BUDGET

Shall the voters of the City of South Burlington School District approve the School Board to expend Sixty-Two Million Five Hundred Twenty-Eight Thousand Twenty-Nine and 00/100 Dollars (\$62,528,029.00), which is the amount the School Board has determined to be necessary for the ensuing fiscal year?

ARTICLE III  
CAPITAL IMPROVEMENT BOND ISSUE

The City of South Burlington School District Board of School Directors has determined that public interest or necessity demand incurring bonded indebtedness to finance capital improvements, renovations and additions to the schools and facilities of the District at an estimated total project cost of Fourteen Million Five Hundred Fifty Thousand (\$14,550,000) Dollars. It is expected that 0% of the project costs will be eligible for state school construction aid because there is presently a moratorium on state school construction aid funding. Therefore, the District will be responsible for 100% of such project costs (\$14,550,000) which the Board recommends be funded through the issuance of up to Fourteen Million Five Hundred Fifty Thousand (\$14,550,000) Dollars of general obligation bonds or notes. So:

Shall the issuance of general obligation bonds or notes of the South Burlington School District be authorized in an amount not to exceed Fourteen Million Five Hundred Fifty Thousand (\$14,550,000) Dollars for the purposes of financing the final design, permitting, site work and the construction of renovations, capital improvements and additions to several District school buildings and facilities, together with related eligible project expenses, such improvements to include the addition of zero energy modules (ZEMS) as well as capital improvements pursuant to the District's Facilities Stewardship Plan?

State funds are not available at this time, or this project is not eligible to receive state school construction aid. The South Burlington School District will be responsible for all costs and any borrowing and the costs of the planned improvements and additions.
