

Certification Number HSW-_____-_____

Affiliated Certificate of Compliance ____-_____-_____

Heating & Service Water System Self-Certification

Property and Contact Information

- 1) Property Street Address _____
- 2) Certifying Individual's Name _____
- 3) Certifying Individual's profession: builder; licensed professional engineer; licensed professional plumber; licensed professional electrician; licensed architect; an accredited home energy rating organization
- 4) Certifier's Address _____
- 5) Certifier's Phone _____ 6) Certifier's email address _____
- 7) Building of Record (Name, mailing address) _____

Heating System Information

- Primary Heating System Fuel Type [must meet at least eighty-five percent (85%) of the building's design heating load]:
- Electricity (excluding electric resistance units prohibited by the Vermont Commercial Energy Standards energy code)
 - Wood pellets or woodchips
 - Other renewable fuel used by conventional primary heating systems, including renewable gas, biodiesel, and renewable district heating [must provide contract demonstrating that the fuel required by the conventional primary heating system is fully sourced from such other renewable fuels for the life of that conventional heating system]
 - Waiver Eligible: uneconomical renewable system [must provide supporting documentation pursuant to Ordinance]

Service Hot Water System Information

- Eligible for two-year waiver period for Multi-Family Residential and Commercial/Industrial New Buildings (*For submittals between February 15, 2023 and February 14, 2025 ONLY*).

Service Water Heating Fuel Type:

- Electricity, provided that the circulation loop requirements of the RBES and efficiency requirements set by the U.S. Department of Energy are satisfied for residential buildings
- Wood pellets or woodchips
- Solar thermal energy
- Other renewable fuel used by conventional primary heating systems, including renewable gas, biodiesel, and renewable district heating [must provide contract demonstrating that the fuel required by the conventional primary heating system is fully sourced from such other renewable fuels for the life of that conventional heating system]
- Waiver Eligible: uneconomical renewable system [must provide supporting documentation pursuant to Ordinance]

Certification

I hereby certify the above information to be accurate and true:

Certifier's Signature: _____ Date: _____
