January 31, 1999

President William J. Clinton  
The White House  
1600 Pennsylvania Avenue N.W.  
Washington, DC 20050

Dear President Clinton:

The purpose of this letter is to request your immediate attention to a problem facing our city, our state and our nation. The City of Riverview represents small town America. We have a long history of working hard, making our community a better place to live, work and raise a family. However, our ability to deliver these values to our residents has been severely impacted by a crisis in one of our nation's core industries...namely, the steel industry.

While many people want the federal government to subsidize some of our core industries, we do not believe that subsidies are in the long-term interest of our nation. Instead, we simply want to compete

on a free and fair basis. When the playing field is level, we are confident that we can bring value to our customers, our stakeholders, and to the nation. America is the greatest nation on earth and action that you take to allow our nation to compete in the world arena is critical to keeping our nation great.

When other nations "dump" steel and other commodities on our shores, it changes the economics of our nation. It places the cost structure of "following the rules" at a total disadvantage. Small communities like Riverview can not "change the rules." The federal government needs to "enforce the rules."

Your immediate attention is requested.

Sincerely,

City of Riverview, Mayor and Council

March 26, 1999

Councilman James Trombley  
18147 Valade  
Riverview, Michigan 48192

Dear Councilman Trombley:

The City of Riverview is to be commended for the excellent manner in which it performed during the snow storms during the 1998-1999 winter season. We tend to take such performance for granted until we learn of the problems experienced by neighboring cities, Detroit in particular which finally was declared a "Disaster Area". It is my understanding, however, that in its final form President Clinton signed an order naming all of Wayne County a disaster area. From what I read in the newspaper regarding Detroit, this qualifies cities within the declared disaster area to apply to the Federal Government for partial restitution of funds expended during the first part of January in clearing snow.

If the City of Riverview has not already done so, I recommend we apply to FEMA to recover some of the costs attributable to the early January storm. According to the newspaper this can be as much as 75% from the Federal Government to and an additional 12.5% from the State of Michigan.

I feel certain there are many projects in Riverview which could use additional funding and this may be an opportunity to do so.

Donald W. Cady

**RESOLUTIONS:**

Motion by Councilmember Elmer Trombley, seconded by Councilmember Priskorn, that **Resolution No. 99-39** opposing **Special Tax Break** for Utilities and further approve the expenditure of \$480.00 to support the tax base defense effort.

WHEREAS, the State Tax Commission is charged with the proper administration of the laws governing assessments and the levying of taxes in this state; and

WHEREAS, Article 9, Subsection 3 of the Michigan Constitution mandates that the legislature provided for the *uniform* general ad valorem taxation of tangible personal property, provide for the determination of the true cash value of such personal property and provide the proportion of true cash value at which such property shall be *uniformly* assessed; and

WHEREAS, by administrative fiat, the State Tax Commission has adopted special composite multipliers that must be used in calculating the ad valorem tax assessment of gas and electrical utility transmission and distribution systems throughout the State of Michigan; and

WHEREAS, in violation of constitutional equal protection and uniformity in taxation requirements, the adopted multipliers greatly undervalue the taxable property of utility companies; and

WHEREAS, the special utility multipliers effectively grant Michigan utilities millions in tax breaks that are unavailable to any other Michigan citizens or business; and

WHEREAS, the special utility tax breaks reduce by over one hundred million dollars the local revenues necessary to support essential services provided by schools, community colleges, parks, public safety and other units of local government; and

WHEREAS, the special utility tax breaks unfairly shift significant tax burdens from utilities to other Michigan businesses and citizens, forcing either increases in local taxes and/or severe reductions in educational, recreational, public safety or other local government services; and

WHEREAS, it is estimated that application of the special utility multipliers will cost the City of Riverview over \$32,012 annually; and

WHEREAS, Court intervention is necessary to stop the ill-advised and unconstitutional special utility tax break;

NOW, THEREFORE, BE IT RESOLVED, that the City of Riverview, hereby endorses and pledges its support of the legal challenge to the Tax Commission's action.

BE IT FURTHER, RESOLVED, the City of Riverview authorizes its counsel to join the challenge as a Party-Plaintiff.

BE IT FURTHER RESOLVED, the City of Riverview appropriates funds in the amount of \$480.00 to help offset legal costs and expenses incurred in this challenge.

Attention: Mr. Robert Elliott & Mr. David Sabuda

Re: notice of hearing regarding Matthews Street paving, etc. on April 6, 1998.

Please be advised we are on record of opposing this project - and the proposed special assessment.

Reason -1: We are retirees living on Social Security. Plus we last month received a \$1,000.00 - property assessment. Last year we received 2% property tax increase assessment.

Reason - 2: When the alleys in the neighborhood were worked on the heavy duty vehicles used and did damage to our street. City did nothing at that time to recover damages.

Reason - 3: If this project goes thru the street will be narrowed . And getting in and out of driveways will be a problem. Such as exists in the neighboring Brinson Street.

Reason - 4: Residents on Matthews rejected a similar project some years ago. Due in fact that quite a few are retirees. Like Mrs. Easson and my self. (Mrs. Easson never worked for some 28 years) We know of at least 10 retired families - 6 single persons, 6 couples.

Aaron Easson regrets, he will be unable to attend the meeting due to the fact he is on oxygen 24 hours a day - and does not venture out at night. And Mrs. Easson does not drive at night.

Re: Notice of hearing - regarding Matthews Street - paving, etc. on April 6, 1998.

Please be advised that I am on record of opposing this project and proposed special assessment. I am a retiree.

Because I am a single retiree living on low income/social security disability.

Last month I received a notice of my assessment of \$1,560.00 which probably means a tax increase for 1998.

I've spoken to some of my neighbors - who are also retirees and they are going to have a hard time also. Please take this matter into consideration. Council should recall that this project was rejected several years ago - because of the high number of retirees living on this block. Most of them are still living on the street.

Please consider my plea.  
Respectfully:

Judy Idema

Mayor Durand asked if anyone in the audience wished to address the City Council on the proposed Rehabilitation of Matthews Street. The following persons spoke.

Mr. Bob Hale, 17626 Matthews - opposed to proposed project.

F.H. Thomas, 17620 Matthews - opposed to proposed project.

Mr. Craig Idema, 17576 Matthews - opposed to proposed project.

Ms. Valeric Kaiser, 17529 Matthews - opposed to proposed project.

Mr. Robert Ditzhazy, 17556 Matthews - opposed to proposed project.

AN ORDINANCE TO AMEND CHAPTER 16, ENTITLED NUISANCES AND OFFENSIVE CONDITIONS, OF THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW BY ADDING A NEW ARTICLE XI, ENTITLED "DRUG AND PROSTITUTION NUISANCES", TO ABATE DRUGS AND PROSTITUTION WITHIN THE CITY LIMITS.

THE CITY OF RIVERVIEW ORDAINS:

ARTICLE I. Adoption: That Chapter 16 of the Code of Ordinances of the City of Riverview, is hereby amended to hereafter read as follows:

Chapter 16

NUISANCES AND OFFENSIVE CONDITIONS

Article XI. Drug and Prostitution Nuisances.

Sec. 16-361. Definitions.

For the purposes of this Chapter only, the terms defined herein shall have the following meanings:

- (1) Council means the council of the City of Riverview.
- (2) Owner means any person who possesses or has legal or equitable interest in a property; any person who has or exercises any control, custody or dominion over a property whether or not that person has or claims to have any legal or equitable interest in the property; any person having an ownership interest in a property as disclosed by the records referred to in this Chapter.
- (3) Property means any building, house, land, premises, structure or any part thereof.
- (4) Repeated and repeatedly mean two (2) or more times.

Sec. 16-362. Legislative Findings with Respect to Drug Use and Prostitution or Soliciting of Prostitution.

The council determines that whenever the repeated use, sale, furnishing, giving or possession of controlled substances or drug paraphernalia occurs on any property within the City of Riverview or whenever property is repeatedly used for violations of the controlled substances or drug paraphernalia laws or for the purposes of prostitution or soliciting prostitution, a public nuisance may result. Such a public nuisance results due to the increased criminal activity that occurs in the neighborhoods surrounding the property, increased pedestrian and/or vehicular traffic in the neighborhood surrounding the property, the fear in the minds of the neighbors and the peace and quiet enjoyment of residents living in the neighborhood surrounding the property being disturbed.

Sec. 16-363. Authority for Declaration of a public Nuisance.

Whenever the illegal use, sale, furnishing, giving or possession of controlled substances or drug paraphernalia repeatedly occurs on any property or when any violation of the controlled substances act or the drug paraphernalia laws or any act of prostitution or soliciting prostitution occurs repeatedly on any property, the council may declare by resolution that the property is a public nuisance and order that the nuisance be altered as provided in this Chapter.

Sec. 16-364. Procedures for Declaration of a Public Nuisance.

