Re: Legacy TIF District Report

Dear Mayor and Board of Trustees:

Del Galdo Law Group has reviewed information provided to us by the Village Manager, Assistant Village Manager, Staff and Financial Consultants regarding the Village's annual Tax Increment Finance Report for the 2023 fiscal year regarding Legacy TIF District (the "District").

Beyond reviewing the documents provided, we conducted no further due diligence. Additionally, while Del Galdo Law Group is the Village Attorney, we were not acting in that capacity during the 2023 fiscal year.

Based solely on such information, it is our opinion that the Village has substantially conformed to the applicable requirements of the Illinois Tax Increment Allocation Redevelopment Act for the 2023 fiscal year. We note, however, that there has not been a Joint Review Board meeting held in connection with this District.

Sincerely,

Del Galdo Law Group, LLC

Attachment D

Legacy TIF District
Village of Tinley Park, Cook and Will Counties, Illinois
Statement of Activities
Fiscal year ended April 30, 2023

In accordance with 65 ILCS 5/11-74.4-5(d)(7)(A&B) and 5/11-74.6-22(d)(7)(A&B), the following statement of activities is provided:

This TIF District was established by ordinance on 2 August 2016. The base year Equalized Assessed Value (EAV) for this District was certified by the Cook County Clerk using the 2015 tax year EAV which totaled \$19,101,254.

Through the fiscal year ended as indicated above, the following projects have been undertaken, in process, or completed:

Project 1 Freedom Pond – Regional Detention facility

In order to address stormwater storage requirements mandated by the Metropolitan Water Reclamation District of Greater Chicago (MWRD), the Village began plans for a regional detention facility in the vicinity of the northeast corner of 175th Street and Ridgeland Avenue. In 2014, the MWRD approved a Watershed Management Ordinance (WMO) that imposed stringent requirements for on-site stormwater detention for nearly all new developments after the approval of the WMO. Without construction of this regional pond, nearly all of the proposed redevelopment areas surrounding the Village's Oak Park Avenue METRA commuter rail station (considered Main Street/ downtown Tinley Park) would have been adversely impacted by the new requirements. The developable land area of a site would generally be reduced by one-third for dedicated on-site stormwater detention under the WMO. Under special "grandfathering" rules, the Village was able to qualify certain areas to continue to follow the stormwater requirements existing prior to the approval of the WMO. This pond will also serve the needs for the expected redevelopment of the adjacent former Panduit offices and manufacturing facility and the remainder of the Legacy TIF.

Incremental funds have been transferred from the adjacent Main Street South and New Bremen TIFs to the Legacy TIF to support the construction of this regional pond and related underground infrastructure piping as required.

Freedom Pond was completed during FY23, but it is subject to additional costs resultant of the residential Oak Ridge subdivision buildout (project #6).

Project 2 Demolition of former Panduit Office and Mfg. Facilities (completed)

The former offices and manufacturing facilities of Panduit Corporation had been largely vacant since 2010. While the Company attempted to find a buyer for the facilities, they had been unsuccessful in finding interested parties for this large complex. To address deterioration of the vacant building, approximately 73% of the Panduit facility was demolished during 2018.

The remaining portion of the old facility is now associated with the Jack E. Caveney Innovation Center which was dedicated in 2016. The 18,000 square foot facility accommodates more than 70 members of Panduit's Research and Development (R&D) team. It is named for the founder of Panduit, who is one of the most prolific inventors in the electrical and nascent telecommunications-oriented industries. The company's R&D center will carry on his legacy that began in 1955. Throughout this period Panduit has introduced thousands of problem-solving new products, achieved over 2,000 U.S. patents, and remains demonstrably committed to advancing state-of-the-art solutions.

The demolition contract was privately secured and financed by the Company with no financial assistance provided by the Village or the Legacy TIF.

Project 3 Environmental Study and Remediation Plan - Panduit Site (complete)

Panduit Corporation has been actively marketing their "Legacy" property on Ridgeland Avenue for sale and redevelopment after having relocated its manufacturing and office activities prior to 2016. Finding no interested buyers for the property with existing structures, Panduit Corporation undertook demolition of the unused facilities (see Project 2). A potential buyer has been identified, but required an environmental study be conducted and a remediation plan for any identified environmental issues. Panduit and the Village entered into an agreement to reimburse up to \$200,000 for these activities, payable from incremental taxes generated by the property beginning with the 2019 tax year until paid in full.

Payment for the study/remediation plan was made by the Village to Panduit in FY2021.

Project 4 Sanitary Sewer Lining & Interceptor (completed 2021)

In fiscal year 2020, Insituform Technologies USA and Airy's, Inc. were hired for work which consisted of cured-in-place sewer lining of two side-by-side sanitary sewers along Ridgeland Avenue from 167th to 175th Street. Reconstruction of certain sections of badly deteriorated sewer was necessary because failure of these pipes could result in sinkholes, interruption to service, and extensive excavations for conventional emergency repair or replacement. Contiguous TIFs have also participated in the lining of the segments of the sewer within the adjacent TIF areas.

Project was completed in FY2021.

Project 5 174th Street Reconstruction (incl street lighting) & 66th Ct. Watermain

This project consists of a watermain extension for 174th Street to continue north on 66th Court to North Street, as well as along 173rd Place from 66th Court to 65th Avenue. The watermain improvements along 173rd Place will consist of approximately 1,000' of new 8" watermain withing the Legacy TIF. These watermain improvements will replace under-sized and aging watermain as well as complete a missing gap in the system at the east end of 173rd Place which will assist in attaining higher water volumes/pressures for the entire area. This project touches both Legacy and the contiguous New Bremen TIF.

Approximately 1/3 of the construction cost is associated with the Legacy TIF.

This project is anticipated to be completed in FY25.

Project 6 Oak Ridge subdivision

D.R. Horton, Inc., a national home builder, has obtained approval for the redevelopment of the former site of the Panduit Corporation headquarters and manufacturing facilities bounded by Ridgeland and Oak Forest Avenues. The site also abuts roughly 295 acres of natural woodland under the stewardship of the Forest Preserve District of Cook County. The approximate 39-acre site will be redeveloped as a residential subdivision consisting of 162 single-family attached townhomes and 81 detached single-family homes including a neighborhood park. The initial phase of the development will consist of site preparation and installation of utilities. The homesites are expected to be developed in a second phase. Site plan approvals and site work began during the fiscal year. There is currently no financial assistance provided by the Village or the Legacy TIF for this redevelopment project.
