenticate and deliver to the registered owner of record a new bond in the principal amount of the portion of the original bond not called for redemption.

Notice of redemption shall be given to the registered owner of any bond or portion thereof called for redemption by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the registered address of the registered owner of record. A bond or portion thereof so called for redemption shall not bear interest after the date fixed for redemption provided funds are on hand with the transfer agent to redeem said bond or portion thereof.

INTEREST RATE AND BIDDING DETAILS: The bonds shall bear interest at a rate or rates not exceeding 8% per annum, to be fixed by the bids therefor, expressed in multiples of 1/8 or 1/20 of 1%, or both. The interest on any one bond shall be at one rate only and all bonds maturing in any one year must carry the same interest rate. The difference between the highest and lowest interest rates bid shall not exceed 3%. No proposal for the purchase of less than all of the bonds or at a price less than 98% of their par value will be considered.

TRANSFER AGENT AND REGISTRATION: Principal and interest shall be payable at Old Kent Bank and Trust Company, Grand Rapids, Michigan, or such other transfer agent as the City may hereafter designate by notice mailed to the registered owner of record not less than 60 days prior to an interest payment date. Interest shall be paid by check or draft mailed to the registered owner of record as shown on the registration books kept by the transfer agent as of the 15th day of the month prior to an interest payment date. The bonds will be transferred only upon the registration books of the City kept by the transfer agent.

PURPOSE AND SECURITY: The bonds are issued pursuant to the provisions of Act 320, Public Acts of Michigan, 1927, as amended, and a Resolution of the City for the purpose of paying the cost of certain improvements to the sanitary sewer facilities of the City. The bonds will pledge the full faith and credit of the City for payment of the principal and interest thereon and will be payable as a first budget obligation from ad valorem taxes which may be levied against all taxable property in the City, subject to applicable constitutional, statutory and charter tax rate limitations. The rights or remedies of bondholders may be affected by bankruptcy, insolvency, fraudulent conveyance or other laws affecting creditors, rights generally, now existing or hereafter enacted, and by the application of general principles of equity including those relating to equitable subordination.

MICHIGAN PROPERTY TAX REFORM: On March 15, 1994 the electors of the State of Michigan voted to amend the State Constitution to increase the state sales tax from 4% to 6% and to place a yearly cap on property value assessment increases. A new state education authority will levy a property tax to finance education, and a higher real estate transfer tax will be imposed on the sale of real property. While the ultimate nature, extent and impact of the constitutional amendment, the accompanying legislation and of other tax and revenue measures which are still to be adopted cannot currently be predicted, purchasers of the bonds offered herein should be alert to the potential effect of such measures upon the bonds, the security therefor, and the operations of the City.

**GOOD FAITH:** A certified or cashier's check, or a Financial Surety Bond, in either instance in the amount of \$34,000 drawn upon an incorporated bank or trust company and payable to the order of the City's Treasurer is required for each bid as a guarantee of good faith on the part of the bidder, to be forfeited as liquidated damages if such bid be accepted and the bidder fails to take up and pay for the bonds. If a check is used, it must accompany the bid. If a Financial Surety Bond is used, it must be from an insurance company licensed to issue such a bond in the State of Michigan and such Financial Surety Bond must be submitted to the Issuer's financial advisor, First of Michigan Corporation, prior to the opening of the bids. The Financial Surety Bond must identify each bidder whose good faith deposit is guaranteed by such Financial Surety Bond. If the bonds are awarded to a bidder utilizing a Financial Surety Bond, then the purchaser is required to submit its good faith deposit to the Issuer or its financial advisor in the form of a cashier's check (or wire transfer such amount as instructed by the Issuer or its financial advisor) not later than Twelve o'clock, Noon, prevailing Eastern Time, on the next business day following the award. If such good faith deposit is not received by that time, the Financial Surety Bond may be drawn by the Issuer to satisfy the good faith deposit requirement. The good faith deposit will be applied to the purchase price of the bonds. In the event the purchaser of the bonds fails to honor its accepted bid, the good faith deposit will be retained by the Issuer. No interest shall be allowed on the good faith checks, and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or by registered mail. The good faith check of the successful bidder may be immediately cashed, in which event payment for the balance of the purchase price of the bonds shall be made at the closing.

**AWARD OF BONDS:** The bonds will be awarded to the bidder whose bid produces the lowest interest cost computed by determining, at the rate or rates specified in the bid, the total dollar value of all interest on the bonds from \_\_\_\_\_ 1, 1994, to their maturity and deducting therefrom any premium or adding thereto any discount.

**TAX MATTERS:** In the opinion of bond counsel, assuming compliance with certain covenants, under existing law interest on the bonds is excluded from gross income for federal income tax purposes as described in the opinion, and the bonds and interest thereon are exempt from all taxation in the State of Michigan except inheritance and estate taxes and taxes on gains realized from the sale, payment or other disposition thereof.

**ISSUE PRICE CERTIFICATE:** The successful bidder will be required as a condition of the bid to furnish, prior to the delivery of the bonds, a certificate in a form acceptable to bond counsel as to the "issue price" of the bonds within the meaning of Section 1273 of, the Internal Revenue Code of 1986, as amended (the "Code").

**"QUALIFIED TAX EXEMPT OBLIGATIONS":** The City will designate the bonds as "qualified tax exempt obligations" for purposes of deduction of interest expense by financial institutions.

**LEGAL OPINION:** Bids shall be conditioned upon the approving opinion of Miller, Canfield, Paddock and Stone, P.L.C., attorneys of Detroit, Michigan, a copy of which opinion will be printed on the reverse side of each bond and the original of which will be furnished without expense to the purchaser of the bonds at the delivery thereof. The fees of Miller, Canfield, Paddock and Stone, P.L.C. for services rendered in connection with such approving opinion are expected to be paid from bond proceeds. Except to the extent necessary to issue its approving opinion as to validity of the above bonds, Miller, Canfield, Paddock and Stone, P.L.C. has not been requested to examine or review and has not examined or reviewed any financial documents, statements or materials that have been or may be furnished in connection with the authorization, issuance or marketing of the bonds, and accordingly will not express any opinion with respect to the accuracy or completeness of

any such financial documents, statements or materials.

DELIVERY OF BONDS: The City will furnish bonds ready for execution at its expense. Bonds will be delivered without expense to the purchaser at Detroit, Michigan, or such other place to be agreed upon. The usual closing documents, including a certificate that no litigation is pending affecting the issuance of the bonds, will be delivered at the time of delivery of the bonds. If the bonds are not tendered for delivery by twelve o'clock noon, Eastern Time, on the 45th day following the date of sale, or the first business day thereafter if said 45th day is not a business day, the successful bidder may on that day, or any time thereafter until delivery of the bonds, withdraw his proposal by serving notice of cancellation, in writing, on the undersigned in which event the City shall promptly return the good faith deposit. Payment for the bonds shall be made in Federal Reserve Funds. Accrued interest to the date of delivery of the bonds shall be paid by the purchaser at the time of delivery. Unless the purchaser furnishes the transfer agent with a list giving the denominations and names in which it wishes to have the certificates issued at least five (5) business days prior to the delivery of the bonds, the bonds will be delivered in the form of a single certificate for each maturity registered in the name of the purchaser.

CUSIP NUMBERS: CUSIP identification numbers will be printed on the bonds, but neither the failure to print such numbers on any bonds nor any error with respect thereto shall constitute cause for a failure by the purchaser thereof to accept delivery of and pay for the bonds. All expenses in relation to the CUSIP numbers shall be paid for by the City except that the CUSIP Service Bureau charge for the assignment of such numbers shall be paid for by the purchaser.

ADDITIONAL INFORMATION: Further information with respect to the bonds may be obtained from First of Michigan Corporation, Financial Advisors to the Issuer, by contacting the Public Finance Department, 100 Renaissance Center, 26th Floor, Detroit, Michigan 48243, Telephone (313) 259-2600.

OFFICIAL STATEMENT: First of Michigan Corporation as financial advisor to the Issuer will provide the winning bidder with 100 final Official Statements within seven (7) business days from the date of sale to permit the purchaser to comply with Securities and Exchange Commission Rule 15c2-12. Additional copies of the Official Statement will be supplied by First of Michigan Corporation upon request and agreement by the purchaser to pay the cost of additional copies. Request for additional copies should be made to First of Michigan Corporation within 24 hours of the date of sale.

THE RIGHT IS RESERVED TO REJECT ANY OR ALL BIDS.

ENVELOPES containing the bids should be plainly marked "Proposal for 1994 General Obligation Limited Tax Bonds."

Charlotte Abercrombie  
City Treasurer  
City of Riverview

8. The estimated period of usefulness of the Additional Project is hereby declared to be not less than twenty (20) years and its total cost is estimated to be One Million Seven Hundred Thousand Dollars (\$1,700,000).
9. The Bonds are designated as "qualified tax exempt obligations" for the purpose of deduction of interest expense by financial institutions.
10. The City shall not (i) invest, reinvest or accumulate any moneys deemed to be proceeds of the Bonds pursuant to Sections 103(a) and 148 of the Code and the applicable regulations

10. The City shall not (i) invest, reinvest or accumulate any moneys deemed to be proceeds of the Bonds pursuant to Sections 103(a) and 148 of the Code and the applicable regulations thereunder, in such a manner as to cause the Bonds to be "arbitrage bonds" within the meaning of said Sections 103(a) and 148 and the applicable regulations thereunder or (ii) take or refuse to take any lawful action which would cause the interest on the Bonds to be included in gross income for federal income tax purposes.
11. The proceeds of the Bonds herein authorized, except for accrued interest, which sum shall be deposited in or credited to the Debt Retirement Fund, shall be used by the City solely and only to pay costs of the Additional Project, including engineering, legal, capitalized interest, financing and other expenses incident thereto. Pending utilization of said funds for said purposes, said moneys, as nearly as may be practicable, may be invested, reinvested and deposited as permitted by Michigan law, which investments and deposits shall mature, or which shall be subject to redemption by the holder thereof at the option of the holder, not later than the respective dates, as estimated by the City, when such moneys will be required to pay costs of the Additional Project. Said investments and deposits shall be selected by the City. Interest realized from such investments or deposits shall be considered as additional moneys available to pay costs of the Additional Project. Any surplus moneys remaining after completion of the Additional Project shall be deposited into the Debt Retirement Fund and used to pay interest on the Bonds or to prepay the Bonds, as permitted by the Code.
12. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

RESOLUTION DECLARED ADOPTED.

#### PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel asked if anyone wished to address Council.

#### RESOLUTIONS:

Resolved by Councilman Durand, supported by Councilman Weak's, that the Wayne County Allocation Resolution - Supplement #1 Judgment be adopted. Said Judgment to be entered into Federal Court on August 8, 1994 relating to the inclusion of Bid Package A in a future bond sale by Wayne County for SRF funding for Improvements to the Wastewater Treatment Plant in the amount of \$50,697.00.

WHEREAS, The City Council of the City of Riverview passed a resolution dated May 16, 1994 (the "Resolution"), approving, ratifying and confirming the Financing Plan and Final Judgment (the "Judgment") and authorizing and directing the Mayor and Clerk to execute and deliver the same to Wayne for and on behalf of the City of Riverview. Capitalized terms not otherwise defined herein shall have the meanings given them in the Resolution; and

WHEREAS, Wayne, in accordance with law, including but not limited to Act 185 and Act 320, has noticed for entry Supplement #1 to the Judgment (The "Supplement #1 Judgment") in the Federal Court Action, requiring that certain "Improvements to the System ( the "Supplement #1 Improvements") be planned, designed, acquired, constructed and financed.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Approval of the Supplement #1 Judgment. The Mayor and the Clerk are hereby authorized and directed to execute and deliver the Supplement #1 Judgment in substantially the form attached hereto for and on behalf of the City of Riverview.
2. Declaration of Intent to be Reimbursed. The City of Riverview declares its official intent to finance its Local Share of the cost of the Supplement #1 Improvements with bonds issued by Wayne in a maximum principal amount not to exceed the "Project Total" column set forth on the row(s) for the City of Riverview on Exhibit C1 to the Supplement #1 Judgment,

which amount(s) shall be allocated to the City of Riverview for the purposes of Section 265(b)(3)(C) (iii) of the Internal Revenue Code of 1986, as amended. The City of Riverview further declares that it reasonably expects to be reimbursed by Wayne, without interest, for advances made by it towards the cost of the Supplement #1 Improvements. The City of Riverview, at the present time, has determined that there are no funds from sources other than the bonds anticipated herein that are reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside by it, or by any member of a controlled groups (as defined in Treasury Regulation 31.1501(e)) in which it is a member, if any, pursuant to its budget or financial policies with respect to the expenditures for the Supplement #1 Improvement expected to be reimbursed from the proceeds of the bonds.

3. Authorization to Take Other Actions. The Mayor, the Clerk and all other officials of the City of Riverview shall take all other actions and execute such other documents, necessary or appropriate including, without limitation, applications to the Department of Treasury for the Department of Treasury's approval of the issuance of Wayne's bonds and the form of notice required by law, or in the alternative an application to the Department of Treasury for an order of exception from prior approval and to pay the fee in connection therewith, and shall cooperate with Wayne, the Department of Treasury, Rating Agencies and other parties to issue Wayne's bonds timely and in accordance with all the terms and conditions of the Supplement #1 Judgment.
4. Other Resolutions Rescinded. All resolutions and parts of resolutions insofar as they conflict with the provision of this resolution be and the same hereby are rescinded.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that Council adopt the following Resolution authorizing the Discharge of Stormwater into the County road sewer system for Riverside Child Care and Learning Center at 15918 King Road.

BE IT RESOLVED that the City of Riverview enter into a permit with the Wayne County Department of Public Services relative to Storm Drainage Connection to Wayne County Drain System in King Road, a copy of said permit is attached hereto and made a part hereof.

BE IT FURTHER RESOLVED that City of Riverview agrees to accept maintenance jurisdiction of the Storm Sewer facility as shown on Exhibit A attached to the permit.

BE IT FURTHER RESOLVED that Wayne County DPS is here authorized to execute the foregoing permit for and on behalf of the City of Riverview.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Durand, that the Resolution amending the previous Resolution of May 2, 1994 establishing the Accounting Order for Cable Rates be adopted.

WHEREAS, the City of Riverview is certified to regulate basic cable service rates pursuant to the 1992 Cable Act ("the Act") and FCC Rules; and

WHEREAS, the City of Riverview adopted a resolution on May 2, 1994 that initially established an Accounting Order

for basic cable service rates; and,

WHEREAS, the Accounting Order established on May 2, 1994 will expire on August 14, 1994; and

WHEREAS, the financial data and the additional FCC Form 1200 will not be available until August 10, 1994; and

WHEREAS, the proper review of the financial data concerning rate-making cannot be reasonably accomplished between August 10 and August 14, 1994; and

WHEREAS, the City of Riverview possessed the powers conferred by the Act and FCC Rules, and described in its Ordinance and may adopt additional rules applicable to basic cable service rate regulation proceedings consistent with the Act and FCC Rules and take any action not prohibited by the Act and FCC Rules to protect the public interest in connection with basic cable service rate regulation; and

NOW, THEREFORE, BE IT RESOLVED that pursuant to the Act, the FCC Rules and the Ordinance, the City of Riverview hereby orders that the time frame for the Accounting Order prescribed in the May 2, 1994 resolution be extended for a period of ninety (90) days from the current Accounting Order (August 14, 1994). In order to fairly review and act upon both submissions of rates as filed and perfected by TCI during 1994 a tolling order is hereby entered pursuant to 47 CFR 76.933 for a period of ninety (90) days from the date of perfection; and,

BE IT FURTHER RESOLVED, that pursuant to the Act, the FCC Rules and the Ordinance hereby directs and orders TCI Cablevision of Woodhaven, Inc. to keep an accurate account of all amounts received by reason of the rates proposed with both submission of Form 393 and the submission of Form 1200, and on whose behalf such amounts were paid; and

BE IT FURTHER RESOLVED, that the City Clerk be directed to mail a copy of this Resolution by first class mail to TCI Cablevision of Woodhaven, Inc.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Lane, that Council adopt the following resolution regarding Park Playground Equipment.

WHEREAS, in June of 1994, four (4) bids were received from vendors (DP Hoffman, ABC Paving, Seavey Corporation, and Play Environment) responding to Bid #1260 for the purchase of Playground Equipment to be installed in the twelve (12) parks in the City of Riverview; and

WHEREAS, the manufacturers of the playground equipment are as follows:

DP Hoffman	-	Landscape Structures
Play Environment	-	Iron Mountain Forge
Seavey Corporation	-	Gametime
ABC Paving- Jack Golden	-	Burke Equipment

WHEREAS, the City Charter of the City of Riverview in Chapter XII, Section 12.1(d) provides that:

Purchases shall be made from the lowest competent bidder meeting specifications, unless the council shall determine that the public interest will be better served by accepting a higher bid(;) sales shall be made to the bidder whose bid is most advantageous to the city. In any case where a bid other than the lowest is accepted, the council shall set forth its reason therefor in its resolution accepting such bid. The council shall have the right to reject all bids."

WHEREAS, the Riverview Purchasing Manual in Section II, 2.2 (L) provides that:

"When the bid award is not given to the lowest bidder meeting specifications, a full and complete statement of the reasons for placing the order elsewhere will be prepared by the department head and submitted to the Purchasing Agent for submission to the City Council. A formal resolution stating reasons for award to other than the lowest bidder meeting specifications shall be prepared and submitted for consideration by City Council"

WHEREAS, the specifications for the Playground Equipment included the formation of a Selection Committee and set forth the following criteria for determining the qualified vendor:

Bid Price	30%
Creativity and Design	30%
Compliance with Specifications	30%
References	10%

- WHEREAS, the specifications were separated into three (3) equipment categories which were determined by size of equipment;
- WHEREAS, this project is being funded by Wayne County Block Grant and a portion of these funds must be expensed by September 30, 1994;
- WHEREAS, the bids received were in excess of the budgeted amount;
- WHEREAS, the Selection Committee determined that a vendor for Category A equipment which is to be installed in Young Patriots Park be selected and forwarded to City Council for consideration;
- WHEREAS, the Selection Committee recommends that the bids for playground equipment in categories B and C be rejected;
- WHEREAS, the Selection Committee after review of the bids and video presentation of equipment in accordance with the selection criteria recommends the bid be awarded to DP Hoffman - Landscape Structures;
- WHEREAS, the bid submitted by DP Hoffman meets all required specifications and references, exceeds all other bids in creativity and design;
- WHEREAS, City Council has reviewed the documents and determined that it is in the best interests of the City to award the bid for the Playground Equipment in Category A to DP Hoffman;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL for the City of Riverview, Michigan, that bid #1260 for the purchase of Playground Equipment be awarded to DP Hoffman for the bid price of Fifty Two Thousand Four Hundred Fifty Dollars (\$52,450.00).

BE IT FURTHER RESOLVED that the playground equipment in categories B and C be rejected and the Selection Committee be charged with further review of the remaining equipment and re-surfacing of existing equipment.

PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel if anyone wished to address Council.

RESOLUTIONS:

Resolved by Councilman Durand, supported by Councilman Lane, that the following Resolution supporting the Emergency Telephone System 9-1-1 pursuant to Public Act 29 of 1994 be adopted.

WHEREAS, the proposed extended 911 Program having been enacted by the Michigan Legislature in Public Act 29 of 1994, requires the approval of the Wayne County Commission in order to be implemented; and

WHEREAS, an Extended 911 System will enable police, fire, and emergency medical personnel to substantially cut their response time to emergency calls thereby enhancing their ability to save the lives and protect the property of the citizens of Riverview; and

WHEREAS, the cost of the \$10 million program will be borne by a 4% surcharge on basic telephone bills (not including local unit and long distance charges), which will raise approximately 1.8 million per year at an average cost of \$ .35 to \$ .40 per telephone subscriber per month.

THEREFORE, the City of Riverview hereby resolves that the safety and security of the citizens of Riverview would be best served by the prompt implementation of the Extended 911 program now being considered by the Wayne County Commission.

THEREFORE, the City of Riverview hereby urges the Wayne County Commission to adopt forthwith the resolution authorizing the implementation of Extended 911 program for Downriver and for Wayne County as required under Public Act 29 of 1994 with the 4% surcharge expiring with final bond payment for this program.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilman Koch, that the following Resolution be adopted approving PowerFone Inc.'s Agreement to Construct and Convey Facilities to the City of Riverview and License Agreement for a Tower near the ski area/golf course pump house, along the Frank & Poet Drain midway between Sibley and King Road for new digital Telecommunications Technology. Further, all net proceeds be used toward the Debt on the Sanitary Sewer Remediation Project and all parties sign a release of lack of financial interest in this transaction. Further, the City Manager be directed to schedule a study session regarding the antenna marketing plan.

WHEREAS, the City of Riverview has established a municipal policy of the developing multi-seasonal uses to optimize the land use of the Riverview Highlands recreation area; and

WHEREAS, the municipal administration has recommended, and City Council has included the consideration of a telecommunication tower in the current Five Year Capital Improvements Plan; and

WHEREAS, PowerFone, Inc., a wholly-owned subsidiary of Nextel

Communications, Inc., a provider of digital communication systems, has submitted to the City of Riverview an unsolicited proposal in which PowerFone, Inc., will convey title to its proposed tower and facilities to the City of Riverview in consideration for the City of Riverview's license to operate from a specified location on the tower; and,

WHEREAS, the legal aeronautical, environmental, economic, and financial impacts of PowerFone Inc.'s sole source proposal have been evaluated and analyzed by the municipal administration, the City of Riverview's Planning Commission and Zoning Board of Appeals; and,

WHEREAS, PowerFone, Inc. has made presentations to the City Council on July 25 and August 8, 1994 and to the Planning Commission on July 21 and August 3, 1994 and at a public hearing before the Zoning Board of Appeals on August 11, 1994; and

WHEREAS, the impacts of the PowerFone, Inc. proposal were discussed on the current segment of "Riverview In Review" which has been cablecast nightly on Channel 44 or 47, and

WHEREAS, all necessary and appropriate site plan and zoning approvals have been granted by the Planning Commission and Zoning Board of Appeals prior to City Council consideration of final action on the proposed Agreement; and

WHEREAS, the PowerFone Inc.'s proposal and Agreement do not conflict with the City Charter, Code of Ordinances, or Purchasing Manual of the City of Riverview; and,

WHEREAS, all municipal employees and consultants involved in the analysis and recommendation of PowerFone Inc.'s proposal and Agreement will have certified an absence of financial interest in the PowerFone Inc.'s project, in conformance with Section XIII of the Purchasing Manual.

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview approves of the "Agreement to Construct and Convey Facilities to the City of Riverview, and License Agreement" and authorize the Mayor and City Clerk to execute the "Agreement to Construct and Convey Facilities to the City of Riverview; and License Agreement" and the appended Exhibits on behalf of the City of Riverview; and

BE IT FURTHER RESOLVED, that the City Council of the City of Riverview, Michigan as follows:

1. The City Manager is directed to coordinate and implement the construction of the tower.

Present: Councilmen Durand, Koch, Lane, Trombley, Weaks

Absent: Councilwoman Blanchette

Also

Present: City Manager Elliott; Assistant City Manager Steklac;  
Finance Director Abercrombie; City Engineer Hennessey;  
Department of Public Works Director Perry; Special  
Coordinator Sewer Project Bainbridge; Attorney Logan;  
Attorney Okun

Resolved by Councilman Durand, supported by Councilman Weaks, that the  
Appointments to the Steering Committee for the Master Plan be removed  
from the table.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilman Koch, that Mayor  
Rotteveel and Councilman Trombley be appointed as Representatives to  
the Master Plan Steering Committee and Councilman Durand be appointed  
as Alternate Representative.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Koch, that in  
the matter of Withholding Escrow Funds from Wayne County for the 1/10  
Mill for the purpose of Building a Youth Detention Center, Council  
adopt the following resolution as presented by the City Attorney.  
Further, direct staff to present other avenues protesting the actions  
of Wayne County.

WHEREAS, in August, 1988, a ballot proposal was presented to  
the voters of Wayne County to authorize the levy of  
1/10th of one mill on the taxable property within the  
County for ten (10) years, from 1988 through 1997,  
the funds to be used for the exclusive purpose of  
acquiring, building, and operating a juvenile  
offender, work/training institution; and

WHEREAS, seeking to alleviate the mounting problem of juvenile  
crime in Wayne County, the voters approved the  
millage; and

WHEREAS, the Wayne County Board of Commissioners has  
determined that the proposed establishment of a  
juvenile offender, work/training facility is not  
economically feasible; and

WHEREAS, despite its determination, the Wayne County Board of  
Commissioners has permitted the continued collection  
of the 1/10th mill levied for this exclusive purpose;  
and

WHEREAS, the City of Riverview objects to the transmission to the County of Wayne of these funds collected from its residents for the reason that the money will not be used for the purpose for which it was levied and the Board of Commissioners, by its action, is not acting in compliance with the intent of the 1988 millage proposal; and

WHEREAS, legal counsel has advised the Riverview City Council that the Council, while voicing its vigorous opposition to the actions taken by Wayne County and its Board of Commissioners, should immediately rescind its action taken by resolution on July 6, 1993 and direct the City Treasurer to immediately remit to Wayne County the funds collected.

NOW, THEREFORE, BE IT RESOLVED that the Resolution of July 6, 1993 of the City Council of the City of Riverview concerning this same matter is hereby rescinded.

BE IT FURTHER RESOLVED that the City Treasurer is directed to immediately pay over to the County of Wayne in protest all funds received from the 1/10th mill levy.

BE IT FURTHER RESOLVED that the City Council of the City of Riverview hereby voices its protest and vigorously objects to the actions of Wayne County and its Board of Commissioners in this matter.

BE IT FURTHER RESOLVED that the City Council of the City of Riverview intends to hold the County and/or its Board of Commissioners legally responsible for any claim, cause of action, or damage which results to the City either directly or indirectly, from the improper utilization of citizens' funds.

BE IT FURTHER RESOLVED that administration and the City Attorney are directed to research and promptly advise Council concerning the avenues which it and/or the citizens may pursue to protest the actions of Wayne County and/or its Board of Commissioners relative to the failure to utilize citizen funds in accordance with the intent and/or purpose of the 1988 millage proposal.

BE IT FURTHER RESOLVED that the City Council of the City of Riverview authorizes the Mayor and City Treasurer to take such action as may be appropriate to fully implement this Resolution.

BE IT FURTHER RESOLVED that the City Clerk is directed to send copies of this Resolution to all local communities within the County of Wayne and to officials of Wayne County advising them of the City's actions.

Carried unanimously.

**RESOLUTIONS:**

Resolved by Councilman Weaks, supported by Councilwoman Blanchette,  
that the following Resolution be adopted regarding Pension Plan  
Qualifications with the Internal Revenue Service for the six bargaining  
units (representing police command officers, police patrol offices,  
clerical, utility servicemen, operating engineers and facility  
servicemen).

- WHEREAS, the terms of the Riverview City Employees' Retirement System, which are currently contained in Chapter XXX of the Riverview Code of Ordinances (hereinafter referred to as "Pension Ordinance") must be in compliance with applicable requirements of the Internal Revenue Code of 1986, as amended by subsequent tax and labor laws, by the 1996 Plan Year, and
- WHEREAS, the Riverview Retirement Board is the responsible party to ascertain that compliance with the above directive is achieved, and
- WHEREAS, in 1991, the Riverview Retirement Board recommended that Ms. Carol Vondale, an attorney experienced in pension law, be employed as special counsel to seek the necessary qualification with the IRS of the City of Riverview Pension Ordinance, and
- WHEREAS, it was the recommendation of the City Treasurer and special counsel that a separate pension plan be prepared for each of the City's six (6) bargaining units to avoid the necessity of frequently amending the Pension Ordinance to reflect bargaining and tax law changes, and that the substantive benefit provisions of the Pension Plan should not be contained in the City Pension Ordinance, and
- WHEREAS, special counsel has submitted to Council documents which she has prepared for the six (6) pension plans which reflect the provisions of the pension benefits provided to each of the six (6) bargaining units, and
- WHEREAS, said plans have been reviewed by City administration and by the City Attorney's office, and
- WHEREAS, special counsel has recommended that the various plans be supplied to the bargaining units to determine that the Plans reflect the pension benefits negotiated and thereafter that each plan be filed with the Internal Revenue Service, and
- WHEREAS, it is in the best interest of the City and in the best interests of all employees to assure that the Pension Plans receive a favorable determination from the Internal Revenue Service that such plans comply with all applicable provisions of the Internal Revenue Code of 1986, as amended;
- NOW, THEREFORE, BE IT RESOLVED, upon the recommendation of City administration, including the City Treasurer, and of special counsel, and the City Attorney, that the following actions be taken to further the project of seeking favorable determination with the Internal Revenue Service:
1. That the City Treasurer is directed to submit the Pension Plans to the various bargaining units, and if requested by the bargaining units and/or the Retirement Board, to their advisors to verify that the Plans reflect the pension benefits negotiated;
  2. That legal counsel is directed to draft an amendment to the current City of Riverview Retirement Ordinance, which removes from the Pension Ordinance all substantive benefit related provisions, which are now contained in the drafts of the various Plan Documents;
  3. That special and legal counsel are hereafter permitted to make any revisions to the various

Pension Plans and the Retirement Ordinance, which may become necessary as a result of pending negotiations, or as are required in order to obtain Internal Revenue Service approval;

4. That prior to the end of 1994, the City Council and the Retirement Board will meet once again with special counsel, the City Attorney, and other persons to review the status of this project.
5. That the six (6) Re-stated Pension Plans prepared by special counsel are hereafter adopted subject to review and approval by the various bargaining units and the Internal Revenue Service.

Carried unanimously.

Kemper Securities, Inc.	5.748942%	1,239,855.21
NBD Bank, N.A.	5.994 %	1,292,794.79

WHEREAS, the bid of Kemper Securities, Inc. with Old Kent Bank - Southeast has been determined to produce the lowest net interest cost to the Issuer.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The bid of Kemper Securities, Inc. with Old Kent Bank - Southeast as above stated, be and the same is hereby accepted.
2. Checks of the unsuccessful bidders be returned to each bidder's representative or by registered mail.
3. The Issuer hereby covenants that, to the extent permitted by law, it shall take all actions within its control necessary to maintain the exclusion of the interest on the Bonds from adjusted gross income for general federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including, but not

limited to, actions relating to the rebate of arbitrage earnings, if applicable, and the expenditure and investment of Bond proceeds and moneys deemed to be Bond proceeds.

4. The Issuer hereby designates the Bonds as "qualified tax-exempt obligations" for purposes of deduction of interest expense by financial institutions.

5. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Trombley, that the following Resolution notifying the Township of Brownstown of Riverview residents' concerns regarding noise and other nuisance factors regarding the expansion of the Detroit Dragway Facility be adopted as endorsed by the City Manager.

WHEREAS, the Detroit Dragway facility has operated for many years as an amateur facility near the intersection of Sibley Road and Interstate 75; and

WHEREAS, the Detroit Dragway facility has seasonally operated during a limited number of days on weekends throughout the season; and

WHEREAS, the historic operation of the Detroit Dragway facility has generated a recognizable amount of noise and traffic congestion in the past; and

WHEREAS, there is a private development proposal to expand the physical dimensions of the Detroit Dragway facility to incorporate more racing activities of a professional nature; and

WHEREAS, the proposed enlargement of the Detroit Dragway facility may require an increase in operational hours; and

WHEREAS, the expansion of the Detroit Dragway facility would likely intensify the existing nuisances of traffic congestion, noise and air pollution, and litter accumulation; and

WHEREAS, the residents of the City of Riverview would be negatively affected by any further escalation of the nuisances generated by the Detroit Dragway; and

WHEREAS, the City of Riverview has received a petition from Riverview residents at their regular Council meeting of August 15, 1994, indicating their opposition to any renovation to the Detroit Dragway which would expand negative impacts of noise and air pollution, traffic congestion, and litter accumulation;

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview, Michigan, hereby notifies the Charter Township of Brownstown, Michigan, of its concerns regarding the intensification of nuisances that could be reasonably expected due to the enlargement of the Detroit Dragway facility nearby;

BE IT FURTHER RESOLVED, that the City Council of the City of Riverview, Michigan, requests that the Charter Township of Brownstown and its staff and consultants consider these concerns of traffic congestion, noise and air pollution, and litter accumulation when evaluating any proposal for the enlargement of the physical site or hours of operation of the Detroit Dragway;

BE IT FURTHER RESOLVED that the City Council of the City of Riverview requests that an opportunity for collaboration be established for review of this issue with the Charter Township of Brownstown;

BE IT FURTHER RESOLVED that a true copy of this resolution be forwarded to:

Resolved by Councilman Lane, supported by Councilwoman Blanchette, that the following Resolution pertaining to State Sovereignty over Federal Mandates and Regulations be adopted as endorsed by the City Manager.

WHEREAS, the Tenth Amendment to the Constitution of the United States of America states: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the State respectively, or to the people"; and

WHEREAS, the Tenth Amendment defines the total scope of federal power as being the authority specifically granted by the Constitution of the United States of America and no more; and

WHEREAS, the Congress and federal government have been made aware of the excessive regulatory and financial burdens that federal mandates have placed on the states and their local government subdivisions; and

- WHEREAS, the Congress and federal government have failed to adequately respond to the outcries for relief from state and local government; and
- WHEREAS, many federal mandates are directly in violation of the Tenth Amendment to the Constitution of the United States of America; and
- WHEREAS, the United States Supreme Court has ruled in New York v. United States of America 112 S. Ct. 2408 (1992) that Congress may not simply commandeer the legislative and regulatory processes of the states; and
- WHEREAS, there are a number of proposals pending before Congress that would create mandates for the state and local government and may further violate the Constitution of the United States of America.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, that the City as a political subdivision of the State of Michigan hereby asserts its sovereignty under the Tenth Amendment of the Constitution of the United States of America over all powers not otherwise enumerated and granted to the federal government by the Constitution of the United States of America; and

BE IT FURTHER RESOLVED, that we encourage the Michigan Legislature to adopt the "Tenth Amendment -State Sovereignty Resolution" introduced by State Representative John Jamian; and

BE IT FURTHER RESOLVED, that we hereby appeal to the Congress and federal government to cease and desist mandates that are beyond the scope of its constitutionally delegated powers; and

BE IT FURTHER RESOLVED, that copies of this resolution be transmitted to the President of the United States, U.S. Senator Donald Riegle, U.S. Senator Carl Levin, U.S. Representative John Dingell, State Senator Christopher Dingell, State Representative Joseph Palamara, Wayne County Commissioner William O'Neil, the clerks of cities and townships in Wayne County, the National League of Cities, and Michigan Municipal League.

**RESOLUTIONS:**

Resolved by Councilman Weak's, supported by Councilman Lane, that Council adopt the following Resolution supporting the Development of the Veterans Memorial Monument Project as an addition to the Riverview Public Library in Young Patriots' Park.

WHEREAS, the City of Riverview, in conjunction with several service organizations, plans to construct a Veterans Memorial Monument Project as a tribute to all veterans who have served and who continue to serve in the armed forces of the United States of America, and

WHEREAS, this project has received a site design by the architectural firm of Merritt, McCallum, Cieslak to become an addition to the Riverview Public Library in Young Patriots' Park, and

WHEREAS, the City Council has created the Ad Hoc Veterans Memorial Monument Committee to plan and oversee the development of this project, including private fundraising to generate community support and patriotism in the promotion of veterans affairs, and

WHEREAS, the Ad Hoc Veterans Memorial Monument committee is now prepared to initiate a community-wide fundraising campaign involving residents, businesses, civic organizations and veterans organizations, and

WHEREAS, the City Council wishes to lend support to these efforts by pledging a municipal financial contribution for the project by matching all private funding raised by the Ad Hoc Veterans Memorial Monument Committee.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

1. The City Council hereby declares its full support for the development of the Veteran's Memorial Monument Project as an addition to the Riverview Public Library in Young Patriots' Park.

2. As the project has been estimated to cost \$96,700 through site design by the architectural firm of Merritt, McCallum, Cieslak, the City Council pledges to match all private funds raised in support of this project by the Ad Hoc Veterans Memorial Monument Committee up to a maximum allocation of \$50,000.00. Said matching funds will be considered for appropriation by the City Council for the project upon the completion of private fundraising efforts as recommended by the Ad Hoc Veterans Memorial Monument Committee.

RESOLUTIONS:

Resolved by Councilman Weak, supported by Councilman Lane, that Council adopt the following Resolution approving the Building Authority Contract and Notice for the Riverview Public Library Expansion Project.

RESOLUTION APPROVING  
BUILDING AUTHORITY CONTRACT AND NOTICE  
City of Riverview  
County of Wayne, State of Michigan

- WHEREAS, there exists in and for the City of Riverview (the "City") an imperative need to make improvements to and modifications of the library, together with fixtures and equipment thereto and site improvements, all as described in plans therefor and an in Exhibit A attached hereto and made a part of hereof (herein sometimes called the "Improvements"); and
- WHEREAS, this City Council has determined, and does hereby reaffirm, that it is necessary for public health, safety and welfare of the City to acquire the Improvements for the use of the City; and
- WHEREAS, Act 31, Public Acts of Michigan, 1948 (First Extra Session), as amended ("Act 31"), provides through the procedures of building authority financing a means for the acquisition, construction and financing of the Improvements; and
- WHEREAS, the City, in accordance with the provisions of Act 31, has previously adopted Articles of Incorporation and has established the City of Riverview Building Authority (the "Authority"), with full powers to acquire, construct and equip the Improvements; and
- WHEREAS, this City Council determines it to be in the best interest of the City to acquire, construct and finance the Improvements through the Authority in accordance with the provisions of Act 31; and
- WHEREAS, the Limited Tax Full Faith and Credit General Obligation Contract of Lease (the "Contract") between the City and the Authority providing for the acquisition, construction, equipping and financing of the Improvements and such matters as are deemed necessary thereto has been prepared; and
- WHEREAS, the City Council is desirous of publishing a Notice of Intention of Entering into Limited Tax-Supported Contract of Lease so as to begin the statutory referendum period;

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City Council hereby determines it to be necessary for the public health, safety and welfare of the City to acquire and construct the Improvements for the use of the city.
2. The City Council deems it to be in the best interest of the City to finance the cost of the Improvements through the Authority in accordance

with the provisions of Act 31, which cost is not expected to exceed One Million, Six Hundred Eighty Thousand Dollars (\$1,680,000).

3. The City Council hereby approves the Contract for the acquisition, construction and financing of the Improvements, as hereto attached. A copy of the Contract shall be placed on file in the office of the City Clerk and shall be available for public examination.
4. The Notice of Intention of Entering into Limited Tax-Supported Contract of Lease as hereto attached shall be published in the News Herald Newspaper, a newspaper of general circulation in the City, promptly upon adoption of this resolution, said notice to appear as a display advertisement at least one-quarter (1/4) page in size.
5. The City Council does hereby determine that the designated newspaper is the newspaper circulating in the City which reaches the largest number of persons of whom the aforesaid Notice is directed and that publication of the aforesaid Notice in the designated newspaper represents the most practical and feasible means of informing the taxpayers and electors of the City of the Improvements and the financing thereof.
6. The Mayor and the City Clerk of the City are authorized to execute immediately and deliver to the Authority the Contract approved by this resolution. The Contract shall become effective upon the expiration of forty-five (45) days following the date of publication of the Notice of Intention of Entering into Limited Tax-Supported Contract of Lease, unless, under the provisions of Section 8b of Act 31, the effectiveness of the Contract is stayed by reason of the filing of a petition for referendum thereon and the resultant necessity of prior approval thereof by the qualified electors of the City.
7. The City Council does hereby ratify and confirm its covenant in the Contract to levy ad valorem taxes against all taxable property in the City to the extent necessary to meet the obligations of the City thereunder in the event revenues from other sources, including receipt of revenues from the parking fund of the City of Riverview, are insufficient for any reason whatsoever. Any such taxes levied to pay the Cash Rental under the Contract shall be limited as to rate or amount in the manner provided by law.
8. The City hereby covenants to take all action within its control to the extent permitted by law necessary to maintain the exclusion of the interest on the bonds described in the Contract from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as amended (the "Code"), including but not limited to, actions relating to the rebate of arbitrage earnings and the expenditure and investment of proceeds of the bonds and moneys deemed to be proceeds of the bonds.
9. The City hereby represents that it does not expect to issue or cause to be issued bonds in the calendar year 1994, the aggregate principal amount of which, when added together with the bonds

described in the Contract, will exceed \$5,000,000. Pursuant to Section 148(f)(4)(D)(iv) of the Code, the City hereby irrevocably allocates to the Authority, which issues bonds on behalf of the City, a portion of its \$5,000,000 limitation under said Section in an amount not to exceed \$1,600,000. The ultimate amount of such allocation shall be as may be determined by the City Council or the City Treasurer of the City in writing on or before the date of issuance of the Authority's bonds pursuant to the Contract. This allocation is intended to qualify the said bonds for the \$5,000,000 exception to the arbitrage rebate requirements of the Code applicable to governmental units issuing \$5,000,000 or less of bonds.

10. The Mayor, the City Clerk, the City Treasurer and the City Manager, each is hereby authorized and directed to execute and deliver such documents, instruments and certificates, including without limitation documents, instruments and certificates necessary or desirable to satisfy the requirements of the Code in relation to arbitrage, rebate and the qualification of interest expense for deduction by financial institutions.
11. The Mayor, the City Clerk, the City Treasurer and the City Manager, each is hereby authorized to furnish information about the City to rating agencies and bond insurance companies, to prepare, execute and deliver an official statement in connection with the sale of bonds if an official statement is utilized in connection with the sale of the bonds, to deem final the information regarding the City included in such official statement, and to prepare, execute and deliver such documents, instruments and certificates as may be necessary or desirable to accomplish the sale and delivery of the bonds.
12. All resolutions and parts of resolutions insofar as the same conflict with the provisions of this resolution be and the same are hereby rescinded.

RESOLUTION DECLARED ADOPTED.

\_\_\_\_\_  
City Clerk

I hereby certify that the foregoing is a true and complete copy of a resolution adopted by the City Council of the City of Riverview, County of Wayne, State of Michigan, at a regular meeting held on October 3rd, 1994 and that said meeting was conducted and public notice of said meeting was given pursuant to and in full compliance with the Open Meetings Act, being Act 267, Public Acts of Michigan, 1976, and that the minutes of said meeting were kept and will be or have been made available as required by said Act.

\_\_\_\_\_  
City Clerk

Carried unanimously.

ADMINISTRATION:

Resolved by Councilman Weak, supported by Councilman Lane, that Change Order #9 on the Sanitary Sewer Remediation Project be ratified with Sunset Excavating in the amount of \$9,953.25 for additional traffic controls for the installation of a 42" diameter interceptor and associated land closures on Jefferson Avenue.  
Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Koch, that Change Order #10 on the Sanitary Sewer Remediation Project be ratified for the increase in size of the sanitary manhole #14 to 60" near the intersection of Central Avenue (in Wyandotte) and Pennsylvania Road with Sunset Excavating in the amount of \$2,925.01 as endorsed by the City Manager.  
Carried unanimously.

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that Council authorize the waiving of competitive bidding for professional services and approve the Letter of Agreement with Plante and Moran for a Marketing Analysis for the Land Preserve in an amount not to exceed \$7,000.00. Further, Council allocate the consulting services credit of \$3,000.00 with Plante and Moran, pursuant to the City auditing services contract, to the marketing analysis as endorsed by the City Manager. Furthermore, the Council receive the 1989 Plante and Moran study to aid in the analysis.  
Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Lane, that Council authorize the split Bid Award for Fire Hose to Alert Fire for the 4" Hose in the amount of \$3,830.00 and West Shore for 2-1/2" Hose in the amount of \$2,120.00; total bid price of \$5,950.00 as endorsed by the City Manager; both suppliers were low bidders for each item.  
Carried unanimously.

Resolved by Councilman Lane, supported by Councilwoman Blanchette, that the Sale of a 1968 Surplus Fire Truck be awarded to Riverview Towing in the amount of \$3,001.00.  
Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Lane, that the Bid Award for Publishing Legal Notices be awarded to the News Herald for a three year contract at a bid price of \$5.00 per columnar inch for the first year and a 5% increase for each subsequent year, they being the only bidder.  
Carried unanimously.

Resolved by Councilman Lane, supported by Councilwoman Blanchette, that the cooperative purchasing of Rock Salt with other downriver cities be awarded to North American Salt Company at a Bid Price of \$27.09 per ton, for a total bid price of \$17,554.32 subject to the transfer of funds in Item 10.16 of this agenda.  
Carried unanimously.

Resolved by Councilman Durand, supported by Councilman Weak, that Council authorize Michigan Cat as the sole source supplier and award Bid to said company for Parts and Labor for Heavy Equipment Maintenance at the Land Preserve in an amount not to exceed \$40,000.00. Further, staff report to Council once the amount is met.  
Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Lane, that staff be authorized to Solicit Bids for Computer Hardware and Software as proposed by the Data Processing Committee. Further, staff develop a

consulting arrangement to evaluate the data processing information and potential networking with all city computers with the process to be completed within 90 days.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilman Lane, that Council amend the Fiscal Year 1994/95 Budget to reappropriate Encumbrances from Fiscal Year 1993/94 as recommended by the City Treasurer.

PROPOSED ORDINANCE #426

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW, BY ADDING A NEW SECTION 1-6.1 OF PART II CODE OF ORDINANCES, CHAPTER 1, GENERAL PROVISIONS, TO SET FORTH ETHICAL STANDARDS FOR ELECTED OFFICIALS, THE CITY MANAGER AND CITY OFFICERS AND EMPLOYEES, IN ORDER TO SET FORTH A CODE OF ETHICS TO WHICH THESE PERSONS SHOULD STRIVE IN THE PERFORMANCE OF THEIR DUTIES TO SERVE THE BEST INTERESTS OF THE CITY OF RIVERVIEW; TO PRECLUDE PARTICIPATION IN ANY DECISION OR TRANSACTION WHICH WOULD RESULT IN DIRECT FINANCIAL BENEFIT OR OTHERWISE POTENTIALLY POSE A CONFLICT OF INTEREST AND TO FORBID CONFLICTING EMPLOYMENT; TO SET FORTH THE RAMIFICATIONS FOR VIOLATIONS OF THIS ORDINANCE; TO PROHIBIT ELECTED OFFICIALS FROM SOLICITING OR ACCEPTING GIFTS, FAVORS, GRATUITIES, OR SPECIAL CONSIDERATION FROM PERSONS ASSOCIATED WITH THE CITY; TO PROHIBIT SOLICITATION OR ACCEPTANCE BY ELECTED OFFICIALS OF CERTAIN LISTED ITEMS WITHOUT REIMBURSEMENT AND TO EXCLUDE CAMPAIGN CONTRIBUTIONS; TO PERMIT ACCEPTANCE OF SOUVENIRS; TO REQUIRE THAT ALL PROFESSIONAL SERVICE CONTRACTS AWARDED BY THE CITY AND BID SOLICITATIONS PROVIDE AN ANNUAL CERTIFICATION OF COMPLIANCE WITH THIS ORDINANCE; AND TO PROVIDE THAT FAILURE TO COMPLY WITH THIS ORDINANCE MAY RESULT IN DEBARMENT OR TERMINATION OF A PENDING CONTRACT AND TO REQUIRE COMPLIANCE WITH OTHER CITY ORDINANCES, POLICIES AND/OR STATEMENTS CONCERNING ETHICS.

ETHICAL STANDARDS FOR ELECTED OFFICIALS, THE CITY MANAGER AND CITY OFFICERS AND EMPLOYEES

- (A) Ethical Standards: General. All elected officials, the City Manager, and officers and employees of the City of Riverview shall fulfill their duties with the utmost attention to serving the best interests of the citizens of the city.
- (B) Certain Decisions or Transactions Prohibited. An elected official, the City Manager, or an officer or employee may not participate in

a decision or transaction on behalf of the City which would result in a direct financial benefit to the official, the City Manager, or the officer or employee.

- (C) Conflict of Interest; Conflicting Employment. If an elected official, the City Manager, or an officer or employee believes that he or she may be placed in a potential conflict of interest in violation of this Ordinance, that individual shall immediately provide written notification to the City Council, if an elected official or the City Manager, or to his or her immediate supervisor, if an officer or employee. An elected official, the City Manager, and/or an officer or employee shall not accept employment that conflicts with performance of his or her duties with the City.
- (D) Violations; Result. Violation of this Ordinance by the City Manager or an officer or employee may result in disciplinary action, up to and including discharge, in accordance with City policies, applicable collective bargaining agreements, and employment contracts. Violation of this Ordinance by an elected official may result in censuring by unanimous vote of the remaining members of the City Council.
- (E) Elected Officials. Elected officials may not solicit or accept any gifts, favors, gratuities or special consideration from anyone currently doing business with the City, seeking to do business with the City, who may currently be negotiating to do business with the City in the future, or who otherwise is or may seek any action or approval by the City, unless specifically allowed by City policy.
- (F) Solicitation and/or Acceptance of Items Without Reimbursement Prohibited; Violations; Result; Campaign Contributions Excluded. Specifically, elected officials may not solicit or accept, without reimbursement, meals, sporting event tickets, social amenities, or attendance at any event with any organization that does business or seeks to do business with the City, unless specifically sanctioned as a City-sponsored event. A City-sponsored event is one which is sanctioned by recognition by the City Council as an event that promotes a policy position of the City. Specifically excluded from this Ordinance are contributions to a candidate's campaign committee which are reported in accordance with Michigan law. Failure to comply with this policy may result in censuring by the City Council.
- (G) Acceptance of Certain Souvenirs Permitted. Nothing in this Ordinance shall prohibit the acceptance of a souvenir, i.e. an item bearing some identification or logo of an individual, company or other entity, if the souvenir involves normal sales, promotion, advertising or publicity and the cost of the souvenir does not exceed Ten Dollars (\$10.00).
- (H) Certification of Compliance Required; Failure to Comply, Result. All professional service contracts awarded by the City must include an annual certification of compliance with this Ordinance. All bid solicitations by the City shall require a certification from the bidder that said bidder did not offer or deliver any gifts, favors, gratuities, or other special consideration to any elected official, the City Manager or an officer or employee of the City and that it has otherwise fully complied with this Ordinance. Failure of a bidder to comply with this Ordinance may result in debarment or termination of a pending or existing contract by the City Council.
- (I) Inconsistent Sections. All other sections inconsistent with the provisions of this Ordinance shall be, and the same are hereby superseded, and repealed where necessary.
- (J) Compliance with other ordinances, policies and/or statements concerning ethics, including Section XIII of the Purchasing Manual concerning ethics also is required.

(K) Effective Date. This Ordinance shall take effect after publication as provided by law.

Resolved by Councilman Durand, supported by Councilman Weak, that Section (K) above be amended to read: Effective Date of Proposed Ordinance #426 shall be December 1, 1994.

#### PROPOSED ORDINANCE #425

AN ORDINANCE TO AMEND THE CODE OF ORDINANCE OF THE CITY OF RIVERVIEW, BY THE REPEALING SECTION 27-64. CONNECTION OF ROOF DRAINS WITH SEWER SYSTEM, SECTION 27-65. VARIANCE FOR UNDUE HARDSHIP, AND SECTION 27-66. PROVISIONS OF ARTICLE NOT TO LIMIT AUTHORITY OF HEALTH OFFICER TO ABATE NUISANCES, ALL OF DIVISION 1. GENERALLY OF ARTICLE III, SEWERS, OF CHAPTER 27. WATER AND SEWAGE DISPOSAL SYSTEM AND ADDING A NEW SECTION 27-64 TO REQUIRE THE DISCONNECTION OF ALL DOWNSPOUTS ON ANY PROPERTIES WITHIN THE CITY WHICH DISCHARGE WATER INTO THE PUBLIC SANITARY SEWER SYSTEM AND TO PROVIDE AN APPEALS PROCEDURE TO EXTEND THE TIME OR GRANT A WAIVER FOR COMPLIANCE.

#### THE CITY OF RIVERVIEW ORDAINS:

Chapter 27, Water and Sewage Disposal System, Article III. Sewers, Division 1. Generally, Section 27-64, 27-65, and 27-66 are hereby repealed. A new Chapter 27, Water and Sewage Disposal System, Article III. Sewers, Division 1. Generally, Section 27-64 is hereby adopted as follows:

#### CHAPTER 27

#### WATER AND SEWAGE DISPOSAL SYSTEM

#### ARTICLE III. SEWERS

#### DIVISION 1. GENERALLY

#### Section 27-64. Disconnection of Roof Drains with Sewer System.

- a. Purpose. This Ordinance has as its purpose the protection of the public health and safety by preventing pollution through the regulation and control of the quantity of rain and surface water discharged into the sanitary sewer collection system of the City.

thereby decreasing the amount of sewage required to be treated at the Wyandotte Wastewater Treatment Plant. This Ordinance also has as its purpose furthering compliance with the Consent Decree entered by the Honorable John Feikens of the United States District Court, Eastern District of Michigan, Southern Division, in Civil Action No 87CV70992-DT, resulting from the Complaint filed in said case against several defendants, including the City of Riverview, by the U.S. Environmental Protection Agency and the Michigan Department of Natural Resources, alleging violations of the Clean Water Act, the Michigan Water Resources Commission Act and the terms and conditions of the National Pollutant Discharge Elimination System.

- b. Disconnection of Downspouts. The owners of all commercial, industrial, governmental, and/or multi or single family or other properties within the City having downspouts which admit or discharge water from such properties into the public sanitary sewer system, shall at said owner's expense disconnect said downspouts on or before April 1, 1995.
- c. Certain Downspouts Prohibited. It shall be unlawful for any person owning property within the City to construct, maintain, or use said property with downspouts connected to the sanitary sewer system.
- d. Disconnection Requirements:
  - 1. All downspouts on Commercial, industrial and multi family residential properties must discharge on to an impervious surface, such as concrete or asphalt, with a positive slope away from the building wall. Said positive slope must extend at least five (5) feet from the building wall or be conveyed by piping to a point at least five (5) feet from the building wall.
  - 2. All downspouts on single family residences must discharge on to an impervious surface, such as concrete or asphalt, with a positive slope away from the building wall. Said positive slope must extend at least five (5) feet from the building wall or be conveyed by a three (3) foot splash block which has a positive slope away from the wall. The positive slope must extend at least two (2) feet beyond the end of the splash block.
- e. Environmental Surcharge. If the above property owner should fail to comply with the requirements of this Ordinance, the owner shall pay an environmental surcharge of Fifty Dollars (\$50.00) per quarter greater than the normal charge for such services.
- f. Appeal Procedure. Any person who will suffer substantial financial hardship or practical difficulty by strict enforcement of the requirement so this Ordinance may appeal to an Appeal Committee, which may grant an extension of time for compliance with or grant a waiver of the requirements of this Ordinance. The appeals Committee will be comprised of five (5) persons to be appointed by City Council. Any appeal shall be by written communication addressed to the City Clerk, and said applicant will be provided with the full opportunity to appear before such committee after written notice of time and place of such hearing. The decision of such Appeal Committee shall be final.
- g. Effective Date. This ordinance shall be effective upon publication as provided by law.

Resolved by Councilman Lane, supported by Councilwoman Blanchette, that Proposed Ordinance #425 be adopted.  
Carried unanimously.

OTHER BUSINESS:

Resolved by Councilman Lane, supported by Councilman Blanchette, that Council close the Investigation on the Tape Erasure Incident of February 20, 1994 in the Police Department.

PROPOSED ORDINANCE #428

AN ORDINANCE TO AMEND THE CODE OF ORDINANCE OF THE CITY OF RIVERVIEW, BY MODIFYING PARAGRAPHS (E) AND (F) OF SECTION 1-6.1 OF PART II CODE OF ORDINANCES, CHAPTER 1, GENERAL PROVISIONS, ENTITLED ETHICAL STANDARDS FOR ELECTED OFFICIALS, THE CITY MANAGER AND

OFFICERS AND EMPLOYEES; TO PROHIBIT THE CITY MANAGER, OFFICERS AND EMPLOYEES, AS WELL AS ELECTED OFFICIALS FROM SOLICITING OR ACCEPTING GIFTS, FAVORS, GRATUITIES OR SPECIAL CONSIDERATION FROM PERSONS ASSOCIATED WITH THE CITY; TO PROHIBIT SOLICITATION OR ACCEPTANCE BY THE CITY MANAGER, OFFICERS AND EMPLOYEES, AS WELL AS ELECTED OFFICIALS OF CERTAIN LISTED ITEMS WITHOUT REIMBURSEMENT AND TO EXCLUDE CAMPAIGN CONTRIBUTIONS; AND TO MODIFY PARAGRAPH II (NOW PARAGRAPH G) OF THIS SAME SECTION TO REQUIRE THAT ALL PROFESSIONAL SERVICE CONTRACTS AWARDED BY THE CITY AND BID SOLICITATIONS WHICH REQUIRE A WRITTEN QUOTATION OR FORMAL BID PROCEDURES TO PROVIDE AN ANNUAL CERTIFICATION OF COMPLIANCE WITH THIS ORDINANCE

ETHICAL STANDARDS FOR ELECTED OFFICIALS, THE CITY MANAGER AND CITY OFFICERS AND EMPLOYEES

- A. Ethical Standards: General. All elected officials, the City Manager, and officers and employees of the City of Riverview shall fulfill their duties with the utmost attention to serving the best interests of the citizens of the City.
- B. Certain Decisions or Transactions Prohibited. An elected official, the City Manager, or an officer or employee may not participate in a decision or transaction on behalf of the City which would result in a direct financial benefit to the official, the City Manager, or the officer or employee.
- C. Conflict of Interest; Conflicting Employment. If an elected official, the City Manager, or an officer or employee believes that he or she may be placed in a potential conflict of interest in violation of this Ordinance, that individual shall immediately provide written notification to the City Council, if an elected official or the City Manager, or to his or her immediate supervisor, if an officer or employee. An elected official, the City Manager, and/or an officer or employee shall not accept employment that conflicts with performance of his or her duties with the City.
- D. Violations: Result. Violation of this Ordinance by the City Manager or an officer or employee may result in disciplinary action, up to and including discharge, in accordance with City policies, applicable collective bargaining agreements, and employment contracts. Violation of this Ordinance by an elected official may result in censuring by unanimous vote of the remaining members of the City Council.
- E. Solicitation and/or Acceptance of Items Without Reimbursement Prohibited; Violations; Result; Campaign Contributions Excluded. Elected officials, the City Manager, officers and employees may not solicit or accept any gifts, favors, gratuities or special consideration from anyone currently doing business with the City, seeking to do business with the City, who may currently be negotiating to do business with the City in the future, or who otherwise is or may seek any actions or approval by the City, unless specifically allowed by City policy. Specifically, elected officials, the City Manager, officers and employees may not solicit or accept, without reimbursement: meals, sporting event tickets, social amenities, or attendance at any event with any organization that does business or seeks to do business with the City, unless specifically sanctioned as a City-sponsored event. A City-sponsored event is one which is sanctioned by recognition by

the City Council as an event that promotes a policy position of the City. Specifically excluded from this Ordinance are contributions to a candidate's campaign committee which are reported in accordance with Michigan law.

- F. Acceptance of Certain Souvenirs Permitted. Nothing in this Ordinance shall prohibit the acceptance of a souvenir, i.e., an item bearing some identification or logo of an individual, company or other entity, if the souvenir involves normal sales, promotion, advertising or publicity and the cost of the souvenir does not exceed Ten Dollars (\$10.00).
- G. Certification of Compliance Required; Failure to Comply; Result. All professional service contracts awarded by the City must include an annual certification of compliance with this Ordinance. All bid solicitations by the City requiring written quotations or formal bid procedures shall require a certification from the bidder that said bidder did not offer or deliver any gifts, favors, gratuities, or other special consideration to any elected official, the City Manager or an officer or employee of the City and that it has otherwise fully complied with this Ordinance. Failure of a bidder to comply with this Ordinance may result in debarment or termination of a pending or existing contract by the City Council.
- H. Inconsistent Sections. All other sections inconsistent with the provisions of this Ordinance shall be, and the same are hereby superseded, and repealed where necessary.

PUBLIC HEARINGS:

A Public Hearing was scheduled to receive comments and/or suggestions for the re-allocation of 1992/93 and 1993/94 Community Development Block Grant (CDBG) Funds.

Resolved by Councilman Durand, supported by Councilman Lane, that the Public Hearing be opened.

Carried unanimously.

Opened the Public Hearing at 7:35 P.M.

At this time, Mayor Rotteveel asked if anyone wished to speak on the Block Grant Funding.

No one spoke.

Resolved by Councilman Durand, supported by Councilman Lane, that the Public Hearing be closed.

Carried unanimously.

Closed the Public Hearing at 7:36 P.M.

Resolved by Councilman Weak, supported by Councilman Koch, that the customary two week waiting period relative to public hearings be waived and Council adopt the following Resolution Re-allocating the 1992/93 and 1993/94 Community Development Block Grant Funding to the 1992/93 ADA/Parks Project as approved by the Citizens Advisory Committee and endorsed by the City Manager.

WHEREAS, Wayne County, Michigan has offered local municipalities and townships within its jurisdiction the opportunity to participate in the Department of Housing and Urban Development's (HUD) "Urban County" Community Development Block Grant (CDBG) program since program year 1974/75; and

WHEREAS, the City of Riverview has successfully participated in Wayne County's "Urban County" CDBG since program year 1975/76; and

WHEREAS, during the last ninety (90) days Wayne County has been notified by HUD that the rate of expenditure of CDBG funds has become a serious concern which could have very serious impacts to the County-wide CDBG program, up to the withdrawal of funding; and

WHEREAS, during the same period of time, the City of Riverview has become aware of a CDBG funding shortfall in the completion of American with Disabilities Act (ADA) compliance activities throughout the park system in the City of Riverview; and

WHEREAS, the administrative strategy to simultaneously advance the ADA compliance activities while accelerating the expenditure rate has been reviewed by Wayne County CDBG staff, City of Riverview Planning Commission, and the local Citizens' Advisory Committee for the CDBG program; and

WHEREAS, the aforementioned administrative strategy involves the re-allocation of the following 1992/93 and 1993/94 CDBG funds to the ADA/Parks project:

Project Name	Amount
Housing Rehabilitation	\$32,449.00
Lead Waterline Replacement	13,000.00
Clearance	781.75
Senior Citizen	4,500.00
Romulus Help Center	3,000.00
1992/93 Subtotal	\$53,730.75
Housing Rehabilitation	31,301.00
Colonial Village	1,070.00
1993/94 Subtotal	<u>32,371.00</u>
Grand total	\$86,101.75

WHEREAS, the local Citizens' Advisory Committee for the CDBG program recommended the proposed administrative strategy at their meeting of December 6, 1994, as well as the re-allocation of additional amounts; and

WHEREAS, the additional amounts of CDBG funding recommended to be re-allocated by the Citizens' Advisory Committee were not part of the December 7, 1994 public notice, therefore, that portion of the recommendation will be reconsidered at the February 21, 1995 annual public hearing concerning CDBG funding; and,

WHEREAS, the advancement of ADA compliance activities within all the parks of the City of Riverview through the utilization of CDBG funds is to be undertaken in two (2) bids; the purchase of ADA compliant play equipment, and a subsequent bid for ground cover and the installation of all materials; and

WHEREAS, the bid under consideration for the purchase of play equipment is within the budget established through the accumulation and re-allocation of prior year's CDBG funding; and,

WHEREAS, the re-allocation of the aforementioned CDBG funding assists the acquisition of the ADA compliant playground equipment and thereby advances the strategy of fulfilling a desirable local public purpose while proportionally participating in the resolution of County-wide CDBG expenditure rate issue;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Riverview, Michigan, hereby amends the City of Riverview's Community Development Block Grant (CDBG) Program by the re-allocation of the following 1992/93 and 1993/94 funding to the ADA Parks Project:

Project Name	Amount
Housing Rehabilitation	\$32,449.00
Lead Waterline Replacement	13,000.00
Clearance	781.75
Senior Citizen	4,500.00
Romulus Help Center	3,000.00
1992/93 Subtotal	\$53,730.75
Housing Rehabilitation	31,301.00
Colonial Village	1,070.00
1993/94 Subtotal	<u>32,371.00</u>
Grand total	\$86,101.75

Carried unanimously.

#### RESOLUTIONS:

Resolved by Councilman Weeks, supported by Councilman Lane, that the following Resolution granting a Utility Easement for Ameritech Telephone and Detroit Edison, with the Land Preserve area be adopted.

WHEREAS, in 1974 the City of Riverview was desirous of obtaining electrical service to that portion of the Land Preserve which was scheduled for development and;

WHEREAS, the City of Riverview on August 19, 1974 granted to Detroit Edison a ninety-three (93) foot right-of-way in a northerly and southerly direction five hundred and fifty (550) feet north from the centerline of King

Road, approximately two hundred and thirty (230) feet east of the southwest corner of Section 12; and

WHEREAS, Detroit Edison did construct, establish, and maintain electric service within the prescribed right-of-way for the subsequent twenty (20) years, pursuant to the 1974 conveyance; and

WHEREAS, the City of Riverview authorized the agreement with PowerFone, Inc. on August 15, 1994 to construct and convey to the City of Riverview a telecommunications antenna and facilities near the Land Preserve areas; and

WHEREAS, the construction and operational completion of the telecommunication facilities requires both electrical and telephone services; and

WHEREAS, the provision for obtaining any utility service was in the agreement with PowerFone, Inc., specifically Section 6 (b); and

WHEREAS, PowerFone, Inc. secured permission from the City of Riverview on or about November 3, 1994 to survey the proposed route for a proposed twenty (20) foot utility easement from King Road to the PowerFone site; and

WHEREAS, the proposed utility easement incorporates the established location of Detroit Edison power poles and is within the boundaries of the 1974 right-of-way for a distance of five hundred and fifty (550) feet from the centerline of King Road; and

WHEREAS, the balance of the easement extends beyond the original 1974 right-of-way along the east boundary of the Land Preserve; and

WHEREAS, the City Engineer approved the locational routing and legal description for the proposed utility easement on November 17, 1994;

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview, Michigan hereby grants the utility easement for the use by Detroit Edison, Inc. and Ameritech, Inc. as described:

Land located in the West 1/2 of Section 12, T4S, R10E, City of Riverview, Wayne County, Michigan. Tape 1 - 338

Mayor Rotteveel declared the continuation of the Public Hearing on the  
proposed Installation of a Traffic Signal at the Intersection of Sibley  
and Grange Roads.

Opened the Public Hearing at 7:42 P.M.

Mayor Rotteveel: At this time we proceed with the Public Hearing which  
was recessed two weeks ago. The Public Hearing is concerning the  
installation of a traffic signal at the intersection of Sibley Road and  
Grange Road. I understand we have a lady here from the Wayne County  
Traffic Control, or a gentleman...

Mayor Rotteveel: Yes.

Mr. Hogan: Good evening, Mayor and Council. My name is Patrick  
Hogan...

Councilman Trombley: Your Honor. Do we need a motion to open the  
Public Hearing?

City Manager Elliott: It's open.

Mayor Rotteveel: It's continued.

Councilman Trombley: It's a continuance?

City Manager Elliott: Yes, the Mayor declares it open.

Councilman Trombley: O.K.

Mayor Rotteveel: Yes sir.

Mr. Patrick Hogan: Good evening. My name is Patrick Hogan, Deputy  
Director of the Wayne County Roads Division. With me tonight is  
Victoria Holland who is an engineer in our traffic safety and  
engineering section of the Roads Division. We are here to answer any  
questions you have relative to the installation of the traffic signal  
at the intersection of Sibley and Grange. It is my understanding what  
has transpired thus far the city has requested that a signal be  
installed there some time ago. We did a typical traffic study which  
we do on all these kinds of requests and concluded that while a signal

was not warranted there by the criteria which we use, which is the Michigan Manual Uniform Traffic Control Devices, we did indicate to the city that if the city desired to continue with the installation of the signal and the city was interested in paying for it, then we could develop an agreement whereby the city paid we would install the signal and the maintenance and energy of the cost of the signal thereafter would be borne on a cost-shared basis. If you have any more questions regarding that, we would be certainly willing to try to answer them.

Councilman Weak: Your Honor. I guess I don't have a question, but maybe I know the Council from time to time throughout the last hearing had questions on regarding approaches, analysis, things like that. And I know there may be people in the audience that have questions. If we could ask them to join at the microphone or somehow join in the discussion that maybe instead of doing one on one with Council and then have someone come up and ask a question of them if they could somehow join us. There is a mike there, and a mike there.

Mayor Rotteveel: At this time, if anyone in the audience would like to address the pros or the cons of the installation of a traffic signal at Sibley Road and Grange Road, please state your name and address for the record.

