Vote by voice call. President Vandenberg declared the Public Hearing open.

Village Attorney Connelly stated in conformance with State Statutes, a notice of Public Hearing was published in the newspaper on March 25, 2018. The purpose of this meeting is to discuss the proposed New Bremen Tax Increment Financing (TIF) District.

President Vandenberg read a statement “this public hearing is being held pursuant to 65ILCS51174.405 of the Tax Increment Allocation Act to discuss the proposed New Bremen TIF District. This hearing will include a detailed presentation of the proposed New Bremen TIF District Redevelopment Plan and Project and any financial associated with redevelopment plan and project. Following these presentations all present will be given an opportunity to be heard through public comment. At the conclusion of public comment of this hearing the Village Board
may determine to either adjourn or continue this hearing until a later date.

At this time Economic Development Manager Patrick Hoban presented an overview of the proposed New Bremen TIF Redevelopment Plan and Project. He stated that a Joint Review Board (JRB) meeting was held on March 1, 2018. The JRB voted unanimously in support of the proposed New Bremen TIF. He stated that TIF is an economic development tool.

TIF Consultant Maureen Barry of Ehlers and Associates presented a background and the requirements for this TIF. Noting the following:

- Main Street South TIF District (similar boundaries as New Bremen TIF) adopted in 2003, expanded in 2007, reduced in 2015.
- Scheduled to terminate in 2026, but will be dissolved in 2018.
- Establishment of the New Bremen TIF allows more time for redevelopment to occur.
- No changes between redevelopment activities planned in MSS TIF (old) and New Bremen TIF (new).
- The Main Street South TIF had some successes.
  - Commercial parcels improved along Oak Park Avenue
  - Infrastructure improvements
  - Environmental hazards addressed at former school building
- Larger scale projects were in planning process until....
- 2008 Recession brought redevelopment to a halt, almost 10 years of TIF time was lost.
- New TIF is needed to allow sufficient time for redevelopment projects to be viable.
- Village’s 2009 Legacy Plan sets forth ambitious plan for redeveloping the Downtown.

Ms. Barry described the general location of the TIF.

- Approximate Boundaries
  - North – 172nd Street
  - South – 179th Street
  - East – 67th Avenue and 66th Court
  - West – 69th Avenue
- 89 acres, 273 parcels
- Commercial, residential, government/institutional, mixed-use, railroad, and rights-of-way land uses.
- Two parcels removed following request at Public Meeting – changes made to final plan for adoption consideration (leaving a total of 273 parcels).

She explained the following:

“What is a Tax Increment Financing (TIF)?
- A tool to help local governments restore run-down areas or jumpstart economically sluggish parts of town.
- TIFs help local governments attract private development and new businesses.
• TIFs help local governments make the improvements that are needed, such as new roads, sewers, and water mains.
• Allows redevelopment costs to be comparable to green grass development costs, therefore “incenting” redevelopment.

“What is a Tax Increment?”
• It is not a tax increase.
• It is the difference between the amount of property tax revenue generated before a TIF district is established and the amount of property tax revenue generated after the TIF district has new development.
  • TIF does not reduce property tax revenues available to other taxing bodies.
  • Only property taxes generated by the incremental increase are available for use by the TIF and within the TIF.

“How do you establish a TIF?”
• Identify an area with physical and economic deficiencies.
• Prepare an Eligibility Report and Redevelopment Plan.
• Hold a Public Information Meeting to discuss the proposed TIF. (January 24, 2018)
• Convene a Joint Review Board. (March 1, 2018)
• Conduct a public hearing where residents and other interested parties can express their thoughts on the subject. (April 3, 2018)
• Adopt TIF Ordinances to establish the TIF. (April 17, 2018 at earliest)
• No state or federal approval is required.
• Law allows a TIF district to exist for a maximum of 23 years. TIF districts may be terminated earlier if all financial obligations are paid-off and the Village Board votes to terminate the district.

“Eligibility Study”
• Review and document the Criteria for Eligibility
• Eligibility class definitions include: Blighted, Conservation, Combination of Blighted and Conservation, or Industrial Conservation

“Housing Impact Study”
According to the TIF Act, the municipality must determine the need for a housing impact study, based on if 10 or more inhabited residential units are to be displaced, and certify if the above criteria are not met.

The Village of Tinley Park certifies that:
1. There are more than 75 inhabited residential units in the Redevelopment Project Area.  
2. This Redevelopment Plan and Redevelopment Project will not result in the displacement of residents from ten (10) or more inhabited residential units.  
3. A housing impact study is not required.

“Key Findings”
- Conservation Area factors are reasonably present and distributed throughout the Redevelopment Project Area.  
- Costs to redevelop the area are extraordinary.  
- TIF funds can be spent on projects for properties within the TIF boundaries.  
- Area as a whole has not been subject to growth and development through private enterprise and it would not be reasonably anticipated to redevelop without TIF.  
- Conforms to the Comprehensive Plan of the Village.  
- This Redevelopment Plan and Redevelopment Project will not result in the displacement of residents from ten (10) or more inhabited residential units.  
- Passes the “But For” test.

A resident that lives just outside the TIF stated he would like the Board to consider the infrastructure close to the TIF, and he would like to be involved in the planning in this TIF. He is a member of the Board of South Suburban College and noted he supports this TIF.

Resident of the TIF, Martin Tuhey stated his concerns with proposed developers of the vacant properties inside this proposed TIF. He would like to see the Board look at other alternatives other than TIF. He also is concerned about cancelling one TIF and creating another.
