

## 2023 MFT RESURFACING PROGRAM

On April 11, 2023, the Village of Tinley Park approved an award of contract to Iroquis Paving for the 2023 MFT RESURFACING PROGRAM. This work will begin the week of June 19, 2023 with concrete removal. The contractor will notify all the residents a day before any work will be done in your apron or curb with a notice on your door informing you of the work. Work will begin on 76<sup>th</sup> Ave and will proceed approximately in the order below. This year's program will include the following fifty streets to be resurfaced-

TINLEY PARK 2023 MFT STREET RESURFACING (22-00125-00-R5)

Our rehabilitation work involves pavement resurfacing, areas of partial full-depth pavement removal and replacement, roadway base repairs; curb replacement, removal of asphalt ramps and mountable curbs across driveway entrances, partial driveway apron replacement to meet the grade of new curb lines, and sidewalk replacement. When curb and gutter is removed in front of your driveway, you will not be allowed to park in your driveway for 7 to 10 days. This time is needed to give the new concrete sufficient time to "cure" to support the weight of vehicular traffic. ***Curb and driveway apron replacements will be limited to one side of the street at a time to allow for on-street parking while the new concrete is curing.***

The Village is ***only*** removing and replacing driveway aprons necessary to meet the grades of the new curb ***and*** those who have opted into this program. At locations where residents decide not to participate in the driveway apron replacement opportunity, the curb and gutter will be removed and replaced while leaving the apron alone. New curb will be installed in kind, matching the previous curb elevations or matching the apron height (if possible), even if the apron has settled. Crews typically remove the existing curb without damaging the adjacent apron. However, if any damage of the existing apron should occur, only the affected areas will be remedied. Per Village Code, the “apron” of a private driveway is the responsibility of the property owner.

## **PARKING**

“No Parking – Police Order” will be posted by the Contractor before work begins for that side of the street. During work on the roadway pavement surfaces, no on-street parking will be allowed between the hours of 7:00 A.M. and 5:00 P.M. Please park on neighboring side streets or in your driveway. The contractor will post “NO PARKING” signs and hand-deliver a notice to your home at least 24 hours before roadway pavement surface work begins on your block. Working hours for the contractor are 7 AM - 7 PM, Monday thru Friday, possibly on Saturdays.

## **FIRE LANES**

Streets with “Fire Lanes” **will** be maintained as Fire Lanes. When necessary, the Fire Lane will be temporarily shifted to the other side of the street to accomplish the concrete curb repairs. ***PLEASE BE MINDFUL OF THE POSTED FIRE LANE SIGNS – and park on the other side of the street!!!***

## **QUESTIONS?**

With outdoor construction work, the schedule of the contractor is weather dependent and may change weekly or daily. Residents living on the streets listed in this notice are advised to call Public Works at (708) 444-5500 if you have questions regarding the Road Rehabilitation Program.