A Declaration of a Public Nuisance under the authority of this Chapter shall occur in accordance with the following procedures:

- (1) Such a declaration may occur once notice has been given to the owner of the property and the owner has had a chance to be heard at a public evidentiary hearing held before the council.
- (2) Notice of the hearing must be given to the owner and shall consist of personal service or mailing of a certified letter to the owner at the address indicated by the city's records or the Wayne County Register of Deeds. The notice shall state the nature of the alleged violation/nuisance and the time date and place for the hearing. If notice is sent by certified mail, a copy of the return receipt shall prove notice was effectively given. Such notice shall take place at least seven (7) calendar days prior to the hearing.
- (3) The council shall sit as the administrative body acting in a quasi-judicial capacity and shall make a determination as to whether a public nuisance exists under the standards set forth in this Chapter. The council shall make this determination based solely upon the findings from the evidence presented at the hearing. In conducting the public hearing, the council shall provide the owner, the Police Department, and the surrounding neighbors an opportunity to present relevant and material evidence and to make both factual and legal arguments. Cross-examination of witnesses will be allowed. The owner may appear in person or may be represented by counsel, however, lay representation will not be allowed. In conducting the hearing, the council is not bound by the rules of evidence and may examine any piece of evidence that is either relevant or material.

Sec. 16-365. Abatement of Nuisance and Costs.

If the council determines by a preponderance of the evidence that a property is in fact or law a public nuisance, it may, by the passing of a resolution, in addition to any other remedies available at law or in equity, order abatement of the nuisance.

(1) The abatement process shall be conducted as follows:

- (a) If it is determined that all or a portion of the property is to be ordered vacated, the council shall order the property vacated and declare that occupancy of all or a portion of the property is prohibited and authorize the Police Department to prohibit the occupancy of the property by either padlocking all or a portion of the property or boarding or otherwise securing all or a portion of the property, as is appropriate, for a period not to exceed one (1) year, as the council shall see fit; and/or
- (b) Determine that the owner shall be liable for the full cost of any materials and personnel (including police and any other city employees or

contractors) involved in the padlocking, boarding or securing of the property in the first instance and the full cost of any personnel and materials involved in any subsequent or remedial padlocking, boarding or securing of the property; and/or

- (c) Determine that the costs set out herein shall be a personal debt of the owner and/or assess those costs against the property as a lien as provided for in this Charter.
- (2) When only a discreet area under the control of a person or persons other than the owner is involved in the illegal activity, the council shall not order that any part of the property other than the part used for the illegal activity be vacated. It is the intent of this provision to protect those truly and completely innocent of any participation in the act and those not having any notice of, the illegal acts from being deprived of the use of their property.

Sec. 16-366. Presumption of Public Nuisance - Drugs or Drug Paraphernalia.

The council may find that a public nuisance exists if the following conditions are established by the evidence presented at the public hearing:

- (a) The property has been searched by the police and illegal controlled substances or illegal drug paraphernalia have been found by the police; or
- (b) The property has been the location of a violation of the Michigan controlled substances law or of the Michigan drug paraphernalia law as evidenced by conviction of an individual for violation of either at that location; and
- (c) A letter, informing the owner that an illegal controlled substance and/or illegal drug paraphernalia has been found by the police at the property or that a drug related or drug paraphernalia-related crime has been committed on the property and of the potential consequences if a similar activity occurs at the property, has been:
  - (1) personally served on an owner; or
  - (2) sent by certified mail to an owner as provided for in the Chapter, and a return receipt card has been received by the City; and
- (d) The same property is searched by the police again within six (6) months from the date of the first search and a controlled substance or drug paraphernalia is found by the police or, if within six (6) months, a subsequent violation of the controlled substance act or the drug paraphernalia law occurs.

Sec. 16-367. Presumption of Public Nuisance - Prostitution or Soliciting Prostitution.

The council may find that a public nuisance exists if the following conditions are established by the evidence presented at the hearing:

- (a) The property has been the location of an act of prostitution or soliciting prostitution as proven by the conviction of an individual for engaging in an act of prostitution or soliciting prostitution at that location, and
- (b) A letter, informing an owner that an act of prostitution or soliciting prostitution has occurred on the property and of the potential consequences if a similar activity occurs at the property, has been:
  - (1) personally served on an owner; or
  - (2) sent by certified mail to an owner as provided for in this Chapter, and a return receipt card has been received by the City; and
- (c) The same property is again proven to be the location of an act of prostitution or soliciting prostitution by the conviction of an individual for engaging, at that location, in any act prohibited by the laws of this State or of any act prohibited by the Riverview City Code relating to prostitution or soliciting prostitution.

**Sec. 16-368. Notification to the Property Owner.**

The notification letters to the property owner provided for in Sections 16-366 and 16-367 of this Chapter and the notice of a public hearing provided for in Section 16-364 of this Chapter shall contain a report stating the nature of the violation, the nature of the drugs or drug paraphernalia seized, the individuals involved and, with reasonable specificity, the location of the contraband or illegal act.

**Sec. 16-369. Appeal**

- (a) An owner aggrieved by any final determination by the council under this Chapter may appeal the determination to the Circuit Court within twenty one (21) days of the date of the decision.
- (b) The Circuit Court shall review the council's decision to determine whether the council's decision is in violation of the law, has been procured by fraud, if an abuse of discretion exists, and whether the decision is supported by competent, substantial and material evidence on the record as a whole. The Circuit Court's review shall be made upon the record made before the council. It is the responsibility of the appealing party to demonstrate error.

**Sec. 16-370. Posting and Listing of Public Nuisances.**

- (a) Whenever the council shall have ordered a property to be vacated and ordered that occupancy is prohibited, the Police Department shall post a notice so stating at each entrance to any building on the property and at the entrance to each dwelling unit or other portion of the property ordered vacated and shall replace any notices that are missing or unreadable.
- (b) The City Clerk shall maintain a list of those properties that have been declared to be public nuisances and of the remedy ordered by the council. Immediately upon a declaration of public nuisance as provided for herein, the City Clerk shall add the property to the list. Any citizen requesting a list of such properties shall be supplied one at no charge. The list shall be available for public inspection at the City Clerk's office.
- (c) No person other than an authorized city employee shall tamper with, damage, alter, destroy or remove any such notices posted by the City.

**Sec. 16-371. Entry Into or Use of Any Property of Which the Council has Ordered to be Vacated and for Which the Council has Prohibited Occupancy.**

No person shall enter upon any property that has been declared by the council to be a nuisance and which the council has ordered to be vacated and for which occupancy has been prohibited. It shall be an affirmative defense to a prosecution under this Section that written permission to enter the property was obtained from the Chief of Police.

**ARTICLE II. Penalty:** A person violating this ordinance shall be punished in accordance with Section 1-6 of the Code of Ordinances of the City of Riverview, unless a different penalty is expressly provided in this ordinance.

**ARTICLE III. Severability:** Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

**ARTICLE IV. Conflicting Ordinances:** All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

At this time, Mayor Durand asked if anyone in the audience wished to address the City Council.

The City Clerk read the following letters:

Dear City Council and City Manager

Sorry I am unable to attend this meeting. So I am writing this letter to voice my opinion on your latest idea to pave Matthews St. Many year ago when cement was \$13.00 a yard and everyone was still working and the street was in the same shape as it is now no one even thought of repairing the street. Now when the price of cement is \$85.00 a yard you want to do a complete overhaul, street, sidewalks, tree removal, sewers and stop signs. I will be 80 years old when I make my last payment and by the looks of other paved streets in the city I will have to start making another 15 years of payments when I reach that age. Some company did a section of asphalt cap a few years ago in front of my house on the corner of Colvin & Matthews and it does

not have a hole or crack in it, so if it is done right it will hold up. I oppose your new plan both constructual and financial. resident 36 years.

Sincerely,

David C. Mielnik  
17636 Matthews

City of Riverview

Attention: Mr. Elliott, City Manager

Regarding - Matthews Street improvement. We shall be unable to attend - hence this letter. We do not feel the improvements in the posted plans - do not warrant the cost to residents.

The information send does nothing to lesson the cost even over five years. Is it necessary to have all this work done?

And what about bids? What about over bids? We have noticed that City hall has a history of over bids and wasteful spending, i.e. bullet proof glass - Traffic Light - carpeting for City Hall - Library - memorial - Vietnam - to name a few.

Remember it is Matthews Street Residents who are footing th bill NOT Riverview residents.

Mayor Durand and City Council

Dear Hon. Mayor and Council:

This is the third day that we are without telephone service because Ameritech Cable crew has cut our telephone lines. My neighbor and I tracked down a crew and reported it Tuesday morning and by afternoon nothing happened, I caught up with another crew and reported it again. Later afternoon brought an Amertech representative who assured me that I would have service by the evening. On Wednesday after 10:00 pm I still did not have service so I called Ameritech who stated they did not have anything to do with their subsidiary and I should call them. I called Amcritech Cable and after putting me on the computer, I was told that I was an AT&T customer and that I would have to call din repair service to them although they cut the lines. I called AT&T and they put in a repair order and said I should have service by Thursday, 7:00 p.m.

I think that the irresponsibility of this company should be noted as they blatantly lied to me by saying they will restore service when they cut the line and knowing they could not do it.

Please put them on notice so that others don't have this problem.

I look forward to hearing from you.

Very truly yours,

Honor Shoemaker

Letter to Kathy Thiede, Riverview City Council, Nov. 20, 1998

Dear Kathy:

I am writing to respond to your request for voter input regarding the hazardous waste being added to the landfill. I am against having more contaminated waste in Riverview due to my concern over the pollution and the future of our children's environment.

Please do NOT vote in favor of adding contaminated waste to our landfill.

Thank you for voicing your concern and wanting the public's opinion.

Sincerely,

/s/ Mary S. Pingilley, Registered Voter

Riverview, Mi. 48192

Dear Kathy Thiede

11-25-98

I am a senior nursing student, and am concerned with the ski hill being used again as a toxic waste dump site. I feel that that is unnecessary. The ski hill is in a residential area and toxins should not be dumped there for the sake of the Mothers Fathers, Children, pets, etc. If the City of Riverview cares about its residents, this will not be permitted.

