

## Parking Along Park Ave. Bike Friendly Corridor

Please be aware that the parking lanes have been moved to accommodate new bicycle lanes.

- PARKING IS NOT NEXT TO THE CURB
- Do not drive in the parking lane.
- Motorists should park in the designated area closest to the automobile traffic lane.
- Be aware of bicycles while entering and exiting the parking lane and opening vehicle doors.
- Follow the arrows to make right turns, yielding to bicycles when present.
- Meter payment is still required.

These parking lanes are designed to improve safety. They serve as a buffer between motorists and bicycles, and reduce the opportunity for bikes to be struck by opening vehicle doors.

For more information on proper driving & biking techniques in the Bike Friendly Corridor go to