Linda Chesney: My name is Linda Chesney - 17860 Brentwood in the Glens Subdivision. The first question is I don't know who wants to have the biggest uproar with the residents - the school board or you guys right now. I am definitely not in favor of the installation of a signal there and there's reasons why not. I think it is a waste of our tax dollars as well as the police department and Wayne County have done studies and don't feel we need one from my understanding we don't need one there. There are already three lights between Grange and 1st Street and that would only congest the area more. Grange and Sibley is not a main cross road for one thing and I feel money would be better spent at getting a traffic signal installed at Grange and Pennsylvania where there have been several accidents, some fatal. Perhaps Riverview and Wayne County could take all these energies they are waiting on Sibley and Grange and consider looking into Pennsylvania instead. I travel those roads probably more than half the residents in this area a minimum four times on each end daily. Getting out of Grange is no problem, but I have seen accidents on Pennsylvania. My concerns are that you take your energies on that end of town and not our money on Sibley and Grange.

Mayor Rotteveel: O.K. ma'am. That's the purpose for the public hearing...to get citizen input and after we analyze the input of the citizen, this Council will make a decision at a later date to either install a traffic signal or not.

Ms. Chesney: We are not in favor it.

Mayor Rotteveel: O.K. Thank you. Anyone else?

Mr. Gemus - 17831 Parkridge - Riverview Glens Subdivision. I also am not in favor of the light at Sibley and Grange, but I am in favor of something should be done at the intersection of Pennsylvania and Grange. We may not need a light at Pennsylvania and Grange, but what we do need is the north bound, going northbound on Grange once you get to Pennsylvania, if you're going to make a left turn and a car wants to make a right turn, the intersection is not wide enough as it is at Grange and Sibley so you have to line up behind the person making the left. The traffic flow to the school, the bar, the gas station down there is a great problem coming out of that intersection. Besides that intersection also is a four way intersection; it is not a three way intersection. So, if you're going to spend any money, my, I would say start at Pennsylvania and Grange before Sibley and Grange.

Mayor Rotteveel: Thank you, sir.

Mr. Jack Miles - 11551 Georgia - I am also strongly in disfavor of the light over on Sibley and Grange and I would like to if I could, remind the members of the Council the many issues that have come up over the last year, year and a half, how many times have we said as citizens is

Riverview and members of the Council up there said that we need to get second or maybe third opinions on some of the actions we take. I was here two weeks ago and we heard that the Council, or I'm sorry, the Wayne County did not see the need for a light there. That they would not install it. I just heard it here again tonight. We also heard it from our police department, who are city traffic experts, and they said we did not need a light over there. I heard from several of the residents two weeks ago, and I'm hearing it again tonight. I just wonder when are we going to learn our lesson and start listening. Councilman Koch, I guess I could address this to you. I recall on two occasions where you voted, in fact I think you brought it up that we should get second opinions because we were getting beat on by the residents because of some of the things we were doing. You turn right around now and are pushing and are advocating a light over there at a tremendous cost that is absolutely ridiculous. I think it is wrong.

Mayor Rotteveel: Thank you. Anyone else?

808

Mr. Rod Pitts - 20045 Brandywine - I was not able to attend the earlier session, so I really don't know about all the studies. I don't know what other people had to say about it. I can tell you this, I just went back to work recently after about a five month absence after having been involved in an automobile accident on August 31, 1993. It was a pretty bad accident. I am not here for sympathy, I just wanted you to...I just want to add something for your deliberations. I was involved in an accident when I was headed northbound through an intersection with a traffic signal. The accident was caused because an individual in such a hurry to beat the light, cut his left turn a little bit too quick without looking for oncoming traffic. Of course, having no place else to go, I ended up in a collision with that other vehicle. It was a pretty bad accident. My car was totalled. I was seriously injured and I was off work for a long period of time. My point here is I don't know if a traffic signal always corrects the problems we are looking for it to correct. I fear that it could cause more problems in the future. The most dangerous situation I can think of having been a resident of Riverview for about ten years now is individuals heading for I-75 freeway who might be running a little late for work and might be more interested in beating the light at Grange and Sibley then concern for the what speed they are traveling at. With an increase in speed is an increase not only the danger involved because of the reaction time, but also the seriousness of accidents that occur. I understand from reading in the newspaper, that the number of total accidents at that...resulting from that intersection are minimal. I believe I read two over the course of a year. I would suggest there are probably accidents at Valleyview, rear-end type collisions, where people are sitting, waiting at the light and others have failed to stop in the assured clear distance and strike them in the rear. I would like Council to consider all those factors before selecting that course of action. Thank you.

Councilwoman Blanchette: Mr. Pitts...excuse me, Your Honor. Mr. Pitts, I think it is important that you let people know what your profession is also.

Mr. Pitts: I am a lieutenant with the Wayne County Sheriff's department and I also used to be a traffic officer. One thing I found in my experience, and it has been a number of years, I must admit. I have not worked traffic in a long, long, time. But the same held true of stop signs in communities. People would insist on cars were going through too fast, throw up a stop sign. What you find out after putting up too many signs is that people start ignoring them. I think there is one in Councilman Weeks can relate to on Coachwood. I think you could write a ticket once an hour easily on that street because people ignore a traffic control device, the stop sign. The same thing happens with traffic lights. Also, most people believe incidentally that running an amber light is O.K. I do remember that much about my traffic code that the law doesn't distinguish between what color. It just says disregard of a traffic control device. Unfortunately, that thought process causes a lot of problems. A lot of people figure, well, if I do 90 miles an hour and get through that amber light, I have not violated the law. But, we all know that is not true and we also

know that is a very dangerous situation. Thank you

Mayor Rotteveel: Anyone else?

Ms. Kim Zeppa - 18010 Parkridge - I was here two weeks ago. I am still against having a traffic light installed at Sibley and Grange. The evening I was here, the Council had requested from the police department to do more studies and research into the other streets, or cross streets that had been deemed dangerous. Do they have a report ready tonight?

Mayor Rotteveel, No, not tonight.

Ms. Zeppa: Not that you know.....O.K.

Mayor Rotteveel: This council is not going to make a decision tonight.

Ms. Zeppa: Oh, I know they are not going to. I just wondered if they had any more information to present.

Mayor Rotteveel: Not to my knowledge, but it probably will be forthcoming.

Ms. Zeppa: O.K. Thank you.

Mr. Fred Stull - 18312 Koester - I am opposed to this traffic signal. All the information I have read in the papers and I agree with Mr. Pitts, that I don't think it is needed at that corner. I think we can take the 20 or \$25,000 and better spend it on the kids in the community. I feel there are other places that also the light would benefit more. I have more problems turning left on the streets off Pennsylvania, be it Fordline, be it Kennebec, or Grange Road than I do on Sibley Road. I never had a problem. I even drove down Grange to Sibley Road at different times to see how bad it was and I didn't have no problems. My longest wait, I think, was like maybe a minute. I just don't think it is necessary. Pennsylvania is much worse and I think we would be getting into where we end up having to share with the City of Southgate and Wayne County and I think it would be a little cheaper. That's my opinion.

Mayor Rotteveel: Thank you. Anyone else?

Councilman Trombley: Your Honor, I suppose I would like to say something on this. I have been on this Council 14 years. I brought up the red light at Fordline. I heard some people shake their head, yes, that's a bad, that's a bad corner and Grange and Pennsylvania is a bad corner. I travel Pennsylvania and I know where Gabriel Richard is, where the red light is at McCann. If they would put there left turn going in right there and come out the other way, it might be a little easier on traffic heading west on Pennsylvania, because they're accelerating and everybody's turning left into Gabriel Richard and I agree with that. We have talked to Southgate several times and I would ask the County that is here and I'm sure they wouldn't agree to put a red light up at Pennsylvania and Fordline. They won't agree to put one up at Pennsylvania and Grange and they didn't agree to put one up at Pennsylvania and Sibley..and Sibley. (1277) So, all I am saying is we saw a place to start and it was budgeted last year and I listened to the people too and I haven't heard here anyone for them, but all I'm saying here if you want a red light at any of those.. Fordline, Pennsylvania and Grange, or Pennsylvania and Sibley, this City of Riverview will pay for that for the residents because Southgate will not pay. They're in...they never did want one and they don't have the ...they are running in a deficit budget so you can forget a light at Pennsylvania and Grange unless the City of Riverview does that light. I know the traffic is bad on both highways. I don't know if Pennsylvania got more because of the redoing of Sibley past Allen, I know that was very congested and probably a lot of people used Pennsylvania. I just wanted to say that I spoke up for red lights on all three of those corners and we could never get a red light on any of those corners unless we pay for it.

Mayor Rotteveel: O.K. I do appreciate the people from the County stopping by tonight and also express my appreciation for the input of the citizens. If anyone else of the Council would have any discussion, otherwise, a motion is in order to close the Public Hearing.

Councilman Koch: Your Honor. Prior to the Public Hearing being closed, last week there was five, or at the last hearing, there were five people in attendance. Four wanted a light and one did not, and that one was from the Forest Subdivision. Tonight, it was unanimous that everybody does not want a light. But Your Honor, I would like to move I have some petitions from the people that says here "We the following citizens of Riverview, especially affected, petition the Council to erect a light at Grange and Sibley". There are 43 signatures and I would move that this be read into the...received and placed on file with this hearing, just so these 43 people can also be heard. I would just like to let my colleagues know, there would probably would have been a lot more, but that is an industrious, hard-working subdivision. Most people are not home, but I will tell you from the guy who was out there when it was 15 above zero asking the people to tell me how to vote, which is the proper way to do things. Most of them were not at home. But, those who were home, only two people told me..and they were adamant, that they did not want a light there under any circumstances and I respect them for that. However, they were not aware it took three cities, I mean two cities and a county to do something at Pennsylvania and Grange. So this light that we are talking about. And forget the safety angle, forget the tickets. There were 31 accidents there since 1987. Forget that. Every subdivision in this community has and I am going to quote what one of the homeowners told me. Every subdivision has an egress and an entrance for their people when they go and come home from work -except those two subdivisions over there. They have a thoroughfare which Grange Road has turned into of a racetrack. And it is not Riverview residents rushing to get across the City of Riverview down there, many times it is other people who are going to work that live in other communities. So that is what a homeowner told me. And for those who are wondering, I was hoping he would be here tonight, but Mr. Donahue, a teacher, gym teacher in our school system is the gentlemen who originally approached the Council on this. A lot of people felt that maybe my interest was because my daughter lives over there and my grandchildren lives in that subdivision. But, it was Mr. Donahue that asked that this particular Councilman take a look and I think at this Public Hearing, we should stress something. The money was put in the budget - 7-0 to erect a light to give those people the same courtesy that the rest of Riverview has. We voted unanimously, except I think it was one, to notify the County that we wanted to proceed. And that vote was changed. So again, we were unanimous. Yes, we are having a Public Hearing tonight, but I'm going to tell you something. I talked to a friend that told me, in another county, he never heard... he said, the last time you had a light erected I think it was on Fort Street. Nobody asked you people if you wanted a light there or didn't want it there. They put it there. The County just put it there. So all I am saying it would like this received, placed on file and let it rest with that. I don't personally care if you have a light there other than I think the residents of that subdivision, and this my only argument are entitled to the same courtesy as the residents of the Forest or the residents any place else in this city. But I would like these 43 people at least heard.

Councilwoman Blanchette: Your Honor.

Mayor Rotteveel: Well ..

Councilwoman Blanchette: Just a point of clarification, please. Oh, do we have to read those into the record?

Mayor Rotteveel: No.

Councilwoman Blanchette. If I am not mistaken, Kim Zeppa is from Parkridge, and that is in the Glens. And you were here the last time, correct, Ms. Zeppa? Thank you. She was opposed to a light at that time too. Point of clarification please, she is not from the Forest

Also reading over from the County. According to the County, they showed only two accidents that would have been involved had a light, or would have been prevented had a light at Sibley and Grange been installed and they show 30 or 10 occurrences or 31% accidents again on Pennsylvania and Grange had a light been involved that could have been reduced. So the County is saying a little something bit different here.

1732

Councilman Koch: Your Honor. I would like to ask the County a question now. I don't know where the original estimates came from when this body budgeted \$40,000.00 for a light at that intersection, but at was my understanding, it came as a guestimate it came from the County. I have since found out when I questioned why now that we have gotten back into this intersection, that the cost is some \$19,000.00. I said, Why, what happened that makes it? Is it true what I was told and this is my question of you. Is it true that that intersection is built for a light eventually?

Mr. Hogan: I don't know the answer to that question, but let me comment on your \$40,000.00 guestimate and the \$19,000 or whatever the number is that what we say is the estimate now. There is some work that goes into making up these estimates. As you can imagine we receive a number of requests from communities, from organizations, from residents, who would like to have a traffic signal placed at any location where they think there should be one there. So it would not be unusual for us to respond to an initial request by saying the approximate cost for a signal at an intersection would be about \$40,000.00. That may be what the average cost of the new signal at today's installation may be running us at that time - average. So, we may have provided you with that figure. Then, when the City made it's decision to proceed, based on that figure, then we would have gotten more specific in our design and come up with a more actual, a better cost estimate and may have gone out to the location and determined there is electricity there, there are wood poles there that we could use and therefore we would have decreased our guestimate because of what is there from our average for a new installation.

Councilman Koch: O.K. The next question is then, when I hear that you have deceleration lanes also at that corner. Is that right?

Councilman Durand: Yes, we put them in.

Councilman Koch: Well, I know they were there. I just wanted to see if the county know they were there? You would not have decelerate lanes at Grange and Pennsylvania so that is an additional cost. You would not have.... Let me ask a specific question that I am really interested in. Less than two blocks between McCann where Southgate wanted the light and the County put it there, to aid the school as I understand it. McCann is in Southgate and that is where the light is.

Mr. Hogan. I remember that. In fact, I went to a City Council meeting in Southgate when that installation was discussed I believe. If I recall, the City of Southgate contributed a large portion of the cost of that for the same reason. Correct me if I am wrong, Vicki. I think our original...and this was 3 or 4 years ago, so I can't remember exactly. But it seems to me we did a study at McCann and decided the signal was not warranted but once again, if the City wanted to keep the signal there and pay for it, it could do so. There was another complicated factor and that was the road was being widened at that point and there was federal money involved, but I don't remember all the details now.

Councilman Koch: The roads never been widened and McCann. I've also went out there and did some of the work that our policemen do and McCann is the same as any other subdivision. Other than going to work and coming home from work there is almost no traffic there and it just ends at the school.

Mr. Hogan: I....

Councilman Koch: All I am saying is is it unnatural I guess what I am

asking that subdivisions that require egress and entrance that they go in and out.

Mr. Hogan: When we do our traffic studies, we would take into account the traffic counts at the intersection as well as a review of the accident history and then based on the criteria established by Michigan Uniform Traffic Controls, we determine whether the traffic signal is warranted. Now, I don't think that criteria takes into the account the actual ingress and egress of the subdivision.

Councilman Koch: My little subdivision, sir, has three traffic lights in a mile. Three in a mile. And you know what? Nobody asked me if I wanted it. Nobody ever said to my neighbors do you want a traffic light? So to me, by the best I've been able to find out by talking to other Counties, as well as Wayne County, generally, that is not a big thing that you...and I think this Council should be applauded at having a Public Hearing. It is the first I have been able to find out that was held even in Riverview for a traffic light. I don't know if it was the county or the state, but on Fort Street where those turn around lights...you know...I said how did those get there? Well, they just put them there. They don't ask anybody if they want them there. I understand if you remove one of the lights in my little subdivision, which I suppose, wouldn't make any difference to me one way or the other, I understand that there would be a concern because our sister city is also involved.. where you have more than one city, you have more than one obligation, more than one liability, and the whole thing comes into play. I do think our whole, as Councilman Trombley says, that our whole thing should be studied, but tonight is just for Sibley and Grange as I understand it. You know, when I talked to some of those homeowners, the thing that surprised me is they said most of them, even the one's signed it, gee, it would be great if we had one at Pennsylvania and when I told them that Southgate would have say let's move McCann two blocks up they said I didn't know that. Well, they don't know it because generally traffic lights just go up. It's a sad fact. But anyway, enough said. I want to thank you for coming tonight. The county has put in a lot of time and a lot effort on our behalf and I thank you for that.

Councilman Weak: Ditto.

Councilman Lane: Your Honor. Before we close this Hearing, we have a letter we received from a Ron Cowette, 18563 Hamann. Do you want me read it, or just....

Councilman Durand: I would just say not in support of...

Councilman Lane: Not in support of the...

Councilman Durand: Put it on file.

Councilman Lane: Put it on file. O.K.

Mayor Rotteveel: You can put it on file and also the petitions. A motion is probably in....

Councilman Durand: Your Honor. I would like to get copies of those petitions in the next few days, Pete, before we make a decision on this because I certainly like to...if there are 43 people, I certainly would like to see what their views are. Is the circulator of each petition listed on the petition?

Mayor Rotteveel: No.

Councilman Durand: Do you know who, could you let me know who..

Councilman Koch: I don't think that is important, Councilman. I think the important thing is just as you have done in the past and you have lectured this council, the people have a right to be heard. Those are people who want to be heard. You are welcome to go call them. I was out there, you know, in 15 degree weather and you could have been with me if you wanted to.

Councilman Durand: O.K. All I'll say is, anytime, and I've probably submitted two or three petitions to this Council over the ten years. I have been active in the City, traffic on Stonewood, and every other area and I have always put my name when I circulated a petition.

Mayor Rotteveel: Well, we got here a petition. Is there a motion to receive and place on it file?

Councilman Koch: I so move, Your Honor.

Councilwoman Blanchette: Support.

Mayor Rotteveel: Moved by Councilman Koch, supported by Councilwoman Blanchette.

Councilman Durand: What was the motion, please?

Mayor Rotteveel: The letter...

Councilwoman Blanchette: The petition.

Mr. Elliott: The petition.

Mayor Rotteveel: The letter and petition.

Councilwoman Blanchette: Your Honor: Just indulge me.

Mayor Rotteveel: Excuse me.

Councilwoman Blanchette: I'm sorry.

Mayor Rotteveel: There was support?

Councilman Weak: Before we close...

Councilwoman Blanchette: O.K.? Just a point of clarification reading over the very detailed report from Chief Farius. Thank you, Chief, by the way. Question #2 was assigned to our City Clerk, Marilyn Girardin to verify any Public Hearings regarding this street light. According to her records, there have been no Public Hearings, correct, regarding the traffic signals installed since 1985. So I wouldn't know what the history was before that. But since '85 up until this point, we've not had any Public Hearings.

Mayor Rotteveel: Well, ...

Councilwoman Blanchette: Just a point of clarification.

Mayor Rotteveel: I can, I can not, I can recall, (??) we had a Public Hearing before but it was Council's decision to have a Public Hearing.

Councilwoman Blanchette: Just for point of clarification.

Mayor Rotteveel: O.K.

Councilman Koch: \_\_\_\_\_ didn't find that information. (2370)

Mayor Rotteveel: Is there any further discussion on the motion?

Councilman Lane: Yes, oh...

Councilman Weak: I'll yield to Councilman Lane.

Councilman Lane: No, no.

Mayor Rotteveel: Any discussion on the motion?

Councilman Weak: Last part of Councilman Koch's presentation of petition, I just want to record to know that on the August 2 motion that was made regarding the resolution, I was the person who recorded my vote upon insistence of the public hearing. And I think it was that that may have circulated a Councilmember or two, but I wouldn't

unanimous. That resolution, if you look in your packet, that Councilmember Trombley said "no" on the motion, so it wasn't unanimous. I just wanted the record to be clear. I think it was more that you were mad at me more so than you were opposed to it. But the record was clear; that it wasn't unanimous that August 2nd.

Councilman Trombley: I think what we are doing is something good. If we could get the county to make Pennsylvania and Sibley five lanes with a left hand turn lane we would be all set. He might forget lights. It is awful congested down Sibley and Pennsylvania both sides, I mean, both rows. I don't know which one is the worse; they are both worse.

Mayor Rotteveel: Any further discussion to receive the communications and place them on file?

Councilman Weaks: No sir.

Mayor Rotteveel: Roll call.

The clerk took roll - Councilman Durand - No; Councilman Koch - Yes; Councilman Lane - Yes; Councilman Trombley - Yes; Councilman Weaks - Yes, Mayor Rotteveel - Yes; Councilwoman Blanchette - Yes.

Mayor Rotteveel: A motion is in order to close the Public Hearing (2460).

Councilman Weaks: Your Honor. Prior to the motion, I would just wanted to make one comment. I just wanted to make sure... I really appreciate the people coming out for this and for people submitting petition's. This process works when we hear from people. We shouldn't make decisions of this magnitude in a vacuum and whether we debate on the individual merits of this or individual positions, this is a good process and I think should be a model for other communities and when it is a community project, you get the people involved. I think we learned that at the weekend project. I just want to make sure people understand my position. This is not a light for the subdivision. This is not a subdivision issue. This is a community issue because of the 4,000 people that leave the Forest each and everyday, they are travelling westbound. This is a community issue and I want to keep that focused as a community issue.

Mayor Rotteveel: So we will, when will we act on the request? At the next council meeting?

Councilman Lane: Your Honor. Was that the request for what... I didn't hear your.

Mayor Rotteveel: No, the next regular meeting we will probably make a decision on the light.

Councilman Lane: I have a question before the Wayne County people leave. I really appreciate you coming down. You've put together some real good reports and you are not done hearing from us. We'd really like to see some work done at Pennsylvania and Grange also. There is a lot of concern there. I would like to state or ask this question. If a light is put up and it causes or seems to be very hazardous and we've put \$20,000.00 into the light, can Wayne County pull that light?

Mr. Hogan: We would not, despite the fact that we have made a statement and drawn the conclusion that a light is not warranted there, that does not mean that we have said or I am stating that the installation of the light was anyway unsafe. If we thought the installation of the light there we was unsafe, we would be before you tonight saying "no way are we going to put a light there". Like any other intersection if we conclude that anything at the intersection is unsafe, we would take the action necessary to make the intersections safe. If that means taking a light out putting a light in, whatever.

Councilman Lane: Thank you very much.

Councilman Trombley: Your Honor. I would just like to say one thing

else. I've been through three County Commissioners, Bolter was County Commissioner; Ed Boike was two terms and now we have Bill O'Neill. And I asked Bolter back when he got elected was there ever any plans to widen Sibley Road. He said approximately seven years. Well, those seven years are up. And I suppose any petition should be taken up, maybe, maybe the community of Riverview should petition the county to keep coming down Sibley with the five lanes like they did from Allen Road on up and then start from Pennsylvania because there have been so many homes put in there since I was a little kid in Riverview and there wasn't much traffic. Today it is all kind of hell getting out of all kind a corners. Those have all been brought up, folks, and we have never got a red light at any of those corners we spoke about yet. So, I guess the Grange and Sibley light was brought upon us to get a start doing something. In fact, I don't care where the light goes. I think one needs at Fordline because that's a backed up spot; and Sibley and Grange; Sibley and Pennsylvania; and until they widen them out, we are always going to have the problem.

Councilman Lane: Your Honor. Is there...have there ever been any studies done in this area as far as Grange, or not Grange, but Pennsylvania and Sibley as far as um... Wally...not Wally. Councilman Trombley brought up. They are narrow lanes, very narrow, especially Pennsylvania area and the traffic I'll bet you, in the past five /ten years has more than doubled or tripled. Is that something the County could look into? Do we have to request it? How do we go about that?

Mr. Hogan: We look into that on a regular basis. Let me tell you and this is probably another subject for another meeting.

Councilman Lane: Right.

Mr. Hogan: We could talk about this some other evening.

Councilman Lane: But no, just briefly.

Mr. Hogan: But briefly. Let me say each year we do a road condition survey, a traffic congestion survey. And from those surveys we make a determination as to how to spend our resources. And the traffic congestion survey, we have in our offices a map of all the County primary roads throughout Wayne County. And we grade them on a one to five basis and the grading as far as congestion is concerned is based on the number of lanes in that roadway and the amount of traffic in that roadway. Now, I don't recall what Sibley or Pennsylvania is, but we can certainly provide that information to you. As to what our latest survey for congestion, as well as for traffic condition would indicate, or roadway condition would indicate.

Councilman Lane: I would appreciate it. Thank you.

Councilman Trombley: Your Honor. I would like to ask you a question too. Is there anything in the Plans in the near future for Sibley or Pennsylvania to be widened out?

Mr. Hogan: Off the top of my head...

Councilman Trombley: Master plan...the county has a plan on the roads they are going to widen, right?

Mr. Hogan: Yes.

Councilman Trombley: I know seven years ago Sibley Road or Pennsylvania was not in the plans. But that seven years went by.

Mr. Hogan: I don't know what plan you were talking about seven years ago. We are continually upgrading and changing our plan unfortunately, based on the conditions changing.

Councilman Trombley: Well, does the squeaky wheel get the grease?

Mr. Hogan: No

Councilman Durand: Your Honor. I think Councilman Trombley is talking about an east/west corridor.

Councilman Trombley: No, I was talking way before that.

Councilman Durand: Well, I mean even after that, they talked about Pennsylvania or Sibley being the east/west corridor and I don't know that they have ever settled on one.

Mayor Rotteveel: West Road. West Road is the east/west corridor.

Councilman Durand: O.K.

Mayor Rotteveel: Any further discussion?

Councilman Weeks: Your Honor. Final question. At that last we asked for the top five intersections that we not signaled. Will that information be available at the next regularly scheduled meeting?

Chief Bartus: I am sorry Councilman Weeks, could you repeat that please?

Councilman Weeks: Well, one of the requests from Council, actually, it was my request, that my concern is that we signal the worst intersection in town; that the one we go after, that's my personal opinion. But, I am not certain whether Grange and Sibley is the worst one or if it is number 2 or number 15. There was a request that came out that asked that your office compile some data that tells us the top five non-signalized intersections in Riverview. I would just like to have that information prior to making the final decision.

Chief Bartus: We had a lot of information that came in or a lot of questions that came in reference to this particular intersection that we are discussing here tonight. I am sorry to say that the question you are posing, I did not see or receive that I am aware of; but, we will try to have that information for you prior to the next meeting.

Councilman Weeks: O.K. As soon as I find it on the transcript - it was part of that, so.... If you go to page 13 of the transcript of the Public Hearing, that is where you can get that request. Thank you, Your Honor.

Mayor Rotteveel: Any further discussion?

Councilman Weeks: Thanks again.

Mayor Rotteveel: A motion is in order to close the Public Hearing.

Councilman Lane: I make a motion we close the public Hearing for Grange and Sibley.

Councilman Trombley: Support.

Mayor Rotteveel: Moved by Councilman Lane, supported by Councilman Trombley. Any discussion? Roll call.

The clerk took roll.

Councilman Koch - Yes; Councilman Lane - Yes; Councilman Trombley - Yes; Councilman Weeks - Yes; Mayor Rotteveel - Yes; Councilwoman Blanchette - Yes; Councilman Durand - Yes.

Blanchette - Yes.

Opened the Public Hearing at 7:38 P.M.

Mayor Rotteveel: I understand as part of the Public Hearing, Recreation Director, Barb Hammerle, will present a summary of the Grant Proposal for public information.

Ms. Hammerle: Thank you, Your Honor.

Mayor Rotteveel: O.K.

Ms. Hammerle:   ?   bring in some visual aid and try the screen   ?  .

Mayor Rotteveel: Uh huh.

Ms. Hammerle: The latest version of the City's Master Plan for Parks and Recreation was completed in 1993. For those of you that might not be aware, the Master Plan is a document that really brings together two pieces of information. It talks about the demographics and profiles of the community and then it takes a recreation inventory of facilities and programs. Out of that comes direction regarding parks and recreation improvements and it retains the city's eligibility improvements state administered grant programs through 1998. A big part of that Master Plan is the action plan. And that lays out for the next five years the capital improvement projects for our park system. I'd like to put that up for you now. Just review a little bit what happened in 1993, the first item was to create additional park plans. We delayed that project until we could get further community input to make sure that the parks we are going to improve, are the ones that the community really wishes to do.

Items #2 and #2 and 3, I need to add right here, are probably the two most important items under the 5 year plan as according to our recreation commission and planning commission because those address the safety issues, playground equipment and playground surfaces. Those two items were part of the grant application that we applied for in 1993. Unfortunately, we were denied. However, because the project does meet the American's with Disabilities Act and compliances, we can go ahead and fund those two projects out of this years' CDBG monies.

Item #4 calls for replacing a fencing at Kennebec, Vos, and Jefferson. That project was also delayed until we can get a proper boundary surveys on those properties. All three parks border residential homes and we want to make sure property lines are correct. We are asking for money in the upcoming budget so we can get boundary surveys done on all of our parks. We hope to come back and be able to do this project in 1995.

Item #5 is the replacing of identification signs in all our parks. I am happy to say that is done at this time.

#7 is repairing of the tennis court lighting at Young Patriots Park. That is currently awaiting Council authorization to have plans, specs and go out for bid. We hope to have this project done by the end of spring.

Same thing with Item #7 which is adding garbage cans to all our parks. It's a little bit more dressy than just having garbage cans. They are permanent garbage cans that are   ?   recycled structures that hopefully will prevent a major tipping problem that we seem to have in the park system.

That brings us to why we are here tonight. And that is to conduct a Public Hearing on our 1994 grant application. The purpose of the public hearing is to receive input to make sure the application is on target with what the community would like to see. 1994 calls for a Riverview Park Path Network project. That project involves adding paths and bench nodes at Young Patriots and the path at Memorial Park, at McShane Park, and the path and ramp Vreeland and repairing the paths at Riverview Glens Park. What I would like to do at this time now is just go through and show you our park site designs so you can get a

little bit of an idea of what the pathway system would entail. The first park up is Young Patriots. Can you see that? This part of Young Patriots project, really we'll be paying particular attention to the wooded area, right in here. This pathway that moves around and down.. really will..is the intention is to fill that in with wood chips and more gravel. This part of the path is structured...is scheduled to go in in asphalt and that is so it meets with EPA compliance regulations. It also will serve very nicely for our purposes in October when we put on the haunted hayride. We intend to use this route right in there ... right in there. That will help us in the low areas that we sometimes will get stuck in.

That wooded area, the other thing we are looking to do, is like here and here, are the park entry nodes. I will give you a more close up and detailed look at those.

Those are the entrances to the wooded area that we are really looking to highlight and draw major attention to so the public realizes that's where you enter the park. In addition, we are looking to put four of five bench nodes around the reflection pond. Let me give you a look and show you what those are going to look like. This is the entry way. The unique thing is the surface is done with shivered bark...shredded bark. There are park benches inside and there is a map sign, and the purpose of the map sign is to show you the what the trailway would be within the wooded area. It would also call attention to the varieties of trees, possibly birds or anything that has to do with nature then in the wooded area that we would care to highlight. It does call for a barrier here so that vehicles could not get through there. We do not want to create a hide-a-way for people; however, we do want to highlight that I think we have a real unique area in Young Patriots Park. This area would be surrounded by low shrubs and very colorful ornamental trees. Again, I think it would really contrast the background of the wooded area and really stand out visually.

970. What we are looking to do around the pond is a little bit simpler. It calls for really one bench, again to be on top of a shredded bark base; be accented with low shrubs and shade trees, a view right off the pathway system so that people could sit down if they got too tired or just want to enjoy looking at the reflection pond or any of the activities that might be going on around there.

The next park moves us over to Memorial Park. Now, this drawing again will be a little bit different than what you see today. If you were to go over there today, you would see a lot of dirt. This is....Memorial Park was one of the parks within the plan that got an overall sight design change. This is a concept again.

Regardless of what we end up doing with the park, whether or not we're able to put these sorts of facilities into the park or whether the park remains much as it is today, the pathway system still works in very nicely. It starts in over at Colvin, runs through the park next to the scout cabin, then down onto Valade. And the intention is then to be able to hook it up Vreeland Park which I will be showing you next. The intention, in the future, is also to hook it up to the Memorial School Park, this way, and now you will be creating a whole unique inter-park system which I really don't believe anybody else is doing. I think it really will enhance the enormous amount of walkers, joggers, skateboarders, rollerbladers that we have out there. We are real excited about this part of the plan.

This moves us over to Vreeland. This is a little less flashy at this time, it's an old site design. What we looking to do at Vreeland, again, is connecting it from the Memorial Park area here; the pathway would really just encircle the park. We need to put a ramp in at this particular location because the park sits so low. Right now, again, as these are concepts, I think if the program does go through, specific site drawings and specifications are drawn up, we probably are going to have to change this \_\_\_?\_\_\_ to have topography at that park, so they may change slightly. 1131

McShane is another one of our parks that calls for a lot of new and interesting things. There again, one of the first phases is to get the pathway system in. The nice thing about McShane pathway system, is it will draw in residents from Cranbrook area and the Dundee area in addition to the Huntington Apartment complex which is over here. It houses a tremendous number of our senior citizens. If you notice in this park design, some of the things we are looking to put in are horseshoes, shuffleboard and a game area, all in this area, which is in close proximity to those apartments for our seniors to enjoy. It really becomes a family oriented park. It then ties into where the play area is and there's an open area here out here for play and in time will service as our ice skating facility and again, ties into the rest of the neighborhood, I think, very nicely.

The last portion of our path network system is to repair what we have over at the Glens. The Glens looks somewhat like this. This park gets used quite a bit over there and certainly deteriorated over the last few years and is in need of repair. The project calls for it to be recapped and hopefully in the bad areas then corrected.

That's an overview of what this grant application is all about. The total project cost is \$104,500.00. The grant that we are going after asks for a 50% match from local funds. That is what we are proposing in our 1994/95 budget so that we can use as our match. Hopefully it is a project that everybody will enjoy and now I will turn it back over to His Honor.

Mayor Rotteveel: O.K. Well, thanks Barb for the presentation. I know a lot of time and work has been put in by staff and by the recreation commission and I think we welcome the proposal and hope this year we will receive the grant. At this time, if anyone in the audience would like to ask any questions or ideas about the proposal...if so, please stand up and state your name and address for the record.

The record will indicate no one wishes to address Mayor and Council.

Any questions from the Council here? If not, a motion to close the public hearing is in order.

Councilman Durand: So moved.

Councilman Weaks: So supported, Your Honor.

Mayor Rotteveel: Moved by Councilman Durand, supported by Councilman Weaks. Any discussion? Roll call.

City Clerk Girardin: Councilman Koch - Yes; Councilman Lane - Yes; Councilman Trombley -Yes; Councilman Weaks -Yes; Mayor Rotteveel -Yes; Councilwoman Blanchette - Yes; Councilman Durand - Yes.

Mayor Rotteveel - For the record, this application will be presented to us on March 7, 1994 meeting for final approval.

Closed the Public Hearing at 7:51 P.M.

Mayor Rotteveel: We also have a Public Hearing on the 1994/95 Community Development Block Grant Funding Application for the City of Riverview. A motion is in order to open up the...

Councilman Durand: So moved.

Councilman Weeks: So supported.

Mayor Rotteveel: Moved by Councilman Durand, supported by Councilman Weeks. Roll Call.

City Clerk Girardin: Councilman Lane - Yes; Councilman Trombley - Yes; Councilman Weeks - Yes; Mayor Rotteveel - Yes; Councilwoman Blanchette - Yes; Councilman Durand - Yes; Councilman Koch - Yes.

Opened the Public Hearing at 7:53 P.M.

Mayor Rotteveel: Mr. Feudner: Do you have any particular questions or answers for us?

Mr. Feudner: Your Honor. Basically this has been advertised for a couple weeks. It is an opportunity for the residents to voice whatever issue they would like to bring to bear at this time whether they be suggestions or comments on uses for block grant programs. We have identified some ideas beyond January concerning lead line abatement program, EDA compliance activities, housing rehabilitation, senior housing activities, and those types of things that could be funded. Also in the advertisement, it was noted that primary benefit using block grant funds would be to those of low and moderate income either directly or within an area. It should facilitate or support private investment or reinvestment. It should reduce negative environmental impacts. It should conserve or improve older housing. It should maintain a high level of performance of management of all CDBG and non-federally funded programs, also is to improve...could be used to improve park facilities, to provide services to senior citizens or to comply with the requirement of Americans with Disabilities Act or the ADA.

This year we are getting an annual allocation which is up from previous years now stands at \$100,500.00. In addition to that we will be

receiving \$108,374.49 which is the amount of money we initially sent back to Wayne County in the form of the commercial rehabilitation loan program is now coming back to us to be reprogrammed. Also, this year, we will have \$6,800.00 in proceeds from a lot sale. The property was initially purchased with block grant money; therefore, the proceeds of the sale come back into the program to be reprogrammed this fiscal year. That brings the total allocation to \$215,674.49. Significantly up from previous years if you add in the program funds. This evening is an opportunity, again, for the residents to speak to the Mayor and Council, ask questions about eligibility, so I would like just like to respond to questions from this point forward.

Mayor Rotteveel: At this time, is there anyone in the audience who would like to address Mayor and Council pertaining to the Block Grant Application? Yes.

Mr. Reuschlein: Your Honor, Councilmembers. I would like to introduce myself to you. I am Jim Reuschlein. I am part of management team of Colonial Village. I am a member \_\_\_?\_\_\_ as the new Resident Manager there. I would like to take this opportunity to formerly request your consideration on behalf of the board of directors and the 330 families that make up Colonial Village our request for the 94/95 Block Grant we have requested monies for bringing our community building and offices into ADA compliance for handicapped accessibility for the residents as well as anybody wishing to make application to the facility. Thus meets the low to middle income requirements of the Block Grant. It also includes in there a request for a portion perimeter security fencing to be replaced.

Mayor Rotteveel: O.K. Mr. Feudner.

Mr. Mayor: On file is Mr. Reuschlein's request on behalf of Colonial Village. That will be submitted to the Citizen's Advisory Committee tomorrow evening for their consideration as part of the application process.

Mayor Rotteveel: It is part of the application and I don't think Council has any objections to that, you know, to be involved in part of the application. O.K.? Any questions from Council?

Councilman Weaks: Your Honor. Just for Mr. Feudner, do we ever leverage those funds or are they simply a 100% allocation to the requestor? We participate in matching programs with the Federal Government and things like that. Is that the nature of our programs at all? Do we ever do that or is it typically whatever CDBG funding we get we turn it around and pass it straight through?

Mr. Feudner: Typically, it is passed through as a one time payment. There have been times we've leveraged other funding agency's monies using CDBG, but never a private agency.

Mayor Rotteveel: O.K. Thank you. Anyone else who would like to address Mayor and Council pertaining to the application?

Councilman Durand: Your Honor. It said in here the Medical Team. Are they here or? Is that...

Mr. Feudner: I believe Lorie Moshier is in the audience.

Councilman Durand: It said they wanted to address...will attend the Public Hearing. I don't know if they...does she want to address the Council or not.

Ms. Lorie Moshier - I would like to take this opportunity to thank the Council for their support in the past. The Medical Team is a certified home care agency. October 1st, 1992 we received a grant by Title III funded services to seniors in various downriver communities, including Riverview. I extend an invitation to Councilmembers and to you, Your Honor, to go on a home care visit with us. Mr. Feudner has taken us up on the offer; and again, I would like to thank you.

Mayor Rotteveel: You're welcome.

Councilman Lane: Pardon me. I did not catch your name.

Ms. Moshier: Oh, I'm sorry. Lorie Moshier.

Mayor Rotteveel: Thank you.

Councilman Lane: Thank you.

Ms. Moshier: If you have any questions, I am free to answer them.

Mayor Rotteveel: Any questions from Council? We understand your organization is doing an outstanding job...

Ms. Moshier: Thank you.

Mayor Rotteveel: ...there is a need for and we like to help support.

Ms. Moshier: Thank you very much.

Mayor Rotteveel: You are welcome.

Councilman Durand: Your Honor.

Mayor Rotteveel: Yes.

Councilman Durand: I have a question for Mr. Feudner. Jim, you list three areas that will now be funded directly from the county?

Mr. Feudner: Yes, sir.

Councilman Durand: I know in the past we have provided to the Information Center. Is that correct?

Mr. Feudner: That is correct.

Councilman Durand: How about the other two? Have we contributed to them?

Mr. Feudner: We have contributed to Project First Step for approximately three years prior to this...

Councilman Durand: O.K.

Mr. Feudner: ...and to the Wayne County Homeless Shelter just last year.

Councilman Durand: So we've really, on a local level, we've contributed to all three of these the last ....

Mr. Feudner: Yes.

Councilman Durand: How do we insure if you are satisfied that they do a good...provide a good service to the residents of Riverview? I read the report on the Information Center. How do we insure they will be properly funded by the County? Do you have any input on that or how does that work?

Mr. Feudner: The County will fund...they will take 1% of the total County Grant plus all recovered funds during the previous year and put them into a pool of money and then fund these three agencies plus two others. The funding....the trade off is stable funding for these county-wide agencies but it may not be as high, in total, as they are used to getting when approaching each individual community by themselves. That was the trade off. They would get stable funding based on the county-wide grant application nearly as much as they would have secured otherwise. Now, as to performance, both the local as well as the county will be monitoring the performance of these three agencies.

Councilman Durand: See, 'cause I am concerned because I see, you know,

Councilman Durand: See, 'cause I am concerned because I see, you know, with the...changes in the state funding for a lot of these social programs. A lot of these people are left without their safety net now. And if I see.. the funding for these things are dwindling quite quickly so I guess we will have to wait a year to see how....

Mr. Feudner: This is a brand new ...because these three as well as two other agencies have...provide services throughout the 30 community consortium, they were deemed then to be county-wide providers; therefore, funded from the county allocation. The shift is that the county will take primary responsibility in doing their performance monitoring and doing the financial audit. We on the other hand will look to our subscribers in the service to make sure they are being treated well if the service is being provided with the City of Riverview residents.

Councilman Durand: O.K. Thank you.

Mayor Rotteveel: Any further questions of Council? A motion is in order to close the Public Hearing.

Councilman Durand: So moved.

Councilwoman Blanchette and Councilman \_\_\_\_?\_\_\_\_ (simultaneously): So supported.

Mayor Rotteveel: Moved by Councilman Durand, supported by Councilwoman Blanchette. Roll call.

City Clerk Girardin: Councilman Trombley - Yes; Councilman Weak's -Yes; Mayor Rotteveel - Yes; Councilwoman Blanchette - Yes; Councilman Durand - Yes; Councilman Koch - Yes; Councilman Lane - Yes.

A VERBATIM TRANSCRIPT

Tape 1

Mayor Rotteveel: This Public Hearing is called because the City is going to present us with different ways of financing the sewer project that is underway. The sewer project, as we all know, is in almost every part of town. It is not one of the projects the City Council and City administration has been looking forward to, but the DNR and the environmental people says we have to eliminate some of the infiltration water that goes into the sanitary sewer. Because in the past, Wayne County, when we had a heavy rain, they would let the sewer go in the river unpolluted so there was the lawsuit. The lawsuit said we had to upgrade the sanitary sewer system. And that's what we...hopefully by next year will be completed. We have different methods of paying. And at this time, I would like to have the City Manager lend with the program. This is strictly a public hearing. We are listening to the input of the people. We are not going to debate the issue, we are going to listen to the input of what the people have to say and see and if they have any better ideas. Everything is going to be recorded we will analyze it and this will give us the insight of what we think the majority of the people would like to do.

Mr. Elliott: Thank you, your Honor. Mayor and City Council, it is certainly a pleasure to see such a fine turn out tonight for this Public Hearing. We will attempt to make an informative presentation to set the stage for your comments to the Mayor and City Council as far as the long term responsibilities of the City of Riverview to pay off a rather significant portion of regional and local sewer debt associated with the 1994 financing plan and consent decree that was recently enacted in all of the now thirteen participating municipalities including Riverview and Wayne County are entrusted with the responsibility to carry out over \$250 million in sanitary sewer corrections as it is referred to throughout the Downriver area. I just want to provide a quick overview and then we have a presentation that we hope will give you more insight as to the actual costs that are involved in Riverview's case and the actual impact it will have on businesses and homes as far as paying the debt. Riverview's portion of the debt has varied, in terms I mentioned the \$250 million; it has been estimated in the \$29 million range as far as Riverview's cost. These are estimates. We won't have the actual costs until all the various improvements are under contract. But, I will try to break this down to at least give a ballpark estimate as to where these costs lie. The City of Riverview has already proceeded on approximately \$12 million in

local sanitary sewer improvements. This is what we refer to as the SRF portion of the debt that refers to the State Revolving Fund and this is a low-cost or low-level interest rate of 2% that the City was successful in receiving a loan from the State of Michigan. So the project is about 75% complete and is proceeding on schedule at this particular date. There remains, because under the State's program for funding the sanitary sewer improvements, not all aspects of the construction were eligible for the state loan. So we refer to the non-SRF portion of the debt. That is the issue that is immediately facing this City Council within the next few weeks to actually issue \$1.7 million in bonds to cover the costs that were not covered by the State of Michigan. Now, that does not assume all of the debt. The remaining balance of it is in the regional system which basically refers to the plant upgrades of the Wyandotte Wastewater Treatment Plant, the construction of the nine mile tunnel and associated improvements including metering and other protection methods that were required by the Department of Natural Resources and Environmental Protection Agency in making this whole plan come together. Wayne County will be issuing the bonds and basically issuing the debt for that portion and will be allocating it out to the thirteen communities. Now, there is one immediate bond sale that is pending before Wayne County for which Riverview immediate portion of the debt is about \$2 million. But that is only one of numerous issues that will be made by Wayne County in the succeeding years. We hope to give you some idea on how all these costs come together. Some are impacting the Riverview community this year. Some will impact next year. The true impact of these associated projects may be three to four years away before all of the debt starts being paid. We are going to attempt to be conscientious of that and try and tell you where some of these costs will lie\*\* because we think that is your principal concern in attending this meeting. With that overview, your Honor, I'd like to turn this for a presentation by the city staff to our City Treasurer, Charlotte Abercrombie. I think everyone can follow some of the information that will be presented. There is handout information available that the city staff will help distribute out here. You may want to take a copy off this and follow along as we go through the presentation.

Ms. Abercrombie: (450) Good evening. As the City Manager has indicated to you already, the bonding, or funding for this project is being done in several phases. All of the bonds that have been issued and that we are looking at issuing, are called limited tax general obligation bonds. This means that they are backed by the full faith and credit of the City. This allows us when we go to the bond rating agencies to get the best rating that is available to us. It also allows us on the market to get the best interest rates that are available. Overall this creates the lowest cost in bonding the project that we can possibly find. The reason the full faith and credit is pledged is as the guarantee behind the payback on the bond. This would mean that if no other way of paying these bonds is established then mills would be levied. So by issuing limited tax bonds it does allow us the right to levy millage to pay for the project. It does not, however, prohibit us from other types of payments which would be rate charges based on sewer consumption, or possibly rate charges that would be flat rates based on not really a consumption basis but a household basis; it could also allow for transfers of funds from other internal funds within the city. Because the city is not tied to any specific type of payback method, we have considered various options. Two of the options that are being considered, payback by millage or by rate increase on the sewer rate were recently presented to the public in a newsletter that was sent out by the city. It was our intent, through a worksheet that was within the newsletter, that each individual could take a look at their own situation and calculate whether a millage approach or a sewer rate approach would be to their benefit. We hope that would engender some discussion and we would have some input this evening based on those results. The city not only looks at millage and rates but we have also looked at various combinations of those. As a basis for our analysis, we have selected eleven homes within the city. They were chosen by our assessor as being a good cross-reference of the residential properties within the community. We took each of the eleven homes, took their current SEV, went back and gathered the actual consumption of water on those homes in the last year and we proceeded to do the same type of study as was presented in the worksheets that were in the newsletter sent out by the City. Ours possibly goes a little more in

depth and we do have an overhead that will give you an idea of what we did with that. The costs that we're are going to be discussing here in the funding is for the capital portions of this project only. The worksheet that was sent to you also gave you the ability to indicate what the increased operations and maintenance costs would be. That will pretty much necessarily be charged on rates because it will be passed through to us as part of our rates from Wayne County. Those cost are not presented here tonight. Those can be established by looking at the worksheet that was sent out by the city. These costs tonight discuss only the capital project portions and the funding for those portions. I believe the first page of your handout duplicates the overhead that we are showing here. On the far left, you see we have listed the years beginning with next fiscal year of 1994/95 and we show a 20 year span, taking us all the way out, actually a 21 year span to the year 1718. (750) I guess that is more than a 21 year span. This is because we have 20 year bonding issues phasing in at different times and they are going to be 20 years from the time we begin making payments on those. So they will vary over the years, until in 3 or 4 years, we would be into the full phase-in of all the bonding issues and that is when you would see the most expensive payments being shown.

The next column over is the assessed valuation. We begin with the 1994 actual assessment for the home that we were looking at. We've increased that each year at the rate of 5% based on general increases the city has received in the past and of course the 5% cap that we are at based on the new Proposal A legislation. The next column over calculates the cost of this proposed bonding based totally on millage for this home that was taken in this study. We have taken each year, we have totaled that at the end of the column to be the total twenty year cost of the project. After taxes, we have considered that there would be possibly two tax brackets of folks involved in this; one in the 15% bracket or 28% bracket. We have show this because if this is charged on millage, the millage is deductible on federal tax returns. What we have presented here is only the effect of federal tax returns. There is a possibility that there would be homestead tax exemption credits that would be gathered in addition to that presented here. So what we have attempted to present is the after-tax consideration of these proposals as well.

The next column over presents the charges if it were based on the consumption of water and sewage in this household in the previous year, and these are actual figures of consumption. This spreads the funding over the rates charged for sewage. This again is a 20 year presentation totaled at the end of the column for a 20 year total and because if it is put on the sewage rates, there would be no tax deductibility; the after tax effect is the same as the pretax effect. We then began to consider the possibility of trying to come up with a combined rate structure that would involve some rate increase on the sewer as well as some millage. We looked at this in a couple different forms. The first general theme was to fix a rate, on each household, each water customer within the city. We looked at various levels, the first one in this column being a \$100.00 fixed fee on an annual basis or \$25.00 per quarter and taking the remainder cost of the project and spreading that over a millage. We again took it out of 20 years, totaled it at the end of that and then took the after tax effect of those depending on the tax bracket. The next two columns repeat the same theory of a fixed rate of \$150.00 in this case spread annually and then the difference in the cost of the project to be paid for by millage. And again went through the same process of totalling it for 20 years and taking the after tax effect. We repeated it again at a \$200 fixed fee. Just attempting to see what this kind of structure would do to the overall effect, we went on to another theory then also a theory of mixing rates and mils, but this time instead of doing it on a flat fee we looked at taking one quarter of the necessary rate based on consumption and funding the difference by millage. We did that for a 25% of the rate structure, the next column over being half of the rate or 50% of the rate structure and the third column being 3/4 of the rate structure. Again, we totaled each one for 20 years and took the after tax effect. We did this for eleven households as a cross section of the city. Rather than attempt to show you the same situation with eleven households, we have given you another overhead which would be page 2 of the handout which kind of summarizes of the eleven addresses that we considered what the best option turned out to be for each one

and what the average annual payment turned out to be for each one, and then what the next best option turned out to be along with that annual average payment. You see on the left, we have eleven address, eleven streets listed, those where there are two addresses on the same block we've just indicated to you which block those address fall in that we looked at. You will see under best option amazingly enough that it all turned out to be either all mils or all sewage rates and there did not seem to be any cross over in terms of the best option. And you will see that we had six that turned out to be better on all mils and five that turned out better on all sewer rate. You will also note from this that we have a range of payments that range from anywhere from a low of \$46.30 on an annual basis as an average to a possible high in the next best option of \$604.80 on an annual basis as an average for 20 years and many areas in between. The next best option also amazingly enough does not appear be either all sewer or all mils, so there is not a clear cut indication of any one rate that would satisfy or any one method that would satisfy all the residents. The one that shows the majority here tends to be the all mils proposal. Now, as the City Manager indicated, we are not in a situation at this point where this decision must be made. We have time in that the issues are being phased in over a number of years. In the fiscal year 94/95, there will be no levy from the city. There will be a small levy from the County, a judgement levy, because they are beginning a small portion of their bonding. Beyond that, we are looking at least the 95/96 fiscal year before we are going to see any local costs being applied to either rates or to tax bills related to this. That is why we have requested a public hearing forum here tonight in order to receive input as to what the citizens have found to be true and what their requests are. We have also provided one more handout which is just a theoretical advantage and disadvantage of each type of proposal. Of course, a possible consideration is to have costs absorbed by the water bill, which would of course, be the sewer charge on the water bill. The advantage to that is that it may be seen as being the most equitable way of doing things because it is based on actual usage of the system and not the value of the home. The disadvantage of that is that if it is placed on sewage rates, there is no tax deductibility and no homestead credit that would be provided. We have a situation if we went to the market with rate structure being the support of our bonds that we would face potentially higher financing costs. We also have the problem of there is a charge for all sewage based on water consumption including that which does not go into the system being the water that is used on lawns and swimming pools and we list this because it is something that we are aware of; we hear about this from the residents and by increasing the sewer rate we only tend to increase that problem. Another problem is that, we hear this also, and we have to agree to a great extent is that those who water their lawn alot basically are subsidizing those who do not in terms of rates because they are having to pay on water that is not actually going into the system. Another consideration, especially in light of recent school financing and so on, is that based on consumption there would be an excessive expensive to industries and schools. The other method, of course, that we have discussed is cost being absorbed by millage. An advantage to that is that, of course, it is tax deductible and also available for property tax credit for the homestead credit at the state level. Going to the market of course backed by millage, are potentially lower financing costs and therefore lower costs overall to the project. A disadvantage to this is that it can be seen as being the least equitable method in that there is no linkage to the consumption of this system, but linkage only to the value home. A third consideration is cost to be paid by enterprise funds. Certainly an advantage to this is to reduce the payment burden on the taxpayers or the water customers. A disadvantage to this is that it may in the long run jeopardize enterprise needs. When running an enterprise, there has to be a great consideration given to making sure that the enterprise fund has the long term ability to fund its own needs. There is a problem in not being sensitive to the real infrastructure costs, meaning that you don't really realize how much it is costing to do the project to run and support the city if there is rate stabilization or tax stabilization being provided from within an enterprise fund. And probably one of the largest reasons for disadvantage in terms of commitment of these types of funds is the \_\_\_\_\_ 1426 nature of the enterprise fund and the inability to stay on a long term system whether

or not you will have the ability to pay any type of a long term commitment. That is something when you are looking 20 years, you have to be able to make a very long term commitment and you have to know what your market and what your structure is within the enterprise fund that is being discussed. That summarizes what the city has looked at so far. We know there are many suggestions and that is what we would like to hear. And, I think I will turn this back over to the City Manager, Mayor.

Mr. Elliott: Your Honor. That concludes the presentation; if there is Council discussion before public input, that is whatever the pleasure of the Council.

1495 Councilman Durand: Your Honor. I just want to reaffirm what is the deadline that we have to make a decision on this - a timetable?

Ms. Abercrombie: Well, we really have two issues to discuss in relation to that. On Monday night, this coming Monday night, the 20th, you are going to be asked to pass a resolution to authorize the funding of the \$1.7 million for the local issue which is the ineligible items related to the SRF funding and also the repayment of the demonstration project. That night, the staff is going to be recommending that you adopt a resolution to issue a limited tax general obligation bond. As we have explained, that is really only a commitment that if you choose no other way of raising the funds, you would be committed to raising mills in order to pay that bond issue. It is really the method that allows us the least cost, the best overall bonding ability, and in the long run, the most options of how we can actually pay for this. So there will be an actual vote on Monday night to pass a resolution to issue the \$1.7 but I think the issue that we are really discussing is when do we have to make the decision on how to have that repaid...

Councilman Durand: That is correct.

Ms. Abercrombie: ...by the taxpayers or by the water customers? You are really going to be looking at the 95/96 fiscal year before you will be asking for any kind of rates or mills related to that other than the small portion that Wayne County is already in the process of doing and they intend to judgement levy on the city for payment of those bonds. And that judgement levy you will see a .22 mil on the July tax bill and they have not released the figure for December, but there will also be a levy on the December tax bill from the County in terms of the judgement on our share of the Wayne County bonds.

Councilman Durand: But the primary payment...we don't need a decision...

Ms. Abercrombie: The primary payment will not begin until at least 95/96 and the full force is not going to be felt till 96/97.

Councilman Durand: So we have plenty of time for citizen input and options, etc.

Ms. Abercrombie: Yes.

Councilman Durand: O.K., thank you.

Mayor Rotteveel: O.K. Anyone else? Council? At this time we would like to hear from any resident who would like to make a statement to the City Council. Your question will be recorded and will be analyzed for future reference. We will try to keep each question to a limit of 5 minutes.

Mr. Donald Capezza: 5 Minutes? How about 5 hours? Don Capezza your Honor - 18208 Hamann Street. You know I think you guys are going about this in a pretty good fashion, but I guess there are so many issues as the Treasurer just indicated, you know on the method of payment one is for the local remediation project, the next is the regional project and I think, you know, for the sake of everybody we should probably just zero in on the first one which is the, or the immediate one, which is the local remediation that is going to cost the city \$10 million, \$11 million; \$10 million of which is from the 2% funding and as Bob, the Manager, just said \$1.7 million over and above the amount they are going to give us. I guess, I know it doesn't seem practical but because I realize everything can not come from the enterprise fund, or pit another way, the landfill. But in this particular case I think the

local remediation project probably could be financed some way in total from the enterprise funds. And I guess in order to do that, I have to go back to what the Treasurer indicated about jeopardizing perhaps, the enterprise fund itself, you know, the landfill, its operations and things of that nature. I think we have to know how much money we have at the landfill. What we have in perhaps retained earnings, contingency, however you want to phrase it. I think several weeks ago I indicated an environmental escrow account that we have. I would like just a little explanation on that because I am not totally familiar with the amount of money we pay into it each year. I know I asked the question last week and I think I was told and I looked in the previous years budget that I had and I noticed there is just about 4 million, \$3.6 million in this particular fund and I believe it, I am not quite sure when that was implemented and whether that was self-imposed or was that a mandate from the state? I am a little confused; I know PA 9, the Perpetual Care Fund, was a mandate by the state that we have and I am not sure how much is in that one. But, could we get an answer on those two questions and first how much we have in the perpetual care fund. And you know that goes for the long care long term maintenance of the landfill. Do you have any of those figures, Char?

Ms. Abercrombie: No, Council...I'm sorry..Councilman Capezza, I am sorry. No, I do not have those figures here tonight.

Mr. Capezza: O.K. then, I guess the environmental escrow account I guess I could zero in on that because that's the one with the largest amount. \$4 million and I think that has been in effect four years. Does anybody know? Pete, do you know how long we have been collecting that money?

Mayor Rotteveel: It is about four or five years?

Mr. Elliott: Three to four years.

Mr. Capezza: I guess, again.....

Mayor Rotteveel: The environmental escrow account, for the people in the audience, the environmental escrow account for every dollar of revenue that comes to the landfill, \$ .30 is set aside for the environmental escrow account and by the year 2015 and there is no more solid waste coming into the landfill and no more revenue coming in here, we still have a 200 feet hill of solid waste there state regulations and to make sure what we are doing right now is not be a burden to our future generations. That money is set aside, you know, that if there is any improvement to be made on the landfill after it is closed, the money is there and we don't have to go to the taxpayers. The only thing that we can use out of this money is the interest that we draw. So that is about the escrow account. And Councilman Capezza, you know, alot of the questions are probably very technical to answer but your questions will all be recorded and we will analyze them. And we will give you an answer to some of the questions what we can not right now answer because I can't take a long while to, you know...

Mr. Capezza: O.K. I guess it is just simple arithmetic would tell us that fund is going to have a substantial amount of money.

Mayor Rotteveel: Yes, yes sir.

Mr. Capezza: And I forget, I spoke to a gentlemen here and I guess he had projected it and I forget what he indicated the amount would be, but it was definitely an excessive amount of money to put aside as a precautionary measure for the landfill. I think I voted on that particular issue for 30% and I think there's a few other people here that was on the council at the time, that agreed with it. And I still do agree with it, to have funds set aside for the closure or for anything or any emergency that may come up, even though there are other funds now that have been mandated that we collect the money. At the time, there was not. So we agreed to 30% and again I say, that is quite excessive when you've said, I think that particular amount could be reduced I don't want to say considerably, but at least by enough equal to pay the cost of this particular local remediation project. I don't think we need to have \$100 million in the bank...

Mr. Capezza: ...twenty years from now.

Councilman Weak: Your Honor. Just a point of clarification, Mr. Capezza. When we negotiated with the 13 communities or the 10 or 11 communities when we went for the landfill expansion, that 33-1/3% was a fixed amount driven. That was driven into all the contracts. So at this point in time, the City really does not have an option in terms of reducing that percent but we structured the transactions with our municipal customers and commercial customers so that we had the option of taking the investment off of that or the investment income off of that fund and we could use it for general city operations. So in terms of funding the investment income is an option available to the community while the actual escrow amount is not an option and that can not be reduced without renegotiation with all the communities.

Mr. Capezza: O.K. thank you. No. You did say it, but we did have an escape clause if I recall. When I say escape clause that we didn't want to commit ourselves so that we couldn't do it and you just indicated that we could go back to the cities and renegotiate that particular figure.

Councilman Weak: And also....

Mr. Capezza: I should have read that before I came here tonight, but there is certainly a way that we can utilize some of those funds. I'm not even sure of what the interest on that money is at this point; if not just the interest would take care of what we are talking about.

Councilman Weak: I think that investment income is clearly an option though.

Mr. Capezza: Yes. How much interest are we getting for those for that particular fund and what will we be getting in the years as the fund grows and grows?

Ms. Abercrombie: Well, I certainly...

Mr. Capezza: About 4 million ....what, what...

Ms. Abercrombie: We are anticipating \$3 to 400,000,000 in interest on that fund. I do want to say however, that is already currently working it way back into the budget so that money is not being left there; it is coming back through the operational budget of the landfill already and being passed on to the general fund and capital improvements fund and so on. So that money is already being utilized.

Mr. Capezza: That money is what we are putting into the CIP?

Ms. Abercrombie: That is a portion of it because the CIP is based on earnings and those earnings are taken back into the landfill fund each year.

Mr. Capezza: That's interesting. O.K.

Councilman Durand: Your Honor. Don, I think the cost...every cost you see up here...these costs are the actual costs that the resident will have to pay. Every single person on this Council is committed to defraying that cost through the use of other transfers primarily the landfill. I think we are looking for some low costs over the next four or five years at the landfill where we'll have the fund available to offset this. But we have to have a commitment to the taxing authority, to the bonding authority to say this is how we are going to pay it. If we can offset it, you know, cut yours by a third or a half or a quarter each year it costs annually, we are going to do it. But we can't do that until we know what we have coming in each year.

Mr. Capezza: Right. I know...

Councilman Durand: But I mean, I just want everybody to know, we hope that the cost you see is not what you are going to pay. That is what we have to commit to do.

Mr. Capezza: I hope so, too. Right.

Mayor Rotteveel: We know what the cost figures are, you know, but that doesn't mean, you know, that 3 or 4 years from now if all the revenues are coming in, you can lower that amount.

Mr. Capezza: Yes. O.K. Your Honor I'm just trying to, you know, brainstorm here perhaps, and I am sure most of you have thought of the things I am saying. Back in '92, I think we had asked the Treasurer to come up with some methods of financing and I just happen to have it, you know. She gave us some options where we could take in one case here \$3.2 million provided from the land preserve, a capital input of 1.5 million from the CIP fund, land fill to provide one-half of the debt payment, land preserve to reduce the payment to CIP by an equal amount which is what she was just indicating. Have you people got that? That was put out two years ago and that was for this very same subject that we are talking about now. Did they present it to you again. It was four options, it was four options of payments.

Councilman Weak: I recall that, but we don't have that.

Mr. Capezza: Yes, and it is very interesting and it's really it's pretty much saying what I am doing now. And it was using the money, like she said from, what Char said, from the CIP.

Councilman Weak: If you were to write the order in which you want this to be paid, do you have a preference, I mean, I think everyone in the audience would say let's go to the land fill and pay for that.

Mr. Capezza: I realize that.

Councilman Weak: Be that the truth....

Mr. Capezza: And that's the way I would like to see it done.

Councilman Weak: And if that is not possible, take me through the next step.

Mr. Capezza: I want to say this. I remember when we built this city hall, I made the statement that one day you're gonna wish you had the \$7 million or \$6 million that you put into this when I voted against it. And here it is. That day is here. All we're looking for is maybe \$2.5 million or \$3 million to help defray the cost of this, but I feel I had to say this.

Councilman Weak: You are clearly entitled to say that.

Councilman Durand: \_\_\_\_?\_\_\_\_ expect it.

Mr. Capezza: You know, and it's costing us I think Councilman Durand indicated a quarter million, over a quarter million to operate this city hall at this point in time, right now.

Mr. Capezza: But anyway, priorities, Jim. I just feel the local remediation portion of this whole problem, I think the city should bear the cost. I know there are no free rides, but I think the people of the City deserve that from the landfill. You know, I could go on with the ski hill and things like that, but I am sure somebody else will bring all of that up, ....

Mayor Rotteveel: Mr. Capezza, this is a public hearing....we'd like to .....

Mr. Capezza: ..but at this point I am talking the local remediation project. The regional project I think the federal government and the county - they are the ones who should be putting up the dough for those mandates that they're giving to those poor cities that don't have the money. We are fortunate that we do have some money. I just want to see us now utilize the money now. I don't want to hear we have \$100 million in the bank and most of these people will be dead and buried, and probably me too. So, I think we need to utilize the money now to help the people now in our city that truly deserve it. Times are tough. Thank you. I'll wait till we get to the other one.

Mr. Elliott: Your Honor. Just a point of information because I think

Mr. Elliott: Your Honor. Just a point of information because I think Mr. Capezza brings an issue that many are interested in. I will just make a brief comment. When we talk about establishing the method of payment over the 20 years, it certainly is not necessarily fixed that if the City Council were to choose mills that it has to be mills for 20 years. That is why you have a City Council to annually look at the cost. There could be use of enterprise funds if they were available or a combination of the various charges. So we want to make that clear that this is an extremely important decision but it is not necessarily fixed in stone from this date on. It is subject to this Council and future Councils. We've talked that it will really be over the next four years and it may be a different City Council that will be making those decisions. That is ultimately the selection of the citizens. I just want to comment very briefly on the landfill because we tend to characterize the landfill as having a tremendous amount of resources and very few expenses. This Council was aware of the fact that within the last couple years, land fill has faced over \$17 million in satisfying state and federal requirements in the expansion of the landfill. There are, the funding, the funds that are set aside are properly managed. I am pleased to say that the city historically has done a good job of managing the money for the landfill. But there is not the amount of money available to satisfy all of these future regulations. It will have to be in the on-going management of the landfill. Now that doesn't mean that there is never the opportunity to use funds, because this Council has used funds in what we call rate stabilization on water and sewer adjustments to approximately \$3 - 400 thousand. I forget the exact amount, may it was more.

Ms. Abercrombie: \$385,00. \_\_\_?\_\_\_. (2760)

Mr. Elliott: \$385,000. That was to avoid rate shock. So that the citizens did not have to have a major increase in their rates. Obviously, by what we are discussing here tonight if all of the debt were to be put on rates, sewer rates, there would be tremendous rate shock. You would see it doubling and tripling and quadrupling in many cases. I just give that as a little background and I'll defer it for more public comment.

Mayor Rotteveel: Yes, sir.

Neill Riddell - 15751 Kristen - (2802) I think I might be paraphrasing..

Councilman Durand: Mr. Riddell, could you speak into the microphone please?

Mr. Riddell: Sure.

Councilman Durand: Thank you.

Mr. Riddell: I'll speak up so you can hear me. I think I might be paraphrasing something I heard said at one of these public hearings before. I noticed unlike the regular council meetings there was no special prayer said before this meeting got going. I think given the importance of the issues that we are addressing here tonight and a little divine intervention would be beneficial to all of us.

Councilman Weaks: A point well made.

Mr. Riddell: I'd like to kind of take my own issues out of order and speak to the area that Mr. Capezza was just speaking to. I'm kind of frustrated. I have been attending fairly regularly these meetings the last few months as I know Mr. Capezza has. I know we have both spoken regarding the issues of the possibility of the sewer funding coming from the land fill. I know Mr. Capezza has asked a number of very hard questions in terms of numbers. He wanted to know.. I know I have asked questions about those sort of issues and I thought this forum of the public hearing on the issue of the payment of the sewers would have been one in which we are prepared to talk about those numbers and I think it is a disservice that we are not.

Councilman Durand: I take it...

Mr. Riddell: ...We have a member of staff who has come here tonight

and talked about the fact that using the enterprise funds may in the long run jeopardize enterprise needs. What are they? Is anybody quantify them? Would anyone care to share them with us so we know what they are? We heard the staff member say that the, it is important to protect the long term ability of the fund to meet its own needs. Again, what are those needs? I think we deserve to know those numbers as well. Tonight was the night guys, lady. And where are those numbers? Mr. Weaks..