/s/ Jeanette Hill-Garcia/M Pingilley

Thank you!

Dear Kathy Thiede - City Council

I have been informed of the idea to put hazardous waste at the dump site in Riverview (Mount Trashmore) and I strongly disagree with this. This was a good ski and sledding place to gather, will not any more and definitely not if they decide to dump hazardous waste!! Please fight this! Thank you:

Sincerely,

/s/ Erin M. Raymer

Dear Kathy Thiede, City Council

I was recently informed that a site in Riverview has been chosen to dump toxic waste. I take great interest in know what's going on in my community as well as others when it concerns our health.

I am pleased to know that you are taking a stand in trying to discourage dumping in Riverview. You have my support 100%.

Attention Kathy Thiede, City Council

I am writing this letter in concern about the upcoming plans of Mt. trashmore. I feel that Riverview is a very nice city to live in and I personally think turning the ski hill into a hazardous waste dump is a bad idea. I think they could find a better site other than downriver. I feel that making it a hazard waste dump will cause great damage to the City. Please accept this letter as a vote not to turn it into a hazardous waste dump!

Thank you.

November 24, 1998

Dear Kathy Thiede:

I am currently a second year Wayne County Community College Nursing Student, I recently heard that it has been suggested that a site in Riverview has been selected as an area where Bio-hazard waste will be dump. As a person who is interested in health and the over all well being of people, I do not think that adding more toxin to our environment is in the best interest of the community.

I commend you for taking a stand to help protect our children, families and environment.

Ms. Kathy Thiede, Councilwoman  
Riverview City Council  
Riverview, MI 48192

Dear Ms. Thiede:

It has been brought to my attention; the city of Riverview is considering dumping hazardous waste at the dumpsite located at Grange and Sibley Roads.

As a concerned citizen, I feel this would not be in the best interests of the residents of the city of Riverview, nor of the surrounding neighborhoods.

I am currently a second year nursing student with Wayne County Community College. As a future nurse, my community's health and well being are of paramount importance to me. I feel the dumping of hazardous wastes would have adverse affects on our communities' health. Therefore, I implore you to act on behalf of your community, to do whatever is in your power to oppose and prevent this from occurring.

Thank you for your concern and continued support for the community's good health.

Respectfully,

/s/

Lousie A. Fregonara

December 14, 1998

Mayor Timothy Durand  
Riverview City Council  
Riverview Municipal Building  
14100 Civic Park Drive  
Riverview, MI 48192

Dear Mayor and City Council,

I am providing this written summary of comments and suggestions regarding the 1999/2000 Community Development Block Grant Program since regrettably, it is unlikely that I will be able to personally attend the public hearing scheduled for December 21, 1998.

The documented Wayne County CDBG Consolidated Plan Priority Needs identify areas of economic development as a potential use of CDBG funds. The highest priority strategies of the Riverview 1010 Strategic Plan are focused on several specific economic development initiatives within the city which have not yet been addressed. It, therefore, appears that a potential match exists between CDBG funding and implementation of the Riverview 2020 Strategic Plan.

I recommend that the following suggestions be review within the context and guidelines of the Wayne County requirements and included in the Riverview CDBG 3-year plan where appropriate.

- A. Fund additional economic development staffing resources through:
  - 1. Use of co-op/interns for city community development activities
  - 2. Use of consultants for development of specific City initiatives.
- B. Purchase GIS software and or hardware
- C. Proactively purchase property in the Riverview St., W. Jefferson Ave. and Pennsalt areas for redevelopment.
- D. Proactively purchase property in the Fort St./Ray St. area for redevelopment.
- E. Create matching funds program for Fort St., businesses to facilitate creation of cluster commercial district components.
- F. Purchase the Vreeland Farmstead property.

I request that this communication be formally included in the public hearing proceedings.

Sincerely,

Richard Blott - Chairman  
Riverview Vision Committee

Motion by Councilmember Weaks, seconded by Councilmember Thiede, that the **Public Hearing be closed.**

Carried unanimously.

Closed the Public Hearing at 7:46 p.m.

As it is so limited, it has no application to the circumstances described above.

Likewise, the second of these state laws, being the Contracts of Public Servants with Public

The first council elected under this charter shall within twelve months from the date it takes office provide by ordinance for a civil service system under the merit principle of personnel management. Said ordinance shall be supplemented by rules and regulations based on said ordinance. The civil service system shall provide at least the following:

- (a) For a professional and impartial approach to all municipal personnel problems based solely on the fitness, training and experience of the individual with no discrimination on account of racial, political, or religious backgrounds or opinions;
- (b) For a non-salaried personnel board, hereinafter referred to as "board" in this chapter, consisting of three citizens who shall be appointed by the council. - (d) That with the assistance of, but not subject to the control of, the board, the city manager shall develop a classification and pay plan based on the most modern and accepted principles of such plan;
- (e) For the formulation by the board of rules and regulations covering the selection, promotion, and discharge of municipal employees. Where competitive tests are used and

eligible lists created appointments shall be made from the three candidates standing highest on such lists, or from the total number of candidates who pass such test, whichever number is less. - (j) That the civil service system provisions of this charter, the civil service system ordinance, and the personnel rules and regulations shall apply to all employees of the city except officials holding elective offices, the administrative officers, technical consultants employed under contract by the city, members of boards and commissions of the city, and part-time officers and employees.

July 13, 1997  
City Council of Riverview  
14100 Civic Park Drive  
Riverview, MI 48192  
Attn: J. Weaks

Mr. Weeks:

I am addressing this to your attention, since you are involved in the recreation area for our city. Please read this into the record at your next meeting.

I have just finished reading an article by Jim Kasuba in today's Heritage Newspaper about Riverview's Summerfest. It states, "the Cheapskate Rollerblade Tournament drew many more people than was anticipated."

Absolutely no disrespect meant, but where have you been? You cannot drive down most of our city's residential streets without seeing children, and adults, on skates. In our subdivision, most of the kids belong to loosely organized, but well-equipped street hockey teams. Most have 15 to 20 kids belonging, all the way from ages 6 to 15. They have named their teams, and compete against one another. These kids are forced to play on residential streets, and have to hastily move bodies, sticks, pucks and nets each time a car wants to get through. At my house on several occasions this year I have counted 30 kids playing, and at least that many spectators.

Also it should come as no surprise, the demand to play ice hockey by our youngsters is also rising. Last year Wyandotte/Riverview Hockey eliminated non-residents from playing in order to accommodate the overwhelming numbers. Still, this past spring in my son's age division, there were more kids than were predicted. In order to let all play, the extras were formed into a team of only 12 players, and an extra coach was found at the last minute. Needless to say, with only 12 kids, this team lost all but one game. Also, ice times are becoming extremely hard to schedule for all communities Downriver. There are extremely capable coaches residing in this city now, who could give you better particulars than I can. If you will call me I could give you a name or two.

Couldn't Riverview investigate the possibility of building a skating arena for both rollerblading and ice hockey. Certainly it would be full constantly, and would be a great draw for our community. We have some land being considered for development, I believe I read in the northwest area. How wonderful if we could consider it for skating. We already have the skaters - lets organize them and give them a safe place.

Sincerely,

Anna Holbrook

Minutes of a regular meeting of the City Council of the City of Riverview, County of Wayne, Michigan, ("Riverview"), held in said Riverview, on the 4<sup>th</sup> day of August, 1997 at 7:30 p.m.

PRESENT: Council Members Blanchette, Priskorn, Thiede, Trombley, Mayor Durand

ABSENT: Council Members Lane, Weeks

WHEREAS, the City Council of Riverview passed a resolution (the "Resolution"), approving, ratifying and confirming the Financing Plan and Final Judgment relating to Improvements to the Downriver Sewage Disposal System (the "Judgment") and authorizing and directing the Mayor and

PROPOSED ORDINANCE #467

AN ORDINANCE TO AMEND  
CHAPTER 30, ARTICLE I, OF THE  
CODE OF ORDINANCES OF THE CITY  
OF RIVERVIEW BY THE ADOPTION OF  
SECTION 30-138.5, "POST-  
RETIREMENT MEDICAL BENEFITS".

THE CITY OF RIVERVIEW ORDAINS:

**ARTICLE I. Adoption.** Chapter 30, Article I, is amended by the adoption of Section 30-138.5 to hereafter read as follows:

**Sec. 30-138.5. Post-Retirement Medical Benefits.**

1. The purpose of this Section 30-138.5 is to provide for funding and payment of sickness, accident, hospitalization and medical expense benefits for certain retired members, their spouses, and their dependents effective July 1, 1997. The provisions of this Section 30-138.5 are intended to comply with requirements of Section 401(h) of the Internal Revenue Code and the regulation thereunder, which permit payment of such medical benefits from a plan qualified under Section 401(a) of the Internal Revenue Code to the extent that such medical benefits remain subordinate to the retirement benefits provided by such Plan.

2. The term "Section 30-138.5 Retiree" shall include:

(a) Retirees in the Retirement System who either:

(i) have terminated employment with the City and are entitled to receive benefits under the Retirement System, or

(ii) have retired from employment with the City and are entitled to disability retirement under the Retirement System;

(b) their spouses; and

(c) their dependents (as defined in Section 152 of the Internal Revenue Code);

provided that such persons are eligible for benefits under the applicable Retiree Medical Plan established under the terms of the applicable collective bargaining agreements, employment agreements and other plan documents.

3. Each Section 30-138.5 Retiree by or for whom required contributions, if any, are being made under the Retiree Medical Plan shall be eligible to receive, from time to time and subject to the provisions of Section 30-138.5, medical benefits in accordance with the terms and conditions of such Retiree Medical Plan. The provisions of each applicable Retiree Medical Plan, as amended from time to time, are incorporated herein by reference for the purpose of describing, limiting and otherwise providing for the payment of such medical benefits.

4. To the extent not provided by retiree contributions, the medical benefits specified in Subsection (3) above shall be funded by a percentage of the investment earnings on the City-funded Retirement System reserves, including but not limited to dividends and capital gains, earned in the previous fiscal year. The investment earnings available to fund health care benefits shall be the maximum percentage allowable under applicable state law. The Board of Trustees shall use the maximum percentage of investment earnings allowable under applicable state law to fund health care benefits but, in no event, shall such authorization include any investment earnings where the use of such investment earnings would cause a reserve fund to receive less in investment earnings than is necessary to meet the actuarial assumptions for the funding such reserve. In the event that the investment earnings available to fund health care benefits are insufficient to pay the medical benefits for any fiscal year, the deficiency shall be contributed by the City after the end of such fiscal year and within the time period permitted under applicable laws.

5. A separate bookkeeping account (the "Medical Benefit Account") shall be maintained under the Retirement System to reflect the allocations made under Subsection (4) to provide the medical benefits specified in Subsection (3), charges for benefits paid under this Section 30-138.5, and charges for necessary or appropriate expenses attributable to the administration of the account.

6. In no event shall it be possible, at any time prior to the satisfaction of liabilities under the Retirement System to provide medical benefits under this Section 30-138.5, for any part of the income or corpus of the medical benefits account to be (within the taxable year or thereafter) used for, or diverted to, any purposes other than providing medical benefits hereunder or paying necessary or appropriate expenses attributable to the administration of the Medical Benefits Account. Any amount remaining in the Medical Benefits Account after the satisfaction of all liabilities for medical benefits under this Section 30-138.5 shall be returned to the City.

7. Subject to the applicable collective bargaining agreements, the City reserves the right to modify or terminate post-retirement health care benefits under the Retirement System or any other fund the City of Riverview City Council so chooses.

ARTICLE II. Severability: Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

ARTICLE III. Conflicting Ordinances: All prior existing ordinances adopted by the City of Riverview inconsistent or in conflict with the provisions of this Ordinance are, to the extent of such conflict or inconsistency, hereby expressly repealed.

ARTICLE IV. Reading and Publication: This Ordinance shall be given a first reading on August 4, 1997, shall be given a second reading and adopted on August 18, 1997 and shall be published and become effective upon publication. The Clerk shall publish a summary of this Ordinance and include in the publication notice that a true copy of the Ordinance can be inspected or obtained at the Clerk's office.

Riverview City Hall

Riverview, MI 48192

Dear Mayor Durand.

As a 28 year resident and taxpayer of the City, I find it necessary to write my first letter to request your action on the following problem.

The cottonwood trees behind my property have become a hazard and a considerable nuisance. I have been hit on the face and head several times with branches from these trees. Every time we have a west wind which is 90% of the time, the branches break and fall in my yard. I have just filled a 30 gallon trash container with this debris. This doesn't include the leaves that drop. The trees are getting so tall and the wood is so soft I'm concerned we will have one fall on our house shortly. We've already had one fall across the fence some years ago which the city did remove. Along with this concern of the possible injury or damage to my property, it is also a nuisance in the spring. The cotton from these trees has clogged our air conditioner along with being a considerable mess to my property.

I take pride in my property and hope the city will take immediate action regarding my concerns.

Sincerely,

Patricia Dalton

Re: 1997/98 Encumbrance budget amendment from the 1996/97 operating budget

Attached please find the 1997/98 encumbrance budget amendment from the 1996/97 operating budget.

All funds are included with the exception of the CDBG fund. That fund will be presented to City Council at a later date at the request of the Community Development Department. The Capital Improvement and Equipment fund is being presented for amendment. As you know the Fire hall improvements project has been approved with a fund balance funding source. However, City Council has requested an alternative funding source for the fire hall improvement project. This amendment can be changed into the future through future budget amendments to help defray Fire hall improvement costs if City Council so chooses.

All other encumbrance budget amendments are unremarkable.

As always if you have any questions, comments, or concerns please do not hesitate to contact me.

Mary and Rick Cox  
17800 Parkridge Drive  
Riverview, Michigan 48192-8144

Dear Riverview City Council Members:

We moved here in 1991 from one mile away in Southgate because of the beauty of this area. One great consideration was the condition of Sibley Road. We thought this city had been thoughtful about not creating a dividing line with this road. It's just the right size. Our children can cross over to the Forest and go to Young Patriots Park without our worrying too much (except for the roads closeness to the cemetery sidewalk).

When the time comes, we feel that Pennsylvania would be the most appropriate road to widen. It is a dividing line between cities. There is entirely too much traffic at school bell hours to be safe. We

really don't want to see large truck's gong down the MIDDLE of our city. Adding the extra lanes at Grange and Sibley has been useful. A gorgeous effect would be created if Sibley were blacktopped with a little more frontage for the sidewalk of the cemetery to allow for safer walk/bike passage. This may be impractical because that type of road breakdown easily.

We just don't want to be boxed into a high traffic, less family-friendly situation. In other words, a five lane highway will cost a lot, raise the dust and lower our property vales.

Thank You for your time used to read our earnest opinions.

Sincerely your constituents,

Mary and Rick Cox

P.S. You guys are doing a fine job!

Resolved by Councilmember Thiede, supported by Councilmember Trombley, that the Public Hearing be closed.

Mayor Durand asked if anyone wished to address Council:

A VERBATIM TRANSCRIPT:

590. Your Honor, members of the Council, my name is Jim Jones and I live at 14056 Dundee, Riverview.

It was not my intention to address this body again until your internal investigation of the Landfill had been completed. However, when I appeared before you last on February 14, it was my understanding that you had instructed the City Manager to issue a memorandum to city employees covering the conditions, so as, such as retribution for employees giving the city's investigator information. In a letter which I presented to you on March 2, I gave you copies of the City Managers memo and to my knowledge, to date, that has not been corrected.

The uh, in another matter, the Council last week received a letter marked confidential from the City Manager. And as I understand the City Attorney advised Council not to discuss the memo due to pending investigation. And what puzzles me is why this report was prepared in the first place if this concern of confidentiality existed prior to it being released. This memo appears to have been distributed to the Council and other members at city hall. The memo which I do not have in my possession was read to me and I made several notes from it.

At first, the information in the memo indicates that the City Manager, through a report from the landfill computer, discovered that only 150,000 cubic yards of material had been filled in. I asked the person who was reading this report to me if that figure had an asterisk on it. And he said no. Well, why an asterisk? The Council, at the February 14 meeting, was very thorough in having the locks \_\_?\_\_ changed on filing cabinets and doors at the landfill. But they didn't disconnect the landfill computer from the modem which allows people at city hall to enter into the hard drive of the landfill computer. And furthermore, within the last 60 days, the hard drive was replaced on the landfill at the computer, and that is no problem because all of you who have computers at home, know that the rule of owning a computer is that you always make a backup, uh, backups of your hard drive. Well, guess what? As I understand, all of the backup material has been destroyed.

What has happened, um, to the written material that was presented to the City Manager at the meeting held on July 1, 1991? That report outlined that 980,000 yards of material was brought into the landfill and that was a written report given to the City Manager at a meeting which included the City Manager, City Clerk, and three landfill employees. And I guess I am a little bit concerned because as I have asked several of you before we seek information as I have under the FOIA that we are not getting.

(784) The next item was I am told by several people that there's no problem with PCBs at the landfill. And within the last 10 days the City of Riverview has trucked off site 100,000 gallons of PCB and disposed of that material.

The City Manager, in his confidential memo to the Council, indicated that only one landfill employee expressed any concerns over health problems. This simply is not true. The City Manager's memo obtained under my FOIA dated July 25, 1991 addressed to Ed Wetherell states, and I quote, "in response to employee concerns regarding past loads of road material brought in by MDS", and continuing from that memo "upon completion of tested results, we plan an employee meeting to share information." End of quote. Unfortunately, that meeting never took place when the tests came in. If the PC problem didn't exist, why didn't they simply call the employees together and say there is no problem and that would have ended it. The reason we are in this today is because no meeting was held and no explanation given to the city employees.

The City Manager, in his memo, also admitted that changes had been made in landfill construction contracts approved by the Council. As several meetings that I have attended of this Council when there are change orders, they come before the Council with amounts and dollars and this Council approves them. I guess when a project is decreased in size, why ...

Mayor Durand: Mr. Jones, Mr. Jones, five minutes is up. I don't want to cut you off because I may be accused of trying to hide information or whatever, so if you could wrap it up as quickly as possible. 907

Mr. Jones: I will..

