

Village offering phone-based news

Issued: April 9, 2021

The Village of Tinley Park is pleased to offer the new Tinley Park Messenger, a phone-based news delivery service. Calls will go out about every two weeks that contain short summaries of news across the village.

Some residents were automatically added to the call list based on their application to receive a senior discount on their vehicle sticker. If you were automatically signed up for this service and would like to opt-out, or if you know of someone who would like to begin receiving calls, please email your full name and phone number to marketing@tinleypark.org.

For instructions on how to sign up for the Tinley Park Messenger through the CodeRED system, please visit the new [Tinley Park Messenger page](#) on the Village website.
