DOWNRIVER COMMUNITY CLINIC: *Offering free primary medical services to Downriver's uninsured workers*

By Diane Gale Andreassi

A 26-year-old woman went to the free Downriver Community Clinic to refill a birth control prescription when she learned she had breast cancer, and while her story is more dramatic than most, she exemplifies the lives that are changed at the medical facility.

She was diagnosed and referred for treatment by Dr. David Wolf, who has volunteered at the clinic for 15 years.

Dr. Wolf, an OB/GYN, was racing a go-kart when it crashed, leaving him paralyzed from the waist down in 2001. The paralysis prevented him from traveling annually to Haiti on medical missionary trips. But when he heard Nancy Zack, Downriver Community Clinic's executive director, talk about the clinic he knew it would fill his need to help others. Patients at the clinic gave him the same gratitude he felt in Haiti.

"They give back to you," he said. "There's a special feeling to doing something that you aren't being paid for."

Wolf is among the doctors, nurses and assistants who volunteer at the clinic, serving patients who are at least 18 and working or are a college student. All clients are uninsured or under-insured.

"God gave me a special gift and even though he took my legs away he has allowed me to take care of people less fortunate," he said. "I have an unbelievable team who are there, volunteering, helping patients. I'm thankful I'm able to do it."

The clinic opened in 2005 as a legacy project of Dr. Chris Bush, then medical staff president, and is currently located at 3333 Biddle in an office leased from

Henry Ford Wyandotte Hospital. About 300 new patients receive health care annually. The clinic has seen more than 20,000 patients since opening.

Even people who have insurance sometimes have to pay a copay they can't afford.

"Some of those people forego a doctor's visit and end up in the ER," Zack said. "We believe everyone deserves quality health care and our doctors believe it shouldn't depend on your insurance status. People should be able to get the care when they need it."

The clinic is open four or five times monthly and six to eight patients are seen per session. Pre-med and nursing students and residents, attended by a doctor, work with the patients. These future doctors are getting valuable hands-on experience.

"We're training future physicians and nurses," Zack said. "And patients feel they are getting extra attention from people who listen to their health needs. When we take care of a patient it has a ripple effect to their home, their work and the whole community."

Men and women receive annual health exams and screenings. Primary care visits include chronic disease management

for diabetes, hypertension, asthma and thyroid, as well as physicals and cancer screenings. Foot exams and care are also provided, as well as prescription assistance and nutrition counseling.

For the third year in a row the clinic received the Gold Award for Quality from the National Association of Free and Charitable Clinics.

Welcome to WYANDOTTE!

On behalf of our elected officials, it is a great pleasure for me to extend a sincere welcome to our great city of Wyandotte. The City of Wyandotte prides itself on our community. We offer excellent schools, quality public services, safe neighborhoods, a charming downtown business district, a scenic waterfront – and we work together for continued development and historic preservation in our city.

Wyandotte is well known for its community events, beautiful historical museum, festivals, and our annual Wyandotte Street Art Fair. Our cultural and special events, combined with our appreciation for the arts, makes Wyandotte a dynamic city for both residents and visitors.

This publication is a combination of our events calendar, business and restaurant listings and descriptions, information on our city services and amenities and fun facts about our town.

I am proud to be mayor of Wyandotte and encourage you all to support our local businesses and enjoy the many services and activities that we have to offer. I am thrilled to welcome you to Wyandotte!

WHAT WE LOVE ABOUT WYANDOTTE!

1. OUR HISTORIC DOWNTOWN

Incorporated in 1867, the city of Wyandotte is often described as the "Heart of Downriver." The site where Wyandotte sits today was, in the 1700s, a village for the Native American tribe known as the Wyandot, a part of the Huron Nation. A waterfront community, Wyandotte is rich in history and is known for its distinctive architecture, charming downtown district and variety of cultural offerings.

2. FIND ART IN WYANDOTTE!

Wyandotte is well known for its numerous community events, festivals, and our annual Wyandotte Street Art Fair. The event traces its history to 1961 when a handful of artists from the Acanthus Art Society exhibited their work in front of a local downtown business. From these humble beginnings, the Wyandotte Street Art Fair has grown to be one of the largest and best-attended fairs in the state. ART is one of the earliest creative images representing the fair. ART's likeness was rediscovered on an early Street Art Fair poster in the archival collections of the Wyandotte Museums. Originally a stylized line drawing, ART represents a true piece of Wyandotte history! When ART first made his debut in Wyandotte, it was 1964 and the Street Fair was only three years old. ART is fun, funky, and creative, encapsulating the spirit of our fair. Every year, ART gets a new interpretation by a regional artist, so stay tuned for what he will look like this year!

3. SPLISH, SPLASH

Wyandotte is a waterfront community. Get out there and boat, kayak, or fish! Whatever you choose to do here in Wyandotte, make sure to have fun while doing it!

4. CITY OF FESTIVALS!

Wyandotte is known for our many events that take place throughout the year: The holiday parades, Tree Lighting and many activities hosted by businesses and non-profit groups and sponsored by the City and the Downtown Development Authority. Visit our downtown and have a fun and festive time!

The SMART Way to Go

Many Metro Detroit journeys are easier and cheaper by bus

By Diane Gale Andreassi

SMART [KL1] launched a brand new service in March 2021, SMART Flex, taking riders from curb to curb.

The Suburban Mobility Authority for Regional Transportation was created in 1967 as SEMTA. In 1989 SEMTA was renamed SMART, and today it serves 76 communities in Macomb, Oakland and Wayne counties.

Affordable rides

Last year SMART FLEX ran in Dearborn, Troy/Clawson, Auburn Hills/Pontiac, Hall Road and Farmington/Farmington Hills areas.

Request a ride seven days a week. Riders download the SMART Flex app at Ride SMART Flex, and a driver picks them up and drops them off at their destinations. The fee is from \$2 to \$8. More communities are expected to be added in 2024.

"The goal is to expand in more areas," said Bernard Parker III, vice president of external affairs. "SMART Flex rides stand as a testament to our commitment to accessible and affordable transportation. This service, akin to ridesharing but with a cap on cost, is a game-changer for our community."

Meanwhile, the SMART Fixed Route program is the easiest, most affordable way to connect to destinations throughout Macomb County, portions of Oakland and Wayne County. Drivers pick up passengers at designated bus stops and times at major corridors, crosstown, limited stop and express routes.

Additionally, the SMART FAST program offers a limited-stop service that connects passengers to the suburbs and downtown quickly and easily. With this high-frequency

program, buses travel along three of Detroit's busiest corridors – Gratiot, Woodward, and Michigan avenues, giving access to jobs, retail, restaurants, stadiums, Detroit's Metro Airport, and entertainment venues.

Another option is to transfer from SMART FAST to SMART Flex within Dearborn, Troy/Clawson, Auburn Hills, Pontiac, and portions of Hall Road. Passengers review options on the SMART website at smartmovesus.org.

In all, SMART has given access to 67,000 businesses and 60,000 jobs, Parker said, adding that more than 20,000 people are served daily. SMART, a governmental entity, is funded by state, federal and local contributions.

"SMART is pivotal in driving economic growth and transforming our region," said Dwight Ferrell, general manager. "I've seen how a robust public transportation system, like SMART, attracts businesses and jobs, enhancing the region's vibrancy. Our commitment to providing exceptional service has made SMART an integral part of the community's progress, reflecting the positive evolution of transit in serving and connecting our people."

SMART also operates four eco-friendly electric vehicles that operate on a zero-emissions platform and provide reduced air and noise pollution. These vehicles are also cheaper to operate.

"This latest step toward carbon-free mobility means that every time you choose SMART, you are investing in a better ride, a better community, a better future," the company website said. "It also reinforces our commitment to provide an economic advantage and environmentally safe transit to the 76 communities we serve."

Other offers

Customers with disabilities are given special services. Reduced rates are also provided to those who are at least 65, six to 18 years old, or a person with a disability.

"At SMART, we believe in building connections that extend beyond transit," Parker said. "Our focus on customer service and community engagement reflects our dedication to not just being a transit provider but a partner in the region's development."

A BIT OF WYANDOTTE HISTORY...

The area that became the city of Wyandotte was first settled in 1732 by a branch of the Huron Tribe known as the Wyandots. The Wyandots first arrived from Ontario, Canada when their French allies founded Detroit. The Wyandots followed the Detroit River 10 miles to the south and founded a village named Maquaqua.

The first permanent non-native settler in the area was Major John Biddle. He was an officer in the U.S. Army during the War of 1812 and a mayor of the city of Detroit. His land was located in the area of Biddle and Vinewood Avenues. He named his farm "The Wyandotte" after his neighbors to the south. When other settlers came to the area they started to refer to the area as Wyandotte. It is from Biddle's farm that the city of Wyandotte derives its name.

December 12, 1854 marks the date of the founding of the Village of Wyandotte, which coincides with the founding of Wyandotte's first industry, Eureka Iron Works. On May 26, 1865, Eureka Iron Works was the first mill in the United States to produce steel using the Bessemer Process. This method was the foundation of the industrial revolution and the key to making high-quality steel in large quantities. Unfortunately, Eureka Iron Works suffered a boiler explosion and fire in 1888, from which it never recovered.

The Village of Wyandotte officially became the City of Wyandotte on April 8, 1867. A few years after that event, in 1871, the Wyandotte Shipyards started operation. The shipyards produced many hulls, including the famous and speedy passenger boat, the Tashmoo, and the Columbia, one of the Boblo boats. The Shipyard remained in operation until 1922.

In the early 1890s, a man named Captain J.B. Ford traveled to Wyandotte to investigate the reports of salt deposits found here. Captain Ford was interested in the salt to produce soda ash, a chemical necessary in the manufacture of plate glass. Having found salt in sufficient quality and quantity, Ford created the Michigan Alkali Company to process the chemicals he needed. In addition, he started the J.B. Ford Company to further process the soda ash into various soaps and cleansers sold commercially. These and other chemical plants have

formed a lasting industry in Wyandotte that continues to this day. In 1969, the chemical giant BASF purchased the Michigan Alkali Company and the J.B. Ford Company (which merged in the 1930s) when they went public with their stock. BASF continues operations in Wyandotte to this day.

As the other communities of southern suburban Detroit have grown around it, Wyandotte's riverfront and other charms continually draw people from all over the world. Over the years, Wyandotte has mirrored the rest of the country with several waves of immigrant populations moving into the area seeking jobs and community. Much of the city's culture is influenced by the German, Irish, Italian, and Polish immigrants.

The city has several festivals during the year, including the Independence Day Parade, the Heritage Event Series (highlighting culture and history), the Wyandotte Street Art Fair (the second largest in the state), and Skip Clack's Fishing Derby. Also found in the city are many art studios, galleries and boutiques. There have been many local visual and performing arts groups in Wyandotte since its inception. Currently, the Acanthus Art Society is the oldest, having been established in 1932. The City also owns a cultural campus, which includes the Wyandotte Museums. The museums consist of three homes restored to a period-appropriate look.

Wyandotte, which is located 10 miles south of Detroit along the Detroit River, is a community of about 28,000 residents. With a municipally owned water and power plant, the City has the capacity to provide all needed services to businesses and residents.

As the City moves forward, it remains committed to preserving the past and celebrating the unique culture and history that make up the city of Wyandotte.

ALEXANDER'S CLEANERS: Family-owned, serving the community for decades

ALEX Alexander was a student at the University of Michigan studying political science at one of the most prestigious universities in the country, but it was on the weekends where he received the best education he could ever ask for – and from the best teacher he could ask for.

"I used to work in the store every Saturday during high school and college and thank God I did," Alex said. "That's where I learned...everything."

"The store" was and still is Alexander's Dry Cleaners in Allen Park, and Alex's teacher was his father, Alex Alexander Sr., who founded the family-run business in 1946 in Detroit. He moved the business to its current location at 5741 Allen Road in 1975 and the Detroit location was eventually sold in the late 1980s.

"Alexander's Dry Cleaners began as an idea when my father was a soldier in the U.S. Air Force serving in the desert of North Africa in 1945," Alex Jr. said. "One of my dad's combat buddies received a letter from his parents and in that letter was a crisp \$100 bill. He asked his buddy what his parents did for a living to be able to send \$100, and his fellow Air Force buddy said, 'my mom and dad own a dry cleaners and laundry.'"

Alexander's Dry Cleaners is now run out of a 4,000-square-foot facility that uses the latest technology, solutions and processes available, with a staff of eight employees led by an owner who not only kept his father's dream and vision alive but has expanded on it and taken it to the highest level – all the way to the National Football League.

"Yeah, we do all the dry cleaning for the Detroit Lions," Alexander said. "We take care of all the clothes the coaches wear and the game jerseys. We also do

all the dry cleaning for the Fisher Theatre and proudly clean and repair the uniforms for several high school ROTCs, band and choir programs."

"Pride" is an important part of what has kept Alexander's Dry Cleaners in business for almost eight decades.

"My dad taught me everything about the business and how to treat customers," Alexander said. "He taught me the importance of paying your bills on time and treating the customers like you would want to be treated."

Alex Sr. passed away in 1977, the same year Alex Jr. graduated from U-M.

"It wasn't my plan to take over the family business but I had no choice," he said. "My mom was only 46 and had five kids. We had bills to pay and I was lucky that I knew what I was doing when I took over. It became my life."

And it still is, to this day.

All the dry cleaning and laundry at Alexander's Dry Cleaners is done on site, including dress shirts and household items using environmentally friendly and state-of-the-art equipment. They offer superior service and quick turn-

around times on everything from dress shirts and slacks to household items such as drapes, quilts, comforters and blankets.

BETTER WATER = BETTER PERFORMANCE

ATHLETES: It's time to upgrade your drinking water to
Ionized Hydrogen Water

THE DIFFERENCE: Hydrate AND
remove lactic acid out of muscles 6x
faster.

THE SCIENCE: It hydrates 6x faster
because the water is restructured
into smaller micro-clusters when it
goes through the electrolysis
process. (Because it's smaller, it
moves in and out of cells faster.)

THE IMPACT: Pulling waste out of
the muscle FASTER allows athletes
to recover faster, train harder, get
stronger, run faster, and become
better athletes overall.

INTRODUCING: KANGEN WATER

WHAT IS IT?

Using innovative technology, this water ionizer
machine hooks up to your tap water and
produces alkalized, electrically reduced,
hydrogen-rich water, one of the most potent
antioxidants, and anti-inflammatories in existence.

WHO'S USING IT?

Tom Brady, Tiger Woods, Floyd Mayweather,
the US Olympic ski team, and more!

Seattle Seahawks, Green Back Packers, New
York Yankees, LA Dodgers, to name a few...

PUBLIC ART

The Gwen Frostic Sculpture sits in Frostic Field, located just behind the Copeland Center at 4th and Mulberry Streets. The sculpture was given to the city of Wyandotte by Western Michigan University and was dedicated on April 26, 2009. WMU has honored our city and memorialized Ms. Frostic with the gift of this fabulous sculpture, which melds Gwen's metal work with her delicate prints of Michigan's flora and fauna.

The Wyandots – A Family Tribute was dedicated to the city of Wyandotte in 2000. The sculpture sits in BASF Park, near Wyandotte Shores Golf Course. The sculpture was created by Michael Duffy Kramer and is made of bronze. The sculpture is modeled after a Native American family, and depicts items that are essential to their survival: corn, beans, squash, as well as tobacco, sage, sweet grass and cedar.

The Wyandot Totem Pole was carved by Gordon Watkins and is constructed of cedar. It was donated by Wyandotte Savings Bank to commemorate the city's 100th anniversary in 1971. The totem pole sits at the southwest corner of Eureka and Biddle Avenues near the fountain. A large turtle sits atop the pole that represents Chief Walk-in-the-Water's family totem. Five other figures tell the story of the Wyandot that settled in this area: an Iroquois warrior, the crest of French explorer Antoine de la Mothe Cadillac, a beaver, a whitefish and the figure of a Wyandot clutching a canoe paddle.

Merrill Lynch Bull and **Wyandotte Bear** were both created by artist Keith Coleman in 2005 and 2006, respectively. The bull sits on the corner of Biddle Avenue and Oak Street. The bear stands on the corner of Eureka and Fifth Street, in front of Wyandotte Roosevelt High School. They were created from salvaged water heater cores, and have a weathered rust finish.

The World War I Memorial is located on Superior Boulevard just east of Biddle Avenue and was dedicated to the city in 1923. The boulder and bronze tablet lists the names of those who lost their lives in World War I. Two cannons also sit on the site of the memorial.

The Veterans Memorial is constructed of black granite and flanked by flags. The Wyandotte Veterans Memorial Committee spearheaded the construction of the memorial, located on Superior Boulevard between Biddle and Van Alstyne. It was designed by Mike Miller, the winner of a design competition held for the project.

The Purple Heart Memorial was designed and sculpted by Isadore DeBiasi of River Rouge. It was originally dedicated by Michigan Governor Harry Kelly in 1943. The statue is a testament to the sacrifice of Michigan servicemen and women. Wyandotte has the distinguished honor of being the first city in the country to which the National Military Order of the Purple Heart commissioned and donated a monument of this type. The Wyandotte Beautification Commission and local veterans worked together from 2007-2010 to raise funds to bronze the statue.

Count Casimir Pulaski was cast in concrete and dedicated in 1938. It was shipped to the New York World's Fair in 1939, and remained there until the Detroit Institute of Arts acquired it. It was then given to Wyandotte to be placed in Pulaski Park, which is located on 12th Street south of Walnut. The statue was re-cast in bronze in 1991 and rededicated to the city.

The Wyandotte Vietnam Veterans Memorial is located at the east end of Superior Boulevard at Van Alstyne Street.

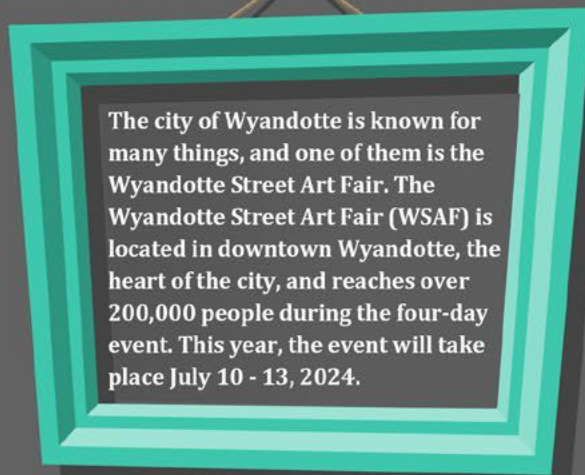

The Looking Forward Statue was donated as a sesquicentennial gift to the city of Wyandotte. The bronze, created by John Pappas of Ypsilanti, was installed in 2000. The sculpture is located in BASF Waterfront Park.

Wyandotte Street Art Fair

The event's history traces back to 1961 with a handful of artists from the Acanthus Art Society who exhibited their work in front of local businesses.

The city of Wyandotte is known for many things, and one of them is the Wyandotte Street Art Fair. The Wyandotte Street Art Fair (WSAF) is located in downtown Wyandotte, the heart of the city, and reaches over 200,000 people during the four-day event. This year, the event will take place July 10 - 13, 2024.

We guarantee there will be something for everyone!

ART! In 2009, staff found an early fair poster dating to 1964. We lovingly named him ART. ART is one of the earliest creative images representing our fair.

The WSAF features fine artists, crafters, food vendors, non-profit groups, sponsors and many local businesses.

With summer right around the corner, we hope you are excited to Find ART in Wyandotte at the 64th Annual Wyandotte Street Art Fair!

WYANDOTTE

MUNICIPAL SERVICES

YOUR HOMETOWN SERVICE PROVIDER

WWW.WYAN.ORG

The Wyandotte Municipal Services (Wyandotte Connex) telecommunications utility was created by local residents in 1981 when voters demonstrated their confidence in the department's ability by approving an ordinance to place the implementation, construction and operation of the new cable television system under the auspices of the Municipal Service Department.