Mr. Jones: The question is why are not the change orders come before. The memo to the City Manager dated October 26, 1994, the Engineer states and I quote the west slope was moved to the south thus the quantity of work by the contractor and the cost was not changed. Continuing from his memo, it was my conclusion that since there was no change in the scope or in the contract price, no change order was required. End of quote

The City Engineer explains that the reason for moving the berm was that the construction plans would have located the berm over large gas mains. Who in the devil drew up the plans in the first place putting the berm over the top of the gas mains which you approved for the work to be done? The memo further indicates there was a minimum loss of fill space, loss of revenue for the city. I will tell you that I've gone over some of the other material I recently received from Mr. Steklac and the last item I point to you is there is a set of prints with a seal on them saying "as built" and from the people who have looked at those prints, those are not as built drawings and there is an engineering seal on them.

So, I don't know what you are going to do, but I think it's time if you want to referral this to someone that is fine, but I think its time we get into it and real serious.

And further, I am going to pass onto you a new request FOIA for some more material because I think there is some more questions that have to be answered. Thank you. 1008

Mayor Durand: Mr. Jones, I'm sure the City Manager and someone else may want to respond, but I know the first couple items you mentioned were the letter to the employees. Councilmember Blanchette brought that up tonight in our pre-meeting and a letter will be going out to the employees tomorrow. But, that was no all the city's fault because the business agent for the landfill employees, you know, was raising questions towards the verbiage in the letter and what exactly was going to be covered. So I think we've ironed that out and that will be going to the employees. The second item you talked about was the confidential memo from Mr. Elliott. That was an original request that

I think Councilmember Thiede made asking for the Council's, the City Manager's and staff's response to your original visit to the Council and that information has all been forwarded to David Esper along with everything else so there's nothing that we're keeping back. Every document that I get or receive is sent to him. So, I mean that is all part of his package.

Mr. Jones: I appreciate it, Mr. Mayor, but I guess my point is that from the distribution list that I read, was read to me on this memo, I think it might just as well have been made public. I don't know why it got a confidential stamp. If the newspaper wants to come in and get a copy of it, so be it. My name is mentioned in it and I don't care. I think, but I think the public has a right to know Mr. Mayor and that's the only....

Mayor Durand: I think the main reason was so that the attorney, David Esper, could conduct an investigation.

Mr. Jones: O.K.

Mayor Durand: Mr. Elliott if you want to respond to any of the other...

Mr. Elliott: Your Honor, I think that would be an appropriate matter is under investigation; I'm a little bit dismayed that we are varying from that. The confidentiality is because it is under investigation through special counsel.

Mr. Jones: Well, I guess, you know, why distribute it then, Mr. Mayor? If it's a response, a confidential response, why wasn't it made and just given to the attorney. Why give it to everybody in city hall and everybody? You know, I guess, that's where I draw the line.

Mr. Elliott: Your honor, it was not distributed through city hall. It was distributed only to the parties that were relevant to the investigation.

Mayor Durand: Mr. Jones, I assure you, I sent that material myself to Mr. Esper. So he has that. So I mean whether that...

Mr. Jones: I appreciate that.

Councilmember Trombley: Mr. Mayor.

Mayor Durand: Councilmember Trombley.

Councilman Trombley: I would like to ask something about that memo myself. Is it supposed to be confidential or isn't it? I know of a lot of memos are confidential and all of a sudden, you release them that they are not. I want to know about this one.

Attorney Pentiuk: Your Honor. Can I respond to that?

Mayor Durand: Certainly. 1166

Attorney Pentiuk: Mr. Jones, if you heard me correctly at the last meeting you would have heard a dialogue between myself and Councilwoman Thiede. She asked whether it would be, I think she asked whether it would be appropriate to have a study session or something with Mr. Elliott. My response was that, because the matter was under investigation through Mr. Esper's office, I thought it would be best for Mr. Esper to have dialogue with the subject employees and officers of the city unimpeded by any other conversation that might be taking place with those very subjects and other bodies such as the Council. I indicated that I saw no reason why she couldn't talk to Mr. Elliott directly to pose any questions or ask for clarification. That was the sum and substance of my advise. I would also suggest the city clerk tonight provide Mr. Esper a copy of the transcript so he is aware of your additional concerns are expressed tonight. Thank you.

Mayor Durand: I wanted to leave you with one thing. Every discussion or piece of paper that we get, I am making sure that the attorney has

talked, I mean does get a copy of it. So it's not like somebody is getting one side of the story or were telling something. So, I guess the benefit to that is if somebody is telling one story and eventually something else comes to fruition then it is always good that maybe that document was ever written. So..

Mr. Jones: Well, the only point I made is it is one thing to create a report then you know we start passing now it's like have ten people in a room and say don't tell anybody when you leave the meeting and five minutes later it is all over everywhere. So I, as I say, I know the reason I got the call is because my name is in it and I just felt that if \_\_\_\_\_ 1259 want to release it to the papers as far as I am concerned, be my guest because I don't worry about it.

Councilmember Thiede: Your Honor.

Mayor Durand: Councilmember Thiede.

Councilmember Thiede: Your Honor. Thank you for the recognition because I you are right. That is, that was, my official, as a matter of fact I was chairing the meeting that night when you were ill and in the hospital and that was my recommendation and this Council, this entire Council concurred with it that at that point it was an answer to Mr. Jones' allegations for that first evening he brought those up and my statement was that I wanted the City Manager to answer those allegations and give us a report not an investigation, but a report to this Mayor and Council to what I do feel we deserve on any other issue. And that report, unfortunately it took a while to get it, but it was given to this Mayor and Council and I appreciate it and it satisfied, it satisfied my request at that time.

Mayor Durand: I will reiterate I think it is a valuable tool..

Councilmember Thiede: I do, too.

Mayor Durand...in the investigation because...

Councilmember Thiede: Yes it is.

Mayor Durand: ...it tells a response.

Mr. Jones: I don't have a problem with it. I, I, I, as I said, my only concern is saying it is confidential. It's like the United States government the time they wanted \_\_\_\_\_? \_\_\_\_\_ top secret, you know, eyes only, that kind of stuff. And I don't think, I think the public, Mr. Elliott spent some time writing this I think everybody who wants a copy ought to be given a copy.

Councilmember Thiede: I agree.

Councilmember Blanchette: Your Honor.

Mayor Durand: Councilmember Blanchette. 1347

Councilmember Blanchette: Mr. Jones, let me reassure you this evening we reiterated our concerns for the landfill employees and retired employees that they be guaranteed that if they want legal and/or union representation if they have knowledge and want to come forward there will be no harassment, no intimidation, no threat of job loss to them if they want to come forward. Council is also going to receive a copy of each of the letters that is sent out; one to the retirees again guaranteeing that their retirements, their Blue Cross nothing is going to be touched. It is very important that it comes from this body...

Mr. Jones: I agree.

Councilmember Blanchette: ...because we have wasted a lot of money, and a lot of time and otherwise for both ourselves, the community, and Mr. Esper if we don't have someone with knowledge who wants to come forward. That is what Mr. Elliott is going to be doing as of tomorrow.

We will each receive one copy of each of those letters that go out.

Mr. Jones: O.K. My concern, Councilwoman, was when I saw the memos issued about March 2nd or somewhere, they did not conform to the agreement we talked of on February 14th. That was my concern.

Councilmember Blanchette: You're exactly right.

Mr. Jones: Thank you.

Councilman Trombley: Mayor. I would just like to know if somebody come and requested that memo under the Freedom of Information Act, what would happen?

Attorney Pentiuk: Your Honor.

Mayor Durand: Mr. Pentiuk.

Attorney Pentiuk: There is a pending investigation, there are criminal allegations in those allegations at least that is my assessment, and until those that investigation is concluded, the Freedom of Information Act allows for the exemption of that material.

Councilmember Lane: Your Honor.

Councilmember Trombley: Wait a minute, I am not done.

Councilmember Lane: Oh, excuse me.

Councilmember Trombley: Is that only your opinion?

Attorney Pentiuk: Do you want the citation out of the act?

Councilmember Trombley: No, I just want to know is that only your opinion, or is that the law?

Attorney Pentiuk: Well, allow me to read the Freedom of Information Act to you.

Councilmember Trombley: You don't have to read anything to me, I am just asking you.

Attorney Pentiuk: Well, the answer is that it is an exception under Section 13 of the Freedom of Information Act.

Councilmember Trombley: That's all I want to know.

Councilmember Lane: Your Honor.

Councilmember Lane: In respect to copies that were going to be made or available for Council, would not with what Elmer was asking for, Councilman Trombley was asking for, wouldn't that put those copies as a confidential matter that we have nothing to do with until this investigation is over, then we can look at them?

Mayor Durand: Who are you talking to \_\_\_\_\_. Randall?

Councilmember Lane: The attorney.

Attorney Pentiuk: What was the concept again? That we shouldn't receive that information?

Councilmember Lane: Well we should not receive this information until this investigation is over. Should Council be privy to this information until this investigation is over?

Attorney Pentiuk: The investigation touches upon a number of matters, civil and potentially criminal. It involves the evaluation of the employee that you have direct control and responsibility over. Therefore, it think it is appropriate that you receive the information. I don't think it is appropriate that it be shared until the

investigation is concluded.

Unidentified: Right.

Councilmember Lane: Thank you.

Mayor Durand: Anybody else?

