4, para 8	MAYOR SWIFT: The special assessment would be for one year and that would get us up to what we need to do is obviously, this is cost some money so what we're doing here is if we did a millage or something in November that would be too late. We need some more of this money up front to get this going. So the special assessment plan is to have that for one year. And then next year, we are going to have to do this again next year because of the time frame so the intent would be to do it again next year for one year and then also in November of next year we put it on the ballot so that we don't have to keep doing this. So we do want to get it to the point where the electorate can vote on this so that's the intent. Special assessment for one year from June to June and then another special assessment and then get in on the ballot in November of 2021. If that's not right, that's where council can feel free to correct me. I believe that's the intent. If that's not right, that's where council can feel free to correct me. I believe that's the intent.
8, para 15	MAYOR SWIFT: That one's pretty easy, too. If it fails, we go back to our original staffing if at all possible. But as we talked earlier, we're doing a special assessment this year. The plan is to do it again next year. but then also, putting it on the ballot in November 2021, so we don't have to keep doing that. And the intent is to certainly to at least this year match the retiring sewer debt of 1.47 mills that kinda matches the amount of income that we need for the a for getting this rolling. 13, para 3	MAYOR SWIFT: Well the second assessment is certainly is going to happen. I don't know and Doug or probably Rob could answer this best. The cost relating to all the health care costs and other benefits. We do know that's going to go up and	MAYOR SWIFT: I don't know and Doug or probably Rob could answer this best. The cost relating to all the health care costs and other benefits. We do know that's going to go up and hopefully the levy or the special assessment will cover

	hopefully the levy or the special assessment will cover those costs. For the most part at least the first and second year. Doug?	those costs. For the most part at least the first year. Doug?
14, para 21	MAYOR SWIFT: And this is how I answered him: Good morning James, A special assessment is not something residents vote on. It is an action taken by council that places a special assessment on the (in this case the entire city). The special assessment is for a set period of time. Also in this case it is for one year. The council will need to do the special assessment next year also with a one year time frame. Then, In November of 2021, a millage proposal will go before the residents to vote one. This process may seem a little cumbersome, but it is necessary.	MAYOR SWIFT: And this is how I answered him: Good morning James, A special assessment is not something residents vote on. It is an action taken by council that places a special assessment on the (in this case the entire city). The special assessment is for a set period of time. Also in this case it is for one year. Then, In November of 2020, a millage proposal will go before the residents to vote one.
16, para 13	MAYOR SWIFT: A special assessment this year and an assessment next year. What it comes down to is when it goes on to the ballot in November, the millage rate would be set at that time.	MAYOR SWIFT: A special assessment this year. What it comes down to is when it goes on to the ballot in November, the millage rate would be set at that time.