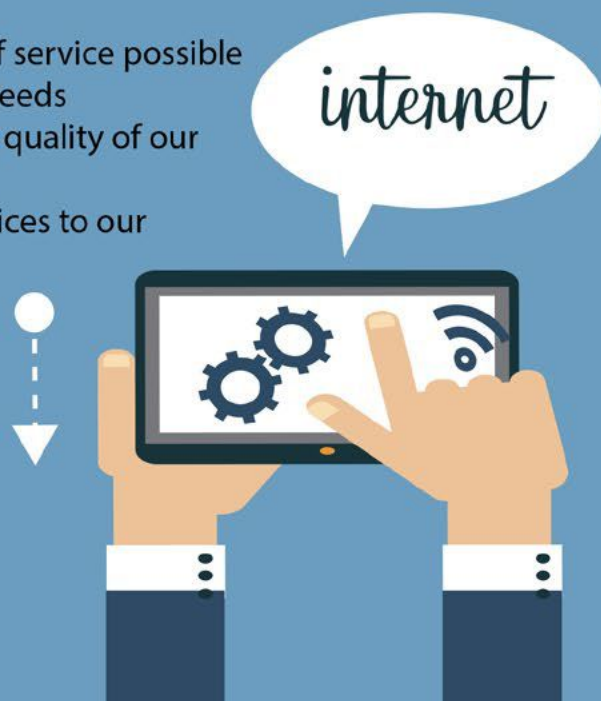

In 1983 the department installed the cable infrastructure throughout the city and began offering basic cable television services. Since then we have developed the limited basic cable television system into a full broadband telecommunications system.

In 2021 we began construction on Wyandotte's new Fiber to the Home system. Bringing state of the art fiber technology to your home or business.

In 2022 we also launched Wyandotte's own streaming service, DotteTV. Watch local content as well as the channels you love all on our streaming platform.

GOALS:

- Deliver the highest level of service possible
- Meet growing Customer needs
- Continuously improve the quality of our service
- Provide cost effective services to our customers

The image features several fiber optic cables. At the top, three cables are shown horizontally with their outer jackets removed, revealing the internal multi-colored fibers. On the left side, another cable is shown vertically with its fibers exposed. At the bottom, a large, thick black cable is coiled into a loop, with its fibers exposed at the top left. To the right of the loop, another cable is shown horizontally with its fibers exposed. The background is a solid light gray.

WATER DEPARTMENT

In early 1889, local residents created the Wyandotte Municipal Water Utility to provide fire protection and have a convenient safe source of drinking water. Today, the municipal water utility serves over 25,000 consumers, has annual revenues of over 3.5 million and sells over 1.5 billion gallons of water annually.

Wyandotte is the only downriver community that owns and operates a potable water filtration plant. The Wyandotte Municipal Water Plant can produce up to 15 million gallons of water per day. The community's water source is the Detroit River and the treatment process consists of:

- 💧 Screen or remove debris
- 💧 Add alum for coagulation of suspended particles
- 💧 Add chlorine for disinfection
- 💧 Add phosphate for stabilization
- 💧 Remove all suspended particles through filtration

Our water distribution system consists of 110 miles of water mains ranging from 4 inches to 30 inches in diameter. Fire protection is provided by over 850 fire hydrants located throughout the community. The municipal water system has a 500,000 gallon elevated storage tank (water tower) and 4.5 million gallons of ground level storage for peak demand periods such as fighting fires or other emergencies.

OUR DEPARTMENT GOALS

- 💧 Assure availability of potable water based on a projection of our community's needs
- 💧 Provide a treated water supply and distribution system through the implementation of an engineered plan
- 💧 Maintain cost effective service for all customers
- 💧 Ensure compliance with the State Drinking Water Act
- Provide information and education to state and federal officials and legislators, and K-12 systems using ongoing communications and public relations

ELECTRIC DEPARTMENT

The Wyandotte Electric Light Company was incorporated on September 19, 1889, for the purpose of manufacturing and supplying electricity for light, heat and power.

In 1892, local residents voted to create a community owned municipal electric utility, which initially provided only street lighting. In 1896, the municipal electric utility began serving retail consumers and for a number of years the municipal electric utility and the Wyandotte Electric Light Company competed locally for consumers.

Today, Wyandotte's municipal electric utility is one of 41 public power systems in Michigan, and one of nearly 2,000 public power systems in the United States. It serves over 14,000 consumers. Wyandotte Municipal Services' electric department encompasses the Power Plant along with the Transmission and Distribution (T&D) side of bringing electricity to residents and business located in Wyandotte.

Our Municipal Services' electric system has three sources of supply to provide reliable, affordable service. Our electric distribution system consists of 69,000-volt transmission lines and 13,800-volt distribution lines. The municipal electric utility also installs, maintains and provides electricity for streetlights throughout the community.

Wyandotte having its own electric distribution gives our residents a great advantage when power outages occur. The time to bring our power back online is considerably less than in neighboring communities served by other public power utilities. Reliability is our number one priority. All you have to do is ask any Wyandotte citizen about the reliability of Wyandotte electric and you'll generally get the response that there is no better provider of electric services.

OUR DEPARTMENT GOALS:

- ⚡ Assure availability and reliability of electricity to all residents and businesses
- ⚡ Provide safe electric generation and distribution through the implementation of an engineered plan
 - ⚡ Maintain cost effective service for all customers
 - ⚡ Ensure compliance with EPA and all State and Federal regulations
- ⚡ Provide information and education to State and Federal officials and Legislators, and K-12 systems using ongoing communications and public relations

LIST OF INSURANCE PLANNING MISTAKES – AND HOW TO FIX THEM

By: Gerald M. Morello, Jr., Esq.
MORELLO LAW GROUP, P.C.

While acknowledging David Letterman as the master of the Top Ten List, the following is my own Top Ten List of insurance planning mistakes and how to fix them:

- **NAMING YOUR ESTATE AS BENEFICIARY**

If you name your estate as the beneficiary, the probate court is involved, guaranteeing a time-consuming, public and expensive process. Consider establishing a Revocable Trust and naming the Trust as the primary beneficiary for probate avoidance, privacy, simplicity and potential tax savings.

- **NAMING AN EX-SPOUSE AS BENEFICIARY**

While an obvious mistake, old insurance policies often designate an ex-spouse or other person that no longer has a relationship with the policy owner. In order to rectify this, a review of your current beneficiary arrangement is important. Consider establishing a Trust and maintaining your Trust beneficiaries in a manner that reflects your current wishes.

- **NAMING A MINOR CHILD AS BENEFICIARY**

If you name a minor child (under age 18) as a beneficiary, the insurance company will require a conservator appointed to process the claim and receive the death benefit. A conservatorship is a probate court process that is public, costly and time consuming. There will be annual work (and expense) until your beneficiary attains age 18. Upon attaining age 18, your now adult beneficiary receives the money and is free to spend it as he sees fit. Consider a Trust to receive the death benefit and design appropriate payout provisions. Your Successor Trustee would supervise distributions of the insurance proceeds to your beneficiary for education and health needs and distribute the balance to your beneficiary at age 30 (for example).

