Rutherford County does not address vacant lots or land. You must be within 90 day of applying for a building or electrical permit to request an address. Preliminary addresses assigned are valid for 90 days. If you do not apply for a permit within that time, the address will be rescinded and removed from the USPS and E911 Addressing systems. If you go over that time please contact the Addressing Department and request an extension so you don't lose your number.

Is the address for a Single Wide, Double Wide, or on frame Modular Home? YES _____ NO _____

If yes, you must contact the Revenue Department (tax) Listing Office and complete a mobile home pre-permit with them first. When complete they will contact the Addressing Department for your address.

Please attach an aerial map of the property showing where the driveway will be and where the addressed structure will be located. **REQUESTS SUBMITTED BY EMAIL CANNOT BE PROCESSED WITHOUT IT.** Aerial maps can come from Google, Bing, or the county's GIS website. If you are not sure how to create this and attach it with your submission, you can drop off this form to the address above during business hours and we will print one out for you to mark up. Driveway entrance determines your number so be as accurate as possible in relation to the other driveways around yours. We will contact you if we have additional questions. If your driveway entrance changes from what you submitted, **YOU MUST LET US KNOW BEFORE YOUR FINAL INSPECTION** because your number may need adjusting. It's better to fix it now then the Addressing Department correcting your address later on.

I have read and understand the policy and procedures explained in this form.