**RESOLUTIONS:**

Resolved by Councilmember Lane, supported by Councilmember Trombley, that the following Resolution expressing a policy position in opposition to the permitting of a Hazardous Injection Well in the State of Michigan be adopted as follows:

WHEREAS, the City of Riverview is firmly committed to promoting and providing environmentally sound disposal techniques for waste; and

WHEREAS, such commitment is founded upon the principal that it is this generations mandate to leave a safe environment to future generations; and,

WHEREAS, the City of Riverview has studied the concept of injection well disposal as an alternative means of waste disposal, and have concluded that it is not an acceptable environmental waste management practice;

NOW, THEREFORE, BE IT RESOLVED, that the City of Riverview opposes the use of injection wells as a means of disposing waste, for the reasons set forth below;

1. That current scientific knowledge and operational experience is adequate to engage in this technique with any acceptable degree of certainty that it will not result in contamination of ground water, including the Great Lakes; or have negative health effects on the ecological systems, including human and animal health; and
2. That the location of any such injection wells, as proposed in the Downriver area, represents an environmental injustice and inequity to this region and its populace; and
3. That the technology for addressing any catastrophe attendant to the injection well technique is grossly inadequate and, therefore, irreversible.

BE IT FURTHER RESOLVED, that the City of Riverview supports legislation by the State and Federal legislatures to prohibit the use of this technique including State House Bill 4207; and

BE IT FURTHER RESOLVED, that the City of Riverview calls upon the State Department of Environmental Quality and the Federal Environmental Protection Agency to promulgate regulations to protect the environment from such exploitation and to restrict it from heavily populated areas and from significant bodies of water; and

BE IT FURTHER RESOLVED, that the Clerk is directed to transmit copies of this Resolution to Riverview's State and Federal legislators, the aforementioned regulatory agencies, the Downriver Community Conference, its constituent member-municipalities, Governor of the State of Michigan, and President of the United States.

Dear Mayor Durand:

The purpose of this letter is to express my desire to remain on the Zoning Board of Appeals as an alternate member, as well as a long-term interest in being assigned to the board as a regular member. My attendance and performance on the Zoning Board has never been questioned.

The spirit of volunteerism is one of the cornerstones of the proud heritage of Riverview. Working together, people from many different walks of life, with many different skills have contributed to Riverview growing into the respected city that it is today. Through the years, people have found ways of putting aside petty grievances and in the best interest of the city, have done what is right. I hope that my appointment will not be denied because of one of those petty grievances.

Relatives of elected officials should neither received special treatment nor unfair persecution. Additionally, sending a signal to the community that people who volunteer their time and energy must be part of a special group, will shatter one of the truly great aspects of Riverview. Don't let pettiness replace pride in Riverview's history.

Respectfully yours,

Anthony C. Weak

ORDINANCE #445

AN ORDINANCE TO AMEND THE CODE OF ORDINANCES OF THE CITY OF RIVERVIEW BY THE ADOPTION OF A NEW ARTICLE II, UNDER CHAPTER 23, "TAXATION", TO PROVIDE FOR PAYMENT IN LIEU OF TAXES FOR SENIOR HOUSING DEVELOPMENT FINANCED BY MORTGAGE LOANS AS DESCRIBED IN 1966 P.A. 346

The City of Riverview Ordains:

**ARTICLE I:** That a new Article II "Payment in Lieu of Taxes For Senior Housing Development Financed By the State of Michigan Housing Development Authority Mortgages" under Chapter 23, "Taxation", be adopted to read as follows:

**Section 23-5: Purpose.** The City acknowledges that First Centrum Corporation, as managing General Partner of Forest Grove Limited Dividend Housing Association Limited Partnership (the "Sponsor"), has offered, subject to the receipt of a Mortgage Loan (as that term is hereafter defined), to erect, own and operate a Housing Development (as that term is hereafter defined), identified as Forest Grove, on certain property located at Fort Street between King Road and Sibley Road in

the City, to serve the Elderly (as that term is hereafter defined), and the Sponsor has offered to pay to the City on account of said Housing Development an annual service charge for public services in lieu of property taxes.

The City is authorized by said Act to establish or change the service charge to be paid in lieu of taxes by any and all classes of housing exempt from taxation under any act at any amount it chooses, not to exceed the taxes that would be paid but for the Act. It is further acknowledged that such housing for senior citizens is a public necessity, and as the City will be benefitted and improved by such housing, that the encouragement of the same by providing certain real estate exemptions therefore is a valid public purpose; further, that the continuance of the provisions of this Article for tax exemption and the service charge in lieu of taxes during the periods hereinafter contemplated are essential to the determination of economic feasibility of the Housing Development which is constructed and financed in reliance thereon.

**Section 23-6: Definitions.** All terms shall be defined as set forth in the State Housing Development Authority Act of 1966, being Public Act 346 of 1966 of the State of Michigan as amended, except as follows:

(a) "Act" means the State Housing Development Authority Act, being Public Act 346 of 1966, of the State of Michigan, as amended.

(b) "Annual Shelter Rent" means the total actual collection during an agreed annual period from all occupants of a Housing Development representing rent or occupancy charges, exclusive of charges for gas, electricity, heat or other utilities furnished to the occupants.

(c) "Net Shelter Rents" means Annual Shelter Rent minus Utilities.

(d) "Authority" means the Michigan State Housing Development Authority.

(e) "Elderly" means a single person who is 55 years of age or older or a household in which at least one member is 55 years of age or older and all other members are 50 years of age or older.

(f) "Housing Development" means a development which contains a significant element of housing for Elderly persons of low income and such elements of other housing, commercial, recreational, industrial, communal, and educational facilities as the Authority determines improve the quality of the development as it relates to housing for persons of low income.

(g) "Mortgage Loan" means a loan to be made by the Authority to the Sponsor for the construction and/or permanent financing of the Housing Development, or a federally aided mortgage as defined in Section 11(c) of the Act.

(h) "Sponsor" means person(s) or entities which have applied for a Mortgage Loan to finance a Housing Development.

(i) "Utilities" means gas, water, sanitary sewer service, and/or electrical services which are paid by the Housing Development multiplied by a fraction the numerator of which is the number of qualified units and denominator is the total number of units.

**Section 23-7: Class of Housing Developments.** It is hereby determined that the class of Housing Developments to which the tax exemption shall apply and for which a service charge shall be paid in lieu of such taxes shall be Housing Developments for Elderly persons which are financed or assisted with a Mortgage Loan. It is further determined that Forest Grove will be of this class.

**Section 23-8: Establishment of annual service charge.** Housing Developments for Elderly persons and the property on which they shall

be constructed shall be exempt from all property taxes from and after the commencement of occupancy while enjoying the benefits of a Mortgage Loan. The City, acknowledging that the Sponsor and the Authority, in the case of a Sponsor receiving a Mortgage Loan, have established the economic feasibility of the Housing Development in reliance upon the enactment and continuing effect of this ordinance and the qualifications of the Housing Development for exemption from property taxes as established in this ordinance, will accept payment of an annual service charge for public services in lieu of all property taxes only so long as the property is used for housing Elderly persons of low income and is financed with a Mortgage Loan. The annual service charge will be as follows:

(a) The service charges for Housing Developments financed with a Mortgage Loan may be authorized at four percent (4%) of the Net Shelter Rents as defined in MCLA 125.1411(M), obtained from the Housing Development for the calendar year subject to review and authorized by Resolution of the City Council. The authorization of four percent (4%) service charge is within the discretion of the City Council upon receipt determination of need for same. In the event that a Housing Development, as defined in this ordinance is denied the four percent (4%) service charge, the Housing Development shall receive the authorization for a ten percent (10%) service charge. Notwithstanding the foregoing, in the case of Forest Grove, the service charge shall be computed in accordance with the following schedule:

For the first ten (10) years following completion of construction: four (4%) percent of Net Shelter Rents.

For the eleventh (11th) year following completion of construction: four and six-tenths (4.6%) percent of Net Shelter Rents.

For the twelfth (12th) year following completion of construction: five and two-tenths (5.2%) percent of Net Shelter rents.

For the thirteenth (13th) year following completion of construction: five and eight-tenths (5.8%) percent of Net Shelter Rents.

For the fourteenth (14th) year following completion of construction: six and four-tenths (6.4%) percent of Net Shelter Rents.

For the fifteenth (15th) year following completion of construction: seven (7%) percent of Net Shelter Rents.

For the sixteenth (16th) year following completion of construction: seven and six-tenths (7.6%) percent of Net Shelter Rents.

For the seventeenth (17th) year following completion of construction: eight and two-tenths (8.2%) percent of Net Shelter Rents.

For the eighteenth (18th) year following completion of construction: eight and eight-tenths (8.8%) percent of Net Shelter Rents.

For the nineteenth (19th) year following completion of construction: nine and four-tenths (9.4%) percent of Net Shelter Rents.

For all years thereafter: ten (10%) percent of Net Shelter Rents.

The term "completion of construction" means the date of the issuance of a temporary or final certificate of occupancy on any unit, whichever is first.

(b) The service charge for Housing Developments with Mortgage Loans other than those described in this ordinance shall be ten (10%) percent of the Net Shelter Rents, as defined in MCLA 125.11 4(M), obtained from the project for the calendar year.

(c) The service charge in lieu of taxes as determined under the ordinance shall be payable in the same manner as general property taxes are payable to the City of Riverview.

**Section 23-9: Limitation on the payment of annual service charges.** The service charge to be paid each year in lieu of taxes for any part of the Housing Development which is tax exempt and is occupied by other than low income Elderly persons shall be equal to the full amount of the taxes which would be paid on that portion of the Housing Development if the Housing Development were not tax exempt.