Councilman Durand: Mr. Riddell, the purpose of this hearing was to get input from the residents to see how they would prefer this to be paid. If you have specific questions, we can certainly get you any information you need.

Mr. Riddell: You know, I heard you say that to Mr. Capezza if you have a question, we'll get you the information you need...

Councilman Durand: We will...

Mr. Riddell: ...I think the purpose of a public hearing is to get everybody the information they need; not just one person.

Audience claps.

Councilman Durand: I know you were forced to be reckoned with sir, but I...we can provide answers to any question you ask us.

Mr. Riddell: I still believe though that this was the appropriate time to do so.

Councilman Durand: You are not telling us anything. We gave you exact costs on how much, you know, this is not a debate.

Mr. Riddell: I haven't reached that issue yet, sir.

Councilman Durand: Well, go ahead then.

Mr. Riddell: Mr. Weaks, you've indicated that it might just be too difficult to deal with the issue of the landfill because there might have to be renegotiations; there might have to be looking at contracts again. I don't know much about that but, you know, I think again, we deserve maybe more explanation than it just may be hard work. Because if hard work is all it takes, I am sure there are lots of people ready to do that.

Councilman Weaks: O.K. I didn't say hard work, I can assure you of that. What I tried to explain is the structure in which it is set up as it exists today. I think if you have been here the last several meetings, you understand the relationship we have with our municipal customers and need to be sensitive to reopening contracts. Now if in fact that becomes a public issue and people want to do that, that's why we are here. So, I have no problem if that is the wishes of the community, that is easy to do.

Mr. Riddell: And I'm not trying to take a silly position on that. I understand that it is a complicated thing. But I don't think it is something we can sweep aside and say, yes, that would take renegotiation and may be we ought to down play the importance.

Councilman Weaks: That is a valid point. I have no problem with that.

Councilman Durand: Mr. Riddell, we have \$4,114,000,000 will be in the escrow account by the end of 94/95 year, the projected total. If you think that \$4 million is satisfactory to deal with an environmental emergency or closure of that land fill, then I suggest you study what the costs are. We did...when we did this environmental set aside for this thing, our engineer provided us valid information. We went through this for a very long...it took probably a year to come up with this information; how much we are going to need to close our facility. It's not just closing; it is monitoring for the next 25 years after it closes in 2015. Well, I'll be probably 63 years old in 2015, but my kids will, you know, I've lived here my whole life, and my kids will probably live here and I not going to stiff them and walk out the door

and say, O.K., the land fill's closed, there is no money to take care of it. That is why that money is put aside.

Mr. Riddell: There are people in this community that won't be alive when they're 63 years old and they deserve the benefit of some of that money today.

Councilman Durand: And that is why we are properly managing the landfill so we can use money to subsidize this project.

Mr. Riddell: Well, again, it is fine for you to \_\_\_?\_\_\_ (3176) out to me a few if those little numbers, but I think you....

Councilman Durand: You asked for them. I just gave them to you.

Mr. Riddell: Well, I think there is more to it than that.

Councilman Durand: You ask me a whatever number you want, and we will provide it.

Mr. Riddell: I was hoping we were going to hear a presentation on it.

Mayor Rotteveel: A presentation on what?

Mr. Riddell: On the landfill. What are the...what are the projected enterprise needs? How much is projected? What income is projected? What are going to be the balances in the future? You talked about a balance in 84, excuse me, in 94/95. What about 2000, 2001? What about 2010? Those are the kind of things I'd like to know. Maybe when I get the information, I go no where with it, but I think the questions have been asked. I think we deserve an answer.

Mayor Rotteveel: We'll...we can provide that.

Councilman Weaks: Your Honor. I would just like to make a comment. On thing everybody has to realize, we are not adversaries in this. Really, we are looking for your expertise and knowledge and your enthusiasm and intelligence to help us solve this problem. We are not looking to battle you on this issue. If, in fact, you truly need information it is our obligation as public servants to provide you that information. Now, if you wanted a presentation on the status at the land preserve, we are clearly not prepared to do that tonight. But we do study that if in fact you would like some information, I mean, you have that opportunity to request it.

Mr. Riddell: Well, maybe we can go too far with this. But, I guess I was just fooled. I mean, when I attended these meetings and heard the question raised about that, I, about the landfill in what money is being project; what are the needs? I thought that was going to be talked about. Over the weekend, I had an opportunity to talk to a fair number of people from my own subdivision in connection with this issue and certainly got to talk to a few of them at the polls yesterday although I must say there probably weren't quite as many at the polls as we see here at the meeting tonight. It was a slow turn out but I one thing I heard in the comments that were being given to me by the people in my part of town and it kind of synthesizes their sentiments in a simple statement, was they really are not opposed at all to the idea of participating in their fair share of the expenses that the community is going to incur in connection with the multi-city aspects of this sewer project; I mean, that is an obligation of all of us; we understand that. There are a lot of concerns though from people in my area as to the extent of our participation in the local remediation. Frankly, many of the people I have talked to kind of see that aspect of our participation in the local remediation in these types of presentations as a hidden assessment I mean, our area of town has modern sewers; we paid those modern sewers; they are factored into our property values and we've paid taxes on those sewers for a number of years. We are concerned about the extent to which we would now be asked to pay more for the sewers. Looking at these proposals that were made by staff tonight I agree very much with the idea the all millage approach is the least equitable of the approaches being offered. Particularly, in light of the...with the simple math of it. Staff has provided us with only one sheet of the 11 sample houses but I think

that it takes only a moments thought to think about the 11 the remaining 10 of the 11 and if you assume a 5% increase in assessment per year for each of the 11 sample houses or for any of the residential properties in the city, on a real number basis, applying this same millage assessment to each of those properties, at the end of 10 years, or at the end of 15 years the disparity in what the owners of the more expensive properties will be paying will just grow greater, and greater and greater. So that method, the millage method, is not only, I believe unfair in its initial phase, but the lack of equity will grow each year that the program continues.

Councilman Durand: Mr. Riddell.

Mr. Riddell: Sure.

Councilman Durand: I think that's why we are doing this is because we realize the disparity that may occur and could occur and that is why we want this input because it would be easy to say O.K. we are just going to do a flat millage rate and everybody pays. So that's why we are doing this and you point is well taken.

Mr. Riddell: Thank you. The sewer rate method as analyzed at least here tonight by staff I think has a flaw in it. And that is, it is suggested in the presentation its a fairer method because it is based upon the consumption. Well, I don't think that is necessarily the case. I might be wrong in this, but the.. as I understand it the sewer rate method is based upon your water bill; how much water you're taking out the system. Well, I thought that the problem with the sewer system, in part, was that there was alot of water going into the sewers that did not come out of the water system that in the older sections of town, there was alot of water being pumped into the sewers that was storm water. So when you take a look at developing this rate that appears on the yellow handout, I assume that was based mathematically by projecting what costs were going to be and dividing that by gallon usage and coming up with these factors of \$2.98 and \$ .75. Again, though that would ignore the fact that there are a number of properties that are pumping more water in then..that doesn't come out of the city system than other properties and they would have the benefit of pushing part of the expense of that on the other homeowners. So I think that approach has that serious flaw to it. It needs to be addressed if it is going to be pursued.

Councilman Weak: Yes. Let me just address it. The difficulty is you want to process it simple enough that the people can test to make sure it makes sense. The difficulty with infiltration in the system is difficult to measure on house by house or even on a subdivision basis. We've done alot of studies and we know where the trouble spots are and it is clearly the older sections of town. But there are also trunk lines that also have the same type of problem where a tremendous amount of infiltration in the trunk lines, and the trunk lines are really, they support the whole system. They support you from the west end of town to the south end of town because they all funnel down that process. So it is really hard to peel that back and say those specific costs to be allocated to infiltration and that is really, I guess, what we struggle with because really there is no clear cut method to say that is the most fair and equitable. And once again we turn to you and say provide us with some alternatives and we would certainly go back and explore them.

Mr. Riddell: Sure. Sure, and if they were clear cut methods, I am sure there would be solutions that everybody would be in love with right away.

Councilman Weak: And no one is going to be.

Mr. Riddell: Right. But still, that kind of issue, the one that I am trying to explain, certainly was not made clear to me in this handout and I hadn't heard anybody talk about it at this point and time. And I think it is important that people be alert to that and when they are asked to take these handouts and make calculations to determine what they think is right and what they think is \_\_\_\_\_? (3829).

Councilman Weak: Good comment.

Mr. Elliott: Sir, without interrupting, it may be appropriate to add, again, for information the City will be doing certification of its reduction in flows based on our local project here and we will be doing that in 1994. The county and all the cities will be doing a certification in 1995 that ultimately determines the formula for paying the regional improvements. To Riverview's credit, it expects to remediate its sewer system probably to a much greater extent than some other communities that are involved in the system. It is a double edge sword, it means Riverview had a worse problem than some of the other communities as well. But those flow certifications which is what you are referring to, we don't have that information right now. We have projected numbers to what we think will be reduced. The county is making some assumptions as to what they think will be reduced. Until September 1995 we won't have the proven figures as to what has been reduced. In the future, the sewer charges to the city will be on actual flow, but we will be on a measured flow. Historically, that is not been the case.

Mr. Riddell: Part of the analysis provided by staff dealt with the mixed rates with fixed fees and I simply don't understand that at all in terms of the possibilities involved. It is possible to simply have a fixed fee that is applicable to all properties and the entire amount is paid on a fixed fee basis?

Mr. Elliott: You could have just a what we refer to as an environmental surcharge where just a fixed dollar amount whether it's \$200, it would have to be in excess of \$200 if there was no additional method of satisfying the debt beyond that. A surcharge would be applied as a base and everybody would pay. And then over and above that, it would be either based on a millage or additional increases in the rates. That was considered up to the extent of \$200 a year, but it could be considered as just a flat rate. It would serve for the majority of the Riverview residents that would serve a hardship because it would place more of the costs really on a greater number of citizens who are probably are least able to afford that increase. (4072)

Councilman Weaks: I think the conceptual way to look at that though is like the trunk line scenario where everybody shares in the use of that trunk line so those costs could be allocated on a fixed basis because there is equal participation in that trunk line, where the insituform or where there are some improvements that are site specific or subdivision specific, you could allocate those costs based on that particular region. It is certainly an option that complicates things more, but certainly an option.

Mr. Riddell: What would be the fixed fee number if the entire project were to be paid on a fixed fee basis?

Mr. Elliott: I don't think we have that figure this evening. Like I said we looked at the \$200 figure.

Mr. Riddell: Give me a general parameter.

Mr. Elliott: Well, the average cost could range between \$300 and \$500 if you were just fixing it on an average cost throughout the city. So it could be to that level. I guess I would use the situation of a senior citizen perhaps that had very low water usage, maybe had a modest property valuation and would be paying as much as one who had an extremely high usage in maybe a large family situation. It..there seems to be some real inequities in that sort of approach.

Mr. Riddell: But you believe that would be a \$300 to \$500 range annually?

Mr. Elliott: I am just quoting what, you know, the average is if you look across the city as to how these will vary for the majority of customers or residents within the system...sanitary system.

Mr. Riddell: Does our staff know the answer to this question perhaps?

Mr. Elliott: I don't think we are prepared to...we've identified seven or eight scenarios but there are others, I grant you that.

Mr. Riddell: Well, like I said before, the people that I've talked to in my area are concerned about whether these various approaches that are being advanced are in the nature of an attempt to hide in reality what would be an assessment. I do understand and I understand it is a complicated matter. And I understand that there are certain benefits that the homeowners on our side of town are going to enjoy as a result of this project. But I also believe that there are a certain number of benefits that we have no relation to whatsoever. I do think my neighbors are right when they tell me they believe there should be some real unrational connection between the monies they pay and the benefits that they, that they receive. I think to serve that member of the city, those members of the city, that their voice has to be heard. I know that the numbers over there are not as great. I know there aren't as many voters, but they're every bit as important as anybody else and they need to be served. I'll tell you just a quick story then I will leave. My wife and I were shopping for homes before we moved to Riverview. We identified two places we liked: the house we bought today and one over in Taylor, off a nice area in Taylor. We looked at the house, it was the kind of house we really wanted; it did not have a sewer, it was on septic. And I said to my wife, we don't want to be here because someday this property is going to get whacked with a pretty substantial sewer assessment. So that is why we brought the house here in Riverview. So I'm kind of hoping we will see our way through and I don't get whacked with a sewer assessment in this house.

Councilman Weak: Do you have specific recommendations for us tonight though in terms of or specific preference you have or would like to study it further, or would like questions answered?

Mr. Riddell: My personal preference would be to flat fee it on the aspects of the project that are applicable to all citizens and the remainder of the project be financed through an assessment, a legal assessment, in the proper assessment territory. Those would be my personal preferences.

Councilman Weak: Thank you.

Michael Kovach: 17812 Quarry - I primarily came down here to express my thoughts on what you are asking and I still think that for older people a general tax increase would be most beneficial, especially at this time, since everybody thinks the taxes are going to be going down because they are going to be going up anyway. So they won't hardly notice the difference. Most people thought their taxes were going down half and that's not true. I don't think my taxes will go down a quarter of what it was even with the new state system because your millage on the school went up and now you want to almost put us spread the same as what the school put on, so it won't change much. If it is put on the water bill, you're going to be faced with a problem because it's going to be an average \$60 - \$80 water bill and there's going to be too many people who leave it ride for two years. Is it two years that you are allowed to not pay your tax or water bill?

Ms. Abercrombie: Um...no, if water bills are 100 days delinquent, we have a shut off policy in the City of Riverview. So your water bills must remain current.

Mr. Kovach: Yea, but I mean, people sometimes leave it ride and ride and ride and you have to put in on special assessment.

Ms. Abercrombie: There is one quarter that could ride to a tax bill the rest of it cannot ride, it must be paid.

Mr. Kovach: That's my primary concern, is that the gentleman before me stressed the point that future subdividers have to pay their share and not just the same as what we paid. Whenever it is subdivided, they have to pay for what it cost to put the water in there, not just for the pipe that they put in there; they have to bear the total cost. So it should be on a special assessment based on whether you can do it on acreage, but I don't know if you can. Flat Rock, is doing something that is new & they are special assessing improvements on property & the homeowner pays just like he's on his taxes a special assessment for the improvements; water, sewers, and sidewalks and streets. In other words, the city is helping the subdivider and when you do that

and the subdivider goes broke, the city is stuck with the total bill. So you have to be awful careful. I mentioned it before I feel sorry for you fellows, you got a job. You gotta think about the sewage treatment plant. Out there the facility was built primarily to expand recreation facilities and I still maintain that. And you got a big pension going on out there. I don't know what your pension costs is, how much you are setting aside? Are you setting aside enough to carry your future pensioners? Is your funds stable?

Mr. Elliott: Yes. Yes, it is.

Councilman Weak: Regrettably, it is over funded.

Mr. Kovach: It's probably better than the city's funds. But those are the things you have to think about and that is all I wanted to express that I would rather see it put on taxes rather than water bills and in the future I think the Council should also seriously consider the ones who want to beautify their homes in the summer time, they spend a hell of a lot of money for water, to give them a better rate this summer. Thank you.

Councilman Weak: Thank you.

Councilman Durand: Thank you, Mr. Kovach.

Jerry Filipiak - 19310 Brandywine. Good evening. In going through the math in the worksheet that was mailed out, it says this is what you will need to begin. 1993 taxable income from your form 1040 only if you itemize. In the presentation tonight, was based upon if you itemize. And you can get a pretty different figure itemizing and non-itemizing and when you're projecting this over 24 years, there are people whose homes are going to be paid for over this 24 years in this period off time, and they will also lose the biggest deduction they have on their taxes that is left which is the real estate taxes. And it will make a significant difference. So, if you are going to put part of this over the property tax method, whatever decision you feel comfortable with, please be aware of the fact that not everybody is in a position to be able to itemize or and claim some of that. It does become significant in the math, I won't bore you with the math, but it is significant. (4900)

Councilman Weak: You are absolutely right because those deductions are being indexed, indexed to inflation is that each year that inflation continues up, you're right you lose that...

Mr. Filipiak: You lose a tremendous amount if you are not able to itemize and you have to take the standard based on that method. Thank you.

Councilman Weak: Thank you.

Mayor Rotteveel: Anyone else?

Rick Jarosz - 14002 Heritage - As I looked at the project bulletin and I've overheard some of the comments made here, there is no answer here at the local level. There really is no answer to make the sewer rates feasible to all people. Turning 60 this year, even though I live in the Forest, and even though I have my home paid, as the assessment goes up these rates that I looked at which apparently at least for an example was some way to come up with a method, am I correct? to demonstrate a split between the property and sewer rate. The real problem here is the federal unfunded mandate and not one person in this audience is looking at that. Can you imagine? They have come to you and they are putting it on your shoulders and they are talking about the landfill of which you have very big, serious mandates as to how you operate this land fill and how you will close it, and how you will monitor it. Yet, not one person, I waited to see, if anybody would look at the federal government. One of the things that nobody even commented on was the comment on the back page - why don't we vote on these increases? Sanitary sewer improvements have been ordered by the U.S. District Court. Under Michigan law, and I will need a little help, perhaps the City Attorney, I am putting her on the spot, but I'd like to know what Michigan law that is that gives away our sovereignty as a state. Under

Michigan law, court mandated improvements are posed against the city without a vote of the people to fund those improvements. The Court has the power, if necessary, to issue bonds on behalf of the city and to level a special property tax to pay for those bonds. Now, as far as I know, and I don't know your Oath of Office exactly, but most offices for the Oath of Office, you take an oath to uphold the United States Constitution. This is clearly, from what I can see, a violation of the Tenth Amendment. And this is where if you people are angry or concerned, you should be directing your attention to your congressmen who represent you and also to your state legislature. Recently the federal government had mandated that the State of New York accept radioactive waste and that was going to go through. But there were a few brave men and women somewhere in that state legislature that declared their sovereignty and said you cannot force us to take that waste. And that was upheld in the U.S. Courts. We are not taking the real avenue, the real approach here and I am not just talking about Riverview, I am talking about all of you involved in this project. I don't have the facts, so maybe someone has them for me or could get, but I think when these mandated projects were first proposed through the EPA and etc., it seems to me the federal government was going to assist in these kinds of projects because of the multi-million dollar impact on small communities. You know, this landfill is looked on as a \_\_\_\_?\_\_\_\_ (5377) for everything and I have been in this community for 25 years and I looked at it as self-sufficient; we are a service..we are a service to our community, nobody even knows what it would cost to truck your trash 40 miles in one direction and be at the mercy of one landfill but that was a lot of it back in the late 70's, early 80's. But, at any rate to get to my point, I want you to know that resolutions are going through the states to declare their sovereignty against this kind of federal mandated items. Because first of all, I'm not talking about insurrection, I am talking about state's rights. It has been presented to me clearly by the EPA that there is a clear and present danger about this pollution that goes into the river. Now, that's of course, pollution if you want to look at it that way, but it is not the kind that would coerce and put such a penalty on local communities in my opinion. A lot of our government money that we pay to the state and then to the federal government, that is our money, it should come back here to help us with federal mandated projects of this nature. Now, three states have passed this resolution, Hawaii, Colorado & Missouri. It is presently before the states of New York, and..I think I have it...it is being introduced right now in California, Ohio, Maryland, Florida, Illinois, Pennsylvania, Arizona, and many states are working on it. Right now, State Representative...I think it is Jamison.... ..Jameion. He is in District 40 Bloomfield Hills. He's working on this legislation right now to introduce and I would have to say we should back this. And the citizens behind me should back this. It can't be just the council, you have got to be heard. This is where it is coming from. Because what happens later, what next mandate will there be? What next increase will there be? What next mandate will you have at the land fill and for what reason? Right now, there was an article in the paper at BASF requesting, sort of demanding because they are intimidating the companies as well, to sink more test wells. There is absolutely no evidence, there is no evidence at all that any more treatment is necessary on these properties but they still have to sink them. And we can look for that too in the land fill. In my opinion, we clearly have to get behind this. You gentlemen, ladies and gentlemen are not going to be able to help us the way we really need help. This is not just a Riverview problem. I look at what is it, a \$35 million improvement for a waste treatment plant alone & is that \$29 million our share of the....

Mr. Elliott: That's of the total..

Mr. Jarosz: ...retention basin. Is that the total \$29.2 million for all of these improvements of the \$231 million?

Mr. Elliott: It includes...that's Riverview's total of both the local and regional costs.

Councilman Durand: That includes the tunnel and upgrade of the Wyandotte system.

Mr. Jarosz: O.K. Clearly...

Councilman Durand: Mr. Jarosz, your point is well taken. We've begged, pleaded, and done everything we can to get our elected officials in Lansing and Washington to help us out here. I don't know if you are aware Western Wayne County had a similar problem dumping into the Rouge River during heavy rains. Well, they came through and gave them tens of millions of dollars to take care of their problems, but there wasn't any money available for the downriver communities. Just to let you know, we begged and pleaded for money for us.

Mr. Jarosz: Mr. Durand, I certainly believe that. If there is anything that I know about this Council, even though I might have had my disagreements at times on certain items, I know this council does what it can. But it's got to be more than that. We've got to mobilize this community; and the people listening behind me should start mobilizing it also. It is a grass roots effort. They are going to ignore small bodies until of course we can get this legislation passed through. The way the uh...the way the Tenth Amendment reads in case some folks don't quite remember and the only way...reason I have a knowledge of this is as I have seen the Constitution quoted so many times, or not even quoted, referred to so many times by so many advocates or advocacies of certain agendas it so states in that Tenth Amendment that powers not delegated to the United States by the Constitution, nor prohibited by to the states are reserved to the states respectively or the people. Now that clearly means that..that we...this is certainly not..this is certainly not constitutional what is happening with unfunded mandates. I would like you to renew your commitment, I would like you to be in contact with Mr. Jameion. I would be very glad, if I have permission to step forward and give you a copy about implementing the Tenth Amendment State Sovereignty Resolution by Colorado State Representative Charles Duke and also again if you would just jot that down, it is District 40, and that's Mr. Jameion. And, in your newsletter if we could get the people to do that because we already are paying this money. We are not asking for the government to subsidize this. We want some of this money back that we've paid to the federal government. They spend it wherever they want to spend it; they've dictated this is so important they can put this financial burden on us. By god, they ought to bring our money back here, our State of Michigan money, and that's the way we have to word it to the State. I thank you for this opportunity.

Audience claps.

Councilman Weak: Thank you, Rick.

Councilman Trombley: Rick, Rick. What you said is, is true. I don't know how many people in this audience ever wrote to their State Representative, State Senator, or County Commissioner telling them what they think on what's going on all kinds of different issues and they should. Just what you spoke of on Revenue Sharing in Michigan they should write because they are trying to take alot of our Revenue Sharing back. And we deserve it, just like anyone else does. I don't know how you get people to write. I talk to State Senators and State Representatives and I go to Lansing. They say they don't hear enough. If they don't hear enough... I tell some of my constituents don't tell across the fence because he is going to feel sorry for you or feel bad for you. You've got to come to somebody that is going to do something about it. If you come to a Councilman and he don't do something about it for you and bring it up and sometime that gets the old story is every other Monday night there is a Council meeting here and you get top priority at the beginning of the meeting to state your name and address, and all your complaints. I also urge citizens to do that and that's what we are here for. If we don't know, then who do you tell, I mean, that's what you elected us for to try to do what's right in the city and that's what I try to do and I know that's what the rest of my colleagues do. But if we don't know, I know there are alot of things right here on this sewer project if I wasn't up around the streets I wouldn't know because no one would have ever said something. And I asked them, why haven't you called or done something. They said what good does it do? Well, let me tell folks, it does some good, sometimes making some phone calls and I think there are some people aware that done that. If I don't know something is the matter, nobody else here knows anything is the matter, then nothing is going to get fixed. And that's our job; don't hesitate to call and anyway me. Don't let tell

you don't bother them, well, that's a bunch of bull. I mean that is what we are here for, that's what you elected us for.

Mayor Rotteveel: Sir.

Dennis Toth, 15690 Kristin Lane - I just wanted to put my comments on record as to if this is going to happen, how we are going to pay for this. I have worked in standard costs and budget allocations for a major company for 22 years and I know what numbers are. I think the key point I want to make to this whole issue is in the schematics they put out here as to different ways to pay for this outside \_\_\_\_?\_\_\_\_ 6363 like a hill or \_\_\_\_ or per capita fixed type of thing works and mixed rate with fixed plus variable or variable and incremental rates for residents makes a lot of sense. I have a big issue of what businesses pay in relationship to residential if it is based on a sewage rate or on an incremental usage of water. My main point I just want to go on record with, I believe if you look at the relationship of your using sewage how are we going to pay for this and compare it to the best way for everybody - mills on a homestead absolutely has no relationship what so ever to the usage on sewage and I think absolutely not even a consideration. I believe a fixed rate is very good. I think a variable rate on top of the fixed rate makes sense. With people have high uses on, um...for pools and watering, there should be an incremental rate on the variable side. But to have any relationship to mills make no sense at all to me at all. You could do it on the color that I painted my house, and that would make as much sense to me as the millage. The higher end homes would pay way too much the lower end homes would pay way too little. And I think it is a consideration that should not even be looked at; mills are not viable and should not even be look at. That's just my comments.

Audience claps.

Councilman Weak: Thank you very much.

Mayor Rotteveel: Yes, sir:

Ronald Huber - 14305 Greentrees - I agree with the gentleman immediately preceding me. The idea of using mills is unfair basically to those that probably represent at least I would guess the median assessed value if not the average assessed value in the community. This spreadsheet here that was put together in an attempt to show the differences I think one important column is missing. It shows the best option such as all sewers, all mills, etc. but it doesn't show the worse option. Based on my own house and the math I did and looking at these numbers quickly here, if you compare all sewers to all mills on that first house on Country Club, on Country Club Street, you would probably be doubling or tripling that dollar amount. You wouldn't be going up 20% if you went from the best option to the worst option which would most likely be all mills for that house. So, if you are trying to get people to make a decision here, I think this presents somewhat a distorted view towards the lower assessed houses in our community where those people would come out ahead by quite a bit on this kind of a...if it was all mills for instance and it seems to be like its either going to be all mills or the way you have shown this here, you got all mills and all sewer then just part way towards the other extreme so I think the presentation of the math for people to get an idea about it should be um..show the two extremes rather than just one and part way towards the other. In my own case, it looked like about \$100 for a sewer rate method and a \$400 increase if it was by millage. And that's an easy decision for me to make as far as which one I would choose plus if I am paying more for my water bill rather than the millage, that is a definite incentive not to use much...excuse me, not to use as much water. We all know as the years go by there will be less fresh water in this world and our sewer systems are going to be overtaxed again in 20 years or whatever so it is advantageous for everybody to have an incentive not to use so much water and how best to do it, but it matters as far as somebody's wallet. So, anyway those are my comments and basically the all sewer method there is preferable, but I think there's a lot of houses in the community far more than you'd think looking at this math, that are in that same boat. Thank you for your time.

Councilman Weak: Thank you.

Councilman Durand: Thank you for your comments.

Ted Orosz - 14253 Williamsburg - Hearing some of the comments tonight, I'm reminded of what a wiseman...how a wiseman once defined a good tax. And that is the definition that says it is one tax that I personally do not have to pay. But everybody knows that somebody is going to have to pay this and I think what we have to look at is what is the fair way to pay for this. I think the only fair way to pay for it is if you use, you pay. The only way to do this is on the rate. The gentleman before me said and I don't remember his exact words but it was something like use less water. Well, economics will show you that if something costs, you will use less of it. You will waste less of it. If something is free, I'll take 1000 of them, if they cost a nickel a piece, I'll take three. Same thing with water; so if it in millage or even fixed fee, there is no relationship between how much I use. Incidentally, this presentation was made and I understand this was put together for information, but there is some bias introduced by these documents. For example, the second page that shows the comparisons. It was stated that it was 6 to 5 and this being a sports-minded town, we think, oops, 6 is better than 5. If we were to change and have one Ray and one Valade and have two Greentrees and two Country Clubs without exception, I think we would come out 7 - 4 for all sewer. The other thing is on the last page, under costs absorbed by water bills, we find a disadvantage that says excessive - highlight the word excessive - expense industry and schools. Excessive is a color word. Higher yes, excessive - a matter of determination. I would hold that excessive expense industry would be an advantage. If businesses are going to pay for it, the taxpayers don't, but it is more than that. Mr. Riddell, I think it was, pointed out that what we are going to be measuring does not include water that goes into the sewers that didn't come out of the fresh water tap. If we stop and think for a moment, who contributes more run-off water to the sewer system - the business with a paved parking lot, etc. They may, in fact, it may not be a disadvantage, they may in fact pay a little more than they should be paying. Again, my opinion is the only way to do this, is there a question on that point?

Councilman Weak: Yes, because we've talked about....

Mr. Orosz: ..It goes into the sewer from a parking lot. More water will go into the sewer from a parking lot than my back yard.

Councilman Weak: Yes, our engineer has been studying all the excessive flows and I didn't understand, or I don't believe we've taken the position that the parking lot run-off is going into the sanitary sewers. Mr. Hennessey, you can correct me if..

Mr. Hennessey: No, its not.

Mr. Orosz: None of it is?

Mr. Hennessey: None

Two people talking \_\_\_\_?\_\_\_\_.

Councilman Weak: If in fact it is, those are situations we are absolutely going after because (TAPE 2 260) we don't want it going into the sewers. We know there are downspouts that are still connected into the sewer system. We are going after every opportunity to our drop our system. That's where we spend many Monday nights arguing in terms of what is the right thing to do for our community. But in this particular case, I think we have addressed that.

Mr. Orosz: I stand corrected on that. And the other thing, the industry we have in town uses very little water. We don't have Faygo that puts water in the pop and ships it out. The industry we have here doesn't use much. When we talk of that being a disadvantage, I don't agree with that particular one.

Councilman Weak: Good point.

Mr. Orosz: Again, I think the only fair way to do this is if you use, you pay. An example was used about retired people will pay more if it is in the usage, but I could also come up with an example the widow, who, because we increased the millage, then has to sell her house that she's lived in 40 years. So, I think that is a mixed bag. I don't think we can call it either way. Thank you.

Mayor Rotteveel, Councilmen Lane, Weeks: Thank you.

Audience claps.

Mayor Rotteveel: Anyone else?

\_\_\_\_\_?

Councilman Durand: Go for it.

Mr. Donald Capezza - 18208 Hamann - I don't want to keep this going too long, but I felt I had to say something. You know, Mr. Jarosz, Rick Jarosz mentioned about the mandates and I think we all sat...I sat up there several years ago and I think the City Manager and I went to Washington DC and went to...and spoke to our legislatures, talked to Congressman Dingell about the federal mandates. I think there were almost 40 or 50 cities at a meeting that we went to that all objected to the mandates, the federal mandates they were imposing on us. I questioned Congressman Dingell on the fact that if they could just delay the mandates that the things were, you know, pretty rough down home and he understood that. And I think he indicated to me at the time that they didn't want to open that up again, the Clean Air Act, because it took so many years to get it started. And that he felt if they opened it up and changed some of the mandates or changed some of the restrictions, that it would just ruin the whole concept of the Clean Air Act. And we haven't even felt the consequences that the Clean Air Act is going to cost us over the years. I think we're we may be at the middle of it at this point. But, I know this body certainly sent resolutions when we served on the Council of Governments in Southeastern Michigan. I don't know how...we passed resolutions, had meetings, talked with the Congressmen, but they will not open up that particular area again. I think I indicated in the beginning of the discussion that I felt the local remediation project was to...certainly to our benefit. It was our infrastructure that was bad and we need to pay for it. I think we should pay for it because it is ours. And I also said that I felt the regional project and anything else outside of this, the wastewater treatment plant or whatever it is, should be paid by the federal government that is mandating the...to clean up the Great Lakes which is what this is all about, but I think it was mentioned. The guess the other question I had was in the past...in the handout it indicated that this worksheet did not include the operations and maintenance the sewer charges that were from the City of Detroit that passed through. Do we have any indication at this point what those rates are going to be? I remember they were almost going to triple them or quadruple them at one time. And I don't have that information. I know you had a study session and I thought that the Treasurer was going to upgrade us on the particular cost. How has that changed? How dramatically will it change?

Mr. Elliott: There has been...

Mr. Capezza: The rates, Char, on the....

Mr. Elliott: There have been significant changes, I believe much to Riverview's initiative as well as several other municipalities. I think our City Treasurer can describe what is happening there.

Ms. Abercrombie: Your Honor, the initial increase that was proposed by Wayne County who would be the body that passes on the increases for sewage to us is Wayne County, the initial increase that was proposed in the current year had been 34% with a 300% increase in our excessive flow rates. We managed to work the 34% increase down to about 11% with some input from the communities and some committee work involving some of the community finance people along with some Wayne County financial people. The excess flow rate, however, really has been a gift to the communities in that it has always been charged at something to the

effect of 20% of the normal rate of processing. Part of the situation with this Court Order and the processing of excess flow will be that excess flow rates must increase to the same rate we are paying for other operations and maintenance. So, we can expect at the current time we're paying something in excess of \$5.00 for the processing of normal sewage per million cubic feet and we are paying \$3.00 for excess flow. We can expect that the \$3.00 excess flow rate will eventually equal our regular operating rate. In addition, we can anticipate that we are going to continue to see increases from Wayne County. We're hoping over the next few years to be able to keep those at less than 10% per year, but we know we have at least that much coming over the next several years. And the long range that they anticipated with us was something in the \$8.00 range is where it is all going to top out at by the time we are actually done with all of these projects. So we're talking 1997/1998 area that they were looking at one time at approaching \$8.00 on those rates.

Mr. Capezza: Good god. \$8.00?? and what are we paying right now?

Ms. Abercrombie: I believe it is \$5.40 or something like that and \$3.00 on the excess flow.

Mr. Capezza: And is that what the \$8.00 is, the 5 plus the 3?

Ms. Abercrombie: No, no, no....

Mr. Capezza: So, it's going to be 8...

Ms. Abercrombie: No, they are saying it would be 8 on each eventually is where they are headed. But, that is several years down the road. We still, we basically formed an oversight committee who is working with the County now on a regular basis to try to keep these costs more in line and to make sure the costs being allocated to the downriver plant are equitable.

Mr. Capezza: Holy mackerel.

Mr. Steklac: Your Honor. I might also mention that the excess flow chart, since it is related to this project, although the 38% that Char talked about is based on general operations of the plant and not directly related to the project and the problems with the lawsuit and so on, the excess flow, the elimination of the discount on the excess flow is built into the \$.75 operations and maintenance chart you see in the worksheet. So that is included in there but things like you said, water rate increases from the City of Detroit may cause an increase in the water rate for the City of Riverview and that was put into that newsletter so that people don't misinterpret that there are other increases coming from other areas...

Mr Capezza: yea, big ones.

Mr. Steklac: ...not only from the sewer project, that could impact on their water and sewer bills.

Mr. Capezza: Ok well, I don't know if this is the right place but, how are the talks with Brownstown as it eludes to that getting capacity from them, Bob, is that still in the works, still a good possibility? Because that's gonna save us millions of dollars if..have they any talk about that?

Mr. Elliott: Your Honor. Mr. Capezza brings the issue that the City has been attempting to secure additional sewer capacity from one of the other entities in the downriver system. We have talked with a number of communities, most recently Brownstown. Brownstown at this point has not given us the official response informally they indicate that their development needs may dictate they will not sell additional sewer capacity to Riverview. That is a tremendous setback for Riverview should that occur because Riverview was the last municipality to enter the downriver system and we secured only a minimum amount of sewer capacity and it has grossly compounded our overall costs in this regional correctional system as you referred to because much of this is based on excess flow and Riverview historically has been automatically in an excess flow situation with a minimum rainfall because we do not

have the required sewer capacity to handle our excess flows.

Councilman Weak: Your Honor. I guess my only point is I'm sure Taylor at this point and time regrets selling anything to Riverview because of their particular problem and I guess the other thing, Don, is we're still going after the County. The County believes that the system as a whole is an equilibrium, even though there is some disequilibrium among other communities and that we're exploring options where we are going after the county to force them to give us some additional capacity. We need capacity. I mean that is fundamental to this whole equation is that we do not have the proper capacity for our particular city and so we are still pursuing that as well as Brownstown, but we haven't given up on that yet.

Mayor Rotteveel: And that has made trying times for staff and Council like I said, the unfunded mandated regulations, you know, they tell you you do it and they never worry how much it's gonna cost, you pay. It has been quite a concern of us and I think under the circumstances we have done quite a bit to eliminate, you know, the expense, but yes, it's going to be quite a costly project. But...

Mr. Capezza: Right.

Mayor Rotteveel: On the Riverview track record we have rolled back the millage for the last 10 or 12 years, you know, so even if you would go on millage, you know, we don't know, we cannot roll back the mills again and that is going to reflect a difference in price too. But, you can't say what you are going to do 10 years from now; you've got to look for the worse so that you are prepared for it.

Councilman Weak: Your Honor. I guess I would just like to close with as painful as these meetings are, I mean we are obviously dishing out bad news in terms of our system. I think our commitment to the community is to keep you as informed as possible on the developments of this project. We haven't given up the way to fund this either through federal or state or landfill means, but I think our commitment today as it has been for the last several years is the same for tomorrow is to tell you what is going on and to share as much information as we possibly can, ask for your input because ultimately really we all write checks either twice a year or once a quarter to pay for all this. So I think our commitment will be to communicate through public hearings, sewer bulletins, cablecasting, meetings, whatever, you'll know as much as we know throughout this whole process.

Mr. Capezza: Well, you know, I am pretty well convinced of that and I think you are really trying to do the right thing. And I know it is very easy to stand up here and say that well, I think the city, you know, or the landfill or whatever should pay for the whole thing, you know, it sounds good. But I honestly think there's a way it could. And I think there is enough intelligence up there and get some innovations on special contracts into the city or whatever and dedicating it solely for the purpose of paying off that bond issue. And I feel confident you will come up with something realizing that there is no free lunches and it is our city and we have to pretty well take care of it ourselves.

Councilman Weak: We are borrowing it from future generations.

Mr. Capezza: That's right, and I fully understand that. But I still think if we can the city, the residents off this one, and I am talking about the local remediation project, not the regional project because that...I don't think that has even been discussed. I think if we can get off that and help with the residents of this city they will be very thankful and I think when the other big one comes, then perhaps they'll be more receptive to paying a few dollars for that one.

Councilman Weak: Thank you very much.

Mayor Rotteveel: Anyone else?

Jack Kesterson - 19008 Stonewood - Pretty short question, Your Honor. I have a two part question in figure A here now I was on council when we implemented this. I am referring to the surcharge of \$10.00/quarter was any of that money used toward the project so far? Why are we

saving it?

Mr. Elliott: Yes, the funds that are set aside for capital water projects have been used for water projects and are set aside for water projects over the next few years

Mayor Rotteveel: Fixing water mains.

Mr. Elliott: Yes, that is a water reserve.

Mr. Kesterson: Well then is that charge of \$10.00 still going to be on the bill?

Mr. Elliott: There is...the \$10.00 charge will stay...sunsets in 1995 and then the Council will need to consider whether it is to be extended or not and it has been used for water projects. There remains additional needs within the water system to consider the extension of that charge but that is to automatically sunset unless extended by the Council.

Mr. Kesterson: O.K. Because that question has been brought up to me and I just wanted to get a clarification. Thank you.

Albert Topolewski - 18227 Country Club Circle - My view is the project ought to be paid for on the water rates. You get your water bill and it states water/sewage billing. I don't see any connection with the increase of the millage on the property tax. Like I said you get your billing on your water and that's water/sewage.

Mayor Rotteveel: Thank you

Councilman Weaks: Thank you very much.

Dan Webb - 20271 Maplewood: I just want to put my two cents in. I am in favor of the sewer rate method. If you use it, you pay for it. I was wondering if a show of hands for the two proposals might be considered.

Councilman Durand: Show of hands by Council?

Mr. Webb: Just a straw vote. I know it's not binding, but just to see what the audience...

Councilman Weaks: Audience or City Council?

Mr. Webb: No, for the audience

Mayor Rotteveel: For the audience, yes, no, well, you either go by the water rate or by the.....

Mr. Webb: Yes. Just a simple so we can get a straw vote of the audience. Everybody's....

Mayor Rotteveel: How many people are in favor of putting it on the water bill?

Tape 2 - 280

Several people talking at once, cannot decipher all.

Mr. Elliott: 3/4, the rest are staff.

Staff can't...

Councilman Durand: Is anybody counting?

Speaker unidentified and not talking into microphone: Can I ask a question on that vote? usage how much water you use is going to be how much \_\_\_\_?\_\_\_\_.

Mr. Elliott: Right.

Councilwoman Blanchette: One at a time.

Several people talking at once. Cannot decipher.

Mr. Elliott: Yes, this is based on the...the sewer rate is based on the water consumption.

Mayor Rotteveel: Right. So we got...

Mr. Elliott: Want to see a show for the other side?

Councilman Weeks: There may be no opinion.

Mayor Rotteveel: Anyone like to....prefer to put it on the tax roll?

Several people laughing.

Councilman Durand: I don't....this is interesting.

Councilman Weeks: Yes.

Mr. Elliott: We have one.

Councilman Durand: Two, Mike Kovach, too.

Mr. Kovach: On the tax rate....you are talking about millage according to assessed evaluation or a special assessment just like when you pave Quarry or if you're gonna have to pave Sibley Road. You're not going to have the house owners on Sibley Road pay for their share of foot frontage. You'd spread over the whole city and why cant this be spread on a special assessment over the whole city so everybody would pay the same?

Mayor Rotteveel: That is a possibility too.

Mr. Elliott: It is not a special assessment per se based on foot frontage. It could be a fixed charge that..

Mayor Rotteveel: A fixed charge per homeowner.

Mr. Elliott: Every homeowner would pay the same amount.

Mr. Kovachs: Yes, the same amount.

Mayor Rotteveel: Right.

Mr. Elliott: That is one of the options that is being looked at.

Mr. Kovachs: Some people are confusing it. They figure if they're paying \$3,000 \_\_\_\_\_ (1407) they will have to pay according to their assessed evaluation.

Mr. Elliott: On millage.

Mr. Kovach: That's not what I am talking about.

Mr. Elliott: Well, there is. We've talked about doing it strictly on a millage basis. We've talked about doing it on a number of different fixed charge basis.

Mr. Kovachs: No, what I was referring to when I talked before was special assessment.

Mayor Rotteveel: Right.

Mr. Kovachs: And everybody throughout the city pay the same amount and the future people that own that house will continue paying the same amount.

Mr. Elliott: O.K.

Councilman Weeks: Thank you very much.

Mr. Elliott: Thank you.

Mayor Rotteveel: We certainly appreciate your input. I know it's not an easy solution but I think with all the information we got from the people we will come up with the right decision.

Councilman Durand: Can we have a motion to adjourn?

Councilman Weaks: ...a motion to adjourn the public hearing, Your Honor.

Councilman Lane: Yes.

Mayor Rotteveel: A motion is in order to...

Councilman Trombley: I got a question, I would like to have a copy of all the people that spoke,

Mayor Rotteveel: O.K.

Mr. Elliott: A transcript.

Councilman Trombley: What they said.

Mayor Rotteveel: O.K.

Mr. Elliott: A transcript, we will...

Councilman Lane: I make a motion to ....adjourn.

Mayor Rotteveel: Motion by Lane, supported by...

Councilman Weaks: Weaks.

Mayor Rotteveel: Roll Call.

Clerk Girardin: Councilwoman Blanchette - Yes

Mr. Elliott: This is to close the hearing.

Councilman Durand - Yes

Councilman Koch - Yes

Councilman Lane - Yes

Councilman Trombley - Yes

Councilman Weaks - Yes

Mayor Rotteveel - Yes

Councilman Weaks: Thank you Charlotte. Thank you Michael.

Ms. Abercrombie: Certainly.

Several people talking.

Councilman Weaks: Moved to adjourn.

Councilman Weaks: We need to adjourn, Your Honor.

Mayor Rotteveel: Moved that we adjourn. Roll call.

Councilman Durand - Yes

Councilman Weaks - Yes

Councilman Koch - Yes

Mayor Rotteveel - Yes

Verbatim Transcript of Issue Regarding Patricia Brannon

Tape 2

Mayor Rotteveel: 10.9. Proposed Amendment of the 1994/95 Pay and  
Classification Plan and Retroactive Payment of Wages to the Fire  
Dispatcher/Clerk. We have the recommendation of the City Manager.  
What is Council's pleasure?

Councilman Weeks: Your Honor.

Mayor Rotteveel: Councilman Weeks.

Councilman Weeks: Reluctantly, I move we receive and place on file  
Agenda item 10.9; that we amend the 1994/1995 Pay and Classification  
Plan to establish the pay scale of the Fire Dispatcher/Clerk  
commensurate with the pay scale of the Police Dispatcher expiring on  
12/31/94. Further, that retroactive payment of the back wages be made  
to the Fire Dispatcher/Clerk commensurate with the established wage  
scale of the Police Dispatcher with the same years of service.  
Further, that we direct administration to immediately work with so  
mentioned Fire Dispatcher/Clerk to resolve all open issues relative to  
the Fire Dispatcher's issues. Let me babble for a second. Basically,  
what we need to do is take the open issues from Patty Brannon,  
reconcile those to our position; have detailed responses for all of the  
Brannon issues.

Mr. Elliott: Sure.

Councilman Weeks: So how we formulate that I don't view this as the  
end of the process; I view this as the final beginning of this process.

Councilman Durand: Support.

Mr. Elliott: ...with a report to the Council.

Councilman Weeks: ...Yes, with a report to the Council.

Mayor Rotteveel: Moved by Councilman Weeks, supported by Councilman...

Councilmen Durand: Durand.

Councilman Weeks: Your Honor. Let me just go on record for the  
reasons why. We have gone over several meetings this issue and we  
seem to always be about half way or three quarters of the way there. I  
know there are open issues at least in the fire dispatchers from their

perspective. I think the city has communicated to Council that they believe all the issues are resolved. We would like a definitive report of where we are so Council can determine what, if any, what next steps to direct the administration to. I would like to solve this internally if at all possible without Council interference or meddling actually.

Councilwoman Blanchette: Your Honor.

Mayor Rotteveel: Councilwoman Blanchette.

Councilwoman Blanchette: Of course, I can't let this go. I have been ardent about this all along and I will speak my peace before the final vote is made. Unfortunately, again, this employee should have been integrated into the city well over the past two years, a big flub on our management's part. Council is being forced to look at an expired contract, giving more money to a fire dispatcher again than my captains, lieutenants and sergeants are now making. Council gave management a directive in this particular contract, be it verbal or in writing that this individual was supposed to have been incorporated into the city; it was not followed. We have really been lead down the trail on this one. It has been an embarrassing and very uncomfortable situation. I still find myself unable to defend the position of paying this kind of money and I will be voting no.

Mayor Rotteveel: Any further discussion?

Councilman Koch: Your Honor.

Mayor Rotteveel: Councilman Koch.

Councilman Koch: Do I understand the motion, Jim, that the payment of the back wages will take place immediately?

Councilman Weaks and \_\_\_\_\_ (simultaneously). That is correct.

Mr. Elliott: Your Honor. For the record, there was no directive as Councilmember Blanchette refers to integrate this employee into the work force; that would be quite unusual to have that sort of directive from the City Council. I believe the Council's intent and, something that the administration strongly supports, was to encourage the employee to seek employment for any full time positions that did come open and I believe that has been done.

Councilwoman Blanchette: Excuse me, Councilmember Durand or Weaks, since you were there for the original contract, would you care to clarify what Council requested of management.

Councilman Durand: I will only say that we cannot direct him to make any hirings of that nature. It was suggested that the position was going to be terminated and that person would hopefully seek other employment in the city for job openings and if that person was qualified, we would certainly support the City Manager's efforts to work her into the work force.

Councilwoman Blanchette: And this is your directive?

Councilman Durand: I think that's about as delicately as I can word it. Is that correct?

Mr. Elliott: That is correct.

Councilman Durand: O.K.

Councilman Weaks: And I would support that. The whole intent of giving this person an employment contract was to have some sunset provisions in here that we were not going to work it into a full time position; that was always our intent. That would...in my eyes, my mind, that was crystal clear. I know the administration probably interpreted it differently and felt that maybe someday, somehow it would work into a full time position that was never I think the intent of the employment agreement and so, we...I think Councilman Durand put

it correctly for our intent.

Councilwoman Blanchette: Once again for the record. How many more independent contracts do we have in the city?

Mr. Elliott: I believe there is one that refers to the benefit level for the animal control officer.

Councilwoman Blanchette: There are no other surprises?

Mr. Elliott: I sure hope not. And I do want to say that because I was not involved when the Council did direct the employment agreement, I don't have the first hand recollection of that particular Council action; so we are attempting to address the more recent directives from Council.

Mr. Steklac: Since I was acting manager at that time, may I address that?

Mr. Elliott: Mr. Steklac was here if you wish comment.

Mr. Steklac: I was acting manager at the time this issue came before the City Council both in a study session in October of 1990 as well as a study session of January, 1991. In looking for some other information regarding retirement issues, the finance director came across two references and these two references in the minutes of those meetings. The only references that were made were with respect to if we were to go to a central dispatch what would happen to this employee. Not, that this employee position would be phased out, there was only discussion with respect to encouraging and looking at going to a central dispatch position. The second meeting in January, 1991, addressed the issue of whether the employee's contract should be at will or just cause and the comments that were noted in those minutes were that the intent was not to get rid of her; that the intent was the language for just cause termination or you know, eliminate the at will language was acceptable, but that the intent was not to get rid of her and I believe that the only context which the question was the elimination of her position was in with respect to central dispatch. Also in that January meeting, there was a reference made to if the position were eliminated, were we required to find her another position in the city. The response was no. I believe it was in the context of the central dispatch shortly after Bob came on, there was an analysis made by the police and fire chief and the various departments to go into a central dispatch that was recommended against, and therefore, I believe the issue was resolved at that point.

Councilwoman Blanchette: Your Honor, I will just make one other comment if you would please.

Several start talking at once.

Councilman Durand: That's quite a \_\_\_\_\_.

Councilwoman Blanchette: Your Honor.

Mayor Rotteveel: pounding gavel O.K., O.K. One at a time.

Councilwoman Blanchette: Your Honor. I will just make one other comment if you would please. I really find it difficult to give parody when any other union has asked for parody with the police department and has been booed by management and I will just leave it at that.

Mayor Rotteveel: Any further discussion?

Councilman Weeks: Your Honor. I can't let that go. My only comment is that based on the contract, I think we have an obligation to pay this amount. There is certainly a dispute in terms of what the other amounts are and I hope we can work through those, but if in fact, that is the contract, that's the contract; we have that obligation, both parties signed it and we should honor that like the employee honored their side of the contract.

Mayor Rotteveel: The contract was approved three or four years ago.

Councilman Weak: That is correct.

Councilman Trombley: Your Honor. So let me get this real clear. Final payment is going to be made. Is that correct - what we owe her?

Mayor Rotteveel: Yes.

Councilman Trombley: At then, the administration is going to get back into it and report to the Council.

Councilman Weak: There are, I believe, open issues regarding the contract. This is the first of the final installment.

Councilman Trombley: I think there is a whole bunch of things I don't know...

Mayor Rotteveel: I don't think it is a money issue.

Councilman Trombley: I know it isn't a money issue.

Councilman Weak: I want the manager or the administration to get back with the party involved to identify what all the outstanding issues are and ...

Councilman Trombley: ....bring them back to us.

Councilman Weak: Yes, work through them; hopefully find a satisfactory agreement and report back to us; if in fact we cannot get a satisfactory agreement then we would have a subsequent step to take, what ever that may be. I don't know what that is.

Councilman Durand: I think what we are saying at this point is we owe her no less than this.

Councilman Weak: That is correct. Based on the city's calculations.

Councilman Durand: And we will cover the disputed items through the normal channels.

Mayor Rotteveel: O.K.

Mr. Elliott: That is correct.

Councilman Koch: But you are saying you hope the administration resolves it...

Councilman Weak: That is my intent.

Councilman Koch: ....they don't have to come back to us.

Councilman Weak: They have to report back to us.

Councilman Koch: Well, I would hope that they report back that it is resolved.

Mayor Rotteveel: I hope so, too.

Councilman Durand: ...all smiles

Mayor Rotteveel: Yes, because this has gone on too long.

Councilman Weak: And I would expect...do we have a timetable? Is it a 30 day window you think to...

Councilman Trombley: I would like to get a timetable on it.

Mr. Elliott: Yes, we would meet with the employee and again, if the.. I think it is important to note we don't have any list of open issues. We would meet with the employee to identify what concerns there were and we could report back in a couple weeks?

Councilman Trombley: within 30 days?

Mr. Elliott: 30 days? If you....that would be fine, certainly.

Councilman Weeks: I would encourage it sooner, but if in fact...

Councilman Trombley: Wait a minute, let me....if that is not satisfied, then what?

Mr. Elliott: Well, we are performing a reporting function, Councilmember Trombley, we would merely report what our findings were and, of course, would attempt to resolve all issues.

Councilman Trombley: Alright.

Mr. Elliott: Within 30 days...is that part of the motion?

Councilman Weeks: I would like to include it as part of the motion.

Councilman Durand: Support, continued, whatever.

Mayor Rotteveel: Roll call.

Ayes: Mayor Rotteveel, Councilmen Durand, Koch, Lane, Trombley, Weeks

Nays: Councilwoman Blanchette

Motion carried.

COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:

Resolved by Councilman Koch, supported by Councilman Trombley, that the following joint resolution regarding a Zero Tolerance Policy on Gang Activity be adopted as endorsed by the City Manager. Further, a copy be forwarded to the Riverview Community School District for their consideration at the next Board of Education Meeting.

WHEREAS, The City Council for the City of Riverview and the Board of Education for the Riverview Community School District are aware of the ever-increasing violent and destructive behavior occurring on or about the school districts in America, and especially in our area; and

WHEREAS, the Council and the Riverview Board of Education, in joint session, have expressed their desire to maintain a safe community and educational environment to protect the students of the school district and community from outside interferences and from those who would threaten, destroy, or disrupt the environment or threaten the community; and

WHEREAS, it is the expressed intent of the City of Riverview and the Riverview Community School District to take all necessary precautions to provide for safety and security of our children and the community in general, against those who seek to threaten, destroy, or interfere with the peace and tranquility of this community or school district by acts of violence, intimidation, or other criminal acts;

NOW, THEREFORE, BE IT RESOLVED, that Riverview City Council and the Riverview Community School District declare that the respective bodies adopt a "zero tolerance" policy for any act by a minor or adult that would endanger the safety and security of our community school district or the community or that would promote youth gang activity.

BE IT FURTHER RESOLVED, that the respective legislative bodies will not tolerate any action by persons engaging in such acts of intimidation, lawlessness, or gang activity and the respective administrative staff(s) are directed to develop and implement policies and/or procedures that would prevent such activities on or about the property of the school district or in the community. Policies and/or procedures are to ensure that violators face a certainty of punishment and that the maximum penalty under the law is sought against such violators.

BE IT FURTHER RESOLVED, that a copy of this Resolution be forwarded to Governor Engler, State Senator Dingell, State Representative(s) Palamara and Porreca, the Mayor of the downriver communities, downriver Boards of Education, Wayne County Intermediate School District, Wayne County Executive McNamara, and Commissioner O'Neill.

Carried unanimously.

Resolved by Councilman Koch, seconded by Councilman Trombley, that the following Preamble and Resolution regarding Juvenile Crime and Restitution be adopted.

PREAMBLE

The youth of our communities, the county and our state are confronted with ever increasing social and economic problems that impact on their lives and the community. Children today are subjected to extreme peer and media pressures that drive them to life threatening and/or destructive behavior, thereby, endangering the basic fiber of American society. Social crises such as the AIDS virus, drug use, unwanted pregnancies, gang involvement, suicide, emotional problems, and other such problems are often brought about by idleness, social isolation, the breakdown of family influence, the educational crises, economic problems, and other such social and economic problems that impact on the child's life.

In addition, the increase of violence and other crimes committed by youth have taken a toll on our society. Children are dying because of our society's lack of respect for life and the abundance of weapons available to our youth through illegal sources. Children turning to drugs to overcome the pressures of life and the increase of crime and social disorder resulting from this is draining the resources of both the community and county to the extent that they are unable to provide the necessary prevention and counselling needed to shield the community from the problems.

The inability of families to deal with their children's social and educational problems has eroded because of the lack of available resources to provide early intervention both at the community and state level. Parental pleas for assistance often go unanswered because the community resources are not available.

The economic impact of delinquency on our school districts diverts resources from education to security needs.

The inability of our law enforcement agencies and school districts to address these problems is magnified by the fact that children are not held accountable for the consequences of their actions and the certainty of punishment is absent because of the breakdown in our justice system and the lack of coordination between the enforcement agencies.

The aforementioned are but a few of the problems facing our communities which must be addressed if we, as parents and community leaders, are to provide a safe and productive environment for our youth. It is imperative that the political leaders of the community, together with the county and state, join together to identify and address the problems of our youth to provide early intervention and to provide certainty of punishment for those who elect to violate the law.

Failure on the part of the elected officials to address these matters by enabling the law enforcement community, the school officials and the courts to deal with these matters is, impart, the cause for the breakdown in efforts to save our children. It is only by working together, beginning at the local community level, that we can hopefully save our youth from the certainty of death or destruction resulting problems brought about by political apathy.

WHEREAS, the Riverview City Council is cognizant of the ever increasing juvenile crime, drug use, and anti-social behavior in our community; and

WHEREAS, the political leaders of the community have a responsibility to provide for the safety and security of its community, and to provide a safe and effective educational environment where our children can achieve the social and educational skills necessary for life in our society; and

WHEREAS, the ability of the local community is impeded by their inability to provide early intervention and to assure the certainty of punishment upon those who choose to violate the legislated standards of our community; and

WHEREAS, Local law enforcement is hampered in their efforts to deal with juvenile delinquents because of legislative constraints and an apparent absence of a coordinated effort between the Juvenile Court, Department of Social Services, and the local law enforcement officials.

WHEREAS, problems of a community are often lost in the State and County system because of the magnitude of violent crime committed by juveniles occupies much of their resources and thwarts any attempt to provide effective punishment for non-violent juveniles acts petitioned to said agencies; and

WHEREAS, the District Court Judges have no authority in dealing with local juvenile crime problems, matters must be referred to Juvenile Court where the impact on a community resulting by the deviant behavior of a child may not be given the appropriate attention necessary to curb it, and

WHEREAS, the cost of providing certainty of punishment in a manner that would hold the child accountable for his/her deviant behavior is prohibitive, resulting in ineffective punishment, and

WHEREAS, addressing the problems of youth is best addressed at the local level where the child resides because resulting impact of the delinquent behavior is felt at that level; and

WHEREAS, the City Council that fails to assist the family and/or youth by passing on the problem to another level of government so as not to incur a cost of such intervention measures are remiss in their sworn duty to provide for the health, safety, and education of its community.

NOW, THEREFORE, the Riverview City Council call upon the Governor and State Legislature to create a task force to identify the needs of youth to reduce the incidents of juvenile crime and to provide a coordinated effort by which the local community, county and state can work together to provide intervention programs for our youth.

IT IS FURTHER RESOLVED, that the State Legislature institute laws that would provide for a certainty of punishment for juveniles attaining a certain age (to be determined) who would commit capital crimes that would cause incarceration equal to that if committed by an adult.

IT IS FURTHER RESOLVED, that the State develop certain educational and training standards for those persons assigned to juvenile delinquency enforcement and provide for licensing of the same as officers of the State so that they would be able to work with and interact with the State agencies charged with the enforcement of juvenile laws.

IT IS FURTHER RESOLVED, that the District Court Judges be granted limited authority over certain offenses committed by juveniles that are currently under the authority of the Juvenile Court; or in the alternative, provide funding for the establishment of district family courts to provide an alternative to the Juvenile Court.

BE IT FURTHER RESOLVED, that this preamble and Resolution be forwarded to Governor Engler, State Senator Christopher Dingell, State Representative(s) Joseph Palamara and Vincent Porreca, the Wayne County Intermediate School District Governing Board, the Chief Judge of the Wayne County Juvenile Court, Wayne County Executive Edward McNamara, Commissioner O'Neil, and downriver communities.

Carried unanimously.

Resolved by Councilman Trombley, supported by Councilman Koch, that the following resolution establishing the Ad Hoc Citizens Advisory Committee for the Veterans Memorial Project - Young Patriots Park be adopted as endorsed by the City Manager.

WHEREAS, Riverview residents have served and sacrificed of themselves for our nation during times of war with honor and distinction; and

WHEREAS, these veterans and their families are deserving of our respect and appreciation; and

WHEREAS, residents have expressed an interest and desire to demonstrate such respect and appreciation; and

WHEREAS, it is fitting that the City commemorate these contributions through a memorial and

WHEREAS, it is suitable to place such a memorial upon land in Young Patriots' Park which once was the site of a military defense facility; and

WHEREAS, it is desirable to undertake this project as a joint venture by and between the City and its residents for the betterment of our community, and to receive the contributions of interested persons,

NOW, THEREFORE, BE IT RESOLVED, that the City Council, on behalf of the City of Riverview finds and declares that the erection and maintenance of a veterans' memorial monument upon municipal park land serves the public interest and is an appropriate use of public funds; and

BE IT FURTHER RESOLVED, that the City Manager engage the services of an architect and present a plan for the design, construction, financing and maintenance of a veteran's memorial upon land in Young Patriots' Park; and

BE IT FURTHER RESOLVED, that it is this Council's intent to encourage, accept and utilize private donations to pay for the cost of construction, and to that end, authorizes the City Manager to draw upon City resources for the purpose of making such intent known throughout the community.

Resolved by Councilwoman Blanchette, supported by Councilman Capezza, that Council adopt the following resolution providing for Maintenance of Improvement of the Georgia Street Demonstration Project as presented.

WHEREAS, the City has undertaken a sanitary sewer improvement project in the Georgia Street area as part of the remedial work necessitated by the United States and State of Michigan v. City of Riverview, et al litigation; and

WHEREAS, the Georgia Street area project involved the installation of a new sanitary sewer mainline and house lead lines, disconnection of the footing drains from the house lead lines, and transformation of the old sanitary sewer mainline into a storm sewer mainline; and

WHEREAS, in cases of physical obstruction or difficulty, sump pumps have been installed in lieu of disconnecting the footing drains; and

WHEREAS, temporary access was granted by property owners based upon the City's guarantee to restore the interior and exterior of homes and property, private and public; and

WHEREAS, the City's contractor has posted performance and maintenance bonds which provide a surety for purposes of fulfilling this commitment; and

WHEREAS, the City has established a claims adjustment procedure for the purpose of resolving property owners' claims for damages to their property occasioned by the construction of the project improvements; and

WHEREAS, the City will undertake to repair or replace interior and exterior improvements related to the construction of the project, for three years from the date of Council acceptance of the project's completion;

NOW, THEREFORE, it shall be the policy of the City to repair or replace improvements which fall within the three year period from the date of Council acceptance of the project's completion irrespective of whether the need for repair or replacement occurs in or upon public or private property; and

BE IT FURTHER RESOLVED that in order to implement this policy, the City Manager shall undertake all necessary and reasonable measures to minimize inconvenience to the affected residents, including the following:

1. Appointment of administrative personnel to serve as liaison to the residents for the purpose of obtaining and responding to complaints, concerns and claims turned in to the insurance company and the construction company involving the Georgia Street project in a speedy and appropriate manner.
2. Allocation of appropriate financial and personnel resources necessary to carryout this policy for three years after completion of said project;
3. Inform the residents of Georgia Street area of this policy, the claims adjustment procedure and officials responsible for carrying it out;

Nays: Councilmen Koch, Trombley, Councilwoman Blanchette  
Motion carried.

#### ORDINANCE #406

AN ORDINANCE TO REVISE WATER RATES AND CHARGES BY THE ADOPTION OF REVISED SECTIONS 27-91 AND 27-92.A UNDER ARTICLE IV "RATES AND CHARGES", UNDER CHAPTER 27, WATER, SEWAGE DISPOSAL SYSTEM UNDER THE ORDINANCE CODE.

Resolved by Councilwoman Blanchette, supported by Councilman Weak, that Council authorize the Third Reading of Proposed Ordinance #408 (Restricting Zoning - Locating Adult Book Store, Theater, and Cabaret within 1000' of residential single, multi-family dwelling, church, park, or school) in full.  
Carried unanimously.

The Acting City Clerk gave the Third Reading of Proposed #408 in full.

ORDINANCE #408

AN ORDINANCE TO AMEND THE ZONING ORDINANCE OF 1977 BY AMENDING SUB-SECTION 3 OF SECTION 2107, TO INCLUDE ADULT BOOK STORE, LIVE ADULT THEATER AND "GROUP D CABARET", AS DEFINED IN SECTION 4.79 OF THE CODE OF ORDINANCES AS BEING RESTRICTED FROM LOCATING WITHIN 1,000 FEET OF ANY RESIDENTIAL ZONE, SINGLE OR MULTI-FAMILY DWELLING, CHURCH, PARK OR SCHOOL.

THE CITY OF RIVERVIEW ORDAINS:

That henceforth, sub-section 3 of Section 2107 of the Zoning Ordinance of 1977 shall read as follows:

Sec. 2107. Uses not otherwise included within a specific use district.

- (3) Adult motion picture theaters, adult mini motion picture theaters, adult book store and Group "D" cabaret, live adult theater, or establishments where specific anatomical areas are displayed. In the development and execution of this ordinance, it is recognized that there are some uses which, because of their very nature, are recognized as having serious objectional operational characteristics. Special regulation of these uses is necessary to insure that these adverse effects will not contribute to the blighting or downgrading of the surrounding neighborhood. These special regulations are itemized in this section. The primary control or regulation is for preventing such uses from intruding into residential districts or areas, or areas occupied by churches, parks or schools.

No adult motion picture theater, adult mini motion picture theater, adult book stores, Group "D" cabaret or live adult theater, as defined in Section 4-79 of the Code of Ordinances of the City of Riverview, shall be permitted within one thousand (1,000) feet of any residential zone, single- or multiple-family dwelling, church, park or school.

The Board of Zoning Appeals may waive the one thousand (1,000) foot restriction upon a finding:

- a. That the proposed use will not be contrary to the public interest or injurious to nearby properties, and that the spirit and intent of this ordinance will be observed.
- b. That the proposed use will not enlarge or encourage the development of a blighted area.
- c. That the establishment of the proposed use in the area will not be contrary to any program of neighborhood conservation nor will it interfere with any program of urban renewal.
- d. That all applicable regulations of this ordinance will be observed.

Severability. Should any word, sentence, phrase or any portion of this ordinance be held in a manner invalid by any court of competent jurisdiction or by any state agency having authority to do so for any reason whatsoever, such holdings shall be construed and limited to such word, sentence, phrase or any portion of the ordinance held to be so invalid shall not be construed as affecting the validity of any of the remaining words, sentences, phrases or portions of this ordinance.

Conflicting Ordinances. All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

This ordinance shall become effective upon publication as required

by law.

Resolved by Councilman Capezza, supported by Councilwoman Blanchette, that Council adopt Proposed Ordinance #408 as read.  
Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilwoman Blanchette, that Council authorize the Third Reading of Proposed Ordinance #409 (Adult Book Stores, Theaters, and Cabarets) by in full.  
Carried unanimously.

The Acting City Clerk read Proposed Ordinance #409 in full.

ORDINANCE #409

AN ORDINANCE TO AMEND ARTICLE V (ADULT BOOK STORES, THEATERS AND CABARETS), DIVISIONS ONE THROUGH THREE: SPECIFICALLY SECTIONS 4-79 THROUGH 4-89 AND SECTION 4-97, OF THE CODE OF ORDINANCES FOR THE CITY OF RIVERVIEW.

THE CITY OF RIVERVIEW ORDAINS:

That the Code of Ordinances for the City of Riverview, being sections 4-79 through 4-89 and section 4-97, be amended and shall hereafter read as follows:

Sec. 4-79 (Definitions) shall be amended to read as follows:

DIVISION I. GENERALLY

Sec. 4-79. Definitions.

For the purpose of this article, the following words and phrases shall have the meanings respectively ascribed to them in this section.

- A. - B. Adult mini motion picture theater - not herein amended.
- C. Adult motion picture theater - not herein amended.
- D. Cabaret shall mean any place wherein food and beverage is sold or given away on the premises and where patrons are provided with entertainment.
- E. Cabaret operator shall mean any person or such person's agent who shall operate any cabaret as hereinbefore described.
- F. Cabaret sponsor - not herein amended.
- G. Club Cabaret - not herein amended.
- H. Group "D" cabaret - not herein amended.
- I. Live adult theater or Establishment of like nature shall mean a commercial establishment, open to the public or paid membership, which is the situs for the live presentation of "specified sexual activities" or display of "specified anatomical areas of the human body," for observation by patrons therein.

