

## REQUEST FOR PROPOSAL

The City of Sterling Colorado is requesting proposals from qualified consulting firms to provide professional engineering plan review and on-call services.

The scope of work for this Request for Proposal (RFP) describes the qualifications and experiences required for the Services. Services will be focused on plan review and on-call services for the City's needs in general civil engineering related to wastewater plants, water and storm water including assisting the City in an Owner's representation and advisement role.
