To: Historic Resources Board and Planning Commissioners
Re: National Preservation Month recognitions
Date: April 11, 2023

Dear Members of the Historic Resources Board and Planning Commission,

In May 2012, the Planning Commission implemented a program to recognize property owners and businesses that have made significant improvements to their properties that enhance and maintain the overall area and help attract visitors to the City. Their guidelines for selection are the *Secretary of the Interior Standards for the Treatment of Historic Properties*, which “are intended to promote responsible preservation practices that help protect our Nation’s irreplaceable cultural resources.”

Tonight the Historic Resources Board and Planning Commission are asked to approve the Historical Society’s selections by resolution, and formal recognition will be made by City Council at their May 18 meeting. Staff will send letters to the property owners congratulating them and inviting them to appear at that City Council meeting.

After careful consideration, the SJB Historical Society recommends that the owners of the properties below be honored with Certificates of Recognition for their investments of time, talent and treasure.

Private: The Neubauer property at 201 Fourth Street, built circa 1898, is a charming one-story, single-family residence in the Folk style, surrounded by 3 mature pepper trees. It was originally located on the Taix-Lushbaugh-Santana property, now Jardine’s.

The character-defining features of this Folk style home have been maintained and include:

- Steeply pitch side gabled roof
- Exterior cladding in horizontal beveled siding and board and batten
- Dropped secondary porch roof with squared wood porch supports
- Wood sash double hung windows

Rental properties often appear neglected, but between tenants, the property owner has applied fresh paint to the house and picket-style fence and has done a lot to freshen up the gardens as well, maintaining the historic landscaping.

Public: The Pico-Boronda Adobe/Native Daughters of the Golden West Adobe at 203 Fourth Street, built in 1836 has been very well maintained since purchased by NDGW Parlor in 1935. In recent years, they have added a new roof, restored the balcony and exterior stairs, remediated issues with the Sala flooring, done extensive repair work on the 4 adobe walls, and more. The character defining features of this Monterey style building have been maintained and include

- Adobe structural system clad in plaster
- Hipped roof

201 Fourth Street

203 Fourth Street NDGW adobe

- A large wood door with wrought iron hinges and door handle
- Wood sash double-hung windows with multiple panes
- Full width balcony

These property owners have modeled responsible stewardship of historic buildings that welcome visitors and residents to the nationally-registered Third Street Historic District. The many character-defining features of these structures have been preserved, and the rehabilitations have extended the economic lives of the buildings and enhanced the historic ambiance of authentic San Juan Bautista.

Thank you for your consideration.