Specified anatomical areas shall mean:

Less than completely and opaquely covered:

- i. Human genitals, public region;
- ii. Buttocks; and
- iii. Female breast below a point immediately above the top of the areola;

Specific sexual activity shall mean:

## DIVISION II. LICENSES

Sec. 4-86 (Required) shall be amended to read:

Sec. 4-86. Required.

It shall be unlawful for any person to operate any adult book store, cabaret, club cabaret, group "D" cabaret, adult motion picture theater, mini-adult motion picture theater, or live adult theater or establishment of a like nature, in the city without first obtaining a proper license therefor from the city clerk.

Sec. 4-87. (Prerequisites to issuance in general; exception for probationary permit) shall be amended to read as follows:

Sec. 4-87. Prerequisites to issuance in general.

No license shall be issued under this division until the applicant shall have complied with the requirements of the zoning and other applicable ordinances of the city.

Sec. 4-88. (Inspection Prerequisites to Issuance; certification) shall be amended to read as follows:

Sec. 4-88. Inspection Prerequisites to Issuance; certification.

Upon application and before any license required by this division is issued, it shall be required that the Departments of Police, Fire, Engineering and Community Development, together with their inspectors, inspect the proposed business and upon full compliance of all pertinent ordinances, rules and/or regulations of the aforesaid departments, such department head shall certify to the city clerk that all such requirements have been met. Upon receipt of all certifications, the city clerk, through authority of the city manager, may then issue a license.

Sec. 4-89. (Classifications; fees) shall be amended to read as follows:

Sec. 4-89. Classification and fees.

Upon receipt of an application for the operation of business, the city clerk shall classify and impose the fee for said license according to section 7-42 of the Code of Ordinance. The city clerk may establish limited classifications of certain businesses as required by nature of the business and set fees, subject to the approval of the city manager, for the limited classification.

Sec. 4-90. Severability.

Should any word, sentence, phrase or any portion of this ordinance be held in a manner invalid by any court of competent jurisdiction or any state agency having authority to do so for any reason whatsoever, such hold shall be construed and limited to such word, sentence, phrase or any portion of the ordinance held to be so invalid shall not be construed as affecting the validity of any of the remaining words, sentences, phrases or portions of this ordinance.

Sec. 4-91 through 4-96 - are unchanged.

### DIVISION 3. ADULT BOOK STORES AND THEATERS

Sec. 4-97 (Compliance of licenses with division) shall be amended to read as follows:

#### Sec. 4-97. Compliance of licences with division.

It shall be a violation of this division for any proprietor, owner, lessee or employee of any business as defined in section 4-79 of Article V to knowingly permit any acts, conduct or events in the following sections of this division to occur upon its premises so operated or controlled by him/her.

Sec. 4-98 through 4-110 - are unchanged.

This ordinance shall become effective upon publication as required by law.

Resolved by Councilman Capezza, supported by Councilwoman Blanchette, that Proposed Ordinance #409 be adopted as read. Further, a copy of said ordinance be sent to Rev. Allward of Riverview Methodist Church. Carried unanimously.

### UNFINISHED BUSINESS.

Resolved by Councilman Trombley, supported by Councilman Koch, that the following letter written by Councilman Trombley in reply to the editorial by Phillip Kortas appearing in the News Herald on February 24, 1993 be read into the Minutes. Carried unanimously.

The Acting City Clerk read the following letter:

In 1987 the City of Riverview was sued along with other Downriver communities, in the US District Court by the United States Environmental Protection Agency, the Michigan Department of Natural Resources, for violations of the Michigan Clean Water Act for pumping raw sewage into the Detroit River. When the (Wyandotte) Waste Water Treatment Plant could no longer pump into the Detroit River and received too much water during heavy rains, the plant would shut off Riverview's flow to the plant causing back up of sewer water and whatever else came out into homes in the Georgia Street area. Phillip Kortas, you can call me ill-conceived, ill-planned, poorly executed Councilman and I can take anything you throw at me, but you should tell the facts or truth as I call it, but one thing for sure, the project was messy and dirty. But the Georgia Street residents that got sewage in their basements won't get it again, and you know it happened three times since 1988.

Residents lost everything in their basements including furnaces, washers and dryers, and most personal things they had stored. Where were you then, Phillip Kortas? Or you did not care it wasn't your house. But the residents paid dearly because it was an act of God, or was it because Wyandotte Wastewater Treatment Plant shut the gate? And you're right, the sewer project is not over in the City. A good portion of it will be replaced but only on city property not homeowners

property. But I can say this, the city sewer project has never been put on the back burner. Some city projects have because of all the time the Council and administration have to put on this project including many hours that have been explained to your group (C.A.U.S.E.) Citizens Against Unnecessary Sewer Excavation.

Phillip Kortas, it is difficult to understand how a citizen like you who is President of C.A.U.S.E. could have such a gross misunderstanding of the sanitary sewer system, both locally and regionally. Phillip Kortas, you also said that the tunnel storage completely solves Riverview's problem and Riverview doesn't need to do anything else. Phillip Kortas, don't you know that the cost of Riverview's share in the tunnel is proportional to its storage requirement in the tunnel? If Riverview doesn't do anything, Riverview's system cannot meet the contract specifications with the treatment plant even with total tunnel storage.

The Georgia, Kennebec, and Mulberry project lasted about 3-1/2 months has been a success. The objective was to remove excess flow and that was done above and beyond the projected levels - 89% removal. The savings to the city will be somewhere around \$12,000.00 to \$17,000.00 per year and again, Phillip Kortas, I would like to say the residents have not had any basement flooding. And, Phillip Kortas, you know that many times at Council meetings, I and other councilmembers said that all residents that had damage to their homes or property will be fixed properly if caused by the City of Riverview and that still stands, plus a three-year guarantee after the project is completed and that is not until probably this spring sometime.

Phillip Kortas, you say no other city has spent a dime on the (S.S.E.S.) Sanitary Sewer Evaluation Survey. Well, wrong again, you better check Romulus, Taylor, Southgate, Brownstown, Allen Park, and also cities not in Downriver such as Dearborn Heights, Van Buren and Belleville just to name a few. Come on, Phil, state the truth and facts.

Also, Phil Kortas, I personally advised citizens if they called city hall about the sewer project or a citizen about damage to their house or property and got the run around, to call me personally at home - Elmer E. Trombley, 281-7947, and I will get them an answer. Come on, Phil Kortas, state the facts and truth.

Phil Kortas, the hundred residents that come to Council meetings to give their input is fine with me, but only about 10 to fifteen come from the Georgia, Kennebec, Mulberry project. I know we cannot please everybody. I even have my own complaints. But the C.A.U.S.E. Group has supplied the extra complaints to scuttle this alternative. The capital cost of the system that we are doing now will cost \$30,000,000.00 plus. The Georgia, Kennebec, Mulberry alternative would have cost only about \$13,000,000.00. What C.A.U.S.E. has effectively done is burden the citizens of Riverview with another \$17,000,000.00 to avoid the disruption of a couple of months. Phil Kortas, before you start getting long-winded on Riverview's sewer system, I would suggest you do more research on the facts and get them straight.

Phil Kortas, you mentioned an election coming up for three seats. I take it you are running. I welcome you as a candidate. You know we have them every two years for a four-year term. Where have you been since 1987, if you think Riverview is so bad since all this sewer talk has been in around? In conclusion, to the citizens of Riverview, I have been on Council since 1981. I have always tried to do my best. I've never voted on a tax increase and always put you, the citizen, first. I was born in this city and will probably die here. The City of Riverview will always be the best city in the U.S.A. as far as I am concerned, I almost didn't answer this trash, but enough is enough.

COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:

Resolved by Councilman Weak, supported by Councilman Koch, that Council adopt the following Resolution authorizing the State Revolving Funds Sanitary Sewer Financing as prepared by Miller, Canfield, Paddock and Stone, Bond Counsel.

WHEREAS, The City Council of the City of Riverview, County of Wayne, State of Michigan (the "City"), intends to authorize the issuance and sale of bonds pursuant to Act 94, Public Acts of Michigan, 1933, as amended, or Act 320, Public Acts of Michigan, 1927, as amended, in an amount not to exceed Thirteen Million (\$13,000,000), for the purpose of defraying part of the cost of improvements to address sewer inflow/infiltration problems in the City; and

WHEREAS, prior to issuance of bonds the City must either receive prior approval of the bonds from the Department of Treasury (the "Department") of the State of Michigan (the "State") or be exempt from prior approval as provided in Section 27 of Act 94, Public Acts of Michigan, 1933, as amended, or Chapter III, Section 11 of Act 202, Public Acts of Michigan, 1943, as amended; and

WHEREAS, in order to be exempt from prior approval, the City must notify the Department of the State of the City's intent to issue the bonds.

WHEREAS, the City Council desires to affirm its intent to be in compliance with the "reimbursement rules" of the Internal Revenue Service (the "IRS") and therefore makes the following declarations for the purpose of complying with the "reimbursement rules" of Treas. Reg. 1.103-18 pursuant to the Internal Revenue code of 1986, as amended (the "Code").

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City reasonably expects to be reimbursed for the expenditures described in paragraph 3 below with proceeds of revenues of the sewage disposal system for debt incurred by the City.
2. This declaration of official intent is specifically made pursuant to Treas. Reg. Sec. 1.103-18.
3. (a) The City intends to pay the costs to acquire, construct and equip improvements to the City's sewer system and related appurtenances and attachments thereto.
- (b) The City intends to issue bonds to pay the costs described in paragraph 3(a) above and to pay the costs of engineering and design thereof and the costs of issuance of the bonds.

4. The maximum principal amount of debt expected to be issued for the reimbursement purposes described herein is \$13,000,000.
5. This declaration of official intent is consistent with the budgetary and financial circumstances of the City, since no funds from sources other than the borrowing described herein are or are reasonably expected to be, reserved, allocated on a long-term basis, or otherwise set aside by the City pursuant to the budget or financial policies of the City with respect to the expenditures or the fund to be reimbursed as described in paragraphs 3(a) - 3(b) above.
6. Reimbursement of the expenditures described in paragraphs 3(a) - 3(b) above with the proceeds of the borrowing described herein will occur not earlier than the date on which the expenditure is paid and not later than (i) the date that is one year after the date on which the expenditure is paid, or (ii) the date that is one year after the date on which the project is placed in service, and the reimbursement will follow the procedures described in Treas. Reg. Sec. 1.103-18(e)(2).
7. The expenditures described in paragraph 3 above are "capital expenditures" as defined in Treas. Reg. Sec. 1.150-1(h), which are any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election) under general Federal income tax principles (as determined at the time the expenditure is paid).
8. The resolution shall be reasonably available for inspection by the public within thirty days hereof at the main administrative office of the City located at 14100 Civic Park Drive, Riverview, Michigan, and will remain available for public inspection on a reasonable basis until the date of issuance of the bonds described herein.
9. The Treasurer and the City Manager of the City each is authorized to notify the Department of the City's intent to issue the bonds described in the preamble to this resolution, to pay the related fee and to request an order providing an exception for the bonds from prior approval by the Department.
10. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Carried unanimously.

Resolved by Councilman Weeks, supported by Councilwoman Thiede, that Council authorize the execution of the Proposed 1993/94 Agreement with Wayne County for receiving Community Development Block Grant funds as endorsed by the City Manager.

Carried unanimously.

Councilwoman Blanchette disclosed she resides in Colonial Village.

Resolved by Councilwoman Thiede, supported by Councilwoman Blanchette, that Council adopt the following resolution authorizing the Submission of Grant Application to the Michigan Department of Natural Resources for Projects in the Riverview Park System as endorsed by the City Manager:

- WHEREAS, the City of Riverview has recently completed and adopted the revised Parks and Recreation Plan on March 1, 1993; and
- WHEREAS, the City of Riverview has successfully implemented and managed DNR funding in the past, and would undertake and properly manage any future DNR grant, if awarded; and
- WHEREAS, the City of Riverview acknowledges that there would be a required local funding match if a DNR grant is awarded; and
- WHEREAS, in anticipation of making an application for DNR funding, the City of Riverview notified the residents of the community on March 3, 1993 of the March 15, 1993, meeting at which this application would be discussed; and,
- WHEREAS, the Recreation Commission on March 3, 1993, endorsed the submission of a DNR funding application which included the following scope of projects and funding:

PROJECTS:

. New Playground surfaces at Vos, Vreeland, and Coachwood Parks	\$ 12,000
. New playground surfaces and equipment at Young Patriots', Pennsalt, McShane, Glens, Ray, Kennebec, and Jefferson Parks	165,500
. Installation of garbage receptacles at all parks	3,000
. Landscaping, aeration/fountain at the reflection pond at Young Patriots' Park	<u>104,000</u>
Total	\$284,500

FUNDING:

. Local Match	\$106,500
. DNR Grant	<u>178,000</u>
Total	\$284,500

WHEREAS, the proposed scope of projects and funding address the critical issues of removal of architectural barriers and the enhancement of a scarce urban water-related facility,

NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview authorizes the submission of a grant application to the DNR which incorporates the scope of projects and funding supported in the Parks and Recreation Plan and endorsed by the Recreation Commission.

Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Trombley, that the following resolution establishing the AD Hoc Veterans Memorial Monument Committee be adopted as endorsed by the City Manager. Further, said committee be advertised with other commissions on cable television and in the newspaper.

WHEREAS, the City Council of the City of Riverview recognizes the invaluable contribution that veterans and their families have made to our community, society, and country; and

WHEREAS, the City Council desires to further promote the establishment of a veterans memorial monument to be constructed in Young Patriots park; and

WHEREAS, on February 1, 1993, the City Council approved a resolution calling for the creation of the Ad Hoc Veterans Memorial Monument Committee to assist in the planning and implementation of this proposed program.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

- (1) There is hereby established the Ad Hoc Veterans Memorial Monument Committee. The Committee shall consist of the Recreation Director, two representatives from the City Council, and \_\_\_\_\_ citizen representatives. All appointments shall be for a two-year period, unless extended by the City Council. The Recreation Director shall be the Chair of the Committee.
- (2) The Committee shall meet at the call of the Chair. It shall consider and recommend to the City Manager the planning and implementation strategies for accomplishing the Veterans Memorial Monument project. Recommendations for proposed actions shall be submitted to the City Manager in writing. The City Manager may proceed with the implementation and execution of proposed recommendations in keeping with the approved budget for this project. All minutes of Committee meetings shall be reduced to writing and forwarded for information to the City Council on a regular basis.
- (3) The Committee shall be responsible for coordinating a private donation program to be applied to the construction of the Veterans Memorial Monument. Public funds may be appropriated by the City Council for developing and circulating public information regarding this donation program. In addition, public and private funds may be applied to costs of engaging the services of an architect for the design and construction management for this project.

Carried unanimously.

Resolved by Councilman Capezza, supported by Councilman Trombley, that Council adopt the following resolution regarding Property Tax Relief as endorsed by the City Manager.

WHEREAS, the Michigan legislature enacted an assessment freeze which will end in 1993, resulting in a two-year increase in property assessments; and

WHEREAS, this action will result in an average increase of fourteen percent (14%) in property assessments in the City of Riverview; and

WHEREAS, The City of Riverview is required by state law to assess property at fifty percent (50%) of market value; and

WHEREAS, the imposition of higher property assessments,

WHEREAS, the imposition of higher property assessments, combined with the increasing shift of the property tax burden to residential properties, can result in placement of an inordinate tax burden on Riverview residents, whereby in some cases the property tax is more than the mortgage payment; and

WHEREAS, on behalf of the taxpayers of Riverview, the Riverview City Council seeks immediate action by the Governor and the Michigan legislature for property tax relief which includes an equitable method of financing the State's public schools.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

1. The Riverview City Council urges the Governor and Michigan legislature to reform Michigan's taxing system in order to provide property tax relief and to allow local governments to maintain an adequate level of services.
2. The Riverview City Council endorses the efforts of the Michigan Municipal League to promote a bipartisan approach for property tax relief through the Michigan legislature. This bipartisan plan addresses school finance reform and proposes an increase in the state income tax rate to six percent (6%) plus an increase in the state income tax personal exemption from \$2,100 to \$3,000.
3. The City Manager is hereby directed to take immediate steps to present the concerns for property tax relief in the Riverview community to the attention of the Michigan Municipal League and Riverview's legislative delegation in the Michigan legislature.
4. It is the policy position of the Riverview City Council that in the transferring of the tax burden from the property tax to other taxes, the Michigan Legislature cause that there be no net increase in the total tax burden on the citizens of this State.

BE IT FURTHER RESOLVED, that due to the urgency of this issue, the City Clerk shall fax and mail a certified copy of this resolution to Honorable Governor John Engler, Honorable State Senator Chris Dingell, Honorable Representative Joseph Palamara, Honorable Representative Lynn Jondahl, and Honorable Representative Willis Bullard, Co-Chairs of the House Taxation Committee, the Michigan Municipal League, the Southeast Michigan Council of Governments (SEMCOG), the Downriver Community Conference and all Downriver communities.

Carried unanimously.

Resolved by Councilman Capezza, supported by Councilman Trombley, that the following resolution approving the 1993-94 Legislative Agenda be adopted as endorsed by the City Manager.

WHEREAS, the City of Riverview has identified county, state, and federal legislative initiatives, the adoption of which would enhance the efficient delivery of municipal services to its citizens and maximize the use of City resources; and

WHEREAS, the development of such a legislative agenda and allocation of resources to promote it serves a public purpose and is in the City's interest;

NOW, THEREFORE, BE IT RESOLVED by the City Council for the City of Riverview that the following legislative agenda for the 1993-94 county, state and federal legislative sessions is hereby approved:

1. Establish a regional compost facility with the financial assistance of the State of Michigan or Wayne County, for the use of municipalities in complying with the State-mandated ban of disposing yard waste in landfills.
2. Establish a regional household hazardous waste collection program, funded by the State of Michigan or Wayne County, to protect the environment.
3. Amend Act 9 of the Public Acts of 1990, being Michigan Compiled Laws Annotated 299.419b, to exempt municipally-owned landfills which establish and maintain environmental compliance escrows from the perpetual care fund requirement of twenty-five (25) cents per yard of disposed waste.
4. Support statewide legislation on prevailing wage for municipal projects where the cost exceeds \$250,000.
5. Amend wetland mitigation rules to establish a one-to-one mitigation ratio.
6. Protect municipal home rule authority against state legislative acts.
7. Support funding for federal mandates on sewer remediation and lead in drinking water activities under the Clean Water Act.
8. Support the local partnership act for economic stimulus as promoted by the National League of Cities and the U.S. Conference of Mayors.
9. Seek environmental restoration funding for the Nike Site under the Defense Environmental Restoration Program (DERF).
10. Coordinate with Wayne County and other appropriate entities on activities and funding of youth assistance and juvenile crime prevention and restitution programs.
11. Seek City representation on the Wayne County Solid Waste Implementation Committee to provide direct input on municipal solid waste management issues.

BE IT FURTHER RESOLVED, that the City shall, in addition to the foregoing legislative agenda, support the legislative initiatives of the Michigan Municipal League as follows:

1. Passage of the League's property tax reform plan.
2. Increase state revenue sharing for street maintenance and construction.
3. Amend Act 51 to remove local matching requirements for local street construction and eliminate separate major and local street categories to provide municipalities more flexibility in the use of road funds.

4. Require concurrency of infrastructure to allow developers to proceed only when necessary infrastructure or services are currently available or will be in place when development impact occurs.
5. Speed environmental permitting process through the Michigan Department of Natural Resources.
6. Amend Act 312 to require a last best offer on the entire collective bargaining proposal, and eliminate issue by issue last best offer arbitrations.

BE IT FURTHER RESOLVED, that the City Council shall designate two (2) of its members whose duty it shall be to represent the City in promoting the foregoing legislative agenda with the appropriate county, state and federal officials;

BE IT FURTHER RESOLVED, that the City Manager shall coordinate and facilitate the efforts of the City in promoting the legislative agenda, and shall report on the status of such efforts to the Council from time to time.

BE IT FURTHER RESOLVED, that the City Clerk shall transmit certified copies of this resolution to the City's county, state and federal legislative and executive branch representatives, and to the executive directors of the Michigan Municipal League and the Downriver Community Conference.

Carried unanimously.

Resolved by Councilman Trombley, supported by Councilwoman Thiede, that Council adopt the following Resolution supporting the Annual Hall of Fame Award Ceremony as endorsed by the City Manager. Further, the donation of \$500.00 be utilized in the Scholarship fund and Council decline the courtesy tickets.

WHEREAS, the Riverview Hall of Fame and Scholarship Foundation has distinguished itself in past years through the promotion of community pride and recognition by honoring deserving individuals who have made a lasting contribution to the Riverview community; and

WHEREAS, the Riverview Hall of Fame and Scholarship Foundation has announced plans for the fifth annual "HALL OF FAME" awards ceremony and banquet to be held at Crystal Gardens on Friday, April 30, 1993; and

WHEREAS, the Riverview City Council desires to expressly support the mission, purposes, and goals of the Riverview Hall of Fame and Scholarship Foundation on the occasion of this event.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview, Michigan, as follows:

- (1) The Riverview City Council takes great pride endorsing the mission statement for the Riverview Hall of Fame and Scholarship Foundation as presented below:

MISSION STATEMENT

The mission of the Riverview Hall of Fame and Scholarship Foundation is:

- (1) To give direction and provide role models to Riverview students and young adults;
  - (2) To promote community pride and unity through recognizing present or past Riverview citizens who have made significant contributions to their community, school, or profession while living in Riverview or as a graduate of Riverview Community Schools while living in another community and involved in other endeavors; and
  - (3) To recognize achievement in superior academics, school activities, and/or citizenship by awarding an annual scholarship to a deserving Riverview Community School District student.
- (2) The City of Riverview formally acknowledges and commends the Riverview Hall of Fame and Scholarship Foundation in the promotion of the fifth annual "HALL OF FAME" awards ceremony and banquet to be held on April 30, 1993.
  - (3) The Riverview City Council hereby appropriates the sum of \$500 to the Riverview Hall of Fame and Scholarship Foundation in general support for this awards program.

BE IT FURTHER RESOLVED, that the Riverview City Council extends its admiration and gratitude to the award recipients for this occasion in honor and recognition for the accomplishments and contribution these individuals bring to the Riverview Community.

Resolved by Councilwoman Thiede, supported by Councilwoman Blanchette, that Council authorize Hennessey Engineers to prepare plans and specifications, advertise for bid and obtain approval from the Department of Natural Resources for Cell III construction at the Land Preserve at an estimated cost of \$2,498,250.00.  
Carried unanimously.

Resolved by Councilman Capezza, supported by Councilwoman Blanchette, that Council adopt the following resolution regarding Commercial Rates for the Riverview Land Preserve as endorsed by the City Manager.

WHEREAS, the City Council has adopted a Council Policy requiring periodic review of Landfill rates; and

WHEREAS, a study of market conditions and customer needs have been concluded by the staff; and

WHEREAS, the City Council has determined that the rates set forth herein are appropriate;

NOW, THEREFORE, BE IT RESOLVED, that the following rates shall be charged until further notice:

1. Commercial Rate: \$8.50 per uncompacted yard; \$9.50 per compacted yard.
2. Prepay Rate: \$12.00 per yard.
3. Special Waste: Shredded Tires: \$13.50 per yard.
4. Road Materials: Pursuant to Council Policy Number 33, the Landfill Director shall make determination of the Land Preserve's need for road material and whether the proffered material is both needed and suitable for road material. If such determination is affirmative, the rate charged shall be \$2.00 per yard; otherwise, the full rate shall be charged (the prepay rate if customer does not have a disposal contract with the Landfill; the commercial rate if the customer does have a disposal contract with the Landfill).
5. Multi-Year Contracts: Disposal Agreements may be entered on a "put or pay" basis as follows:
  - a. For customers who commit to and agree to pay for a minimum of two thousand (2,000) yards per month, the rate shall be \$8.25 per yard for the first five thousand (5,000) yards per month, and \$8.00 per yard for quantities in excess of the first five thousand (5,000) yards per month.
  - b. For customers who commit to and agree to pay for a minimum of five thousand (5,000) yards per month, the rate shall be \$8.00 per yard.
6. Imported and High Volume Waste Contracts: The Manager is authorized to negotiate contracts for imported and high volume waste contract for consideration and approval by the Council. High volume contracts refer to contracts with volume over one hundred thousand (100,000) yards per annum.

7. Perpetual Care Fund: The surcharge provided for in Act 9 of 1990 shall be assessed unless waived by the Council.
8. County Import Fee: The county import fee shall be assessed unless waived by the Council.
9. Unload Charge: No fee shall be assessed customers who request assistance in unloading frozen waste from their vehicles.

Carried unanimously.

Resolved by Councilman Weeks, supported by Councilman Koch, that Council waive the Land Preserve dumping charges of \$2.00 per cubic yard for the Riverview Community School District for disposal of roofing and demolition material from the A.E. Smith School with the stipulation that the surcharges in the amount of \$.36 per cubic yards be paid by the District with a limit of 7,500 yard at this time; estimated savings amount to \$15,000 to the school district.

Resolved by Councilwoman Blanchette, supported by Councilman Capezza, that the resolution along with the attached By-Laws regarding the Historical Commission be adopted as follows:

WHEREAS, A group of concerned citizens of the City desire to accumulate and perpetuate the early days of the City when it was a part of Monguagon Township and

WHEREAS, the Ordinance Code of the City (Sec. 22-410) provides for the establishment of a Historical Commission to promote the appreciation and furtherance of knowledge of the history or historical development of our community and the fuller understanding of the contributions made by our early settlers; and

WHEREAS, the Ordinance Code of the City provides that all By-Laws of Boards and Commissions have to be approved by the City Council; and

WHEREAS, the Historical Commission under the capable guidance of Gerald N. Perry, has adopted certain By-laws controlling the preservation of historical property real and personal, the donation and acceptance of early American artifacts, photographs, adornments or implements.

NOW, THEREFORE, BE IT RESOLVED, that the Council having reviewed the proposed By-laws of the Riverview Historical Commission, does by these presents, accept the same in their entirety.

Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Weeks, that the following Resolution establishing Meeting Procedures for the City Council and rescinding all prior resolutions related thereto be referred to staff and brought back to the next Council meeting.  
Carried unanimously.

Resolved by Councilman Capezza, supported by Councilman Weeks, that the following Preamble and Resolution regarding Wayne County Tax Collection for Juvenile Facilities be adopted.

PREAMBLE

In 1984 the People of Wayne County approved a one mill county tax dedicated for use in detention and prosecution of criminals, juvenile court related services, public health, recreation, job training, senior citizens, and programs for meeting the needs of the poor, disabled and aged. This tax was renewed by the voters on August 7, 1990 for an additional ten (10) years, expiring in 1999.

In 1988, the County put for another tax proposal, which was approved by the voters of Wayne County, in the amount of one mill to provide for the construction, and/or operation of a jail, misdemeanor, or juvenile incarceration or detention facilities and for adult penalty options such as work release, home detention, and community restitution; WITH AT LEAST ONE-TENTH OF A MILL TO ACQUIRE, BUILD AND OPERATE A JUVENILE OFFENDER WORK/TRAINING INSTITUTION. This tax runs through 1997.

It is noted, that the one mill passed by the voters in 1984 and, which runs through 1999, is for many of the same purposes as the 1988 millage request. Further, the 1988 millage specifically requires the county to spend one-tenth of one mill for the "exclusive" purpose of "acquire, build and operate a juvenile offender work/training institution".

When it became obvious to the County Commission that they could not acquire and operate a juvenile offender work/training institution, they passed an ordinance to allow them to disregard intended use of these taxes and spend the funds collected now and in the future for their own purpose.

The City of Riverview, along with other communities, objected to this course of action and requested that the tax be deleted and the funds returned to the constituent communities. In addition, the Assistant County Executive for the County Health and Community Services, strongly objected to the Commission action saying "we believe" 'business as usual' is not the answer to solving our youth problems. We strongly object to the proposed ordinance..." To date, the County Commission has ignored the pleas of the People and continue to "do business as usual".

#### RESOLUTION

WHEREAS, the City of Riverview, by Resolution dated May 4, 1992, called upon the County Commission to rescind the unwarranted collection of one-tenth mill for a juvenile facility which has been collected since 1988 and unused by the County since; and

WHEREAS, the Council for the City of Riverview, together with other communities, requested that the County provide an accounting of the taxes collected; and

WHEREAS, the Council for the City of Riverview, together with other communities, called upon the Wayne County Commission to repeal the one-tenth mill tax and return the collected funds to the Wayne County communities for use within their own communities; and

WHEREAS, the Wayne County Commissioners have ignored the request of the People and sought to circumvent the intended purpose of the approved tax by enacting County Ordinance 92-115 which allows them to spend tax dollars in a manner not approved by the People; and

WHEREAS, it is evident that the Wayne County Commission intends to continue ignoring the request of the People and divert funds as they desire;

NOW, THEREFORE, the City Council for the City of Riverview calls upon its Commissioner to provide an accounting of all tax dollars collected under the two tax proposals including, but not limited to: amounts received, programs funded, funds returned to cities and for what purpose, balance of funds on hand, and the intended purpose of the funds dedicated for juvenile facilities.

IT IS FURTHER RESOLVED, that the Prosecutor for Wayne County review the County Ordinance 92-115 for violation of the Truth in Taxation laws.

IT IS FURTHER RESOLVED, that the County Commission for Wayne County repeal Ordinance 92-115 and return all tax dollars collected since 1988 which were specifically earmarked under the one-tenth mill to acquire, build and operate a juvenile offender work/training institution, to the communities so that they can provide juvenile programs within their own communities or return the funds to the people.

IT IS FURTHER RESOLVED, that the County repeal the tax and refrain for collecting the same in the future.

IT IS FURTHER RESOLVED, that this forgoing Preamble and Resolution be forwarded to the Wayne County Communities, the Governor of the State of Michigan, the Wayne County Prosecutor, County Executive, County Commissioner, and SEMCOG for information and action.

Resolved by Councilwoman Blanchette, supported by Councilwoman Thiede,  
that the following Resolution approving a Pay and Classification Plan  
for Employees of the City of Riverview for Fiscal Year 1993-94 be  
adopted.

WHEREAS, Section 17.1(d) of the Riverview City Charter provides  
for the City Manager to develop a pay and  
classification plan; and

WHEREAS, Section 5.10(a) of the Riverview City Charter provides for compensation of all officers and employees of the City within the limits of budget appropriations and in accordance with any pay plan adopted by the City Council; and

WHEREAS, the City Manager has presented a pay and classification plan for Fiscal Year 1993-1994; and

PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel asked if anyone wished to address Council.

RESOLUTIONS:

Resolved by Councilwoman Blanchette, supported by Councilman Weeks, that Council adopt the following resolution in opposition to S.B. 4 in the Michigan Legislature pertaining to Appeals to the Liquor Control Commission on a Local Government Denial of a Class C Liquor License:

- WHEREAS, present law states that when an individual or firm makes an application for a Class C liquor license local approval is needed; and
- WHEREAS, local governments are responsible to the citizenry to guarantee that proper zoning is compiled with in all cases; and
- WHEREAS, local governments are the responsible agent for enforcing laws and keeping their community safe and peaceful; and
- WHEREAS, under the present law local units of government can ensure that Class C liquor licenses are distributed to only those individuals that will responsibly and properly uphold the laws; and
- WHEREAS, the City of Riverview is aware that S.B. 4 (DiNello) has recently been proposed that would change the process by allowing an applicant to appeal a local unit of governments' denial of a Class C liquor license to the Liquor Control Commission who could overturn the local unit's decision.
- NOW, THEREFORE, BE IT RESOLVED, that the City of Riverview is in opposition to S.B. 4. S.B. 4 is another example of erosion of local control.
- BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to Governor John Engler, State Senator Christopher Dingell, State Representative Joseph Palamara and other Wayne County communities.
- Carried unanimously.

Resolved by Councilman Capezza, supported by Councilman Trombley, that Council adopt the following resolution to authorize **Withholding Funds** from Wayne County for the Youth Detention Facility Which the County Never Built.

- WHEREAS, the citizens and taxpayers of Wayne County in 1988 voted to contribute 1/10th of a mill of the taxable property within the County for the purpose of erecting a Youth Correctional Center; and
- WHEREAS, the County has collected the 1/10th of a mill in each year since 1989 but has failed to build the facility for which the levy was raised; and
- WHEREAS, the City of Riverview by its several resolutions has led the way for it and all governmental bodies in Wayne County to obtain a return from the County of monies levied by said governmental units to finance the building of a Youth Correctional Facility; and
- WHEREAS, at least 13 cities and townships in Wayne County have joined with the City of Riverview to implore the County to return these funds to their respective treasuries; and
- WHEREAS, the County has wholly refused and neglected to return these funds and have used said funds in a way not authorized by the electors of the County in their 1988 ballot question; and
- WHEREAS, the officials of Wayne County still refuse to return said monies claiming that it will proceed to use said funds to build a substantially smaller youth facility; and
- NOW, THEREFORE, BE IT RESOLVED, that the Treasurer of the City of Riverview is hereby directed to withhold the transfer to the County of Wayne of the funds received from the one-tenth mill levy, and place same in an interest bearing escrow account; and

BE IT FURTHER RESOLVED, that said funds shall not be released until such time as the County of Wayne:

1. demonstrates its intention to utilize said funds for the construction and operation of a juvenile offender work/training institution; or
2. cancels the collection of said one-tenth mill; or
3. returns the funds to the local communities for use in its own juvenile programs; and
4. fully accounts for all funds expended to date, the balance presently on hand, and the interest earned from the investment of said funds.

BE IT FURTHER RESOLVED that the City Council authorizes the Mayor and City Treasurer to take such action as may be appropriate to fully implement this resolution.

BE IT FURTHER RESOLVED that the City Clerk be directed to send copies of the resolution to all local communities within the County of Wayne requesting that they adopt similar resolutions.

Carried unanimously.

Resolved by Councilwoman Blanchette, supported by Councilman Trombley, that the following Resolution awarding the Sale of Lot #90 Castle & Ford/Riverview Subdivision to the lowest bidder be adopted:

WHEREAS, the City of Riverview became the owner of Lot #90 Castle & Ford Riverview Subdivision from the State of Michigan at a tax sale; and

WHEREAS, the City of Riverview declared Lot #90, Castle & Ford Riverview Subdivision as "surplus" property and authorized the initiation of the formal bidding process at a base of \$1,400 on April 19, 1993; and

WHEREAS, there were originally two (2) bidders, namely:

Mr. Tracy Baker	\$2,151.56
Simeon Investment Company	\$2,150.00; and

WHEREAS, Mr. Tracy Baker has withdrawn his bid as evidenced by his letter of June 22, 1993; and,

WHEREAS, Mr. Daly, representing Simeon Investment Co. has requested the City of Riverview's permission to utilize Wayne County's sanitary sewer located in the City of Wyandotte as evidenced by his letter of June 22, 1993, and

WHEREAS, Mr. Daly, representing Simeon Investment Co. has offered terms for re-purchase of Lot #90, Castle and Ford Riverview Subdivision to the City of Riverview at eighty percent (80%) of Simeon Investment Co.'s cost if Simeon Investment Co. does not begin development within a reasonable period of time after all permits are approved, as evidenced by his letter of June 30, 1993; and

WHEREAS, Simeon Investment Co.'s scheduled to be awarded Lots #76-89 and 91-93, currently held by the County of Wayne, which lots are contiguous to Lot #90; and

WHEREAS, the sale of Lot #90 to Simeon Investment Co. would complete the assembly of all the vacant lots in this area into one (1) development parcel, which in turn, should facilitate more rapid and comprehensive development of the area;

NOW, THEREFORE, BE IT RESOLVED, that the letter of withdrawal of bid, dated June 22, 1993, from Mr. Tracy Baker be received, placed on file, and accepted; and

BE IT FURTHER RESOLVED, that the award of the sale of Lot #90 Castle & Ford Riverview Subdivision be made to Simeon Investment Co. for the bid amount of \$2,150.00; and

#### Proposed Ordinance #414

AN ORDINANCE TO AMEND CHAPTER 11, "FIRE PREVENTION AND PROTECTION," OF THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW, BY THE ADDITION OF AN ARTICLE 111 OF SAID CHAPTER 11 TO BE KNOWN AS "LIFE SAFETY CODE." SO AS TO ADOPT BY REFERENCE THE LIFE SAFETY CODE PROMULGATED BY THE NATIONAL FIRE PROTECTION ASSOCIATION.

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE III "LIFE SAFETY CODE"

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE III "LIFE SAFETY CODE"

Sec. 11.22. Adoption by Reference.

That a certain document, three copies of which are on file in the office of the City Clerk, being marked and designated as Life Safety Code, 1991 edition, as published by the National Fire Protection Association, be and the same is hereby adopted for the safety to life from fires in building and structures for the City of Riverview, Wayne County, Michigan, and each and all of the regulations, provisions, penalties, conditions and terms of said National Fire Protection Association (NFPA 101), are hereby referred to, adopted and made a part of the Ordinance Code of the City of Riverview, as if fully set out in this Ordinance.

Sec. 11.23. That the provisions of Chapter 11 of the Ordinance Code of the City of Riverview entitled "Fire Prevention and Protection" are hereby retained and not hereby amended.

Sec. 11.24. Saving Clause.

That nothing in this Ordinance or in the Life Safety Code hereby adopted shall be construed to affect any suit or proceeding impending in any court, or any rights acquired, or liability incurred, or any cause or causes of action acquired or existing, under any act or ordinance as cited in Section 11.23 of this Ordinance; nor shall any just or legal right or remedy of any character be lost impaired or affected by this Ordinance.

Sec. 11.25. Limitation on Actions.

Adoption of the National Fire Protection Act 101, Life Safety Code, Chapter 21 (one and two family dwellings), sections 21.1 through 21.5, are not enforceable except as follows:

- (a) Owner/occupant requests inspection under the Code; and
- (b) Upon written or oral complaint from a state, county or city official requesting the inspection; or
- (c) An inspection in conjunction with an accidental or arson fire incident.

Sec. 11.26. Penalty for Violation.

- (a) Any person who shall violate any of the provisions of the Fire Prevention Code hereby adopted or fail to comply therewith, or who shall violate or fail to comply with the provisions of this article or any order made thereunder, or who shall build in violation of any detailed statement of specifications or plans submitted and approved thereunder, or any certificate or permit issued thereunder and from which no appeal has been taken, or who shall fail to comply with such an order as affirmed or modified by the city manager or by a court of competent jurisdiction, within the time fixed herein, shall severally for each and every such violation and noncompliance respectively, be guilty of a misdemeanor, punishable by a fine of not more than five hundred dollars (\$500.00) or by imprisonment for not more than thirty (30) days. The imposition of one penalty for any violation shall not excuse the violation or permit it to continue; and all such persons shall be required to correct or remedy such violations or defects within a reasonable time; and when not otherwise specified each day that prohibited conditions are maintained shall constitute a separate offense.

- (b) The application of the above penalty shall not be held to prevent the enforced removal of prohibited conditions.

RESOLUTIONS:

Resolved by Councilwoman Blanchette, supported by Councilman Trombley, that Council adopt the following resolution approving the Amendments to the Articles of Incorporation of the City of Riverview Building Authority as endorsed by the City Manager with the deletion of the word "carefully".

WHEREAS, the City Council (the "Council") of the City of Riverview, County of Wayne, State of Michigan (the "City"), deems it advisable and necessary and in the best interests of the City to amend the Articles of Incorporation of the City of Riverview Building Authority (the "Authority") previously created and established by the City under the provisions of Act 31, Public Acts of Michigan, 1948 (First Extra Session), as amended; and

WHEREAS, Amendments to Articles of Incorporation of the Authority under said Act have been prepared and reviewed by the Council,

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The attached Amendments to Articles of Incorporation of the City of Riverview Building Authority are hereby approved and adopted.
2. The Mayor and City Clerk of the City are hereby authorized and directed to execute said Amendments to Articles of Incorporation for and on behalf of the City.
3. The City Clerk shall cause the executed Amendments to Articles of Incorporation to be published in a newspaper of general circulation in the City.
4. The executed Amendments to Articles of Incorporation shall be delivered to the County Clerk of the County of Wayne, who shall take such steps as are necessary under the provisions of State law to perfect the incorporation of the Authority.

Carried unanimously.

Resolved by Councilman Weak, supported by Councilwoman Thiede, that Council adopt the following resolution authorizing filing with the Michigan Department of Treasury and declaring intent to reimburse for expenditures for the Riverview Public Library Expansion Project as endorsed by the City Manager.

WHEREAS, the City Council of the City of Riverview, County of Wayne, State of Michigan (the "City"), intends to enter into a contract with the City of Riverview Building Authority (the "Authority") pursuant to Act 31, Public Acts of Michigan, 1948 (First Extra Session), as amended, to provide for the issuance of building authority bonds, in an amount of not to exceed One Million Dollars (\$1,000,000), for the purpose of defraying the cost of additions to and modernization of the library, together with fixtures and equipment thereto; and

WHEREAS, prior to issuance of bonds the City must either receive prior approval of the bonds from the Department of Treasury (the "Department") of the State of Michigan (the "State") and receive any order for waivers, if necessary, or be exempt from prior approval as provided in Chapter III, Section 11 of Act 202, Public Acts of Michigan, 1943, as amended; and

WHEREAS, in order to be exempt from prior approval, the City must notify the Department of the State of the City's intent to participate with the Authority in the issuance of the bonds.

WHEREAS, the City Council desires to affirm its intent to be in compliance with the "reimbursement rules" of the Internal Revenue Service (the "IRS") and therefore makes the following declarations for the purpose of complying with the "reimbursement rules" of Treas. Reg. Sub-section 1.103-18 pursuant to the Internal Revenue Code of 1986, as amended (the "Code").

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City reasonably expects to be reimbursed for the expenditures described in paragraph 3 below with the proceeds of bonds to be issued by the Authority.
2. This declaration of official intent is specifically made pursuant to Treas. Reg. Sub-section 1.1.03-18.
3. (a) The City intends to pay the costs of the improvements to and modernization of the library, together with fixtures and equipment thereto.  
  
(b) The City intends to enter into a contract with the Authority to issue bonds to pay the costs described in paragraph 3(a) above and to pay the costs of engineering and design thereof and the costs of issuance of the bonds.
4. The maximum principal amount of debt expected to be issued for the reimbursement purposes described herein is \$1,000,000.
5. This declaration of official intent is consistent with the budgetary and financial circumstances of the City, since no funds from sources other than the borrowing described herein are or are reasonable expected to be, reserved, allocated on a long-term basis, or otherwise set aside by the City pursuant to the budget or financial policies of the City with respect to the expenditures or the fund to be reimbursed as described in paragraphs (3(a) - 3 (b) above.
6. Reimbursement of the expenditures described in paragraph 3(a) - 3(b) above with the proceeds of the borrowing described herein will occur not

earlier than the date on which the expenditures is paid and not later than (i) the date that is one year after the date on which the expenditures is paid, or (ii) the date that is one year after the date on which the project is placed in service, and the reimbursement will follow the procedures described in Treas. Reg. Sub-section 1.103-18(e)(2).

7. The expenditures described in paragraph 3 above are "capital expenditures" as defined in Treas. Reg. Sub-section 1.50-1(h), which are any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election) under general Federal income tax principles (as determined at the time the expenditure is paid).
8. The resolution shall be reasonably available for inspection by the public within thirty days hereof at the main administrative office of the City located at 14100 Civic Park Drive, Riverview, Michigan, and will remain available for public inspection on a reasonable basis until the date of issuance of the bonds described herein.
9. The Manager, Treasurer and Clerk of the City each is authorized to notify the Department of the City's intent to issue the bonds described in the preamble to this resolution, to pay to related fee and to request an order providing an exception for the bonds, from prior approval by the Department and request waivers, if necessary.
10. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Carried unanimously.

#### PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel asked if anyone wished to address Council.

#### RESOLUTIONS:

Resolved by Councilman Trombley, supported by Councilwoman Thiede, that Council adopt the following resolution authorizing a Waiver of Competitive Bidding for the purchase of the Office of Systems Management Computer System for the 27th District Court.

WHEREAS, the Judge of the State of Michigan, 27th Judicial Court - Division 2, and the Court Administrator have requested that the City purchase a hardware and software package from the Michigan Supreme Court State Court Administrative Office of Systems Management (OSM) to computerize court administration and procedures. and

WHEREAS, the funds requested by the Court for computerization have been placed in the City's Capital Improvement and Equipment Fund, and

WHEREAS, according to Section 8.2(D) of Section VIII (Contracting for Designated Professional Services), data processing consulting and programming services are classified as professional services and, as such, may be exempted from the competitive bidding procedure by the City Council, and

WHEREAS, Section 2.4 of the Purchasing Manual (Waiver of Competitive Bidding) provides:

"The City Council may waive the requirement for competitive bidding for the purchase of supplies, materials, equipment or contractual services when some material feature or characteristic of the item or service is unique in nature. The user department shall submit a full and complete statement of the reasons for waiving competitive bidding to the Purchasing Department for consideration by City Council."

WHEREAS, the Court Administrator has provided a memorandum, dated July 21, 1993, which has been submitted to and reviewed by Council indicating why the competitive bidding process should be waived in this situation, and

WHEREAS, Section 12.1(c) of the City Charter allows for the waiver of the competitive bidding procedure under certain circumstances, and

WHEREAS, the Data Processing Committee of the City of Riverview has provided a qualified recommendation that the entire OSM system be purchased from the State Court Administrative System, as indicated in the Report dated July 27, 1993; and

WHEREAS, in addition to the reasons stated by the Court Administrator, both the hardware and software of the OSM should be purchased from the State of Michigan for the following reasons:

- a. The State Court Administrative Office is administrator of all courts, including the district court, and is responsible for providing the most up-to-date and current information concerning court procedures and forms;
- b. When changes are made in the court systems and procedures in the future, owners of the OSM system from the State will have reasonable assurances that the system will be adaptable to these changes;
- c. Both the hardware and software of the OSM System are being supplied by IBM according to the State government pricing schedule which is estimated to be 15-20% below the retail cost of these items.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF RIVERVIEW, MICHIGAN, that it is in the best interest of the City to purchase the office of Systems Management Computer System from the State of Michigan for the 27th Judicial District Court -Division 2 at a price of Forty-Two Thousand Ninety-Six Dollars (\$42,096.00).

Motion carried.

Resolved by Councilman Koch, supported by Councilman Trombley, that the following resolution be adopted authorizing the initiation of a municipally sponsored Single-Family Subdivision along Sibley Road and amend both the FY 1993/94 Budget and 1993/97 Capital Improvement Program.

WHEREAS, the City Council has researched the development potential of the municipally-owned vacant 38 acre property along Sibley Road at different times since 1987, and,

WHEREAS, the highest and best use of the municipally-owned vacant 38 acre property along Sibley Road was determined to be for single family residential development by the Coopers & Lybrand report; and,

WHEREAS, the City of Riverview Planning Commission and City Council concurred in 1989 with the determination of Coopers & Lybrand's highest and best use recommendation; and

WHEREAS, the City Council has sought private development proposals, submitted all developments proposals to comparative financial analysis by Hungerford D & M, P.C., and evaluated all proposals in terms of community planning and design considerations; and

WHEREAS, the City Council temporarily suspended the examinations of development alternatives in 1990; and

WHEREAS, the City Council reactivated the deliberations for the development of the Sibley Road acreage on April 29, 1993; and

WHEREAS, the City Council met on June 14, 1993 to receive and discuss a report on the project status of the contemplated Sibley Road subdivision; and,

WHEREAS, the Director of Community Development subsequently prepared a project plan for the initiation of the municipal development of a single family subdivision along Sibley Road for City Council review at the study session of July 26, 1993; and,

WHEREAS, the City Council indicated that the project plan should be advanced for formal consideration of its implementation,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

1. The City Council hereby authorizes the initiation of a municipally-sponsored single family subdivision along Sibley Road.
2. The project plan for the Sibley Road Subdivision project, as submitted under the date of July 22, 1993, is approved in concept and attached hereto.
3. The City Manager is directed to undertake an economic benefit and tax generation analysis of the proposed subdivision development for a report to the City Council.
4. The City Manager is further directed and authorized to retain the services of a qualified real estate appraiser to conduct a market analysis and appraisal of the subject property for a report to the City Council.
5. The 1993/94 Annual Budget of the City of Riverview is hereby amended to appropriate the sum of \$95,500 for the Sibley Road Subdivision Project in the Capital Improvement and Equipment Fund and for \$30,000 in the Golf Course Fund. Funds pledged from the Capital Improvement and Equipment Fund shall be loaned from the Land Preserve Fund at the time of project award. Funds to be reimbursed with interest no later than at the completion of the lot sales.
6. The 1993/97 Capital Improvement Program (CIP) is hereby amended to reflect the anticipated expenditures as project costs for FY 1993/94 in the amount of \$125,500 and for FY 1994/95 in the amount of \$1,687,100.00. The total project cost is estimated at \$1,417,600.00 for the subdivision and \$395,000.00 in Golf Course improvements.

Carried unanimously.

Resolved by Councilman Koch, supported by Councilman Trombley, that the following resolution requesting the installation of a Traffic Signal at the Intersection of Sibley and Grange Roads be adopted.

WHEREAS, the City Council on June 15, 1992, had requested an administrative review of the installation of a traffic signal at the intersection of Sibley and Grange Roads; and

WHEREAS, Wayne County Department of Public Services, Traffic Operations Section, was contacted to assist in a traffic volume study, accident occurrence, and signalization timing evaluation of Sibley Road and the intersection at Sibley and Grange Roads; and

WHEREAS, City Council received the initial report from Wayne County on November 23, 1992; and,

WHEREAS, the subsequent process of requesting signalization requires the acknowledgment and willingness of the City of Riverview to incur the total cost of installation; and

WHEREAS, the preliminary estimate of the cost of installation is \$40,000 and has been budgeted in the FY 93/94 Capital Improvement Program;

NOW, THEREFORE, BE IT RESOLVED, that City Council considers the current and projected traffic conditions at the intersection of Sibley and Grange Roads warrant traffic signalization, is prepared to incur the total cost of installation, and authorize the advancement of a formal letter of request to Wayne County to conduct a design study, determine a final cost estimate, and provide the City of Riverview with an agreement for installation of traffic signalizations at the intersection of Sibley and Grange Roads.

#### RESOLUTIONS:

Resolved by Councilman Weak, supported by Councilwoman Blanchette, that Council adopt the following resolution regarding the Implementation of Additional Recycling Initiatives for the Riverview Land Preserve.

WHEREAS, the City of Riverview has long been a leader in environmental matters; and

WHEREAS, such leadership has taken the form of exercising extraordinary care in what is accepted for disposal at the Land Preserve; funding of studies in recycling options for the Downriver community; setting aside significant funds for closure; post-closure and environmental compliance at the Land Preserve; actively participating in environmental awareness programs; and developing an environmentally sensitive legislative agenda; and,

WHEREAS, the City Council now finds it appropriate and in the public interest to initiate addition environmental measures, and to authorize the funding of such measures;

NOW, THEREFORE, BE IT RESOLVED that the City Manager is directed to implement the following recycling initiatives on or before October 1, 1993;

1. Expansion of the Drop-off Recycling Center hours to coincide with the weekday hours of the Land Preserve, to wit: 8:00 a.m. to 5:00 p.m.
2. Arrange for a curbside recyclables collection program on a subscription basis with a contractor.
3. Institute motor oil recycling for Riverview residents at the Drop-off Recycling Center.
4. Institute a household battery collection program at the Drop-off Recycling Center for Riverview residents.

5. Institute quarterly recycling bulletins for distribution to Riverview residents, in conjunction with the City's community newsletter.

BE IT FURTHER RESOLVED, that the City Manager shall advise the Council on whether budgetary transfers are necessary to carry out for foregoing initiatives.

BE IT FURTHER RESOLVED, that all expenses associated with the foregoing initiatives, including internal costs, shall be reported annually to the Council.

Resolved by Councilman Capezza, supported by Councilman Trombley, that Council adopt the following resolution regarding Legislation to Modify or Eliminate Yard Clipping Landfill Ban.

WHEREAS, Section 1 of Act No. 264 of the Public Acts of 1990, being Section 299.418a of the Michigan Compiled Laws presently imposes a ban on the disposal of yard clippings at landfills; and

WHEREAS, the imposition of this ban creates an undue hardship upon municipalities charged with the responsibility of collecting and disposing of yard clippings due to the absence of environmentally sound and cost effective alternatives; and

WHEREAS, this ban is an unnecessary burden upon such municipalities for the reason that ample space is available in existing landfills; and

WHEREAS, this ban is overbroad in that it fails to exempt landfills which recover methane gas produced by yard clippings for the generation of beneficial and environmentally prudent products;

NOW, THEREFORE, BE IT RESOLVED that the City of Riverview respectfully requests that its State Legislators introduce the attached legislative initiatives to:

1. exempt a landfill from the yard clipping ban if it qualifies as a "methane gas recovery facility" and
2. repeal the ban on yard clippings; and

BE IT FURTHER RESOLVED that the City Clerk transmit copies of this Resolution to the Governor, the Michigan Municipal League, the Downriver Community Conference, and the municipal customers of the Riverview Land Preserve.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilwoman Blanchette, that Council adopt the following Resolution urging Wayne County to Finance Wyandotte Wastewater Treatment Plant through Sewer Remediation Project through Taxes with the amendment to send to State and Federal Representatives:

WHEREAS, the City of Riverview and Wayne County are co-defendants in litigation brought by U.S. Environmental Protection Agency and the Michigan Department of Natural Resources for alleged violations of the Clean Water Act and state statutes; and

WHEREAS, the parties have, through cooperative means, undertaken a series of remedial actions to address the environmental concerns including local and system-wide sewer rehabilitation; and

WHEREAS, Riverview has sought and obtained financing through a loan from the State Revolving Fund, and Wayne County is presently applying for such financing as well; and

WHEREAS, the court has entered an interim order for such rehabilitation work to be undertaken; and

WHEREAS, such circumstances allow, under state law, for the repayment of the State Revolving Fund loan to be made by tax levy; and

WHEREAS, such tax levy is more advantageous to the residents than other methods such as user fees in that the former allows for a tax credit on the residents' state and federal income tax returns;

NOW THEREFORE, BE IT RESOLVED, that the City of Riverview requests that Wayne County levy a tax for purposes of repaying the anticipated loan from the State Revolving Fund, for the reason stated above; and

BE IT FURTHER RESOLVED that the City Clerk transmit a true copy of this Resolution to the State and Federal representatives, County Executive, Riverview's representative to the County Board of Commissioners, and to the clerks of the other municipalities joined as defendants in the foregoing litigation.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilman Koch, that Council authorize the Sale of 1993 General Obligation Limited Tax Bonds for the Sanitary Sewer Remediation Project, SRF 5097 in the amount of \$10,860,000 as presented.

WHEREAS, this City Council intends to authorize the issuance and sale of a general obligation bond (the "Bond") pursuant to Act 320, Public Acts of Michigan, 1927, as amended (the "Act"), in an amount not to exceed Ten Million Eight Hundred Sixty Thousand Dollars (\$10,860,000), for the purpose of defraying part of the costs of improvements to the City's wastewater collection system to address the sewer inflow/infiltration problems in the City (the "Project") in order to meet the requirements of Interim Order, dated July 2, 1993, issued by the United States District Court, Eastern District of Michigan, Southern Division (the "Order"); and

WHEREAS, the Project is necessary to preserve and protect the public health and to meet an urgent and imperative need for sanitary sewer facilities within the service area of the City; and

WHEREAS, this City Council determines that it is necessary in order to comply with and meet the requirements of the Order to complete the Project; and

WHEREAS, in order to construct the Project it is necessary to raise the sum of Twelve Million Five Hundred Sixty Thousand Dollars (\$12,560,000) to pay the costs thereof; and

WHEREAS, the City is authorized by the Act to issue the Bond in order to comply with the Order; and

WHEREAS, plans and specifications for the Project have been prepared by Hennessey Engineers, Inc., Trenton, Michigan, the consulting engineers for the System and approved by the Michigan Department of Natural Resources ("MDNR"), and all conditions precedent to the issuance of bonds authorized by the Act have been complied with

and are present in this situation; and

WHEREAS, construction bids for the Project have been let; and

WHEREAS, the Bond is expected to be purchased by the Michigan Municipal Bond Authority ("MMBA") through the State Revolving Fund Program ("SRF").

THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, as follows:

1. Pursuant to the Order, the City shall complete the Project.
2. The estimated period of usefulness of the Project is not less than forty (40) years.
3. The estimated total cost of the Project in the amount of \$12,560,000 is hereby approved and confirmed. The balance of said cost not paid from the proceeds of sale of the Bond as authorized by this resolution shall be paid from other funds legally available to the city.
4. A bond of the City in the total principal amount of not to exceed Ten Million Eight Hundred Sixty Thousand Dollars (\$10,860,000) is hereby authorized to be issued pursuant to the Act for the purpose of paying the cost of complying with and implementing the Order and completing the Project, as well as to pay the cost of issuance of the Bond.
5. The Bond shall be designed 1993 GENERAL OBLIGATION LIMITED TAX BOND, shall be dated as of the date of delivery, shall consist of one (1) single fully-registered Bond of the denomination of \$10,860,000, payable to the MMBA as registered holder and shall be payable in principal installment serially on April 1 of each year, as follows:

1996	\$445,000	2006	\$545,000
1997	460,000	2007	555,000
1998	465,000	2008	565,000
1999	470,000	2009	580,000
2000	485,000	2010	590,000
2001	495,000	2011	600,000
2002	505,000	2012	615,000
2003	510,000	2013	625,000
2004	525,000	2014	640,000
2005	535,000	2015	650,000

The Bond is expected to be delivered to the MMBA as initial purchaser thereof in installments (the "delivery installments") simultaneously with receipt by the City of installments of the purchase price of the Bond from MDNR or MMBA. The MMBA will provide the City periodically during the time funds are being drawn down by the City under the Bond with a statement showing the amount of principal that has been advanced as of a specific date, which statement shall constitute prima facie evidence of the reported information unless the City files a written objection to the accuracy of the information within thirty (30) days of the mailing of the statement; provided, however, that no failure on the part of MMBA to reflect a disbursement or the correct amount of the disbursement shall relieve the City of its obligation to repay the outstanding principal amount, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of the Bond. The delivery installment shall be deemed to correspond to the serial principal installments of the Bond in direct chronological order of said serial principal installments.

The serial principal installments of the bond will each bear interest from the date of delivery of the corresponding delivery installment at a rate of two percent (2%) per annum (plus any additional interest as may be required by the MMBA, as set out in the Bond form in Section 9 hereof), payable on April 1, 1994, and

semiannually thereafter until maturity of said installment. Interest on the Bond to October 1, 1995, shall be paid from proceeds of the Bond.

The Bond and the serial principal installments thereof may be reduced in amount and/or the maturity length of the issue may be altered in accordance with the MDNR Order of Approval for the SRF financing and/or the Purchase Contract between the City and MMBA relating to the Bond.

The Bond shall be issued in fully-registered form and shall not be convertible or exchangeable except as herein provided. So long as MMBA is the owner thereof, the Bond is payable as to principal and interest at the principal corporate trust office of the bank or trust company designated in writing by MMBA, or at such other place as shall be designated in writing to the City by MMBA ("MMBA's Depository"), and the City agrees that it will deposit with MMBA's Depository payments of principal, premium, if any, and interest on the Bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due, whether by maturity, redemption or otherwise. If the Bond is transferred by MMBA, interest shall be paid by check or draft mailed by the transfer agent selected by the City Treasurer to the person or entity who or which is, as of the 15th day of the month preceding the interest payment date, the registered owner at the registered address as shown on the registration books maintained by the transfer agent. The date of determination of registered owner for purposes of payment of interest as provided in this paragraph may be changed by the City to conform to market practice in the future. If MMBA transfers the Series 1993 Bonds, the principal of the Series 1993 Bonds shall be payable upon presentation and surrender of the Bond at the bank or trust company designated by the City Treasurer as registrar and transfer agent for this issue.

The Bond shall be sold to the MMBA pursuant to a Purchase Contract substantially in the form of Exhibit A attached hereto at not less than 100% of its par value and at a net interest cost not to exceed 2% per annum. The forms of (a) Purchase Contract between the Issuer and MMBA, and (b) Supplemental Agreement, among the Issuer, MMBA and the State of Michigan, acting through MDNR, each on file with the City Clerk, are hereby approved.

The Bond is subject to redemption prior to maturity and notice of redemption shall be given the manner as provided in the form of the bond set forth in Section 9 of this Resolution. The date of first redemption may be adjusted by the City to a date that is not more than one year earlier or nine years later than the date provided in Section 9 without further action by the City Council and as evidenced by execution of the Bond by the Mayor and City Clerk.

The Mayor, the City Clerk, the City Treasurer, the City Manager, or any of them, are hereby authorized to execute and deliver the Purchase Contract and the Supplemental Agreement in the forms approved, with such changes and insertions in such documents as may be necessary or desirable, permitted by law and not materially adverse to the City. The Mayor, the City Clerk, the City Treasurer, the City Manager, or any of them, each is hereby authorized to accept or reject the interest rates and purchase price offered by MMBA, subject to the limitations contained herein.

6. The Mayor and the City Clerk of the City are hereby authorized and directed to execute the Bond by means of their manual or facsimile signatures when issued and sold and to cause to be impressed or imprinted thereon the original or a facsimile of the seal of the City. The Bond shall be delivered to MMBA in accordance with instructions from the Treasurer of the City upon agreement for payment of the purchase price for the Bond in accordance with the Purchase Contract with MMBA.
7. Pursuant to authorization provided in the Act, the full faith and credit of the City is hereby pledged for the prompt payment of the principal of and interest on the Bond as the same shall become due, and the Treasurer shall promptly, out of City general funds,

deposit into the Debt Retirement Fund the amount of such debt service when due. If necessary for such payment, the City shall be obligated to levy ad valorem taxes on all taxable property in the City, subject to charter, statutory and constitutional tax rate limitations. The City recognizes and covenants that its full faith and credit pledge herein is a first budget obligation.

8. The City Treasurer is authorized and directed to open a separate depository account with a bank or trust company designated by the City, to be designated 1993 GENERAL OBLIGATION LIMITED TAX BOND DEBT RETIREMENT FUND (the "Debt Retirement Fund"), the moneys to be deposited into the Debt Retirement Fund to be specifically earmarked and used solely for the purpose of paying principal of and interest on the Bond when due. Proceeds of the Bond representing capitalized interest to October 1, 1995 shall be credited to the Debt Retirement Fund as received. All proceeds from taxes levied for the Debt Retirement Fund shall be deposited into the Debt Retirement Fund as collected. There shall be levied upon the tax rolls of the City for the purpose of the Debt Retirement Fund each year, in the manner required by the provisions of Act 202, Public Acts of Michigan, 1943, as amended, an amount sufficient so that the estimated collection therefrom will be sufficient to promptly pay, when due, the principal of and interest on the Bond becoming due prior to the next annual tax levy; provided, however, that if at the time of making any such annual tax levy there shall be surplus moneys on hand in the Debt Retirement Fund for the payment of principal of and interest on the Bond, or the City has budgeted sufficient revenues from the City's Sewage Disposal System for the ensuing year to pay the principal of and interest on the Bond becoming due prior to the next annual tax levy, then credit therefor may be taken against such annual levy for the Debt Retirement Fund.
9. The Bond shall be in substantially the following form:

REGISTERED

NO. 1  
UNITED STATES OF AMERICA  
STATE OF MICHIGAN  
COUNTY OF WAYNE  
CITY OF RIVERVIEW  
1993 GENERAL OBLIGATION LIMITED TAX BOND

Registered Owner: Michigan Municipal Bond Authority

Principal Amount: Ten Million Eight Hundred Sixty Thousand Dollars  
(\$10,860,000)

The City of Riverview, County of Wayne, State of Michigan (the "Issuer"), for value received, hereby promises to pay to the Registered Owner specified above, or registered assigns, the Principal Amount specified above, in lawful money of the United States of America on the dates and in the principal installment amounts set forth in Exhibit A attached hereto and made a part hereof, unless prepaid prior thereto as hereinafter provided, or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Michigan Municipal Bond Authority (the "MMBA") and a Supplemental Agreement by and among the Issuer, the MMBA and the State of Michigan acting through the Department of Natural Resources (the "State"), and in any event not exceeding \$10,860,000 with interest on said installments from the date each installment of principal is delivered to the Issuer until paid, at the interest rate of two percent (2%) per annum, payable on April 1, 1994 and semiannually thereafter. During the time funds are being drawn down by the Issuer MMBA will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the MMBA to

provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to repay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond.

Notwithstanding any other provision of this bond, so long as the MMBA is the owner of this bond, (a) this bond is payable as to principal and interest at the office of NBD Bank, N.A., or at such other place as shall be designated in writing to the Issuer by the MMBA (the "MMBA's Depository"); (b) the Issuer agrees that it will deposit with the MMBA's Depository payments of the principal of and interest on this bond in immediately available funds at least five business days prior to the date on which any such payment is due whether by maturity or otherwise; and (c) written notice of any redemption of this bond shall be given by the Issuer and received by MMBA's Depository at least forty (40) days prior to the date on which such redemption is to be made. For prompt payment of this bond, both principal and interest, the full faith, credit and resources of the Issuer are hereby irrevocably pledged.

This bond is a single fully-registered bond representing an entire series of bonds aggregating the principal sum of \$10,860,000. However, should the MMBA transfer this bond, then the MMBA may direct the Issuer to cause fully registered bonds to be issued in exchange for this bond, denominated in integral multiples of \$5,000, not exceeding for each maturity the aggregate principal amount of each principal installment. The replacement bonds shall be dated as of delivery to the original transferee and numbered in order of registration.

This bond is issued for the purpose of defraying part of the cost of constructing improvements to the Issuer's sewage disposal system to address the sewer inflow/infiltration problems in the Issuer and in order to comply with the terms of a certain Interim Order of the United States District Court for the Eastern District of Michigan, dated July 2, 1993, issued against the Issuer, as now in force or hereafter revised, and paying costs incidental to the issuance of the bond. This bond is issued under the provisions of Act 320, public Acts of Michigan, 1927, as amended, and a resolution adopted by the City Council of the Issuer on September 7, 1993. The Issuer, pursuant to the provisions of said Act 320 and vote of its City Council, has pledged its full faith and credit for the prompt payment of the principal of and interest hereon. The full faith and credit pledge of the Issuer is a limited tax general obligation of the Issuer, and the Issuer is required to pay its debt service commitments on this bond as a first budget obligation from its general funds, including the collection of any ad valorem taxes which it is authorized to levy. However, the ability of the Issuer to levy such taxes is subject to charter, statutory and constitutional tax rate limitations.

In the event of a default in the payment of principal or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the MMBA's cost of providing funds (as determined by the MMBA) to make payment on the bonds of the MMBA, if any, issued to provide funds to purchase this bond but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the MMBA has been fully reimbursed for all costs incurred by the MMBA (as determined by the MMBA) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the MMBA. In the event that (for reasons other than the default in the payment of any municipal obligation purchased by the MMBA) the investment of amounts in the reserve account established by the MMBA for the bonds, if any, of the MMBA issued to provide funds to purchase this bond, fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the MMBA issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the MMBA) of such deficiency as additional interest on this bond.

Bonds are subject to redemption prior to maturity on any interest payment date on or after April 1, 1996 at par plus accrued interest to the date of redemption by the Issuer but only with the prior written consent of MMBA and only on such terms as may be required by MMBA.

Notice of redemption shall be given to the registered owner by mailing of such notice not less than thirty (30) days prior to the date fixed for redemption to the address of the registered owner as shown on the registration books of the Issuer. No further interest on this bond or portion thereof called redemption shall accrue after the date fixed for redemption, whether presented for redemption or not, provided the Issuer has money available for such redemption.

In case less than the full amount of this bond is called for redemption the registered owner shall confirm in writing the amount and date of the repayment.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF, the City of Riverview, State of Michigan, by its City Council, has caused this bond to be signed in the name of said City by the manual signature of the Mayor and to be countersigned by the manual signature of the City Clerk and the corporate seal of said city to be affixed hereto, all as of September 30, 1993.

