**Vinyl Mural Program Review:**

Arin presented the twelve submitted proposals. She asked that all committee members submit their scoring reviews, and she would tally the results. The commission can select up to six murals sized approximately 10x15' for print. All art includes an artist bio and information about their work. She noted that each piece can total 100 points. Cable posed the concern about a piece that appears to be too busy and another that may misconstrue a negative message to some in the community. Arin asked that all scoring be completed within a week, by 08/23. Arin also stated that the committee does not need to select six, if not desired, and go for a second round. Marsha commented that she preferred the painterly murals. Discussion about if others felt the negative message about a couple pieces of the artwork ensued. Different aspect ratios could be explored and sizes of murals as well. One local company has expressed interest in printing the murals. She will get three bids on this program. Shawn stated that if the committee did a second round after displaying several murals, he really believed much more artwork would be submitted. Discussion about painted murals with brushstrokes was preferred. Arin has received one artbox proposal to date.

**ADJOURNMENT**
