Electric – Budget Notes and Comments

Fiscal Year 2019

Revenue and Non-Departmental Costs

- o No rate adjustments are forecasted for Electric rates at the present time for FY2019
- Budgeted steam revenue has been adjusted for the rate adjustment made on 1/1/2018 and the forecasted rate anticipated based on the completion of the package boiler project and those assets being placed in service during fiscal 2019
- o Reciprocal Power revenue has been adjusted to reflect the generation activity for projects that are part of power purchase agreements and resale of hedged power back to the market

Staffing and Compensation:

- Wages are budgeted based on a forecasted adjustment for all represented and non-represented positions and include market demand considerations.
- o The current contract with IBEW expires 12/31/2018, therefore all represented wages and benefits are forecasted for nine (9) months of FY2019.
- o Notable changes in staffing:
 - 011 Added non-represented Draftsman position back into the budget for Electric T&D department
 - 026 Eliminated the Assistant GM position from the budget

Benefits:

- o If not noted separately in Other Expenditures, departmental budget adjustments are due to the following healthcare and defined benefit pension changes in addition to any forecasted wage adjustments. Healthcare may also be impacted by individual changes in benefit levels (Single, 2-person, family).
- o Effective 1/1/2019 the adjustment in healthcare premiums for the plan a majority of active employees utilize will be approximately 9%. Premiums are shared 80/20 between the employer/employee.
- o All open positions assume family level benefits
- o <u>Required employer contributions</u> expressed as a percent of covered <u>active</u> payroll for Defined Benefit pension expenses, determined annually by the Actuary are as follows:

Beginning 10/1/2018 – 74.35%

- 10/1/2016 - 61.62%

10/1/2017 – 66.17%

- 10/1/2015 - 40.50%

Other Expenditures:

- o The standard allocation for most shared expenses across Funds remains as follows:
 - Electric 60%
 - Water 10%
 - Cable 30%
 - Non-standard allocations:
 - Meter Reading 50% Electric, 50% Water
 - Storeroom 50% Electric, 50% Cable
 - Customer Assistance 30% Electric, 10% Water and 60% Cable
 - General Manager 68% Electric (48% GM and 20% Energy Programs), 8% Water and 24%
 Cable
- o 001 Fuels, Chemical and Commodities Forecasted increase in Natural gas for RATA testing of existing boilers and final sizing/go live for new package boilers
- o 011 T&D Costs for the contracted tree trimming crew are anticipated to increase due to bargained agreements. Tree trimming crews are required to be signatory to IBEW Local 17.
- o 091 Depreciation Although a non-cash expense, the budget has been reduced to reflect the pace of capital projects as completed over a period of fiscal years v. a single fiscal year with incurred costs to date still captured as CIP (construction in progress)

Debt Service/Capital:

o Total bond debt service for FY2019 (4/1/19 and 10/1/19) is approximately \$ 3.3M and reflects the smoothing strategy implemented through the issuance of the Series 2015 Bond refunding.

- Final debt service payments for the JCI performance agreements entered into during 2008 and 2010 respectively are due in early calendar 2019 and will conclude this obligation. The final debt service payments total approximately \$ 683K.
- Budgeted bond ordinance compliance for FY19 is 147% and exceeds the bond ordinance requirement of 110%.
- Capital projects budgeted for FY19 reflect the estimated completion of projects financed by the Series 2015 bonds during FY19 and other capital projects financed by operations. Projects financed by the bonds are revenue requirement neutral with costs matched by an allocation of proceeds from the Series 2015 bonds. It is estimated that all projects financed by the Series 2015 bonds will be completed no later than the midpoint of FY2019.
- o 4th Floor renovations for 3200 Biddle Avenue are included as a capital expense. This project represents the relocation of IT servers and other activities still housed at 3005 Biddle. This includes all server housing requirements for Electric T&D outage management, AMI, GIS and other related hardware requirements.

PROJECT DESCRIPTION

Two new transformers were purchased for sub 7 from Traverse City. This is the installation of the 2nd transformer. The project will provide for the installation and testing of this new transformer along with moving old XMFR to Sub 8. Bid 4733

Nine new 69 kV disconnects, new 69kV PT/Sync ck for Vassar, 100 AMP svc and new 125 VDC feed to 13.8 kV switchgear
