SARASOTA COUNTY
SHERIFF'S OFFICE
Sheriff Tom Knight

2017 - 2021
Strategic Plan

Respect     Service     Fairness     Integrity
Dear Citizens of Sarasota County,

Since taking office more than eight years ago, it has remained my priority to ensure that our citizens understand the magnitude and scope of work done each day by the men and women of the Sarasota County Sheriff’s Office.

Over the past several months, our agency has worked to adopt another four-year strategic plan outlining four major goals, 20 strategies and 67 specific objectives proposed for accomplishment. The plan utilizes a four-part time frame for implementation which includes short-term, intermediate, long-term, and ongoing.

As in years past, we partnered with Dr. Jim Sewell, retired Assistant Commissioner for the Florida Department of Law Enforcement (FDLE), to facilitate the process of creating this document. Through dialogues with community stakeholders, our internal employees, and command staff, Dr. Sewell helped create this road map for the next four years so that we can best serve Sarasota County and remain one of the top employers in the state of Florida.

As you will read, this document provides a fresh perspective on the priorities of the sheriff’s office and looks at important issues such as crime, the budget, technology, professional development, public safety initiatives, and accreditation. Also included in our planning process was a look at the Final Report of The President’s Task Force on 21st Century Policing which was created in order to help law enforcement agencies identify opportunities to better serve in line with the expectations of today’s citizens. For each objective, we identified one of the president’s six “pillars” which most closely aligns with the direction we’re headed. If you haven’t done so already, I encourage you to read the president’s task force report as I’m confident you’ll find that your sheriff’s office is a progressive and forward-thinking agency whose values and practices far exceed national standards.

On behalf of the dedicated men and women of the Sarasota County Sheriff’s Office, I am honored to present the 2017-2021 Strategic Plan.

Sincerely,

Sheriff Tom Knight
In 2009, under the leadership of Sheriff Tom Knight, the Sarasota County Sheriff’s Office launched its first strategic plan, a document aimed at guiding its efforts on behalf of the citizens of Sarasota County for the following four years. This would be the first time in the history of the agency that members would create a true and tangible roadmap for success. That document was created based on input from a variety of sources, including the agency’s command staff, an internal working group of line supervisors and personnel, and a citizens working group.

Staff worked through the key issues identified in these meetings and were able to articulate five major goals and framed within 24 strategies, 166 objectives to be accomplished within Sheriff Tom Knight’s first term. While primarily focusing on the time frame from October 1, 2009 through September 30, 2010, the strategic plan was designed to serve as a guide for the development and implementation of agency programs and operations from October 1, 2009 through September 30, 2013.

The first update to the 2009-2013 Strategic Plan was staff-driven. Command staff and a working group of line personnel and supervisors, many of whom were involved in the development of the initial plan, were facilitated through a review of accomplishments, a modified analysis of strengths, weaknesses, opportunities, and threats, and a discussion of agency needs to develop the plan update. No changes were recommended in the vision, mission, or values statements or in the strategic goals developed in the 2009 planning process. This 2013-2017 Strategic Plan ultimately included five goals and encompassed 15 strategies and 39 objectives.

In the review of the accomplishments from the 2013-2017 Strategic Plan, 16 objectives (41%) targeted for completion by September 30, 2016, were identified as fully completed, and another 16 (41%) were considered to be on-going, i.e., have already begun and are being monitored in this strategic plan for on-going activity. Only seven were considered to still be in progress and not fully completed.
Among the more critical objectives fulfilled, many of which have been accepted into the agency’s culture and standard practices, are:

- Expansion of the Intelligence-Led Policing philosophy to its next iteration, Intelligence-2-Action or ‘I2A’, and its widespread use throughout the agency.

- Continued Crisis Intervention Training for agency personnel; 258 certified agency members used this training in an estimated 9,690 situations during the course of this strategic plan.

- Continuous updating and exercise of emergency response plans for identified hospitals, schools, airports, and government buildings.

- Creation of a pandemic response plan for Sarasota County.

- A comprehensive salary survey of all sworn and civilian positions, with appropriate adjustments for critical positions.

- The evaluation and enhancement of the orientation program for new sworn and civilian personnel.

- Continued leadership development of personnel in executive, management, and supervisory positions.

- Continued compliance with the requirements of the agency’s accrediting bodies.

- Full implementation of disaster recovery software and backup systems for the agency’s information technology systems.

- Enhancements to the agency’s records management and case management systems.

- Closure of the south county holding facility.

- Continued compliance with the requirements of the Federal Prison Rape Elimination Act in the Sarasota County Jail.
As in any strategic planning process, it is critical to gain input from a variety of stakeholders. To that end, this process involved individuals with broad perspectives including personnel within the agency at the rank of lieutenant or below, command staff responsible for the overall leadership of the agency; and citizens with their own independent eye upon the sheriff’s office and the manner in which the agency carries out its duties.

On August 29, 2016, the internal strategic planning working group gathered in an initial three-hour session to begin development of the 2017-2021 Strategic Plan. This group, approved by Sheriff Tom Knight upon staff recommendations, included 26 members from throughout the agency, 22 of whom attended this and subsequent meetings and provided on-going input. Members of the working group were also provided with copies of The Final Report of The President’s Task Force on 21st Century Policing and Procedural Justice for Law Enforcement for review prior to the initial session.