10. The City covenants and agrees with the successive holders of the Bond that so long as the Bond remains outstanding and unpaid as to either principal or interest as follows:

- (a) The City will punctually perform all of its obligations and duties under this resolution and generally in connection with the Project, and will collect, segregate and apply all moneys received to pay debt service on the bond in the manner required under this resolution and generally in connection with the Project.
  - (b) the City will promptly and punctually perform all of its legal obligations and duties relative to the prompt payment of the principal of and interest on the Bond by virtue of the pledge of its full faith and credit for the payment thereof under the terms of this resolution.
  - (c) The City will apply and use the proceeds of sale of the Bond in the manner required by the provisions of this resolution.
  - (d) The City will maintain and keep proper books of record and account relative to the application of funds for the improvements to the sewage disposal system and all moneys received to pay costs thereof. Not later than three (3) months after the end of each year, the City shall cause to be prepared a statement, in reasonable detail, sworn to by its chief accounting officer, showing the application of the proceeds of sale of the Bond, the cash receipts during such year and the application thereof, and such other information as may be necessary to enable any taxpayer or any holder or owner of the Bond, or anyone acting in their behalf, to be fully informed as to all matters pertaining to the improvement of the sewage disposal system and application of funds therefor, or for the payment of the Bond during such year. A certified copy of said statement shall be filed with the City Clerk, and a copy shall also be sent to the MMBA.
  - (e) The City agrees that it will take or abstain from taking all actions required by the Federal Internal Revenue Code and regulation thereunder as may be necessary to retain for the interest on the Bond the exemption from direct federal income taxation, including specifically all actions and abstention from actions as required by the Non-Arbitrage and Tax Compliance Certificate and related documents furnished in connection with the Bond.
11. The proceeds of the drawn-down installment deliveries of the Bond herein authorized, except for capitalized interest, which sum shall be deposited in or credited to the Debt Retirement Fund, shall be used by the City solely and only to pay costs of the Project, including engineering, legal, capitalized interest, financing and other expenses incident thereto. Pending utilization of said funds for said purposes, said moneys, as nearly as may be practicable, may be invested, reinvested and deposited as permitted by Michigan law, which investments and deposits shall mature, or which shall be subject to redemption by the holder thereof at the option of the holder, not later than the respective dates, as estimated by the City, when such moneys will be required to pay costs of the Project. Said investments and deposits shall be selected by the City. Interest realized from such investments or deposits shall be considered as additional moneys available to pay costs of the Project. Any surplus moneys remaining after completion of the Project shall be used in accordance with the provisions of the debt.
12. The City Treasurer and the City Manager each is hereby designated to do all acts and take all other necessary procedures required to effectuate the sale, issuance and delivery of the Bond to the MMBA, including, if appropriate, reducing the amount of Bond sold and/or delivered if the City determines that the full amount thereof is not necessary to complete the Project.

All officers, agents and employees of the City are further authorized to take any action within the terms of this resolution to effectuate such sale to the MMBA.

If in the future the bond should no longer be held by the MMBA, the City shall take all steps necessary to convert the Bond to registered bonds of the denomination of \$5,000 or multiples of \$5,000 up to the amount of a single principal installment, numbered consecutively in order of authentication, engage a transfer agent for the bonds and otherwise take all actions necessary in connection with such replacement of the Bond.

13. All resolutions or orders or parts thereof in conflict with the provisions of this resolution are to the extent of such conflict hereby repealed.

14. This resolution shall become effective immediately upon its passage.

#### PURCHASE CONTRACT

The Michigan Municipal Bond Authority (the "Authority"), a public body corporate, separate and distinct from the State of Michigan, hereby offers to enter into this Purchase Contract with the Issuer named below (the "Issuer") which, upon the acceptance of this offer by the Issuer and ratification by the Authority, will be binding upon the Authority and the Issuer. This offer is made subject to acceptance on or before June 18, 1993.

Upon the terms and conditions and upon the basis of the representations, warranties, and agreements set forth herein, including those set forth of Schedule 1 hereto, the Authority hereby agrees to purchase from the Issuer, and the Issuer hereby agrees to sell and deliver to the Authority, bonds (the "Bonds") in the principal amount and with the maturities and interest rate as shown on Schedule 1 and with redemption provisions acceptable to the Authority. The purchase price for the Bonds shall be 100%. The Authority's obligation to disburse Bond proceeds shall be contingent upon funding of the State Water Pollution Control Revolving Fund created by 1988 PA 317 and 1988 PA 318. The method of payment of Bond proceeds to the Issuer shall be as set forth in the Supplemental Agreement among the Issuer, the Authority, and the State of Michigan acting through the

Department of Natural Resources.

The Issuer represents and warrants to, and agrees with, the Authority that the Issuer has, and on the Closing Date (specified below) will have, full legal right, power and authority (i) to enter into this Purchase Contract, and (ii) to sell and deliver the Bonds to the Authority as provided herein and in the resolution or ordinance authorizing the Bonds and the Issuer has duly authorized and approved the execution and delivery of and the performance by the Issuer of its obligations contained in the Purchase Contract including those set forth in Schedule 1.

At 10:00 A.M. Michigan time, on June 29, 1993 (the Closing Date"), the Issuer shall deliver the Bonds to the Authority at the offices of the Department of Attorney General, Finance and Development Division, Lansing, Michigan, together with such other documents, certificates and closing opinions as the Authority shall require (the "Closing Documents") and the Authority shall accept delivery of the Bonds and the Closing Documents and pay the purchase price for the Bonds. The Issuer shall make the Bonds and the Closing Documents available for inspection by the Authority on June 21, 1993 at a location designated by the Authority.

(the "Municipality"), the Michigan Municipal Bond Authority (the "Authority"), and the State of Michigan acting through the Department of Natural Resources (the "DNR"), in consideration for the purchase of the above captioned Bond by the Authority. This Agreement shall be in addition to any other contractual undertaking by the Municipality contained in the contract with the County issuing its bonds pursuant to the provisions of 1957 PA 185, as amended (the "County") and any other contractual undertakings contained in the Ordinance or Resolution of the County authorizing the Bond (the "Resolution").

PREMISES:

The Authority has been created and empowered under 1985 PA 227, as amended ("Act 227") to purchase obligations from Governmental Units within the State of Michigan such as the Municipality. Pursuant to the terms of the Resolution, the County intends to issue its Bond and the Municipality intends to undertake a Project as described in Exhibit C attached to this Supplemental Agreement (the "Project") which Project is a sewage treatment works or nonpoint source project, or both, as defined in the State Clean Water Assistance Act, 1988 PA 317, ("Act 317"). In order to provide assistance to the Municipality to finance the Project, the Authority has agreed to purchase the Bond upon certain conditions including receipt by the Authority of an order of approval (the "Order") issued by DNR pursuant to the provisions of Act 317. All words and terms defined in Act 227 or Act 317 and not otherwise defined in this Agreement shall have the meanings as defined in those Acts.

In consideration of these premises and their mutual agreements, the Municipality, the Authority, and DNR agree as follows:

Section 1. General Covenants. The Municipality covenants as follows with respect to Bond proceeds and the Project:

- a. Rates and charges for the services of the Project will be established, levied or collected in an amount sufficient to pay the expenses of administration, operation and maintenance of the Project and to pay the principal and interest requirements on all bonds payable from revenues of the Project, including the Bond.
- b. The Municipality will exercise its best efforts to complete the Project in accordance with the estimated date of initiation of operation of the Project as set forth in its application and to provide from fiscal resources all moneys in excess of Bond proceeds necessary to complete the Project.
- c. The Municipality will not voluntarily sell, lease, abandon, dispose of or transfer its title to the Project or any part thereof, including lands and interest in lands, by sale, mortgage, lease or other encumbrances, without prior notice to DNR and the Authority, unless all principal installments of the Bond have been paid or provisions made therefor.
- d. To the extent permitted by law, the Municipality shall take all actions within its control and shall not fail to take any action as may be necessary to maintain the exclusion of interest on the Bond from gross income for federal income tax purposes, including but not limited to, actions relating to the rebate of arbitrage earnings and the expenditure and investment of bond proceeds and moneys deemed to be Bond proceeds.
- e. The municipality will take no action which would cause the Bond to be a private activity bond. The Municipality will make no use of Bond proceeds which would make the Bond federally guaranteed.
- f. The Municipality will operate and maintain the Project in good repair, working order and operating condition.
- g. The Municipality will maintain complete books and records in accordance with Generally accepted accounting principles (GAAP) and generally accepted government auditing standards (GAGAS) relating to the operation and financial affairs of the Project. The Municipality will have an annual audit of such books of record and account for the preceding fiscal year prepared each year by a recognized independent certified public accountant, and will mail a copy of such audit or report to the Local Audit Division of the Department of Treasury of the State of Michigan and to the Authority. The Municipality will have a final project completion audit prepared as required by the DNR and filed with the Authority and the DNR.

- h. The Municipality will maintain and carry insurance on all physical properties of the Project, of the kinds and in the amounts normally carried by municipalities engaged in the operation of similar systems. All moneys received for losses under any such insurance policies shall be applied to the replacement and restoration of the property damaged or destroyed or for repayment of the Bond as provided in the Resolution.
- i. The Municipality will notify the Authority and the DNR within 30 days of the occurrence of any event which, in the judgment of the Municipality, will cause a material adverse change in the financial condition of the Project, or, if the Municipality has knowledge, of the system of which the Project is a part.
- j. The Municipality will report on its utilization of Minority Business Enterprises and Women's Business Enterprises on forms prescribed by DNR. The report will be submitted to the Municipal Facilities Section of the Surface Water Quality Division of DNR by the fifteenth day of the month following execution of this Agreement. The Municipality agrees to submit any additional or other report(s) as shall be requested by DNR within thirty (30) days following receipt of such request.
- k. The Municipality will report to the DNR, within thirty (30) days, when the actual initiation of operation of the Project ("the Actual Initiation of Operation") occurs. The Actual Initiation of Operation is the date when use of the Project begins for the purpose for which it was built.
- l. One year after the Actual Initiation of Operation of the Project, the Municipality shall report and, if true, shall certify to the Municipal Facilities Section of the Surface Water Quality Division of the DNR whether the Project meets design standards and effluent limitations. If design standards and effluent limitations have not been met, the Municipality shall submit the following:
  - 1. a corrective action report which includes an analysis of cause and the nature, scope, and cost to bring the Project into compliance; and
  - 2. a timely schedule for undertaking corrective action.

The Municipality will bear responsibility for all costs incurred in bringing the Project into compliance.

- m. The Municipality will comply with all requirements of state law, executive orders, policies, and regulations including state environmental and natural resources statutes.
- n. The attached Exhibit A is a summary of the estimated cost of the Project, which the Municipality certifies is a reasonable and accurate estimate.

**Section 2. State Statutory Requirements.** The Municipality represents and warrants to, and agree with the Authority and DNR that, in fulfillment of the statutory requirements of Act 317:

- a. The Municipality has the legal, managerial, institutional and financial capability to build, operate and maintain the Project.
- b. The Municipality has, or will have prior to the start of construction, all applicable state and federal permits required for construction of the Project.
- c. No undisclosed fact or event, or pending litigation, will materially or adversely affect the Project, the prospects for

- its completion, or the Municipality's ability to make timely repayments on the Bond.
- d. The Municipality will operate the Project in compliance with applicable state and federal laws.
  - e. The Municipality will not sell, lease abandon, or otherwise dispose of the Project without an effective assignment of obligations and the prior written approval of the DNR and the Authority.
  - f. The Municipality will maintain all Project accounts in accordance with generally accepted government auditing standards (GAGAS) as required under the Federal Water Pollution Control Act.
  - g. The Municipality will provide any necessary written authorizations to the DNR and the Authority for the purpose of examining the physical plant of the Project and for examining, reviewing, or auditing the operational or financial records of the Project, and the Municipality will require similar authorizations from all contractors, consultants, or agents with which the Municipality negotiates an agreement.
  - h. All municipal contracts with contractors will provide that the contractor and any subcontractor may be subject to a financial audit and that contracts and subcontractors shall comply with generally accepted governmental accounting standards.
  - i. All pertinent records shall be retained and available to DNR and the Authority for a minimum of 3 years after initiation of the operation of the project and if litigation, a claim, an appeal, or an audit is begun before the end of the 3-year period, records shall be retained and available until the 3 years have passed or until the legal or administrative action is completed and resolved, whichever is longer. As used in this subsection, "initiation of the operation" means the Actual Initiation of the Project, being the date certain set by the Municipality and accepted by the DNR, on which use of the Project begins for the purposes for which it was constructed.
  - j. If the Project is segmented as provided in Section 12 of Act 317, the remaining segment(s) shall be completed with or without Assistance.
  - k. The construction and initiation of operation of the Project shall proceed in a timely fashion.

Section 3. Federal Statutory Requirements. The Municipality further represents, warrants or covenants as follows in fulfillment of federal statutory requirements:

- a. The Municipality will comply with the provisions of the Clean Air Act, which requires that all federally assisted projects conform to the applicable state air quality implementation plan.
- b. The Municipality will comply with the provisions of the Coastal Zone Management Act of 1972 which requires that all federal activities be consistent with approved state coastal zone management programs, as well as the Coastal Barrier Resources Act which prohibits federal assistance to projects which encourage development within the coastal barrier resources system.
- c. The Municipality will comply with the provisions of the Endangered Species Act for protection of plants and wildlife or its critical habitat that the federal government lists as endangered or threatened.

- d. The Municipality will comply with the provisions of the Fish and Wildlife Coordination Act which requires that actions that will control or modify any natural streams or other body of water be undertaken so as to protect fish and wildlife resources and their habitats.
- e. The Municipality will comply with the Farmland Protection Policy Act which protects environmentally significant farmlands.
- f. The Municipality will comply with the Wild and Scenic Rivers Act which protects those river areas so designated.
- g. The Municipality will comply with the Safe Drinking Water Act which prohibits federal assistance if a proposed project may contaminate a sole source aquifer and result in a significant hazard to public health.
- h. The Municipality will comply with the provisions of Executive Order 11988 relating to elevation of potential effects of any actions in a floodplain and Executive Order 11990 relating to minimizing harm to wetlands.
- i. The Municipality will assist EPA and/or the State of Michigan to assure compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. 470), Executive Order 11593, and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. 469a-1 et seq.)
- j. The Municipality will comply with the Flood Insurance purchase requirements of the Flood Disaster Protection Act.
- k. The Municipality will comply with Sections 306 and 508 of the Clean Water Act, including Executive Order 11738, Administration of the Clean Air Act and the Federal Water Pollution Control Act with respect to federal contracts, grants, or loans which establishes a list of violating facilities which are ineligible for any agency contract, grant, or loan.
- l. The Municipality will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973, as amended; Section 13 of the Federal Water Pollution Act of 1972; the Age Discrimination Act of 1975; and Title IX of the Education Amendments of 1972. These laws and regulations require that no person shall be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving EPA assistance on the basis of race, color, national origin, sex, handicap or age.
- m. The Municipality will comply with Executive Orders 11625 and 12136, Women's and Minority Business Enterprise, and Executive Order 11248, Equal Employment Opportunity.
- n. The Municipality will comply with the provisions of the Davis-Bacon Act, the Copeland Act, and the Contract Work Hours and Safety Standards Act regarding labor standards for federally assisted construction subagreements.
- o. The Municipality will comply, or has already complied, with the requirement of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provides for fair and equitable treatment of persons displaced or whose property is acquired as a result of federal and federally assisted programs (see 40 CFR Part 4). These requirements apply to all interests in real property acquired for Project purposes regardless of federal participation in purchases.
- p. The Municipality will comply with the provisions of the Hatch Act which limit the political activities of employees whose

principal employment activities are funded in whole or in part with federal funds.

- q. The Municipality will comply with all applicable requirements of all other federal laws, executive orders, policies, and regulations governing the program pursuant to which the Order was issued.

Section 4. Further Covenants. The Municipality agrees to the covenants, if any, set forth in Exhibit D attached to this agreement.

Section 5. Statutory Compliance of Project. Based on the information supplied to DNR by the Municipality, DNR hereby certifies that the Project complies with the statutory requirements established by Act 317 for a project eligible for assistance.

Section 6. Advancement of Funds to Municipality. Upon receipt by the DNR from the County of a Disbursement Request in the form to be provided by DNR, the DNR shall, after review and approval of such Disbursement Request, provide for a cash draw from the EPA Automated Clearing House (ACH) Payment System established for this program. Upon receipt of the cash draw the Authority shall withdraw from the State Water Pollution Control Revolving Fund established pursuant to Act 227 moneys necessary to purchase principal installments of the Bond from the County in the amount approved in the Disbursement Request. The estimated disbursement schedule is set forth on Exhibit B.

In the event the County receives disbursements for costs which, either at the time of final disbursement or at the submission of final project cost documentation, are determined by the DNR to be ineligible for financing from the Fund, the Municipality agrees to repay the Fund all such amounts. The DNR shall notify the Municipality in writing within 30 days following the final disbursement or the submission of final project cost documentation, whichever is later, of any and all such ineligible costs (the "Repayment Amount"). The County agrees to repay the Authority the Repayment Amount within 30 days following the receipt of written notice by the DNR (the "Repayment Date"). If such amount is not received by the Authority on the Repayment Date, the Municipality agrees that the Repayment Amount shall bear interest (the "Additional Interest") from the Repayment Date to the date of payment at a variable rate determined on a quarterly basis which rate shall be equal to the average rate of interest earned by the common cash fund of the State of Michigan on its investments during the preceding quarter or such other rate as shall be determined by resolution of the Board of the Authority but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for the Repayment Amount. The Repayment Amount when received by the Authority shall be applied against and treated as a prepayment of the next principal payment coming due on the Municipality's Bond.

Section 7. Termination of Assistance. In the event DNR issues an order under Section 15 or 16 of Act 317 recommending that assistance to the Municipality be terminated for the Project, the Authority shall cease to advance funds to the Municipality pursuant to Section 6 of this Agreement. Any termination of assistance under this Agreement shall not excuse or otherwise affect the Municipality's obligation to repay principal installments of the Bond previously disbursed to the Municipality or interest or premiums due thereon. Any termination of assistance under this Agreement shall not relieve the Municipality of any requirements that may exist under state or federal law to construct the Project.

Section 8. Breach of Agreement. In regard to Section 1 through 4 of this Agreement, if any of the representations or warranties are untrue, or if the Municipality shall fail to perform or comply with any of the covenants of these Sections, it shall be a material breach of this Agreement.

No failure by the Authority or DNR to insist upon strict performance of any covenant, warranty or representation in these Sections, nor any failure on the part of the Authority or DNR to

declare a breach, shall constitute a waiver of any such breach or a relinquishment for the future of the right to insist upon and to enforce by any appropriate legal remedy strict compliance with all of the covenants, warranties or representations, or of the right to exercise any such right or remedies, if any breach of the Municipality continues or is repeated.

Upon any such breach in addition to any other legal remedy the DNR or Authority may have, the DNR can provide written notice to the Authority of such breach and the Authority shall cease to advance funds to the Municipality pursuant to Section 6 of this Agreement. Any termination of assistance under this Agreement shall not excuse or otherwise affect the Municipality's obligation to repay principal installments of the Bond previously disbursed to the Municipality plus interest and premiums due thereon. Any termination of assistance under this Agreement shall not relieve the Municipality of any requirements that may exist under state or federal law to construct the Project.

Section 9. Applicable Law and Nonassignability. This Agreement shall be governed by the law of the State of Michigan. This Agreement shall not be assigned by the Municipality.

Section 10. Severability. If any clause, provision or section of this Agreement be ruled invalid or unenforceable by any court of competent jurisdiction, the invalidity or unenforceability of such clause, provision or section shall not affect any of the remaining clauses, provisions or sections.

Section 11. Execution of Counterparts. This Agreement may be executed in several counterparts each of which shall be regarded as an original and all of which shall constitute one and the same document.

Resolved by Councilman Weaks, supported by Councilwoman Blanchette, that Council adopt the following Resolution authorizing the Filing with the Treasury and Confirm and Restating Declaration of Intent to Reimburse for Expenditures - for the future sale of \$1,700,000 in Judgement Bonds for the Sanitary Sewer Remediation as presented and recommended by the City Manager.

WHEREAS, on September 7, 1993, the City Council of the City of Riverview, County of Wayne, State of Michigan (the "City") authorized issuance and sale of bonds to the Michigan Municipal Bond Authority (the "Authority") in State Revolving Loan Fund ("SRLF") pursuant to Act 320, Public Acts of Michigan, 1927, as amended, in an amount not to exceed Ten Million Eight Hundred Sixty Thousand Dollars (\$10,860,000), for the purpose of defraying part of the cost of improvements to address sewer inflow/infiltration problems in the City (the "Project"); and

WHEREAS, the City Council of the City of Riverview, County of Wayne, State of Michigan (the "City"), intends to authorize the issuance and sale of additional bonds pursuant to Act 320, Public Acts of Michigan, 1927, as amended, in an amount not to exceed One Million Seven Hundred Thousand Dollars (\$1,700,000), for the purpose of paying (i) the non-qualifying costs of the Project not funded by the Authority's SRLF program and (ii) the Georgia Street Demonstration project (together, the "Additional Project"); and

WHEREAS, prior to issuance of bonds the City must either receive prior approval of the bonds from the Department of Treasury (the "Department") of the State of Michigan (the "State") or be exempt from prior approval as provided in Section 27 of Act 94, Public Acts of

Michigan, 1933, as amended, or Chapter III, Section 11 of Act 202, Public Acts of Michigan, 1943, as amended; and

WHEREAS, in order to be exempt from prior approval, the City must notify the Department of the State of the City's intent to issue the bonds.

WHEREAS, the City Council desires to re-affirm its intent to be in compliance with the "reimbursement rules" of the Internal Revenue Service (the "IRS") and therefore makes the following declarations for the purpose of complying with the "reimbursement rules" of Treas. Reg. 1.150-2 pursuant to the Internal Revenue Code of 1986, as amended (the "Code").

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. Sec. 1.150-2 pursuant to the Internal Revenue Code of 1986, as amended:
  - (a) As of the date hereof, the City reasonably expects to reimburse itself for the expenditures described in (b) below with proceeds of debt to be incurred by the City.
  - (b) The expenditures described in this paragraph (b) are for the costs of acquiring and constructing the Additional Project with expenditures were or will be paid not earlier than to sixty (60) days prior to the date hereof.
  - (c) The maximum principal amount of debt expected to be issued for the Additional Project, including issuance costs, is \$1,700,000.
  - (d) A reimbursement allocation, i.e. an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Additional Project to reimburse the City for a capital expenditure made pursuant to this Resolution, of the expenditures described in (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Additional Project is placed in service or abandoned, but in no event more than three (3) years after the original expenditure is paid.
  - (e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. Sec. 1.150-1(h), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. Sec. 1.150-2(c) under general Federal income tax principles (as determined at the time the expenditure is paid)).
  - (f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas Reg. Sec. 1.150-2 (h) with respect to abusive uses of such proceeds, including, but not limited to, using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. Sec. 1.148-1) within one year of the reimbursement allocation described in (d) above.
  - (g) Expenditures for the Additional Project to be reimbursed from the proceeds of the borrowing for purposes of this Resolution do not include costs for the issuance of the debt on an amount not in excess of the lesser of \$100,000 or five percent of the proceeds of the borrowing, or preliminary expenditures not exceeding twenty percent of the issue price of the borrowing, within the meaning of Treas. Reg. Sec. 1.150-2(f) (such

preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Additional Project, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

2. The Treasurer and City Manager of the City each is authorized to notify the Department of the City's intent to issue the bonds described in the preamble to this resolution, to pay the related fee and to request an order providing an exception for the bonds from prior approval by the Department.
3. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same are hereby rescinded.

Resolved by Councilman Capezza, supported by Councilman Weaks, that Council adopt the following resolution granting additional Boat Ramp Permits to BASF for use of the Riverview Boat Ramp facility by BASF employees on a trial basis for one year.

WHEREAS, the BASF Corporation and the City of Riverview entered into a lease agreement in 1985 for the development and operation of a municipal boat ramp facility, and

WHEREAS, the BASF Corporation, through this lease agreement, extended a significant financial contribution for the original development of the boat ramp facility and parking lot, and

WHEREAS, in consideration of the cooperation and financial contribution extended by the BASF Corporation involving this project, the City of Riverview extended a total of eighteen (18) boat ramp permits to the BASF Corporation for use by BASF employees, and

WHEREAS, in 1992, the BASF Corporation requested that the total number of boat ramp permits for BASF employees be extended from eighteen (18) to thirty (30), and

WHEREAS, the City Council deems this authorization for additional permits to be in the best interest of the City of Riverview in keeping with the mutual cooperation and assistance of the BASF Corporation in the development and promotion of the Riverview Boat Ramp facility.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

1. The BASF Corporation is hereby granted an increase in the total number of boat ramp permits for use by BASF employees from eighteen (18) to thirty (30).

RESOLUTIONS:

Resolved by Councilman Capezza, supported by Councilman Weaks, that the following Resolution authorizing and directing City Administration to undertake Measures to Restore Local Rate Regulation of Cable Television be adopted.

- WHEREAS, Congress has enacted legislation restoring local control over cable television basic rates where there does not exist effective competition; and
- WHEREAS, such local control must be effectuated through a certification procedure under the auspices of the Federal Communications Commission; and
- WHEREAS, Congress has also authorized the FCC to regulate intermediate basic cable television rates under certain circumstances where a complaint is initiated by a person or local government; and
- WHEREAS, Congress has also established consumer service standards through the FCC which are enforceable by local government only in the event that the local government elects to adopt regulations mandating the cable operator to comply with such standards; and
- WHEREAS, the City of Riverview, acting through its City Council, finds that local control over cable television basic rates and customer service standards and FCC oversight of the intermediate basic cable rates are in the best interest of its residents;
- NOW, THEREFORE, BE IT RESOLVED that the City Administration is directed and authorized to file the appropriate documents with the Federal Communications Commission to institute FCC oversight of the intermediate basic rates and local control over basic cable television rates; and
- BE IT FURTHER RESOLVED that the City Administration is directed and authorized to prepare ordinances for Council consideration to establish procedures for such local basic rate regulation and to adopt customer service standards.

WHEREAS, in August, 1993, four (4) bids were received from vendors (Thalner Electronic Laboratories, Inc., Communication Systems Group, Roscor Michigan, Inc., and Arbor Video Group, Inc.) responding to Bid #1166(b), for the purchase of cable equipment for the Community Access Channel in the City of Riverview; and

WHEREAS, the purchase prices of those four cable equipment systems were as follows:

Thalner Electronic Laboratories, Inc.		\$79,995.00
Communication Systems Group		59,995.00
Roscor Michigan, Inc.		52,438.00
Arbor Video Group, Inc.	Option A	14,050.00
	Option B	11,124.00

WHEREAS, Arbor Video Group, Inc. bid only on the following items: a video camera, tripod and batteries, and its bid did not meet the requirements set forth in the specifications; and

WHEREAS, the Riverview Purchasing Manual in Section II, 2.2(L) provides that:

"When the bid award is not given to the lowest bidder meeting specifications, a full and complete statement of the reasons for placing the order elsewhere will be prepared by the department head and submitted to the Purchasing Agent for submission to City Council. A formal resolution stating reasons for award to other than the lowest bidder meeting specifications shall be prepared and submitted for consideration by City Council."

WHEREAS, the Purchasing Agent and Director of Community Development, have jointly prepared a Request for Council Action, dated September 27, 1993, which has been submitted to and reviewed by Council setting forth in detail their reasons for placing the order with Communication Systems Group, which is not the lowest bidder; and

WHEREAS, during the demonstration procedures on September 13, 1993, it was revealed that Communication Systems Group editing equipment and software had the following capabilities:

1. a fully integrated editing system and an editing system which had been extensively tested to perform satisfactorily over time;
2. the necessary monitoring capabilities to assure quality production;
3. the equipment and software had been substantially tested;
4. a well-established training and technical support network had been developed over the last five (5) years; and

- WHEREAS, the editing equipment and software system from Roscor Michigan, Inc. did not have the same capabilities during the September 13, 1993 demonstration portion of the bid process; and
- WHEREAS, Roscor Michigan, Inc., as the low bidder requested and was granted an opportunity to demonstrate their upgraded software on September 27, 1993; and
- WHEREAS, Roscor Michigan, Inc., was unable to demonstrate the new software due to technical and logistical problems; and
- WHEREAS, the City's Cable Commission has recommended that the purchase of the cable equipment be from Communication Systems Group at their special meeting of September 22, 1993; and
- WHEREAS, Council has reviewed the documents and determined that it is in the best interests of the City to award the bid for the purchase of cable equipment for the Community Access Channel in the City of Riverview to Communication Systems Group;

NOW, THEREFORE, BE IT RESOLVED by the City Council for the City of Riverview, Michigan, that Bid #1166(b) for the purchase of cable equipment for the Community Access Channel of the City of Riverview be awarded to Communication Systems Group for the purchase price of Fifty-Nine Thousand, Nine Hundred Ninety-Five Dollars (\$59,995.00).

Carried unanimously.

ORDINANCES:

Resolved by Councilman Capezza, supported by Councilman Weaks, that the City Clerk be directed to give the Third and Final Reading of Proposed Ordinance #415 (Cable Television Rate Regulations) in full. Carried unanimously.

The Clerk read said Ordinance.

Proposed Ordinance #415

AN ORDINANCE TO AMEND THE CODE  
OF ORDINANCES OF THE CITY OF  
RIVERVIEW BY ADOPTION OF A NEW  
ARTICLE XI, CABLE TELEVISION RATE

REGULATION UNDER CHAPTER 2, ADMINISTRATION, TO PROVIDE REGULATIONS AND PROCEDURES FOR BASIC CABLE TELEVISION RATE REGULATION

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE I. Adoption. The Code of Ordinances for the City of Riverview is hereby amended by the adoption of a new Article XI under Article 2, to read as follows:

CHAPTER 2.

ADMINISTRATION

Article XI. Cable Television Rate Regulation

Section 2.601. Definitions. For the purposes of this Article, the following definitions shall apply:

- (1) "Act" shall mean the Communications Act of 1934, as amended (and specifically as amended by the Cable Television Consumer Protection and Competition Act of 1992, Pub. L.102-385), and as may be amended from time to time;
- (2) "FCC" shall mean the Federal Communications Commission;
- (3) "FCC Rules" shall mean all rules of the FCC promulgated from time to time pursuant to the Act;
- (4) "basic cable Service" shall mean "basic service" as defined in the FCC Rules; and any other cable television service which is subject to rate regulation by the City pursuant to the Act and the FCC Rules;
- (5) "associated equipment" shall mean all equipment and services subject to regulation pursuant to 47 CFR Sub-section 76.923; and
- (6) an "increase in rates" shall mean an increase in rates or a decrease in programming or customer services. All other words and phrases used in this Article shall have the same meaning as defined in the Act and FCC Rules.

Section 2.602. Purposes: Interpretation. The purpose of this Article is to: (1) adopt regulations consistent with the Act and the FCC Rules with respect to basic cable service rate regulation; and (2) prescribe procedures to provide a reasonable opportunity for consideration of the views of interested parties in connection with basic cable service rate regulation by the City. This Article shall be implemented and interpreted in a manner consistent with the Act and FCC Rules.

Section 2.603. Rate Regulations Promulgated By FCC. In connection with the regulation of rates for basic cable service and associated equipment, the City of Riverview shall comply with all FCC Rules, as amended.

Section 2.604. Filing: Additional Information: Burden of Proof.

- (1) A cable operator shall submit its schedule of rates for the basic service tier and associated equipment or a proposed increase in such rates in accordance with the Act and the FCC Rules. The cable operator shall include as part of its submission such information as is necessary to show that its schedule of rates or its proposed increase in rates complies with the Act and the FCC Rules. The cable operator shall file twenty (20) copies of the schedule or proposed increase with the City Clerk. For purposes of this Article, the filing of the cable operator shall be deemed to have been made when at least twenty (20) copies have been

received by the City Clerk. The City Council may, by resolution or otherwise, adopt rules and regulations prescribing the information, data and calculations which must be included as part of the cable operator's filing of the schedule of rates or a proposed increase.

- (2) In addition to information and data required by rules and regulations of the City pursuant to Section 2.604(1) above, a cable operator shall provide all information required by the City Cable Administrator in connection with the City review and regulations existing rates for the basic service tier and associated equipment or a proposed increase in these rates. The City Cable Administrator may establish deadlines for submission of the requested information and the cable operator shall comply with such deadlines.
- (3) A cable operator has the burden of proving that its schedule of rates for the basic service tier and associated equipment or a proposed increase in such rates complies with the Act and the FCC

Rules including without limitation, 47 USC Subsection 543 and 47 CFR Subsection 76.922 and subsection 76.923.

Section 2.605. Proprietary Information.

- (1) In this Article, any rules or regulation adopted by the City pursuant to Section 2.604(1), or any request for information pursuant to Section 2.604(2) require the production of proprietary information, the cable operator shall produce the information. However, at the time the allegedly proprietary information is submitted, a cable operator may request that specific, identified portions of its response be treated as confidential and withheld from public disclosure. The request must state the reasons why the information should be treated as proprietary and the facts that support those reasons. The request for confidentiality will be granted if the City determines that the preponderance of the evidence shows that non-disclosure is consistent with the provisions of the Freedom of Information Act, 5 USC Subsection 552.

The City shall place in a public file for inspection any decision that results in information being withheld. If the cable operator requests confidentiality and the request is denied; a) where the cable operator is proposing a rate increase, it may withdraw the proposal, in which case the allegedly proprietary information will be returned to it; or b) the cable operator may seek review within five (5) working days of the denial in any appropriate forum. Release of the information shall be stayed pending review.

- (2) Any interested party may file a request to inspect material withheld as proprietary with the City. The City shall weigh the policy considerations favoring non-disclosure against the reasons cited for permitting inspection in light of the facts of the particular case. It will then promptly notify the requesting entity and the cable operator that submitted the information as the disposition of the request. It may grant, deny or condition a request. The requesting party or the cable operator may seek review of the decision by filing an appeals with any appropriate forum. Disclosure shall be stayed pending resolution of any appeal.
- (3) The procedures set forth in this Section shall be construed as analogous to and consistent with the rules of the FCC regarding requests for confidentiality including, without limitation, 47 CFR subsection 0.459.

Section 2.606. Public Notice; Initial Review of Rates. Upon the filing of twenty (20) copies of the schedule of rates or the proposed increase in rates pursuant to Section 2.604(1) above, the City Clerk shall publish a public notice in a newspaper of general circulation in

the City which shall state that: (1) the filing has been received by the City Clerk and (except those parts which may be withheld as proprietary) is available for public inspection and copying; and (2) interested parties are encouraged to submit written comments on the filing to the City Clerk not later than seven (7) days after the public notice is published. The City Clerk shall give notice to the cable operator of the date, time and place of the meeting at which the City Council shall first consider the schedule of rates or the proposed increase. This notice shall be mailed by first-class mail at least three (3) days before the meeting. In addition, if a written staff, commission or consultant's report on the schedule of rates or the proposed increase is prepared for consideration of the City Council, then the City Clerk shall mail a copy of the report by first-class mail to the cable operator at least three (3) days before the meeting at which the City Council shall first consider the schedule of rates or the proposed increase.

Section 2.607. Tolling Order. After a cable operator has filed its existing schedule of rates or a proposed increase in these rates, the existing schedule of rates will remain in effect or the proposed increase in rates will become effective after thirty (30) days from the date of filing under Section 2.604(1) above unless the City Council (or other properly authorized body or official) tolls the thirty (30) day deadline pursuant to 47 CFR subsection 7.6933 by issuing a brief written order, by resolution or otherwise, within thirty (30) days of the date of filing. The City Council may toll the thirty (30) day deadline for an additional ninety (90) days in cases not involving cost-of-service showing and for an additional one hundred fifty (150) days in cases involving cost-of-service showings.

Section 2.608. Public Notice; Hearing on Basic Cable Service Rates Following Tolling of Thirty (30) Day Deadline. If a written order has been issued pursuant to Section 2.607 and 47 CFR subsection 7.6933 to toll the effective date of existing rates for the basic service tier and associated equipment or a proposed increase in these rates, the cable operator shall submit to the City any additional information required or requested pursuant to Section 2.604 of this Article. In addition, the City Council shall hold a public hearing to consider the comments of interested parties within the additional nine (90) day or one hundred fifty (150) day period, as the case may be. The City Clerk shall publish a public notice of the public hearing in a newspaper of general circulation within the City which shall state (1) the date, time, and place at which the hearing shall be held; (2) interested parties may appear in person, by agent, or by letter at such hearing to submit comments on or objections to the existing rates or the proposed increase in rates; and (3) copies of the schedule of rates or the proposed increase in rates and related information (except those parts which may be withheld as proprietary) are available for inspection or copying from the office of the Clerk. The public notice shall be published not less than fifteen (15) days before the hearing. In addition, the City Clerk shall mail by first-class mail a copy of the public notice to the cable operator not less than fifteen (15) days before the hearing.

Section 2.609. Staff, Commission Or Consultant Report; Written Response. Following the public hearing the City Cable Administrator shall cause a report to be prepared for the City Council which shall (based on the filing of the cable operator, the comments or objections of interested parties, information requested from the cable operator and its response, staff or consultant's review and other appropriate information) include a recommendation or the consideration of a decision of the City Council pursuant to Section 2.610. The City Clerk shall mail a copy of the report to the cable operator by first-class mail not less than twenty (20) days before the City Council acts under Section 2.610. The cable operator may file a written response to the report with the City Clerk. If at least twenty (20) copies of the response are filed by the cable operator with the City Clerk within ten (10) days after the report is mailed to the cable operator, the City Clerk shall forward it to the City Council.

Section 2.610. Rate Decisions and Orders. The City Council shall issue a written order, by resolution or otherwise, which in whole or in part, approves the existing rates for basic cable service and associated equipment or a proposed increase in such rates, denies the existing rates or proposed increase, orders a rate reduction, prescribes a reasonable rate, allows the existing rates or proposed increase to become effective subject to refund or orders other appropriate relief, in accordance with the FCC Rules. If the City Council issues an order allowing the existing rates or proposed increase to become effective subject to refund, it shall also direct the cable operator to maintain an accounting pursuant to 47 CFR Subsection 76.933. The order specified in this Section shall be issued with ninety (90) days of the tolling under Section 2.607 in all cases not involving a cost-of-service showing. The order shall be issued within one hundred fifty (150) days after the tolling order under Section 2.607 in all cases involving a cost-of-service showing.

Section 26.11. Refunds; Notice. The City Council may order a refund to subscribers as provided in 47 CFR Subsection 76.942. Before the City Council orders any refund to subscribers, the City Clerk shall give at least seven (7) days written notice to the cable operator by

first-class mail of the date, time and place at which the City Council shall consider issuing a refund order and shall provide an opportunity for the cable operator to comment. The cable operator may appear in person, by agent, or by letter at such time for the purpose of submitting comments to the City Council.

Section 26.12. Written Decisions; Public Notice. Any order to the City Council pursuant to Section 2.610 or Section 2.611 shall be in writing, shall be effective upon adoption by the City Council, and shall be deemed released to the public upon adoption. The Clerk shall publish a public notice of any such written order in a newspaper of general circulation within the city which shall: (1) summarize the written decision; and (2) state that copies of the text of the written decision are available for inspection or copying from the office of the Clerk. In addition, the City Clerk shall mail a copy of the text of the written decision to the cable operator by first-class mail.

Section 2.613. Rules and Regulations. In addition to rules promulgated pursuant to Section 2.604, the City Council may, by resolution, ordinance or otherwise adopt rules and regulations for basic cable service rate regulation proceedings (including, without limitation, the conduct of hearings), consistent with the Act and the FCC Rules.

Section 2.614. Failure to Give Notice. The failure of the City Clerk to give the notices or to mail copies of reports as required by this Article shall not invalidate the decision or proceedings of the City Council.

Section 2.615. Additional Hearings. In addition to the requirements of this Article, the City Council may hold additional public hearings upon such reasonable notice as the City Council, in its sole discretion, shall prescribe.

Section 2.616. Additional Powers. The City shall possess all powers conferred by the Act, the FCC Rules, the cable operator's franchise, and all other applicable law. The powers exercised pursuant to the Act, the FCC Rules, and this Article shall be in addition to the powers conferred by law or otherwise. The City may take any action not prohibited by the Act and the FCC Rules to protect the public interest in connection with basic cable service rate regulation.

Section 21.617. Failure to Comply; Remedies. The City may pursue any and all legal and equitable remedies against the cable operator (including, without limitation, all remedies provided under a cable operator's franchise with the City) for failure to comply with the Act, the FCC Rules, or any orders or determinations of the City pursuant to this Article, any requirements of this Article, or any rules or regulations promulgated hereunder. Subject to applicable law, failure to comply with the Act, the FCC Rules, or any orders or determinations

of the City pursuant to this Article, any requirements of this Article or any rules and regulations promulgated hereunder, shall also be sufficient grounds for revocation or denial of renewal of a cable operator's franchise.

Section 2.618. Conflict. In the event of any conflict between this Article and any other Section or provision of the City code, the provisions of this Article shall control.

ARTICLE II. Penalty. A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

ARTICLE III. Severability. Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE IV. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

#### PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel asked if anyone wished to address Council.

#### RESOLUTIONS:

Resolved by Councilman Trombley, supported by Councilwoman Blanchette, that the following Resolution regarding North American Free Trade Agreement be adopted.

WHEREAS, the currently proposed North American Free Trade Agreement would be a disaster for workers in both countries. It would destroy jobs in the United States, while perpetuating exploitation of workers and inflicting widespread damage on the environment in Mexico and the United States. The beneficiaries would be multinational corporations and large banks; and

WHEREAS, this agreement would open a market for other countries such as Korea and Japan and other European countries to establish plants in Mexico for export to the United States, further eroding U.S. jobs plus the U.S. economy; and

WHEREAS, there is a preview of what an agreement would bring. It is the maquiladoras, the U.S.-owned plants that operate inside Mexico along the border but produce goods exported back here; and

WHEREAS, the pay averages 60 to 80 cents per hours, barely a subsistence wage. Many workers live in shacks made of packing materials, with no running water, sewers, or electricity. The air pollution and toxic waste generated by maquiladoras are among the worst in the world; and

WHEREAS, the Wall Street Journal has noted that "[the maquiladoras'] very success is helping turn much of the border region into a sinkhole of abysmal living conditions and environmental degradation"; and

WHEREAS, the maquiladoras have flourished because U.S. companies have seen an opportunity to pay Mexico workers a fraction of the wages that U.S. workers receive, and to evade the standards for occupational safety, worker's compensation and environmental production that are required here; and

WHEREAS, the supporters NAFTA say it is a "ladder to prosperity" for Mexican workers; but all of the bottom rungs are missing. The reason that U.S. corporations have established facilities in Mexico is not to promote economic development, or raise the standard of living and level of consumption there; it is to increase corporate profits; and

WHEREAS, as for the U.S. workers, hundreds of thousands have already lost their jobs to the maquiladoras. Hundreds of thousands more would see their jobs exported to plants throughout Mexico with the event of a free trade agreement; and

WHEREAS, one of the biggest disadvantages of an unrestricted free trade agreement is that it would not include measures that would make a useful contribution to economic development in Mexico such as significant debt relief; more humanitarian and development assistance; higher wages and benefits for Mexican workers comparable to U. S. levels; greater cooperation on environmental questions and real democracy in Mexico; real right to join free and Democratic Unions; and programs to stem capital flight from Mexico; and

NOW THEREFORE, BE IT RESOLVED, that the City Council of the City of Riverview strongly supports such measures and strongly opposes any trade agreement devoid of these measures. We should work for closer ties with our neighbors, but not at the expense of working people and the environment; and

That the City Council of the City of Riverview urges Congress to reject the currently proposed NAFTA.

Ayes: Councilmen Capezza, Koch, Trombley, Councilwomen Blanchette, Thiede

Nays: Mayor Rotteveel, Councilmen Weaks  
Motion carried.

Resolved by Councilman Weaks, supported by Councilwoman Blanchette, that the following Resolution establishing Rates for Riverview Highlands 1993/94 Ski Season be adopted.

WHEREAS, The City Council has adopted a Council Policy requiring the periodic review of Ski Area rates; and

WHEREAS, A study of market conditions and customer needs have been concluded by staff; and

WHEREAS, the City Council has determined that the rates set forth herein are appropriate;

NOW, THEREFORE, BE IT RESOLVED that the following:

BOND FINANCING

WHEREAS, the County of Wayne, pursuant to the authority of Act 185 entered into a certain contract dated March 1, 1962, which contract has been amended from time to time (the "Downriver Agreement"), with the Local Unit and other communities within Wayne County for the purposes of establishing a Wastewater Control System commonly known as the Downriver Sewage Disposal System (the "System") to address the immediate public health and welfare needs of all or a portion of the residents of those communities, namely, the cities of Allen Park, Belleville, Dearborn Heights, Ecorse, Lincoln Park, River Rouge, Riverview, Romulus (then a Township), Southgate, Taylor (then a Township) and Wyandotte and the Townships of Brownstown and Van Buren (referred to collectively as the "Local Units"); and

WHEREAS, in order to operate the System in accordance with law, including sewerage systems of Local Units tributary to the System, it is necessary to obtain a National Pollution Discharge Elimination System Permit (an "NPDES Permit") issued pursuant to the Michigan Water Resources Commission Act, Act 245, Public Acts of Michigan, 1929, as amended, and the Federal Clean Water Act, 33 U.S.C. 1251, et seq.; and

WHEREAS, Wayne and the Local Units are all defendants named in a certain action and complaint filed by both the United States acting through its Environmental Protection Agency ("USEPA") and the State of Michigan acting through its Department of Natural Resources ("MDNR"), as plaintiffs, entitled United States, et al., vs. Wayne County, et al., filed in United States District Court, Eastern District of Michigan, Southern Division, civil action, case no. 87-CV-70992 DT, before the Honorable Judge Feikens (the "Federal Court Action"), wherein it is alleged that the defendants are responsible for certain violations of applicable NPDES Permit provisions and requesting that the defendants be ordered to finance and construct such additional improvements to the System as are needed in order that the System may be brought into compliance with the requirements of the Federal Clean Water Act and the Michigan Water Resources Commission Act; and

WHEREAS, additional regulations and requirements have recently been enacted by the USEPA with respect to the disposition and disposal of sludge, a by-product of wastewater treatment, (the "503 Regulations") that will require additional improvements and emission control systems be planned, designed and installed at the System's sewage disposal treatment plant; and

WHEREAS, the Honorable Judge Feikens, in accordance with law, including, but not limited to, Act 185 and Act 320, Public Acts of Michigan 1927, as amended ("Act 320"),

has entered a certain Interim Order dated July 2, 1993, (the "Interim Order") and has noticed for hearing entry of a certain Consent Decree (the "Consent Decree") and a certain Downriver Sewage Disposal System 1993 Financing Plan and Court Order (the "1993 Financing Plan And Court Order") in the Federal Court Action, requiring that certain improvements to the System be planned, designed, acquired, constructed and financed all in accordance with a certain schedule attached as Exhibit A to the 1993 Financing Plan And Court Order and a certain Project Plan as described in Exhibit B to the 1993 Financing Plan and Court Order (the "Project Plan") which Project Plan has been formulated by the defendants working with the assistance of the Court-Appointed Monitor, the Court-appointed Expert Witness and Master and in consultation with the USEPA and MDNR and which Project Plan has been reviewed and approved by the USEPA and the MDNR. The Interim Order, the Consent Decree and the 1993 Financing Plan And Court Order shall be referred to collectively as the "Orders"; and

WHEREAS, the Interim Order and the Consent Decree require the legislative bodies of the defendants to adopt such resolutions or ordinances and to approve amendments or supplements to existing contracts for the System or to execute new contracts or to accept assessment obligations or allocations of cost or to approve plans and to enter into or approve construction contracts and to issue and sell bonds to plan, design, acquire, construct and finance the elements of the Project Plan as approved by the USEPA and the MDNR in order to comply with the requirements of law and applicable NPDES Permits; and

WHEREAS, it is immediately necessary and imperative, for the public health and welfare of the present and future residents of Wayne and the Local Units that the improvements for the System required by the Orders and the Project Plan (the "Improvements") be planned, designed, acquired, constructed and financed to service the Local Units, as a part of the System; and

WHEREAS, the consulting engineers for Wayne estimate a total cost of approximately One Hundred Eighty Five Million Dollars (\$185,000,000) to plan, design, acquire, construct and finance all of the Improvements, of which approximately One Hundred Fifty Five Million Dollars (\$155,000,000) are anticipated to be financed through the Michigan Water Pollution Control Revolving Loan Fund Program (the "Revolving Loan Fund"), and the Michigan Municipal Bond Authority (the "Authority"); and

WHEREAS, the consulting engineers for Wayne estimate a total cost of approximately Thirty Million Dollars (\$30,000,000) to plan, design, acquire, construct and finance the 1994 Improvements as described in the 1993 Financing Plan and Court Order, which 1994 Improvements are included within, and not in addition to, the Improvements; and

WHEREAS, it is anticipated that a portion of the 1994 Improvements may become eligible for financing through the Revolving Loan Fund and the Authority; and

WHEREAS, in order to meet the requirements of the Orders, the Local Units and Wayne need to plan, design, acquire, construct and finance the 1994 Improvements and the Local Units need to contract with Wayne as their

agent to supply the planning, designing, acquisition, construction and financing of the 1994 Improvements required for the System and to apply as their agent for loans from the Revolving Loan Fund and the Authority; and

WHEREAS, in order to meet the requirements of the Orders, certain of the Local Units, including without limitation, the Cities of Allen Park, Ecorse and Taylor and the Township of Van Buren need to plan, design, acquire, construct and finance improvements to local sewage systems which are under the jurisdiction and control of each such Local Unit (respectively, the "1994 Local Jurisdiction Improvements") and to contract with Wayne to supply, on their behalf, the planning, designing, acquisition, construction and financing of their respective 1994 Local Jurisdiction Improvements and to apply as their agent for the loans from the Revolving Loan Fund and the Authority; and

WHEREAS, under the provisions of the Orders and/or anticipated amended and supplemental contracts, each Local Unit will be obligated to pay its portion of the local-share costs of the 1994 Improvements in accordance with the allocations as set forth in Exhibit C to the 1993 Financing Plan and Court Order or such other allocations as may be required by court order, and, except as otherwise provided, all parties will be obligated to pay such costs, if any, in cash; and

WHEREAS, any Local Unit which does not pay its portion of the local-share costs of the Improvements in cash will be obligated, pursuant to the 1993 Financing Plan and Court Order and/or applicable court order or contracts, to finance its portion of such 1994 Improvements through the issuance of its bonds, by Wayne as its agent, in accordance with Act 320. Each Local Unit will be obligated, pursuant to the 1993 Financing Plan and Court Order and/or applicable court order to contract to make periodic payments to Wayne in accordance with Act 320 sufficient to repay such Local Unit's share of the principal of and interest when due on the bonds (the "Debt Service Payments"), and each will further be obligated to levy taxes, without limit as to rate or amount, to meet its Debt Service Payments, if funds for such purpose are not available from other sources; and

WHEREAS, Wayne proposes to authorize the issuance of such bonds, pursuant to Act 320 in anticipation of and secured primarily by the Debt Service Payments, to provide the necessary funds to pay the local-share costs of the Local Units for planning, designing, acquiring, constructing, and financing the 1994 Improvements and other things necessary to the authorization and issuance of said bonds under Act 320 having been provided for, and Wayne being not empowered and desirous of authorizing the issuance of said bonds; and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Local Unit and all agents and employees shall cooperate with Wayne to the end that Wayne may issue, as agent on behalf of the Local Unit and as promptly as possible, bonds in one or more series in an aggregate amount not to exceed Two Million One Hundred Seventeen Thousand Dollars, which amount represents the Local Unit's share of the cost of the 1994 Improvements (the "Local Share") which Local Share, together with other amounts available to the other Local Units, will be sufficient to pay the estimated total cost of the 1994 Improvements. Such bonds shall

be retired out of payments made by the Local Unit to Wayne as agent of the Local Unit in amounts fully sufficient to pay the Local Share of principal of and interest on the bonds. Wayne's full faith and credit as additional security for the bonds is also requested.

2. The Local Unit hereby agrees to reimburse Wayne for all expenses incurred in connection with its Local Share, should the acquisition, construction and financing of its Local Share not be completed for any reason whatsoever.
3. The Local Unit hereby authorizes Wayne to notify the Michigan Department of Treasury of Wayne's intent to issue the bonds described herein on behalf of the Local Unit, to pay any related fees and to request an order, if applicable, providing an exception for the bonds from prior approval by the Department of Treasury and to request such other waivers from the Department of Treasury as the Local Unit or Wayne deems necessary. The Mayor be and is hereby authorized to execute a similar request on behalf of the Local Unit.
4. It is anticipated that the improvements not paid in cash or financed by these Bonds will be financed by Bonds issued by Wayne, as agent for the Local Unit, and purchased by the Revolving Loan Fund and the Authority. Wayne, as agent for the Local Unit, is authorized to include the Local Share of the 1994 Improvements deemed eligible for the Revolving Loan Fund in that anticipated bond issue. Wayne is further authorized to submit Part 1 of the Application for Assistance to the Revolving Loan Fund and the Authority as agent for the Local Unit with respect to the Local Share of 1994 Improvements. Any proceeds received from that anticipated bond issue with respect to the Local Share of the 1994 Improvements shall (i) if permissible under the Revolving Loan Fund, be paid to the Local Unit to reimburse it for costs paid in cash and directly related to the 1994 Improvements or (ii) be deposited into the debt retirement fund established by Wayne in connection with the bonds and used solely to pay the principal of and interest on the outstanding bonds directly related to the Local Share of the 1994 Improvements included in such anticipated bond issue.
5. The 1993 Financing Plan and Court Order is hereby approved, ratified and confirmed, and the Mayor and Clerk are hereby authorized and directed to execute and deliver the same in substantially the form attached hereto to Wayne for and on behalf of the Local Unit.
6. The Mayor, the Clerk and all other officials of the Local Unit shall take all other actions necessary or appropriate and shall cooperate with Wayne, the Department of Treasury, Rating Agencies and other parties to issue the bonds timely and in accordance with all the terms and conditions of the 1993 Financing Plan and Court Order.
7. A certified copy of this resolution shall be transmitted to Wayne, and Wayne is hereby requested to take early action hereon.
8. The attorney of record for the Local Unit in the Federal Court Action is hereby authorized and directed to execute the Consent Decree and deliver the same in substantially the form attached hereto to the Court on behalf of the Local Unit.
9. It is the intent of the Local Unit to finance all of the 1994 Improvements with the bonds described herein and to reimburse the Local Unit with proceeds of these bonds, to the extent permitted under the Internal Revenue Code of 1986, for any amounts advanced for the 1994 Improvements before the issuance of these bonds.
10. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

REIMBURSEMENT RESOLUTION

WHEREAS, the City of Riverview, County of Wayne, State of Michigan (the "City") intends to issue and sell bonds and/or enter into a contract with the County of Wayne, Michigan (the "County") pursuant to which the County would issue and sell bonds in behalf of the City and other communities, the City's allocated portion of which would be an amount not to exceed Two Million One Hundred Seventeen Thousand Dollars (\$2,117,000) for the purpose of paying part of the cost of satisfying a judgement and order entered against the City and others on behalf of the United States of America acting through its Environmental Protection Agency and the State of Michigan acting through its Department of Natural Resources, fulfilling conditions of a NPDES permit and to acquire improvements to the Wayne County Downriver Sewage Disposal System (the "Project"), and

WHEREAS, City desires at this time to state its intentions to be reimbursed from proceeds of the bonds for any expenditures undertaken by the City for the aforescribed Project prior to issuance of the bonds.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The City makes the following declarations for the purpose of complying with the reimbursement rules of Treas. Reg. Sub-section 1.150-2 pursuant to the Internal Revenue Code of 1986, as amended:
  - (a) As of the date hereof, the City reasonably expects to be reimbursed for the expenditures described in (b) below with proceeds of debt to be incurred by the County on behalf of the City.
  - (b) The expenditures described in the paragraph (b) are for the costs of the Project which were or will be paid subsequent to sixty (60) days prior to the date hereof.
  - (c) The maximum principal amount of debt expected to be issued for the City's Share of the first phase of the Project, including issuance costs, is \$2,117,000.
  - (d) A reimbursement allocation of the expenditures described in (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Project is placed in service or abandoned, but in no event more than three (3) years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the Project to reimburse the City for a capital expenditure made pursuant to this Resolution.
  - (e) The expenditures described in (b) above are "capital expenditures" as defined in Treas. Reg. Sub-section 1.150-1(h), which are any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. Sub-section 1.150-2(c) under general Federal income tax principles (as determined at the time the expenditure is paid)).

paid).

(f) No proceeds of the borrowing paid to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas. Reg. Sub-section 1.150-2(h) with respect to abusive uses of such proceeds, including, but not limited to, using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. Sub-section 1.148-1) within one year of the reimbursement allocation described in (d) above.

(g) Expenditures for the Project to be reimbursed for the proceeds of the borrowing for purposes of this Resolution do not include and are in addition to (i) costs for the issuance of the debt, or (ii) an amount not in excess of the lesser of \$100,000 or 5 percent of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding twenty (20) percent of the issue price of the borrowing within the meaning of Treas. Reg. Sub-section 1.150-2(f) such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Project, but do not include land acquisition, site preparation, and similar costs incident to commencement of construction).

2. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilwoman Blanchette, that the Resolution for the Sale of Lot 97, Wyandotte Highlands Subdivision be referred to the Meeting of December 20, 1993 when a full Council is present.

Carried unanimously.

Resolved by Councilman Durand, supported by Councilwoman Blanchette, that Council adopt the following resolution establishing initiation of Strategic Planning Process commencing with a Workshop including Planning Commission and Economic Development Corporation at an estimated cost of \$3,500.00 with funds being budgeted.

WHEREAS, the City Council began the process of updating the "Master Plan" document in 1991/92 with the preparation and adoption of the Demographic Analysis of the Parks and Recreation Plan; and

WHEREAS, the remaining components of the "Master Plan": housing, business, industrial, community facilities, and infrastructure shall be evaluated in the context of economic potential and the advancement of quality of community life and embodied in the proposed Economic Development/Redevelopment Plan for the City of Riverview; and

WHEREAS, the City Council has financially provided for the continuation of the updating process of the "Master Plan" within the 1993-97 Capital Improvement Program and budgeted in the 1993/94 Annual Budget; and

WHEREAS, the purpose of continuing the updating of the "Master Plan" is to determine the future direction of the community in terms of economic vitality, growth, and redevelopment opportunities; and

WHEREAS, the strategic planning process is a systematic way to integrate municipal activities for a common purpose, to manage a changing community environment, and to proactively and positively influence the future of the city; and,

WHEREAS, the strategic planning process can be distinguished from other kinds of planning by the following key points:

- a. it is a focused process that concentrates on consensually derived issues and visions for the future,
- b. it explicitly considers major events and changes occurring outside, but affecting the community,
- c. it considers all types of resources and their availability,
- d. it assesses strengths, weaknesses, and opportunities of the community,
- e. it is action-oriented, with a strong emphasis on practical results; and

WHEREAS, the benefits of the strategic planning process should include:

- a. focused attention on fundamental matters and issues of community growth
- b. contribution to community education and consensus building
- c. development of a shared vision of the future for the community
- d. better positioning of the municipal organization to maximize the community's strengths, minimize the community's weaknesses, and seize opportunities for community reinvestment
- e. identification and evaluation of community resources
- f. provision of a mechanism for potential public-private cooperation; and

WHEREAS, the City Council desires to fully incorporate and utilize the talent and services of the Planning Commission and Economic Development Corporation in undertaking the strategic planning approach to completing the update to the "Master Plan";

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

1. The City Council hereby establishes the strategic Planning process to be the methods to be employed for the updating of the remaining components of the "Master Plan" which then results in the development of the Economic Development/Redevelopment Plan.
2. A strategic planning workshop will be convened with the Planning Commission and Economic Development Corporation.
3. The said workshop is tentatively scheduled for January 28 and 29, 1994, at Ramada Heritage Center and the public is invited to attend.
4. The City Manager is authorized to engage a workshop facilitator.

Carried unanimously.

Resolved by Councilwoman Blanchette, supported by Councilwoman Thiede, that the following resolution authorizing the separation of the **Police Chief** and **Fire Chief** positions as part of the 1991/1992 reorganization plan for the police and fire departments be approved as endorsed by the City Manager:

WHEREAS, the Charter of the City of Riverview, Section 4.5a, established the administrative office of Chief of Police and Chief of Fire; and

WHEREAS, the Charter of the City of Riverview, Section 4.5b, granted the authority to the City Manager to combine administrative offices that he deems necessary and advisable for the proper and efficient operation of the City, and

WHEREAS, the offices of the Chief of Police and Chief of Fire were combined in 1972 to achieve the said purpose; and

WHEREAS, after careful review of the duties of the offices and the operations of the police and fire departments, the City Manager deems it necessary and advisable to separate the dual role of Chief of Police and Fire, thereby establishing separate offices of Chief of Police and Chief of Fire;

NOW, THEREFORE, BE IT RESOLVED, that the Mayor and Council hereby adopts the recommendation of the City Manager, and resolves that the present combined role of Chief of Police and Fire be rescinded effective January 18, 1992, and that separate administrative offices of Chief of Police and Chief of Fire be established as mandated by Section 4.5a of the City Charter and Sections 2.46 and 2.47 of the Code of Ordinances.

Ayes: Mayor Rotteveel, Councilmen Capezza, Trombley, Councilwomen Blanchette, Thiede  
Nays: Councilman Koch  
Motion carried.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that the Agreement for Solid Waste Processing and Disposal Services with S & S Environmental, Inc. be received and placed on file. Further, Council approve the execution of the proposed contract subject to S & S Corporation providing us a corporate signature resolution.  
Ayes: Mayor Rotteveel, Councilmen Capezza, Koch, Councilwomen Blanchette, Thiede  
Nays: Councilman Trombley  
Motion carried.

Resolved by Councilwoman Thiede, supported by Councilwoman Blanchette, that the Resolution opposing a tax initiative for the Financing of a New Tiger Stadium and placing this proposal on the Closed Presidential Preferential Primary be adopted:

WHEREAS, Wayne County Executive Ed McNamara in an address to the International Council of Shopping Centers advised the group that a new downtown Tiger Stadium would be beneficial for the revitalization of the downtown area; and

WHEREAS, the proposed financing for the stadium would be financed through the sale of construction bonds and a one percent tax on the county's hotel/motel rooms, coupled with a one percent tax on bar and restaurant tabs, and a car-rental surcharge; and

WHEREAS, the Stadium is only opened for 81 days a year and the current site is not downtown, the hotel/motel owners are not willing to finance a new stadium that will take away business from other leisure businesses, such as restaurants; and

WHEREAS, Professor Robert Raade, an economist, has studied the spinoff effect on sports stadiums and has estimated that City income, as a percentage of regional income, tends to fall after construction of a new stadium due to the jobs associated with stadiums....low paying, seasonal and part-time; and

WHEREAS, in Detroit, the room occupancy rates are among the lowest in the United States market due to a lack of conventions; and

WHEREAS, raising room fees and taxing meals would only hinder the business community's last tool for luring people to Detroit; and

WHEREAS, the Michigan Restaurant Association is vigorously opposed to paying for Tiger Stadium;

BE IT RESOLVED, that the City of Riverview joins in the opposition of the proposed financing package of a one percent tax on hotel/motels and restaurants for Tiger Stadium;

BE IT FURTHER RESOLVED, that the City of Riverview is opposed to it being placed on a closed primary election;

BE IT FURTHER RESOLVED, that a copy of this resolution be sent to Mayor Coleman Young, Wayne County Executive Edward H. McNamara and all cities in Wayne County.

Ayes: Councilmen Capezza, Koch, Trombley, Councilwomen Blanchette, Thiede  
Nays: Mayor Rotteveel  
Motion carried.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Council concur with the request to amend the 1991/92 fiscal year budget to recognize the receipt on the recovered liens in the amount of \$1,580.00 and appropriate said funds as endorsed by the City Manager.

#### ORDINANCES:

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that the Clerk be authorized to give the third and final reading of Proposed Ordinance #384 (Purchasing Manual) as endorsed by the City Manager.

Carried unanimously.

The clerk read proposed ordinance #384.

#### ORDINANCE #384

AN ORDINANCE TO REPEAL THE ORDINANCE CODE OF THE CITY OF RIVERVIEW, PERTAINING TO PURCHASING AND CONTROLS, ARTICLE V, SECTIONS 2-168 TO 2-176, BOTH INCLUSIVE, SO AS TO REPLACE SAID ARTICLE V WITH A NEW CHAPTER V, SECTIONS 2-168 TO 2-176, BOTH INCLUSIVE, FOR THE PROMULGATION OF A CITY "PURCHASING MANUAL" WHICH HENCEFORTH WILL CONTROL AND REGULATE THE PURCHASES MADE BY THE CITY, ITS DEPARTMENTS, COMMISSIONS AND OTHER CITY AGENCIES.

#### THE CITY OF RIVERVIEW ORDAINS:

Sec. 2-168. City Manager is authorized to promulgate and enforce a purchasing manual.

The city manager is hereby authorized and directed to establish, promulgate and enforce rules and regulations which will govern the conduct of city purchasing. Such rules and regulations shall be published and designated as the "Purchasing Manual for the City of Riverview," and shall be the provisions controlling purchases for the city. Said manual shall be subject to initial approval, by resolution approved by the council. Thereafter, the city manager may, from time to time, suggest changes and amendments to such purchasing manual, which changes or amendments shall be first approved by resolution of the council.

Section 2-169. Designation of city purchasing agent.

The city purchasing agent shall be designated by the city manager.

Section 2-170. Powers and duties of purchasing agent.

The city purchasing agent shall perform all duties with respect to the purchase of supplies as required by this article or other ordinances and shall have the power and duties as set forth in the city purchasing manual.

Sec. 2-171. Formal contract and open market procedure.

All contractual services pertaining to public improvements or the maintenance of public property of the city when estimated costs thereof shall exceed five thousand

dollars (\$5,000.00) shall be purchased by formal written contract from the lowest responsible bidder, after due notice inviting proposals. All other expenditures for supplies, materials, equipment, or contractual services, when the estimated cost thereof shall exceed five thousand dollars (\$5,000.00) shall be purchased by formal written contract or purchase order from the lowest responsible bidder after due notice inviting proposals, except that in cases where the prices bid are higher than prices available under contracts let by the State of Michigan, the city shall exercise the option of awarding its own contract or of buying under terms of the state contract.

(a) Open market procedure. All purchases of supplies, materials, equipment, or contractual services of less than the estimated cost of five thousand dollars (\$5,000.00), may be made in the open market without newspaper advertisement, without observing the procedure prescribed by this section for the award of formal contracts and without prior consent by the City Council.

(1) Minimum number of bids. All open market purchases shall, wherever possible, be based on at least three (3) quotations from suppliers or contractors and shall be awarded to the lowest responsible supplier or contractor in accordance with the standards set forth in this section.

(2) Recording. The agent shall keep a record of all open market orders and the bids submitted in competition thereon, and such records shall also be open to public inspection at all reasonable times.

(b) Waiver of competitive bidding. The City Council may waive the requirement for competitive contractual bidding for the purchase of supplies, materials, equipment or contractual services when some material feature or characteristic of the item or service sought to be purchased is unique and the purchasing agent has certified that said item or service sought to be purchased is unique and the purchasing agent has certified that said item or service is available from only one source.

#### Sec. 2-172. Items on Consignment.

(a) There is hereby created a special procedure for the acquisition of retail inventory items intended for the retail sales operations only of the municipal golf course. Open market pricing procedures shall be utilized by the golf course director for all brand name or trademarked items desired to be stocked as part of the retail inventory, and a current wholesale price index shall be maintained with the purchasing agent. The golf course director, or such managerial official designated by the city manager, shall possess limited delegated authority to purchase, without prior requisition and as sound merchandising practices require, replacement stocks of any particular brand name or trademarked product or item, provided always that the quantity of such item being replenished shall not exceed two thousand five hundred dollars (\$2,500.00) on such replacement of inventory order. If replacement of a particular item for retail inventory is required in an amount greater than two thousand five hundred dollars (\$2,500.00) a requisition shall be filed with the purchasing agent for processing as a bid item.

(b) With respect to items intended for sale at retail at the municipal golf course, that are received on consignment a separate record shall be made of each such delivery. Such may be designated as a conditional purchase. At such time as the items are reported sold at retail, by the golf course director, a purchase order in conformity with standard procedure shall be issued. Where deemed prudent by the purchasing agent, an earlier report of partial sales made of any consignment items may be required and appropriate purchase orders issued prior to the sale of all of the items invoiced on a particular consignment delivery.

(c) Consignment delivery items shall not be deemed to have been purchased by the city until and unless proceeds from their sale at retail by and through the retail sales operations of the municipal golf course have been obtained and have been transmitted to the city treasurer.

