The following items are necessary to process your application. If anything is missing, your application will be considered incomplete and **will not** be processed.

- Date of Application
- Plat of Survey
 - Draw the placement of the lawn sprinkler heads and rain sensor on property
- Right of Way Waiver
- Name of Owner of Property, Phone Number, and Email Address
- Cost of Project
- Description of Project
- All Contractors Name, Address and Phone Number
(Indicate "Homeowner" if a license contractor is not being used and provide property owner waiver.)
- Plumbing Contractor
- Sign and Date Permit Application

Contractors:

- A State of Illinois 060 License and a State of Illinois 055 Plumbing License and an employee list with copies of all 061 State of Illinois licenses are required. Permits will not be issued unless all contractors noted on the permit are licensed and bonded. At any time during the permit approval process or during construction after permit is approved and issued a decision is made to change any contractor listed on the application, a Change of Contractor form must be completed and submitted to the Building Department. Verification of the new contractor's license and bond status as current must be confirmed by the Village before work on the project can resume.

If you have any questions, please contact the Building Department at (708) 444-5100

RULES ESTABLISHED BY THE ILLINOIS DEPARTMENT OF HEALTH

Public Act 91-678(HB 539) requires persons who install lawn sprinkler systems to register with the Department as irrigation contractors and to register their employees who install or supervise the installation of lawn sprinkler systems. The public act also requires the registration of all lawn sprinkler systems that are installed in the state after January 26, 2000.

The Department finds that a threat to the public interest, safety and welfare exists for the adoption of these rules to ensure that licensed plumbers supervise the installation of lawn sprinkler systems and make the physical connection between sprinkler systems and back flow prevention devices to prevent contamination of drinking water supplies.

An RPZ certification is required before the system is activated and a yearly certification of the RPZ valve by a State Licensed Cross Connection Certified Plumber is required. A written statement is to be submitted to the Public Works Department.

Failure to comply with any portion of our ordinance will result in termination of all water service

Any questions please contact the Public Works Department at (708)444-5500 or the Illinois Department of Public Health at (217)524-0799.