A facilitated discussion process focused on several key questions:

- Where are we now? What do we do well? How well did we achieve our objectives?
- How can we improve?
- What else do we need to be doing as we discuss this strategic plan?
- Can we reduce/consolidate existing goals? Strategies? Objectives?
- Are there additional opportunities or threats which have occurred or are now facing us?
- What stands in the way of our success?

Additional meetings of the internal working group to provide input on the strategic plan were held on September 12, September 26, and October 13, and drafts of the proposed goals, strategies, and objectives were circulated to the group throughout the process. A concluding review session on the final draft of the strategic plan was held on November 3.
On September 12, a group of 23 citizens, chosen by Sheriff Tom Knight and his staff and representing a broad spectrum of the Sarasota County community, participated in a facilitated discussion centering on three key questions:

- What do you like best about your sheriff’s office?
- Where can the sheriff’s office improve?
- What are your suggestions? What else can we do?

On November 3, Sheriff Knight and his key leadership team again met with this citizen group and presented the final draft of the strategic plan for their review and information. No further citizen input was provided.

During the strategic planning process, the agency’s command staff, which, for planning purposes, included the Chief Deputy (Colonel), three Majors, all Captains, Chief Financial Officer, Directors of Human Resources, Research and Planning, Information Technology, and Community Affairs, and the Senior Assistant General Counsel and Assistant General Counsel, served as a governance body to review, refine, and approve the recommendations of the internal working group. The discussion in their initial meeting on August 29 paralleled that of the internal working group and especially focused on the following questions:

- How can we improve?
- What stands in our way?
- What issues do you see in the future?

Additional meetings of the command staff working group were also held on September 12, September 26, and October 13, and drafts of the proposed goals, strategies, and objectives were circulated electronically to the group throughout the process. The revisions to and refreshing of the goals and strategies seen in this plan came about as a direct result of the command staff working group during their sessions. A concluding review session on the final draft of the strategic plan was held on November 3.
The essence of the 2017-2021 Strategic Plan for the Sarasota County Sheriff’s Office, included in Appendix E, centers around four newly refreshed goals:

**GOAL 1**
TO WORK IN PARTNERSHIP WITH THE COMMUNITY TO ADDRESS EVOLVING PUBLIC SAFETY CONCERNS WHILE STRIVING TO PROVIDE THE BEST LEVEL OF LAW ENFORCEMENT SERVICES IN THE NATION.

**GOAL 2**
TO PROMOTE EFFECTIVE LAW ENFORCEMENT SERVICES THROUGH THE CONCEPTS OF RIGHTFUL POLICING, PROCEDURAL JUSTICE, AND 21ST CENTURY POLICING WHICH DEMANDS THAT ALL CITIZENS ARE TREATED FAIRLY, RESPECTFULLY AND WITH DIGNITY.

**GOAL 3**
TO PROMOTE ORGANIZATIONAL INTEGRITY BY DEMANDING ACCOUNTABILITY, OVERSIGHT, AND TRANSPARENCY THROUGH THE EFFICIENT USE OF PERSONNEL, EQUIPMENT, AND TECHNOLOGY.

**GOAL 4**
TO FOSTER A RICH DIVERSITY OF VOICES, PERSPECTIVES, AND EXPERIENCES THROUGH RECRUITMENT, DEVELOPMENT, AND RETENTION OF A SKILLED WORKFORCE.
These goals encompass 20 strategies and 67 objectives, the latter of which are assigned to a specific individual member of the sheriff’s office who is responsible for their implementation, potential measurements of accomplishment and a timeframe for action; all of which are documented at every phase. These timeframes indicate time periods during which objectives are anticipated for completion:

- **SHORT-TERM:**
  Within the current calendar year (January 1, 2017 – December 31, 2017).

- **INTERMEDIATE:**
  Within the following two calendar years (January 1, 2018 – December 31, 2019).

- **LONG-TERM:**
  Implementation is anticipated between January 1, 2017 and December 31, 2020.

- **ON-GOING:**
  Objectives which have already begun, but are important enough to be monitored in this strategic plan for continuous activity. Many of the short-term objectives from the previous strategic plans have become on-going activities of the sheriff’s office upon their implementation.

The strategic plan will be reviewed and updated each year to reflect changes in crime patterns, citizen and agency expectations and needs, demographics, and economic conditions in Sarasota County. Objectives that have been completed and have no further need of activity or review may be removed from the plan and included in the assigned staff member’s job description and reviewed as part of their personnel evaluation and/or assigned to a specific administrative/operational unit for accountability.

Beyond its impact on long-range planning within and for the Sarasota County Sheriff’s Office, this strategic plan is unique in another way. In 2015, The Final Report of the Presidential Task Force on 21st Century Policing proposed 59 recommendations and 92 action items, aligned in six “pillars,” to guide national, state, county, municipal, and tribal agencies in better meeting the future needs of their constituencies. The Sarasota County Sheriff’s Office reviewed its 2009-2013 and 2013-2017 strategic plans and identified the pillar each measurable objective is most closely aligned with. This ensures the agency’s commitment to the president’s task force report is represented throughout the agency’s entire operations and administration and is reflected in the 2017-2021 strategic plan, where each objective correlates to one of six pillars.
