Description Of Activities

G.Rivera

1823HRS We noticed a Honda wrecked on The Alameda and pulled over to check on the passengers of the vehicle. Made contact with the driver " body cam was turned on". The driver stated his wife had neck and back pain. Officer Parga stayed with the wife and made sure the wife stayed in an upright in line neutral position while I went to check on the other vehicle which ended up in a ditch next to the windmill market. Fire and AMR were already on scene helping the driver of the other vehicle out of the ditch and onto a stretcher. After talking to some of the witnesses I found out that the vehicle that ended up in the ditch which was a white Ford pick up had run a red light going west down 156 when he struck the Honda. I walked back towards the other vehicle and Parga gave me the statement he had gotten from a nurse that happened to be driving by. She stated that there she was 4th in line at the stoplight and the Honda was 3rd in line, the Honda was half way through the intersection when they were hit by the Ford. The Honda ended up spinning a few times before rolling to a stop and Ford lost control and flipped a total of 5 times before landing in the ditch upside down. Fire and AMR showed up to assist with the Honda. I started doing traffic control while Parga went to take pictures of the vehicle and debris on the road, he then came to help me direct traffic. We assisted the owner of the vehicle and sheriffs pushed the Honda into San Juan Elementary. Fire and AMR had cleared the scene and we began to clear the debris as best we could. After cleaning we waited until the tow truck showed up. The tow truck arrived and sheriffs cleared the scene, we replaced them on the side of the road and turned on the lights on the patrol vehicle. We proceeded to help the tow truck driver remove the Ford from the ditch. The vehicle wasn't able to be towed normally so the tow truck driver had to use special tools to get the Ford up. The tools ended up breaking so an extra 15 to 20 mins for a second tow truck to show up. The second truck arrived and was able to get the Ford hooked and loaded. We cleared the scene at 2120HRS. We were able to clear most of the debris on the road, get the Ford out of the ditch and the Honda was left at the elementary school waiting to be towed. 2 out of the 3 people involved in the accident were transported to the hospital.

2358HRS We heard a loud bang on 3rd St and Washington St. We went to investigate and found the source of the noise. There was yelling from a male and female as well as object being thrown. Carrillo called Rich while I called dispatch. I notified dispatch at 0005HRS that the yelling was coming from an apartment above the plaza market. I called again at 0021HRS because we heard the yelling increase in volume and heard the female yell out. 2 sheriffs arrived about 5 minutes later and made contact with the residents of the apartment. The male allowed one of them to go in and look around while the other stayed outside to talk with him. They were up there for about 5 minutes before the sheriffs came back and told us they didn't see anything out of the ordinary. After they left we called Rich again to let him know we were code 4.