(d) No consignment delivery items shall be sold for an amount less than the invoice prices, or price per unit indicated on the delivery invoice, without the written approval of the city manager, filed with the purchasing agent.

## Sec. 2-173. Emergency Purchases.

The city manager is authorized to make emergency procurements of twenty-five thousand dollars (\$25,000.00) or less without regard to the provisions of competitive bid procedures whenever there exists a threat to public health, welfare and safety or a significant disruption of the operations of a department. Emergency procurement in excess of five thousand dollars (\$5,000.00) shall be submitted to Council for ratification.

## Sec. 2-174. When Sealed Bids required; Opening and Award of Bids.

All purchases of, and all contracts in excess of five thousand dollars (\$5,000.00), shall be based on competitive bids as set forth in the purchasing manual. Solicitation of competitive bids shall be by publication in trade journals and/or local newspapers and the opening of such bids shall be specified as to place and time in the notice of invitation to bid.

## Sec. 2-175. Award of Contract.

(1) The Council shall have the authority to award contracts within the purview of this article.

(2) Lowest responsible bidder. Contracts shall be awarded to the lowest responsible bidder. In determining "lowest responsible bidder," in addition to price, the following factors shall be considered:

- a. The ability, capacity or skill of the bidder to perform the contract or provide the service required;
- b. Whether the bidder can perform the contract or provide the service promptly or within the time specified, without delay or interference;
- c. The character, integrity, reputation, judgment, experience and efficiency of the bidder.
- d. The quality of performance of previous contracts or services;
- e. The previous and existing compliance by the bidder with laws and ordinances relating to the contract or service;
- f. The sufficiency of the financial resources and ability of the bidder to perform the contract or provide the service;
- g. The quality, availability and adaptability of the supplies or contractual services to the particular use required;
- h. The ability of the bidder to provide future maintenance and service for the use of the subject of the contract; and
- i. The number and scope of conditions attached to the bid.

(3) Award to other than low bidder. When the award is not given to the lowest bidder, a full and complete statement of reasons for placing the order elsewhere shall be prepared by the purchasing agent and shall be a public record.

## Sec. 2-176. Joint purchases by city departments.

The purchasing agent shall have the authority to join with other units of government in cooperative purchase plans when the best interests of the city would be served thereby.

This ordinance shall become effective upon publication as required by law.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Proposed Ordinance #384 (Purchasing Manual) be adopted as read.

Resolved by Councilwoman Thiede, supported by Councilman Weeks, that Council authorize the third and final reading of Proposed Ordinance #383 (Soil Erosion) as amended.

Carried unanimously.

The City Clerk read proposed Ordinance #383.

#### ORDINANCE #383

AN ORDINANCE TO AMEND THE SOIL EROSION AND SEDIMENTATION CONTROL ORDINANCE SO AS TO ELIMINATE THE SOIL EROSION CONTROL BOARD, AND TO REPLACE SAID BOARD AS THE CITY'S ENFORCEMENT AGENCY, AND TO SUBSTITUTE THE CITY'S CHIEF BUILDING OFFICIAL AS THE ENFORCEMENT AGENCY AND TO TRANSFER THE POWERS OF THE SAID SOIL EROSION CONTROL BOARD TO SAID CHIEF BUILDING OFFICIAL, BY THE REPEAL OF SECTIONS 19-3, 19-4, 19-5, 19-6, 19-7, 19-8, and 19-9, UNDER ARTICLE I UNDER CHAPTER 19 "SOIL EROSION AND SEDIMENTATION CONTROL" AND ALSO BY THE REPEAL OF ARTICLE II, "SOIL EROSION CONTROL BOARD" IN ITS ENTIRETY.

#### THE CITY OF RIVERVIEW ORDAINS:

That Sections 19-3, 19-4, 19-5, 19-6, 19-7, 19-8 and 19-9, being part of Article I of Chapter 19, Soil Erosion and Sedimentation Control as originally stated be repealed, and as revised re-enacted, the said sections to be read as hereafter stated, and that Article II "Soil Erosion Control Board" be and the said Article I is hereby repealed in its entirety:

#### CHAPTER 19

#### SOIL EROSION AND SEDIMENTATION CONTROL

\* \* \*

Sec. 19-1. Not herein amended.

Sec. 19-2. Not herein amended.

Sec. 19-3. Surplus dirt from excavation or building construction to be kept in City.

(a) Topsoil and subsurface soil as priority concern.

It is hereby declared that the conservation of earth soil, topsoil, clay, sand or loam removable in connection with any earth change, is a priority concern of the City Council. To effectuate this purpose, the Chief Building Official shall give careful and deliberate consideration to the harm which might occur if topsoil or earth is wasted or permanently removed from any existing or future earth change project to locations outside of the city. Whenever possible, alternate plans for retention of valuable topsoil and earth on the site or within the city limits shall be encouraged.

(b) Surplus dirt from excavation or building to be kept in city; duty of Chief Building Official.

All covering dirt and topsoil, which becomes surplus by reason of excavation, building or otherwise, shall remain within the corporate limits of the city. Any person who has such material shall forthwith advise the Chief Building Official of the existence of the same.

(c) It shall be the duty of the Chief Building Official in consultation with the Land Preserve Director, to determine whether or not such material should be included under this section, and he shall give such direction to the person to implement the purpose of this section.

Sec. 19-4. Definitions.

The following words and phrases, when used in this chapter, shall have the meanings respectively ascribed to them:

"Earth change" shall mean a man-made change in the natural cover or topography of land, including cut and fill activities, which may result in or contribute to soil erosion or sedimentation of the waters of the state. "Earth change" shall not apply to the practice of plowing and tilling soil for the purpose of crop production.

"Land use" shall mean a use of land which may result in an earth change, including but not limited to subdivision, residential, commercial, industrial, recreational or other development, private and public highway, road and street construction or drainage construction.

"Local agency" shall mean the City of Riverview.

"Local enforcing agency" shall mean the Chief Building Official serving under the Community Development Department which individual shall be certified by the State of Michigan, Michigan Department of Natural Resources.

Sec. 19-5. Construction projects - Submission of plans or plats required.

Before ground breaking of any construction project situated in the city, involving one acre or more of land, is commenced, an erosion and sedimentation control plan shall be submitted to the Chief Building Official, for study, review and approval in accordance with the "unified soil erosion and sedimentation control program" of the state water resources commission, heretofore promulgated and by this chapter adopted. Further, a control plan must be submitted and approved prior to the commencement of any earth change activities that are located within five hundred (500) feet of a stream, a tributary watercourse thereof or lake. All new plats shall require before approval the submission of an erosion and sedimentation control plan, and a permit from the Chief Building Official certifying that the applicant's plat will conform to the requirements of Chapter. 12 (2) of Act 347 of Public Acts of 1972. Appropriate permits shall be issued if and when the submitted plans or plat have been determined by the Chief Building Official to conform with the requirements of said Public Act as aforesaid.

Sec. 19-6. Permits, procedures and fees schedule for required inspections.

(a) There shall be collected by the Department of Community Development Building Division at the time an applicant files his soil erosion and sedimentation control program or plan, as required by Section 19-5, a fee as indicated in the schedule hereinafter in the section set forth. The fact of the payment of such permit fee shall be noted on the control program before it is submitted to the Chief Building Official for consideration. Application and permit forms prescribed by the state water resources commission shall be utilized and may be modified or expanded to accommodate local administrative programs.

(b) The permit and the approved copy of the soil erosion and sedimentation control plan bearing the Chief Building Official's approval stamp shall be available on the site of the earth change for inspection.

(c) Fees are to be established by Resolution of City Council. The current fee schedule heretofore adopted by Council:

Site or Type Project	Plan Review	Permit and Inspections
Less than one Acre	\$ 10	\$ 50
One Acre to 10 Acres	\$ 10 per Acre	\$ 50 per Acre
10 Acres to 39.99 Acres	\$100 + \$5/Acre over 10 acres	\$ 500 + \$30/Acre over 10 Acres
40 Acres to 99.99 Acres	\$250 + \$3/Acre over 40 acres	\$1400 + \$20/Acre over 40 Acres
100 Acres or More	\$450	\$2600 + \$10/Acre over 100 Acres
Ongoing Earth Changes	\$ 10	\$ 20 per Acre per year
Strip Projects	\$ 5 per 1000 lineal ft. (\$20 minimum)	\$ 10 per 1000 lineal ft. (\$50 minimum)

NOTES: Fees apply to total project site unless applicant clearly demonstrates that only a specific portion of site will involve earth change.

Ongoing earth changes include sand and gravel, quarrying operations and any similar nonconstruction type earth changes.

Strip projects include pipelines, sidewalks, roads, railroads, etc.

(c) It is specifically herein provided that although a soil erosion plan must be filed and permit obtained for earth changes in connection with city or municipal projects, the fees otherwise required for permits or inspections of those projects are hereby waived.

Sec. 19-7. Same-Bond may be required.

When in the sound judgment of the Chief Building Official, it appears that a bond should be required to insure compliance with the conditions or requirement of any soil erosion control program submitted for approval, in connection with any major construction project, said official may require the applicant to deposit with the city treasurer, in the form of cash, a certified check, or an irrevocable bank letter of credit, or a surety bond, in an amount sufficient to assure the installation and completion of such protective or corrective measures as may be required by the Chief Building Official.

Sec. 19-8. Same-Inspections of site.

The Chief Building Official shall be the inspecting agent. He shall conduct inspections at least, at the beginning of construction, once during construction and

at the end of the project to ascertain that such project is proceeding in manner and conformity with that plan set forth in the applicant's soil erosion and sedimentation control program submitted under this chapter. He shall possess power to issue a cease and desist order upon discovery of any violation of the soil erosion control plan, or violation of any rules set forth in the "unified soil erosion and sedimentation control program" promulgated by the state water resources commission.

Sec. 19-9. Appeal of Chief Building Official decisions.

Any party aggrieved by a decision of the Chief Building Official may appeal to the Zoning Board of Appeals, which shall act on such appeals, only after notice to the parties, and at a date and hour when the presence of an appropriate delegate from the county soil conservation district can be assured. Such delegate of the county soil conservation district shall, upon resolution of council, be granted status as a voting member of the appeal board for the purposes of that hearing.

Sec. 19-10. Failure to obey cease and desist order, penalty.

Any person deliberately violating any cease and desist order, after being served therewith, or if such is posted on the land or project where a soil erosion control program is in effect, shall be subject to arrest, the same as for the commission of any other misdemeanor, and shall be upon conviction, fined not less than one hundred dollars (\$100.00) or imprisoned for such period of time, not to exceed ninety (90) days as will promote prompt compliance with the provisions of this chapter.

Sec. 19-11. Compliance with chapter.

On and after the effective date of the ordinance from which this chapter was derived, a person shall not maintain or undertake a land use or earth change governed by this chapter, except in accordance with this chapter and pursuant to a permit approved by the municipal soil erosion control board. Any person who violates this section shall be guilty of a misdemeanor.

Resolved by Councilwoman Thiede, supported by Councilman Weaks, that Council adopt the following resolution creating a **Council Policy** providing for **Quarterly Landfill Rates Review** as endorsed by the City Manager:

WHEREAS, the City of Riverview is the owner and operator of a type 2 landfill accepting municipal solid waste from private and public customers; and

WHEREAS, many of the landfill customers have contractual relationships which require periodic rate adjustments; and

WHEREAS, the City Council has determined that rate stabilization is a desirable objective; and

WHEREAS, the City Council finds that publication of sensitive proprietary information may be harmful to landfill customers;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Riverview that a new Council Policy is hereby adopted as follows:

During the months of September, December, March, and June of each year, and more frequently if necessary, the City Council shall study landfill gate rates and make adjustments thereto as it deems advisable. The City Manager shall have the responsibility of implementing this policy, including establishing the date and time of the required study sessions.

Prior to each study session, proprietary information will be delivered to City Council members. During the study session, the City Council shall limit discussion to the administration's recommendations. The City Council and staff shall avoid the release of the proprietary information contained in the report before, during or after the study session.

SPECIAL MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN  
HELD ON MONDAY, APRIL 27, 1992 A.D., IN THE  
COUNCIL CHAMBERS OF THE MUNICIPAL BUILDING

A SPECIAL MEETING WAS CALLED FOR THE PURPOSE OF HOLDING A PUBLIC HEARING ON THE PROPOSED CITY-WIDE SANITARY SEWER SYSTEM IMPROVEMENT PROJECT TO RECEIVE COMMENTS AND VIEWS OF INTERESTED PERSONS WITH POSSIBLE COUNCIL ACTION.

The meeting was called to order at 7:00 P.M.

Presiding: Mayor Rotteveel

Present: Councilmen Capezza, Koch, Trombley, Weeks, Councilwomen Blanchette, Thiede

Absent and  
Excused: None

Also  
Present: City Manager Elliott, Assistant City Manager Steklac, City Clerk Girardin, City Engineer Hennessey, Director of Community Development Feudner, City Treasurer Abercrombie, D.P.W. Director Perry, Attorney Pentiuk, Attorney Okun, Jim Murray - Director of Public Works for Wayne County, Bill O'Neil - County Commissioner

The Pledge of Allegiance was led by Councilman Trombley.

The Invocation was led by Mayor Rotteveel.

**PUBLIC HEARING:**

James E. Murray, Director of Wayne County Public Works gave a history of the problem of excess flow during wet weather at Wyandotte Treatment Plants and also explained that both the Wyandotte Treatment Plant and the thirteen communities were under court order to eliminate the violations of the Clean Water Act 1972.

Riverview is one of the thirteen communities serviced by this treatment plant. Mr. Murray indicated it was necessary for Riverview to construct a storage basin to contain the excess flow during heavy rainfalls or to improve their sewer system in order to reduce their flow to the plant to their purchase capacity.

Mr. Murray complimented the City of Riverview in their aggressive action in trying to solve the problem, and he hoped that the alternative presented by Riverview would eliminate their excess flow problem. Mr. Murray stated that the reduction of excess flow would not only be beneficial to the plant but also to the operation of the Wyandotte Treatment Plant.

Timothy Hennessey, P.E., then made the engineering presentation on the project. He detailed the four alternatives presented and what effect each alternative had on the water quality and environment. The four alternatives considered are:

1. Riverview construct its own storage basin so that not more than 100 MGD would be conveyed to the plant.
2. Riverview construct its own storage basin so that not more than 146 MGD would be conveyed to the plant.
3. Wayne County, DPS, would construct system basins in order to contain the excess flow so that no more than 146 MGD would be conveyed to the plant.
4. Riverview would improve its sewer system so that the flow from Riverview would not exceed its purchase capacity by the following methods.

- a. Rehabilitate the trunk sewers.
- b. Utilize the existing sanitary system to convey footing drain flow to pump stations to be discharged into area drains.
- c. Construct a new sanitary system with new house leads in areas of the city that had footing drains.

Costs of the various alternatives were presented in overhead slides including capital cost and operation, and maintenance costs.

Timothy Hennessey pointed out that alternative #4 was much more cost effective than any of the other alternatives and would eliminate the cost of replacing sewers in the future.

Charlotte Abercrombie made the financial presentation on the project detailing the various options for Riverview of financing this project. Ms. Abercrombie also indicated the user charge for each alternative methods of financing.

At this time, Mayor Rotteveel asked if anyone in the audience wished to address the Council.

Michael Kovach, 17812 Quarry Road, submitted a letter dated April 26, 1992 requesting it be made part of the record:

CITY OF RIVERVIEW

City Council and Mayor:

With regards to the half page ad in the April 22, 1992 Wyandotte Paper entitled "City Wide Sanitary Sewer Improvement." Areas "impacted" in legend a white blank square. To me it would mean 1/3 of the map as shown. We as a citizen group made in 1990 very clearly that we were opposed to spending without voter approval by the city and the school board. I would look at this ad as a means to cover what has already been spent and what you propose to spend again without a vote by the people if your intentions are to bond, and if your intentions are to use Landfill money for residential expansion that is a violation of the original voters authorization to purchase land for recreational purposes only. If this is the case we are opposed to expanding sanitary sewers for future subdividing by the city administration and being in the real estate business.

Sincerely,

Michael Kovach  
17812 Quarry Rd.

Tim Durand, 19118 Wedgewood - Is the county working on an overall plan that will include all the communities to solve this problem? Are you comfortable that there will be a 75% reduction based on the information you were given; what would happen should we not achieve that and we exceed our levels? How many gallons per day can we treat? What happens if Riverview doesn't meet the reduction; where is our sewage going to go to if we are not part of the overall county plan? Suppose the other 12 communities come together with a plan and you adopt it and it is not consistent with what we are doing in Riverview? The last correspondence Mr. Durand saw indicated communities would be getting a 15% reduction; is this accurate? We built a sewage treatment plant on Jefferson and now it is closed because we went ahead of the county and it was not up to snuff. We are still paying on that and it has been closed for the last 10 years. I don't want to be paying on a 15 million dollar bill if we can't get a 75% reduction. His suggestion is to do a small portion of the community and see what kind of reduction we get.

Bob Shusteric - 19486 Coachwood - What is the Pine Street pumping station? Is it still operating and what do we do with that? Of the 13 communities, Riverview has 26% of flow? Mr. Shusteric questioned numbers on the charts. How do we maintain sewers? If this doesn't work out will we have to change ours again?

**Henry Garcia** - 14507 Williamsburg - Mr. Garcia is against any tax increase. Do we get a chance to vote on this? If we don't comply with Court Order, what happens? The plans & graphs that we look at will not increase our taxes; we will try to take care of that through our water bill? If water grant is not be affected, then why are we looking at a 60%. What happens to \$10.00 charge - will it be dropped?

**Richard Donelson** - 19031 Stonewood - It would seem more prudent to wait. See what kind of plan the county suggests with the other 13 communities. Is there a real urgency here?

**Michael Kovach** - 17812 Quarry - Mr. Kovach thought there should be two hearings regarding the borrowing of money. How much is the Engineer's fee going to be 5%? Of the 4 proposals, how can we pick one tonight?

**Thomas Cole** - 17974 Mulberry - Project needs to go out to bid. Doesn't understand where we are coming from. We are dealing with big dollar bills. The people of Riverview should decide what to do.

**Anthony Weeks** - 18317 Quarry Road - We are putting this in the hands of the same Engineer that messed up our ski hill. We need another opinion.

**Joann Barczewski** - 14746 Georgia - Glad to see the City is finally admitting there is a problem and is doing something about it - her basement has flooded several times. Invited the public to inspect the grade in her yard - it is like a sponge.

**Jerry Filipiak** - 19310 Brandywine - We're going to reduce flow, right? Where is the excess going? Is this going to be treated? Is storm water to be treated? Can the Engineer guarantee we will not have any problems that I don't have now?

**Don Cady** - 14728 Old Town Court - Does the drain water from Fort Street run into the river untreated? This is salt, exhaust, and dirt.

**Tony Barczewski** - 14746 Georgia - These 13 communities are being forced to clean up their act, what about Detroit? Is it only the downriver communities? Is Detroit being fined?

**Don Cady** - 14728 Old Town - What happens with the enlargement like Metro Airport? Will we be forced to pay more? Cement does not absorb water. Do you feel that freeways cause our problems?

**Ron Huber** - 14305 Greentrees - commended the City on their attempt to save money. Were there any provisions made for new construction? Admirable plan to use landfill funds. Will there be future hearings with funding alternatives for public input? Will the project be bid? What about City Engineer?

**Bob Ratz** - 20205 Wellesley - Will the county and their engineering staff evaluate this proposal to determine whether it will meet their objectives or will they just look at it? Can this achieve what it is intended? Did we evaluate a separate basin for the City; the numbers he saw were countywide.

**John Chesney** - 14333 Dundee - Is our problem that we don't have treatment capabilities to handle our flows? Why haven't we taken a closer look at our treatment plant?

**Mr. Turner** - 13725 Hamilton - Why does he pay more for sewage on water bill if it is not being treated.

**Manual Medina** - 17454 Koester - Are our leads in the front or back?

**Tom Cole** - 17974 Mulberry - Is the total cost \$13 million or not? This project will cost much more than that.

**James Weeks** - 19291 Coachwood - Can you site a city that has 75% reduction? What is the highest reduction you know of? Is part of the \$13 million going for the rehab of our 50 to 70 year old sewers? Do have have a failure risk of these old sewers?

**Kathy Thiede** - 18221 Ryanwood - Are we bound by engineering fee regardless of who does engineering?

Resolved by Councilwoman Thiede, supported by Councilman Trombley, that the Public Hearing be closed.  
Carried unanimously.

The Public Hearing was closed at 9:25 P.M.

Resolved by Councilwoman Thiede, supported by Councilman Trombley, that the Resolution regarding the Proposed City-Wide Sanitary Sewer Improvement Project be received and placed on file. Further, Council adopt said resolution as follows:

WHEREAS, this special meeting was called to conduct a public hearing on the proposed City-wide sanitary sewer improvement project for the City, and

WHEREAS, the Council has heard from Gerald Perry, Director of the City Public Works Department; Timothy Hennessey, City Engineer; and Charlotte Abercrombie, City Treasurer, regarding the scope of the project, the engineering details necessary to implement the same and the proposed method of financing the proposal, and

WHEREAS, various citizens and taxpayers expressed their opinions for and against the project as detailed at said public hearing, and

WHEREAS, the Council has determined that it has received sufficient information and citizens' response to the proposed project;

NOW, THEREFORE, BE IT RESOLVED that this Council concurs with the recommendation to proceed with the project plan as presented at the public hearing and does hereby establish a clear intent to proceed with the project providing that the City is able to obtain a loan for the cost thereof from the State Revolving Fund of the State of Michigan.

Ayes: Mayor Rotteveel, Councilmen Capezza, Koch, Trombley, Councilwomen Blanchette, Thiede

Nays: Councilman Weeks

Motion carried.

ADJOURNMENT:

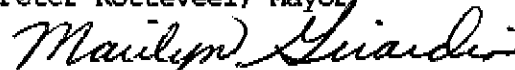

Resolved by Councilman Trombley, supported by Councilman Capezza, that the meeting be adjourned.

Carried unanimously.

Meeting adjourned at 9:45 P.M.

SPECIAL MEETING OF THE COUNCIL OF THE  
CITY OF RIVERVIEW, WAYNE COUNTY, MICHIGAN  
HELD ON MONDAY, APRIL 27, 1992 A.D., IN THE  
COUNCIL CHAMBERS OF THE MUNICIPAL BUILDING

A SPECIAL MEETING WAS CALLED FOR THE PURPOSE OF HOLDING A PUBLIC HEARING ON THE PROPOSED CITY-WIDE SANITARY SEWER SYSTEM IMPROVEMENT PROJECT TO RECEIVE COMMENTS AND VIEWS OF INTERESTED PERSONS WITH POSSIBLE COUNCIL ACTION.

The meeting was called to order at 7:00 P.M.

Presiding: Mayor Rotteveel

Present: Councilmen Capezza, Koch, Trombley, Weeks, Councilwomen Blanchette, Thiede

Absent and  
Excused: None

Also  
Present: City Manager Elliott, Assistant City Manager Steklac, City Clerk Girardin, City Engineer Hennessey, City Treasurer Abercrombie, D.P.W. Director Perry, Director of Community Development Feudner, Attorney Pentiuk, Attorney Okun, Mr. Jim Murray -Director of Public Works for Wayne County, Mr. Bill O' Neil -Wayne County Commissioner

The Pledge of Allegiance was led by Councilman Trombley.

The Invocation was given by Mayor Rotteveel.

The following is a verbatim transcript of the Public Hearing.

Mayor Rotteveel: The Public Meeting will come to order on the proposed sanitary sewer project in conjunction with the Downriver Sanitary Sewer Evaluation Study and the City of Riverview Application for Funding Under the State Revolving Fund Loan Program. We also have here Jim Murray, Director of the Public Works for Wayne County. He will later address the audience. Also, Bill O'Neil, County Commissioner is in the audience. At this time, I have the honor of turning the project over to Jerry Perry.

Mr. Perry: Thank you, Mayor. If you folks would like to adjourn over here to these seats so you can see the program as we are going to have the screen coming down to give you a better idea of what's going on. While the screen is coming down, I will give you a brief outline of how we planned this Public Hearing. First, I'll have Mr. Murray from the Wayne County Public Works explain the law suit, where we are, and where we're going. Second, Mr. Hennessey will give the engineering aspect of the project. Third, we will have Charlotte Abercrombie, City Treasurer, give the financial aspect of it. After that, we will open it up to questions and answers; but, before we have that, the Mayor will have to come back up here, so give us a little bit of time, OK?

Mr. Murray, would you please. Jim Murray from Wayne County Public Works.

Mr. Murray: Thanks Jerry. Mayor, Council, and citizens, we appreciate you being here this evening. My name is Jim Murray and I'm Director of Public Works for Wayne County. On behalf of Ed McNamara, we appreciate your attendance here tonight and your attention to how important this project is. The Wyandotte Wastewater Treatment Plant services 13 downriver communities. Riverview is one of them. The Wyandotte Wastewater Treatment Plant has had numerous violations of federal law that go back to when the Clean Water Act was passed in 1972.

Wayne County has spent approximately \$17 million working with the Board of Commissioners. I am bringing that plan into compliance with federal law. The plant is currently in compliance with federal law for its discharges into the Detroit River during dry weather. That plant is in compliance with federal law now as it applies to its discharge during dry weather. That plant can handle 100 million gallons/day and treat to the requirements of the Clean Water Act up to 100 million gallons/day as is currently configured. The treatment plant in dry weather, typically right now, will be getting 60 to 70 million gallons of flow/day on an average day. When it is raining, like all the rain that has just passed, the treatment plant can handle up to 120 million gallons/day, but it doesn't do what is called secondary treatment, full treatment at the treatment plant prior to discharge into the Detroit River. It will get 100 million gallons of secondary treatment and that is what the Clean Water Act requires and above that we will do primary treatment up to about 120 to 140 million gallons/day.

408 In severe wet weather, as you aware of, most of the communities in the downriver system cannot get their flows into the interceptor that goes to the Wayne County plant. Wayne County and each of the 13 communities were sued by the EPA in 1989 because of our failure to address this wet weather problem. The severity of the wet weather problem is that the plant will get about 200 - 240 million gallons/day delivered to it in bad rainstorms. We cannot successfully treat that in accordance with the Clean Water Act. We are even by-passing a large amount of that flow to a pump station located right next door to the treatment plant which is called the Southgate/Wyandotte pump Station that is owned and operated by my office on behalf of the City of Wyandotte and the City of Southgate; that is a combined sewer system so that the rain water is supposed to go into one pipe that handles sanitary and storm water. The pumps at that the Southgate/Wyandotte pump station are big enough that we can pump out the sanitary sewage and storm water, treat it in accordance with the Clean Water Act and discharge it into the Detroit River and not have it end up in peoples basements. Of the 13 communities in the downriver system many of them do not have that kind of facility. Many of them are ending up with surcharge or water backing up into their pipes and into their homes. We are aware, and you are aware, that Riverview is one those communities that has a severe problems in the downriver system. Many homes are being flooded even when communities are going out and putting in pumps into the manholes trying to pump that water out into roadside ditches and into creeks. The City of Taylor and the City of Riverview, we even sent a letter from my office encouraging Riverview to, on a temporary basis, consider pumping out of their sanitary system and putting it into a roadside ditch.

487 On behalf on Ed McNamara, we do not think it is appropriate, even on an interim basis, to allow this type of material to back up into peoples basements. So we have a widespread problem on the downriver system during wet weather. With the EPA lawsuit against Wayne County and the 13 communities, the County has hired a consulting firm called Kemp, Dresser and McKee and we are doing a basin wide report on where the problems are in working with the communities, what are their preferred selective alternatives to correct that problem. Our marching orders from County Executive McNamara is to accomplish two things: Not allow any discharge from the pipe to the open environment when we are done with this project and not allow any wastewater to back up into peoples homes. That's our marching orders.

How we accomplish that is why we are here tonight. Your community has come up with a proposed alternative that addresses how you're going to get down to your contract flows. Now, Wayne County has contracts with each of the communities so you won't exceed collectively 146 million gallons of flow at any one period of time on the wastewater treatment plant. Obviously, if it goes up to 240 million gallons of flow during wet weather, all these communities that have this wet weather problem has to do something to at least get down to that contract.

In addition to that, the treatment plant cannot handle 146 million gallon successfully under the Clean Water Act of 1972. And the reason for that is because the federal law in 1972 said that we had to have secondary treatment installed and we had to meet a higher test for treatment in the Detroit River than we did before. So we are now faced with a dilemma and your community will have to figure out how we're going to address and also how we can operate within the 100 million gallons during dry weather and in wet weather, how do we keep everything in the pipe and not in peoples homes. All the communities have been working very hard on this. Yours is the first community to come forward and say this is our preferred alternative on how we're going to get down to our contract flows, not have it in peoples basements and successfully keep it in the pipes. We want to congratulate you on that.

We are working with all the other communities in the downriver system to come up with the same approach. Obviously, this will need EPA and DNR review along with the county engineers; but at this time we have no reason to believe your community could be very successful in this effort and you need to understand what that effort is, how it applies to you, and ultimately what the costs might be. We all understand the cost of this program is not going to be cheap. Complying with environmental laws is not easy and it is not cheap. The estimates from our consultants has been anywhere from \$100 million to \$500 million depending on how we put together the alternatives and what the EPA and DNR is going to hold us to. We think we can come in the the lower side rather than upper side. Judge Fikens has this case in his court and has been very open to our approach that we have to keep it out of the environment and we have to keep it out of peoples basements; but we don't have to go do extraordinary measures for just treatment sake. The EPA and DNR have been very cooperative on trying to keep that as the mandate. I will be very happy to try to answer some of your questions later and I would like to turn this back over to Jerry. Thank you very much.

Mr. Perry: Thank you, Jim. Next is Mr. Tim Hennessey, City Engineer for the City of Riverview and Hennessey Engineers. Give us an overview on how we proposed the project.

Mr. Hennessey: This presentation is going to be a series of slides which indicate our solution to the problem, the extent of our problem and what our solution is. This first slide is of the 13 communities that are served by the Wayne County Treatment Plant. The one thing you will have to remember about the sewers in Riverview is that sewers particularly east of Fort Street were put in between 1920 and 1950; therefore they are between 40 and 70 years old. The normal life of the sewer is 50 years. Over the years, these sewers will have to be replaced. Also the sewers immediately west of that which is 1950 to 1960. Now the program we are bring out is for a period of 50 years, so on this next 50 years in the near future alot of these sewers are going to need to be replaced.

880

In following Wayne County's guidelines, we started a flow monitoring program in which we divided the city up into a groups of many districts. The reason we did this was to determine how much flow during heavy rainfall was coming from each district. You'll notice District F which is east of Fort contributes approximately 50% of excess flow. Some other ones are heavy in the inflow/excess flow is D, B, and E. District C is moderately. A does not contribute anything. In this flow monitoring program, what you do is try to determine what is your basic design flow which is what you sell to your businesses and residents. Now our basic design flow is 1.57 million gallons/day. Now, when we metered it, even in dry weather, we were getting 1.81 million gallons. This indicated we were getting about .3 million gallons by infiltration from ground water which was treated and we were paying for every day of the year. Now the purchase capacity that Mr. Murray was referring to was 3.6 million gallons per day.

The next slide shows the average dry weather base flow. This happened between September 25 and October 3, 1990 and October 25 to November 3, 1990. Now what we have here are the different districts. District A is the Glens. You will note that the metered flow is the solid and the hacked was the design flow. The metered flow in district A was less than the design flow. Areas B,C,D, and E are more/less the same and area F & G which is the area east of Fort Street the meter flow was much in excess of the design flow.

Now this is the largest storm we metered which was on October 7, 1990 and we showed the contribution to excess flow from each district. A was the small amount; B and C was gradually increasing; as we got over to E and F they increased alot. The total amount of volume of water we sent to the treatment plant for the October 7 storm was 26 million gallons. Now you compare this to our drive flow of 1.8 million gallons which is many times in excess.

In the flow monitoring program, we monitored five rain events: one on 9/21 which is .45" we had about 4 million gallons. Rainfall doesn't always reflect in proportion to the amount of rainfall. You see the next one is .48" yet we only delivered 2 million. Then we come over to the 10/7/90 storm and we delivered about 26 million gallons.

This slide portrays a fact that alot of people forget about is that the dry weather infiltration and the various areas A,B,C,D,E,F,G. Now, in B we have about 180,000 gallons/day and the total flow from the complete system is about 330,000 gallons/day. Now, if you multiply that by the number of days in a year, it represents alot of flow and alot of expense to the City of Riverview.

Now, Wayne County has come up with an idea or gauge on how too determine what the cost of the treatment of the excess flow is. Now if they were to build basins to contain the flow so that it would be delivered to the plant at the required rates, the cost of the excess flow would be \$7.93/thousand gallons. Now, if you get a loan utilizing the SRF Funding (State Revolving Funds) with 20 years bond, it would cost \$4.86. The thing to remember is if you drop to the last line, all we're paying now is \$1.00/thousand gallons. In fact, up to now, it would be not cost effective to get rid of any excess flow, but from now on when Wayne County puts this into effect, it is going to be very cost effective. It's going to cost each community about 8 times what they are paying now.

What is the cost to Riverview for excess flow? The total excess flow to the plant is 2.1 billion. Riverview's portion is 21.4% or 454 million gallons/year. If we equate this to the cost per gallon on the previous chart with a 20 year bond at 8.675%, it would cost Riverview 3.6 million/year. With a 20 year bond at 2%, it would cost 2.2 million.

These are the potential alternatives to the solution to the problem. You heard Mr. Murray talk about the 100 million gallon plant and the 146 million gallon plant. Basically, the number 1 solution was, or proposal was to for the communities to build their own retention basins and deliver no more water than 100 million gallons/day to this plant. In later charts, we will show what the cost of #1 proposal is and 2 and 3.

Number 2 is also the same way only we could deliver up to 146 million gallons/day to the plant. That is the total 13 districts.

Number 3 is on-line storage and of number 1, 2, and 3, this is the most cost effective one. In this case, the county would place the storage basins strategically so it would have less amount of storage to make the plant operate correctly.

Now, Riverview has come up with a proposed sewer improvement with no storage. Of course, Wayne County has always allowed this alternative.

Now the selective alternative which was the Riverview reduction and excess flow to the plant was we are going to do this by three methods:

1. rehabilitate the sanitary sewer (trunk sewers)
2. use existing sanitary sewers system for the footing drain flow
3. to install new main line sewers and house leads connected to the rehabilitated trunk sewers.

Now, this slide shows where these trunk sewers are. There is one big trunk going down from Jefferson to Valade and it goes down along Huntington drain. It's 42". Then we have another one that goes from Longsdorf Lift Station, up Williamsburg, to Devonshire. And we have a third one that branches off Williamsburg, down Civic Lane to the Greentrees Pump Station in the Forest.

The other two are over towards the west. One is going up the the apartments and Gabriel Richard and the other is going across the Golf Course. Now when we talk about rehabilitating the sewers, we will seal all the manholes. We also air test all the joints and see that there is no ground water being able to get into the sewers.

Now, one of the big causes for excess flows are the footing drains. Formerly, before 1976, all municipalities, including Riverview, allowed footing drains which is the drain around the house to connect with the sanitary flow from the fixtures to get into the sanitary system. Area 1 which is the flooding drains, which is served by one common sewer from down the Huntington drain over up Huntington Street. It collects all the lateral from these various streets.

By the way, this line is connected directly to the plant without a pump station. This area has been plagued by flooding, especially in the Huntington area.

Area 2 - west of that, what we are going to do there is utilize the existing sanitary sewer to pick up all the laterals in this area and discharge them to a pump station at Young Patriots Park that will discharge into the Auto drain.

I forgot to mention in Area 1 we have a dual system there going down along the Huntington drain. We have an 18" that goes from Valade to Jefferson and also a 42" What we are going to do is utilize the 18" for the storm water and we are going to keep the 42" that was put in in 1965 for the sanitary sewer.

In Area 3 there is a minor amount of... we have a few footing drains to pick up there.

Area 4 which is the Forest. Now in the southern part of the Forest, they have a great deal of sump pumps. We are going to install storm sewers in that area to pick up the footing drains that are not connected to the sump pumps. In the northern part of the Forest, we are going to utilize the existing sanitary system to convey the sewage to a storm pumping station in Coachwood Park and discharge it into the Huntington Drain.

In order to get an idea of what we are going to do, this slide portrays the ordinary sewer system in a house. The shaded pipes convey the sanitary sewerage from the fixtures. Now the pipes that are not shaded convey the footing drains which are the pipes that are around the house and they pierce underneath the footing to a common pipe that goes to a trap that connects together with the sanitary flow just outside the basement wall. This cast iron Y was installed right under the footing at the outside wall. Then, of course both of them go to the sanitary system. To get an idea of what we are going to do, we're going to put a new sanitary sewer system in and a new lead in. I've cut the cast iron Y to allow the sewage to flow into the sanitary sewer and the footing drain flow will be conveyed by the existing pipe system to pump stations that will discharge into the area drains.

This area shows where the construction is going to occur.

Area 1 - the leads in this area, laterals, and house leads will be connected to the rehabilitated trunk sewer along Huntington Drain.

Area 2 - we will connect this to the Williamsburg trunk sewer rehabilitated.

Area 3 - there is very little to be done.

Area 4 - there is a trunk sewer, going as I indicated before between Williamsburg and the Greentrees pump station and we will connect all the new sanitary to it.

There is a little break in the slides here. If you go back to our various alternatives, Alternative #1, was with 100 million gallon plant and the communities build their own retention basis area.

Alternative #2 was for 146 million gallons/day plant and communities build their own sewers.

Area #3 - Storage basin set by Wayne County to store the complete system so they could decrease the amount of storage required.

Area #4 - the sewer improvement which I have indicated in Riverview. If you come down to the bottom line, total annual cost, this is at 8.675% 20 year bond - if you note in the first one, it's 4.8 million per year, for 20 years, is \$100 billion.

And the second one, is \$4.3 million per year.

The third one, which is the better of 1, 2 and 3, is 2.9 million.

The fourth is 1.2 million which is much better than any of the other alternatives.

At the bottom is a plan modification. Now if we go to Alternative #1 which is 100 million gallon/day plant, the City of Riverview is going to have a .6 million one time expenditure. I think if we go to the 146, which is the 2, 3, and 4 alternative, we have 1.4 million one time. No matter what we do, we have that expense.

This chart shows the same thing with 2% funding with the State Revolving Funding 20 year bond. If you will note one is 3 million, two is 2.7, three is 1.9, four is .8. These are the annual cost of the 20 years.

The next slide shows the pros and cons to the selective alternative of the sewer improvement. Of course, the con is the disturbance to the community while under construction. We will be digging up in the front yards, we will be digging up sidewalks and installing new mains. But this is more than offset by the benefit of the people of a cheaper method and a very effective method. If we go into a retention basin, we are always going to have an operation and maintenance cost and we are also going to be treating the sewage that we collect in the retention basin. Now the pros, the annual cost is about half of Alternate 3 which is the best of 1, 2 and 3. Two, the sanitary sewers east of Fort Street will have to be replaced in the near future. This alternative will eliminate this future expense; it will cut back on the flow to the plant in dry weather - estimated 60 million gallons per year. Like treating sewage temporarily stored in the basement. The maintenance of the old sewers continually increase. Eliminate the O & M of the storage basin. Now the O & M of the storage basin is a significant cost. It is estimated that if we have to put in 20 million gallons basin, it will cost us about a half million dollars per year.

I guess the big question is would the project achieve its objective in the reduction of the excess flow to our sewers. We had the most severe storm on October 10th. I use this as a sample of how the excess flow to the plant would be reduced. The total flow that day was 10 million gallons. The theoretical flow, the amount we sold to the residents and businesses was 1.57 million gallons. Infiltration was .32, footing drains and roof drains was 4.9, one million gallons the inflow from other sources were 3.2 million gallons, totalling 10 million gallons.

2127

This is the estimate that I think is achievable from both my engineering experience and the new products that are on the line and new equipment, etc. so that we can get better testing of our sewers. The footing drains eliminated would be 4.41 million gallons (90%); infiltration - .2 million gallons/day; inflow from house leads and trunk sewers is 2.88. Total reduction is 7.49 so the estimated flow of the plant would be 2.51 which would be within our contract capacity.

This is an important chart showing how the the construction in Riverview is integrated with the county system. This is the county schedule for bringing the plant in compliance along with the 13 communities. I guess I will go to the next chart which compares the two. On one side we have the county sytem and on the other is Riverview. Start of the project plan. We started ours in February, 1992. They will start theirs in September, 1992. Draft of our project plan was March, 1992, theirs in December, 1992. Public Hearing is April, 1992, theirs February, 1993. Start final design October, 1992; start plans to update the treatment plant is October, 1993. Start construction in Riverview, May '93; start improvements in the plant October, 1994. Complete construction - May of '95; complete certification October of '95. Start design of storage October of '95 and complete the design of storage October of '96.

One thing that is important in this slide is we are going to have our system in, tested, and certified before the county starts the design. Although I have every confidence in achieving the objectives we are putting forward, if there is any problem, the county will know about it before they design their storage system.

This slide shows the area that will be affected by the construction. Area 1, 2, 3, and 4.

Mr. Perry: Thank you, Tim. That concludes the Engineering portion. Charlotte is going to give us the financial and how it is going to affect you, or each individual.

Tape 1 2319

Ms. Abercrombie: We have prepared a couple slides here to give you an idea of what some of the options are in terms of financing Alternative #4. As Alternative #4 is our preferred choice...that is the one we are seriously looking at, all of the options we have looked at here assume that we will achieve the 2% funding that is available through the State Revolving Fund.

The first option assumes that we have no capital input from the community, from the city. That would mean that the entire cost, the capital cost of \$13,200,000.00 would have to be financed through user rates to the water system. In addition to that, during the construction period, the money that we draw down from the State Revolving Fund will have interest charged on it, so that interest cost would be added. We would have a total cost at that point of \$14,475,000.00. We spread this over two types of payments; one being a 20 year payment, the other a 24 year payment. The bonding itself is a 20 year issue. However, that really would not begin in terms of payment to the water user until approximately 1996. We would be required to begin that payment one year after the final construction of the plan. Therefore, if we were to charge a total cost of \$14,475,000.00 over the 20 year payment, it would be an annualized payment of \$885,000.00 or a cost of one thousand gallons of sewage of \$1.42. The alternative would be simply to spread the cost out a little longer collecting the same dollars eventually, but having it feel a little less impact at the beginning would be to start charging over a 24 year period so there would be some collection up front of monies that would be applied to the payments. If we chose that kind of option, then we would be looking at an annualized payment that we would be meeting of \$737,000.00, or \$1.18 per thousand gallons of sewage.

This certainly is the most expensive way of approaching it in terms of user rates. Option 2 that we looked at would require a capital input of \$3.2 million that we would provide from the City's Landfill funds. That would give a net capital beginning cost of \$10 million to the project that would be charged. The interest cost would still remain at \$1,275,000.00 because under Option 1 we would still be fronting the 3.2 million and borrowing the 10 million through the State Revolving Fund. So the draw down period and the interest costs under Options 1 and 2 are the same. The total cost, therefore, in Option 2 would be \$11,275,000.00. Again, spreading that over 20 or 24 years, we are looking at annualized payment of \$689,000.00, which would be \$1.11 per thousand gallons of sewage or over 24 years, \$574,000.00 which would be \$ .92 per thousand gallons of sewage. We have taken this another step further and have an Option 3 and 4.

Option 3 provides we give an initial capital input of \$3.2 million from the Land Preserve as well as provide half of the annual debt payment from the Land Preserve. We would accomplish this by reducing the amount of money that the Land Preserve will contribute to other capital projects within the city. The net capital cost would stay the same at \$10,000,000.00, the interest would stay the same, total cost of \$11,275,000.00; however, the annual payment that would be charged to the water users would be reduced by half so that over 20 years, we would be at \$344,000,000.00 or \$.55 per thousand gallons or over 24 years \$287,000,000.00 or \$ .46 per thousand gallons.

One final option that may be available would be not only to provide \$3.2 million from the Landfill, but also an initial capital input of \$1.5 million from a capital improvement fund. The Land Preserve would then also, under this option, provide half of the annual debt payment. They would do that again by reducing the amount of payment that they would be making to the capital improvement project fund. This would actually reduce our net capital cost to \$8.5 million. Our interest costs would be reduced somewhat during the draw down period to one million, 84 thousand. The total cost would be \$9,584,000.00. Over 20 years, that would have a payment of \$293,000.00 charged to the water user or a cost of \$ .47 per thousand gallons.

Over 24 years, it would have a cost of \$244,000.00 charged to the water customer, at a cost of \$ .39 per thousand gallons of sewage.

Those being the four alternatives, we then applied a third overhead which gives a run down of what our current water operating rates are, what we are proposing for operating rates for the water system coming into the new budget, which is separate from what we are talking here tonight, and then Options 1 through 4 for the EPA project. Current rates are for water \$ .81/1000 gallons used; sewage \$1.06/thousand gallons; for a total of \$1.87/1000 gallons combined water and sewer.

2773

We are proposing operating rate increases for the 1992/93 fiscal year of \$1.72/1000 gallons of water and \$1.26/1000 gallons of sewer, for a total to \$2.98/1000 gallons combined which is a 59% increase over current operating rates. We would under this proposed operating method also eliminate the current \$10.00 quarterly charge that is being charged to all water customers. This slide then goes on to present what the water and sewer rates would look like assuming we picked up either Options 1 through 4 on the 24 year payment plan. We do this on the 24 year payment plan because if we stay to the 20 year payment plan, those charges would not be seen in the water rates until 1996.

So, let's assume we use the 24 year period which would apply those rates in the 92/93 fiscal year. As you can see in all Options, the water rates remained at a proposed \$1.72 because the project we are discussing tonight has no effect on those rates. The sewer rates, however, climb rather dramatically. This again, is simply employing the rates that were shown on the previous schedules for the various options. Our sewer rates would increase under Option 1 to \$2.44/1000 gallons; Option 2 to \$2.18/1000; Option 3 to \$1.72/1000 gallons; and Option 4 to \$1.65/1000 gallons.

This concludes the financial presentation we have prepared on slides. However, we are here to answer any questions you might have or figures you want, we can provide those for you.

Mr. Perry: Thank you, Charlotte. Mayor, if you would come up. Now we will start the question and answer part of the program. Mr. Murray, would you care to join us in the front here? If the Council would please stay in their seats down there until the question and answer period is over, why we would appreciate it. I don't think we've got enough seats for the moderators for the program. Charlotte would you come to the front, please? I will turn the program over to the Mayor now, the question and answer period. The Mayor will explain the procedures with the questions.

Mayor Rotteveel: First of all, I would like to thank the staff for coming up with a comprehensive plan, a very difficult plan. Something has been in the making some time. Hopefully, going in that direction, we will solve the biggest problem we have when we get the extra rain, is the flooding basements. It all got started when the EPA sued the county sewer system. Before that, they would let the excess flow go into the river. O.K.? Now, the EPA and DNR said you cannot do it, so automatically, they shut the valves off and                     . So, if anyone would like to address anyone of the group here, please come before the podium and state your name and address for the record.

Michael Kovach, 17812 Quarry Road, this reminds me of '65 when I sat on the Council for the same purpose. It seems like it's a never-ending thing. I want to submit a letter that I wrote myself and it doesn't involve anybody. I would like to have it read and introduced as part of the minutes of the meeting. Then I would like to remark or say something later on. I would choose to have that privilege. There's one thing else, I wanted to add before uh...this may sound like it came from Citizens of Riverview for Better Government, although Mel Kaplani is out of town, in case anybody's wondering where he's at, the letter is my own.

Councilman Weeks: Your Honor, I'm just wondering if Mr. Elliott can tell us if there have been any other written correspondence the City has received either through direct mailings to the office or through other means.

Mr. Elliott: Your Honor, to my knowledge, there has been no formal questioning proposed or any other commentary prior to this Public Hearing.

Councilman Weeks: Thank you.

City Clerk Girardin read the following letter:

CITY OF RIVERVIEW

April 26, 1992

City Council and Mayor:

With regards to the half page ad in the April 22, 1992 Wyandotte Paper entitled "City Wide Sanitary Sewer Improvement." Areas "impacted" in legend a white blank square. To me it would mean 1/3 of the map as shown. We as a citizen group made in 1990 very clearly that we were opposed to spending without voter approval by the city and the school board. I would look at this ad as a means to cover what has already been spent and what you propose to spend again without a vote by the people if your intentions are to bond, and if your intentions are to use Landfill money for residential expansion that is a violation of the original voters authorization to purchase land for recreational purposes only. If this is the case we are opposed to expanding sanitary sewers for future subdividing by the city administration and being in the real estate business.

Sincerely,

Michael Kovach  
17812 Quarry

Mrs. Girardin: If I might add right now, the ad that Mr. Kovach is referring to was run again this past Sunday yesterday. The News Herald did not put the legend in properly, so they did run it again with the proper legend.

Tim Durand, 19118 Wedgewood - I have several... I had a format I was going to go through but during the presentation I picked up some extra questions I wanted to ask, so please bear with me. I have been quite involved with this since 1988 when I served on Council from then until 1991. I sat in on several meetings with Mr. Murray and Mr. Hennessey and I followed it very closely. I have a few comments. Is the county working on an overall plan that will include all the communities to solve this problem? I guess for Mr. Murray.

Mr. Murray: Yes, the County has, as Mr. Hennessey pointed out, told each of the communities that we would look at the overall and come up with transport and treatment costs. At the same time, each community has the opportunity on its own to come up with what they think is the cost effective plan for them. So, what Riverview has done is consistent with the County's approach and we will leave that just to we have not participated in that. That was what they chose to do that and they have every right to do that.

3437 Mr. Durand: I guess the question then is: Are you comfortable that there will be a 75% reduction based on the information you were given and what would happen should we don't achieve that and we exceed our levels of what we're committed to send. I don't know...refresh me again...What are we allowed to send into that plant/day millions per gallons, how much?

Mr. Murray: There's is a contract for 3.6, but that's based on 146 million.

Mr. Durand: So if you knock that down percentage wise to 100 which you can realistically expect to treat in a day...

Mr. Murray: We can treat expect to...we can achieve 100 million gallons/day. We will have to do some improvements at the plant just to \_\_\_\_\_ that on a consistent basis.

Mr. Durand: So I guess I'm concerned during that bad storm, we had 10 million gallons sent to the system, if we're going to knock off 75%, we're going to be down to 2-1/2 million gallons, uh, ideally we're hoping for 75% reduction. What happens if Riverview doesn't do that.....where is our sewage going to go to if we are not part of the overall county plan? Suppose the other 12 communities come together with a plan and you adopt it and it is not consistent with what we are doing in Riverview? -

Mr. Murray: The uh... Riverview would have to make provisions for addressing that extra flow and storing it either in your own community, or I think Mr. Hennessey is still hoping there is still some opportunity if they're not able to achieve what I think is an aggressive amount of reduction, but I'm not going to dispute its achievability that there still may be some chance to work within the existing County proposed retention area. I'm not sure on timing how that would work or if it would be available; then we would have to wait and see what would happen at that time.

Mr. Durand: Rather quickly here... The last correspondence I saw was that communities would realistically be getting about a 15% reduction. Is this accurate?

Mr. Murray: Typically, in this business, 15% reduction is very achievable.

Mr. Durand: So we are going for 75. Realistically, other communities are looking at about 15%.

Mr. Murray: I cannot speak for other communities because they have not come back to say what they think they can realistically achieve.

Mr. Durand: O.K. My...so... thank you very much, I appreciate all the time you have spent with the City of Riverview. All the times we have asked you to come down here, you have been very accomodating and it has been appreciated. You guys have been very up front with us.

As far as locally, back as far as May 1988, the recommended solution for Riverview's problem was to build a retention basin at a cost of \$1.7 million. Uh, the footing drain option at a cost of \$5 -6 million was rejected because of the cost and disruption. In June, 1991 this proposal was upped, the footing drain removal, the projected cost was \$6 -8 million. It was rejected and the recommended solution was a retention basin at a cost of \$6 - 8 million. In April, 1992 we are suggesting that we go back to the removal of the footing drains at a cost of \$13.2 million. I just wondered. The second part of the question is during the presentation, we talked about a retention basin costing...how much was it...for the 100 million gallons?

Mr. Hennessey: 20 million dollars.

Mr. Durand: O.K. That would be set in Riverview's own retention basin?

Mr. Hennessey: No, that would not be Riverview's own retention basin; that would be a County in a county system.

Mr. Durand: But we would be responsible for payment of the owned 20 million?...

Mr. Hennessey: Yes, 22 million or something.

Mr. Durand: So I guess my question, we went from 1.7 million in 1988 to 20 million in April, 1992 for a retention basin. The Council at that time almost spent the 1.7 million and built the retention basin. I don't know where we would be at this point had we done that.

Mr. Hennessey: I would like to comment on that, may I? One of the things is you are going back to the 1981 report. We did a facility plan study which was an abridged flow monitor study. Now we did not do the flow monitoring correctly..or in depth until the last time, once we found out how much we were delivering to the plant. Now these...the other question is that in '81 or thereabouts and later, the cost of retention basin was the cost you were referring to was 5 million gallons, now we are referring 20 million gallons. Another thing you are not aware of that you should be aware of is that the DNR is requiring a 3.7 or 3.9" storm vs. a 3" storm. That makes a tremendous difference in the amount of water that has to be stored.

Mr. Durand: When did they change that requirement? Because as of June, 1991, the cost was 8 - 10 million for the same retention basin.

Mr. Hennessey: Basically, we have more...like...in solving an engineering problem, we got more in depth when we found out what the cost for excess flow was going to be to the City of Riverview we investigated more and we came up with more figures. These were all preliminary figures.

Mr. Durand: O.K. I don't think the June of '91 the 6 to 8 million.. you mean from a million seven to \$8-10 million.. I think that increase of \$8 million would probably show a little bit more.

Mr. Hennessey: I am not going to debate you, Tim. My records are in the report.

Mr. Durand: Well, I have it here.

Mayor: O.K.

3887

Mr. Durand: I have just one more comment. Uh...we're paying...we went ahead you know without uh.. several years ago and built a sewage treatment plant on Jefferson because we went ahead of the county and we had to close it because it was not up to snuff with requirements. We are still paying on that bond issue through this year and that facility has been closed for ten (10) years. I am not saying this is a bad project. The only thing is that I would like us to tread very slowly and very surely. I think one of the main alternatives you could look into is doing a segment or portion of this community and seeing what kind of reduction we get because I think 75% is a very grand and very optimistic guess at what we can do. I don't want to be stuck with a 15 million dollar bill if we can't get a 75% reduction. Thank you.

Bob Shusteric - 19486 Coachwood - What is, for Mr. Murray, what is the Pine Street pumping station these days?

Mr. Murray: Pardon me.

Mr. Shusteric: It says Charles Youngblood, Pine Street Pumping Station in Wyandotte. Is that for storm sewage? Is that still operating or not?

Mr. Murray: Yes.

Mr. Shusteric: And what do we do with that?

Mr. Murray: What do we do with it? It serves a portion of Southgate and the City of Wyandotte, theoretically.

Mr. Shusteric: So of the 13 communities, Riverview has 26% of the water flow into the system.

Mr. Murray: No.

Mr. Shusteric: I think that's what I saw on this graph.

Mr. Murray: You are mixing the...of the storage needed, based on flows that were monitored by each of the communities on those that needed retention because they had separated sanitary sewers, not combines sewers, Riverview amounted to 26% of the flows that were being generated from separated sanitary sewers that are tributary to the downriver system. Whatever that percentage was. So if there was a county wide retention system put in place, then we were saying theoretically, Riverview would have to, if they weren't able to reduce more than this 10 or 15% would be looking at a 26 or twenty some percent participation in these retention basins to accomodate their flow as their portion of the overall. We told every community, Taylor is another that has a great deal of excess flow and parts of Southgate that are not served by the combined sewer system. That if they thought they could achieve more than 15%, then surely we needed to understand that and to plan for that reduction because it reduces that amount of volume you would have to store. We are very hopeful that this will work. I can't sit here and tell you that it will. It is aggressive. It is more than what has been done before. But for particular reasons in the City, Mr. Hennessey is convinced there's a great opportunity to do that. So the more flow we can get out of the plant that is storm water related, we are all served better, you in cheaper bills in the long term and us at the treatment plant for having less water to treat. There is no reason to put clear water in with sanitary water just to remove it again. So we are hopeful this can work and it would prove out to work. I can't tell you that's a great deal of removal and cost effectively because of your other concerns and your opportunities here, it seems to be the better alternative for Riverview.

Mr. Shusteric: I am not sure that is true. Another thing I seen up here is that we listed the 10 gallons it was 3. some gallons and other. What is the other? If we are going to reduce down below 10, and we have 3.3, and other. What is the other?

Mr. Hennessey: The other is one of the...a large reduction is going to be Riverview. We have two parallel sewers going down Huntington Drain. One was an 18" sewer, which was put in 1920. That is leaking like a sieve and it's right beside a drain. That would remove alot of the inflow to the plant. That is how we are getting alot of inflow.

Mr. Shusteric: If I recall, you told us those sewers were like 40 or 50 years old and we are still going to use the larger of those.

4272

Mr. Hennessey: No, the sewers that I am talking about were put in in 1965. It is a concrete sewer and we are going to go in and seal the manholes and also seal all the joints; air test and seal them.

Mr. Shusteric: We have already gone past half of its life expectancy.

Mr. Hennessey: I didn't catch what you said.

Mr. Shusteric: I said it has already gone past half of its life expectancy.

Mr. Hennessey: Yes, well, in '65. Basically what I said the normal estimated life of sewers is 50 years. But in '65.....it depends upon the maintenance of a sewer too.

Mr. Shusteric: I don't know how we maintain them but it's like other things.. So if this doesn't work out and the County does not accept our limitations, then you would come back to us and we would have to change ours again?

Mr. Murray: Part of the problem of the whole downriver system, if the County has sold contracts for 146 million, and can only treat 100 million, how did we get into the situation that we have 250 million coming into the plant? The County, in the past, has not been a good manager of its treatment system. It has not aggressively gone after communities for exceeding their contract flow. So every community that has a separate sanitary system has exceeded its limit that it can deliver to the County and so we have widespread problems all over the system. Ed McNamara said we are going to do two things. We are going to find out who is responsible because everybody was pointing at everybody else when we started this. "We don't have a bad system, it's them out there." And them out there said it was them down there. So now we have codified and I think we have some agreement who has a problem and what the problem is. So that problem has to be corrected. Number 2 we are going to be aggressive that you do not..that no community exceeds its contract capacity whether its based on 146 or 100. So we are still trying to work that out with the communities. So, if a community has as situation that it can't keep some of this excess flow out, that they are planning to get out, they bought it and they will have to do whatever it takes to store it because it will be illegal to put it in the environment and it is illegal to put it in peoples homes. That is what will happen if we don't achieve it.

Mr. Shusteric: I agree with Mr. Durand. I think we are putting the cart in front of the horse.

Mr. Murray: I'm not sure that you can come to that conclusion yet, but I can understand Mr. Durand's concern to use great caution and I think your Mayor and Council share that concern and that's what this Public Hearing is tonight to let people know what all these different concerns are. As you can see, there is a dramatic difference in the cost of different alternatives.

Mr. Shusteric: Well, you threw alot a figures at us. I can't comprehend all those.

Mr. Murray: It is a big difference.

Mr. Shusteric: Thank you.

Henry Garcia - 14507 Williamsburg - Let me ask...I am gainst any type of tax increase. Is this....do we have a chance to vote on this or not?

Mayor Rotteveel: No, No, you don't have a chance to vote on it. We are elected to make the decision and if the decision is put in by the County, then you are going to say you cannot do it, we are going to get sued by the County and where are we going to be then? We've got to make a decision and tonight we are not going to come to a binding decision because we would like to get you people involved to find out what is going on and want to find out it's not a simple issue. We are knocking our brains out tring to come up with the right solution, but we want you to know that what we do is going to be for the betterment of the community.

4655

Mr. Garcia: Let me get it straight now. You are saying we don't have a vote on it but you are going to make this decision. In other words, this is not mandated by court or anything like that. In other words, this is mandated by the Mayor and Council?

Mayor Rotteveel: No, this is mandated by the Court that we make the corrections.

Mr. Garcia: In other words that court says if you don't do it, what are they going to do to us?

Mr. Murray: You will be liable for fines and penalties up to \$25,000.00 per day and costs for repairs and also...the \$25,000.00/day is for a fine. Any kind of environmental degradation that takes place beyond that, you would be responsible for cleaning it up.

Mr. Garcia: So the court says if you don't do it, we're going to do it to you.

Mr. Murray: You don't have a choice to pollute.

Mr. Garcia: Then it is not a Mayor and Council decision; it is a court decision. The Mayor and Council are trying to find the best way to present this to our community, and obviously, we don't have anything to say about that. Is that correct? I mean other than to give you our input and try to work with you to find the best feasible method of paying so it doesn't hurt. Is that what we are saying?

Mayor Rotteveel: Also, we want you to be aware of what is going on. O.K.? That's what we are trying to do here. We're trying to let you people know that, hey, there is some problems, not just Riverview, but the total downriver area and we're going to go and abide by the court decision, you know, how staff has come up with recommendations that we can apply with the court order and how we can eliminate the problem -what the flooding problem. Now, for us to say, now it is going to cost so much and now we are going to call for a special election and the people vote it down, then you have wasted your time.

Mr. Garcia: So, my understanding, the plans you were showing us and the graphs that I looked at is going to be without a tax increase. We are going to try to take care of that through our water bill. Is that my understanding?

4848 Mayor Rotteveel: Well, no, somebody, no, you know, everybody, you know, the citizens have to pay their share of it, you know, to make the corrections.

Mr. Garcia: You are saying... we are paying when we pay the water bill.

Mayor Rotteveel: Right.

Mr. Garcia: Are you asking us to do more than that?

Mayor Rotteveel: No. If it is...if we gonna go by the plan of the water bill, then that's it.

Mr. Garcia: O.K. That's what I want to know. My next question is, when Mrs. Abercrombie made her presentation there was a water graph and then a sewage graph. The water graph, I thought I heard her say it was not affected in this plan. Is that correct?

Mrs. Abercrombie: That is correct.

Mr. Garcia: Then why is there an increase of 60%?

934 Mrs. Abercrombie: Because we are looking at the necessity of an operating increase which has nothing to do with this EPA project. Water and sewer rates in Riverview have not been increased since 1982 and we are simply at a point where we have to increase the water rates in order to continue to fund the water fund for its normal operations of water delivery and sewage treatment. That's outside of and it happens to be coincidental and for that, I can tell you that I am very sorry that it happens that we are looking at proposed operating increases at the same time this project comes along, but the increase from the current \$.81/thousand gallons to the proposed \$1.72 is because of the necessity of operations. That is outside of this EPA project.

Mr. Garcia: In other words, you are saying we are paying that to the City of Detroit to buy the water from them right now? \$1.72?

Mrs. Abercrombie: Well it is...that's certainly a great part of the cost, but also included in that are wages and salaries of the city employees who are involved in the water and sewer system and the overhead of all the costs related to the water and sewer.

Mr. Garcia: You are saying to me we are projecting a 60% increase in '94 for our city employees for water?

Mrs. Abercrombie: No, what I am saying when we increased the water rates in 1982, we increased them assuming a certain amount of increase coming in from the City of Detroit over the next 4 or 5 years. The increases we received from Detroit were not as great as anticipated. Therefore, we have held off for 10 years and not increased water rates. Our water department with setting the EPA situation aside, the water and sewer funds are not covering its own costs of operation. It has had some fund balance that it has now used in order to cover its own costs of operations. We are facing a situation next fiscal year, where without an operating increase, that fund would be operating in a deficit condition. So that is something we had to look at correcting through the budgetary process which we are kind of ahead of the game. We haven't gotten into the budget yet, but it was not fair to talk to you about this project without letting you know that we are looking at proposed operating increases.

5112 Mr. Garcia: So that 60% is an administrative recommendation, not a Mayor and Council.

Mrs. Abercrombie: That has not been decided yet. It is an administrative recommendation.

Mr. Garcia: And I have one more. You also said I thought, we were going to drop the \$10.00.

Mrs. Abercrombie: Yes, that is an administrative recommendation.

Mr. Garcia: Doesn't that run out in two years?

Mrs. Abercrombie: That runs out in 1995, December, 1995.

Mr. Garcia: Before the '96 kicks in.

Mrs. Abercrombie: Before the '96 kicks in yes, but the dropping of the \$10.00 is in conjunction with the increase of the proposed operating rates and we are looking at a three year proposed operating increase. That's as far out as we have gone with it. So we are saying over the next three years, instead of an operating increase, plus the \$10.00, roll it all into an operating increase and drop the \$10.00 quarterly. That still is all separate from the EPA issue.

Mr. Garcia: But the \$10.00 will drop whether they do that or not?

Mrs. Abercrombie: In '95, yes.

Mr. Garcia: Alright, I just wanted to make sure I had that correct.

Mrs. Abercrombie: That's fine.

Mr. Garcia: Thank you very much and we will be monitoring you very closely.

Mayor Rotteveel: O.K. Henry

Councilman Weak: Your Honor, Your Honor, can I make just a comment? Mr. Garcia, um..I am not certain the Mayor communicated exactly what's going to happen tonight. I think he indicated Council was not going to take action; that we were just here to solicit information from the public. That is not a true statement.

Mr. Garcia: Oh, no?

Councilman Weak: No. We will be making a motion tonight. The resolution in part states that it is resolved that the Council concurs with the recommendation with the...to proceed with the project plan as presented at the Public Hearing and here does establish a clear intent to proceed with the project providing the City is able to obtain a loan for the cost thereof from the State Revolving Fund of the State of Michigan. So the intent at the end of the Public Hearing is for Council to take specific action on this based on the information presented. I just wanted to make that absolutely clear.

Mr. Garcia: Very good. Thank you.

Richard Donelson - 19031 Stonewood - I commend the city in their taking an aggressive posture in solving this mandate of the county or government, EPA, but it would seem more prudent to me to wait. I don't see the urgency, maybe I am missing something, but it would seem more prudent to wait and see what the county comes up with, as they come up with a plan, a concerted effort from these other communities to see if, in fact, our plan or our proposal, is more efficient. Is it an urgency here?

Mr. Elliott: I'll try and address that question. It is a very good question. The City of Riverview finds itself in a situation perhaps different than some of its neighbors because of the number of homes that are compounded with the problem of the sanitary and storm leads being combined.

That, by the way, is no longer permitted under existing building codes. If a house were to be built today, they would not be allowed to have those existing systems combined. As you saw from the presentation here this evening, the greater portion of the city was built with those connections being made. And that contributes well over 50 to 60% of the excess flows that go into the system right now.

497

The City could wait. It could wait another year and then it would find itself in very difficult competition with all the other communities for very limited dollars that are available under the State Revolving Fund Loan Program which is at this point scheduled to be abolished in the matter of a couple years. So if the City is very passive and does not act, it could find itself in very difficult competition for limited dollars. That would mean conventional financing would be the option and that would raise costs, potentially double the cost from what we are looking at right now.

To be brief, I think the City is not moving with any throwing caution to the wind or acting reckless because this would require Wayne County's review, the DNR's review, the EPA's review, and ultimately the court's action. So under that rather conservative process, there is not going to be a reckless decision made. I think we feel confident at this point and time that the solution is engineering wise correct, fiscally responsible, and still faces a tremendous scrutiny from regulatory agencies.

Mr. Donnelson: I realize that it is the decision of the Mayor and Council to decide whether or not this proposal is accepted. It is a tremendous impact on our pocketbooks and I think they need to remember that we are the constituents and that the people should have more of a say in what is accepted. Sure, maybe it is not appropriate to go to a vote, I'm not familiar with that, but it is a concern of mine. I would just ask that we would be prudent in this. I have a flashback of the Plymouth-Canton situation where they went out on their own and took an independent stand and it backfired on them. That is a concern of mine. Thank you.

Councilman Elmer Trombley - 17038 Brinson - What I am doing here tonight is that I am trying to save the City and the taxpayers probably half of that \$13 or \$14 some million that will add up to about \$28 million or more if we don't go after this 2% funding and end up with 8% funding. We have looked at this and looked at this, and I've looked at the people in Riverview and I have been here a long time and I know all the people that have suffered from sewage in their basements and water in their basements more than once with nothing to be done about it. I think we have a good plan here. You might call it a risk but, this tonight, we have talked about this. We have talked about this since 1981. What Councilman Durand brought up... I was there in Wyandotte at the 1988 meeting when Mr. Dugan told the cities that if we did not comply, they would do it for us. And if we want the County to do it for us and we do not act today or tonight, then your cost - the gentlemen that said you are our constituent, you're right. Cuz, I am looking out for your interest and my interest. I live in this City, too. But I would rather pay \$13 million than 28 or 30 million.

