

Temporary Cards

Temporary cards are an option for any adult patron that does not have proof of a permanent address. If the patron has an address where they receive mail (group home, relative's home or otherwise) it will be entered in the system but requires no verification. If the patron does not have an address where they receive mail leave those fields blank. The patron is required to produce photo identification for verification.

This card allows access to public computers. This card allows for a maximum of 3 items to be checked out at a time. This card expires after 3 months, but can be renewed indefinitely. If a patron has fines or overdues they will not be allowed to check out until fines are paid or items are returned. Replacement cards are \$1. All other regular cardholder and library policies apply.

If a patron with a temporary card returns with proof of a permanent address, the card will be modified to Adult and all restrictions will cease.