- **NAMING A “DISABLED PERSON” AS BENEFICIARY**

This error could jeopardize government benefits available for your beneficiary. Instead, provide the insurance proceeds to your Trust with appropriate provisions to maintain government benefits for your beneficiary.

- **OWNING A POLICY ON AN ADULT CHILD**

If you own a policy, and someone else is the insured, and you die first, the insurance policy must go through probate to have a new owner on the policy. Consider either transferring the ownership to the adult child, or in the alternative, transfer the ownership of the policy to your Trust.

- **OWNING A LARGE LIFE INSURANCE POLICY IN YOUR OWN NAME**

The death benefit on an insurance policy owned by you will be counted in your gross estate for Federal Estate Tax purposes. If you do not own the policy, then the death benefit is not included in your taxable estate. If necessary, establish an Insurance Trust to own the policy and distribute the proceeds to your heirs at death completely tax free.

Gerald M. Morello, Jr.

- **CASHING IN A LIFE INSURANCE POLICY WHEN YOU ARE UNINSURABLE**

The rule is that you do not cash in a life insurance policy if you cannot get insurance. This simply benefits the insurance company and hurts your family.

- **CASHING IN A LIFE INSURANCE POLICY WITHOUT CONSIDERING THE TAX CONSEQUENCES**

If you cash in a life insurance policy, any gain on the cash value of the policy will be taxed as income to you upon receipt. Consider transferring the cash value into a more cost-effective insurance policy or an annuity.

- **SURRENDERING A LARGE POLICY WITHOUT CHECKING THE LIFE SETTLEMENT MARKET**

Traditionally, a policy owner could only surrender the policy if he no longer wanted to maintain it. Now, if the policy is large enough, a private market exists where a third party might purchase the life insurance policy for a far greater amount than the surrender value. This creates substantial opportunity if you no longer wish to maintain your current insurance program.

- **FAILING TO REVIEW YOUR LIFE INSURANCE POLICY ON A REGULAR BASIS**

Life insurance plays a critical part in your financial and estate planning. Your current life insurance program should reflect your current needs and goals. Review your life insurance regularly with your financial planner and estate planning attorney to accomplish your goals in the most cost-effective and tax efficient manner.

An aerial photograph of a city waterfront. In the foreground, there are several large, multi-story houses with gabled roofs and porches, some with swimming pools. The houses are surrounded by trees with vibrant autumn foliage in shades of yellow, orange, and red. A river or canal flows along the right side of the houses. In the background, more city buildings and a bridge are visible. A dark blue diagonal band cuts across the image, serving as a background for the text.

Avoid Frostbite!

Indoor experiences to beat the winter blues By Kelsi Klein

FOR many people in Michigan, sometimes just the thought of going outside in the bitter cold is too much to bear. If you hate the cold but still want to have some fun this winter, check out some of these indoor activities.

● **Rev'd Up Fun**

19830 West Road, Woodhaven
This indoor amusement park features bumper cars, an indoor playscape, laser tag, ropes course and much more. Learn more at www.revdupfun.com.

● **Bowlero Lanes and Lounge**

4209 Coolidge Hwy, Royal Oak
Enjoy bowling in a restored retro bowling alley with food, arcade games and a cocktail lounge. Visit www.bowlerodetroit.com to learn more.

● **Marvin's Marvelous Mechanical Museum**

31005 Orchard Lake Road, Farmington Hills
This 5,000-square-foot space is filled with vintage coin-operated games, oddities, macabre and video games. Admission is free and all are welcome. Learn more at www.marvin3m.com.

● **Dave & Buster's**

19375 Victor Pkwy Ln, Livonia
This restaurant/arcade is full of games and activities for all ages to enjoy. Have a meal, play games to get tickets and redeem prizes. Visit www.daveandbusters.com for more information.

● **Detroit Historical Museum**

5401 Woodward Avenue, Detroit
Spend a day learning about the history of Detroit with plenty of exhibits giving guests an inside look at the city's past. Learn more at www.detroithistorical.org.

● **The Great Escape Room**

301 W 4th Street, LL110, Royal Oak
Visit an escape room that was voted number one and try to break codes and solve problems to get out before it's too late. Learn more or book tickets at www.thegreatescaperoom.com.

● **Ann Arbor Hands-On Museum and Leslie Science and Nature Center**

220 E. Ann Street, Ann Arbor
Geared for children, the museum and nature center offer interactive exhibits and activities that will bring joy for kids and adults. Learn more at www.discoverscienceandnature.org.

● **Outdoor Adventure Center**

1801 Atwater Street, Detroit
Don't let its name fool you, this attraction brings Michigan outdoor activities indoors with hands-on activities, simulations and more. Learn more at www.michigan.gov/oac.

● **Genitti's Dinner Theater**

108 E. Main Street, Northville
For a unique experience, enjoy a lunch or dinner theater interactive comedy show in Downtown Northville. Learn more or book a reservation at www.genittis.com.

● **Dossin Great Lakes Museum**

100 Stand Drive, Belle Isle, Detroit
Visit a hidden gem on Belle Isle and discover a marine artifact collection, 200+ models of Great Lakes ships and more. Learn more at www.detroithistorical.org.

Customers Come First

Local insurance agent helps his clients get the coverage they need

TODD Hanna proves that his customers always come first in not only what he does but how he does it. And it's his customers who were the genesis for starting his own insurance company after years working for one of the largest firms in the country.

"Customer service always comes first," said Hanna, owner and founder of Downriver Insurance Group. "The reason I left a captive agency for an independent was to have many insurance carrier options for my customers to help find the best price."

Hanna has always been about helping people. He's an Army veteran, Wyandotte city councilman, and American Legion Commander Post 389 in Riverview. He also runs a nonprofit called Hanna's Helping Hands in Wyandotte.

And again, with helping people as the impetus, Hanna left Allstate to become an independent agent three years ago, opening Downriver Insurance Group / CG Insurance in January 2021.

"I care more about customer service than the sale and our customers have loved that about me over the years," said Hanna, an Allstate agent since 2007. "Our agency was created specifically to save our customers money and provide the best customer service in the industry."

Located at 2232 Eureka Road in Wyandotte, Downriver Insurance Group has a vast customer service team that offers many insurance carriers, making shopping easy. They offer commercial, home, auto, life, boat, motorcycle, and off-road insurance.

"We represent numerous insurance carriers that provide various coverage options and price ranges because we are an independent insurance agency," Hanna said. "Thanks to our contacts and market expertise, we frequently find a better bargain for your insurance money than you may encounter by looking on your own. We will find you the perfect coverage for your personal or business insurance needs at a fraction of the cost."