**Section 23-10: Payment of service charges.** The City of Riverview shall be under no obligation to submit a tax billing or statement to the Sponsor. The service charge in lieu of taxes shall be paid in advance, with the estimated payment due and payable by February 14 for the current calendar year. The adjusted final payment shall be paid or the request for refund shall be submitted on or before March 15 of the year following the year upon which the service charge is calculated. The Sponsor shall submit with the February 14 payment the calculations used to compute the estimated payment in the format designated by the City of Riverview Finance Director. The Sponsor shall submit with the March 15 payment (request) a statement from an independent auditor verifying that the amounts used to compute the adjusted final payment are correct as reported. All payments and documents shall be received by the City of Riverview Office of the Finance Director on or before the due date. The first year's service charge in lieu of taxes shall be due on February 14 of the calendar year following the completion of construction. Delinquent payments of service charges in lieu of taxes shall be subject to the same interest and/or administrative fees as property taxes.

**Section 23-11: Duration.** This ordinance shall remain in effect and shall not terminate so long as the Mortgage Loan remains outstanding and unpaid; the Authority has an interest in the property; or the Housing Development remains subject to income and rent restrictions pursuant to Section 42 of the Internal Revenue Code of 1986, as amended, but the term of this ordinance and the service charge in lieu of taxes granted hereunder shall not exceed fifty (50) years. This ordinance shall expire by its own terms if construction of the Housing Development does not commence within one (1) year from the effective date of this ordinance.

**Section 23-12: Permanent financing.** Notwithstanding the provisions of Section 15(a)(5) of the Act to the contrary, with respect to Forest Grove, a contract between the City and the Sponsor, with the Authority as a third party beneficiary, under the contract, to provide tax exemption and accept payments in lieu of taxes as previously described, is effectuated by enactment of this Ordinance.

**ARTICLE II. Severability:** Should any word, sentence, phrase or any portion of this Ordinance be held in a manner invalid by any Court of competent jurisdiction or by any agency having authority to do so for any reason whatsoever, such holding shall be construed and limited to such word, sentence, phrase or any portion of the Ordinance held to be invalid and shall not be construed as affecting the validity of any remaining words, sentences, phrases or portions of the Ordinance.

and Mr. Robert Elliott, City Manager  
City of Riverview  
14100 Civic Park Drive  
Riverview, Michigan 48192

Re: City Engineering and Consulting Services Contract  
City of Riverview

Dear Mayor, Council and City Manager:

Hennessey Engineers, Inc. (Hennessey) has been Riverview's City Engineer for 23 years and during that time many projects have been completed that gave recognition and prestige to the City of Riverview, as well as Hennessey. One of the Hennessey's first projects was the design and construction management of the paving of Quarry Road in 1973. The roadway is still in good condition today. Some of our other significant projects include:

Georgia Street Demonstration Project: Designed to remove 75% of rainfall dependent inflow and infiltration (RD I/I) from the sanitary sewer, actual results indicate 90% removal was achieved.

Sewer Lining Remediation Project: When initiated, it was the largest sewer lining project in North America. Designed to remove 36% of RD I/I from the sanitary sewer; actual results indicate 50% removal was

achieved.

Upscale Subdivisions on Grange Road: Designed both Golfview and Homeister Subdivisions, two of the most prestigious subdivisions in the Downriver area.

The Georgia Street Demonstration Project was a huge engineering success. Unfortunately, due to opposition from uninformed pressure groups, led by some members of present council, the city backed away from pursuing this project citywide, although cities as large as Philadelphia and Atlanta have adopted similar Remediation techniques to address RD I/I. Instead, the City of Riverview chose to pursue buying regional tunnel capacity at a cost of millions more. The city is now again reevaluating ways to reduce the amount of RD I/I entering the system and lessen the amount of storage capacity needed. It is gratifying for Hennessey to see the city give serious consideration to implementing a citywide project similar to the Georgia Street Project to achieve this result.

Hennessey Engineers is proud of the work we have done for the city and take pride in knowing that the City of Riverview has become one of the most desirable communities in the downriver area. Unfortunately, the present political administration has fostered a hostile environment that it is no longer productive for the Hennessey Engineers or the City of Riverview. Hennessey Engineers has been subjected to a campaign aimed at unfairly damaging its reputation. Therefore, to avoid being further subjected to damaging hostile acts, and in accordance with our contract provisions, Hennessey Engineers gives immediate notice of resignation from its Municipal Engineering Services Contract with the City of Riverview. This resignation is without waiver or prejudice to any rights available to Hennessey Engineers under the contract or any law, which rights are hereby specifically reserved.

In closing, I would like to thank the former Mayor, many present and past council persons and department heads who supported and encouraged Hennessey Engineers to pursue creative solutions for difficult projects for the betterment of the city. Without their stewardship, the city would not have been able to address these and other pressing problems, and it would not have become the community it is now.

Sincerely,

HENNESSEY ENGINEERS, INC.

Re: Landfill Consulting Services Contract  
City of Riverview

Dear Mayor, Council and City Manager:

Hennessey Engineers, Inc. (Hennessey) was first appointed to the position of Landfill Engineer in 1986, and since that time we have developed innovative solutions for difficult problems. In 1993, the

landfill was scheduled to close, costing the City of Riverview millions of dollars in lost revenue. With this in mind, Hennessey designed a perimeter leachate collection system to allow the landfill not only to remain open, but to extend its life to the year 2020, and to bring the landfill into compliance under Act 641. For this creative design and other engineering attributes, Hennessey was awarded an engineering excellence award from the Michigan Consulting Engineering Council for the Riverview Landfill Expansion. Winning the state competition allowed the design to compete in the National Engineering Excellence Award where it received an Excellence Merit Award. The fact that this project received the excellence award was the subject to a 20/20 television program which put Riverview in the national spotlight.

Hennessey has become concerned with recent irresponsible administrative decisions by the current landfill director. Hennessey concerns were recently realized when a tanker containing PCB contaminated leachate tipped over into a surface water runoff ditch that is connected to the Frank & Poet drain. Hennessey had recommended two months earlier to the landfill director that a gravel-based road be installed to stabilize the soils, but he chose to do nothing.

Hennessey considers it outrageous that the City of Riverview illegally suspended a design consultant for an operational error. The citizens of Riverview should also be concerned that the current landfill director is failing to take responsibility for operational mismanagement at the landfill.

Because we consider the cavalier approach in which the current landfill director and city manager have decided to operate, unacceptable, and because Hennessey Engineers has been subject to a campaign aimed at unfairly damaging its reputation, and to avoid being further subjected to damaging hostile acts, Hennessey Engineers, Inc. is giving immediate notice of resignation from the City of Riverview Landfill Engineering Contract in accordance with contract provisions. This resignation is without waiver or prejudice to any rights available to Hennessey Engineers under the contract or any law, which rights are hereby specifically reserved.

In closing, we are proud of the innovative engineering designs that have allowed the landfill to expand, and have enjoyed providing engineering services for the landfill. It has provided Hennessey with extensive experience and made our work interesting and challenging.

Sincerely,  
HENNESSEY ENGINEERS, INC.

**OTHER BUSINESS:**

At the request of Councilmember Blanchette, the following letter was read into the minutes by the City Clerk:

April 28, 1996

Riverview Mayor and Council  
14100 Civic Park Drive  
Riverview, Michigan 48192

Dear Mayor and Councilmembers:

Having worked with Jerry Perry over the course of the past year and a half during the construction phase of the library renovation, it has become more and more apparent what an asset he is to the community. As the link between the City and the library commission for the project, he has been an invaluable resource. He possesses a tremendous amount of technical knowledge and skill regarding construction processes. In addition, his capability in working with people has been immensely beneficial.

As we all know, we have not been dealt an easy hand to play. While nearly everything that could go wrong, has; nevertheless, Jerry Perry has managed to keep the project moving. When things seemed at an impasse, with little apparent progress, Jerry would manage to get things rolling again. He has worked with the commission and Library Director to facilitate things when snags occurred. When patience was in short supply, Jerry managed to cut through the frustrations to get things back on track and moving forward. This he has done, despite a very trying situation, in addition to his other duties in the city, which indeed are great. With the sewer project and the library, demands on his time are tremendous. It seems that if there is a difficult task to be done in the city, Jerry is the person to get it done. He not only does what is expected of him, he does it to the fullest -and then some- in the finest manner possible. We feel very fortunate to have had him named as the project coordinator from the city.

We would be remiss not to mention the outstanding job also done by Library Director Alice Gorgas. While it is recognized that she is hired by the Library Commission and not by the city, her tremendous contribution to the city also needs to be mentioned. All of the library staff has worked in far less than ideal circumstances for far longer than should have been. Her ability to work in a difficult situation, to keep up the morale of her staff, and the ability to "roll with the punches" (and there have been many) are assets that serve the city well. In addition to her library skills, her ability to work with people has indeed helped move the project forward despite the difficulties we have experienced.

This city is extremely fortunate to have two such dedicated and capable individuals on staff. We all benefit from their efforts and should be very appreciative of their work.

Very truly,

//s//

Kathleen Rankin, Chair  
Riverview Library Commission

Further, authorized the Clerk to read said resolution into the minutes.

The Clerk read the following resolution into the minutes.

