Attention: Mr. Arlan Schattke, PE, Village Engineer

Subject: Proposal for Professional Engineering Services

Proposed Dry Utility Design and Coordination for the Parkway of 183rd Street at the Helipad Facility and Police Department'

Supplement #1 - Proposed Helipad Utility Service

Dear Mr. Schattke:

As requested, Christopher B. Burke Engineering, Ltd. (CBBEL) is submitting this proposal for professional engineering services related to the design of proposed dry utility service for the Helipad Site Facilities. Below is our Understanding of Assignment, Scope of Services and Estimate of Fee for your consideration.

UNDERSTANDING OF ASSIGNMENT

It is our understanding that the Village of Tinley Park wants to design new underground electrical infrastructure from the existing utilities located along the 183rd Street north parkway at the Helipad/Fire Training Facility. This new electrical service will be in addition to the existing site service that is to remain active. The Village has not made preliminary contact with ComEd to coordinate this work. This work will be coordinated further with ComEd through meetings on-site and off-site to provide ComEd with guidance as to where the proposed infrastructure can be placed. This will include preferential alignments and above grade equipment placement locations for items such as transformers, switch boxes, splice pits, structures and pedestals. ComEd will require additional engineering deposits from the Village prior to starting their design. Once the deposits are paid by the Village, they will complete their design. We understand that no deposit has been paid to ComEd or any other utilities that may be required to relocate on the Helipad site.

It is our understanding that CBBEL will design plans for a contractor to install underground conduit and equipment pads/foundations that the utility companies will use to install their cables and equipment. CBBEL will include these designs into the bidding plans and contract documents showing the proposed alignments for new service lines will feed the new infrastructure improvements for the proposed Helipad facilities and utility requirements. This work will be completed in conjunction with the undergrounding of the 183rd Street dry utilities

that CBBEL is currently designing/coordinating. All existing utility services for the Helipad site will be connected to the new underground utility lines on 183rd Street.

The Helipad site is owned by the Village, therefore, the preparation of any required easements to the site are not included with this scope of work. If easements are required, CBBEL will provide a separate proposal to the Village to perform this work.

ComEd will prepare their own separate plans for their new facilities utilizing the utility conduits and foundations designed by CBBEL in accordance with the company's own equipment requirements.

CBBEL assumes that we will utilize the proposed plans provided by Primera for the Helipad site and CBBEL will also use existing survey and/or aerial maps as base files. CBBEL assumes that proposed electrical loads required for the new service will be provide by Primera and/or the Village.

SCOPE OF SERVICES

<u>Task 1 – Data Collection and Project Coordination Meetings</u>: CBBEL will coordinate joint meetings with the utility companies. These meetings will be a combination of field meetings as well as office meetings with all utilities affected by the project scope. The purpose of these meetings will be to coordinate design efforts by each utility company, discuss costs associated with the work, and to coordinate with the utility companies in preparation and completion of the design drawings.

<u>Task 2 – Construction Plans and Bidding Document Preparation</u>: Based on the design drawings provided by each of the affected utility companies, CBBEL will design "For Construction" plans incorporating the proposed conduits and above grade appurtenances required by the utilities to accommodate the proposed main cabling to replicate their existing overhead infrastructure to underground. CBBEL will design and prepare plans to facilitate the new secondary services to each of the new facilities within the site, if required. This will include the verification of existing electric service sizes, providing new conduits, cabling and metering devices to receive the underground services from the new utility main infrastructure. The plans and bidding documents will be submitted to the utility companies and the Village for review and approval.

<u>Task 3 – Summary of Quantities and Cost Estimate</u>: Based on the work described above, an opinion of probable construction cost will be prepared along with a Summary of Quantities. This estimate will only be for the infrastructure to be installed under Task 2 for the utility companies to locate their utilities. **Each utility will have their own design, material and labor costs associated with their project scope which is not included in this proposal**.