Michael Kovach - 17812 Quarry Road - First of all, there are several things. It seem to me this has been presented to the public incorrectly, since the Clerk admitted there was only one hearing and for any public hearing to borrow money, you should have two hearings. So I don't think Council can take any action tonight. I might be wrong; I am not a legal person. Secondly, you showed a graph there. You had four different proposals. How can you

vote on four different proposals tonight without accepting one proposal and coming back to the people with it and then say wheather you're going to put it on the water bill or tax it on the pizza, I mean the people, not pizzas. But that's an old saying.

Audience laughs.

Councilman Weeks: Pizza tax.

Mayor Rotteveel: O.K.

Mr. Kovach: One thing you showed a chart there that I would have to study. I wouldn't let nobody come tear up my basement. I've lived there 20 years and I have never had a flooded basement. That means there is something else wrong in this City. Somewhere else in the City there is something wrong. If I've lived in the same house 20 years and the basement has never backed up and I'm not going to let nobody come in the basement and fool around with it at my expense. Secondly, you talked about the Jefferson plant and to my knowlege the county took that back when you fellows joined back with the county back in '67. Now we hear a Councilman say that it is private property again. A million dollars worth of equipment sits down there and rusted and it's still down there. And we're paying for it yet. It don't make no difference who we got hooked by, but the idea is we have to move carefully when we move on things. I would be interested in knowing how much is the Engineer's fee is going to be out of this whole thing. Two million dollars? 10%? \$200,000.00?

Mr. Hennessey: (interrupting) I have given that. I have given that in the booklet.

Mr. Kovach: Yea, but we don't know that. We have a right to know it.

Mr. Hennessey: Basically, I have a contract with the City as to how much I get.

Mr. Kovach: I know you have, but I am talking about special contracts. This is a special contract. Are you going to get 5% of the \$20 million?

More than one person is talking - cannot decipher wording.

Mr. Kovach: Pardon?

Mayor Rotteveel: Ya know, whatever...

Mr. Kovach: Yea, 5% of the total amount spent.

Mayor Rotteveel: That's probably so, you know,....

Mr. Kovach: In other words, if you dig a hole for a million dollars, he gets 5% of the million. We saw Southgate bury two holes recently that they covered up when the went back with the county. It cost them more to cover it up than it did when they dug it open.

Mayor Rotteveel, Well, uh...

Mr. Kovach: Now, there's another thing I want to bring up. And the legality of this.. I would like to have the attorney if you have a city attorney...do you have an attorney here tonight?

Mayor Rotteveel: We have an attorney here, yes.

Mr. Kovach: That can tell me if the legal procedures have been followed for a Public Hearing.

Mayor Rotteveel: Yes.

Mr. Kovach: No, I want the attorney to tell me.

Attorney Okun: Yes, sir, the legal procedures have been followed for the Public Hearing. I am Ruthann Okun, for the City Attorney's office. Sir, I am Ruthann Okun from the City Attorney's office. Thank you for your input. The legal procedures have been followed for the Public Hearing.

Mr. Kovach: O.K. But I still can't see how you can vote on four different proposals. You're going to pick one of them, but you don't even know what you're gonna pick. I can see that you....

Mayor Rotteveel: (Interrupting) We have recommendations from the City Manager and department heads.

Mr. Kovach: Are you gonna pick it tonight?

Mayor Rotteveel: We gonna, we gonna, we gonna prove that we gonna present it to the DNR for approval. They might even approve it.

Mr. Kovach: Well, then there is no reason, ya know, uh.. Mr. Garcia said something the people can't do. There is something the people can do; we can recall the whole bunch of yas.

Mayor Rotteveel: That's not going to give you a sewer.

Mr. Kovach: and I can be you guess is right because it will only take 3% of the...

Councilman Trombley: (interrupting) Your Honor.

Mr. Kovach: total voted at the Governors election, last election.

Councilman Trombley: (interrupting) Your Honor.

Mr. Kovach: So think carefully when you vote tonight.

Councilman Trombley: Your Honor,

Mayor Rotteveel: Yes, sir.

Councilman Trombley: I don't believe we are voting on four proposals number 1; we only going to vote on one.

Mayor Rotteveel: Right.

Councilman Trombley: Uh...if it's your \_\_\_\_ called, you know. I just want to relay this one more time. I've worked hard in this City. I was born and raised in the City and don't want no money from the taxpayers that they shouldn't pay. But if you think we are not doing the right job here than that's your right if you want to do a recall. That's fine with me. You do what you have to do. This Council is sitting here trying to save you half the money and because some people don't want it, that's fine. We don't have to do it, but after the \$13 million and you get a bill for 30 million then that's fine too. If that's what you want. I mean we are only trying to do what is right. Because,

Mr. Elliott: Your Honor.

Councilman Trombley: Somebody spread rumor around as far as I am concerned the political vendetta is still going on so let it be.

Mayor Rotteveel: First of all, we did this not just a pipe dream we came up with just to put it out. You know, there is a lot of time involved and alot of concern for everyone. Yes, you know, anytime you have a big

project and you gonna talk to 10 or 15 different people and you get 15 different answers how we should do it. And there is only one way we can do it. We have qualified staff to make recommendations for us to make the decision on.

Mr. Elliott: Your Honor,

Mayor Rotteveel: Yes.

Mr. Elliott: Before this next gentleman speaks, I would just like to make a quick response to the previous gentleman. The project plan that is before the City Council this evening is based on the \$13,200,000 project. There should be no misconception about that as to what the project plan is. If that ultimately is presented to the DNR for their consideration, this project as shown in the displays this evening will not start immediately. It is subject to the ultimate court order so nothing is going to happen until all has been signed, sealed, and delivered so to speak involving the court. In terms of the engineering costs, we were not prepared tonight to get into the exact breakdown of engineering costs but let me certainly address if the City performs a \$13,200,000 project, there is a certain percentage that is scale whether it is done through Hennessey Engineers which is the current City Engineering firm or whether it be done by any other engineering firm. There are certain costs that would be borne in this magnitude of a project. And they will vary per the scale that is adopted by the City Council. We are not avoiding your questions, sir, that is just

Someone interrupts, can't decipher what they are saying.

Mr. Elliott: I'm sorry, I am speaking to the other gentleman. We just don't have that breakdown here this evening.

Mayor Rotteveel: O.K.

6700

Thomas Cole - 17974 Mulberry - I think that is a real problem. You people don't have any breakdowns. You know, I read in the paper \$43 million. What are we talking about here? We're talking about we just turned something over to an engineer firm without send sending out for bid. I don't care that he works for the City of Riverview. Evidently, the City doesn't love the man. He's had problems with the City. The City tried to get rid of him and they can't do that. Now, we just turned over a project to him and he's gonna spec it all out and we're not even gonna set up nobody else. We are going to take Mr. Hennessey's was of doing this. Is this right or wrong? We have one engineer projecting a big, big project. And we're gonna just go with that. We didn't send this out. Maybe there are other firms that would have liked to bid this project. Cuz, we have a contract with Tim Hennessey, I'm sorry, Hennessey Engineering, we are going to turn over \$43 million of our money? I don't understand where you people are coming from. I am standing in a building that you people made mistakes on. I mean we ain't talking 2 million, 4 million. We are not dealing with people up here that are the most intelligent people in the world because none of you are. And we are dealing with people and we're dealing with the City, and we're dealing with big dollar bills. And you people want to have one meeting and tell everybody this is what it is gonna cost you, like it or not. It's that simple.

Mayor Rotteveel: Sir, Sir, we could have had twenty meetings you know and got twenty different answers.

Mr. Cole: Well, don't yo expect to get twenty different answers? Do you think that your answer is the only answer. Mr Tim Hennessey's answer is the only answer, or

Mayor Rotteveel, No, no.

Mr. Cole: the man from the county is the only answer.

Mayor Rotteveel: You people elected us...

Mr. Cole: We don't count, huh?

Mayor Rotteveel: You people elected us to make the decision.

Mr. Cole: We didn't elect you to make \$43 million decisions. NO SIR, I did not do that. I did not elect you to do that! I think I have people here in an audience that should be made to make that decision, not you! You are not capable of making that kind of decision. I think you should leave it to the people of Riverview. At least give them one or two meetings.

Mayor Rotteveel: And do it 100 different ways?

Mr. Cole: Huh! Whatever you decide to do is what we decide to accept? Is that right? What do you mean...why are you shrugging your shoulders?

Mayor Rotteveel: I don't want to argue to facts.

Mr. Cole: You have to argue! That is what you are here for.

Mayor Rotteveel: We have a job to do and we are telling the people what is going on O.K. so you are aware of

Mr. Cole: (interrupting) What are you telling me? What are you telling me? That you took a project and turned it over to one engineering firm of multi-million dollars. You don't like to hear this. Multi-million dollars and you turn it over to one engineering firm and you said here, give us something. And you're going to the county with it and you are going to spend \$43 million of Riverview residents money. And you think that is just fine. Sorry, I don't believe in that.

Councilman Koch: Your Honor.

Mayor Rotteveel: Who is it?

Councilman Koch: You know, I think there is a lot of distortion and we are getting off the, what a Public Hearing is all about. It is about this sewer project tonight. And the gentleman who just spoke to \$43 million. and the council was talking about 13 million. You know, that is a big disparity. So if you want to get everybody in an uproar, go ahead and escalate the facts. There

is something else I think you people ought to know, and I'll try to keep it very simple for you. What we are doing tonight is not finalizing which project your city government is going to do, Mike. We are not finalizing anything. We have restrictions under the law just like any other City. To get this super fund money, we have to adhere to the program and the hearing what we are having tonight. That doesn't mean we're even going to get to use the money. I explained that at a previous meeting. It's like going to a bank, like a businessman would go to the bank, asking for a letter of credit. We are trying to get a letter of credit because we know we can get it at 2%; we're hoping. That doesn't mean this project, and keep in mind that it doesn't mean Hennessey Engineering is the final engineering firm in this project, that the gentleman has a good point. If I thought there was only one engineer looking at this project, I too would be in an uproar. You heard the City Manager tell you our engineering firm does not have any final say so. The City Council and the Mayor do not have a final say so.

This plan will go back after we see if we can get the funding; it will go to the DNR, it will go to Environmental Protection Agency, it will go to the Federal Court. Judge Fikens has engineers and people that will look at it. That's the determination you want to all worry about. Because they have all five plans my book is up there that the county has recommended. The Judge may say exactly what some of the residents here are thinking: Riverview, your plan won't work. But unfortunately, to confirm with the regulations to qualify for 2% funding we have to move at the scale and the time element given to us

by the fund and the people who manage it at the State of Michigan. That is what we are doing here tonight. If you notice what the City Manager told you about the resolution coming up, it did not say we are adopting this project. There was a big word in there we all missed evidently. Intent. This Council intends. We have an intent to go with this program. Because we can't tell the county and we can't tell the Federal Court either what to do. But we have to move on the timetable because while '95 sounds like a long way off but with a project like this, it is not. And if we dilly-dally, and let me tell you this; I've been a banker for 40 years so in response to the gentleman, I understand money, but let me tell you, if we dilly-dally and cost you people 8% instead of 2% regardless of the project the board approves, then you are going to lynch us, and I don't blame you. So at least, we have to try to lock-up the funds for you tonight. They may never get used because the Court may not approve this plan. Thank you.

Mayor Rotteveel: Yes, sir.

Anthony Weaks - 18317 Quarry Road - All I can say is we are putting this project in the hands of the same engineer who has messed up our ski hill. We were on the news last week. We should have another opinion. Thank you.

Mayor Rotteveel: Yes, sir. Yes maam.

Joann Barczewski - 14746 Georgia - I would like to ask Mr. Kovach and Mr. Durand have you ever cleaned up your basement when it has flooded? Do you ever get flooded basements?

Mr. Kovach responds but not into microphone. Cannot decipher.

Mrs. Barczewski: You just said your basement never flooded on Quarry. Good, I hope your basement flooded this deep like ours. First of all, if the landfill is so profitable, I can see no reason why we shouldn't use some of that money to help the people who have had flooded basements. Mine has flooded four times and I am glad to see that the City has finally recognized there is a definite problem in this City. First of all, I would like again and I've offered this invitation to anybody before, come and look at my yard. My yard is like a big sponge right now. I get everybody's drainage to my yard. My yard is not graded right. Everything flows toward the house. For almost 14 years we have done this, we have fought with the City over the grading of the lot and the flooding of the basement. And I'm glad to see that they have finally admitted there is a problem in the City of Riverview with flooded basements.

Councilman Weaks: Your Honor. Your Honor.

Mayor Rotteveel: Yes.

Councilman Weaks: Jim Weaks. I guess I would like to just go on record saying that... I guess I'd like

to go on record saying I'm on the Council minority position of this particular proposal. I haven't supported it from the past. I think we still need to go out and do some fact finding, but I guess I would like to respond directly to the comment about flooding in the neighborhoods because Mr. Hennessey has provided a number of studies to us. One study which was done in 1988, addresses specifically the removal of the footing drains and down spouts. Not disputing dollars and that, I guess I'm looking at it from the engineering aspect and the coordination with Wayne County and I would like to quote Mr. Hennessey's words as a matter of fact. It talks about "the problem with this approach removing the footings drains and down spouts is that cost would be from 5 to 6 million and would cause a great disruption to between 3,000 and 4,000 residences which have the footing drain connected to the sanitary sewers". That withstanding it says "an additional detrimental effect from this method of controlling excess flow would be that even if the City of Riverview removes the footing drains, the surcharging of Riverview's sanitary system by the Wayne County facilities would continue probably five years due to the present overloading of the Wyandotte Treatment Plant. Thus, this method is not recommended." I guess I would like to direct to Mr. Murray, uh, seeing we had two construction schedules that weren't in parallel sequence and the City of Riverview's solution would be ahead of Wayne County's solution, is there going to be the continued risk of surcharging in the system until Wayne County's program is implemented?

Mr. Murray: All communities run the risk until you are finished with construction with surcharging. The...I'm not sure Mr. Hennessey shouldn't be answering this specific to you.

Councilman Weeks: Well, I will ask Mr. Hennessey to repond in all fairness.

Mr. Murray: The construction schedule being 12 months out of since I don't think is a great deal, a great disparity. And um, my experience with some construction schedules is optimistic as you hope they are sometimes they get extended for unforeseen circumstances and other things, so I don't think that 12 months would put you at any greater or less risk.

Councilman Weeks: Stated differently, then, through 1996 we will continue to have the opportunity for surcharging in this system.

Mr. Hennessey: I would like to comment on that.

Councilman Weeks: You can. I just wanted Mr. Murray.

651

Mr. Murray: I'd rather deferred Mr. Hennessey cuz we haven't had the proposals submitted to us or engineering on how that would be affected. Mr. Hennessey, I think you are better.....

Councilman Weeks: Yes, Tim, would you please respond?

Mr. Hennessey. Yes. At present, the Huntington area goes down through the directly to the plant. Well, if you follow my slides, we are separating it at Fort Street and taken that area to the Longsdorf Pumping Station which will not be affected by a back up from the plant.

Mr. Weeks: I guess I'm a simple kinda guy though. If you have a gallon jar, it's only going to hold a gallon of water. I think we've said, or you have said we have a half million gallons/day of excess flow annually. And so I think the answer still is that until the whole system is made whole and you have the basins in place that you can't prevent the surcharging. Is that true or is it not true?

Mr. Hennessey: My comment would be that our flow monitoring indicated that we had about 4.9 million gallons and from footing drains and downspouts and also I know that the one sewer that's down parallel to Huntington Drain - the 18" that was put in in 1920 - adds an awful lot to our system. Removal of these will decrease the flow to the plant. As far as the surcharging of the plant, they never cut us off completely. They've cut us off as they weren't able to take our big flows but they were always able to take some. In our rejection of flow, I think is reasonable to expect there will be no surcharging of our system at all.

Mr. Steklac: Your Honor. Tim, could you maybe explain to everybody what a design storm is. What we are designing for in this system and why there is a difference in what the DNR is doing. I think there is a conception here that we will guarantee there will be no flooding, but we're trying to design for a certain type of storm.

Mr. Hennessey: I think we're..I think the DNR will permit the County as a whole to design for a 3.48 " of rainfall in 24 hours. Now previous to this it was a 3" rainfall. Now, there is nobody saying you can't get a 5" rainfall. O.K.? And if you got a 5" rainfall in 24 hours, you would have problems.

Mayor: Yes, sir.

Jerry Filipiak - 19310 Brandywine - I need one question answered. We're gonna reduce flow. Agreed?

Mr. Hennessey: Yes.

Mr. Filipiak: Where is the water that we reduced going to go?

Mr. Hennessey: Basically, your existing sanitary system which you have now will be conveyed by the existing sewer pipes to a storm pumping station and will pump into the area drains. And you will have new sanitary system picking up you sanitary flow only.

Mr. Filipiak: Then, does it have to be treated?

Mr. Hennessey: The stuff from the footing drains do not have to be treated.

Mr. Filipiak: So that's going to go directly into the river?

Mr. Hennessey: River, right.

Mr. Filipiak: O.K. So what you are telling me is when you dig up my front yard, you are gonna take my sanitary and you're gonna send that to the treatment plant.

Mr. Hennessey: That's right.

Mr. Filipiak: And everything else, you'r gonna pump untreated into the river.

Mr. Hennessey: Everything has to flow to a pump station.

Mr. Filipiak: You're gonna dump it into the river.

Mr. Hennessey: Dump it into the area drains. O.K.?

Mr. Filipiak: Which is going to go into the river untreated.

Mr. Hennessey: Well, all your storm water goes into the river untreated.

Mr. Filipiak: O.K. Is this kosher? Is this in.. does this comply?  
I need....

Mr. Murray: Again, the DNR is going to be reviewing that one of the concerns I think that were raised is that people will have basement floor drains inside the basement. So if you have people putting chemicals down those drains, it might result in some problems at the pump station and the discharge into the river, I would suspect. But, that would be a DNR review and.. and they will have to consider that in the review of the project.

Mr. Filipiak: So, one of two things can happen. And that will either add a cost or they will disallow it at the DNR.

Mr. Murray: Or they will find it is not a problem.

Mr. Filipiak: Or, they'll find it's not a problem, but what you are telling me is that when this happens, I will not be in the position that lady is - I'm gonna have a bigger sponge in my backyard or I'm not going to have problems I don't have now. You are guaranteeing me this? You are guaranteeing me I'm not going to have problems I don't have now.

Someone hollars: Have them put it in writing.

Mr. Filipiak: That's what I want. I want you to gurantee...

Mr. Hennessey: I would say first, we are desgining for 3.48"....

Mr. Filipiak: No, no, don't tell me what you are designing for..I'm not going to have problems I have now if this goes through.

Mr. Hennessey: I am confident we'll achieve our objectives and you will not have problems.

Mr. Filipiak: Your...That's the guarantee I got from you personally. Your expertise as an engineer?

Mr. Hennessey: My expertise as a professional engineer, yes.

Mr. Filipiak: O.K. We've got that on record. That's what I need. It makes me feel alot better.

Donald Cady, 14728 Old Town Court - I just moved here from Macomb County and as I remember several years ago Lakeshore Drive, all the water used to run into the lake. The DNR made us put sewers in there. They said they can't dump that into the lake because it is exhaust and dirt off the tires and everything, so I challenge your statement about the riverwater or the drainwater going into the river untreated. The other thing was, if I understood what you said, the rainwater that goes down the street sewers, like on Fort Street, goes into the treatment system or does it go into the lake?

Mr. Hennessey: It goes into the drains...Huntington Drain and then goes to the river.

Mr. Cady: Untreated?

Mr. Hennessey: Untreated.

Mr. Cady: Well, I guess maybe those of us who lived in Macomb County were had because they wouldn't let us

let the water run off Lakeshore Drive into the lake.  
I hope you're right, because I live out here now.

Mayor Rotteveel: Yes, sir.

Tony Barczewski - 14746 Georgia - I have a questions for Mr. Murray. These thirteen communities that are being forced to clean up their act with the Wyandotte Sewerage Treatment Plant...what about Detroit? Are they being forced to do the same thing or is it just the downriver communities?

Mr. Murray: No, they are in federal court too on corrections to the Detroit system.

Mr. Barczewski: Are they being fined everyday?

Mr. Murray: No. And neither are you at this point. In fact the judges said the DNR & EPA would seem to be very aggressive about wanting to collect fines and penalties that he thought it was better to spend that money here correcting problems than to send it to Washington.

Mr. Barczewski: Because I have been out on the Detroit River and Lake Erie after a storm and it's a shame what's going on. And I don't feel this community, or these 13 communities are being forced to comply with the DNR and let Detroit keep dumping right in there.

Mr. Murray: We agree, and it's not just a Detroit problem. The Rouge valley communities have a very severe problem that is separate from this one and we agree with you.

Mr. Barcewski: So, if we clean up our act, are they going to be forced to clean up theirs?

Mr. Murray: Yes sir.

Donald Cady again - In the allocation of water treatment between the various communities, what happens when like we have an enlargement of Detroit Metro Airport? Are they going to come along from some FAA ruling and say O.K. you gotta get 10% of yours kicked in because it is for the benefit of everything and here we are back again trying to get ten pounds of bullshit in a five pound bag, ya know. Right now, there...it's a fact of life that whenever you put cement on the ground, it's not going to absorb any water. So what is going to happen when you have an airport expansion, is it all going to come out of that particular communities allocation?

Mr. Murray: I can speak to that. There's a separated system at the airport so the sanitary sewage that it sends to the treatment plant is within its contract. The storm water and you're right, the more concrete there is the more water is produced. The storm water retention system at the airport that is being designed with the expansion will accomodate what is called the hundred year or 1% likelihood of getting a huge storm and it can hold it completely on site without a discharge. So the storm water system, more than any other community in the downriver system is way beyond what any other community has done. And that is one of the conditions Mr. McNamara and Board of Commissioners required with the expansion.

1279

Mr. Cady: Do you feel some of this problem is a result of a freeway system?

Mr. Murraray: Freeways add to run-off, but the system you have, I think, has been well described by your engineers that you have an old leaky sanitary system that leaks so badly that it can't even transport it to the County system under certain rains and that's why it should be replaced.

Mr. Cady: That isn't what I understood them to say.

Mr. Murray: Well, that's what I understood them to say.

Mr. Cady: My house was built 17 years ago. I don't think I've got a 50 year sewer under the ground.

Mr. Murray: Well, you have some 50 year sewers in some parts of your community.

Mr. Cady: O.K.

Mayor Rotteveel: Anyone else?

Ron Huber - 14305 Greentrees - And I basically would like to commend you gentlemen for working on this project in an effort to save money. In looking at the numbers here tonight, it certainly looks more attractive than the alternative proposals. I think the biggest problem you are going to have is gonna be convincing the community of Riverview that we are saving alot of money. I think some people may be convinced here tonight. But getting the word out, the communication out to the public is really going to be important. We can see that the opportunity is now to try to head off having another more expensive project jammed down our throats. Some years ago, Allen Park was in a similiar situation where they had some alternative low cost proposals which Fikens was involved in it then also and their low cost proposals were repeatedly rejected. I would only hope and wish you the best of luck in selling this project to the DNR and Judge Fikens and save us some money. It looks we're pretty much under the gun to do something.

More specific question for Mr. Hennessey. You mentioned this would bring us in compliance if the storm run off or the drain tile flows were put directly in the storm sewers and was there allowance made for future construction in terms of additional sanitary sewer flows from them even though their sewers will be separated like you would retro-fitting the existing homes?

Mr. Hennessey: The only area where we have new sewers going is Sibley subdivision if it ever goes. We are about 98% complete, our system. So, when you put in new sewers at present, you put generally with PVC and the leakage is practically nothing. Any new construction in Riverview will have an insignificant effect upon their system.

Mr. Huber: It won't increase the total sanitary flow enough to push it right to the edge.

Mr. Hennessey: Not to be...not to be...uh...of any effect upon the system.

Mr. Huber: O.K. And uh... the mention of financial plans of which there were four of them several which involved landfill funds. I think that is also an admirable plan that is a large source of income which our community has made use of in the past and we should continue to make use of as long as we can put trash in the landfill. I take it Council will decide which one of those financial plans will be utilized as far as landfill money or any of the other choices. That is correct? And will there be subsequent hearings or opportunities for input from the citizens on the funding alternatives? I realize tonight isn't really going to be happening as far as getting that far.

Mr. Elliott: Your Honor, I would like to respond to that. There will be opportunities for public input on the matter of rates. The Council will not address that particular issue this evening. The matter of rates will

1592

be dealt with in terms of the budgeting process as the City Treasurer indicated most directly in the coming weeks as far as the water rates. When the long term capital costs of this project assuming the \$13 million project proceeds as proposed, then the Council would address those options on setting the rates to pay off the debt. And that will be done only at the time when those facts are known which is not expected now until at least the month of October.

Mr. Huber: O.K. As long as the word gets out ahead of time. It looks like we have four alternatives which could cost us anywhere from a rather small increase to a significant increase over the current rates for this coming year. So I think the community would appreciate more advanced warning and a chance to think about such things and be here to help make the decision. Just one last item. It was mentioned, and I want to make sure it was understood that the initial consulting was done by your Mr. Hennessey and Company under city contract which he is currently working. And once this project, and if it gets underway at that point, would it be opened for bids for doing the construction and any subsequent engineering work; is it a normal procedure to do it that way or how would that be done?

Mayor Rotteveel: We go by the recommendation from the City Manager but we might have..we might get other bids from other engineering firms. That's up to the Council to decide what we think is the best thing to do.

Mr. Huber: O.K. That's all the questions I have. Thank you gentlemen.

Mr. Murray: I just want to respond to one comment, Mr. Huber, and I think you're right on the Allen Park and some other places it seems like we got out of whack here. And uh, I was on the area wide water quality board and was chair of that board when we were making comments to Judge Fikens that we thought there might be some other alternatives that Allen Park might look at. And at that time, you had an elected drain commissioner here that who was adamant that there were not going to be any other looks and for any reason that might be. Uh, we have eliminated that as an elected position and the county executive has put DPW and drains and solid waste planning together in the department I am with and he also tried to foster a system what we called glass nos. We have been working with every community. We had them involved in how we procured our engineers. How we were going to look at this system and got their comments just to make sure everybody played the game right and peer pressure, I think, keeps us all honest.

In that respect I think Riverview has played a very strong role and got out early because there could be a lot of pressure on this 2% money. I think what they are telling you here tonight, and I can't disagree with it, is that they have the opportunity here based on your consulting engineers and staff to take advantage of what the other communities will have to wait a little bit longer to do because they have not proceeded as rapidly as you have. And if they don't, if they are not successful because of other reviews from the state or from the judge at least they gave it a good shot and it was a shot intended to save a lot of money and if they are correct, then you will have not only be looking at a smaller cost project that you would be looking at next year, you will have a lot less competition for this 2% money which just insures that their likelihood for it is greater. It doesn't mean you are going to get it, but the likelihood is that given the playing field, you don't have as many players on the field trying to get that same prize. So in that respect, I think they have been trying to move expeditiously and there's no fatal flaws here if something happens and you have to re-evaluate that position.

Mr. Huber: Well, that sounds encouraging based on what you said. There were alot of bitter feelings 10 years ago in Allen Park and sounds like things have changed considerably for the better in terms of fair hearing of these alternative lower cost plans. So, thank you for your clarification.

Mayor Rotteveel: Yes.

Bob Ratz - 20205 Wellesley - I have one question for Mr. Murray. The question I have is will the county and their engineering staff be evaluating this proposal to determine whether it will meet the objectives or are they just going to look at it and see.....

Mr. Murray: (Interrupting) We will rely on DNR review and if .. they are the ones who will approve it and say it beats the cost effective that is eligible for the 2% and that it will meet the project performance criteria if it does get that grant. So we will give it a cursery review, but the EPA is the one who has the regulatory responsibility for it.

Mr. Ratz: Aside from the money issue and the 2%, just the engineering issues, will there be a review through your office or the DNR office that you're aware of that will evaluate whether the assumptions or the performance that's anticipated will be met?

Mr. Murray: Yes.

Mr. Ratz: You will be doing that?

Mr. Murray: The EPA...uh, or DNR will be doing that.

Mr. Ratz: O.K. They will look at that to see whether...

Mr. Murray: No project can be funded....

Mr. Ratz: Not from a funding standpoint, just from the engineering standpoint.

Mr. Murray: Well, they have to give it that, Bob. From uh, from...it has to at the end of a project, be what is call a project performance certification. And that is you have achieved you desired removal and if you are not able to demonstatrate you have done that, then we are faced, the EPA and DNR is faced with the situation that you could have to refund that money and use you own money. Obviously, DNR doesn't want to be put in that position, so they pay very close attention to the assumptions and to whether it can achieve what it is intended to achieve.

Mr. Ratz: O.K. The only other issue um... I think a project of this nature and the assumptions you have to make in a project of this size, to determine what flows will be reduced and could warrant this type of project being phased in to evaluate the first and most serious problems of the real leaking sewers, phase them in, and evaluate to see if your assumptions are still correct in terms of the amount of flow and then proceed on with the project as opposed to just going ahead full steam finding out your assumptions were incorrect and now we need to spend additional money through another basin. One final question - did we evaluate a separate basin for this city itself? The numbers I saw was based on a county-wide type of proposal.

Mr. Hennessey: There were a number of county proposals beside the ones listed. But one was for a 100 million gallons/day plant plus the city's own retention basin; one for the 146 plus the city's retention basin; and the third one was for the county to spread their retention basin in various areas for what was best suited. Then, the fourth one, of course, was the Riverview proposal, which is is line with the county's.

Mr. Ratz: Was one of those proposals just a city retention basin on their own where the city would handle just their own overflow?

Mr. Hennessey: Yes. There were two of these.

Mr. Ratz: O.K. And those were the 146 and....

Mr. Hennessey: That was the 100 million and the 146 million gallons.

Mr. Ratz: And just the city's owned...just the city's volume themselves, no other input from anyone else?

Mr. Hennessey: Yes.

John Chesney - 14333 Dundee - I've heard all kinds of talks on cutbacks in regards to input. Is our problem that we don't have the treatment facilities to handle our flows, and if that is the case, why hasn't a look been taken at increasing the capabilities at our treatment plant instead of cutting back from the thirteen communities - is this been studied or considered?

Mr. Murray: Yes, in fact, we even looked at increasing the plant size to 200 and some million gallons/day. One of the constraint is the plant is physically located in Wyandotte and there is not a lot of room around that plant on which to expand. Plus, that proposal could run in excess of 500 million dollars with contaminated soils and whatever else you might run into. We don't think the district has a need for that size plant, even though that was one of the alternatives we looked at and that the cost is prohibitive. We think what you need is to....what is your expected population growth? What is the amount of flows you will be producing that you'll need treatment for? And obviously, the closer we can come to that, we can minimize our cost and maximize the service to those who are going to be using it instead of trying to create some grandy ole' system based on plans as we did in 60's...or in the 1960's that said we were going to have this megatropolis and we're going to have all these people living here and we did some things then expecting populations that are not here to pay for it. And that can be very expensive. We try to come as close as we can on the expectations as best as we can foresee the future.

Mr. Chesney: In retrospect, Mr. Murray, with all the accumulated monies from the communities that are going to be involved in adequate changes, would a larger plant construction, you say 500 million dollars, uh..the way the monies are being thrown around 500 million dollars seems like junk-change at this point.

Mr. Murray: Oh, it is not junk-change. You saw your proposal here at 13 million and that's with a lot of other incentives here to try to keep your costs low. I don't think...I...I don't consider 20 thousand dollars junk change. Five hundred million....pretty soon we're going to be talking about real money here.

Mr. Chesney: We are talking real money. Thank you.

Mayor Rotteveel: Yes, Sir.

Mr. Turner - 13752 Hamilton Road - I would like to address the person who calculates the bills on the intake and outtake on the water bills. Am I talking to the right person?

Mrs. Abercrombie: Yes, you are.

Mr. Turner: How do they compute those bills? I pay

less for water. I pay more for discharge. Why is that?

Mrs. Abercrombie: At the time the rates were established in 1982 and still currently, our sewage bill to Wayne County is higher than our water bill from the City of Detroit. It costs us more to treat the sewage that goes out than it does to bring clean water into the city. That is the basic reason. As time is passing, and the water rates that we are proposing is reversing itself somewhat because we are eliminating the capital charge and putting that into an operating for water lines which will have to be replaced down the road. But based on the rates that were in effect for ten years which were strictly operating rates, with no capital components at all, our actual direct costs for processing sewage are higher than those for getting water.

Mr. Turner: How do you compute that - on the meter I have on the side?

Mrs. Abercrombie: Yes.

Mr. Turner: And you also use that figure for the water I get charged for discharge?

Mrs. Abercrombie: That is true because that is the way we get charged from Wayne County currently.

2421 Mr. Turner: What happens all summer long...I water my grass,

Mrs. Abercrombie: Yes, you do.

Mr. Turner: I water my flowers,

Mrs. Abercrombie: yes, you do.

Mr. Turner: I wash the car...I have drainage that just goes right out into the sewer?

Mrs. Abercrombie: That is true.

Mr. Turner: All that water I am using and I am paying to discharge it? And then you tell me it goes out into the sewer or lake or whatever?

Mrs. Abercrombie: Yes, Yes. Even in addition to that, that is the way we have been being billed from Wayne County. We get a water bill each month from the City of Detroit that tells us how much water we brought into the community. We then use that same number of gallons and pay an equal amount of sewage to Wayne County, which we pay through our regular bill. We still have excess flow that we are dealing with that comes through the infiltration into the system. So, yes, we hear consistantly from the residents, but that water does not go into the sewage system. That is the way we meter and charge because that is the way we have been metered and charged.

Mr. Turner: I understand that, but I don't see why. I am retired and I have to pay for that.

Mr. Murray: Could I.... maybe from Wayne County's perspective, I agree with you...

Mr. Turner: You give me an answer.

Mr. Murray: ...we have had more complaints..

Mr. Turner: I have when I see the bill,

Mr. Murray: Sure...maybe I could explain, uh, trying to meter sewage has been an inexact science until recently. Part of this program is we have meters all over this system now. Wayne County is looking at charging just

on the metered flows and I think communities would rather do that. Everybody has water meters.....every community for water supply for the water you drink and the water in your house. Those meters are already in place so it was just convenient surrogate for saying well, if you used that much water we are going to assume it is getting into the sewers even though in some communities that is not the case. In fact, that meter never adds up to what we treat at the plant.

The excess flow is that storm water stuff that is coming in. We would like to get to a system where we just meter the flow from your community and that way they can just...I don't know how they can go back to each resident...but at least the community is not paying for more than we are treating at the plant. In some communities, they do not take as good care of their system, are paying, they are subsidising other communities and saying oh the heck with it, we don't have to worry about it. So you saw that Transport and Treatment cost?

Mr. Turner: Yes.

Mr. Murray: It is going from \$1.00 to \$8.00. People are going to start taking care of their systems.

Mr. Turner: .... That's a lot of difference. I don't mind paying for something I use or something I do. If I go to the bathroom, I don't mind paying for that; going out and getting charged, but I don't ...hey.. that goes directly.

Mrs. Abercrombie: I understand. Even if Wayne County begins to charge us based on what they meter coming out of Riverview, we have the problem in that we do not have sewage meters on everyone's house. The only way we could ever bill those two separately is to actually have meters installed on each home so we could get a separate reading from your water and your sewage. Now, when that happens, we may assume that the sewage will bill throughout the city will go down in terms in the number of gallons that we are spreading this cost over. However, it is still going to cost us the same number of dollars per year from Wayne County in order to pay for that treatment. So, there would be a difference in the way we allocate the cost; but the cost would still have to be borne by the entire system. So, where I would see the difference is those people who water their lawn heavily or have swimming pools, those are the most often complaints that we get; those possibly are in fact paying a little more of their share for sewage than the folks in town who may not water grass during the hot times and so on. But we really have not got to the point of addressing separating the water and sewage meters, because, up until now, has not been a choice in Riverview in terms of the way we pay our bills. That will be something we have to look at in the future, but along with that of course, would be very large capital costs to get an initial project started to meter the sewage treatment.

Mr. Turner: Well, thank you, but I just thought after being in Riverview 20 years, if I started computing what I paid extra to Wayne County, they owe me money.

Mrs. Abercrombie: Well, that would be nice.

Mr. Murray: It would be tough to get it back.

Mr. Turner: Twenty years!

Councilman Weaks: I'm not from Wayne County...

Mr. Turner: Oh, I thought you were from Wayne County.

Councilman Weaks: Oh no, I wouldn't want to be one of those guys. I'm having too much fun as a Councilman.

Mr. Turner: Thank you very much.

Mayor Rotteveel: Anyone else?

Councilman Weak: Your Honor.

Manual Medino, 17454 Koester: I was looking out at the diagrams out in the hallway. I am \_\_\_\_\_ an engineer myself,

but it looks like some of these Y traps are in the back of the house. Is this correct?

Mr. Hennessey: The leads all come out the front of the house in your area.

Councilman Weak: Koester is in the backyard, Tim.

Mr. Medino: Yes, I live on Koester.

Mr. Hennessey: You live on the east side?

Mr. Perry: They come out the rear.

Mr. Hennessey: The rear, right.

Mr. Medino: O.K. and that was right at the footing of the house, right at the end?

Mr. Hennessey: Yes, right.

Mr. Medino: My house, I moved into approximately five years ago and it has a 12 x 24 addition built in the back of it on a slab.

Mr. Hennessey: Basically, what I have sir, in that case we would connect our, you know the footing drains that go around the house, we would connect it outside and we would only put the sanitary lead up to your addition. We wouldn't....

Mr. Medino: You wouldn't have to break up the addition

Mr. Hennessey: No.

Mr. Medino: Thank you.

Mayor Rotteveel: Yes, sir.

Thomas Cole: First of all, are we just talking about \$13 million here? This is the total package \$13 million?

Mr. Murray: I think what you are talking about...hopefully that's your total package plus whatever the improvement at the plant are to stable.....

Mr. Cole: You are not serious, you are going to up every house in Riverview for \$13 million?

Mr. Murray: I cannot speak to that..Mr. Hennessey,

Mr. Cole: Well, is that part of the project or not? I mean the houses have to be dug up. Is this right or wrong? Simple. You're talking \$13 million. Now, if you're talking \$13 million getting 2% interest, I can understand that. But, if you are talking \$13 million getting 2% interest so you people can do just what the County usually does - just go outta sight with the cost.

Mr. Murray: The County will not be doing that project. The local community will be.

Mr. Cole: O.K., that's fine. I understand that. It's just typical of how you'r gonna run it. It's going to cost a hell of a lot more than \$13 million. Right or wrong? The project now, not just the....

Mr. Murray: Well, sir, I can appreciate your concern, but from your tone and demeanor, I don't think there is any answer I can give you that is going to be acceptable...all's I can say.....

Mr. Cole: (interrupting) Is the project gonna cost \$13 million...

Mr. Murray: The project has been estimated to be \$13 and some million and I'm relying on them and that is going to be reviewed by the Department of Natural Resources and if it is successful and it does what it is supposed to, we all win. If it doesn't, then there are some other problems, but I am not going to speak to it and I think you gotta let that process take its course.

Mr. Cole: Well, I think that is a poor answer. The second thing I was going to.... you are going outside the building and you are going to tie into the weeping tile. Now, I do build houses. You are going to tie into the weeping tile on the outside which is laid level which is fed in five or six places into a house which feeds into the sanitary, and you are going to pick up the water around the house.

Mr. Hennessey: No...

Mr. Cole: You can't really mean that.

Mr. Hennessey: No, we are not going to....what I said was you know that Y that comes out of the house where the trap for the storm goes into the Y and that Y is under the exterior wall of the house. We are going to cut off the sanitary there and take a sanitary lead and leave the existing footing drain flow to go through the existing system.

Mr. Cole: Then, I must have misunderstood what this gentlemen just said behind me.

Mr. Hennessey: No, I said it he had an addition, like what we have to do is a few of them have additions.

Councilman Weak: Your Honor. I guess I'd like to address three quick questions, to Mr. Murray. Can you cite a city which has achieved 75% reduction in flow in your experience?

Mr. Murray: No, I can't.

Councilman Weak: What is the most...can you cite a city or tell me what city has achieved the highest reduction and what would that reduction be?

Mr. Murray: The accepted projects that we are doing, we're aggressive at trying to get 25 or 30%.

Councilman Weak: Tim, one for you; and really throughout this whole process you have been very responsive to all my questions and while I am a critic of yours, you certainly have worked very diligently to convince me this is the right thing. I truly appreciate that.

One thing we haven't talked about....maybe you have an answer to that. To the extent that we have sewers in the system that are 50 - 70 years old, is part of the \$13 million to rehab any of those? I mean if you have blockages or any problems as a result of this project, do we have a risk of failure of these old systems in terms of carrying the flow?

Mr. Hennessey: If you look at ground water which will be going to the sewers after, O.K.? They will be storm sewers. They are not nearly as critical as sanitary flow which has solids in it and blocks ups and like the basic ... I don't know if I am answering your question right, but we are going to use the existing system to serve the footing drains.

Councilman Weak: Right.

Mr. Hennessey: which is clear water, really.

Councilman Weak: Right.

Mr. Hennessey: There is, and Jerry can back me up on this, the problem with our sanitary system is, we get, due to the fact there is nutrients and everything else in there, we get tree roots and everything in to bind them up and block them. We should have very little blockage. What we were going to do is put in new house leads, new sanitary mains in the footing drain area. Now thats...I don't know if that answers your....

Councilman Weak: Well, I think the answer is there is no cost in the project to rehab any of the existing lines, but it is....

Mr. Hennessey: No, there is a cost for trunk sewers.

Councilman Weak: O.K., right. I am talking about the house leads.

Mr. Hennessey: No, no.

Councilman Weak: to the extent that it is clear water; that it shouldn't be causing a problem.

Mr. Hennessey: Right, it shouldn't.

Councilman Weak: And I guess just for the audiences sake....we've kinda waffled about engineering fees and I think it is crystal clear that Council has not taken a position whether Mr. Hennessey is doing the engineering work on it or whatever. But, in terms of ball park figures, this Council has authorized Mr. Hennessey to spend up to \$100,000 to do the preliminary engineering for this plan. His costs of this presentation and everything is borne by the taxpayers, which Council has authorized. Now, if...the worse case scenario I hope that Mr. Hennessey gets awarded this contract and the fee on this contract would be a percentage of the construction cost I believe, I could be wrong, Tim tell me if I am wrong with the percentage, it would be around 6% less the \$100,000 we have already paid.

Mr. Hennessey: 6% for the design, yes.

Councilman Weak: For the design.

Mr. Hennessey: Right.

Councilman Weak: So the 13.2 at 6% is around \$800,000.00?

Mr. Hennessey: Somewhere in that range.

3300

Councilman Weak: And then, inspection fees and there would be other fees that would be incremental to the \$800,000.00

Mr. Hennessey: Yes. No, not incremental. Testing and inspection fees are extra from the design.

Councilman Weak: Mr. Elliott, when would we be getting that information? Final, real engineering estimates. Is that Octoberish?

Mr. Elliott: Yes, Councilman Weak, like any public improvement project ordered by the City Council based on the preliminary analysis that would be done, at the point of going out for final engineering services, those costs would all be presented to the City Council most likely the earliest that would be possible would be October.

Councilman Weaks: O.K. Thank you.

Councilwoman Thiede: Your Honor.

Mayor Rotteveel: Yes.

Councilwoman Thiede: Councilwoman Thiede. Is it not true that no matter what this Council agrees on whether its to go with Hennessey's firm or another engineering firm, this body is, sorta say, trapped into paying engineering fees no matter who we go to. I need an affirmative or a no answer, instead of a nodded head, please.

Mr. Elliott: Councilwoman Thiede, I said in my comments earlier whether the project is ultimately awarded to your current city engineer or any other engineering firm, you are going to be paying substantial engineering costs on a \$13 million capital improvement project. I guess I am tempted to add that a project of this magnitude and the purpose of this public hearing is not to focus tonight on the engineering services but the tremendous public impact that this project is going to have.

Councilwoman Thiede: Right. That's my point, sir. And I understand that. As any other project this city has, that we always pay the engineering fees no matter which engineer we go to. And I appreciate the fact that we are not going to be discussing the engineering firms this evening as Council hasn't had a chance and hasn't gotten to that point since we are still talking the availability of funds and whether the program, or project is going to fly or not. Thank you very much.

Mayor Rotteveel: Anyone else?

Councilman Weaks: Your Honor. Just a quick rebuttal. My comments weren't really directed to Mr. Hennessey. I think in terms of engineering, Council has several alternatives whenever we do engineering services, it could be a percentage of construction costs, it could be time and materials, or a cost not to exceed. My point was, and you are right, we're absolutely going to pay high engineering fees. I am not here to take Mr. Hennessey's to task on it, but we do have options and it's not simply a fixed rate, it could be time and materials, or a number of options that we will study. Thank you.

Mayor Rotteveel: Anyone else in the audience?

3552 Councilman Capezza: Your Honor. You know, even though the public hearing may end, there may be some good questions that may be developed among the Council people. I had anticipated to ask several questions, but I didn't want to shoot questions at the Mayor as a participant in the audience. I was hoping to discuss it as a councilmember among councilpeople so I just want that known; that is why I was silent in the audience.

Mayor Rotteveel: Thank you Mr. Murray for coming out here. We appreciate it. We have before us..

Councilwoman Thiede: Your Honor. I just want to personally thank staff and the administration in inviting Wayne County and everyone else down here. I think you have done an excellent job and I feel the figures came across well and I think it was a good open forum. I also want to thank all the citizens for coming and showing their interest. It kinda feels good once in a while to have the support that you care what's going on in your community and we don't feel so alone. So thanks alot all of you.

Mayor Rotteveel: And it's quite a complex issue. It is not a simple issue. And we have....and I'm quite sure with all the input we have that we can come up to a solution that will be workable. That's not going to be done overnight. A motion to....

Councilwoman Thiede: Are we still going to discuss or no...

Mayor Rotteveel: A motion is in order to close the public hearing and then we go with Item 4.

Councilwoman Thiede: I move the Public Hearing be closed.

Councilman Trombley: Support.

Mayor Rotteveel: Moved by Councilwoman Thiede, supported by Councilman Trombley. Any discussion? Roll call.

Roll call was taken by City Clerk Girardin. Carried unanimously.

Mayor Rotteveel: We have before us 4.2 a resolution authorizing submission of a project plan for the City of Riverview Citywide Sanitary Sewer Improvement Project to the Michigan Department of Natural Resources for funding consideration under the State Revolving Fund Loan Program.

Councilwoman Thiede: Your Honor.

Mayor Rotteveel: Yes.

Councilwoman Thiede: I move the so mentioned resolution be received and placed on file and Council adopt the same.

Councilman Trombley: Support.

Mayor Rotteveel: Moved by Councilwoman Thiede, supported by Councilman Trombley. Any discussion?

Councilwoman Blanchette: I yield to..

Councilman Capezza: What did the project plan cost to date? You know, there was a \$100,000 limit on it but what was the cost to date, or approximately? Tim, do you have any idea?

Mr. Hennessey: I would say approximately \$50,000.00.

Councilman Capezza: O.K. And I guess the other question, Your Honor, and by the way, there were some good questions from the audience. A lot of them I think some of us would have asked ourselves when this moment came. I guess the other one was, and they keyed in on the amount of inflow that would be prevented by the repairing the sewers and things. And I think even Mr. Murray mentioned something like what was the greatest amount of achievement they found like 30% or something like that. I go back to a study that I guess it was from Tim and I read it. It came from Toronto and I read it through and I looked at some of the results. Tim, is there any reason why this report would not be accurate. It listed I don't know how many different, I think three or four different cities, participated in a rehab test where they lined these things and most of them came up with 50% reduction.

Mr. Hennessey: That is right. But one of the things is, if you read that report or another report more in detail they have said unless the house leads are replaced, they can never get the big reduction in flow. Of course, one of our big inflow problems is our footing drains. This... that subject did not stress that.

Councilman Capezza: And this did not address that.

Mr. Hennessey: Like we are getting about half our flow from our footing drains. These will be eliminated.

Councilman Capezza: And that was my point. So I think that's perhaps where your percentage may be a little higher than...

3941 Mr. Hennessey: Basically, the percentage for relining the sewers is generally set around 50%. With 30% for the house leads are about 30% and then the other percentage is coming up from the footing drains.

Councilman Capezza: O.K. Even though that is a high figure, you know, 80 or 90%, it may be...even 65 would be a great accomplishment.

Mr. Hennessey: Well, one of the things is that new sewers we put in today like the way we gauge test our sewers when we put them in, the rate, this is the County's formula. The only leakage you can have is 200 gallons per inch per mile of sewer. Now, of a new system in Riverview, at this rate, the most you could get into your sewer system would be about a half million gallons.

Councilman Capezza: I guess the other question is, this particular plan that we hope to go with, in my mind, the fact that you brought up and it was touched one once or twice about the fact that in some parts of the city, sewers are 50 and 60 years old and are going to have to be replaced anyway.. So the O & M (operation and maintenance) on these things down the road may cost us somewhere in that figure any...what we are paying for a project now; it is a possibility. I mean I am talking another ten years from now. I mean, is that a realistic thing? In my mind, that's why I am...

Mr. Hennessey: Well, one thing you have to remember about sewage flow is that like for the footing drain flow, which is clear water, they don't need as near as level of sewer as smooth surfaces for sanitary to provide blockage. I would say that, we hear so many times infrastructure the health of a city or community is based upon its infrastructure. Everybody seems to forget this so when they start talking about replacing sewers, they think they can live 150 years. That is not right.

Councilwoman Blanchette: Your Honor. I guess I am looking at this. I just think...I have to comment my hats off to Ed McNamara as our County Exec. I certainly feel that he is definately sticking it to Wayne County and the downriver communities at probably the worst time it could happen. We are in a recession, especially Southeastern Michigan. I just can't help but believe that they knew there was a problem and we were not made aware of or given any type of inkling that we might face these projected costs. I am real disappointed in him and his group. And, uh... yea, we're a progressive city and we have taken alot of progressive actions. The landfill speaks for itself and all the fine people who built it. But, are we going to be used for a guinea pig for this project and the County and DNR is going to sit back and see what has been done incorrectly or inadequately with the City of Riverview and then they are going to have our sister cities improve from there? As far as the 2% goes, I can't help but feel that the county, state and federal government are almost putting a circus-like atmosphere on this by putting a time limit on it and watch us scrap and fight with our sister cities in trying to get a 2% interest loan. I just uh...I am real disappointed in them. I am just very disappointed after reiterating what Councilwoman Thiede said about alot of people put alot of hard work into this and we have alot fine citizens here this evening wondering what in the heck is going on. I have to look at the County and the DNR and question them. I think they are too wishy washy. A case in point is recycling where we hopped on the bandwagon for them. We wanted to get it going. Then the County changed their mind - too wishy washy.

Councilman Capezza: Your Honor. There was one other question asked about the total, and it eluded me why couldn't we quote the financing here on one of the methods, you know, using the worse case scenerio of \$14-1/2 million and maybe another 10%. Why couldn't we....maybe I am missing something? Why can't we come up with a realistic figure? Is there some other monies in here that I don't see? Because I thought that was a very valid question. We're talking about a plan of \$14-1/2 or 15 million dollars say. Why couldn't that be.. the man asked that question. Why wasn't it answered? You know, nobody wanted to say it could be more? Was that, was that...

Councilman Trombley: The project was..

Councilman Capezza: It was 13 plus 3 plus 1.6 possibly to whatever the rehab of their sanitary...ya know, for the county plan. I mean it is going to be in the ballpark. Oh, and that brings up another question, pardon me.

City Manager Elliott: Councilman Capezza...a quick response. I think you are correct if we failed to note that earlier; it was our omission. The interest cost can be calculated;

I think some of the exhibits demonstrated that this evening. If we failed to really amplify that, just take that as our omission.

Councilman Capezza: Right. And these costs include the tearing up of the backyards, and installing the sewers...that's the total project.

City Manager Elliott: Right.

Councilman Capezza: Cuz, I didn't want anyone going away thinking that there was something else involved.

City Manager Elliott: No, at this point in time, we are dealing, of course, with the preliminary engineering costs but we don't have the benefit of bids or final engineering analysis, but we think that all the project costs would be in the 13.2 range.

Councilman Capezza: Right, and tonight, we are not awarding anything to Mr. Hennessey's firm...

Mr. Perry: (interrupting) Mayor...

Councilman Capezza: like Councilman Koch said...

Mr. Perry: (interrupting) with the exception of the cost of...

Councilman Capezza: (still talking)...we are submitting a project plan....

Mr. Perry:...That's not in there...

Councilman Capezza: (still talking).....so that we can go ahead and hopefully get 2% financing. That's it. Period. And hope that this plan that is presented meets, like he said, EPA, DNR, and all the other Wayne County approvals and it is a good plan. I mean, that's all we are doing.

City Manager Elliott: Your Honor,. I think Mr. Perry had a clarification.

Mr. Perry: Yea. That 13 million does not include the plant expansion.

Councilwoman Thiede: It doesn't include the what?

Councilman Capezza: The plant expansion. No, that is 1.6....

Mrs. Abercrombie: That is 1.4

Councilman Capezza: That's not included in that, right.

Mrs. Abercrombie: That's not included and on of the reasons, or the main reason it is not included is that it would not be a one time capital cost to the City of Riverview. It is my understanding those costs would be bonded by Wayne County and would actually flow to us through our operating rates that we pay them. So we have no idea in terms of when that occurs or how much at this point. That is not a capital cost to Riverview. It will actually flow to us through the operation rates which is my understanding.

Councilman Trombley: Your Honor. I would just like to relate again that I don't think anybody in this audience has thought that this Council, and I am trying to speak for everybody and some of my friends on this Council, I don't agree with all the time, they're trying to jam something down the citizens of Riverview for some unknown reason all we are trying to do is the best that we think's right with our dollars and to save the citizens of Riverview money. That's the only reason we are here tonight and to let you ask questions on why we are doing it. I am sure if they came here thinking that this was all cut and dry and its gonna cost the 13 million something plus the interest, that's not been approved yet. We trying to see if we can get it approved and to get that 2% money to keep the cost down low. That's the only reason for the whole Public Hearing. I've never...I've never stuffed anything down any city constituents in my life, I've never voted for a tax increase and I don't intend to stuff anything in you right now. And I don't think anybody else sitting up here has that intent either even though some of us may not feel we should go along with what we are doing right tonight with the resolution.

Councilman Capezza: Your Honor. I think retention basins were mentioned. Ya know, I think at one time, god, I was a big fan of a retention basin. I swore up and down that I wanted a retention basin back when Tim and whatever. Ya know, I thought that was the best thing in the world. I think in the explanations that were given, as Tim even indicated, if we built a retention basin that once that water goes in there and the floods subsides, that water has to be treated, so we will be paying for that treatment once it goes into the plant anyway, so it's a double dip so to speak if I am saying that correct. Is that right Tim...in other words....

Mr. Hennessey: Right.

Mayor Rotteveel: By eliminating the ground water, the sanitary sewer cost of treating the sewer \_\_\_\_\_

Councilman Capezza: (interrupting) That is the key point, exactly.

Mayor Rotteveel: Ya know, because...

Councilman Capezza: getting rid of the problem right now.

Mayor Rotteveel: 300,000 gallons of clear water just because it gotta find sewers then it will be a benefit that will last for many years to come.

Councilman Weaks: Your Honor. Yes, I would to end my comments on an antidotal nature. I'm sure everyone has heard the story about the eternal optimist. He's the guy who said he could fly; so he went up to the tenth floor of a building, walked out onto the edge and started flapping his wings. He stepped off the edge and as he proceeded, the 9th floor, and the 8th floor, and the 7th floor, and as he crossed through the 5th floor, he said,

"so far, so good" and that is really my feelings on this project. I think to rehab the sewer system is a marvelous thing to do, but I just don't believe it is the total solution. If we can't achieve 75% we need to participate in Wayne County's solution, and we need to do it promptly. We cannot wait until a year before they finish their project to participate. And I just believe we are moving entirely too fast. I think we are trying to use the funding as the solution for why we should adopt the engineering and I really don't believe it. So I know we are going to proceed with it so I will end my comments, but that's really why.....

Councilman Trombley: What about the guy; the same guy that jumped, when he hit the 5th floor pulled out a parachute? What happens then?

Councilwoman Thiede: Amen.

Councilman Weeks: That is only Batman.

Councilman Trombley: Everyone's saying you eat crow, I eat crow. That's not.... we are trying to do the best we can do. I call for the vote.

Councilman Koch: Your Honor. First of all, I would like to take this opportunity to thank the ladies and gentlemen for coming tonight. The total purpose of a Public Hearing is your input and I want to thank you for your input. But there is another side to a Public Hearing, that I think so many times, even the politicians forget. And that's our chance to tell you the problems. To tell you how we wound up here. And I tried to tell you earlier,

we didn't wind up in this position because we thought Riverview needed new sewers or because one of us had a great project plan to solve the infiltration problem. We wound up through a court order to the county which involved your community as it does 12 other communities. As the City of Toledo is going through; as the City of Detroit is in Court over. So, what we wanted you to know is what we were faced with. And I would like to end by telling you this. There is going to be alot of votes on this project. Tonight's vote is to try to secure the funds as I said earlier; it is just a preliminary vote. Because we going to have to vote down the line on the engineer maybe, we are probably gonna have to vote on who the construction company is, we are gonna have to vote on timetables, but before any of that, we better get the DNR's approval or we ain't gonna do nothing and we may be back to a 20 thousand or \$20 million plan or \$40 million plan. We don't know. We are sorry we don't have definitive answers but by golly, that is our side of it and it is important to tell you folks what is happening to your city. We are your elected representatives and we're going to try to minimize that damage to your pocketbooks as well as our own. Thank you for coming.

Mayor Rotteveel: Any further discussion? Roll call.

City Clerk Girardin took a roll call vote which was carried unanimously.

Councilman Trombley: Your Honor. I move that we adjourn.

Mayor Rotteveel: Moved by Councilman Trombley, supported by Councilman Capezza, that we adjourn. Roll call.

City Clerk Girardin took a roll call vote which was carried unanimously.

Meeting adjourned at 9:45 P.M.

UNFINISHED BUSINESS:

None.

NEW BUSINESS:

Resolved by Councilman Capezza, supported by Councilman Weak, that the following Resolution for Juvenile/Millage Proposal by Wayne County be adopted:

WHEREAS: A ballot proposal was presented to the voters of Wayne County in August, 1988, to authorize the levy of one mill (\$1.00 per thousand dollars of state equalized valuation) on the taxable property within the County of Wayne for ten years, from 1988 through 1997, for these exclusive uses:

To acquire, construct, and/or operate jail, misdemeanor, or juvenile incarceration or detention facilities and adult penalty options such as work release, home detention, and community restitution; with at least one-tenth of a mill to acquire, build and operate a juvenile offender work/training institution; and

WHEREAS, Seeking to find a solution to the mounting juvenile crime in its county, the voters approved the proposed millage; and

WHEREAS, The Board of Commissioners has found that the proposed establishment of a juvenile offender work/training institution was not economically feasible; and

WHEREAS, Disregarding its findings, the Board of Commissioners has allowed the continued collection of the one-tenth mill accumulating funds in excess of \$8 million dollars; and

WHEREAS, In response to political pressure from one city, the Board of Commissioners elected to distribute part of the collected taxes to that city for its own use in addressing juvenile problems; and

WHEREAS, The Board of Commissioners has ignored the plea of local officials to distribute the balance of the funds held by the County, for an abandoned purpose, to the local communities to aid them in addressing juvenile problems in their communities; and

WHEREAS, Several Wayne County communities have had to curtail juvenile assistance programs because of budgetary constraints and could use a redistribution of collected taxes to reinstitute services to their youth; and

WHEREAS, The Board of Commissioners has ignored the request of local elected officials to desist in their attempt to burden the tax payers of Wayne County by continuing this unwarranted taxation by adopting an amendment to County Ordinance 91-364, creating a County controlled program to fund its favored assistance programs from the funds collected under the authority of the 1988 millage proposal, contrary to the mandate of the voters of Wayne County; and

WHEREAS, The Board of Commissioners, by this action, are not acting in compliance with the intent of the millage proposal of 1988;

NOW, THEREFORE, the Council for the City of Riverview calls upon the Board of Commissioners of Wayne County to do the following:

1. Repeal Ordinance #92-115 which amends Model Youth Service Ordinance allowing the Board of Commissioners to redirect the one-tenth mill away from the intended purpose of the electorate.
2. Repeal the one-tenth mill levy immediately.
3. Distribute the balance of the unused tax collected to individual communities in Wayne County in direct proportion to that collected upon the taxable property within their communities, including interest earned thereon.
4. That the Treasurer for the County of Wayne give an accounting of all taxes collected under the ballot proposal of August 1988 (1/10th mill) and advise each community of its share under three (3) above.

BE IT FURTHER RESOLVED that the adopted resolution be forwarded to every community in Wayne County requesting that they adopt similar resolutions forwarding the same to the Board of Commissioners of Wayne County. Copies of this resolution shall be forwarded to Governor Engler, State Senator Dingell, State Representative Porecca, and the County Treasurer.  
Carried unanimously.

No one spoke.

**COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:**

Resolved by Councilwoman Thiede, supported by Councilman Koch, that Council confirm the appointment of Mr. John Dutton as Public Works Foreman - D.P.W. according to Sections 4.5 (b) and 2-16 of the City Code. Further, Council amend the Pay and Classification Plan for said appointment as endorsed by the City Manager for the pay range to \$29,500.00 - \$31,500.00.  
Carried unanimously.

Resolved by Councilman Capezza, supported by Councilwoman Thiede, that Council approve the request as endorsed by the City Manager for Request for Proposals for Compensation and Classification Study with funding set at \$15,000.00.  
Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Council approve the execution of the addendum for Solid Waste Disposal with City of Melvindale dated April 23, 1992 and the Township of Grosse Ile dated April 29, 1992 as endorsed by the City Manager.  
Carried unanimously.

Resolved by Councilman Weaks, supported by Councilwoman Blanchette, that Council adopt the following resolution for submission to the Wayne County Commission regarding User Fees on Landfills as endorsed by the City Manager.

WHEREAS, the Wayne County Commission is considering the adoption of amendments to the Wayne County Comprehensive User Fee Ordinance to provide financing for the County's solid waste regulatory, planning and administrative services; and

WHEREAS, these amendments relate in part to the recent elimination of State appropriations to Wayne County for solid waste management personnel and planning grants; and

WHEREAS, certain Health Department fees and Public Service fees have been proposed to be assessed against operators of landfills in Wayne County; and

WHEREAS, the City of Riverview, as a municipal operator of a Type II landfill in Wayne County, desires to have input on the proposed amendments to the Wayne County Comprehensive User Fee Ordinance for submission to the Wayne County Commission; and

WHEREAS, a public hearing on the proposed amendments has been held on May 4, 1992, and a subsequent public hearing is scheduled for May 19, 1992, at which time the City of Riverview desires to provide direct input on these amendments for the public record.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF RIVERVIEW, MICHIGAN AS FOLLOWS:

1. It is hereby declared to be policy of the City of Riverview expressing opposition to certain proposed fee amendments to the Wayne County Comprehensive User Fee Ordinance as noted below:

- a) The City of Riverview recognizes the intent of the Wayne County Commission to impose an eleven (11) cent per cubic yard fee against operators

of landfills in Wayne County, as specified in the proposed ordinance, for all solid waste received and disposed retroactive to January 1, 1992. The retroactivity portion of this ordinance creates a direct hardship on operators of landfills and their users, and further, constitutes an unfair transfer of tax burden to landfill operators and their users for support of Wayne County operations without due notification or justification. The City of Riverview seeks the elimination of this provision of the proposed ordinance.

- b) the proposed ordinance stipulates that should revenues generated from the fees referenced above be insufficient to balance the County's annual solid waste program budget, proportional assessments will be made against the operators of Type II landfills for the revenue shortfall. This action is deemed to be arbitrary and capricious in nature, lacks a valid relationship to the services being performed by operators of landfills, and constitutes discrimination against operators of landfills. The City of Riverview seeks the elimination of provision of the proposed ordinance.
2. The Wayne County Commission is urged to delete these referenced amendments from the Wayne County Comprehensive User Fee Ordinance.
3. The City Manager is here directed to present public testimony and a copy of this resolution as part of the public hearing on fee amendments before the Wayne County Commission on May 19, 1992.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilwoman Thiede, that Council award the bid to Contractor's Industrial Tire, Inc. for the bid price of \$11,088.00 as endorsed by the City Manager for Four Scraper Tires for the Land Preserve; funds being budgeted.

Carried unanimously.

Resolved by Councilman Weaks, supported by Councilman Koch, that Council amend Council Policy #33 - Non-Contract Solid Waste Disposal to include contaminated soil as defined in the policy as an unacceptable solid waste.

Ayes: Councilmen Capezza, Koch, Weaks, Councilwomen Blanchette, Thiede

Nays: Mayor Rotteveel

Motion carried.

Resolved by Councilwoman Thiede, supported by Councilman Weaks, that the Minutes of the Planning Commission Meeting of May 7, 1992 be received and placed on file.

Carried unanimously.

#### ORDINANCES:

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Council authorize the second reading of Proposed Ordinance #387 (roof top signs) by title only. Further, change item (j) of proposed ordinance to seven (7) days.

Ayes: Mayor Rotteveel, Councilman Capezza, Councilwoman Thiede

#### Ordinance 399

AN ORDINANCE TO FORMALIZE THE  
POLICIES AND PROCEDURES GOVERNING THE  
ADMINISTRATION OF THE DEPARTMENT OF LAND  
PRESERVE AS CURRENTLY SET FORTH IN  
COUNCIL POLICY NUMBER 33, AS AMENDED.

The City of Riverview Ordains:

ARTICLE 1 Adoption: That new sections 2-54 through 2-56 inclusive, be adopted under Chapter 2, Administration, Article III, Departments, to read as follows:

Section 2-54. Same; Charges: There will be a charge for all solid waste received from non-residents at the Land Preserve. This charge will be established by the City Council and posted at the Land Preserve. Payment for disposal of solid waste will be at the land preserve.

Section 2-55. Same; Cover Material: The Landfill Director or his/her delegate shall be authorized, when it is in the best interest of the City, to negotiate for cover material for the Land Preserve. Tickets showing this material was received shall be made out on all materials brought in, regardless of whether there is a charge or not.

Section 2-56. Same; Road Material (1) The Landfill Director may accept road material at a discounted rate, provided that the rate charged shall not be below the minimum rate set by Council resolution. The Landfill Director may, in the best interest of the City, charge more than the minimum rate for road material provided that the rate charged shall be fair and equitable to all customers supplying road material of similar quality and quantity.

(2) The Land Preserve's need for road material at a discounted rate shall be accommodated on a first come/first served basis without preference given to any customer. However, the Landfill Director may, in the best interest of the City, give preference to those customers supplying road material of superior quality.

- (3) For the purposes of this Section, road material shall be defined to include construction debris, bricks, crushed concrete or any other material suitable to provide a base for the operation of rubbish trucks while on the Land Preserve. Tickets showing this material was received shall be made out on all materials brought in and the charge for said material shall be recorded and reported to the City Manager.

Section 2-57. Same: Unacceptable Waste. The following materials are deemed to be unsuitable for disposal at the Land Preserve:

- (1) Ashes of any kind, including but not limited to fly ash or incinerator ash;
- (2) Drums, barrels and containers;
- (3) Radioactive materials;
- (4) Human or animal remains; infectious, pathological, chemotherapeutic, biological and other medical waste;

- (6) Tree stumps or tree limbs over three inches (3") in diameter, except that departments of the City of Riverview shall be exempt;
- (7) Asbestos;
- (8) Explosives, including but not limited to dynamite, hand grenades, blasting caps, shotgun shells, and fire works;
- (9) Gasoline, kerosine, turpentine, hydraulic oil, petroleum, and waste oil;
- (10) Alcohol, Ether, Naptha and Acetone;
- (11) Batteries;
- (12) Solvents;
- (13) Paints;
- (14) Caustics;
- (15) Sewage or process waste water, leachate and sewage sludge;
- (16) Foundry sand;
- (17) Dusty-type material;
- (18) Flammable or volatile liquids;
- (19) Any other liquids;
- (20) Chemical liquid wastes, acids, paste or sludge;
- (21) Tar;
- (22) Hazardous waste, to wit; (a) any material or substance which, by reason of its composition or characteristics, is (1) toxic or hazardous waste as defined in (a) either the Solid Waste Disposal Act, 42 U.S.C. Sec. 6901 et seq., or Section 6(e) of the Toxic Substances Control Act 15 U.S.C. Sec 2605 (e), or any laws of similar purposes or effect, and any rules, regulations or policies promulgated thereunder, or (b) any laws of similar purpose or effect, and any rules, regulations or policies promulgated thereunder or (2) special nuclear or by-products materials within the meaning of the Atomic Energy Act of 1954; (b) any waste managed under Act 64 of the Public Acts of 1979, as amended, being MCLA 299.501, et seq. and known as the Hazardous Waste Management Act; (c) any other materials which the Michigan Department of Natural Resources or any governmental agency or unit having appropriate jurisdiction shall determine from time to time is ineligible for disposal in the Landfill, whether by reasons of being harmful, toxic or dangerous or otherwise.
- (23) Telephone poles and railroad ties;
- (24) Reinforcement rod;
- (25) Fencing;
- (26) Large pieces of concrete such as footers, foundations or slabs over four inches (4") thick;
- (27) Soil contaminated in excess of the limits established pursuant to Act 307 Type B Remediation Criteria and Acceptable Method Detection Limits for Soil, as amended.