WHEREAS, the City of Riverview and several other communities which use the Wyandotte Wastewater Treatment Plant are subject to a Consent Decree which mandates improvements at the Plant as well as in various interceptors, and the construction of a regional storage facility and emergency outfalls; and

WHEREAS, Wayne County is the operator of the Plant and the regional facilities, for the benefit of the user-communities, and

WHEREAS, the costs incurred by Wayne County are passed through to the user-communities; and

WHEREAS, it is apparent that Wayne County has not used good judgment in administering the project required by the Consent Decree, resulting in extraordinary cost overruns and wasteful, unnecessary and irresponsible procurement procedures, all to the severe detriment of the user-communities and their residents; and

WHEREAS, examples of the County's wasteful procedures include the M2 International contract addendum wherein an original \$4,000,000 contract was amended to add an additional \$5,000,000 to be paid for services involving improvements at the Plant, and the recent increase in the cost estimate for the regional storage facility by over \$100,000,000, necessitating a revision of the plan from an eleven feet diameter tunnel to a seven feet diameter tunnel; and

WHEREAS, when the engineering fee schedule for the M2 contract addendum was challenged by the City's Finance Director, the County responded by stating that the schedule was appropriate and consistent with similar projects, despite the evidence presented by the Finance Director to the contrary; and

WHEREAS, it appears necessary to take appropriate measures to curtail the costs associated with the Consent Decree project by overseeing the County's administration of it;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY OF RIVERVIEW:

1. That the City Manager, with the assistance of the City Attorney, is directed and authorized to take all necessary steps to intervene in the County's administration of the aforesaid project in order to ensure that the County refrains from entering into contracts which are not competitive;
2. That the City Manager is directed to initiate contact with all of the other communities within the system to seek the formation of a formal committee structure to provide continuing and timely review of all expenditures of the County on behalf of the system to ensure the propriety and reasonableness of such expenditures;
3. That the County Commissioner representing the interests of the residents of the City of Riverview is called upon to introduce an ordinance requiring the County Executive to cooperate and assist the communities within the system to secure the review described above and to empower such communities to have authority to require the County to respond affirmatively and timely to recommendations made by the oversight committee;
4. That the City Clerk is directed to transmit a true copy of this resolution to the affected communities, the County Commissioner representing Riverview, the County Executive, and the Court, with a request that each recipient respond in writing to the City Council for the City of Riverview on this initiative.

Carried unanimously.

**PUBLIC COMMENTS:**

Mayor Durand asked if anyone wished to address Council.

Mayor Durand requested the Clerk read the following letter into the record:

September 30, 1996  
Honorable Mayor Tim Durand and City Council Members  
City of Riverview, Michigan

Re: Property on Sibley Road Adjacent to the Sportsman's Den.

Dear Mayor and Council Members:

Approximately one (1) year ago, Mr. Michael Chirco and I met with Mr. Elliott and Mr. Feudner in regard to the potential development of the above referenced parcel, containing approximately 35 acres. At that time, Mr. Elliott and Mr. Feudner accompanied us on a tour of several projects we are developing in Macomb Township to observe the high quality of product that we build.

We understand that the City is now ready to develop the above parcel. We are still interested in providing a proposal to the City for developing the property with an attractive, high quality subdivision which would be a definite asset to the City and the surrounding area. We feel this type of development would be the best use of the land, and would be more beneficial to the City than any other type of development.

The combination of MJC Construction, Inc. and the Lotus Group, Inc. provides an experienced, well managed team that will guarantee an attractive, high quality development that will enhance the entire area. MJC Construction is one of the top three developers in the State of Michigan in terms of gross revenue, and the Lotus Group, Inc. has extensive experience in managing construction projects in Macomb County and Wayne County, including the Downriver area. The last project of 30 custom homes, developed by the Lotus Group in Southgate, has just been completed. The 30 units were "sold out" in 10 months with an average home cost of \$225,000.00.

We envision a development of 50 to 60 single family homes on the parcel, consisting of ranch, colonial, and cape cod homes having a minimum of 2000 square feet (preferably 2500 to 3000 square feet). These home should sell within the price range of \$225,000 to 350,000.00 We are confident that a market exists for such a development and we are prepared to move forward with a conceptual plan for you review.

We are anxious to meet with your City Manager, City Planner, and any committee members you may have appointed to develop the property, to discuss further development of our interest and a possible purchase of the land.

We trust you will review our interest in the property, and allow us to have an opportunity to prepare a proposal for your consideration.

Sincerely,

Michael Chirco, MJC  
Russ LoDuca, the Lotus Group

Mayor Durand requested the City Clerk to read the following letter into the record:

October 7, 1996

City of Riverview Mayor and Council  
14100 Civic Park Drive  
Riverview, Michigan 48192

Re: Proposed Construction of New Post Office on Civic Park Drive Next to Riverview Police and Fire Departments

The proposed post office location is not in a suitable business district, i.e. not highly visible with easy access. The construction should be in the business district either on Fort Street or Sibley Road to strengthen the existing business community and not induce further deterioration.

The original intent of Civic Park Drive was an area to contain emergency Police and Fire Department vehicles. The additional heavy flow of traffic and congestion from Riverview's postal fleet, employees' and customers' vehicles, in addition to bulk mail semi-trucks, would impede the emergency response time of Police and Fire Departments, thereby further endangering Riverview citizens' lives and property.

The proposed site hinders future development of approximately 25 acres of prime land. Riverview's goal should be to protect the character of this most desirable property. Careful

consideration by consultation with adjoining property owners should be done to develop a proactive plan for this area.

As this area is currently zoned M-1 Light Industrial according to the City of Riverview Zoning Ordinance adopted July 17, 1989, sec 1302(4), a public hearing is required in accordance with section 2208. The City of Riverview should follow their rules by adhering to the stated procedures and provide said public hearing before taking any further action to prevent possible legal disputes.

Your truly,

Charles Wm. Bakhaus

PUBLIC HEARINGS:

A Public Hearing was called at the November 29, 1994 study session to  
receive comments on Michigan Foundation Company Blasting Activities at  
the Sibley Quarry.

Resolved by Councilman Weaks, supported by Councilman Lane, that the  
Public Hearing be opened.  
Carried unanimously.

Opened the Public Hearing at 7:43 P.M.

Mayor Rotteveel asked if anyone wished to speak regarding Blasting  
Activities.

The following spoke:

Mr. Jack Shoup - 17713 Smith - has had a cracked basement. The crack is  
hard to prove it was caused by blasting. Mr. Shoup also entered a  
complaint on behalf of his son Jeff Shoup, 18512 Koester, who was  
unable to attend meeting. He also has cracks in his home.

Councilman Durand arrived at 7:44 P.M.

Mr. Ed Polonczyk - 14670 Shenandoah - Questioned the size of bench.

Mr. Walter Chrusciel, 20237 Maplewood Drive - Had \$1,800.00 in damages and the homeowner's insurance covered it.

Mr. Tom Brewer - 18266 N. Wendy Court - Window damage; driveway and front walk damage. Poor attitude by Michigan Foundation.

Mr. Ron Wendell - 18011 Valade - New driveway is cracked and wall cracks. Blasting cracked footings.

Ms. Patricia Boyd - 19407 Wedgewood - Seismograph and cracks in window.

Mr. Roy Bennett - 13755 Hamilton - Quarry noise and rock crushing.

Mr. Donald Capezza - 18208 Hamann - Has cracks in his home. He surveyed other nearby homes that are cracked in the same place as his; possible stress point. Believes Michigan Foundation should make restitution to homes they damaged, but stated they are trying to be a good neighbor.

Mr. Larry Hunter - 18761 Hamann - Done extensive repairs; has drywall damage. Had the seismograph at his home. The readings were normal; we have a big problem.

Mr. Bob Smiley - 20232 Foxboro - The blasting rocks the basement; noise is a major concern. Has a lot of damage.

Ms. Jeanette Holmes - 17569 Quarry - Had to replace porch, driveway, windows; cracks on walls and tiles in bathroom. After plastering and painting, they come right back within days. Stated it isn't fair to rely on homeowners insurance, they didn't cause the damage and that's not a work of god. Believes Michigan Foundation should pay for damages.

Ms. Norma Brickey - 17629 Matthews - Noticed more and more people are using wood porches due to durability. The blasting feels like an earthquakes and it causes damage. The overhang on home cracks within 3 days after repair. Eventually, if this is happening day in and day out, week after week after week, something has to give.

Mr. Joe Kroll - 18302 Hamann - Questioned if the city had independent tests done. Need to do some testing, but not inform anyone when it is being done.

Ms. Jan Hunter - 18761 Hamann - Questioned who sets the level of the sound reduction? Need more restrictions because it is really doing some damage.

Ms. Vicki Pawolitz - 17819 Reno - Blasting is so regular she can click the china together. Suggested a class action suit. We've put up with the blasting too long. She lived in Melvindale, over the salt mines, and very rarely did you ever hear them blast. We pay a lot of taxes and nothing is being done.

Mr. Bill Scheich - Michigan Foundation, quarry manager and blasting coordinator. Explained positive changes that were made, being good neighbors, blasting formats done, self-audits. Stated the seismographs and meters are not owned by Michigan Foundation Company, but by Geosonics. Technicians trained by Geosonics, equipment is certified and state of the art; no tampering can be done with equipment. Stated Michigan Foundation will be glad to address each and every one of those claims on an individual basis.

Mr. Jay Kasmorosky - Mining consultant. Believes Michigan Foundation is trying to be a good neighbor.

Mr. D.T. Froge - President of Geosonics - Professional engineer and physicist. Stated he is aware of complaints and answered questions.