ESTIMATE OF FEE

Task 1 – Data Collection and Project Coordination Meetings	\$ 1,500
Task 2 – Construction Plans and Bidding Document Preparation	\$ 6,600
Task 3 – Summary of Quantities and Cost Estimate	\$ 1,320
Direct Costs	\$ 500
TOTAL	\$ 9.920

This proposal does not include any construction observation services or easement preparation.

We will bill you at the hourly rates specified on the attached Schedule of Charges and establish our contract in accordance with the Agreement for Professional Services between the Village of Tinley Park and CBBEL that is already on file. Please note that any requested meetings or additional services are not included in the preceding fee estimate and will be billed at the attached hourly rates.

Please sign and return one copy of this proposal as an indication of acceptance and notice to proceed. Please feel free to contact us anytime.

Sincerely,

Michael E. Kerr, PE

President

- d. For "bodily injury", "property damage" or "personal injury" for which such person or organization has assumed liability in a contract or agreement.

The insurance provided to such additional insured is limited as follows:

- e. This insurance does not apply on any basis to any person or organization for which coverage as an additional insured specifically is added by another endorsement to this Coverage Part.
- f. This insurance does not apply to the rendering of or failure to render any "professional services".
- g. In the event that the Limits of Insurance of the Coverage Part shown in the Declarations exceed the limits of liability required by the "written contract requiring insurance", the insurance provided to the additional insured shall be limited to the limits of liability required by that "written contract requiring insurance". This endorsement does not increase the limits of insurance described in Section III — Limits Of Insurance.

- h. This insurance does not apply to "bodily injury" or "property damage" caused by "your work" and included in the "products-completed operations hazard" unless the "written contract requiring insurance" specifically requires you to provide such coverage for that additional insured, and then the insurance provided to the additional insured applies only to such "bodily injury" or "property damage" that occurs before the end of the period of time for which the "written contract requiring insurance" requires you to provide such coverage or the end of the policy period, whichever is earlier.
- The following is added to Paragraph 4.a. of SECTION IV – COMMERCIAL GENERAL LIABILITY CONDITIONS:

The insurance provided to the additional insured is excess over any valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured for a loss we cover. However, if you specifically agree in the "written contract requiring insurance" that this insurance provided to the additional insured under this Coverage Part must apply on a primary basis or a primary and non-contributory basis, this insurance is primary to other insurance available to the additional insured which covers that person or organizations as a named insured for such loss, and we will not share with the other insurance, provided that:

- (1) The "bodily injury" or "property damage" for which coverage is sought occurs; and
- (2) The "personal injury" for which coverage is sought arises out of an offense committed;

after you have signed that "written contract requiring insurance". But this insurance provided to the additional insured still is excess over valid and collectible other insurance, whether primary, excess, contingent or on any other basis, that is available to the additional insured when that person or organization is an additional insured under any other insurance.

- 3. The following is added to Paragraph 8., Transfer Of Rights Of Recovery Against Others To Us, of SECTION IV COMMERCIAL GENERAL LIABILITY CONDITIONS:
 - We waive any right of recovery we may have against any person or organization because of payments we make for "bodily injury", "property damage" or "personal injury" arising out of "your work" performed by you, or on your behalf, done under a "written contract requiring insurance" with that person or organization. We waive this right only where you have agreed to do so as part of the "written contract requiring insurance" with such person or organization signed by you before, and in effect when, the "bodily injury" or "property damage" occurs, or the "personal injury" offense is committed.
- 4. The following definition is added to the DEFINITIONS Section:
 - "Written contract requiring insurance" means that part of any written contract under which you are required to include a person or organization as an additional insured on this Coverage Part, provided that the "bodily injury" and "property damage" occurs and the "personal injury" is caused by an offense committed:
 - a. After you have signed that written contract;
 - While that part of the written contract is in effect; and
 - c. Before the end of the policy period.