It all comes back to great customer service.

"Our objective goes beyond only assisting our customers in finding the appropriate insurance – it also includes being accessible to respond to their inquiries, process claims, or renew coverage options," Hanna said. "We constantly try to help others in any way we can, so we've teamed up with insurance companies to provide excellent customer support after business hours and on the weekends. So, whenever our customers need us or need access to their insurance information, they can give us a call, click, or send us an email and we will respond right away."

"Our dedicated service and knowledgeable insurance agents will be with you every step of the way so you can enjoy complete peace of mind and know you are getting the best value for your money."

The Wyandotte Museum

Did you know the City of Wyandotte has a space dedicated to bringing local culture and history to life? Situated at the southwest corner of Biddle Avenue and Vinewood Street is three of the four buildings that make up the Wyandotte Museums campus. Each structure has its own unique story and current usage – the main showcase of which, the Ford-MacNichol Home at the very corner, is Wyandotte’s official museum.

Initially the property of Major John Biddle, former Mayor of Detroit, and then the Eureka Iron Works, the building we see today was completed in 1896 in the rich, Victorian Queen Anne style. The 6,600-square-foot home, much of the interior being original, boasts 32 rooms, 11 closets and six fireplaces. Visitors will find leaded stained-glass windows, rich golden oak installations, speaking tube technology, and custom, rounded tower areas.

From 1896 through 1977, the grand home passed through many hands. The MacNichols were the original inhabitants, followed by the Drennans and finally the Lattas, before the City purchased the home and it opened as a museum in 1980.

Visitors can learn much more about the home, its former owners, and various other aspects and tidbits of Wyandotte and local history by dropping by for a guided tour. Tours are available Thursdays through Sundays from 1:00 p.m. to 5:00 p.m., March to October, as well as in December, and admission is free!

The Wyandotte Museums also offers much more than just tours! In fact, each year, the Heritage Events Series takes place both on and off the campus. We offer the opportunity to peruse our archives. Whether a class project, genealogical study or interest in a particular subject, we can help.

No Sliding, No Cursing, No Gloves

It may surprise many to know Wyandotte has its very own historic base ball team. Yes, you read that correctly: base ball. Back in 1867, when the original Wyandotte Star Club was formed, the spelling was a little different, as were many of the rules, as you can see in the title at the top of this page!

Today, a group of volunteers, young and old and from all walks of life, don similar vintage uniforms each weekend and play the game as it was played 150 years ago. They network and compete against other historic teams, interact and educate the public, and engage in various Museum events throughout the year – all in the name of fun.

The Stars practice and play home games at Memorial Field at Pennsylvania Avenue and 23rd Street. All matches start at 1:00 p.m.. Yearly game schedules are available by contacting or stopping by the Museum office, starting in early spring. The Stars also play their Annual Home Classic, which is a festival held in late August. All are invited to see the Stars play for free – no tickets necessary!

Join our corps of Volunteers!

The benefits of volunteering one's personal time or resources to the betterment of a community is well-documented and immeasurable. Volunteering offers one the ability to create fruitful connections with others and network and gain valuable skills. Not to mention, it fulfills an intrinsic desire many have to make a difference or simply bask in their own interests.

The Wyandotte Museums offers a host of volunteer opportunities. These range from acting as a museum docent and giving tours, to helping with collections and their care, campus landscaping and cleaning, aiding with events and more. Have a school requirement you need to fulfill? We may be able to help!

Those interested in volunteering with the Wyandotte Museums can utilize the contact information below. No experience is necessary and staff can meet with you to discuss your interests or areas in which you may wish to donate your time.

CITY SERVICES

The City of Wyandotte is proud to have a high-quality team of Public Safety experts. We provide police and fire services to residents and businesses in the city of Wyandotte. Our team works in conjunction with city officials and the staff of Henry Ford Wyandotte Hospital to ensure quality emergency services. We pride ourselves on our rapid response time when handling emergency situations. (More information can be found on www.wyandotte.net and toward the back of this publication.)

THE JOSEPH R. PETERSON JUSTICE BUILDING THE 27TH DISTRICT COURT

The 27th District Court has jurisdiction over matters that occur within the city of Wyandotte and the city of Riverview.

WYANDOTTE POLICE DEPARTMENT

It is the mission of the Wyandotte Police Department to provide honest, efficient and effective law enforcement services, to promote a safe and secure environment through the delivery of fair and impartial police services, and to protect life and property. It is their goal to consistently promote, preserve and deliver the highest quality of professional police services possible to all individuals who live or work in, or visit the city of Wyandotte.

THE DEPARTMENT OF PUBLIC SERVICE

This Department is responsible for the maintenance and snow plowing of all city-owned roads, maintenance of city-owned property and city vehicles, repairing potholes and other minor road repair, street sweeping of city roads, trimming trees in the city right-of-way, mowing in the city right-of-way, maintenance of landscaping throughout the city, installation and repair of city signage and assisting in staging for special events in the city.

WYANDOTTE FIRE DEPARTMENT

Our mission is to ensure the welfare of the members of the Wyandotte Fire Department. We strive to protect the lives and safety of the citizens and property of Wyandotte from fire, and natural or man-made disasters.

HENRY FORD WYANDOTTE HOSPITAL

Established in 1926, our mission is to improve human health through excellence in the science and art of health care healing. Henry Ford Wyandotte Hospital is located in the heart of Wyandotte, along Biddle Avenue. The hospital is a part of the Henry Ford Health System. The facility has over 589 skilled physicians who treat more than 74,600 people in our emergency department per year. They also perform more than 19,600 surgeries and deliver over 1,600 babies. The hospital admits, on average, more than 18,000 patients each year.

ANIMAL CONTROL DEPARTMENT

Downriver Animal Control is operated as a division of the Wyandotte and Southgate Police Departments and works in conjunction with Pound Pals and

volunteers of P.A.W.S. to provide the citizens of Wyandotte with animal care services. Animal Control adopts domesticated cats and dogs as long as they are not vicious or in a state of poor health. Friendly animals are spayed/neutered and available for adoption during our weekend and evening adoption hours.

A MESSAGE FROM WYANDOTTE PUBLIC SCHOOLS SUPERINTENDENT

James Anderson

Hello Wyandotte Community Members,

I want to start by extending my sincere gratitude to Wyandotte Today for allowing me to showcase all the great things that take place here in Wyandotte Public Schools. This is the first of many regular updates where I will share just a small part of what makes WPS so great!

With the first half of the school year now behind us, we have a lot to celebrate. I am in buildings each week and I see so many wonderful things taking place. For example, this past fall the Roosevelt girls' swimming team repeated as league champions. The Wilson Middle School robotics team won their qualifying match and went on to compete at the state competition. Representatives from our United Sound Program traveled to Chicago to perform with the "President's Own" Marine Band at the Midwest Clinic.

