

Vegetation management in Tinley

Issued: Dec. 11, 2018

ComEd is performing vegetation management activities on distribution circuits in Tinley Park. These activities are a key component of ComEd's maintenance program to ensure system electrical reliability, as vegetation contact with ComEd equipment is a leading cause of outages.

In accordance with applicable statutory requirements, ComEd is required to provide each affected municipality a map or common addresses of the area affected by the vegetation management activities.

For more information about vegetation maintenance along power lines and ComEd's "Right Tree, Right Place" program, please visit <http://www.ComEd.com/Trees..>
