

Financial and Technical Assistance Available

For Downriver Businesses Impacted by the DTE Coal-Fired Power Plant Closures or the COVID-19 Pandemic

Through a partnership with the Downriver Community Conference, the Economic Growth Institute (EGI) at the University of Michigan is working to help address challenges local small businesses are facing from both the DTE coal-fired power plant closures and from the COVID-19 pandemic.

Technical assistance and matching grant funds are available to assist small businesses located in **River Rouge, Ecorse, Wyandotte, Riverview, and Trenton** who have experienced impacts from these major economic challenges.

The EGI team will work directly with companies on business assessment, planning, project selection & execution.

\$150,000
In Total Funds Available

Was your small business impacted by the DTE coal-fired power plant closures or the pandemic?
