Dear Tinley park QD956:

Ford Pro™ is excited to begin taking orders for the all-new 2023 model year (23MY) Super Duty® starting in mid-November. The next-generation 2023 Ford F-Series Super Duty takes our trusted heavy-duty truck to the next level with must-have tech such as Pro Power Onboard™ and our exclusive suite of software and services that help maximize uptime, accelerate productivity and lower the cost of ownership.

Given the shortened model year, continuing microchip shortage and global supply chain disruptions, we anticipate an over-subscribed Super Duty government order bank.

To avoid uncertainty about the quantity of trucks we will be able to supply, I'm pleased to introduce our Super Duty Allocation Program. Under this new program, we will reserve production slots for our best Super Duty state and local government partners. This pilot program will provide transparency, certainty and allow you to better plan for your future fleet needs.

Based on your five-year average Super Duty purchase history, your anticipated allocation for 23MY will be 1 units (the "projected allocation").

While every effort will be made to supply your projected allocation, please remember that orders in the dealer's order banks are no guarantee of future production. In addition, inflation and significant rises in raw material costs are impacting new vehicle pricing. We will not guarantee price protection on unbuilt 22MY orders that are re-entered into the 23MY order bank. However, once a purchase order is submitted to your Ford dealership, we will honor the current price level throughout the entire model year, regardless of when the Super Duty is produced or delivered.

We appreciate your understanding as we work through these challenging times. Please contact your dealership representative for complete details. Thank you again for your loyalty and support of the Ford brand.

Sincerely,

Nathan Oscarson