In our classrooms we are piloting new curricular programs while constantly improving instruction in all academic areas.

In addition to the work, we have a lot of fun with events in all our buildings. Members of our community came together to develop a strategic plan that outlines goals for the next three to five years.

It truly is an exciting time to be a part of Wyandotte Public Schools!

Looking ahead we are developing and strengthening relationships with several local businesses and organizations to better serve our students. We are looking at career opportunities right here in Wyandotte for our future graduates as well as pathways beyond our tight-knit community. Our goal is to open the door to as many opportunities as possible for our students, no matter what they wish to pursue!

Stay tuned for the next edition to hear more great things about Wyandotte Public Schools! In the meantime follow me on Facebook at Dr. Anderson Wandering Wyandotte, where I share my travels through the district.

Sincerely,

James Anderson
Superintendent

'I PLAY FOR THEM'

Basketballer cites brothers as inspiration, hopes to continue in college

By Terry Jacoby

JONAH Sadler found something he loves to do and he isn't ready to give it up.

A senior basketball player at Wyandotte, Sadler is a four-year varsity player and a three-year starter for the Bears. He is playing his final high school season with one eye on helping his team win games and the other eye focusing on doing what he needs to do to play at the next level. The good news is that both things go together.

"I hope to play basketball after high school, it's my favorite thing to do, it's in my blood," Sadler said. "I haven't picked a college yet, but whatever college wants me to play basketball is where I'll go. All I want is an opportunity and I feel like I am good enough. I just hope I can get a chance to make my family and friends proud."

He has already made his teammates and coach proud.

"Jonah is a quiet kid but plays very hard," said Wyandotte Coach Ron Adkins. "He is our leading scorer and speaking captain. He is a great kid, very respected by his peers and very respected by our coaching staff. When he gets hot he is as good as any shooter in our conference."

Sadler, a guard, was All-League and All News-Herald Boys First-Team last year as a junior after averaging 14 points per game. The Bears won only seven games last season.

This year's team is much different, despite a slow 2-7 start out of the gate, and despite Sadler dropping 41 points in a season-opening win over Grosse Ile and 30 in a close loss to Huron.

"This year's group is the closest group I've been a part of," said

Sadler, who hopes to top 1,000 points in his high school career. "I've been playing with these guys since middle school and we've created an unbreakable bond. We all have the same goals and vision, including holding up the district trophy at the end of the season. That's what makes our team strong – we all know what we want and we go to war together for it."

Jonah, 18, is the son of Tammy and Jimmie Sadler and dribbles to a 3.7 GPA in the classroom.

He started playing basketball because "basketball was a cycle in my family".

"I have four older brothers who all played basketball, but my two brothers Jobe and John are the reason I started playing," Sadler said. "Watching my brothers blossom into the sport they loved playing gave me inspiration to be just like them. I play for them. I want to prove to my family that I won't quit and that I will succeed."

Sadler has some advice to pass along to younger players who are discovering a love of basketball.

"Young kids starting out playing basketball should watch the game," he said. "Every kid should spend some time watching basketball games, whether it's high school, college or the NBA. To learn the game, you have to watch and study."

Photos by Rob Watson

It's an important aspect in starting out. I've watched basketball my whole life and it's an important learning tool but also an inspiration tool. Watching those big guys play you end up telling yourself, 'I wanna be just like them.'"

ANIMAL CONTROL

Q: What do I do if I find or have lost a cat or dog?

A: Downriver Central Animal Control is the intake shelter and picks up all lost domestic animals. They are located at 14300 Reaume Pkwy., Southgate, MI, 48195, two blocks west of the Southgate post office off Dix between Northline and Eureka. Domesticated animals will be picked up by our department or can be dropped off. You may call us at 734-246-1328*9 Requests after 5 p.m. may be directed to the Wyandotte Police Department's non-emergency number at 734-324-4438. The Wyandotte Adoption Center, 1170 Grove, has been turned into the adoption center for the DCAC. They do not accept stray animals. You may also visit our Facebook page. www.facebook.com/dcacashelter and post a picture of your dog. Pictures of incoming animals are posted there also.

Q: What do I do if a squirrel, opossum, raccoon, or other animal gets into my home?

A: Traps are available to capture non-domesticated animals that are causing property damage. Please contact the Downriver Central Animal Control at 734-246-1328 or 734-324-4438 (after 5 p.m.) to obtain a trap. Most traps

will need to be picked up at the office. Once the animal is successfully trapped, you must contact Animal Control for pick up. Traps are rented out Mon-Wed. There is a \$20 deposit with a \$5 rental fee in which you will receive your deposit back within 5 days, \$1 a day after 5 days. Animal Control will not pick up cages that are privately owned.

ASSESSORS OFFICE

Q: Property values in my neighborhood have been decreasing, will my property valuation be decreasing as well?

A: Unfortunately, there isn't a yes or no answer to that question. If you've owned your property for a significant amount of time, more than likely your State Equalized Value (SEV) far exceeds your Taxable Value. If this is the case, a decrease in valuation, caused by a slow real estate market, will be reflected in the SEV. The taxable value is required by the Michigan Constitution to increase each year by the rate of inflation or 5 percent, whichever is lower. In the case of a longtime property owner, the SEV could decrease, while the Taxable Value will continue to increase.

Q: If the SEV decreases, will I pay more or less in property taxes?

A: Your property taxes are based on the taxable value rather than the SEV. So, in the previous scenario you would pay more in taxes even though your SEV decreased.

Q: Why isn't my new assessment 50 percent of my purchase price?

The simple answer is that it is against the law. MCL 211.27 states that the purchase price is no longer the presumptive True Cash Value of a property. The assessment may be close to 50 percent of the purchase price but it is determined by investigating the other sales in the area and all of the SEVs are set using that sales study.

Q: Can I appeal my assessment, and when?

After you receive the Change of Assessment notice you may file a petition to make an appointment. Please see Board of Reviews FAQs and Common Assessment Terms on our website for more information.

CLERKS OFFICE

Q: How can I obtain a birth, death or marriage certificate?

A: The City of Wyandotte only maintains records of births and deaths that occurred in the city. More information and forms are available at the City Clerk's webpage. The City of Wyandotte does not maintain records of marriages.

Marriage certificates must be obtained from the County Clerk's office in which the marriage was performed. For marriages that took place in Wayne County, you may visit the Wayne County website for more information on how to obtain a marriage license.

Q: When are City Council meetings?

A: Council Meetings are to be held at least two (2) times each month at 7 p.m. A listing of meetings can be found on our website under the City Council Agenda & Minutes page.

Q: Where are City Council meetings?

A: City Council meetings take place in Council Chambers on the third floor of Wyandotte City Hall, 3200 Biddle Avenue, Wyandotte, Michigan 48192.

