1951 while patrolling Monterey st spotted a semi truck entering town towards Valero followed behind and found the semi parked on the side of the road facing the freeway. I approached the driver door of the semi and told the driver, vehicles over 3 tons are not allowed within SJB. He said he was passing through and would leave shortly as he was just grabbing something from the store really fast, I told him okay and proceeded to walk back to my patrol vehicle. I was approached by the a woman and asked what he was doing there and I informed her he would be leaving shortly and I had instructed him that vehicles of that size were not allowed. She asked if I was going to cite him and I explained that I believed Rich Brown had stated that semis if they were passing through would not be cited, to which she responded angrily so your not going to cite him? To which I responded as of now no but I can go ahead and confirm with Rich Brown on how to go about this situation to which she responded "No I will speak with him about this tomorrow" and drove off. I was not able to turn on my body cam for this conversation. I returned to my patrol car and proceeded to call Rich Brown to make sure I had done the correct thing and he instructed me on the rule for them and advised that it was okay for this time but next time a citation is to be given as soon as they activate there airbrakes. As I was doing this the driver decided to return into San juan instead of leaving towards the freeway as I had told him. When this happened I was approached by the woman again and was told now you let him go back into town I managed to turn on my body cam and told her that I had instructed him to leave via the freeway but I cannot dictate his actions as to where he goes. She was very displeased and asked for my name which I provided and proceeded to drive away. During this whole encounter she was talking to me in a very unpleasant tone and very angrily but not yelling, I kept professionalism throughout. Nothing further to report
