

## **80th Avenue steps slated for repair**

Issued: June 3, 2022

The Village's epoxy contractor will be re-coating the three main staircases near the south platform of the 80th Avenue train station starting June 17. The staircases will be closed for that weekend while work is done. Commuters will still have access to the south platform via the two ramps on either side of the three main staircases, as well as the other four staircases on the outside of the two ramps.
