The Stage Committee thanks everyone for your continued support of our events.

A thank you goes out to our entertainers and to the village staff that help in any way to make the programs possible. The support of the village board is also appreciated.

Thank you to Donna Robert for posting our events on social media and to all the newspapers, businesses and organizations that provide the necessary publicity for these programs.

It is through your support of the blue bins at the Civic Center and contribution of the Village that we can bring these programs to the stage free of charge. Please continue to put your discarded items in the bins. Please be considerate and do not put electronics, mattresses, furniture and other of that nature in the bins. Thank you for your consideration.

The Samuel de Champlain Center Stage was built in 2009 with funds received from the New York State Department of Environmental Conservation, Environmental Protection Agency. Also, through donations made from the generosity of many of our local businesses and organizations for which we are grateful for.

Stage committee members:
