

Help 'Keep the Wreath Red'

Posted: Dec. 12, 2022

The Tinley Park Fire Department urges everyone to help “Keep the Wreath Red” until January 2. The fire department has placed a wreath illuminated with red bulbs in front of each of the four fire stations. If a fire occurs in which holiday decorations are determined to be involved, one of the red bulbs will be changed to a white bulb. This will serve as a reminder of the safety precautions that should be taken this holiday season.

Residents can help provide a safe environment by following these good practices:

- Don't overload extension cords or power strips
- Keep trees and decorations away from space heaters
- Keep live trees properly hydrated
- Turn off decorative lights when you are not home
- Properly use lights designated for indoor and outdoor use
- Do not leave candles unattended

The Tinley Park Fire Department wishes all residents a happy and fire-safe holiday season.
