Central Middle School given all-clear after bomb threat evacuation

The Tinley Park 911 Center was notified at about 10 a.m. this morning of a bomb threat at Central Middle School.

The Tinley Park Police and Fire departments, as well as Cook County Department of Homeland Security and Emergency Management (DHSEM) personnel, immediately responded to the scene to assist school officials. Illinois State Police and Metra Police responded with explosive-detection K9 units and completed an entire search of the school, with negative results. The school has been issued an all-clear and turned back over to Community Consolidated School District 146.

The Tinley Park Police Department is investigating the origination of the threat.