- (28) Any other material or substance which, in the judgment of the City Manager, Landfill Director or their Designees (a) may present a substantial endangerment to health, safety or the environment, or (b) contains less than thirty percent (30%) solids, (c) may affect the integrity of the landfill's liner or other aspects of the landfill's construction, (d) may adversely affect the ability of the Land Preserve's leachate treatment facility to treat leachate to a quality required by any applicable law or permit requirement, (e) may cause sludge generated by the Land Preserve's leachate treatment facility to become a hazardous waste, or (f) has a reasonable possibility of otherwise adversely affecting the operation of the Land Preserve.

ARTICLE II. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in any manner invalid by any court of competent jurisdiction or by any agency have authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be so invalid and shall not be construed as affecting the validity of any of the remaining words, sentences, phrases or portions of this Ordinance.

ARTICLE III. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

ARTICLE IV. Reading and Publication: This Ordinance shall be given a first reading on September 7, 1992 shall be adopted on October 5, 1992 and shall be published and posted on or before October 28, 1992 and shall be effective as provided by law. The Clerk shall publish a summary of this Ordinance and include in the publication notice that a true copy of the Ordinance can be inspected or obtained at the Clerk's office.

PERSONS IN THE AUDIENCE:

At this time, Mayor Rotteveel asked if anyone in the audience wished to address Mayor and Council.

COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:

Resolved by Councilman Weaks, supported by Councilman Koch, that Council adopt the following resolution requesting assistance for Federal Environmental Mandates as recommended by the City Manager:

WHEREAS, Congress has enacted numerous mandates designed to ensure a clean and safe environment; and

WHEREAS, while the intent and policy underlying these federal mandates are laudable, they impose severe financial burdens upon local government; and

WHEREAS, the assistance of the federal government is inadequate and insufficient; and

WHEREAS, the consequence of these federal mandates and the lack of federal assistance will necessitate a curtailment or elimination of vital services traditionally provided by local governments to its residents and will create unreasonable hardship upon residents in need; and

WHEREAS, the residents of the City of Riverview and other communities in Southeastern Michigan are experiencing difficult economic circumstances, including high unemployment and excessive taxation and can ill-afford further financial burden;

NOW, THEREFORE, the City of Riverview calls upon members of Congress; officials in the Environmental Protection Agency; and the Michigan Department of Natural Resources, which administers and enforces the federal mandates; and the federal District Court; to give serious consideration to the consequences of the plight of these communities and their residents, and provide relief by the following specific actions:

1. Provide affected local governments with federal assistance in the funding of remedial measures mandated by federal laws;
2. Phase the remedial measures in over a sufficient period of time to allow local governments to avoid disruption of essential services to their residents;
3. Enforce the laws in a sensible manner which takes into account the impact remediations will have upon local governments' ability to fund them.

BE IT FURTHER RESOLVED, that it is not the intent or desire of the City of Riverview to avoid its responsibilities to assist in cleaning up our environment; but rather, the objective is to seek recognition that the magnitude of the problem exceeds local resources and that a cooperative joint effort between and among all levels of government, including Congress, federal and state regulators and Courts is vitally necessary; and

BE IT FURTHER RESOLVED that the City Clerk is directed to transmit true copies of this resolution to:

1. Congressman John D. Dingell;
2. The Director of the Environmental Protection Agency;
3. The Honorable John Feikens of the U.S. District Court for the Eastern District of Michigan;
4. The Director of the Michigan Department of Natural Resources;
5. Governor John Engler;

6. The Southeastern Michigan Council of Governments;
7. The National League of Cities;
8. The Michigan Municipal League; and
9. Members of the Downriver Community Conference

Carried unanimously.

Resolved by Councilman Capezza, supported Councilman Koch, that Council adopt the following resolution establishing Commercial Rates for the Land Preserve as endorsed by the City Manager.

WHEREAS, the City Council has adopted a Council Policy requiring periodic review of Landfill rates; and

WHEREAS, a study of market conditions and customer needs have been concluded by the staff; and

WHEREAS, the City Council has determined that the rates set forth herein are appropriate;

NOW, THEREFORE, BE IT RESOLVED that the following rates shall be charge until further notice:

1. Commercial Rate: \$8.50 per uncompacted yard; \$9.50 per compacted yard.
2. Prepay Rate: \$12.00 per yard.
3. Special Waste: Shredded Tires: \$13.50 per yard.
4. Road Materials: Pursuant to Council Policy Number 33, the Landfill Director shall make determination of the Land Preserve's need for road material and whether the proffered material is both needed and suitable for road material. If such determination is affirmative, the rate charged shall be \$2.00 per yard; otherwise, the full rate shall be charged (the prepay rate if customer does not have a disposal contract with the Landfill; the commercial rate if the customer does have a disposal contract with the Landfill).

5. Multi-Year Contracts: Disposal Agreements may be entered on a "put or pay" basis as follows:
- (a) For customers who commit to and agree to pay for a minimum of two thousand (2,000) yards per month, the rate shall be \$8.25 per yard for the first five thousand (5,000) yards per month, and \$8.00 per yard for quantities in excess of the first five thousand (5,000) yards per month.
  - (b) For customers who commit to and agree to pay for a minimum of five thousand (5,000) yards per month, the rate shall be \$8.00 per yard.
6. Imported and High Volume Waste Contracts: The Manager is authorized to negotiate contracts for imported and high volume waste contracts for consideration and approval by the Council. High volume contracts refer to contracts with volume over two hundred thousand (200,000) yards per annum.
7. Perpetual Care Fund: The surcharge provided for in Act 9 of 1990 shall be assessed unless waived by the Council.
8. County Import Fee: The county import fee shall be assessed unless waived by the Council.

WHEREAS, the Congress of the United States has recognized the rights of people with disabilities, and stated that it shall be a policy of the United States to have full participation in society by people with disabilities;

WHEREAS, the Congress of the United States has adopted the Americans With Disabilities Act of 1990 (Public Law 101-336) for the purpose of eliminating discrimination against people with disabilities;

- WHEREAS, the Americans with Disabilities Act prohibits discrimination on the basis of disability by all units of state and local government, including municipalities, or instrumentalities thereof, as of January 26, 1992;
- WHEREAS, the rule implementing the Act was published July 26, 1991 (28 CFR part 35) by the Department of Justice; and
- WHEREAS, the rule requires that the City of Riverview shall make information concerning the Act and its application to the services programs, and activities available to applicants, participants, beneficiaries and other interested persons.

THEREFORE, BE IT RESOLVED that the City of Riverview intends to comply with the Americans with Disabilities Act in the delivery of services, programs, and activities, by making reasonable accommodations, such as the removal of architectural, transportation, and communication barriers; the changing of rules, policies, and practices; and the providing of auxiliary aids or services for the enhancement of communication with people with hearing or sight impairments, when such accommodations will enable people with disabilities to meet essential eligibility requirements for services, programs, and activities provided by the City of Riverview.

FURTHER, BE IT RESOLVED:

1. That all contracts entered into by the City of Riverview which shall result in the delivery of services, programs and activities be delivered without discrimination on the basis of disability, in a manner consistent with the Act and the rule;
2. That the City of Riverview shall evaluate its current services, policies, and practices, including its facilities, to identify barriers in the environment and in service provision which may result in the exclusion of people with disabilities or in the provision of less effective service for the people with disabilities, such evaluation to be completed not later than January 26, 1993.
3. That the City Manager shall designate by administrative regulation the person responsible to coordinate compliance with the Act, and to investigate any complaint against the City of Riverview alleging noncompliance with the Act.
4. That an administrative procedure for the prompt resolution of complaints against the City of Riverview, alleging noncompliance with the Act, shall be adopted by the City of Riverview as soon as possible, and that a description of the procedure shall be published shortly thereafter, for the information of the general public; and
5. That the City of Riverview shall adopt a plan as soon as practicable for the removal of barriers in existing facilities, and that all necessary work which is structural in nature shall occur by January 26, 1995.
6. This resolution shall become effective after its adoption.

Section 15-170. Purpose.

This Ordinance shall be liberally construed to encourage and compel the exercise of parental control in a continuous and consistent manner so as to reduce the instances of unauthorized absences of school children, and prevent where possible, the neglect of parental responsibility in the enforcement of the state law requiring school attendance.

Section 15-171. Parental responsibility.

Every parent, guardian, or other person in the City of Riverview who has legal custody, or serves or acts with respect to a child, in loco parentis, and having control of such child who is over the age of six years and under 16 years of age, shall exercise that parental control and supervision and see to it that such child is in attendance at school during the entire school year. Such attendance at school shall be continuous, and consecutive for the school year as established by the school district in which the child is enrolled. Where a child of school age is not so enrolled it shall be the duty of the parent or guardian, etc., to so enroll the child immediately upon becoming resident of this City. It shall thereafter remain the responsibility of said person to monitor the child's continuing attendance after enrollment.

Section 15-171(a). Attendance, time frame, when calendar year invoked.

Provided further, if the School District should hereafter maintain school during the entire calendar year, and should divide the school year into quarters, a child's attendance shall not be compelled for in excess of 3 of said quarters in any one calendar year. Provided further, that a child shall not, without excuse, be absent two (2) consecutive quarters.

Section 15-171(b). Attendance, years mandated.

A child whose birthdate occurs before December 1 shall be enrolled on the first school day of the school year in which the child's sixth birthday occurs. A child who attains the age of six years on or after December 1 shall be enrolled on the first school day of the school year following.

Section 15-171(c).

A child who has not attained the age of 16 years, and who is not exempted by law from attendance at school, shall not be absent from the school in which such child is enrolled without the knowledge and consent of his or her parent or guardian.

Section 15-171(d).

A parent or guardian shall at all times maintain sufficient supervisory control over a child in his or her custody, so as to be informed and aware of any unexcused absences from school by such child.

Section 15-172.

When, or so often as it may come to the attention of the local Board of Education that a child, being of school-age, is not enrolled and attending school, or that having been enrolled is, without good cause or excuse, consistently absent from regularly scheduled classroom sessions of school in which he is enrolled, the Superintendent of Schools, by official notice citing this Ordinance shall invite the parents, guardians, or person serving in loco parentis with respect to any truant child, to attend a conference called for the purpose of correcting the unauthorized absence, truancy or wilful non-attendance at scheduled classes of such delinquent child. Such invitation may be sent by regular mail and if Confirmation by telephone can be accomplished, as to the specific time

and place, the Superintendent or his designated administrator for student attendance shall attempt to determine the cause and resolve to eliminate the cause of any such truancy.

Section 15-173.

If the written invitation of the Superintendent, or his designated administrator for student attendance, does not result in a conference with the parent, guardian or person having custody of the truant, or non-attending child, as mandated by this Ordinance, then and in that case, a Notice of Conference shall be sent to the parent, guardian, or person who is serving in loco parentis with respect to such absent or non-attending school child, by certified mail, (return receipt requested) designating the time and place of the required parental conference. Certified mailing of this Notice of Conference shall be obtained and filed as a pre-condition of further proceedings under this Ordinance.

Section 15-174. Refusal or neglect to send child to school.

It shall be a violation of this Ordinance and a misdemeanor for a parent, guardian, or person serving in loco parentis as to any delinquent, absent, or non-attending school age child to deliberately ignore, without just cause, such request for the conference as provided in Section 15-173, punishable by a fine of \$25.00, upon conviction for the first such offense and by a fine of \$50.00 upon conviction of a second offense.

Section 15-175.

If a person having custody of a school age child within the City limits, whether as parent, guardian or a person serving in loco parentis with respect to a child, shall knowingly encourage or permit such child to be absent from scheduled classroom sessions repeatedly, and after the conclusion of any completed conference as herein established under Section 15-172 or 15-173, a hearing may be scheduled upon the verified complaint of the Superintendent, before the District Court for the further inquiry into the causes and circumstances of the persistent absences or non-attendance of such school age child, and of the fault or intentional dereliction, neglect or failure of such parent, guardian, or person acting in loco parentis, to maintain parental custody or to eliminate unauthorized absences of such child. A deliberate refusal or neglect to send a non-exempted child to school shall be a misdemeanor punishable by a fine not to exceed \$100.00 for each such offense.

Section 15-176.

This Ordinance shall not be construed in a manner which would penalize or make unlawful absences of a school age child occasioned by serious illness, death in the family, or other family emergency requiring travel outside the City by decision of the parent, etc.

This Ordinance shall become effective upon publication as required by law.

That Section 7-148, 7-149, and sub-section 7-163.6, being a portion of Article VI, Solicitors under Chapter 7, Business and Business Regulations, be and the same are hereby revised, and as revised, restated to hereinafter to read as follows:

## CHAPTER 7

## BUSINESS AND BUSINESS REGULATIONS

## ARTICLE VI

SOLICITORS, AND HOUSE TO HOUSE  
SOLICITATION PROCEDURESDivision I. Generally

Section 7-148. Definition of activity embraced; House-to-House solicitations, commercial in nature.

In this article, a canvasser or solicitor is defined as any individual, whether a resident of the city or not, traveling either by foot, wagon, automobile, motortruck or any other type of conveyance, from place to place, from house to house, or from street to street, taking or attempting to take orders for the sale of goods, wares and merchandise, personal property of any nature whatsoever for future delivery, or for services to be furnished or performed in the future, whether or not such individual has, carries or exposes for sale a sample of the subject of such sale or whether he is collecting advance payments on such sales or not, including any person who, for himself, or for another person hires, leases, uses or occupies any building, structure, tent, railroad boxcar, boat, hotel room, lodging house, apartment, shop or any other place within the city for the sole purpose of exhibiting samples and taking orders for future delivery.

(a) Non-applicability to non-profit solicitations.

The provisions of this section shall not be deemed to apply to any established society, labor union, association or corporation that is organized and operated exclusively for any educational, philanthropic, benevolent, fraternal, charitable or reformatory purpose, not operated for pecuniary profits, where no part of the net earnings of which inures to the benefit of any person, private shareholder or individual, and where the solicitation of such organization shall be conducted by members or officers thereof voluntarily and without remuneration for such solicitation, or where such solicitation may be in the form of collections or contributions at the regular exercises of any church, religious society, lodge, labor union, benevolent order or fraternity or similar organization or any branch thereof. Such non-commercial solicitations, however, are nevertheless subject to minimal regulations and duties imposed under Division 3 of this Article.

Section 7-149. Business hours.

It shall be unlawful for anyone to solicit from house-to-house after 9:00 P.M. of any day and prior to sunrise of the next day, such hours being reserved for peace and tranquility and repose of the citizens.

Sub-section 7-163.6. Time limited solicitation.

It is unlawful and shall constitute a nuisance for any person, whether registered under this article or not, to go upon any premises which display a notice indicating the time limitation as provided in section 7-163.3 and to ring the doorbell upon or near any door of a residence located thereon, or rap or knock upon any door, or create any sound in any other manner calculated to attract the attention of the occupant of such residence, for the purpose of securing an audience with the occupant thereof and engage in soliciting as herein defined, prior to sunrise or after 9:00 p.m., the same being deemed to be in disregard of the notice and in derogation of the invitation if one is posted.

This Ordinance shall become effective upon publication as provided by law.

Absent and

Excused: None

Also

Present: City Manager Elliott, Landfill Director Serra, City Engineer Hennessey, City Clerk Girardin, Attorney Wycoff, and Peter Antone, Attorney for Hennessey Engineers

Resolved by Councilman Brown, supported by Councilman Durand, that the following resolution be adopted.

WHEREAS, the City of Riverview is a Michigan municipal corporation organized and existing under the laws of the State of Michigan, and

WHEREAS, the City Council is the governing body of said City and is authorized to make and enter into contracts for various professional services in accordance with its Charter and ordinances, and

WHEREAS, pursuant to Section 12.1(d) the City Council has the right to reject any and all bids if it determines the same to be appropriate, and

WHEREAS, the City Council alternatively has the right to accept a bid other than the lowest bid if it determines that the public interest is better served, and

WHEREAS, Section 12.1(d) of the City Charter further provides that in the event that the Council selects other than the lowest bid that it shall set forth in its resolution accepting such bid the reasons therefore, and

WHEREAS, on the 4th day of February, 1991, the City Council for the City of Riverview accepted a bid for professional engineering services which was other than the lowest bid, and

WHEREAS, the determination by the City Council was made after consideration of the recommendation of the purchasing department, the landfill director and the acting city manager, and

WHEREAS, the City Council prior to accepting other than the lowest bid conducted extensive personal interviews with applicants for the position relative to their qualifications, personnel and other matters deemed relevant to the acceptable performance of engineering services, and

WHEREAS, upon the completion of the extensive personal interviews, the City Council considered all information obtained through the course of the interviews, from the recommendations of the acting city manager, the landfill director and the purchasing agent relative to the qualifications and professional abilities of the respective candidates, and

WHEREAS, the City Council for the City of Riverview determined that the most appropriate and best professional relationship could be established and maintained between the City and Midwest Consultants, Inc., and

WHEREAS, on the basis of that determination the City Council at its regular meeting of February 4, 1991 awarded the engineering agreement to Midwest Consultants, Inc. (MCI) by a majority vote of those Councilpersons present, and

WHEREAS, the City Council now wishes to place upon the record the reasons for said determination;

NOW, THEREFORE, BE IT RESOLVED as follows:

1. That the City Council for the City of Riverview does hereby reaffirm its appointment of Midwest Consultants, Inc. as landfill engineers for the City of Riverview in accordance with its former resolution adopted and approved on February 4, 1991.

2. The City Council for the City of Riverview does hereby determine that the award of the engineering contract to MCI is in the best interest of the public for the reasons that:

a. MCI is best qualified to establish and maintain an appropriate and professional relationship between itself, the City of Riverview and the Department of Natural Resources, taking into consideration the sensitive and often delicate relationship between the respective parties.

b. That said communication is absolutely prerequisite to the continued and successful operation of the landfill in compliance with the regulations of the Michigan Department of Natural Resources and as mandated for the efficient and economical operation of said facility.

c. That MCI meets all of the qualifications and requirements relative to staffing, available engineering services and quality of performance mandated by the City and they are hereby determined to be fully qualified.

d. Because of the staffing, qualifications and abilities displayed by MCI during the course of their interview with the City Council, the Council is satisfied that they are better able to efficiently and economically perform all of the duties and responsibilities of the position than the other candidates considered through the Request for Proposal procedure utilized by said City.

3. Any and all resolutions previously adopted by the City Council which are in conflict with this resolution be and the same are hereby rescinded and held for naught.

Resolved by Councilman Brown, supported by Councilwoman Thiede, to call for the question.

**NEW BUSINESS:**

Resolved by Councilman Brown, supported by Councilman Trombley, that Council receive and place on file the letter from **United Cable** dated May 22, 1991. Further, Council concur with the City Manager's recommendation and approve a **six month conditional extension** of the **cable franchise** with United Cable Television of Michigan, Inc. and adopt the following resolution:

WHEREAS, the Mayor and Council of the City of Riverview entered into a ten (10) year non-exclusive franchise on November 19, 1981 with United Cable Television of Michigan, Inc; and

WHEREAS, the initial period of that original franchise will expire on November 19, 1991; and

WHEREAS, the federal Cable Communication Act of 1984 supersedes the previously adopted local ordinances regarding franchise renewal procedures under Sections 626 (a) - (h); and

WHEREAS, the City of Riverview and United Cable Television of Michigan have properly begun "informal" negotiations on or about March 14, 1991 under Section 626 (h) of the Cable Communications Act of 1984; and

WHEREAS, United Cable Television of Michigan has formally reserved its rights on May 1, 1991 to institute a "formal" renewal procedure under the Cable Communications Act of 1984, Section 626 (a) - (g); and

WHEREAS, although significant progress has been made on many of the issues concerning franchise renewal through the "informal" process of negotiations, the remaining time until the expiration of the original franchise will not reasonably accommodate the "formal" renewal procedure, if invoked by United Cable Television of Michigan; and

WHEREAS, United Cable Television of Michigan has informed the City of Riverview in writing on May 5 and May 22, 1991 of their request for a six (6) month extension of the existing franchise, if and only if, an agreement for franchise renewal cannot be reached by September 1, 1991 which would trigger the "formal" procedure of franchise renewal; and

WHEREAS, the Mayor and Council had a staff briefing regarding United Cable Television of Michigan's request at their regularly scheduled work session on May 28, 1991; and

WHEREAS, this request of conditional action of the Mayor and Council has been reviewed by the administrative staff and legal counsel and it has been found to be a reasonable accommodation for the situation given circumstances of the franchise's original approval mechanism, the less appropriate option of entering "formal" renewal procedure immediately, and the jeopardy of the positive status of the current "informal" negotiations;

NOW, THEREFORE BE IT RESOLVED, that without waiving its rights except as herein provided, the Mayor and Council consent to the conditional extension of the Cable franchise, if and only if, an agreement through "informal" negotiations cannot be reached by September 1, 1991, and that if this six (6) months is needed, it will be specifically to accommodate the parties rights to a "formal" renewal procedure provided by the Cable Communication Act of 1984, Section (a) - (g).  
Carried unanimously.

Nays: Councilman Weeks

Motion carried.

Resolved by Councilman Brown, supported by Councilwoman Thiede, that Council approve the following resolution relative to abandoning the holding of a **Presidential Preference Primary.**

WHEREAS, the State of Michigan is experiencing financial difficulties and the budget amending process has been lengthy, and

WHEREAS, the State of Michigan has cut programs for the poor, elderly, arts, recreation, etc., to save costs, and

WHEREAS, it appears the State of Michigan will experience the same budgeting difficulties for the fiscal year beginning October, 1991, and

WHEREAS, the State Legislature, in an effort to balance the State budget, did make cuts in State Shared Revenues to local units, and

WHEREAS, as a result of those State mandated cuts in local monies, the City of Riverview will need to implement various cost saving measures, and

WHEREAS, the Presidential Preference Primary currently scheduled for March 17, 1992, is estimated to cost the State of Michigan five (5) to eight (8) million dollars and local units of government who will operate the election an equal amount, and

WHEREAS, the Presidential Preference Primary of May 20, 1980, reflected a 12% voter turnout in the City of Riverview, and

WHEREAS, the current voter registration records indicate a large percentage of registered voters have not participated in the Party Declaration Process, which would preclude more than half of our voters being eligible to vote on March 17, 1992, and

WHEREAS, the State of Michigan in 1980 did not reimburse the full cost of the election to the local units, and those funds which were reimbursed, arrived one full year after the expenditure of the funds,

NOW, THEREFORE, BE IT RESOLVED, that in light of our current economic condition, the City Council for the City of Riverview, request the State Legislature to abandon the holding of a Presidential Preference Primary, until such time as the State of Michigan has escrowed to the City of Riverview a \$500.00 per precinct deposit towards the costs of such election.

AND BE IT FURTHER RESOLVED, a copy of this Resolution be sent to Senator Christopher Dingell, State Representative Vincent J. Porreca, the Michigan Municipal League and all cities in Wayne, Oakland, and Macomb Counties.

Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Brown, that the following Resolution to Eliminate HR 5835 regarding **Election Worker's** Salaries being subjected to **Social Security** Review be adopted.

WHEREAS, H.R. 5835 has put a cap on Election Worker's earnings that would subject them to payment of Social Security Tax, and

WHEREAS, Election Workers' wages fall just over the allotted earnings amount of One Hundred Dollars (\$100.00) for two elections, and

WHEREAS, Election Inspectors consist mainly of retired Seniors, Housewives and those that fall in the category of unemployed. The earnings they are paid for long hours of dedicated work on election day could be considered pin money at today's standard of living, and

WHEREAS, if the money must be deducted for Social Security/Taxes, etc. from their election pay, the Clerk's of this State will find it harder to fill the vacancies for election workers. This will also result in an added burden to the Cities for payroll as well as City Budgets that will realize short falls for their portion of these taxes, and

WHEREAS, Election Workers are required to work a minimum of fourteen hours on election days for minimum wage.

NOW, THEREFORE BE IT RESOLVED, that we urge the legislators to review the Employment guidelines that are defined under FICA Paragraph F Section 3121 (b) of Internal Revenue Code 1986 as amended in Paragraph 3, IV of the Omnibus Budget Reconciliation Act.

AND BE IT FURTHER RESOLVED, copies of this resolution to be forwarded to the surrounding communities, Congressman John D. Dingell, State Senator Christopher Dingell and State Representative Vincent J. Porreca.

Carried unanimously.

Resolved by Councilman Brown, supported by Councilman Weeks, that the following **Resolution regarding Approval of Commercial Contracts for Solid Waste Processing and Disposal Services** be adopted.

WHEREAS, the City of Riverview is the owner and operator of a Type 2 landfill accepting municipal solid waste from private haulers, among others; and,

WHEREAS, a standard agreement has been developed, a copy of which is attached hereto; and,

WHEREAS, standard operating procedures have been developed by the City administration to ensure compliance with the City's financial and legal requirement as more fully set forth below; and,

WHEREAS, the foregoing standard agreement and procedures adequately safeguard and protect the City's interests; and,

WHEREAS, there exists a need to expeditiously respond to contract requests from prospective customers;

NOW, THEREFORE, BE IT RESOLVED that the Mayor and Clerk are authorized to execute the standard agreement with private haulers; provided, however, that each of the following prerequisites have been fulfilled:

1. That the City Treasurer provide written approval of the financial condition and credit worthiness of the prospective customer;
2. That the City Special Counsel provide written approval of the prospective customer's insurance certification, the form of the contract and the execution thereof by the prospective customer;
3. That the Landfill Director provide written approval of the acceptability of the municipal solid waste as to compliance with the requirements of the State, Federal and local law, the Wayne County Solid Waste Plan; and the definition of acceptable waste contained in the standard agreement;
4. That the City Manager provide written endorsement of the execution of the standard agreement.

BE IT FURTHER RESOLVED that a written report shall be made to the Council for each contract executed under this Resolution at its next regular meeting, consisting of the customer's name, address, the source and nature of the municipal solid waste to be delivered, and such other information that the City Manager believes to be pertinent.

BE IT FURTHER RESOLVED that this resolution shall remain in full force and effect and provide authorization for the execution of the standard agreements processed in accordance herewith, until revoked by the Council.  
Carried unanimously.

COMMUNICATIONS FROM OFFICERS AND COMMISSIONS:

Resolved by Councilman Durand, supported by Councilwoman Thiede,

That the letter from Mr. John McCabe, Project Manager, Department of Natural Resources dated October 16, 1991 be received and placed on file. Further, Council concur with staff and adopt the following resolution suspending and postponing the Development of a Municipally Owned Material Recovery Facility (MRF) for the City:

Whereas, the City of Riverview attempted to foster an awareness of the opportunities in a regional approach to recycling by financing a joint study with the Downriver Community Conference during 1988/1989; and,

Whereas, the City of Riverview in 1989 applied for and secured Department of Natural Resources funding to equip a regionally-sized Material Recovery Facility and a companion grant to educate and promote recycling on a regional scale; and,

Whereas, the City of Riverview established an administrative Task Force to review and coordinate the numerous and complex issues involved in simultaneously processing the expansion of the Riverview Landfill, re-negotiating the client communities' contracts, and securing competitive costs for the design, construction, equipping, and operation of a Material Recovery Facility; and,

Whereas, the aforementioned Task Force secured competitive and responsive proposals relative to the development issues of a Material Recovery Facility; and,

Whereas, the underlying economic assumptions of the future operational revenues of a Material Recycling Facility have been inescapably altered by the Wayne County Solid Waste Plan's provisions regarding mandatory recycling, and the participating communities' preference for individualized approaches to recycling in lieu of a regional recovery facility, as proposed by the City of Riverview; and,

Whereas, the City of Riverview Material Recovery Facility's financial position would be negatively impacted without the cooperative participation of the client communities in the Downriver area; and,

Whereas, the Department of Natural Resources contract for funding was extended for an unprecedented two (2) times to allow for final feasibility to be determined with a final construction deadline imposed for March, 1992; and,

Whereas, the City Council, on August 3, 1991, received the Task Force's Final Report with the recommendation that the Material Recovery Facility's development be suspended due to financial feasibility limitations;

Now, Therefore, Be It Resolved, by the City Council of the City of Riverview, Michigan as follows:

The Mayor and City Council suspend and postpone, (1) all current activity concerning the development of a Material Recovery Facility until economic considerations and State legislation warrant reconsideration; and, (2) that DNR Grants #RP-3-82-10083 (\$500,000 MRF equipment) and ED-3-82-10108 (\$50,000/recycling education) be returned to the State of Michigan with reluctance;

Be It Further Resolved that Governor Engler, State Senator Dingell, State Representative Porreca, and the Department of Natural Resources, the County Executive and the Mayors of the Cities of Allen Park, Melvindale, River Rouge, Rockwood, Romulus, Southgate, Taylor, Trenton, Woodhaven, and Wyandotte, and the Supervisors of the Townships of Brownstown and Grosse Ile be notified of the City of Riverview's decision by receipt of a certified copy of this resolution.

Carried unanimously.

Resolved by Councilman Brown, supported by Councilman Trombley, that Council approve the renewal of the CDBG funded service agreements for 1991/92 with Project First Step, Romulus Help Center, and the Information Center (Home Share) as endorsed by the City Manager as follows:

Romulus Help Center	\$3,000.00	Increase of \$ 500.00
Information Center (Home Share)	725.00	Same as 1990/91
Project First Step	2,000.00	Increase of \$1,000.00

Carried unanimously.

The clerk gave the Third Reading of Proposed Ordinance #382.

#### ORDINANCE #382

AN ORDINANCE TO ESTABLISH A NEW CONSOLIDATED DEPARTMENT AND NEW ADMINISTRATIVE OFFICE IN THE CITY OF RIVERVIEW TO BE KNOWN AS THE "COMMUNITY DEVELOPMENT DEPARTMENT", WHICH WILL CONSOLIDATE THE FUNCTIONS OF THE PRIOR DEPARTMENT OF ENGINEERING, AND RELATED DUTIES OF THE BUILDING, ELECTRICAL, MECHANICAL, AND PLUMBING INSPECTIONS AND COMMUNITY PLANNING, BY THE REPEAL OF SECTIONS 2-41, 2-48, AND 2-50 UNDER ARTICLE III, BEING A PART OF CHAPTER 2, "ADMINISTRATION", AND BY THE REVISION, SO AS TO ESTABLISH THE DIVISIONS UNDER THE DEPARTMENT DIRECTOR, AND REENACTMENT OF REVISED SECTIONS 2-41, 2-48, AND 2-50 OF ARTICLE III, APPROPRIATE TO ACCOMPLISH THE PURPOSES OF THIS ORDINANCE.

## THE CITY OF RIVERVIEW ORDAINS:

That Sections 2-42 "Enumerated", 2-48 "Department of Engineering", and 2-50 "Same--Supervision of Employees", being part of Article III, "Departments", under Chapter 2 "Administration", be and they are hereby repealed in their entirety and substituted in their place will be the revised Sections with the same designations to be read hereafter as follows:

## Chapter 2

## ADMINISTRATION

\* \* \*

## ARTICLE III - DEPARTMENTS

\* \* \*

2-42  
Sec. 2-42 Enumeration of Departments.

The administrative service of the City shall consist of the following Departments and shall be under the supervision of the City Manager: Fire department, police department, department of public works, community development department, department of land preserve, city clerk, assessor and purchasing, golf course, treasurer, recreation and ski area facilities. (Code 1963, 2-118)

\* \* \*

Sec. 2-48 Community Development Department.

There is hereby established a consolidated, Community Development Department under the supervision of the Director of Community Development, and such department, as consolidated, shall be responsible for the management of its several divisions; to wit:

Sec. 2-48(A).1 Division of Engineering.

All employees of the Engineering Department as of the effective date of this ordinance are hereby constituted as a part of and will hereafter be referred to as the Division of Engineering. Employees of the Division of Engineering shall be under the supervision of the Director of Community Development. The Director of Community Development shall arrange for such engineering services as shall be needed by the City, primarily by contractual arrangement, where feasible, and when approved by the City Council. This division shall utilize the persons assigned to it to perform engineering services for the City, except those otherwise designated by the City Council. This division shall perform various duties including, but not limited to, maintaining supervision of construction work undertaken by the City.

Sec. 2-48(A).2 City Engineer; Term and Duties.

This amendment of Article III is intended to supercede any reference to a "City Engineer", and the duties of the City Engineer as set forth throughout the Code may be performed pursuant to contracts for engineering services entered into by City Council.

Sec. 2-48(B) Division of Planning.

Employees of the Division of Planning shall be under the supervision of the Director of the Community Development. The employees assigned to this division shall be responsible for duties, including but not limited to, all initial review of proposed zoning or rezoning matters, lot consolidations or lot splits before submission to the Planning Commission, all plan review matters, and proposed changes in the Master Plan of the City, Community Development Block Grant Administration, and in general to expedite and to assist in any necessary research or details impacting on a matter being considered by the Planning Commission, the Cable Commission, and the Economic Development Corporation.

Sec. 2-48(c) Division of Building and Code Enforcement.

There shall be established a Building and Code Enforcement Division under the supervision of the Director of the Community Development. Employees of the Division of Building and Code Enforcement shall be under the supervision of the Director of Community Development. The chief building official, electrical inspector, mechanical inspectors and plumbing inspector, and such other employees and persons assigned to this division shall be responsible for duties, including building code enforcement, zoning and anti-blight ordinances, and also for the enforcement of various codes and components of Chapter 6, "Building and Building Regulations" under the Ordinance Code of the City of Riverview. This division shall also make recommendations to the Zoning Board of Appeals as to any building permit or regulation, and assist in any research needed or evidence required.

This amendatory Ordinance shall take effect immediately upon publication as required by law. Upon enactment of this Ordinance, all sections of the Ordinance Code of the City of Riverview in conflict with the Ordinance and not repealed specifically are hereby repealed by implication.

Resolved by Councilman Brown, supported by Councilman Durand, that Proposed Ordinance #382 be adopted as read.  
Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Trombley, that Council approve the following resolution calling for a City **Charter Amendment** to abolish the **Civil Service System** and to substitute a merit personnel system to be placed on the August 4, 1992 Primary Election and voted upon by the electorate as endorsed by the City Manager:

WHEREAS, Chapter XVII entitled "Civil Service System: was duly submitted to the electorate of the City and adopted prior to 1960, and

WHEREAS, the Civil Service System as presently stated in Chapter XVII of the City Charter has not been amended since its original adoption, and

WHEREAS, the effective Civil Service System as stated in Chapter XVII of the City Charter presently requires revision to reflect changes in the economic, legislative and judicial activities brought about by the passage of the Michigan Public Employees Relations Act of 1965 and certain decisions of the Michigan Supreme Court in interpreting the provisions thereof, and

WHEREAS, the implementation of such changes would be facilitated and the effective administration of the City government would be enhanced by the ability of the City to provide for a comprehensive personnel system for City employees by ordinance.

NOW, THEREFORE, BE IT RESOLVED, that Chapter XVII "Civil Service System" of the Charter of the City of Riverview be and the same is hereby repealed in its entirety but effective from and after the date of the enactment by the Riverview City Council of an ordinance implementing the provisions of a revised personnel system, consistent with the provisions of an amended Chapter XVII substituted in place thereof, which substitute amended Chapter XVII is to read as follows:

#### CHAPTER XVII

##### Personnel System

##### Section 1. Establishment and Purpose

Consistent with all applicable federal and state laws the City Council shall provide by ordinance for the establishment, regulation, and maintenance of a merit system governing personnel policies necessary to effective administration of the employees of the City's departments, offices and agencies, including but not limited to classification and pay plans, examinations, force reduction, removals, working conditions, provisional and exempt appointments, in-service training, grievances and relationships with employee organizations.

All appointments and promotions of city officers and employees shall be made solely on the basis of merit and fitness demonstrated by a valid and reliable examination or other evidence of competence.

BE IT FURTHER RESOLVED that the Proposition to repeal and replace by amendment the Chapter XVII of the Charter of the City of Riverview shall be submitted to the electors of the City, upon a separate ballot, at the General State Primary Election to be held in the State on Tuesday, the 4th day of August, 1992, for the purpose of adopting or rejecting said amendment;

BE IT FURTHER RESOLVED that the Proposition to amend the City Charter, as aforesaid, shall be submitted to the electors of the City at said election on a separate ballot in substantially the following form:

##### CHARTER PROPOSAL NO. 1

SHALL CHAPTER XVII "CIVIL SERVICE SYSTEM" OF THE CITY CHARTER BE AMENDED BY REPEALING AND REPLACING SAID CHAPTER WITH A NEW CHAPTER XVII WHICH PERMITS THE CITY COUNCIL TO PROVIDE BY ORDINANCE FOR A COMPREHENSIVE PERSONNEL SYSTEM FOR CITY EMPLOYEES?

☐ YES

☐ NO

BE IT FURTHER RESOLVED that the existing sections of the Charter of the City of Riverview which are repealed by this proposal, if adopted, now read as follows:

##### CHAPTER XVII. CIVIL SERVICE SYSTEM

##### Section 17.1. Personnel board.

The first council elected under this charter shall within twelve months from the date it takes office provide by ordinance for a civil service system under the merit principle of personnel management. Said ordinance shall be supplemented by rules and regulations based on said ordinance. The civil service system shall provide at least the following:

- (a) For a professional and impartial approach to all municipal personnel problems based solely on the fitness, training and experience of the individual with no discrimination on account of racial, political, or religious backgrounds or opinions;

- (b) For a non-salaried personnel board, hereinafter referred to as "board" in this chapter, consisting of three citizens who shall be appointed by the council. The board members shall hold no other municipal office or position and shall be known to be in sympathy with the intents and purposes of Chapter XVII of this charter. The board shall develop its own rules of procedure;
- (c) The city manager shall designate a person to act without compensation as secretary to the board; (Approved by the electors on April 4, 1966)
- (d) That with the assistance of, but not subject to the control of, the boards, the city manager shall develop a classification and pay plan based on the most modern and accepted principles of such plan;
- (e) For the formulation by the board of rules and regulations covering the selection, promotion, and discharge of municipal employees. Where competitive tests are used and eligible lists created appointments shall be made from the three candidates standing highest on such lists, or from the total number of candidates who pass such test, whichever number is less. No person covered by the system shall be suspended, demoted or discharged except for cause or without the opportunity for a hearing before the board, but nothing shall prevent the discharge of any person when the position he holds has been abolished or consolidated with another position or when a reduction of personnel is necessary;
- (f) For a system of grievances and appeals to the board by employees who have been suspended, demoted or discharged and who believe that their cases have not been given proper treatment by the city manager or the appointing authority. The board shall investigate each such appeal immediately after receiving from an employee a statement in writing setting forth the nature of the appeal and the reasons therefor, provided that the board must receive the appeal within thirty days following an employee's suspension, demotion or discharge. After a full and proper hearing of the appeal, at which the employee shall have the right to be represented by counsel, the board shall have power to decide any of the following:
  - (1) To uphold the city manager's or the appointing authority's action;
  - (2) To require by a majority vote reconsideration of the suspension, demotion, or discharge and a new decision of reinstatement or a lesser penalty or confirmation of the original demotion or discharge to be made by the city manager or the appointing authority; or
  - (3) Upon unanimous decision of the board to reverse the action of the city manager or appointing authority causing the affected employee to be restored to his previous status, including payment of back pay lost by said employee, or taking such other action as the board deems appropriate. In all employee appeal cases, the unanimous decision and order of the board shall be final and the affected parties shall comply therewith, provided the right of appeals of an affected employee as provided by law shall be recognized;
- (g) That the city manager or the appointing authority shall be required to fully advise the board of any disciplinary action taken as soon thereafter as is practicable;
- (h) That any employee or official of the village of Riverview who has held a position or office included in the civil service system for a period of at least one year prior to the date of adoption of this charter may be retained without preliminary or performance tests and shall thereafter be subject in all respects to the provisions of this chapter, the civil service system ordinance, and the personnel rules and regulations;
- (i) For the restriction of active participation in the municipal politics of the city of Riverview, it being the stated policy, however, not to deny to employees and officials covered by the civil service system the rights of such persons to engage in their normal rights and responsibilities as citizens;
- (j) That the civil service system provisions of this charter, the civil service system ordinance, and the personnel rules and regulations shall apply to all employees of the city except officials holding elective offices, the administrative officers, technical consultants employed under contract by the city, members of boards and commissions of the city, and part-time officers and employees.

## Section 17.2. Intent of the merit system.

It is the intent of this charter to secure the establishment of a program of a civil service system under the merit principle as an integral part of the administrative service, to the end that the administration of the city's personnel program will be done in a manner equitable to the employees without handicapping or curtailing responsible administrative officers and by increased efficiency and improved administration will be economical to the citizens.

BE IT FURTHER RESOLVED that the City Clerk of the City of Riverview is hereby authorized, instructed and directed to prepare and provide the necessary ballots, in the form and manner above set forth for the submission of said proposition to the qualified electors at said State Primary Election scheduled for Tuesday, August 4, 1992.

BE IT FURTHER RESOLVED that the City Clerk be, and she is hereby instructed and directed to publish notice of said proposition along with the regular notice of said State Primary Election, according to law, in the New Herald, a newspaper published and circulated in the City of Riverview, at least twice prior to the date of said election;

BE IT FURTHER RESOLVED that the City Clerk be, and she is hereby instructed and directed to publish in the said News Herald, the proposed Charter Amendment in full, together with the existing Charter provisions which would be altered, amended and abrogated thereby at least twice prior to the date of said election, and post the same in full in a conspicuous place in each polling place on the day of said election, according to law;

BE IT FURTHER RESOLVED that the City Clerk be, and she is hereby instructed and directed to comply with all provisions of the law with respect to registration of electors for said election;

BE IT FURTHER RESOLVED that the City Clerk be, and she is hereby instructed and directed to submit forthwith to the Governor of the State of Michigan, a certified copy of this proposed Charter Amendment for his approval;

BE IT FURTHER RESOLVED, that the City Clerk be, and she is hereby instructed and directed to submit forthwith, to the Attorney General of the State of Michigan, a certified copy of this proposed Charter Amendment embodying the text of the Statement of the puposes of said Amendment, for his approval;

BE IT FURTHER RESOLVED that the election commission of the City of Riverview, be, and it is hereby instructed and directed to do and perform all of its lawful duties with respect to the inclusion of said Charter Amendment on the ballot in connection with the State Primary Election.  
Carried unanimously.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Council adopt the following resolution encouraging citizen participation and support in the promotion of the **Riverview Cultural Commission** as endorsed by the City Manager.

WHEREAS, Ordinance #292 of March 16, 1983, created a Cultural Commission of seven members to act as an advisory commission to the City Council in the promotion and development of performing creative arts within the community, and

WHEREAS, the Commission entered upon its duties in 1983 and for five years was able to stage art exhibits and arts and craft events, the income from which supported grants by the Commission of certain scholarship awards, and

WHEREAS, membership on the commission has declined substantially in the past two years and efforts on the part of the City to recruit new members has failed to attract sufficient interest on the part of local citizens to make the Commission a viable entity;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Riverview, Michigan, as follows:

1. Citizen participation and support of cultural activities as promoted and sponsored by the Riverview Cultural Commission, is strongly encouraged.
2. An advisory commission application process for appointments to the Riverview Cultural Commission will be initiated and held open through February 29, 1992, and subject to the demonstrated level of interest and involvement, the City Council will reconsider the matter of appointments and the future of the Riverview Cultural Commission during the month of March, 1992.

#### ORDINANCE NO. 364

AN ORDINANCE TO AMEND THE CITY OF RIVERVIEW CODE OF ORDINANCES BY THE ADOPTION OF A NEW ARTICLE IX. ANTI-BLIGHT REGULATIONS FOR RESIDENTIAL AREAS AND A NEW ARTICLE X. ANTI-BLIGHT REGULATIONS FOR COMMERCIAL AREAS, UNDER CHAPTER 16, NUISANCES AND OFFENSIVE CONDITIONS.

#### THE CITY OF RIVERVIEW ORDAINS:

That the City of Riverview Code of Ordinances be amended by the adoption of new Articles IX and X under Chapter 16, Nuisances and Offensive Conditions, to hereafter read as follows:

#### CHAPTER 16. NUISANCES AND OFFENSIVE CONDITIONS

\* \* \*

#### ARTICLE IX. ANTI-BLIGHT REGULATIONS FOR RESIDENTIAL AREAS

Sec. 16-200. Purpose. It is hereby found and declared that certain areas of the City of Riverview have or may become blighted with the consequent impairment of taxable values upon which, in large part, municipal revenues depend; that such blighted areas are detrimental or inimical to the health, safety, morals, and general welfare of the citizens and to the economic welfare of the municipality; that in order to improve and maintain the general character of the municipality, it is necessary to rehabilitate such blighted areas; that the conditions found in blighted areas cannot be remedied by the ordinary operations of private enterprise, with due regard to the general welfare of the public, without public participation; that the purposes of this article are to rehabilitate such areas by eliminating blight and blight factors within such areas for the protection of the health, safety, morals and general welfare of the municipality, to preserve existing values of other properties within or adjacent to such areas, and to preserve the taxable value of the property within such areas; and the necessity and the public interest for provisions herein set forth is hereby declared as a matter of legislative determination to be a public purpose and a public use.

Sec. 16-210. Cause of Blight or Blighting Factors. It is hereby determined that the following uses, structures and activities are causes of blight or blighting factors which, if allowed to exist, will tend to result in blighted and undesirable neighborhoods. No person shall maintain or permit to be maintained any of these causes of blight or blighting factors upon any property in the City owned, leased, rented, or occupied by such person.

- (1) In any area zoned for residential purposes, the storage upon any property of junk automobiles, except in a completely enclosed building. For the purpose of this Article the term "junk automobiles" shall include any motor vehicle which is not licensed for use upon the highway of the State of Michigan for a period in excess of thirty (30) days and shall also include whether so licensed or not any motor vehicle which is inoperative for any reason for any period in excess of thirty (30) days.
- (2) In any area zoned for residential purposes, the storage upon any property of building materials unless there is in force a valid building permit issued by the City for construction upon said property and said materials are intended for use in connection with such construction. Building materials shall include but shall not be limited to lumber, bricks, concrete or cinder blocks, plumbing materials, electrical wiring or equipment, heating ducts or equipment, shingles, mortar, concrete or cement, nails, screws, or any other materials used in constructing any structure.
- (3) In any area zoned for residential purposes, the storage or accumulation of junk, trash, rubbish or refuse of any kind, except domestic refuse stored in such a manner as not to create a nuisance for a period not to exceed thirty (30) days. The term "junk" shall include parts of machinery or motor vehicles, unused stoves or other appliances stored in the open, remnants of wood, metal or any other material or other cast-off material of any kind whether or not the same could be put to any immediate reasonable use.

- (4) In any area the existence of any structure or part of structure which because of fire, wind, or other natural disaster, or physical deterioration is no longer habitable, as a dwelling, nor useful for any other purpose for which it may have been intended.
- (5) In any area zoned for residential purposes, the existence of any vacant dwelling, garage or other out-buildings, unless said structures are kept securely locked, windows kept glazed or neatly boarded up and otherwise protected to prevent entry thereto by the elements or by unauthorized persons.
- (6) In any area the existence of any partially completed structure unless such structure is in the course of construction in accordance with a valid and subsisting building permit issued by the City and unless such construction is completed within a reasonable time.

Sec. 16-220. Non Residential Causes of Blight. The causes of blight or blighting factors set forth above as applicable to areas zoned for residential purposes are hereby determined to be causes of blight or blighting factors and subject to the prohibitions of this Article if located in areas zoned for other than residential purposes, unless such uses of property are incidental to and necessary for the carrying out of any business or occupation lawfully being carried on upon the property in question.

Sec. 16-230. Enforcement and Penalty.

- (1) The Zoning or Building Inspector or Enforcement Officer shall enforce this Article and shall periodically inspect the City for causes of blight or blighting factors within the City.
- (2) The owner, if possible, and the occupant of any property upon which any of the causes of blight or blighting factors as set forth above in section 16-210 is found to exist, shall be notified in writing to remove or eliminate such causes of blight or blighting factors from such property within ten (10) days after service of the notice upon him. Such notice may be served personally or by registered mail, return receipt requested. If diligent efforts to serve the occupant and owner personally or by registered mail, return receipt requested, are unsuccessful, it shall be deemed sufficient notice if the above-mentioned written notice is mailed by first class mail to the occupant and the owner, if possible, and if a copy of the written notice is posted in a conspicuous location on the property in question. In addition, once the notice described in this subsection has been given, it shall be deemed sufficient notice for as long as the causes of blight described in the notice remain uncorrected. Additional time to remove the causes of blight or blighting factors may be granted by the Enforcement Officer where bona fide efforts to remove or eliminate such causes of blight or blighting factors are in progress.
- (3) Failure to comply with such notice by the owner and/or occupant by the removal of the causes of blight or blighting factors within the time allowed shall constitute a violation of this Code, punishable upon conviction thereof by a fine not to exceed five hundred (\$500.00) dollars or by imprisonment not exceeding ninety (90) days or by both such fine and imprisonment in the discretion of the court.

- (4) Notwithstanding any criminal prosecution commenced alleging a violation of this Article, or the lack of such a criminal prosecution, if the owner or occupant shall fail to remove or eliminate the causes of blight or blighting factors, the Inspector or Enforcement Officer may notify the City Manager, or his designee, who shall give written notice to the owner, occupant, lessee, and any party in interest as determined from the records of the Wayne County Register of Deeds to appear before the City Manager, or his designee, for purposes of a hearing on a specified date to show cause why the causes of blight or blighting factors should not be removed or eliminated.
- (5) The notice to show cause referred to in subsection (4) above shall be specific as to the causes of blight or blighting factors, and shall be served on the necessary parties personally, or by registered mail, return receipt requested. In addition, a copy of the notice of hearing shall be posted in a conspicuous place on the premises where the blight or blighting factors are found to exist. No further notice shall be necessary.
- (6) At the City Manager's, or his designee's, hearing referred to in subsections (4) and (5) above, the City Manager or his designee, shall hear such statements and consider such evidence as the Inspector or Enforcement Officer, or the owner, occupant, lessee, or other party in interest, or other witnesses shall offer relative to the existence of and removal or elimination of the causes of blight or blighting factors. The City Manager, or his designee, shall make findings of fact from the statements and evidence offered as to whether or not the causes of blight or blighting factors exist and whether they shall be removed or eliminated. If the City Manager, or his designee, determines that blight or blighting factors exist and should be removed or eliminated, he shall issue an order based upon findings of fact made pursuant herewith commanding the owner, occupant, lessee and/or any other party in interest to remove or eliminate the causes of blight or blighting factors.
- (7) If an order issued by the City Manager, or his designee, pursuant to subsection (6) above has not been complied with within ten (10) days after its issuance, the City at the direction of the City Manager, or his designee, may cause the elimination or removal of the causes of blight or blighting factors and shall cause the cost of said removal or elimination to be charged as a lien against the property on which the causes of blight or blighting factors exist, or cause such costs to be added to the tax roll as an assessment, or to be levied as a special tax against the property, or to be recovered in a suit at law against the owner. The manner in which said costs will be collected by the City shall be left to the discretion of the City Manager, or his designee.
- (8) Any such owner, occupant, lessee, or other party in interest who fails to comply with an order issued by the City Manager, or his designee, pursuant to subsection (6) above, shall be charged with all administrative costs and expenses incurred in the elimination or removal of the causes of blight or blighting factors. Such administrative costs shall include inspections, postal charges, legal expenses and other expenses as ascertained by the City Manager, or his designee, which are the result of the enforcement of this Article.

- (9) All costs referred to in subsection (8) above which are assessed against the owner, occupant, lessee, or other party in interest; unless otherwise paid may also be assessed against the property in any of the various ways set forth in subsection (7) above. All costs are independent of any other penalties and powers of the City as set forth in Chapter 1 or in subsection (3) of this section.
- (10) Any owner of any property upon which any of the causes of blight or blighting factors as set forth in section 16-210 is found to exist, may enter into a written agreement with the City through the City Manager, or his designee, to have the City eliminate or remove the causes of blight or blighting factors, and to have the City charge the costs of said removal or elimination against the property as a lien, or cause such costs to be added to the tax rolls as an assessment, or to be levied as a special tax against the property. Such agreement shall be approved by the City Council, and shall include as costs all administrative costs and expenses.

#### ARTICLE X. ANTI-BLIGHT REGULATIONS FOR COMMERCIAL AREAS

Sec. 16-300. Definitions. In the interpretation of this Article the following definitions shall apply, as shall the regulations of Article IX, above.

- (1) "Shopping Center" shall mean any one or more commercial buildings, whether or not under common ownership, which are operated as an entity or in cooperation with one any other and have common parking facilities.
- (2) "Parking Lot" means all areas set aside or designed for the parking of motor vehicles or the loading and unloading of motor vehicles on the premises or in conjunction with a shopping center, and includes all driveways, aisle ways or other areas supplementary thereto.
- (3) "Proprietor" shall mean every owner, lessee, tenant, or other person having the right to possession of all or a portion of a shopping center or commercial building. Where there are more than one such person, all shall be jointly and severally obligated by the terms of this Article.
- (4) "Commercial building" shall mean any building or structure used for business purposes including, but not limited to office, retail, service and/or industrial building or structures.

Sec. 16-310. Buildings. The exteriors of all commercial buildings or buildings located in any shopping center shall be maintained so as to present a neat and orderly appearance. Windows shall be glazed, painted surfaces kept properly painted and all other appropriate measures taken to properly maintain the buildings. Where buildings within a shopping center are owned by separate entities, the obligations of this paragraph shall fall only upon those persons responsible for the particular buildings involved.

Sec. 16-320. Parking lots. All parking lots shall be provided with pavement having a permanent durable and dustless surface and shall be graded and drained so as to dispose of all surface water accumulated within the area.

All cracks, pot holes or other breaks in the parking lot surface shall be filled and repaired promptly by the proprietor. The proprietor shall provide for snow removal services, in order that the parking lot will be reasonably available for use by the public.

Sec. 16-330. Trash Removal. The proprietor shall provide for the removal of all waste, trash, rubbish or refuse of all kinds from the shopping center at regular intervals. Such intervals shall not exceed one week and trash collections shall be made more often if necessary to prevent the accumulation of refuse so as to create a nuisance. Between collections, the refuse shall be stored in covered containers constructed in such a way as to prevent escape of the refuse.

Sec. 16-340. Loose Trash, Rubbish, or Debris. The proprietor shall be responsible for seeing to it that the premises of the shopping center, or commercial building, including the parking lot and specifically including that part of any highway right of way adjoining the premises and not actually used for the travel of motor vehicles, are kept free of junk, trash, rubbish, debris or refuse of any kind. The proprietor shall see to it that the premises are cleaned of such debris or refuse at least each day and shall take all reasonable steps to provide containers for discards and to order his employees and encourage the public to use them.

Sec. 16-350. Landscaping. The proprietor shall install and maintain landscaping on all areas of the shopping center or commercial building premises not occupied by buildings, sidewalks, parking lots, drive-ways and similar surfacing. The requirement of landscaping also is specifically applicable to those parts of highway rights of way adjoining the shopping center or commercial building premises and not actually used for travel purposes. Landscaping shall consist, at the minimum, of the establishment of a sod or other material to hold the earth and prevent dust and the establishment of noxious weeds. The proprietor shall maintain the landscaping and shall see that all lawns are mowed regularly, shrubs are appropriately trimmed and noxious weeds are eliminated.

Sec. 16-360. Enforcement and Penalty.

- (1) The Zoning or Building Inspector or Enforcement Officer shall enforce this Article and shall periodically inspect the City for causes of blight or blighting factors within the City.
- (2) The owner, if possible, and the occupant of any property upon which any of the causes of blight or blighting factors as set forth in this Article in Sections 16-220, 16-320, 16-320, 16-330, 16-340 and 16-350 is found to exist, shall be notified in writing to remove or eliminate such causes of blight or blighting factors from such property within ten (10) days after service of the notice upon him. Such notice may be served personally or by registered mail, return receipt requested. If diligent efforts to serve the occupant and owner personally or by registered mail, return receipt requested, are unsuccessful, it shall be deemed sufficient notice if the above-mentioned written notice is mailed by first class mail to the occupant and the owner, if possible, and if a copy of the written notice is posted in a conspicuous location on the property in question. In addition, once the notice described in the subsection has been given, it shall be deemed sufficient notice for as long as the causes of blight described in the notice remain uncorrected.

Additional time to remove the causes of blight or blighting factors may be granted by the Enforcement Officer where bona fide efforts to remove or eliminate such causes of blight or blighting factors are in progress.

- (3) Failure to comply with such notice by the owner and/or occupant by the removal of the causes of blight or blighting factors within the time allowed constitute a violation of this Code, punishable upon conviction thereof by a fine not to exceed five hundred (\$500.00) dollars or by imprisonment not exceeding ninety (90) days or by both such fine and imprisonment in the discretion of the court.
- (4) Notwithstanding any criminal prosecution commenced alleging a violation of this Article, or the lack of such a criminal prosecution, if the owner or occupant shall fail to remove or eliminate the causes of blight or blighting factors, the Inspector or Enforcement Officer may notify the City Manager, or his designee, who shall give written notice to the owner, occupant, lessee, and any party in interest as determined from the records of the Wayne County Register of Deeds to appear before the City Manager, or his designee, for purposes of a hearing on a specified date to show cause why the causes of blight or blighting factors should not be removed or eliminated.
- (5) The notice to show cause referred to in subsection (4) above shall be specific as to the causes of blight or blighting factors, and shall be served on the necessary parties personally, or by registered mail, return receipt requested. In addition, a copy of the notice of hearing shall be posted in a conspicuous place on the premises where the blight or blighting factors are found to exist. No further notice shall be necessary.
- (6) At the City Manager's or his designee's, hearing referred to in subsections (4) and (5) above, the City Manager, or his designee, shall hear such statements and consider such evidence as the Inspector or Enforcement Officer, or the owner, occupant, lessee or other party in interest, or other witnesses shall offer relative to the existence of and removal or elimination of the causes of blight or blighting factors. The City Manager, or his designee, shall make findings of fact from the statements and evidence offered as to whether or not the causes of blight or blighting factors exist and whether they shall be removed or eliminated. If the City Manager, or his designee, determines that blight or blighting factors exist and should be removed or eliminated, he shall issue an order based upon findings of fact made pursuant herewith commanding the owner, occupant, lessee and/or any other party in interest to remove or eliminate the causes of blight or blighting factors.
- (7) If an order issued by the City Manager, or his designee pursuant to Subsection (6) above has not been complied with within ten (10) days after its issuance, the City at the direction of the City Manager, or his designee, may cause the elimination or removal of the causes of blight or blighting factors and shall cause the cost of said removal or elimination to be charged as a lien against the property on which the causes of blight or blighting factors exists, or cause such costs to be added to the tax rolls as an assessment, or to be levied as a special tax against the property, or to be recovered in a suit at law against the owner. The manner in

which said costs will be collected by the City shall be left to the discretion of the City Manager, or his designee.

- (8) Any such owner, occupant, lessee, or other party in interest, who fails to comply with an order issued by the City manager, or his designee, pursuant to subsection (6) above, shall be charged with all administrative costs and expenses incurred in the elimination or removal of the causes of blight or blighting factors. Such administrative costs shall include inspections, postal charges, legal expenses and other expenses as ascertained by the City Manager, or his designee, which are the result of the enforcement of this Article.
- (9) All costs referred to in subsection (8) above which are assessed against the owner, occupant, lessee, or other party in interest, unless otherwise paid may also be assessed against the property in any of the various ways set forth in subsection (7) above. All costs are independent of any other penalties and powers of the City as set forth in Chapter 1, or in subsection (3) of this section.
- (10) Any owner of any property upon which any of the causes of blight or blighting factors as set forth in this Article in Sections 16-220, 16-310, 16-320, 16-330, 16-340 and 16-350 is found to exist, may enter into a written agreement with the City through the City Manager, or his designee, to have the City eliminate or remove the causes of blight or blighting factors, and to have the City charge the costs of said removal or elimination against the property as a lien, or cause such costs to be added to the tax rolls as an assessment, or to be levied as a special tax against the property. Such agreement shall be approved by the City Council, and shall include as costs all administrative costs and expenses.

This ordinance shall become effective upon publication as provided by law.

## ORDINANCE NO. 369

AN ORDINANCE TO AMEND THE ORDINANCE CODE OF THE CITY OF RIVERVIEW, AND TO UP-DATE THE PROVISIONS OF THE CITY'S BUILDING CODE, BY THE REPEAL OF ARTICLE II, BUILDING CODE, BEING SECTION 6-16 UNDER CHAPTER 6, WHICH HAS REFERENCE TO THE 1984 EDITION, AND BY THE RE-ENACTMENT OF A REVISED SECTION 6-16 TO ADOPT THE 1990 REVISED EDITION OF THE BOCA NATIONAL BUILDING CODE.

## THE CITY OF RIVERVIEW ORDAINS:

That the present Section 6-16 be hereby amended, and that a new revised Section 6-16 under Article II, Building Code, being a part of Chapter 6, Building and Building Regulations, be adopted so as to supersede such section. Such amended portion after adoption shall read:

## CHAPTER 6

## BUILDING AND BUILDING REGULATIONS

\* \* \*

## ARTICLE II, BUILDING CODE

## Section 6-16 Adoption by reference; Citation.

Pursuant to the provisions of Section 8 of the State Construction Code (Act 230 of 1972 MCL Section 125.1501 et sequia, MSA 5.2949(1) et sequia, the National Building Code as published and promulgated by the Building Officials and Code Administrators International, Inc., being the 1990 Edition, is hereby adopted by reference to said Revised 1990 Edition of the BOCA National Code subject, however, to the modifications to said Code which were heretofore enacted by the City being Sections 6-17, 6-18, 6-19, 6-20, 6-21, 6-22, and 6-23, inclusive, which further provisions of Article II of the Building Code are not herein amended but are retained as supplemental to this revised Code. Where in conflict, the provisions of this Article II shall prevail over the BOCA Building Code. To implement such adoption by reference, three (3) complete bound copies of the 1990 BOCA Building Code shall at all times be available for inspection and reference thereto, during normal business hours in the Office of the City Clerk. Such copies shall be in addition to those copies utilized by the Building Department. Such building code as supplemental by the remaining sections of Article II, Chapter 6, is hereby enacted and adopted and made a part of the Ordinance Code of the City of Riverview, as fully as if set forth herein, with additions, insertions, deletions and modifications as are set forth in the remaining sections of Article II, Chapter 6.

All sections of such National Building Code, although retaining the same numbering sequence as appearing in the published volume, for citation purposes in municipal proceedings shall carry the pre-fix "6-16" followed by the published code section number as may be appropriate, to the right of the decimal point.

Section 6-17 "References" is not herein amended and the same is preserved intact.

Provided further, however: Where reference under Section 6-18 is made to a section of the BOCA Code which now has been re-numbered under the 1990 Code, the local amendment where appropriate shall be deemed to refer to the re-numbered section, to wit:

## 113.6 "Plot Diagram"

The prior amendment to BOCA Code 113.6 is preserved intact and shall be read as though it were supplemental to Sec. 113.

## 113.6.1 "Trees"

The prior amendment to BOCA Code 113.6.1 is preserved intact and shall be read as though it were supplemental to Sec. 113.

## 113.6.2 "Grades"

The prior Section 113.6.2 Grades is preserved intact and shall be read as though it were supplemental to Sec. 113.

## 122.5 "Violations"

The prior Section 122.3 providing for fines and violation is preserved intact and shall be read as though it were supplemental to Section 122, and shall be designated as an added subsection 122.5.

The prior amendment to BOCA Code 127.1 "Fee for Appeal" is preserved intact but shall be deemed to refer to new re-numbered Section 124.1 and shall be read as supplementing that section.

## 124.2 Memberships of Board of Appeals.

The prior amendment to BOCA Code 127.2.1, "Membership of Board" is preserved intact but shall be deemed to refer to new re-numbered Sec. 124.2 and shall supersede the same.

Sections 6-19 through 6-23 inclusive, are preserved intact and without change as presently stated under Article II, Chapter 6 of the Code.

Part 4 of the Building Code Rules incorporating barrier free design requirements is hereby made a part of this Ordinance.

This Ordinance shall take immediate effect upon adoption by the City Council and publication as required by law.

Resolved by Councilwoman Thiede, supported by Councilman Capezza, that Ordinance #369 be adopted as read.

Further, Council refer said application to the Planning Commission for their recommendations. Carried unanimously.

Resolved by Councilman Brown, supported by Councilman Trombley, that the model Resolution for a Drug Free School Zone be received and placed on file. Further, Council adopt said resolution with copies to the Riverview Community School District and Office of Drug Agencies.

Whereas, drug abuse is one of the most serious and pervasive problems facing the citizens of this state; and

Whereas, school age children are especially vulnerable to and influenced by the activities of predatory drug offenders; and

Whereas, the Governor has called for a broad based and multi-disciplinary attack on both the "supply" and "demand" facets of the substance abuse problem; and

Whereas, our long term efforts to address this national problem will depend in large measure on the eventual success of programs and initiatives at the local level designed ultimately to reduce the demand for illicit substances; and

Whereas, elementary and secondary schools serve as the principle medium for educating young people about the perils of substance abuse; and

Whereas, young citizens of the community have an undeniable and fundamental right to the advantages of a school environment which is conducive to educational goals and prerogatives and which is totally free of drug abuse and trafficking activities; and

Whereas, the Legislature by enactment of P.A. 12, 1988, known as the Drug Free School Zone Act, has provided for enhanced punishment for drug offenders who distribute to or who use children or who operate on or near school property; and

Whereas, the legislature has directed that the enforcement of Michigan's drug laws shall be a priority of the law enforcement community, and that special emphasis shall be placed on the patrol and protection of schools and areas within drug free school zones; and

Whereas, the Governor has established the Michigan Alliance for Drug Free Schools and Communities, which is comprised of representatives from every level within the professional, educational and law enforcement communities, and which has developed and recommended specific guidelines concerning law enforcement activities conducted on school property; and

Whereas, there is a demonstrated need for the continuation, institutionalization and enhancement of the spirit of cooperation which exists between law enforcement officials and professional educators with respect to the substance abuse problem; and

Whereas, law enforcement officials are requested at all times to respect and appreciate the needs, concerns and rights of students and professional educators

Now, therefore the City Council of the City of Riverview by virtue of the authority vested by law do hereby declare the Schools of Riverview to be DRUG FREE SCHOOL ZONES.

Carried unanimously.

Further, the names of Vincent "Joe" Porecca, State Representative and Christopher Dingell State Senator be inserted into the Resolution and Council adopt same as follows:

WHEREAS, the City of Riverview is the owner and the operator of a Type II landfill; and

WHEREAS, the City is establishing an environmental escrow account wherein a certain portion of its landfill revenues will be escrowed to handle, among other things, environmental remediation matters; and

WHEREAS, Act 9 of the Public Acts of 1990 amended the Solid Waste Management Act by imposing a surcharge on disposal of municipal solid waste, the proceeds of which are used to fund a "Perpetual Care Fund"; and

WHEREAS, as municipal corporation, the City of Riverview and similarly situated governmental units are distinct from private landfill owners and operators in that the full faith and credit of the municipalities are available to meet any environmental remediation requirements and, further, that municipalities are perpetual in existence and tied to specific territories, thereby making local governments financially responsible in perpetuity for the consequences of owning and operating a landfill; and

WHEREAS, Riverview's establishment of the environmental escrow account provides further environmental protections;

NOW THEREFORE, BE IT RESOLVED that the City of Riverview, through its Mayor and Council, respectfully request that State Representative Vincent "Joe" Porecca and State Senator Christopher Dingell for the City introduce legislation to exempt municipalities which own and operate landfills from the requirements of Act 9 of the Public Acts of 1990 for the reasons set forth above; and

BE IT FURTHER RESOLVED that the City Clerk forward certified copies of this resolution to other Michigan municipalities which own and operate landfills.