Q: Am I allowed to address the Mayor and Council without being placed on the agenda?

A: All citizens are permitted to address the Mayor and Council during the public comments portion of the meeting. Please be advised that when you approach the podium you will be asked to state your name and address for public record.

Q: How do I get an item placed on the agenda for the City Council meeting?

A: You must submit a request in writing to the clerk's office to be placed on the agenda. Your request must be received no later than 4:30 p.m. the Wednesday prior to the Monday meeting. Requests and all supporting documentation must be submitted along with the request to the Office of the City Clerk. Printed copies of the City Council Meeting Agenda are available in the Information Center located on the first floor of City Hall. City Council Agendas and agenda item submission dates may also be found online.

Q: How do I register to vote?

A: Voter registration information may be found by visiting the City Clerk's webpage or by calling the City Clerk's Office.

Q: What are the requirements to register to vote?

A: The requirements are as follows: 1. You must be a citizen of the United States. 2. You must be a resident of the State of Michigan and will be at least a 30-day resident of the City by Election Day. 3. You must be at least 18 years of age by Election Day.

Q: How do I obtain an absentee ballot to vote?

A: Absentee ballot information may be found by visiting

FAQs continued on page 94

the City Clerk's webpage. The City of Wyandotte maintains an automatic application list that allows voters to permanently receive applications for absentee ballots in upcoming elections. Please call the Clerk's Office for more information.

Q: Where can I vote?

A: The Precinct Map & Polling Location addresses may be found by visiting the City Clerk's webpage.

DEPARTMENT OF PUBLIC SERVICE

Q: How do I sign up for garbage service?

A: The City contracts with Waste Management for all curbside residential service within the city limits. When you sign up for water & sewer service, you are automatically scheduled to receive this service.

Q: What types of items will sanitation workers collect curbside?

A: You may refer to the Department of Public Works webpage for information regarding the types of items that will or will not be collected curbside.

Q: I would like to subscribe to curbside recycling. How can I get a recycle bin?

A: You may subscribe to curbside recycling by contacting Waste Management directly at 866-797-9018.

Q: How do I dispose of unused medication?

A: The Wayne County Land Resource Management Division also has information on disposal of prescription medication. Visit their website for more information.

Q: How do I dispose of electronics and computers?

A: The Wayne County Land Resource Management Division also has information on disposal of electronics and computers. Visit their website for more information.

Q: How do I dispose of used syringes?

A: You may dispose of used syringes in your trash, provided they are sealed in a puncture-proof container. For the safety of our sanitation users, please do not use milk jugs or water bottles. We recommend that you use plastic laundry soap bottles instead.

Q: Due to the recent storm, I have a lot of storm damage from my trees. Will the city pick up this storm damage?

A: The City of Wyandotte Public Services Department does pick up tree branches and tree debris after a storm. It is recommended that residents contact The Department of Public Services at 734-324-4580 to have their address placed on our storm damage listing. City crews will only pick up storm damage that is placed at the curb. Crews

will not enter upon private property to collect materials. Typically, storm damage is collected within 2-3 days after a storm or high wind has occurred. However, collection will occur as time permits.

Q: How can I report a pothole or street repair issue?

A: Citizens can report large potholes or street repair issues on city or county roads by calling 1-888-ROAD CREW.

Q: Why hasn't my street been plowed yet?

A: The Department of Public Service's goal is to provide a bare pavement quality recognized by many other Snow Belt cities. The order in which the roads are plowed is: 1. Police and fire facilities, bridges, hills and curves. 2. Major road networks and emergency routes. 3. The balance of the local roads.

Q: My home does not have a driveway. Where can I park during a Snow Emergency?

A: The City of Wyandotte has numerous Snow Emergency parking lots available for use during a snow emergency. Locations of these parking lots can be found on our website.

Q: I was parked on the street during a snow emergency and my car was towed. How do I get it back?

A: Police towing is performed by Groat Brothers Towing, 1466 Eureka, Wyandotte. In order to release your car, you must first pay the fine. You may contact Groat Brothers Towing at 734-284-6232

ENGINEERING AND BUILDING

Q: What codes does the City of Wyandotte enforce?

A: Copies of the code books are available for purchase on the State of Michigan website. The City of Wyandotte has also adopted a Property Maintenance Code Ordinance #1094, which may be found by visiting our website.

Q: When do I need to pull a permit?

A: If you are doing any structural changes or building a new building a permit is required. If you are doing any electrical, plumbing or mechanical upgrades; replacing City sidewalks, driveway or driveway apron; installing a pool a permit is required. For more information about the types of permits and fees associated with them, you may visit the Engineering and Building Department website.

Q: Does a Building Permit also include electrical, mechanical or plumbing work?

A: No, separate permits are required for electrical, mechanical and plumbing. For more information about the types of permits and fees associated with them, you may visit the Engineering and Building Department web page.

Q: How long does it take for a permit to be issued?

A: In most cases, electrical, mechanical and plumbing permits can be issued right away. Building and Concrete Permits require additional time for processing and are typically issued within 24 to 48 hours.

Q: Is a permit required for a new fence?

A: No, a permit is not required. However, fences must be installed in accordance with the Zoning Ordinance Section 2406 Fences, which may be found online on our website.

Q: Can I start work without a permit?

A: No. A permit must be secured before work can begin. Work started without a permit is subject to a fine in the amount of \$125.

Q: As a homeowner, can I pull my own permit?

A: As the owner and occupant of a single-family dwelling, you can secure homeowners permits as long as you are doing the work. If the property is a multiple family or rental dwelling a licensed contractor is required for electrical, mechanical and plumbing permits. The owner may secure the building permit only.

Q: Is an inspection required if I am selling my home?

A: Yes, an inspection is required for the sale of any dwelling in the city of Wyandotte. Inspections for sale are done on Tuesdays and Wednesdays from 9 – 11 a.m. and 11:30 a.m. – 2 p.m. Applications and fees associated with this may be found at the Engineering and Building Department web page.

Q: Is an inspection required if I want to rent my home?

A: Yes, an inspection is required. Also, you are required to register the home as a rental with the City Clerk's Office. Inspections for rental properties are done on Tuesdays and Wednesdays from 9 – 11 a.m. and 11:30 a.m. – 2 p.m. Applications and fees associated with this may be found at the Engineering and Building Department web page.

- **Author Talk: Dan Grajek** is Wednesday, March 13, 2024 @ 6:00 p.m.
"The Last Hobo Meets the Moon People, A True Story" by Dan Grajek. Most remember the Kool-Aid-drinking Jim Jones cult, but few recall the Moonies, the original "doomsday cult." Eight months after over 900 people perished in Jonestown, Ted Granger – then an idealistic U of M Dearborn student – joined the Moonies in San Francisco. Naturally, his parents back home feared the worst. For more information visit <http://www.dan-grajek.com>.
